C-Bar Red Angus
HERD REDUCTION SALE

MAY 12, 2018 - 1 PM

AT THE RANCH IN BROWNELL, KS

C-BAR RED ANGUS

Friends,

I am amazed at the reaction we have received to our first ad for our herd reduction. I'm sure that not everyone understands what our plans are or exactly what the opportunity is in this sale. Let me assure you that this is not a dispersal sale. Perhaps a semi-retirement but in no way a plan to leave the Red Angus scene. I have been asked what I would do if I retired, my response is always, "Exactly what I'm doing now but just at a level where I can comfortably enjoy it."

Through this sale and the phase II sale on October 15, 2018 we will sell 75% of our female herd. This sale will offer most of the fall portion of our herd. We are offering 100% of the ET pregnancies that will calve from now until the end of 2018. None have been held back or sold off privately. We are also including those fall heifer calves that we were able to have ready at this time. The bulls being offered have not been on the market until now. Select Donors are coming straight out of our donor pen. At the last minute I decided to include all of our spring 2-year-old pairs that we aren't flushing. Lack of rain and spring green up is why we aren't holding these cattle until the fall sale.

I can feel the level of expectation for this sale and it is my desire to live up to that expectation. We will only be retaining a small number of Donors, Bred Heifers, and Heifer Calves to continue the C-Bar herd. Sisters, Daughters, and pregnancies from the remaining C-Bar core genetics will be offered in this and the fall sale. Through this small core we plan to offer more opportunity to our young partners to grow and become a bigger part of the C-Bar program. Cindy and I will be able to redirect our energy, time, financial and physical resources to do a better job for our partners and customers as well as take more personal time away from ranch duties.

When I was a young man I worked hard and fast, as I gained experience I worked with a better plan, and still with success I gained a greater focus and worked smarter. When more resources became available I worked harder, as I grew older it became difficult to work hard and fast so I worked longer. Now I've realized that harder, longer, faster is not possible and I must be wiser and share the load.

Hope you enjoy the catalog and offering. Remember; keep God and Family First!

Sincerely,

Steve & Cindy Maier

THE C-BAR RED ANGUS

Red Angus Enthusiasts,

It is with great pleasure that we welcome you to the C-Bar Red Angus Herd Reduction Part I. With a focus and drive to create superior Red Angus genetics, Steve Maier and his family have devoted their lives to focusing on the advancement of the Red Angus breed and the beef industry as a whole. Steve recently said it best, "it's time to sit back and smell the roses". This doesn't mean C-Bar is going anywhere. . . . in fact the calf crop will be as powerful and impressive as ever before!

In the valiant effort to continue this path, large numbers of embryos from donors of elite status have been transferred in commercial satellite cooperator herds. This will enable bull customers the opportunity to purchase more full brothers to increase the uniformity of their calf crops. These large numbers of ET calves being born each year has created this opportunity to tie to some of the most elite donors, bred heifers, pairs, and genetics ever produced in Brownell, Kansas!

C-Bar is making great stride in the area of breed improvements, through a feeder calf buy back program established for customers. This will allow carcass and performance data to be collected on large numbers of Red Angus sired cattle. The data collected will enable more rapid genetic progression.

The largest and most elite offering of pregnancies to sell this year will be offered on May 12. This will include highly proven and rare genetics that are the last of their kind! Fall open heifer calves from the heart of the ET program, two-year old spring pairs, and a select group of proven donors will sell!

The offering will be available for viewing prior to the sale. All lots will be videoed and available on DVAuction.com. The videos will be posted the week leading up to the sale. We would be happy to answer any questions about the offering and visit about the potential that this offering has. Please consider this your invitation to join us on May 12, 2018 at the ranch in Brownell, Kansas. Lunch will be served at 12 noon, with the sale beginning at 1 PM. See you on sale day!

Enjoy the cattle,

Innovation Ag Marketing, LLC

HERD REDUCTION SALE

1. BIDDING

The Auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

2. TERMS

Terms of sale are cash unless satisfactory credit arrangements have been made with Sale Management prior to sale.

