

THE FOURTH ANNUAL MORIONDO FARMS AND MM CATTLE CO

PRODUCTION SALE

o at the Ranch in Mount Vernon, MO

Fellow Cattlemen and Women.

We would like to welcome you all back out for our fourth annual production sale November 7 2020, here at the farm in Mt. Vernon MO at 1 p.m. We are very excited to offer up this set of bulls for your appraisal this fall. We believe this is our best set to date! The breeding of these bulls is second to none on a genotype and phenotype standpoint. We have continued to work tirelessly at developing these bulls on fescue and with the customer in mind to make these bulls be able to go out and perform in the pasture for years to come and if there is a problem, we encourage you to please let us know so we can handle it!

The SimAngus bulls this year are as complete of a set as we have ever produced here, take a look through the several pages of these big stout monsters and you'll continue to find double digit calving ease combined with triple digit yearling weight EPD's. All bulls have had a genomic profile ran on them along with a polled/horned test and a panel test. These big boys leave no doubt as to if they're going to add pounds to your calves you just have to wait and see how many pounds they put on the scales. They are scale crushers! With excellent carcass traits to boot! They are performance bulls out of maternal wonders of cows, stemming back to several breed leading donors. The females these boys should produce should knock your socks off. Several of these bulls are "Show Me Select" qualified. Check out these 18+ month old monsters.

The Angus bull division is led off with many breeding leading sires such as Value Added, Capitalist 316, Stunner, Blaster, Monumental, and several more. There are "Show Me Select" heifer bulls and cow bulls in this division alone with bulls that are CAB qualified. Good feet, good structure, and good numbers would be good defining terms of these bulls. Many full and half-brothers in this grouping of animals. The bulls look like bulls and leave no doubt about that.

We have decided to cut back on the number of females we are offering but didn't cut on the quality at all! We will be offering 25 two-year-old commercial pairs, with calves at their sides sired by Moriondo bulls. Very fancy set of females with their whole lives ahead of them! They have been bred up for 30 years in the Moriondo Farms program, and they are tested and true genetics.

What a crazy year 2020 has been! It has been a trying year for all of us, it has shown no mercy no matter what walk of life you live. We here at Moriondo Farms and MM cattle try our best to just focus on the three F's. Faith. Family. Farming. It seems to help keep a person sane living in these crazy times. One plus of 2020 is we did welcome our second child into this world. McCoy Larry Moriondo was born April 14.

If you don't feel comfortable coming to the sale we certainly understand and encourage you to register online at SuperiorLivestock.com or feel free to contact any of the professional sale staff about the offering. We look forward to seeing everyone that makes it out and hope to see the rest of you soon.

Stay safe and God Bless Mark Moriondo

Larry & Rita Moriondo Mark, Maranda, Mila & McCoy Moriondo Lucas Reinhart

A Mark Maranda, Mila & McCoy Moriondo Lucas Reinhart

A MARCOY MORIONDO FARMS

A MM CATTLES CO AND MORIONDO FARMS

It is with great anticipation and enthusiasm to welcome you to the 2020 edition of the Moriondo Farms annual bull sale. Larry and Mark have put forth their absolute best effort to bring you, the prospective buyer, the BEST of the BEST for your operation. They have made the substantial investment in genetics, development, and health to allow a product that is absolutely bulletproof and problem free, and if not, they will stand behind it 100% and then some.

This set of bulls is nearly double in terms of numbers ever offered and the quality follows as well. It is an offering of density in genetics, performance, and product. As you study this sale book you will notice the breed leading genetic predictors and indexes that represent both breeds. A very significant number of these studs qualify for the Show Me Select programs and are brothers and maternal brothers to some of the industry's elite A.I. sires. With all the substantive curve bending factors within the offering, you can also rest assured that this is one of the largest offerings of fescue developed bulls represented by a high integrity outfit that stands behind their product day in and day out. No nonsense, no bull shit, legit customer service.

For those that are not familiar with this family operation, it's one of size and industry relevance. The cow herd numbers well over a thousand females with both commercial and registered inventories. They sell cattle by the pound just as you do. Utilizing the staff and service of Joplin Regional maintaining a strong relationship and reputation with the Moore family. Larry has retained ownership and has partnered with great feeders like Billy Hall over the years to know and learn about the end results in the product they are offering. This operation is well versed on the broad spectrum marketing options this vast industry has to offer at every stage of production. Just several more boxes that can be checked off to further justify the need to do business with this ranch.

To say we are excited to be a part of the Moriondo team, is an understatement. The bull business is people business and like you we like teaming up with the good people of this industry and our nation. This outfit is rapidly becoming the go to source for your commercial bull needs in the country. There's really no need to shop anywhere else especially if you are in a fescue pasture scenario. We look forward to seeing each and every one of you November 7, 2020. Please call the Moriondo team members or Innovation AgMarketing with any questions regarding the offering or the program.

