Smoky

Dear Breeders and Friends,

On behalf of our entire family, we invite you to our Sixth Annual Production Sale, consisting of 87 Red Angus bulls and 50+ commercial first calf heifer pairs, and 100+ commercial open heifer calves.

Although our family has been in the cattle and ranching businesses for more than 40 years, we are now committed to the Red Angus seedstock industry. We acquired the Camp 1A and Windy Hill herds in their entirety over the last several years, and have invested heavily in new herd sires and donor females as well. Our most recent acquisition was a select group of bred heifers from the well-respected Six Mile Ranch program of Saskatchewan, Canada. We feel that with these purchases, we are moving in the right direction toward being one of the constant and reliable bull and female suppliers to the industry.

Since 1978, our grandfather and father have owned and operated Smoky Y Ranch. They ran and continue to run a commercial herd with great success. We continue to utilize the best bulls we can find throughout North America for use in this herd, and it serves as the background for our decision to be in the registered business. We hope you can be with us for our sale April 4. We are hosting a preview gathering and supper on Wednesday evening prior to the sale. Everyone is invited, and the sale offering will be on display.

Please contact us if there is anything we can do to add any information to the lots selling. We are happy to be working with Innovation AgMarketing, as well as Kent McCune and Gerri Schumacher as sale consultants this year. If you have any questions about the offering please feel free to contact us or the sale staff to visit about the cattle. Thank you for your interest in our program, and we hope to see you sale day.

Sincerely,

Younkin Family - Cody & Kelly Younkin

Fellow Red Angus Enthusiasts,

It is with great pleasure that we welcome you to the Sixth Annual Smoky Y Ranch Red Angus Production Sale. Enthusiasm throughout the Red Angus business has led to exciting times for the breed as a whole. Increased registrations and a dominant presence by red hided cattle in the market place demanding a premium have proved to be rewarding for those that have injected Red Angus genetics into their respective programs.

We couldn't be more excited to represent the Younkin family again this year and assist in the marketing of their product. The definition of a family operation, the Younkin's are completely dedicated to the agriculture industry and have established roots in the commercial cattle ranching industry. Through careful selection and a determined attitude to improve their product, the Smoky Y Ranch has grown into one of the premier Red Angus programs. A strong offering of rugged, sound built, powerful Red Angus bulls will sell on April 4th, along with a set of commercial first calf heifer pairs from the heart of the Smoky Y commercial herd. Additionally, 100+ commercial open replacements will be offered.

Consider this your invitation to join us the day before the sale for a pre-sale viewing of the cattle and dinner. As you know this is an event that you do not want to miss the night before the sale! Second to none hospitality, dinner, and a live band! On Thursday, April 4th, 2019 lunch will be served at 12 Noon and the sale will begin at 1:00 PM. Videos of the sale offering will be available on DVAuction.com prior to the sale. Please feel free to contact any of the sale staff with inquires about the sale offering.

Enjoy the Cattle!

SALE TERMS & CONDITIONS

All bulls sell under the suggested terms and conditions set forth by the Red Angus Association of America. All announcements from the sale block take precedence over any printed material.

BULLS SELLING

Smoky Y Ranch is retaining one-third semen interest on all bulls sold unless specified differently in the sale catalog. This gives Smoky Y Ranch the option to collect, use and market semen from the bull at their expense and at the buyers convenience.

LIABILITY

All persons attending the sale do so at their own risk. Neither Smoky Y Ranch, nor any other person connected with the management of the sale, assumes any liability, legal or otherwise.

