CKEFLING.COM

On behalf of everyone here, consider this your personal invitation to our second annual sale. As I stated last year we have been selling bulls private treaty for a number of years to some of the greatest purebred and commercial cattlemen and women in the industry. It is extremely gratifying to hear the success stories from our customers, but what is even more important to us is the friendships that we have made over the years. As most of you know we enjoy talking cattle over a cup of coffee or a cold beer, but we also enjoy hearing about your kids, grandkids, and lives. Quite frankly that is what this world is all about.

We are always striving to implement the feedback our customers provide us, whether it is focused around growth, carcass, maternal, or quality. In essence, we want them to do everything! That is a hard job description and maybe sometimes not fair, but that is what this world demands in order to be more profitable. We continue to learn and improve the cattle. Last year, as our ultrasound data came back we learned that these cattle have great carcass merit to them as well. We also placed some steers in a feed yard and received gain and carcass data back. As time goes on we hope to keep receiving this type of feedback that we can implement into our program in order to improve the product. Over the years we have used common sense logic in our breeding decisions. They need to breed, have a live calf, be a good mother with a sensible mind, udder quality is of the utmost importance and wean a big calf with the lowest amount of input possible. There is no doubt we have sent some awfully good cows to the sale barn because they were open. Around here you have a job, and if you don't do your job, you get fired!

As we have moved forward we are incorporating logical science. We are believers in whole herd reporting and did the cow herd round up through ASA. In doing this we can offer you problem free genetics as well. The neat thing about the results as they came back, we did not have any issues, so you can feel comfortable with the product you are getting! We have invested a lot of resources over the years to get these heifers this good! Buy with confidence that you are getting the opportunity to acquire some serious game changers!

We again will have ultrasound data, gain data, and all color and horned data complete on a supplement sheet that will be available on the website, DVAuction.com or you can call and we will send you a copy of it. The heifers will have all their scour shots complete and be re-pregged right before the sale. If you have any questions please call and we will answer them for you. The heifers will be close to calving; please let us know if we can assist in transportation coordination to get them to you as quick as possible after the sale.

Get your chores done, bring your family, and enjoy a meal and refreshment after the sale! Thank you again for your interest and we look forward to seeing you on the 9th of February at 3:30 PM.

Sincerely,

CHRIS EFFLING

CATTLEMEN,

It is with great enthusiasm that we welcome you to the second annual CK Cattle Co. and Wager Cattle Co. production sale on the ninth of February. This year's offering will include Simmental, SimAngus, and Hereford bulls along with a top shelf group of Simmental and SimAngus bred females both registered and commercial.

This program has been built with a very critical eye. The cowherd has been sorted for foot integrity, fertility, foot quality, and pounds produced. They have been very critical to include and mass produce from the most proven cow lines within the program and respective breed. Sire selection has been built with strong, successful cow families in mind also, making the end product more proven with less unpredictability. The bulls have been sorted on quality, eye-appeal, foot quality, structure, testicle size, and performance. Performance is a number within this operation, it is represented by the number on the scale, not a predictor. This outfit knows that their profit is the same as yours; they get paid on weight and so do you!

There has been tremendous opportunity within the market place over the last year, both buying and selling. One constant that has remained the same is the demand for quality. It is more prevalent today than ever and the energy and enthusiasm to improve one's program is too. Tie into a stout set of bulls and maternal set of female on the afternoon of February 9 at the CK Cattle Co. Sale Facility just north of Highmore, South Dakota. The cattle will be available to view any time before and on sale day. It will be a video auction in a climate-controlled facility. Please feel free to call any of the owners or sale management with questions you may have.

THE SALE MANAGEMENT TEAM

ONLINE BIDDING

We are pleased to bring you real-time internet bidding and a live broadcast of this sale through DVAuction.com. If you are unable to attend for any reason, you may bid online at www.dvauction.com. Please register for bidder number at www.dvauction.com anytime prior to 12 Noon on Friday, February 8 to accommodate the approval process. After this date/time, bidder approval may be delayed. Approved bidders will be issued bidder number and access prior to the sale. For questions or sale bookings call the Office M-F 8am-6pm CT: (402) 316-5460.

TERMS

Terms of sale are cash or check payable immediately upon conclusion of the sale and before animals will be removed.

TRUCKING

Trucking - Courtney Lovett: 402.984.3133

NUTRITION

Jordan Holt: 605.380.1209 or Ryan Effling: 605.881.7690

HEALTH & WINTERING

Bulls can stay to the first of May when they will have a breeding soundness exam, along with leptospirosis, pinkeye, and hoof rot vaccine. Bred females will need to leave as soon as possible after the sale due to close proximity of calving. Any female left and calved at CK/Wager facilities will not be guaranteed a live calf. Prairie View Vet Clinic - 605.695.4086

RISK

Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury, and will be loaded according to purchaser's direction. Insurance will be available sale day.

ANNOUNCEMENTS

Announcements made sale day and from the auction block during the sale take precedence over printed material in the catalog or other printed material associated with this sale. Anyone attending this sale, attends at their own risk. Breeders or any of the sale force will not be held responsible for any injury while attending this sale.