3. PURCHASER'S RISK

Each animal becomes the risk of the Buyer as soon as sold, but it shall be the obligation of the Seller to see that animals are fed and cared for free of charge to Buyer, until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner.

4. HEALTH

All animals are eligible for interstate shipment, except as otherwise announced. Interstate health papers will be furnished for each animal requiring tuberculosis and brucellosis tests in accordance with Federal Regulations.

5. ANNOUNCEMENTS

Any changes from information of any kind in this catalog will be announced from the auction box and such announcements shall take precedence.

6. DEFAULT

In the event the Buyer defaults on payment, the Buyer shall be responsible for all costs, including attorney's costs, incurred by Sale Management or Seller in connection with collecting, or attempting to collect, payment due.

7. BREEDING GUARANTEE

All animals are guaranteed by the seller as outlined in the Red Angus Association of America Code of Ethical Sale Practices.

8. CONTRACT

The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

9. LIABILITIES

All persons who attend the sale do so at their own risk. The seller, the sale manager, and the auction facility assume no liability for accidents that may occur. It is to be clearly understood that the sale manager and their representatives act only as a medium between the buyer and seller.

SIGHT UNSEEN PURCHASE

All purchases made on order or over the internet with C-BAR Red Angus are 100% satisfaction guaranteed upon delivery.

A GUIDE TO EPD'S

EXPECTED PROGENY DIFFERENCE (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

ACCURACY (ACC), is the reliability that can be placed on the EPD. An accuracy of close to 1.0 indicates higher reliability. Accuracy is impacted by the number of progeny and ancestral records included in the analysis.

HB | HERDBUILDER INDEX – Need bulls for developing a profitable cowherd and maximizing the value of marketed progeny? Select a bull with a high HB value.

GM | GRIDMASTER INDEX – If you market all of your calf crop and want to increase the value of that calf crop, select a bull with a high GM value to maximize your profit.

CED | CALVING EASE DIRECT – Breeding Heifers? Select bulls with a high CED to increase the probability that the heifers will calve unassisted.

BW | BIRTH WEIGHT – Predicts differences in birth weight. BW is included in the CED EPD, so simplify your decisions by selecting bulls based on CED instead of BW.

WW & YW | WEANING WEIGHT AND YEARLING WEIGHT – Predicts differences in weight at weaning and yearling. While selection based on these growth measures can increase your payweight, be cautious what the bull's other EPDs are.

MILK | MILK – Predicts differences in weaning weight of daughter's progeny due to milk production.

ME | MAINTENANCE ENERGY – Selecting bulls with a lower ME EPD will decrease the amount of feed his daughters will require to maintain body weight.

HPG | HEIFER PREGNANCY – Retaining heifers? Select bulls with a high HPG to increase the percentage of exposures that result in a calving observation.

CEM | CALVING EASE MATERNAL – Another number to pay attention to if you are retaining heifers. Selecting bulls with a high CEM will increase the probability of those daughters calving unassisted.

STAY | STAYABILITY – The most important trait if your goal is developing cows that stay productive, thus increasing your profitability. Bulls that have a high Stay EPD are expected to sire daughters that remain productive in the herd until at least 6 years of age.

MARB | MARBLING SCORE – Select bulls with high MARB EPD to increase the number of progeny that grade Choice or Prime.

YG | YIELD GRADE – Marketing calves on a grid? Placing selection pressure on YG EPD will decrease the number of YG discounts on grid- marketed progeny.

CW | CARCASS WEIGHT – Selecting bulls with a high CW EPD will increase the weight of the hanging carcass, which directly impacts revenue.

REA | RIB EYE AREA – Need to add muscle? Select bulls with a high REA EPD to increase rib eye area, which favorably increases Yield Grade.

