

Bayou Creek Ranch

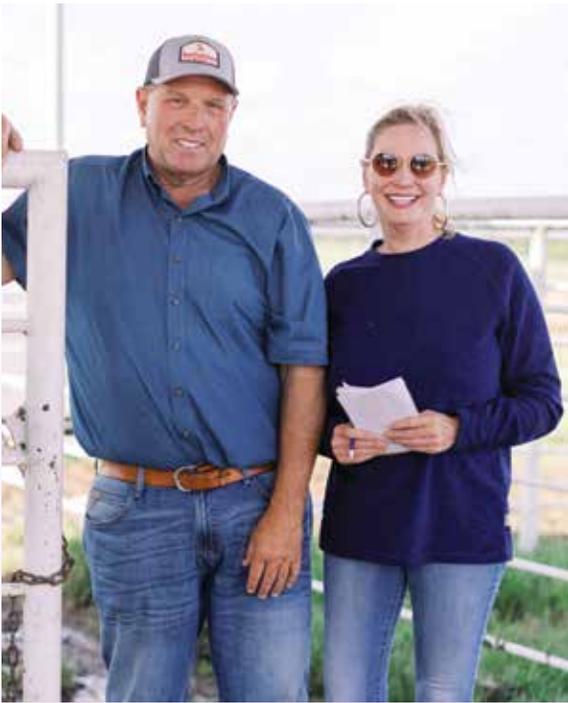

# 2ND ANNUAL PRODUCTION SALE

## Thursday, October 1, 2020

*One O'Clock in Jacksboro, TX*

PIE FULBACK 7005

# BAYOU CREEK RANCH

— RED ANGUS —

Welcome to Bayou Creek Ranch's Second Annual Fall Production Sale; we are pleased you are interested in our Red Angus genetics. We do not take this opportunity to share our program lightly. We strive to promote the elite genetics of the Red Angus breed and deliver those to our producers. We focus on producing cattle that are structurally sound, uniform and adaptable with extraordinary performance.

We are a family owned operation with ranches in Jacksboro, Texas and Lone Grove, Oklahoma. The Swan and Lewis families have a great passion for cattle. Agriculture has always been a part of our lives in one way or another. In 2017, we purchased the mature cow herd from Pieper Red Angus giving us access to some of the top genetics in the Red Angus breed.

Our sale includes bulls and females and we feel strongly you will see our dedication and commitment in these offerings. Thank you for your interest.

Enjoy the Cattle,  
*Ken and Becky Swan, Jeff and Kori Lewis*

Fellow Cattlemen, Cattlewomen, and Red Angus Enthusiasts,

Welcome to the 2nd Annual Bayou Creek Ranch Production Sale, one of the premier opportunities to purchase proven and predictable Red Angus seedstock this fall. It has been an honor to work with the Swan and Lewis families, along with their talented staff in preparation for this marketing event. Bayou Creek Ranch is committed to producing functional, long lasting, problem free Red Angus cattle that offer added value to their customers and positively impact their respective program. This offering exemplifies their motto, “Only The Best”, as they have rigorously culled and put these bulls to the test time after time through the development process.

Through key transactions, Bayou Creek Ranch has established one of the most consistent and proven cow herds in North America. The purchase of the Pieper Red Angus mature cow herd in 2017 introduced key females to the donor roster at Bayou Creek Ranch. PIE Cascade 561 is the dam of the \$75,000 PIE The Cowboy Kind and BYU The Right Kind 9322 ET, the featured Lot 1 herd bull prospect. PIE Lakota 046 is the dam of PIE Stockman 4051, as well as five sons that will cross the auction block. PIE Fayette 1160 is the dam of the \$40,000 PIE One Of A Kind 352. A full brother to One Of A Kind will sell, along with two maternal brothers by the \$132,500 PIE Fullback 7005. PIE Stormy 541, the dam of PIE Code Red 9058, has eight sons that will be featured herd sire prospects on sale day. Other individuals of influence include PIE Janet 1065, PIE Tilly 9117, and TKP Marigold 01457. Large sire groups with many full and maternal brothers has enabled cattlemen to add consistency and uniformity to their programs through genetic advancements.

The bulls are developed in an 80-acre pasture at the ranch in Lone Grove, Oklahoma. By maintaining a slower more precise development, these bulls are true athletes that are ready for heavy service. We confidently say that these bulls will endure more seasons in the breeding pasture. The bulls have had DNA submitted and will sell with genetically enhanced EPD's to facilitate you in making a more educated decision during the buying process. Actual ultrasound data was recorded by David Aborn of Image Livestock Service to aid in your selection. Additionally, a select group of production age females from the heart of the program will be offered for your appraisal following the bulls.

