Derek Counsell, Herdsman (641) 715-4138
Jeff Williams, Herdsman (402) 380-9049

Welcome,

As I sit here and reflect on this year, with all the uncertainty and stress it has taken on all of us in some form or another. I find myself still blessed and smiling, blessed with my faith, my family, & friends. I would like to personally invite you to our Annual JS Midwest Made Elite Female Sale, Friday, December 11, 2020 at 6:00 PM.

JS is strongly committed to producing high quality, sound, functional cattle. We are extremely proud of our extensive ET program and I can say with confidence that our donor pen is housing some of the elite genetics within their breeds. Expanding those genetics and utilizing some of the most respected sires in this breed which expands not only in our Simmental breed but the Angus and Hereford breeds as well.

We sincerely appreciate you taking the time to read through and study these genetics. In the meantime, if we can be of any assistance or want to visit about the sale offering, please give us a call.

Sincerely,

Jay Steenhoek

JUNIOR INCENTIVE PROGRAM

Any junior that purchases a heifer will receive 3 units of semen from any sire in the JS Herd Bull battery.

INNOVATION

— AgMarketing, LLC —

It is with great enthusiasm that we welcome you to the 2020 edition of the legendary, Midwest Made Production Sale. For certain, there's a lot of good to be found in this not so normal year, and most all of that would be in the production agriculture sector. Sure, the cattle market has had its share of ups and downs, but for the most part, it has been relatively good. The grain markets are something else that we can all appreciate and be thankful for the upward ticks in the marketplace late season. Agriculturalists are created of a different nature and "back up" is not in our vocabulary or knowledge pool. Folks, it's full steam ahead and no looking back when it comes to enjoying and producing the absolute best food grade protein in the world.

The Steenhoek family is without question one of the most driven and resolute families in the seedstock business. You would be hard pressed to compete with their drive and initiative to acquire marketable perfection. They are not scared to put the miles on when searching for the next breed influencing sire and they are fearless in female acquisition. They know and understand that you have to pay to play and it has worked in their favor more times than not. Folks, this is a family of gamers and that's why they are one of the elite programs in the business and will be for years to come. It's a family affair but they have an awesome team of industry greats that assist with the day to day and that's what makes it all work. Loyalty to their team, and dedication to quality and perfection is what propels this operation to the top nearly every time they leave the house.

This offering is loaded with pedigree, build, and proven tract records of success. Several cattle offered are from the Flirty or Summer donor females, as well as a dense pedigreed set of Angus and Hereford heifers that replicate the same value as their Simgenetic females. The cattle between the covers of this book carry breed leading sire power as well with the service of Innovator, Broker, Relentless and several others. Embryo transfer is an obvious investment as you flip the pages and we are all familiar the unforgiving investment in that game. There is no effort, no money, no commitment withheld in this specific offering, it's obvious they aren't going anywhere anytime soon except to the top, so you may as well get on board with the program and ride the coat tails to success with one of the best family operations in the business.

Consider this your personal invite to Prairie City, Iowa on December 11, 2020. The hospitality and the cattle will be second to none. It will be a busy weekend with a ton of Simmental events in the region and the Midwest Made Elite will be the Kickoff Event.

TERMS AND CONDITIONS

All lots sell in accordance with the suggested guidelines of the American Simmental Association or their respective breed association. For updated EPD's and information please visit www.simmental.org. Announcements made sale day from the block during the sale take precedence over printed material in this catalog. Payment will be accepted in the form of cash, cashier's check, or check. All cattle must be paid for prior to release. All funds are to be paid to Innovation AgMarketing, LLC in U.S. currency. No cattle will be transferred, delivered, or released without full payment. In the event you need expedited registration paper transfers please make plans to pay in full on sale day. All sales are final.

ANNOUNCEMENTS

A supplement sheet will be available sale day with updated information, corrections and additional information. This sheet and any announcements made sale day and from the auction block during the sale will take precedence over printed material associated with this sale.

LIABILITY

JS Simmentals, Innovation AgMarketing, LLC, and authorized sale personnel assume NO liability for injury, accident, or damage to persons or personal property. All persons who attend the sale do so at their own risk.

