Bulls available for viewing all day  
Monday - March 25, 2019  
9:00 am - Bulls on Display  
11:30 am - Lunch Served  
1:00 pm - Partners in Progress Sale

Welcome friends and neighbors to our 7th annual Partners in Progress Production sale here at McEntire Red Angus. We hope you know how much we appreciate everyone who supports our program. We love the cattle business and the families that it brings to our Ranch. It's what we do day in and day out, except for a few sporting events with the kids every so often!

We are excited about the offering of bulls we have for you this spring. These bulls were weaned on the 1st of October and developed here at the ranch. We have had them on a high roughage ration on a 110-day test. The carcass ultrasound data came back with great results, as you will be able to see in the bull information listed with each lot.

We understand that the Red Angus Breed is becoming more and more popular and that you have many options when it comes to choosing your herd bulls. We invite you out to the ranch to look over the bulls and heifers and hopefully you will find something that will bring value to your own operation and move your program forward. Good Bulls make great cows and our mating decisions have been based on producing next generation females to be more efficient and productive than their mothers. The Red Angus cattle have been known for good dispositions, calving ease, adaptability, and keeping your operation in the black! A good set of Red Angus tagged calves will top the sale no matter where you go.

We will be selling a nice set of herd bull prospects that we feel will make a great addition to a seed stock producer or to a commercial cattle operation. We will also be selling 150 commercial straight Red Angus replacement heifers that we purchased from South Dakota and a select few of home raised commercial calves. They have been running on wheat pasture all winter. These heifers have been on a complete vaccination program and will be checked by Dr. Richard Prather one week prior to the sale for reproductive soundness. We will be selling these heifers in a gate cut of five head or more. We would like to invite you to come out to the ranch on Sunday night before the sale and enjoy supper and a social. We would love to get to know you and your family!

Please join us sale day at 11:30 am for lunch. The sale will start promptly at 1:00 pm CST. New this year, the sale will be broadcasted live on CCI.Live for those of you that are unable to attend the sale. If you have any questions about the sale, please feel free to contact us or any of the sale staff to visit about the offering. Be sure and check out our website at [www.mcentireredangus.com](http://www.mcentireredangus.com) to view videos of all the lots in the sale. We are also not going to sale in catalog order this year. Therefore, please be sure and look on our Facebook page or on CCI.live for the Sale order on Sale day.

Thank you for your interest, and we look forward to doing business with you.  
See you at the sale!

*Randy McEntire*

# INNOVATION

— AgMarketing, LLC —

Welcome to the McEntire Red Angus 2019 Annual Partners in Progress Sale! It is a pleasure to work with the McEntire family and their program. There is no question that this operation is committed to producing a high quality product for their valued customers. Randy, Crystal, and their family have assembled a tremendous foundation of brood cows to build from. Structure, longevity, fleshing ability, and performance are priorities. This highly functional, no-nonsense cow herd has been further enhanced through elite herd sire selection. Many of the walking herd sires at McEntire Red Angus are breed-leading sires that offer exceptional phenotype, genomics, and numeric profiles. The cowherd has adapted to the arid conditions of Western Oklahoma, and thrives on the natural resources. These cattle are capable of going to different environments, adapting, and thriving because of the strict selection criteria that the cattle are put through day in and day out.

The McEntire family is fully committed to their product and their customers. They will be offering 66 stout, service-aged Red Angus bulls, 24 head of foundation building registered females, over 150 commercial Red Angus females, and 40 commercial Red Angus pairs. Consistency within sire groups is present, and the McEntire family is proud to offer large sire groups to better serve their customers with large selections of 1/2 brothers to improve uniformity of their customers calf crop. The registered females are from the heart of the program and offer foundation-building traits. Many of these females are from top producing females that have endured the conditions and excelled. The commercial offering is a top-shelf set of commercial Red Angus females that offer tremendous promise as brood cow prospects.

Consider this your invitation to join us on Monday, March 25th in Sweetwater, OK for the McEntire Red Angus 2019 Partners in Progress sale! Lunch will be served at 11:30 and the sale will begin at 1:00 PM CST. New this year, the sale will be broadcasted live on CCI.Live for those of you that are unable to attend the sale. If you have any questions about the sale, please feel free to contact any of the sale staff to visit about the offering.

Enjoy the Cattle!