Enjoy the cattle,

MM CATTLE CO AND MORIONDO FARMS

3:30 PM - Fourth Annual Sale

WATCH AND BID ONLINE WITH

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions'"Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock and is the suggested process for anyone who does not have excellent, high-speed internet. To get started, simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information, Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone. You can also register over the phone by calling 800-431-4452.

Click-To-Bid. This is Superior's newest way to buy cattle! Please note that high speed internet is required — this is not for dial-up or satellite internet. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy — just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for.

VIEWING THE AUCTION

If the sale is being broadcast on SLA-TV then, it will be available on DISH Network channel 997. Please note that there is a short delay if you are watching the auction on television, so be sure to call in at least one lot ahead of the lot you are interested in bidding on. Regardless of the television channel the sale is being broadcast on, all auctions will be broadcast live on the internet at www.superiorclicktobid.com. Some auctions will ONLY be broadcast online. Remember you can call in to bid whether you watch on the TV or on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid". If you just want to watch the auction without bidding online, you can do so by entering the auction as a guest. Guests do not need a username or password to watch the auction. Your computer must have Flash Media Player and Java installed to view the auction online.

For more information or if you need assistance contact Blake Tucker (308) 660-3963.

Unless otherwise noted, all of the breeding age bulls have passed a breeding soundness exam and are fertile to the best of our knowledge at the time of sale. In addition to the standard Terms and Conditions of the American Angus Association and American Simmental Association, we will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all yearling and older bulls. This guarantee is not an insurance or mortality policy, but a guarantee of functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside of genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine the best course of action and reserve the right on a case by case situation to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided, we will issue a credit to be used in a future sale for the full purchase price less the salvage value of the animal.

ALL BULLS SELLING ARE VIRGIN BULLS AND HAVE BEEN TRICH TESTED AND PASSED A BREEDING SOUNDNESS EXAM.

We offer free delivery on bulls in Missouri, provided the buyer is able to make arrangements to receive the bull when delivery is made to your area, usually within a few weeks of the sale. Due to fuel costs and time restraints, we may consolidate trips. If you are unable to receive the bulls when delivery is scheduled to your area, you need to make arrangements to pick up your bull at the farm within two weeks of sale date. Each animal will be at purchasers own risk as soon as sold. Bulls will be cared for free of charge for 2 weeks following the sale should you have to pick them up.

VOLUME DISCOUNT

3-4 Bulls - 3% Discount | 5-9 Bulls - 5% Discount | 10+ Bulls - 10% Discount | \$50 Discount if bulls are picked up within 1 week of the sale

261G is a stout made, long bodied, extended bull that offers exceptional muscle shape and athleticism. This homozygous polled SimAngus bull is sired by KCF Bennett Homestead, a big spread calving ease and maternal sire that transmits muscle and substance to his progeny. 261G is backed by the impressive 22X matron that is now employed by Eagle Pass Ranch of Highmore, South Dakota. 22X is the dam of the \$85,000 EGL Firesteel 103F that is owned by Lazy C Diamond Simmental Ranch, C Diamond Ranch, Hook Farms, Clear Springs Cattle Company, Schooley Cattle Company, and J/C Simmentals. Other sons of 22X are working in some of the Nation's top programs; Werning Cattle Company, Hamilton Farms, Gibbs Farms, and ABS Global. 261G ranks top 4% CE, top 25% BW, top 10% MCE, top 1% Milk, top 4% MWW, top 20% Doc, top 20% CW, top 15% REA, top 25% API, and top 30% TI. A sale feature that is backed by an elite and proven cow family.

MISSOURI SHOW-ME SELECT REPLACEMENT HEIFER PROGRAM

The Show-Me-Select® Replacement Heifer Program uses the latest research on health, nutrition, genetics and reproductive science to ensure Missouri counties continue to be national leaders in providing quality beef. The program focuses on Missouri's farmers and is dependent upon active participation from regional extension livestock specialists and local veterinarians, each of which are critical components of the agricultural sector of this state.

This program is unique in that it is an educational program targeted at improving production efficiency through increased use of existing technology, coupled with the marketing component.

Program Objective:

Improved heifer development programs through a Total Quality Management strategy Increased marketing opportunities for and added value for Missouri-raised heifers Creation of reliable sources of quality replacement heifers based on management, reproduction and genetics

Genetic Requirements:

Sire requirements: Eligible sires must have known ID, be registered by their respective national breed registry, and have complete EPD (opens in new window) information. Sires will be evaluated for qualification in the program based on the EPD provided by their respective breed registry and not on EPD produced by progeny registration in any other breed or hybrid registry.