RETAINED FLUSHES

JS Simmental will retain the right to (2) two successful flushes on each female in the offering. This is to be done at the buyers convenience and sellers expense.

LOT 1A JS FLIRT AWAY 52H

The daughters of 59Y are always the ones in positive question. This exact mating to the King of the Ring, Broker, produced a dominant Triple Crown winning AJSA Summer Classic Champion female known as the great "Boots". "Boots" is a notable and prolific donor for Jamie Campbell and Company with progeny commanding well over the \$90k mark. Most recently, a son named Doc Holiday is your reigning 2020 National Western Champion and the 2020 American Royal Reserve Champion for the Baty Family of Colorado. The sheer domination of JS Black Satin 9B alone, should be enough success to entice everyone to own a sister. Yes, full sibs don't always breed or produce alike, but there is always that chance that something will click and in turn, yield a profit margin that will pay for the initial investment. Personally, I know the cowboy that found "Boots", Jay Steenhoek and I are very confident in his ability and he is respected by many in the business. He knew "Boots" wasn't perfect but could see the pieces were there and knew how to get them connected to generate the results that she had during her tenure on the tan bark. With the search for the "great one", in today's competitive climate, we more often than not leave what might be the best end game behind because we are ignorantly critical of one minor flaw and in turn the prize is missed. Each one of these Broker x 59Y's carry the same genetics as 9B and when one diligently studies the kind and evaluates the best and the worst of each one, the true cattlemen within should allow to mate these females to produce the one of your liking. As we all know, all 4 cannot be champion on the same day, but each of them has the potential to be what their sister was and most importantly is today which would be a dollar generating cash cow. Have faith in the program, have faith in the genetics, and maintain the faith in your ability as a cattleman to select the right one for your investment future. Invest with confidence in the full sisters to JS Black Satin 9B.

JS Black Satin 9B | 2015-2016 Triple Crown Winner and Full Sister to Lots 1A-1D, Maternal Sister to Lots 2A-2B, & 3

DECEMBER 11, 2020 IN PRAIRIE CITY, IOWA

LOT 2A JS FLIRT AWAY 53H

Did you know that between 59Y and her dam that there is over 180 recorded progeny combined? Within that head count some of the most influential prefixes in the breed would be listed as breeders/ owners of the recorded stock. If that doesn't speak volumes for the cow family itself, I don't know what will. This genetic combination would also bear a lot of steam, not only are they maternal sibs to one of the most decorated females on the bark in the last decade, but they are sired by a stud whose sister were dominant in the last couple years as well. Everyone knows that JBSF Logic is from the single most dominant mating in the breed within the last five years. Multiple sisters were campaigned with unmatched, dominant success. Families by the name of Guyer, Walker, Miller, and Tebo, to name a few all have stock tied to Logic. Guyer and Walker dominated the lineup of females at the AJSA Summer Classic in 2019 with aforementioned crowned as your 2019 North American Champion as well. Logic's dam was a definite no miss donor especially when mated to Relentless for the Bloomberg Family of Illinois. With that said, I'm not sure how one can justifiably not take notice of this pair of full sisters and at least consider adding them to the long short list on December 11, 2020. High caliber seedstock, show stock, breeding stock, and opportunity stock with this purple pedigree blend.

JBSF Logic 5E | Sire of Lots Sire of Lots 2A-2B, 6A-6D, & 10

DECEMBER 11, 2020 IN PRAIRIE CITY, IOWA

LOT 3 JS FLIRT AWAY 43H

Here's the 59Y daughter that is supported by the \$205,000 sire of the 2019 AJSA Summer Classic Champion Percentage Female and the 2020 AJSA Summer Classic Champion Purebred Female that was most recently slapped American Royal Champion of the Junior Purebred Show. There's no doubt the Bankroll sire group has left it's mark nationwide. He works best on those bigger more extended females to achieve the present-day show heifer much like 59Y. This female packs all the good from both sides, with extra body, square upper hip shape with pin width that carries to the ground with suitable base width going away. She's correct in her structure from each and every angle. 43H would be the different twist of all 7 direct daughters of the prolific and proven 59Y.