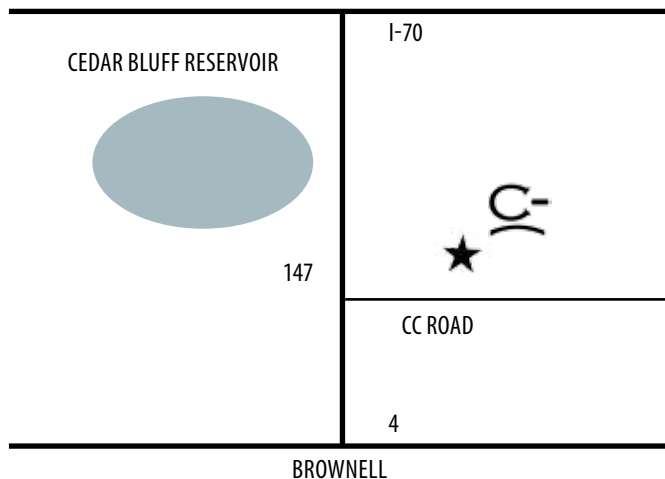

FAT | BACKFAT – Need to reduce waste in carcasses? Select bulls with a low FAT EPD to reduce backfat, which favorably increases Yield Grade.

 Longitude: -99.7263.

A GUIDE TO RECIPIENT COWS

The age of the recipient cows has been classified and noted on each pregnancy lot to help the buyer have a better idea of the age of the cow that is carrying the pregnancy. These females all have been hand selected and are expected to efficiently raise the pregnancies they are carrying. When these embryos were transferred, the cows classified as old were expected that this would potentially be the last calf that they raised. Udder quality on all recipient cows are considered satisfactory and capable of raising the pregnancy they are carrying. The cows classified as young and mature are suitable to have another embryo transferred once they have calved. The recipient cows have been under the same vaccination and mineral protocol as the purebred herd and all herd health is current.

****Please note that there is no way to know the exact age of the recipient cows, these are estimated ages.****

YOUNG: ESTIMATED 3-5 YEARS OLD

MATURE: ESTIMATED 6-9 YEARS OLD

OLD: ESTIMATED 10 YEARS OLD +

Note Regarding Pregnancies: All November pregnancies that have been labeled as unsexed will be sexed and the results will be available the week leading up to the sale.

3 IN 1 ET PAIRS - LOTS 48 - 51

The 3-IN-1 ET pair offering is a small but exciting portion of the offering! These were later born embryo transfer heifer calves from two of the most influential cow families on the ranch. We decided that instead of weaning them at such a young age that we would sell them along side their recipient dam. The added bonus is that these recipient cows are confirmed safe and are carrying another embryo mating. You will be buying a 3-IN-1 package that is featured by a heifer calf at side of a pregnant recipient cow. If you have any questions about this division of the offering please call Steve at (785) 623-9736.

C-BAR ABIGRACE Y11 - Dam of Lot 1 Pregnancies

Spur Franchise x Abigrace

There is no better way to start off the C-Bar Red Angus Herd Reduction Part I sale offering, with none other than one of the most popular matings that the Red Angus breed has ever seen! This will be the LAST opportunity to own a direct Y11 son or daughter...EVER. There is no denying the impact that the late Y11 has had on the C-Bar program, let alone the breed. This mating needs no introduction, as it yielded the \$105,000 stud known as 9 Mile Franchise that was selected by Pieper Red Angus of Hays Springs, NE. Y11 has also produced the C-Bar herd sire known as C-Bar Rockmount 197C, a bull that will serve as an integral part in the future of the breeding program in Brownell, Kansas. The females from this mating are sensational to say the least, as many of the two-year-olds have already secured their place in the donor pen. Rest assured, this mating will assist in elevating your breeding program to the next level!

LOT 2 - C-Bar Abigrace 264Z

This Elite Donor Sells!

It's time to "sit back and smell the roses" and there is no denying that Steve's drive and dedication will continue in the effort to create genetically superior cattle that will have an impact on the beef industry. However, this also means that he is allowing the world access to some key donor dams that would have never even been considered! C-Bar Abigrace 264Z is a role model donor dam that falls into this category. She offers a picture perfect phenotype, with superior udder quality. She is smooth, angular, massive ribbed, easy fleshing, and sound built. She is also backed by a stellar pedigree, being a member of the famed Abigrace cow family, tracing to P7095 and L7730! Her pedigree alone is rich in Red Angus history and tradition. This female will continue to have an impact on whichever progressive program has the foresight to own her when the gavel falls on May 12!