### **SALE ORDER**

Cattle WILL NOT sell in catalog order this year. A sale order will be available prior to the sale.

### **TERMS & CONDITIONS**

Cattle sell under the standard terms and conditions as recommended by the Red Angus Association of America.

### **SEMEN TEST**

All bulls will be semen and Trichomonas tested prior to the sale and are guaranteed to be fertile.

### **INCENTIVES**

Free delivery within 150 miles of the ranch on bulls selling for \$3,500 or more and free nation-wide delivery on purchases greater than \$20,000. This does not include heifers. All trucking on females are the buyer's responsibility, but we will be glad to assist with trucking plans. If bulls cannot be taken sale day or arrangements have not been made with us within the first week for delivery, the seller can house bulls until pick up at a rate of \$4/day, however we will not be responsible for sickness or injury.

### **LIABILITY & ACCIDENTS**

Every precaution will be exercised to protect the safety and comfort of those attending the sale. Neither the owners, auctioneer or any sale staff assume any responsibility in this matter and disclaim any liability, legal or otherwise, in the event of accident or loss of property. All persons attending the sale do so at their own risk. We are not responsible for typographical errors.

### **GUARANTEE**

All bulls selling over \$4,000 will carry a first breeding season guarantee. The first breeding season ends December 31 of the year of purchase. Any request for a replacement bull needs to be made by this date. Death loss is the buyer's risk and mortality insurance is available on all bulls at the sale. Anything selling over \$5,000 is recommended to buy Livestock Mortality Insurance and McEntire Red Angus will pay 2% of the premium. Normal care and adequate nutrition need to be provided for maximum potential to be reached. It is recommended that bulls receive supplemental feed after the breeding season until they have reached maturity.

### **HERD HEALTH**

All cattle sold through the sale are on a complete health program and will be accompanied by the health papers for shipment anywhere in the United States.

# The New Territory Sire Group

Lot!

6

4MC New Territory 855 is arguably one of the most unique herd sire prospects raised at McEntire Red Angus to date! Sired by PIE New Territory 523 and backed by a hard working PIE The Cowboy Kind 343 daughter on the south side of his pedigree. He is flawless in his basic build, big footed, stout boned, sound on the move, square hiped, and offers a look of balance and eye-appeal that is second to none! Numerically he continues to impress with his paperwork. He ranks among the top 9% of the breed for GridMaster, top 1% WW, top 1% YW, top 1% ADG, and top 1% CW. He is a true herd sire prospect that we firmly believe will have a lasting impact on the future of the breed. We are proud to introduce 4MC New Territory 855, an exciting herd bull for 2019!

**CAT. 1A** - The New Territory x Prospect mating has been very successful for us and here is another great herd bull option for extensive use on heifers. He boasts an actual birth weight of just 70 lbs. and spreads to 120 WW Ratio! He too further solidifies his herd bull candidacy with top rankings on paper. He charts top 22% GridMaster, top 3% WW, top 3% YW, top 5% ADG, and top 20% CW.

**CAT. 1A** - 4MC REDD 836 is the result of an exciting mating! Jeffries Reddington 865C was our selection at the National Western Stock Show in 2016 with Pieper Red Angus of Nebraska. He was a member of the Jeffries Red Angus Pen of Three and was a crowd favorite in Denver. The dam of 836 is an angular, big centered, high capacity daughter of RED SVR Gangster 145 female on the south side. He charts top 20% HerdBuilder, top 11% ME, and top 22% Stay. He offers an actual birth weight of 78 lbs. and is a bull that we believe to be a safe option for use on well-managed heifers.

**CAT. 1A** - 4MC Fusion 858 is an exciting son of the great Bieber Fusion C194 and backed by a strong maternal daughter of RD SVR Gangster 14S. Numerically he excels as he ranks top 9% HerdBuilder, top 125% CEM, top 10% Stay, top 10% Marb, and boasts a double digit CED EPD and a negative BW EPD.

"I have used McEntire Red Angus bulls for the last several years with great success. Not only are the bulls easy to be around, but also they perform and their progeny performs. We retained ownership on our steers and were very pleased with how they fed. They weighed 1466 at harvest and gained 3.88 lbs. per day with a .70 cost of gain. We will continue to use McEntire Red Angus bulls to achieve this success."