Consider this your invitation to join us on September 30, 2020 in Jacksboro, Texas to view the offering at the Jack County Fairgrounds between 12 PM and 6 PM. Dinner will be served at 6:30 PM at JR's Chophouse on 119 North Main Street in Jacksboro. The sale will begin at 1 PM on October 1 at the Jack County Fairgrounds. If you are unable to attend the sale in person, a live broadcast with real-time bidding will provided by Superior Livestock. Please feel free to contact Jeff, Kent, or any of the sale staff prior to the sale to discuss the offering. We look forward to seeing you on Thursday, October 1 in Jacksboro, Texas!

Enjoy the cattle,

## WEDNESDAY, SEPTEMBER 30, 2020

Bulls and Females will be available for viewing at the Jack County Fairgrounds from 12:00 PM- 6:00 PM  
Join us for dinner at JR's Chophouse at 6:30 PM  
119 North Main Street in Jacksboro, TX

## THURSDAY, OCTOBER 1, 2020

Sale Cattle on Display at 8:00 AM  
Lunch served from 11:30 AM - 12:30 PM  
*Lunch will be sponsored by Martindale Feed and ADM*  
Bayou Creek Production Sale at 1:00 PM

### INTERNET BROADCASTING

Online broadcast and bidding will be available through Superior Livestock Productions. Please see page 7 for instructions to log on. Chad Gordon: (580) 678-1918, Blake Tucker: (308) 660-3963

### TERMS & CONDITIONS

Cattle will sell under the standard Terms & Conditions as recommended by the Red Angus Association of America. All sales are final, and the cattle will become the property of the buyer when the auctioneer says "SOLD".

### SALE LOCATION & DIRECTIONS

The sale will be held at the Jack County Fairgrounds. Address: 1072 State Hwy 59 - Jacksboro, TX 76458. Take State Hwy 59 North 1 ½ miles from Jacksboro. Fairgrounds are on the right.

### HERD HEALTH

All bulls and females in the sale are on a complete herd health program. Both the bulls and heifers have received Vista 5 (VL5), Vision 7, LongRange in the spring of 2020, Safeguard in the fall of 2019, and Multimin.

### RETAINED BULL INTEREST

Bayou Creek Ranch will retain 1/2 semen interest in all bulls but will be selling full possession. The buyer will also receive full salvage value of their purchase.

### BREEDING SOUNDNESS EXAM

All bulls will be fertility tested and trichomoniasis tested prior to the sale and guaranteed to be breeders.

### LIVESTOCK TRANSPORTATION

We are offering free delivery on all purchases over \$15,000. We will be happy to arrange delivery at standard rates for all other purchases.

### LIABILITY

By participating in any event planned and controlled by Bayou Creek Ranch, you agree to the following:

- Bayou Creek Ranch events are provided with no special warranty either express or implied. The Organizers, including but not limited to Bayou Creek Ranch, its employees, Jeff and Kori Lewis, Ken and Becky Swan, Innovation AgMarketing, LLC, the City of Jacksboro and the Jack County Fair Association, assume no liability for any loss, theft, damage, or injury to property or persons, including death, whether arising in contract, negligence, equity, or otherwise.
- You assume all risks when participating in Bayou Creek Ranch events. All participants must obey all rules and regulations of Bayou Creek Ranch and the laws of the State of Texas. Participants must comply with all requests made by employees and agents of Bayou Creek Ranch. Bayou Creek Ranch reserves the right to eject any participant who does not comply with this section, and further, refuse entry to any participant. Refunds for any reason are at the discretion of Bayou Creek Ranch.
- All participants agree to indemnify and hold harmless Bayou Creek Ranch and The Organizers listed without limitation for any and all legal action arising from or related to a Bayou Creek Ranch event.
- All participants expressly give Bayou Creek Ranch authorization to use and post any photographs, videotapes, recordings, or any other record of our events, including full names of any participants, before, during, or after the event for promotional use reporting to the media, and to publish on our website or blog. Participants are not entitled to compensation for Bayou Creek Ranch's use of their name or image.
- We are not responsible for any typographical errors.

# Bull Development

The bulls are developed in an 80-acre pasture at the ranch in Lone Grove, Oklahoma. The bulls are developed slowly with a 15% fiber ration at a rate of 1% of their body weight. After 180 days the bulls are moved to a higher energy ration. They have been maintained at a rate of 1-1.5% of their body weight in order to prevent structure and foot issues. By maintaining a slower and more precise development, these bulls are true athletes that are ready for heavy service. We confidently say that these bulls will endure more seasons in the breeding pasture. The bulls have had DNA submitted and will sell with genetically enhanced EPD's to facilitate you in making a more educated decision during the buying process.