BROWN BLW LEGEND A1965
Sire of Lot 5 Pregnancy

HXC PATRICIA ROSE 102Y
Paternal Granddam of Lot 5 Pregnancy

13

Unique, rare, and a true once in a lifetime opportunity to acquire these genetics! Sired by one of the breed's rising stars, Brown BLW Legend A1965, he has quickly become a go to sire for low birth, high growth cattle that are backed by a strong maternal base. Legend is a direct son of the iconic HXC Patricia Rose 102Y. On the bottom side of this mating is the full sister to the \$105,000 9 Mile Franchise, that has stepped into the role of her late donor dam, Y11. Elite genetics back this BIG TIME pregnancy!

C-BAR STONY A305 - Dam of Lot 6 & 7 Pregnancies

RREDS SENECA 731C - Sire of Lot 7 Pregnancies

Seneca was the \$35,000 purchase made by Pieper Red Angus from the Rhodes Red Angus program of South Dakota. Seneca is considered by many to be the best Rollin Deep son the breed has ever seen. With moderate BW's, rapid growth and impressive Weaning and Yearling figures, Seneca has positioned himself in the elite 1% for WW, YW, and top 2% for REA. This mating to the impressive and potent A305 donor dam is a sure shot way to enhance the maternal stability of your program!

The Stony Cow Family

W928 and W914 are featured donors and leading member of the famed Stony cow family that has been the backbone and foundation of the entire C-Bar breeding program. The first W928 mating to the popular Silveiras Mission Nexus should yield exciting results! Many of the Mission Nexus daughters that have been campaigned have topped sales and excelled on the tan bark from coast to coast! Reckoning is the highly sought after \$46,000 that has created a stir internationally as one of the most unique Red Angus bulls to surface. He exhibits style, bone, added mass, and a presence second to none. He has produced high sellers, including the \$102,000 Renown, as well as champions on the largest stages in the business. This mating to the great full sisters from the famed P7500 cow family is highly anticipated around the ranch. W914 recently produced the \$60,000 high seller in the 2018 bull sale, C-BAR Legit, the highest marbling and most impressive scanning bull the breed has ever seen! Let our decision to sit back and "smell the roses", be your chance to quickly and effectively advance your program. We can't wait to see what comes from both of these matings!

C-BAR STONY 502C - Dam of Lot 12 and 13 Pregnancies

Here is another pair of matings that are sure to offer substantial genetic progression. The pregnancies are sired by the \$105,000 9 Mile Franchise 6305 and C-Bar Blake's Bonanza 180C is one of the most decorated bulls that we have ever produced, being a 2-time National Champion! 9 Mile Franchise 6305 took the breed by storm during the 2017 bull sale season when Pieper Red Angus purchased him from 9 Mile Ranch. He is a son of the late Y11 and offers superior multi-trait excellence. Blake's Bonanza is the other sire represented and was crowned Supreme Grand Champion Bull at the 2017 Minnesota State Fair, Grand Champion Red Angus Bull at the 2017 Iowa State Fair, and capped off his career as the 2018 NWSS Grand Champion Red Angus Bull. Niobrara Red Angus selected Bonanza in the 2018 Bull Sale and we are anxious to see his impact on the breed. The donor dam is a direct daughter of the W914 dam, and sired by the breed leading and high indexing Brown Alliance X7795! It's no secret, the donor battery at C-Bar is backed by generational excellence, and these are the freshest and newest genetics from a young and exciting set of donor dams!

The Mimi 458B Cow Family

18

C-BAR MISS MIMI 458B - Dam of Lot 14 and 15 Pregnancies

C-Bar Rockmount 197C was retained for use as an elite heifer bull, and there is no question his first calf crop is exceeding expectations. The Black-Red Carrier son of the late Y11, this herd sire is backed with a strong maternal base that simply doesn't miss! The dam of this mating was successfully campaigned by Autum Hellerud to Division Championship honors at the NWSS and NILE. 458B is the result of a powerful mating, sired by C-BAR Anticipation, and from the potent and popular DAMAR Mimi W085. Mimi W085 is one of the most dominant Red Angus donors that produces elite phenotype and has produced countless high sellers and show ring champions! C-BAR Anticipation 101W is the Ole's Oscar son of the highest dollar generating Red Angus female the breed has ever known, producing in excess of \$3 Million in actual progeny sales! There is no denying that this mating combines 3 of the most elite females that the breed has ever known in Y11, Mimi W085, and L7330! Think about the possibilities that will be presented on May 12!