ADVERTISING AND CATALOG PRODUCTION

THM Promotions, LLC - Tracy McMurphy
 (806) 679-0231

GUARANTEE

All bulls have passed a breeding soundness exam and are guaranteed to be breeders. Each animal becomes risk of buyer as soon as sold. All bulls selling for \$4000 or more are guaranteed against breeding injury for the first breeding season. A breeding season is defined as 90 days after turn out. Breeding injury is defined as an injury to penis or preputial tear with inability to extend. This is not an insurance policy. This guarantee does not cover non-breeding injury resulting from an accident or gross negligence. If any breeding injury occurs contact Smoky Y Ranch or Dr. Miller, or have your veterinarian contact Dr. Miller. If a replacement bull is available he will be provided, or if the buyer prefers, 1/2 of the purchase price value will be applied toward another bull in the next sale. Buyer keeps salvage value. Notification must be made prior to or during the first breeding season.

DELIVERY

Free delivery within a 200 mile radius of the ranch or a central location. We will assist with trucking arrangements on any purchases outside of the area. Any delivery over 200 miles will be discussed and pro-rated with the customer.

HERD HEALTH

All calves have been PI tested. All bulls in the sale will have been semen checked and passed a fertility and soundness exam. Health certificates can be issued on any animal in the sale, making them eligible for interstate shipment. The bulls and females in the sale have been pre-weaned and weaning vaccinated for respiratory disease. They have been poured, dewormed and ear notch tested for BVD. All females have been palpated and pelvic measured. All heifers are guaranteed open and have been tested for BVD and calfhood vaccinated. All bulls have had their first round of Fusoguard.

BREEDING SOUNDNESS EXAMINATION

Breeding soundness examination was performed by Dr. Miller
 (620) 874-5169.

ULTRASOUND DATA

Ultrasound evaluation was performed by David Aborn - (417) 861-8407.

SPECIAL THANKS

We would like to thank our nutritionist, Dennis Holthaus, our veterinarian, Dr. Miller, our ultrasound technician, David Aborn. Thank you to our family and friends who help us prepare for the sale. Our event would not be possible without their hard work!

What a way to start off the offering of our 2019 Annual Bull Sale with a trio of flush mate brothers that are from the heart of our program. The dam of these three brothers has been a mainstay producer since we introduced her into our program. A-1 Siera Indeed 549X was produced in the famed A-1 program in Texas before their dispersal when Wildcat Creek Ranch selected her as one of the top selling lots. We were fortunate to be able to have the chance to own Siera Indeed 549X when she was offered up for sale again in the historic Wildcat Creek Ranch dispersal sale. She has become a big time producer for our program and has left behind several daughters that are at the top of their contemporary group and will become the next generation of herd impacting females within our program. Concept was our selection of the noted Bar-E-L program in Canada that we partnered on with Lynn Combest, Double A Land & Cattle, and Twin Willow Farms. There is no denying the impact that Concept has made on all of our programs. These three brothers not only impress from a phenotype standpoint, but they also are balanced in their paperwork with a uniform number profile. They continued to impress on ultrasound day with impressive scan data as all three brothers boast a 14+-inch REA. We are excited about the potential and the impact that these flush mate brothers are capable of and we believe they will be true features on sale day!

Smoky Y Dagger 8108F is a full brother to lots 12 and 13 from last year's offering. Sired by Bar-E-L Concept 49C and backed by the stunning Red Rainbow Lois 7U donor. When we first saw Lois 7U we knew she was a female that we needed to get back to the ranch due to her unparalleled presence, eye appeal, and maternal functionality. Smoky Y Dagger 8108F is one of the premier herd sire prospects produced in the class of 2019 and we believe that his strong maternal backing will aid in his success as a herd sire.

Smoky Y Flashback 7324 is one of the premier son's in the 2019 offering by our herd sire AHL Flashback 4468. Flashback was the six-figure valued promotional sire that sold through the Western Heritage Sale on "The Hill" at the National Western Stock Show. We had the opportunity to acquire Flashback through the Englewood Farms Dispersal Sale. He has done an exceptional job for our program siring cattle with structural integrity, body mass, quality, and eye-appeal. The females sired by Flashback are some of the best replacement females that we have ever kept back and we look forward to watching the impact that they will make. 7324 ranks among the top 20% for WW, top 18% YW, top 17% ADG, top 18% ME, and top 15% Stay. A true sale feature!