# Bull Guarantee

Unless otherwise noted, all the breeding age bulls will have passed a breeding soundness exam prior to pick up/delivery. In addition to the standard terms and conditions of the Red Angus Association of America, we will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all yearling and older bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price less the salvage value of the animal.

**Please contact Jeff Lewis at (940) 229-1465 or (903) 918-6988 for further questions about how Bayou Creek Ranch can add value to your operation.**

# Ultrasound Data

The ultrasound data was collected on August 25, 2020 by David Aborn of Image Livestock Services. He is a certified technician through the Ultrasound Guidelines Council (UGC; see [www.ultrasoundbeef.com](http://www.ultrasoundbeef.com)), approved to submit images to central processing labs and wished to have their names published in this list. David Aborn (406) 596-0445.

**On August 25, 2020 79 Bulls averaged  
1345 Pound Ultrasound Weight | Act. REA of 15.5  
Act. BF of 0.19 | Act. IMF of 3.54**

The bulls that carry the Bayou Creek Ranch brand will add terminal value to your calf crop and in turn contribute to your bottom line!

# Special Thanks

We would like to thank our sponsors Martindale Feeds and ADM Animal Nutrition for providing our sale day meal. We are proud to partner with these progressive companies in our operation.

## HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at [www.superiorlivestock.com](http://www.superiorlivestock.com).

## HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to [www.superiorlivestock.com](http://www.superiorlivestock.com) and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it, or scan and email the form to [info@superiorauction.com](mailto:info@superiorauction.com). You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

### **Click-To-Bid.**

This is Superior's online bidding platform for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) to sign up. Becoming a member is easy - just go to the homepage of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

### **Viewing the Auction.**

There are two places to view the sale broadcast live on the internet: [www.superiorlivestock.com](http://www.superiorlivestock.com) or [www.superiorclicktobid.com](http://www.superiorclicktobid.com). Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone or tablet go to [www.superiorlivestock.com](http://www.superiorlivestock.com), but if you want to bid over the computer you must go to [www.superiorclicktobid.com](http://www.superiorclicktobid.com). Remember you can call in to bid on the internet, but you must be a member of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) to "click to bid". Your computer must have Flash Media Player installed for this website to view the auction.

If you have any questions, please call the Superior Productions office at 800-431-4452.

\*If you plan to bid by phone through Superior Livestock or 'Click-to-Bid', you must register at [www.superiorlivestock.com](http://www.superiorlivestock.com) prior to bidding.

# WWW.SUPERIORLIVESTOCK.COM

# A Guide to EPD's

- HB** HerdBuilder is a maternally focused selection index that predicts the probability of developing profitable cowherd traits while maximizing the value of marketed progeny. Expressed as dollars per cow exposure, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained, and all remaining progeny are marketed on a quality-based carcass grid. (Index/High Value)
- GM** GridMaster is a terminally focused selection index that predicts the probability to increase the value of marketed calves. GM places selection pressure on growth, feedyard performance and carcass quality, predicting differences in profit as expressed per cow exposure. GM is calculated based on the scenario that bulls are mated to cows only, and all progeny are marketed on a quality-based carcass grid. (Index/High Value)
- CED** Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)
- BW** Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)
- WW** Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)
- YW** Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)
- ADG** Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)
- DMI** Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the postweaning period. (Pounds/Low Value)
- MILK** Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)
- HPG** Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)
- CEM** Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)
- STAY** Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)
- MARB** Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)
- YG** Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)
- CW** Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)
- REA** Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)
- FAT** Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

# Genetics Backed by GGP

The GeneSeek Genomic Profiler (GGP) products and services empower decisions in selecting, raising and selling elite cattle, enhancing profit and protecting your reputation for high-quality seedstock. Beef genomics is evolving fast. GGP provides advanced, wide range DNA testing for the real world of cattle production.

*Using genomic-enhanced EPDs for selection of young breeding stock provides a level of precision and reliability that's never been available to producers before.*

Bob Weaber  
Kansas State University

## Efficient selection of seedstock replacement heifers

Never before has such power been so practical. As breed associations add the GGP uLD to their DNA services, you can genomically screen and select replacements for your herd while adding value to heifers you sell.

- **Profile replacement heifers** – Use genomics to select the best and sell the rest
- **Raise elite cows** – Superior nucleus cows are the source of superior bulls
- **Market quality heifers** – Sell heifers with GE-EPDs helpful to commercial cattle producers
- **Verify parentage** – Confirm parentage of heifers for registration and marketing

## The best 50K ever – Effective, affordable power to select, manage and market sale bulls

An ideal tool to test a crop of bull calves, the new GGP 50K is the most advanced 50K ever. Highly accurate. Highly affordable. Very versatile with built-in parentage and genetic-health screening. Nearly all major breed associations offer the GGP 50K as their workhorse profiler for routine use.