# The Cattleman Sire Group

Lot 20

13

4MC Cattleman 6112 was the lead off bull in the 2017 bull sale and was selected by our good friends at Pieper Red Angus. The first group of progeny to hit the ground exceeded expectations and we couldn't be more pleased with this set of Cattleman sons. 826 is one of Chloe's bulls and is one that has the look of a true herd sire prospect. From the ground up he is fundamentally correct as any bull in the offering. He is a big footed, stout boned, wide based calf that offers a look of balance and eye-appeal from the side. He charts top 5% GridMaster, top 19% YW, top 12% ADG, and top 13% Marb. Study the phenotype, performance, and overall symmetry that 826 possess. A true sale feature and a must see on sale day!

**CAT. 1A** - 827 is another heifer bull candidate from the Cattleman sire group. He offers a sensible birth weight of 78 lbs. and spreads with a WW Ratio of 108. He offers a double digit CED EPD with a negative BW EPD. Numerically he is balanced and phenotypically offers quality and eye-appeal.

# The Cowboy Kind Sire Group

Lot 26

15

PIE The Cowboy Kind 343 has done an exceptional job since he joined the herd bull battery at McEntire Red Angus. He sired the \$18,000 4MC King Of The Cowboys that topped the 2018 sale and has become a household name across the Red Angus breed. 803 is the lead off son of The Cowboy Kind and is a true herd bull prospect that we admire for his structural integrity, body mass, density, and rugged herd sire look. He is big testicled, bold ribbed, and square hiped. Numerically he charts top 16% GridMaster, top 13% CED, top 15% WW, top 9% YW, top 6% ADG, top 8% CEM, and top 24% ME. He boasts an actual BW of 65 pounds and a WW Ratio of 115! He is a multi-purpose herd sire prospect that we believe will leave a lasting impact!

**CAT. 1A** - 8131 is a standout herd sire prospect by The Cowboy Kind and backed by a Forefront dam on the south side of his lineage. Here is a smooth made, good looking, proud headed, and long fronted bull that from the ground up is near flawless in his basic build. He is a sleep all night heifer bull option that will add quality and eye-appeal to his progeny. He started with an actual birth weight of 72 lbs. A must see on sale day if you are searching for a heifer bull option, but do not want to sacrifice the fundamentals, number profile, or quality aspect. A sale feature from a powerful sire group!

"I've been using Randy's bulls now for about four years and am very pleased. Randy is a great man to deal with and his bulls have a quiet, gentle disposition. His bulls will meet your needs whether you are looking to increase your weaning weight or to raise replacement heifers. Last year I was unable to attend the McEntire sale due to health issues. My wife called Randy and told him the situation we were in. He purchased a bull for us sight unseen and we could not have been happier with the selection he made for us. We plan to be at the sale again this year!"

- Mike Darsey

# The Flashback Sire Group

Lot 48

AHL FLASHBACK 446B - SIRE OF LOTS 48 - 49

24

We sampled AHL Flashback 446B and had tremendous results that exceeded expectations. Flashback is the six-figure valued herd sire that sold in the Western Heritage sale a few years back and is now employed by the Smoky Y Ranch program of Oakley, Kansas. The Flashback sons are eye appealing, stout, and rugged with exceptional performance. The females we retained are moderate, big centered, easy fleshing females with a strong maternal look and presence. 8119 charts top 18% HerdBuilder, top 2% WW, top 2% YW, and top 4% ADG. 898 charts top 3% WW, top 6% YW, and top 16% ADG. These are performance oriented bulls that offer the added style it will take for your feeder cattle to top the market!

# The Fall Yearling Bulls

Lot, 56

27

7270 is a true standout among a powerful set of strong aged bulls. Sired by our selection in Denver of 2016 at the NWSS from Jeffries Red Angus, Reddington was a member of their popular pen of three Red Angus bulls. 7270 is one of the most phenotypically appealing bulls in the offering. He is big footed, stout boned, wide based, wide topped and thick ended. He ranks top 14% WW, top 17% YW, top 24% ADG, top 8% CW, and top 26% REA. He boasts an actual BW of 76 lbs. and came to the weaning pen with over 700 lbs. of pay weight. He is the number 1 WW bull in the age advantage offering with a WW Ratio of 105. A true spread bull that offers the herd sire credentials to take any program to the next level.