Smoky Y Hallucination 8197F is another top herd sire prospect by AHL Flashback 446B and backed by the Red Geis Prime Rib 411 sired female on the bottom side of his pedigree. The dam of 8197F is Red SY Yvette 78Y, she is also the dam of the 2018 High Selling Bull, Smoky Y Now or Never that topped the 2018 sale at \$16,500 to Lee's Cattle Company in Brush, Colorado. Much like his brother, Hallucination is a big centered, wide based, thick-ended herd sire prospect. He charts top 13% WW, and top 17% YW. Study the mass, dimension, and squareness of build that he possesses.

Smoky Y Sub Zero 7169 - Maternal Brother to Lot 9

8103F and 8106F are flush mate brothers from the powerful A-1 Siera Indeed 549X donor that has left a mark on not only our program but also the Red Angus breed. Consistency, predictability, and a strong maternal base supports these flush mate brothers. A-1 Siera Indeed 549X is a role model producer that exemplifies fertility, flesh ability, and udder quality. These brothers are sired by the six-figure valued Flashback, one of the most consistent herd sires that we have ever used in our program. From a numeric standpoint they chart top 13% WW, and top 20% YW. They boast impressive scan data with a strong balance of IMF and REA. Study the maternal aspect, the physical quality, structural integrity, balanced number profile, and excellent scan data that make this pair of flush brothers legitimate herd sire prospects that will add consistency, predictability, and increase your bottom-line!

8177F is another Flashback son that is from the productive Red Windy Hill Miss 1247Z female on the bottom side of his pedigree. He is a wide centered, thick topped, big hipped, square ended bull that is sound build. He is balanced on paper to further compliment his phenotype and quality. 8177F is a maternal brother to lot 3 in the 2018 sale that sold to KB Cattle of Eustis, Nebraska for \$7,500. Study his mass, dimension, and density on sale day!

Smoky Y Stollzy 8155F is the lead off son of the great PZCTMAS Red Sky 2794, one of the Senior Herd Sires in our program that has consistently done his part and is a foundation type breeding bull that simply does not disappoint. Red Sky is known for his ability to sire dark red cattle that are big footed, rugged build, sound footed, athletic cattle that have real-world performance and a three-dimensional muscle pattern. The Red Sky progeny have been popular with our customers over the years because they are no nonsense type beef cattle that sire calves that push down the scales with heavy pay weight and the females are simply sensational. Stollzy 8155F is one of the premier Red Sky son's that we have ever had born on the ranch and we are excited to watch him make an impact for his new owners program. His dam is a top daughter of C-Bar Evolution 107Y that is doing an outstanding job in production with text book udder quality, fleshing ability, and quality! Stollzy 8155F charts among the top 15% for WW, top 16% YW, and top 21% ADG. A sale feature from the Red Sky sire group!

RED SKY... HIS IMPACT WILL BE EVERLASTING!

LOT 11

Smoky Y Lucky 7 8192F is another top son of the great Red Sky and backed by a big bodied, sound build, great uddered daughter of Red Windy Hill Flower 1250Z on the bottom side of his lineage. He is a moderate framed, thick ended, square bodied, thick-topped herd sire prospect that is dense made and ready for heavy service. Lucky 7 boasts an impressive weaning weight at over 700 lbs. of performance when he came to the weaning pen. He charts a WW Ratio of 114 and a YW Ratio of 112. He continued to impress on ultrasound day with an impressive IMF of 5.34 and an IMF Ratio of 122! He is also a big REA bull that scanned with a 16 REA and a REA Ratio of 113. There is no doubt that Lucky 7 is a standout from the crowd and a true beef bull that is sure to enhance your operation's bottom line!

LOT 12

Introducing Smoky Y Last Chance 8205F, sired by Red Sky and backed by the productive Red Miss Jord New Trend 70W, by Red Eggen Mr. Beef 3P. Here is a smooth made, shapely herd sire prospect that is big topped, thick ended, and sound built. He offers a sensible actual birth weight of 79 lbs. and an impressive IMF of 5.18 and an IMF Ratio of 110. 8205F ranks among the top 9% for ME, top 19% CEM, and top 22% YG. A true combination herd sire prospect that we suspect to be safe for use on well-managed heifers!