- **Genomic-assisted selection** – Identify the best bull calves for sire development or AI studs
- **Profiling bull calves for sale** – Affordable accuracy with GE-EPDs adds value in the sale ring
- **Reputation builder** – Verify quality for local customers and distant buyers
- **Fits modern methods** – Uses markers enhancing new “single-step” GE-EPD calculations

## Setting a gold standard for the best of the breeds

The most powerful commercial seedstock profiler, the GGP HD150K is ideal for AI studs, donor dams and elite bloodlines. With its strategically chosen content, running the GGP HD150K on elite bloodlines improves imputation accuracy of pedigree genotypes.

- **Smart Design** – Contains 150,000 markers, filling in genetic details other tests miss
- **Modern** – Works synergistically with other GGP products in the “single-step” system
- **Imputation standard** – GGP HD150K data on parent and grandparent animals can sharpen GE-EPDs on their progeny
- **Unique content** – Impactful new markers for cattle performance, reproduction and quality

Bayou Creek Ranch

# THE BULL OFFERING

LOT 1 - BYU THE RIGHT KIND 9322 ET

BYU The Right Kind 9322 ET is a standout son of arguably one of the most proven matings in the business. A full brother to the \$75,000 PIE The Cowboy Kind 343 AI Stud that is employed by McEntire Red Angus of Sweetwater, OK. 9322 is much like his full brother, The Cowboy Kind, from a stoutness, performance, and dimension perspective. He ranks top 26% HB, top 34% GM, top 35% WW, top 30% YW, 27% ADG, top 24% DMI, top 20% Milk, top 16% HPG, and top 7% Fat. Recommended for use on production age cows. A true standout that is a must see on sale day in Jacksboro, TX.

# THE BULL OFFERING

LOT 2 - BYU ONE OF A KIND 9328 ET

PIE STOCKMAN 4051 - Maternal Brother to Lots 2-5

LOT 3 - BYU ONE OF A KIND 9396 ET

BYU One Of A Kind 9328 ET and BYU One Of A Kind 9396 ET are flush mates and maternal brothers to the widely popular PIE Stockman 4051, one of the featured herd sires for Pieper Red Angus, Bradbury Cattle Company, and Bieber Red Angus that topped the Pieper Red Angus Bull Sale in 2015. One of Stockman 4051's most widely recognized son is the \$155,000 PIE Quarterback 789, the high selling bull from the 2018 Pieper Red Angus bull sale that was selected by 9 Mile Ranch of Washington. This pair of brothers are true performance specialists, that offers breed leading figures. They rank among the top 1% for WW, top 1% YW, top 10% GridMaster, top 3% CEM, top 10% CW, and top 18% REA. 9328 and 9396 are dense made, thick ended herd sire prospects that are great options to add pay weight to any calf crop.

BYU One Way 9408 is a true standout from the C-Bar One Way 37E sire group that is backed by the dynamic Y11 cow family that has made such an impact in the Red Angus breed and beef industry as a whole. One Way is a maternal brother to the \$105,000 9 Mile Franchise 6305 that topped a previous 9 Mile Ranch Bull Sale. The dam of 9408 is a two-year-old female that is sired by RREDS Seneca 731C and from RED BAR-E-L Gloria 79W, a member of the famed Gloria tribe at Six Mile Ranch. 9408 offers a sensible birth weight of 78 pounds and spreads to a YW Ratio of 103. He ranks top 17% ADG, and top 24% YW.

C-BAR ONE WAY 37E - Sire of Lots 50 and 51

9 MILE FRANCHISE 6305 - \$105,000 Maternal Brother to Sire of Lots 50 and 51

LOT 51 - BYU ONE WAY 9309

BYU One Way 9309 is sired by the Pieper Red Angus selection at C-Bar Red Angus, C-Bar One Way 37E, the maternal brother of the \$105,000 high selling 9 Mile Franchise 6305. The late C-Bar Abigrace Y11 was one of the most phenotypically impressive females and her legacy continues to impact the Red Angus breed and beef cattle industry. 9309 is one of the true standouts from a performance standpoint among the entire offering. He boasts an actual birth weight of 75 pounds and spreads to a WW Ratio of 110 and a YW Ratio of 112. Numerically he ranks among the top 2% WW, top 1% YW, top 1% ADG, top 16% HPG, top 27% CW, and top 16% GM. A rugged, long bodied bull that will add pay weight to any calf crop.