LIABILITY

Neither owners nor sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents.

INSURANCE

Insurance will be available sale day. We suggest a mortality policy, especially if you plan to leave your bull(s) to be wintered until May 1, 2019. We will pay 1/2 of the insurance premium if you wish to purchase a policy. Please visit with Kristi at check out if you have interest in insuring your purchase. Kristi Effling 605.769.1308

ADDITIONAL INFORMATION

Ultrasound data, yearling weights, gain test results, scrotal circumference measurements and Homo Black/Homo Polled testing results will be available sale day. Many of the donor dams to the cattle selling will be available for viewing sale day.

CK AND WAGER SIRED CALVES TOP THE MARKET!

***In 2018 45 CK and Wager Simmental, SimAngus, and Angus bulls scanned with an Average REA of 14.32 and an Average IMF of 4.34.
13 Hereford bulls scanned with an Average REA of 12.43 and an Average IMF of 3.4***

Look for this powerful set of bulls to follow suit!
Ultrasound Data and Scrotal Measurements will be available on prior to sale day and online at DVAuction.com

SIMMENTAL & SIMANGUS

THE BULL OFFERING

ANGUS & HEREFORD

BULL GUARANTEE

Unless otherwise noted, all the breeding age bulls will have passed a breeding soundness exam prior to pick up/delivery. In addition to the standard Terms and Conditions of the American Simmental Association and the American Hereford Association we will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all yearling and older bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price less the salvage value of the animal.

BULL BUYER VOLUME DISCOUNTS

3% off total purchase price of 3 Bulls

4% off total purchase price of 4 Bulls

5% off total purchase price of 5-9 Bulls

10% off your total purchase price of 10+ Bulls

DELIVERY

Free delivery within 300 miles on all bulls and we will assist in finding delivery options to other parts of the country!

EMBRYO TRANSFER PROGENY

Bulls without a WW Ratio are the result of embryo transfer. Their respective breed associations do not recognize them as having a contemporary group so they do not have a WW Ratio.

SEMEN INTEREST

1/3 semen interest retained in all bulls

- 8038F is a true sale feature that is one of the most unique Purebred herd sire prospects produced in the program
- Sired by the \$400,000 Profit that has made his mark on the industry, siring high quality progeny that have excelled in every facet of the industry
- His dam, 3124A, is an exceptional daughter of Hart Eclipse 510Y and backed by the WAGR 840 female that has been a tremendous producer year after year. 8038F boasts an impressive 801 Adj. WW with a WW Ratio of 114
- 8038F offers a flawless structural build, breed enhancing quality, and real world performance in a balanced and eye-appealing design
- His athleticism and rugged build suggest he will sire cattle with added substance, dimension, and longevity
- A herd sire prospect that we plan to incorporate into our breeding program

- 813F is a half-blood herd sire prospect that deserves serious attention
- Sired by Profit, his dam is from the productive SAV Blackcap May cow line that has proven to be valuable for the Schaff's Angus Valley program of North Dakota
- He is a moderate framed, wide based, flawless structured bull that is athletic in his basic build, bold centered and wide topped with tremendous thickness and stoutness to his hip from behind
- His basic build, well-balanced phenotype and presence is further enhanced by his lineage that is supported by multiple generations of the industry's most elite cow families
- The influence of 3C Melody can be found throughout pedigrees of AI sires, donor dams, and individuals of influence throughout the Simmental breed
- The maternal granddam of 813F is SAV Blackcap May 4136, a female that has produced in excess of \$8.6 million dollars while being once of the most influential females to ever grace the pastures of North Dakota
- His maternal granddam, 4136 is the prolific dam of SAV sires; Resource, Renown, Pedigree, Sensation, Seedstock, and the 2017 record selling Charlo sons that stand at top studs across North America

- 7122E is a true standout among a deep and powerful set of bred females from the heart of the CK and Wager Cattle programs
- She is sired by the proven and time tested Outlaw herd sire that has also sired a stout and rugged set of bulls that will also sell on February 9th
- Her maternal lineage needs no introduction to the business. The maternal great granddam of 7122E is the great 3C Melody M668Z and her granddam is a flushmate to Lullaby 703T
- This powerful influence that has been proven time and time again once again shines through in this elite Purebred female that also provides the influence of the heavily used Remington Lock N Load 54U sire
- Top 15% of the breed for Marb with a balanced set of numbers to further enhance her stunning phenotype
- Heterozygous Black and Heterozygous Polled
- *AI BRED 5/23/18 TO HOC DAKOTA 111D (ASA: 3227853). SAFE AI*

CK AND WAGER BRED FEMALES

The bred heifer offering is from the heart of the CK and Wager Cattle Co. programs and represents the most proven and prolific cow families. These females were AI bred to leading sires in the industry. They were all pasture exposed beginning on June 12, 2018 and the bull was pulled on August 18, 2018. R5 SOLUTION E111 (AAA19058033), a son of KG SOLUTION 0018 was the bull they were exposed to. They have been preg checked and under each individual lot it is listed whether they are likely AI bred or safe to the clean-up sire. Likely AI means just that, they are likely bred AI, but have been exposed to a clean up sire.