8200F is from the genetic combination that simply gets the job done at Smoky Y Ranch! Sired by Red Sky and backed by a productive daughter of the maternal great Red MRLA 61X on the bottom side. Here is a deep sided, thick topped, wide based herd sire prospect that charts among the top 25% DMI, top 8% ME, and top 27% YG. He is a high IMF bull that scanned with a 4.59 and offers an IMF Ratio of 104.

LOT 24

Smoky Y Red Zone 8113F is the lead off son from the great PZC TMAS Red Zone 2795, a full brother to Red Sky that also has done an exceptional job within our program. We lost Red Zone, but continue to utilize his service because of the consistency and level in which he sires Red Angus seedstock. 8113F is a deep cherry red herd sire prospect that is backed by a Red Knight daughter on the bottom side of his pedigree. He is a good looking, well-balanced, thick-ended herd sire prospect that is athletic on the move and rugged in his design. He charts among the top 17% of the breed for DMI, and top 26% CEM. He boasts a 5.12 IMF and an IMF Ratio of 116. A true sale feature to evaluate on April 4th!

Bieber CL Atomic C218 - Sire of Lots 32 - 44

A STANDOUT SINCE BIRTH, HE CHECKS ALL THE BOXES!

LOT 33

Smoky Y Atomic 8160F is another standout in this years offering! Sired by Atomic and backed by a RED SSS Status 106B bred dam, he is a deep and dark cherry red stud that excels from phenotype perspective. He is a proud headed, long fronted, and extended bull that is sure to catch your attention on sale day. He is big boned, square made and sound build. He is a true athlete that moves with confidence and ease. He ranks among the elite in the Red Angus breed when it comes to being one of the premier spread bulls in the breed. With an actual birth weight of 68 lbs. and a WW Ratio of 104, he is a real world performance bull. He charts top 2% for CED, top 2% BW, top 28% Milk, top 4% ME, top 10% CEM, and top 14% Marb. He continues to check all the boxes, as he excelled on ultrasound day as one of the premier carcass sires, with an impressive 129 IMF Ratio and a 112 REA Ratio. One of the most unique herd sire prospects to ever carry the S-Y brand!

8157F is another standout son of the great Detour. His dam is a tremendous young PZC TMAS Red Sky 2794 daughter that is becoming a role model producer in the pasture. He charts among the top 23% of the breed for DMI, top 5% ME, top 24% CEM, and top 17% YG. He offers a sensible birth weight of 83 lbs. and a YW Ratio and REA Ratio of 102.

LOT 59

Smoky Y Notion 8117F is a top son from TMAS Mr. Detour 3003A. He was one of the leading herd sires at Smoky Y Ranch, until we recently lost him. Before his demise he proved himself as one of the true breeding bulls in our operation that we had come to heavily rely on. He was a massive topped, thick ended, big centered bull that left behind a trail of females that we will continue to build from, and sons that are working in top herds across the country. Notion 8117F is no exception to the type and kind of cattle that Mr. Detour was capable of siring. 8117F is backed by a standout Traverse daughter that doesn't miss. He ranks among the top 4% of the breed for ME, and top 24% CEM. He charts with a 105 WW Ratio and a 103 YW Ratio.

Smoky Y Spyder 8169F is a category 2 standout herd sire prospect that is from the Spyder sire group. In last year's sale the Spyder sire group was well received by top cattlemen from all around. Our good friend and neighbor, Jerrad Zerr purchased lot 75, a Spyder son for \$7,000. He is being used on some of the best donors at Zerr Red Angus with success. 8169F is a standout to say the least. Massive in his rib design, big topped, thick ended, and loaded with power from end to end. He ranks among the top 8% of the breed for YG and top 16% REA. He entered the world with a sensible 83 lb. actual birth weight. He posted a REA Ratio of 106. Be sure to look up 8169F on sale day!