**CAT. 1A** - 4MC Make Mimi 8172 is another daughter of PIE Venture 442 and from a Godfather dam, making her a 3/4 sister in blood to 8189. She charts top 13% WW, top 20% YW, top 24% Milk, and top 21% Marb. Balanced phenotype and genomics go hand in hand with 8172.

## BELOW YOU WILL FIND DESCRIPTIONS OF THE EPD DATA LISTED IN THIS SALE CATALOG.

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an "I", and may or may not include the animal's own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

### GROWTH

**Calving Ease Direct (CED)**, is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

**Birth Weight EPD (BW)**, expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

**Weaning Weight EPD (WW)**, expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

**Yearling Weight EPD (YW)**, expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

### MATERNAL

**Calving Ease Direct (CED)** predicts the probability of calves being born unassisted out of 2-year-old heifers. Producers want live calves - born unassisted. Selecting on actual birth weight is flawed; it is influenced by non-genetic factors such as nutrition and weather (ambient temperature). While BW EPD removes these non-genetic factors, Red Angus' CED EPD is the best predictor of calving ease. The CED EPD includes variation in BW plus other influential genetic factors such as gestation length, calf shape, etc.

**Heifer Pregnancy (HPG)** predicts the probability of heifers conceiving to calve at two years of age. Many breeds offer genetic predictions of yearling bull scrotal circumference as an indicator of age of puberty. While puberty is a prerequisite, many factors influence pregnancy rate. Red Angus' HPG EPD offers a tool which selects for what is economically relevant to ranchers - pregnant heifers.

**Calving Ease Maternal (CEM)** - predicts the probability of a given animal's daughters calving unassisted at two years of age. Replacement heifers should be able to calve on their own. Red Angus' CEM EPD offers the industry's most reliable prediction to address that concern. It includes not only the predisposition for a female to calve unassisted, but also her contribution to her calf's traits (birth weight, calf shape, etc.) that make it more likely to be born unassisted.

**Maintenance Energy (ME)** - predicts differences in daughters' maintenance energy requirements and is expressed in Mcal/Month. Recognizing that 70% of cowherd feed costs are burned up in maintaining weight and condition, Red Angus' ME EPD allows for the selection of bulls whose daughters will require less feed; thus, reducing cowherd expenses. Include selection pressure for ME EPD to ensure feed costs don't get out of line when selection is made for greater performance and production.

**Maternal Milk EPD (Milk)**, is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

### CARCASS

The genetic evaluation produces a single set of EPDs for carcass weight, marbling score, Ribeye area and fat thickness. The units of measure are in carcass trait format and analyzed on an age-constant basis.

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire's progeny compared to progeny of other sires.

**Marbling Score (MARB)** - predicts differences for carcass marbling score as expressed in marbling score units. Higher marbling scores are positively correlated with higher carcass quality grades.

**Yield Grade (YG)** - predicts differences in USDA Yield Grade score and is expressed in USDA Yield Grade units. YG EPD is calculated using the genetic predictions of CW, REA and FAT EPDs. The reliability of Red Angus' YG EPD is enhanced by using both ultrasound and actual carcass data in the calculation of REA and FAT EPDs.

**Carcass Weight (CW)** - predicts differences in hot carcass weight and is expressed in pounds. Because Red Angus' CW EPD is a multi-trait model which includes birth, weaning and yearling weight data, the prediction is not subject to culling bias. Thus, it provides a more reliable EPD as compared to only using actual carcass weights. This computation allows for the use of weights taken on ~57,000 animals per year as compared to only ~1,500 animals per year with actual carcass weight observations. Increased Carcass Weight tends to detrimentally affect Yield Grade; the calculation of which also includes Rib Eye Area and Fat Thickness.

**Rib Eye Area (REA)** predicts differences of carcass Rib Eye Area between the 12th and 13th rib. Increased Rib Eye Area has a beneficial effect on Yield Grade which also includes Carcass Weight and Fat Thickness.

**12th Rib Fat Thickness (FAT)** predicts differences for carcass fat depth over the 12th rib, as expressed in inches. Increases in fat thickness has a detrimental effect on Yield Grade.

### INDEXES

**Herdbuilder** - Producers selecting bulls to develop replacement females and maximize the value of non-replacement marketed progeny should incorporate the HerdBuilder index into their selection decision.

**GridMaster** - Use the GridMaster index if your operation's primary goal is maximizing profitability of feeders in the feedyard and on the rail.