Here's a pair of Relentless daughters from a full sister to 9B that would be a past high selling feature of the Midwest Made Elite offering. Pearl was selected and campaigned by the Liggett family of Ohio with much success. The mating of Relentless on Broker is becoming one of predictability and proof as it blends three highly proven, breed influencing cow families. 8543U, H25, and 14P all influence this pair of females. We elected to let you to do the research to see how many progeny would be recorded to those three dominating donors collectively. The length, the build, and the kind that the most discriminating families should gravitate towards on the beginning of the second weekend of December.

DECEMBER 11, 2020 IN PRAIRIE CITY, IOWA

LOT 5A CCS/JS SUMMER 1H

It's a Relentless pursuit of perfection at the breeding box for the Steenhoek Family as they knock out the proven pedigrees on both sides for your buying confidence. Yet another mating on a dominant female that made her name with some leather and tan bark more than once. WHF Summer, owned with Wayward Hill of Kentucky, was more than successful in her show career as she dominated the field with a record like no other winning the densely competitive, well attended North Central Regional, followed up with Supreme honors at the coveted Iowa State Fair and the American Royal as well as Champion Female honors in the Open Purebred Show at the North American. She was in a league of her own for her flawless balance, skeletal integrity, and insane body depth. Her Broker sired dam just commanded a \$22,000 half interest price tag at this year's "The One" going to work in the Beshears program of Indiana. This mating, to the sire of Champions, did produce the 2020 American Royal Reserve Division 2 Champion Purebred heifer calf. 1H already has the miles and experience under her belt to be on the unyielding way to success for the new owners. However, we believe the future to be as bright and even brighter as we analyze the kind, grit, and substance that the younger two division contenders bring to the frontlines of competition. This mating was simple with results as we predicted. **Offering 1/2 Interest.**

DECEMBER 11, 2020 IN PRAIRIE CITY, IOWA

LOT 6A CCS/JS SUMMER 37H

The Summer cattle have been well received by a diverse group of breeders since she entered her productive phase of life. She has been mated to the proven, unproven, big numbered, and flat numbered, however the results have been positive from all angles in regard to physical quality and above all the profitable bottom line that we all wish for. One of the most recent success stories would have happened at Udell's with a hammer price of \$15,000 on an Innovator daughter. The mating to Logic, again, was very logical and simple to do. We have already addressed his cow family achievements in previous lots, why wouldn't you want to mate a sire with sisters that were as dominant as Summer in their own show careers. It may sound like a broken record, but when the donor pen is as proven and influential as it can get and the bull battery stems from some of the great cows in other elite programs, its mating done simple.

DECEMBER 11, 2020 IN PRAIRIE CITY, IOWA

LOT 7 CCS/JS SUMMER 31H

When Summer was on the road, she had a lot of friends ringside and in the stalls. The same could be said of our young Angus herd sire, Follow Me. He offers a flawless profile, build, skeleton, and design, with great bone and feet. 31H could quite possibly one of the most elite SimAngus prospects to be marketed in the fall 2020 sale season. We admire her poised presence, proud demeanor, and show stopping build. Officially "Bred in the Purple", this creature is quite hairy, unique in her kind, with all the bone, substance, and a flawless profile to satisfy most. Hitch your wagon to one of the elite cow lines in the industry. She has all of the "extra" bells and whistles to find the backdrop time after time.

LOT 8 JS AUTUMN 3H

SIMMENTAL

JS Autumn 3H is the stunning daughter of the National Western Stock Show Grand Champion, CDI Innovator 325D. The sheer brood cow look and value these Innovator cattle have when mated to the likes of Autumn is never in question. Autumn is the Executive Order sired sister to Summer that will be a fundamental building block moving forward. 3H will allow folks to ponder on the value of such a female with flexible versatility as she ranks in the top 4% of the breed for TI, top 5% for WW, top 10% YW, within the top 25% for CE, BW, ADG, and API, and let's not forget to mention the fact that she is even above breed average for Ribeye and Marbling. Progressive breeders like JS will close the gap on quality with numbers for all to utilize.