C-BAR MY OH MY MIMI 512C - Dam of Lot 16 and 17 Pregnancies

C-BAR MY OH MIMI 512C is the up and coming donor dam that is a direct daughter of the iconic DAMAR MIMI W085 and sired by EVOLUTION! There is no denying her pedigree, but what is truly impressive is this young female phenotypically. When you consider this coupled with the fact this mating is sired by the breed's sensation, 9 Mile Franchise 6305! In an effort to make this event truly elite, we are offering our very best and most anticipated genetics. Let this herd reduction serve as an opportunity to invest in the future of your program!

The Embryo Offering

JEFFRIES MS JOLINE Z243 - Dam of 200A & 200B Embryos

Jeffries Ms Joline Z243 has been acclaimed by even the most critical cattlemen from around the globe. She offers a phenotype second to none, with tremendous udder quality, body mass, and fleshing ability. The first mating will result in full sibs to the Genex stud that is known as C-Bar Big River, one of the most impressive One Of A Kind sons that we have ever seen. The other mating to this beauty is sired by C-Bar El Dorado 114Z, the W914 son and maternal brother to the 2018 C-Bar bull sale high seller, LEGIT, who commanded \$60,000 for 1/2 Interest!

C-BAR EL DORADO 114Z - Sire of Lot 200B Embryos

The Embryo Offering

DAMAR ROCK'A DILLY Z373 - Dam of 201A & 201B Embryos

Rock'A Dilly has become widely known across the breed as "Lot 201" in the Elite Female sale last October when she commanded a \$34,000 final gavel price. She is a picture perfect, dark red, massive constructed, gorgeous Big Rock daughter that is the epitome of maternal strength! Her phenotype sets her apart from the crowd, while her time-tested pedigree reassured her legitimacy and predictability. These two embryo opportunities will definitely be sale features! One exciting mating to the \$105,000 9 Mile Franchise, while the other to C-Bar Evolution 107Y, a proven pedigree that has been mated with great success, including the lead of fall heifer calf in this very offering. Regardless of your decision, rest assured of the quality that this matron offers!

LOT 23 - C-Bar Abigrace 214Z

Females that make history!

C-BAR Abigrace 214Z has been an integral piece of the puzzle in the quest to build a cowherd that encompasses the principles of beef production with a maternal influence second to none. This Black-Red Carrier daughter of the great SAV Pioneer is massive in her kind, bold ribbed, square hiped, gorgeous uddered, and loaded with substance. She is the epitome of easy fleshing, low-input cattle and has produced countless sons working in top commercial and purebred herds across the country, as well as several daughters that have been sale highlights and made valuable replacements. The influence of the great Abigrace cow family with a combination of elite Black Angus genetics makes 214Z a true sale feature and a must see on sale day of you're serious about enhancing the maternal power of your cow herd!

What an opportunity! Here is a tremendous female that originated in the Geis Angus Farms program of Alberta, Canada. She is a role model female that has been a tremendous producer during her employment at C-Bar Red Angus. She was the \$16,000 high seller in the Geis dispersal. A popular set of brothers sired by C-BAR El Dorado 114Z were standouts among the 2018 C-Bar Bull Sale. Look to this Knight Hawk daughter to make a huge impact on your program by added mass, genuine power, and superior udder quality to your herd.

W91 has been a standout producer from a cow family that needs no introduction! Her dam is the potent S602 donor dam that traces to the \$3 Million donor dam, Abigrace L7730. Sired by the time tested Norseman King, a sire that has saturated pedigrees with his maternal strength and longevity. Her most notable achievement is producing the 2014 high selling bull in the annual bull sale. He was known as Genesis and went on to be crowned the 2016 NWSS Reserve Grand Champion Red Angus Bull. Genesis is now working in the Rhodes Red Angus program in the Flint Hills of Florence, Kansas. Genesis is a sure shot way to add power and performance to your calf crop. W91 has already wrote her own chapter in the history books!