Angus minimum Calving Ease EPD of 7.0 Simmental and SimAngus minimum Calving Ease EPD of 14.0

THE ANGUS BULLS

LOT 100 MF MM PIONEER 93

MF MM Pioneer 93 is the lead off bull of the 2020 Angus division. He is sired by the impressive SAV Pioneer 7301, a member of the famed SAV herd sire battery and owned by Rafter U Ranch, Boyd Beef Cattle, Pender Bros, Prairie View farms, and Schaff Angus Valley. 93 sets the standard from a phenotype standpoint. He is massive in his rib cage, deep bodied, sound footed, and offers tremendous eye-appeal. He is backed by the impressive EXAR Evergreen 3310 from influence of BR Midland. He charts top 30% CED, top 35% BW, top 25% HP, top 15% CEM, top 10% Milk, top 10% \$M, and top 20% \$W. A true standout among the entire offering and an Angus bull that you can build a cow base from.

LOT 109 MF MM SKY HIGH 9300

Sky High was the lead off and high selling bull of the 2016 Musgrave Angus sale in IL. He is a standout performance bull that uniquely combines stoutness, base width, and muscle with depth of fore rib, phenotype, and eye appeal second to none. From the ground up Sky High has superior structural soundness and hoof quality. Individually he earned weaning and yearling ratios of 114 in a contemporary group of 91 head. His remarkable dam has earned a NR of 3 at 109 and BW ratio of 3 at 101. 9300 is a true standout phenotypically, offering tremendous muscle shape, expression and density. A well-balanced herd sire prospect that charts top 20% WW, top 15% YW, top 20% YH, top 3% MW, top 15% MH, and top 15% Doc. Balanced and proven time-tested genetics that are supported by the great Wallace Evergreen 1105 matron. A true sale feature.

MF MM Sky High 9304 is the fourth brother from the powerful flush of Sky High sons that are from the Wallace Evergreen 1105 matriarch. He charts top 30% CED, top 30% BW, top 30% YH, top 20% Doc, top 15% Claw, top 30% Angle, and top 35% \$W. 9304 is a powerful individual from a sensational set of flush brothers that will add pay weight to any programs bottom line.

LOT 113 MF MM BLASTER 9014

Bruns Blaster is impressive from every angle, a true powerhouse that will sire three-dimensional cattle that are stout, capacious and growthy, without sacrificing eye appeal. His strong maternal background is evident in his female progeny. Much like his highly productive Right Answer dam, daughters are correct in their feet and leg structure with ideal udders. Whether you need replacement females or feeder cattle that mash the scales, the Blaster sire group deserves your attention. MF MM Blaster 9014 is a soggy, deep bodied, powerful individual that charts top 4% WW, top 4% YW, top 25% RADG, top 10% YH, top 3% Milk, top 20% MW, top 20% MH, top 5% Doc, top 20% Claw, top 20% Angle, top 20% CW, and top 5% \$W. A true standout that is a sale feature.

The deceased Musgrave 316 Stunner was admired by many for the width, dimension, and structural correctness he maintained in a well-balanced package. Stunner boasts an excellent set of EPD's that rank him at the top of the breed for CED, WW, CEM, and \$W. 9006 is an eye-appealing Stunner son that is backed by a Primrose daughter sired by TEX Demand 2791. He is a standout growth and carcass herd sire prospect that charts top 5% WW, top 4% YW, top 10% RADG, top 20% MW, top 15% MH, top 1% CW, top 25% RE, top 30% Marb, top 1% \$F, top 25% \$G, top 1% \$B, and top 2% \$C. He meets the Certified Angus Beef genetic requirements for Marbling and Dollar Grid Carcass Index (\$G).

JD Pay Dirt 546 is the 1682 son to tie to - bringing more style and eye appeal with great numeric balance. Pay Dirt is a high marbling sire that is big middled, deep flanked and soggy. Progeny are ratioing 104 on IMF and 102 on REA. His Dam is an excellent uddered top young cow in the Daigger-Orr herd. His calves consistently exhibit the same depth of rib and fleshing ability that Pay Dirt offers, and rank at the top of sire groups in multiple herds. 186A is backed by a productive daughter of Ten X. He charts top 15% WW, top 25% YW, top 20% YH, top 10% SC, top 10% HP, top 15% CEM, top 15% Milk, top 15% Marb, top 10% \$M, top 10% \$W, top 15% \$G, top 20% \$B, and top 10% \$C. He meets the Certified Angus Beef genetic requirements for Marbling and Dollar Grid Carcass Index (\$G).

LOT 200-224

The commercial herd is a large portion of Moriondo Farms and MM Cattle Co. With a strong emphasis on genetically enhancing the cowherd through AI sire selection the herd has continued to evolve over the years into a phenomenal set of production cows. These females are bred to survive and thrive on the fescue pastures of Southwest Missouri. They are sound, good footed, good uddered females with fleshing ability and a strong maternal instinct. A select group of 25 first calf heifer fall pairs will sell on November 7, following the bull sale. They are home raised set of black and black baldy females that have steer or heifer calves at side sired by low birth weight Moriondo Angus bulls. Calves born between September 12, 2020 and October 31, 2020.

For more information please contact Mark Moriondo at (417) 366-1249 or Lucas Reinhart at (580) 276-0070

Herd Health - Cows