WCR Gladiator 4361B is sired by the great Red Dwajo Gladiator 32L and backed by the famous Red Geis Rebecca 99'99 donor that left a monumental impact on the breed. Here is a top calving ease prospect that ranks among the top 5% CED, top 1% BW, top 4% CEM, and top 13% Marb. He further solidifies his herd bull candidacy with a 60 lb. actual birth weight! Sleep all night with 8143F turned out.

Smoky Y Marco 8156F may be the last bull cataloged but there is certainly does not disappoint from a quality standpoint. He is a double-digit calving ease bull that is balanced on paper and ranks among the top 12% of the breed for Marb. His dam is sired by Red Zone and is a role model young female that was a hard working two-year old raising her first bull calf. He is a big REA and IMF Bull that offers added carcass merit. Study the power and substance that he offers on sale day!

LOTS 100 - 150

COMMERCIAL FIRST CALF HEIFER PAIRS

Once again we are proud to offer 50+ commercial first calf heifer pairs in lot groups of 5. This set of females is from the heart of the Smoky Y Commercial herd. Many of these females are backed by the same genetics as our registered herd and have been culled strictly for feet and leg issues, potential udder quality issues, or fertility. These females have been under the same management and vaccination program as the registered herd and sell in proper health. This is a tremendous set of females that will have videos available at DVAuction.com prior to the sale.

LOTS 200 - 300

COMMERCIAL REPLACEMENT HEIFERS

We have previously offered a fancy set of commercial open replacement heifers; this year we have more than we can retain ourselves. This is the deepest and highest quality set of commercial open heifer calves we have ever offered for sale. We are proud to offer 100+ commercial open replacements. They have had all the pre-breeding shots, been poured, de-wormed, PI Tested, bang vaccinated, and pelvic measured.

For further information call Cody Younkin (303) 621-4970 or Kelly Younkin (785) 672-2345

Achieve it!

RETURN ON INVESTMENT

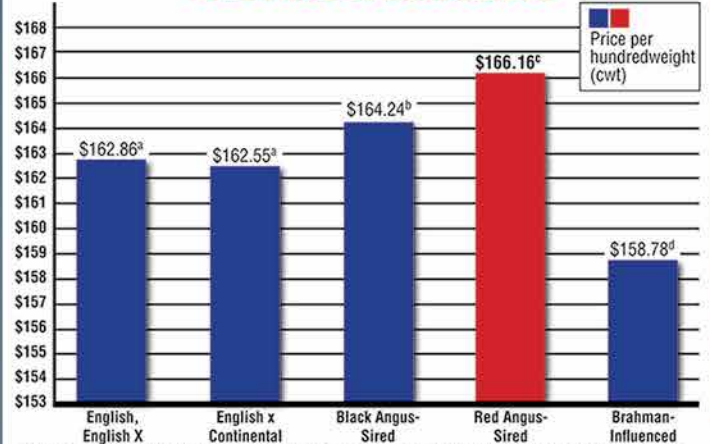

Red Angus genetics will improve your return on investment!

"For 10 to 15 years all the buyers ever talked about was black calves, and the black calves always brought more than everything else. Now I can honestly say that good Red Angus calves outsell the black calves and I know the Red Angus bred heifers will outsell black Angus bred heifers of equal quality every day."

- Jim Davis, Superior Livestock Auction

Effect of Breed Description on the Sale Price of Beef Calves*

* King, et al., 2015. The effect of breed description on the sale price of beef calves sold through 116 Superior Livestock Auction's video sales from 2010 - 2014. J. Animal Science. Volume 93, Supplement S-3, pp 640-641.

^{a-d} Means with unlike superscripts differ (P<0.05).

Independent research shows Red Angus-sired calves sold for a higher price than all other breed groups. Red Angus bulls make a positive difference in your breeding program's bottom line.