453B is another member of the historic Abigrace cow family that has continuously made an impact on the Red Angus breed and the beef industry for decades. Her dam, S602 is one of L7730's most impactful daughters, with countless sons and daughters working in top programs across the country. 453B is sired by Conquest, one of the most dominant multi-trait sires that sets the standards for calving ease, making her a full sister to the Accelerated Genetics featured Red Angus AI Sire, C-Bar Contour 107X! This female will be a valuable addition to any program looking to enhance the maternal power within a herd. She too offers an elite number profile, ranking among the top 2% GridMaster, top 6% CED, Top 7% BW, top 2% Marb, and top 1p% YG. Tremendous phenotype with exceptional data backing her!

HXC 108Y is a direct daughter of the legendary P707, a sire that needs no introduction due to the strong maternal influence that he has had on the breed for over a decade. 108Y was produced in the Hueftle Cattle Company program of Cozad, NE. She is the dam of the \$28,000 HXC Insight 5508C herd sire that is now working the pastures of Brownell, Kansas. 108Y is the epitome of a brood cow, boasting a MPPA of 105.09, with a weaning ratio of 112, a yearling ratio of 108, and an IMF ratio of 110 during her tenure at C-Bar Red Angus. Look to this powerful donor dam to enhance the multi-trait excellence of your breeding program!

LOT 28 - C-Bar Stony 6007D

6007D is one of the most impressive females produced in the C-Bar program to date! Her dam, A302 is the “cover girl” for C-Bar Red Angus. A302 is one of the most phenotypically impressive Red Angus females in North America, and there is no denying the impact she has had and will continue to have on the Red Angus breed. Flawless udder quality, structural correctness, and sheer beauty from the profile. This female is moderate in her frame size, bold ribbed, extremely easy fleshing, sound built, and offers the look of a donor in the making! Her deep, cherry red color further enhances her eye-appeal. 6007D is without a doubt a true sale feature and one that we are excited to watch as she makes her mark on the breed! *AI BRED 4/13/18 to 9 MILE FRANCHISE 6305*

Spring Two Year Old Pairs

C-BAR Abigrace A305 has been a key component in the building of the C-Bar cowherd. Her impact has graced countless sons and daughters that are now working in top programs across the country. Her full sister, A302, is another stand out in the donor pen due to her captivating presence, generating power, and balanced number profile. The leading calving ease specialist, 5L Independence, sires the pair of flush sisters. They are the kind that a program can be built around and offer the capabilities to excel regardless of production goals. Take notice of these two matrons on sale day!

PICTURE PEN FUN!

Three in One!

With extensive effort to offer up the very best in every sale offering, there is more opportunity in the Herd Reduction Part I than we have ever offered before! This first 3 in 1 opportunity will include a pair of standout heifer calves (Lots 48A and 49A) sired by the Canadian stud, RED U2 RECKONING and from the featured lot 2 donor dam, 264Z. This mating was high anticipated and there is no denying the exciting we have for this pair of flush sisters! These heifer calves are too young to wean, so we decided to sweeten the offering, but tying together these heifer calves with their recipient dam's that just so happen to be carrying another elite pregnancy! Lot 48 will feature a January 2019 due date and be carrying a C-BAR Big River 119E x C-BAR RJ Mimi 404B pregnancy. Lot 49A will be accompanied by her recipient dam, lot 49, that is carrying a Six Mile Signature 295B x C-BAR Miss Mimi 458B pregnancy, a full sib to the ever so popular 727E female that will be campaigned by C-Bar and is a rising star!

Three in One!

The quality keeps coming and this pair of flush sisters (Lots 50A and 51A) are big time! Not only do they offer a superior maternal pedigree, being from one of the most impressive young females in the C-Bar program, but they are sired by the multi-trait, calving ease specialist, 5L Independence. We expect big things to come from these young females and are confident they will follow the footsteps of the matrons that paved the way and wrote their own chapters in the Red Angus history books. The lot 50 pregnancy is a C-BAR Big River 119E x C-Bar Abigrace 264Z. 264Z is featured as the lot 2 donor and is a female that will continue to build her legacy as a prolific and dominant producer. The lot 51 pregnancy combines two of the greatest females to ever grace the breed, being sired by the \$105,000 9 Mile Franchise, an own son of the late Y11, while being from the famed Mimi W085 cow family.

The Fall Open Heifers

LOT 52 - C9CC Rock'a Dilly 190E

The lead off fall born heifer calf is no stranger to the spotlight, as she was a sale feature in October when her dam commanded \$34,000 through The Elite female sale. Much like her dam, this striking young female sets the bar for body mass, true dimension and a flawless build. Her sire, Evolution is the ABS stud that is the go to combination of elite calving ease, with unmatched phenotype. He is a true multi-facet sire that has application in the pasture, the feedlot, and as an added bonus on the tan bark of the show ring. There is no denying that this female is a donor in the making!

LOT 53 - C-Bar Abigrace 7001E

From the S602 donor comes the dam of this fancy fall born female, A361. She is sired by the 2016 NWSS Reserve Grand Champion Red Angus bull, Genesis. Bold ribbed, big hipped, and well balanced, this female is not only from a great cow family, she too is a show heifer deluxe that we anticipate enduring great success throughout her show career if selected by a Jr. member. Study her build, pedigree, and future!

C-BAR RJ GENESIS A31 - Sire of Lot 53

The Fall Open Heifers

LOT 54 - C-Bar Abigrace 7003E

A pair of sisters that offer a fresh, unique, and outcross pedigree! Sired by the Australian breed-leading stud, Marble Bar, a sire that offers tremendous calving ease, performance, and carcass merit. He is a complete pedigree outcross that will add longevity, fleshing ability, and overall quality to any mating. When you consider this set of heifer calves are then backed by arguably one of the most phenotypically appealing females on the ranch, Z264, the excitement only continues! Look to these Marble Bar daughters to make a huge impact on the future of the breed!

42

LOT 56 - C-Bar Abigrace 7008E

Here is another pair of 264Z daughters that are sure to make a lot of short lists on sale day! Their sire, Signature, has taken the breed to storm with his unsurpassed mass and stoutness in a deep, dark, cherry red coat color that can't go unnoticed. These females are elegant in their design and build, smooth made, yet massive through their mid rib. They both have the key pieces to follow in the footsteps of their impressive dam!

Here is a full brother to C-Bar Big River to lead off the stout bull offering! Sired by the Pieper Red Angus stud, One Of A Kind, ad backed by the impressive Joline Z243 donor dam that has made a substantial impact on the C-Bar program. This full brother to Big River offers many similarities in the way he is built from the ground up. Stout boned, good footed, flexible, and loaded with substance and power from end to end. If you are still searching for that special herd sire prospect to follow an intensive AI program, or even collect and use AI yourself, here is a tremendous option that is backed by a royal pedigree!

LOT 101 - C-Bar Defender 121E
 The 5L Defender sired bulls were highly sought after in the March sale due to their ability to combine so many positives. This pair of flush brothers offers exceptional carcass merit, substance, and calving ease potential while still offering visual appeal. Ranking in the top 8% for BW and top 5% for Marb. A stout set of flush brothers from the famed Z243 dam!

EL GRANDE - Full Brother to Lots 106 & 107 and Maternal Brother to Lots 108 & 109

El Grande was a past high seller in the spring bull sale to Pieper Red Angus of Nebraska. He was an impressive individual that combined some of the most prolific cow families throughout his pedigree, including two shots of the \$3 Million dam, L7730, as well as P7500. Here is a pair of full brothers to El Grande that offer balanced data, with exceptional performance and power.

T715 is the dam of El Grande and from the famed Abigrace cow family. She has been a cornerstone female in the program and there is no denying her impact. These flush brothers are sired by the popular, New Direction. Look to these bulls for outcross, proven genetics to build a cowherd around.