WHF Autumn 365E | Dam of Lot 8

DECEMBER 11, 2020 IN PRAIRIE CITY, IOWA

LOT 9A JS DAIRY QUEEN 29H

This pair of females will be from our proven Dairy Queen donor that was our selection from the Clear Springs program of Minnesota. We sought this donor out for her sensible combination of phenotype and numerical values. We have mated this female to some of the most inferior numbered bulls in the industry with the results we desired as far as physical build and look, while maintaining a desirable balance on paper. The great, proven bulls of the breed like Broker have worked phenomenally well on this female as well as many others in her short time here in the donor pen. We like this mating to our performance index leading Innovator x Summer son that is now owned by XTB Cattle.

Another proof positive mating with result driven parentage that we have discussed over and over again. These proven cow families and genetics are certainly invaluable. Logic will influence the features of this female as she matures, but the sheer mass and a dimension of the donor dam will only enhance the outcome.

2020 World Beef Expo Reserve Grand Champion Simmental Heifer. Congratulations Tucker Bayer! Maternal Sister to Lots 9A-9B, 10, & 11A-11B

LOT 11A JS DAIRY QUEEN 27H

LOT 11B JS DAIRY QUEEN 28H

Primo has made an impact in a major way on the tan bark in the Angus and Hybrid cattle circles. The big hair and the undeniable, cool look are readily available upon insemination; however, it does take a cow equal to or better in caliber to produce the ideal SimAngus show stock. This pair of sisters are very similar in kind, so similar we believe there will be plenty of uncertainty which will be the better of the two in the end. The running gear is unrivaled by many of their contemporaries and it comes with body shape, pin width, back dimension, and a cowy but fresh front one third. Lot 11B was reserve division in a highly contested outing at the American Royal and 11A was second in class at the same venue. Proven competitive on both accounts!

DECEMBER 11, 2020 IN PRAIRIE CITY, IOWA

Barb would be our private acquisition from White Star Cattle Co. a few years back. We admired her brood cow look and valued her lineage to a point that we were not leaving without her. These Bismarck females are so potently productive across the board. Besides their consistent phenotypic presence, they can fix a set of numeric values on paper. Barb has been the one that has brought balance to our SimAngus program and we can't say enough good about her progeny. Lot 12 is by the senior stud at XTB, Ol' Son, and is one we thought enough of to be on the American Royal squad. She's the ultra-chiseled, sharp featured one that is good at the ground for days on end. She ranks in the top 30% for 6 real world values and posts API and TI numbers that are 25% and 20% respectively. These are the kind that make the bull business easy without a doubt. The Broker is sure enough trademark in kind. People can say what they want about this sire group, but the fact is they are result driven cattle with future. Their ability to produce is widely recognized and the fact that they come with extra substance is applauded as well. Make sure to not get caught looking on these two maternal sisters.

JS Barb 57F | Maternal sister to Lot 12 and Full sister to 13, owned by Buck Creek Ranch

The Daughters of Barb

DECEMBER 11, 2020 IN PRAIRIE CITY, IOWA

LOT 14 JS GRACIE 5H

WHF/PRS/HPF Alley 247Y
Maternal Granddam of Lot 15

LOT 15 CCS/JS ALLY 8H

This direct daughter of Innovator from the 247Y, Ally cow family, packs quite the punch. The cow family has influenced programs like B&K of Tennessee, Hudson Pines, and many others over the years, but the foundation building block originates from the same program that introduced Summer to the breed and business. The Wayward Hill Farm program is built and influenced by the great 240J cow line where she herself was an AJSA Summer Classic Champion and she continues to put the female base out there that produces influential donor cows and herd sires throughout. 8H represents all that is good from the multiple generations of solid, functional, and proven stock that supports her.

LOT 16 JS DASH 7H

GLS Dash Of Fame
Dam of Lot 16

The Dash of Fame D137 is a later addition to the donor sector of our business. She is one of the truly sound, big bodied direct daughters of Profit and the introduction of Primo to the gene pool sure made an even greater impact. This February female is a legit contender and allows one to compete in a different division at the AJSA Summer Classic to be held in Grand Island, NE next summer.

LOT 17 CCS/JS KEYMURA KATY 18H

STF/DSF Brimstone EC70
Sire of Lot 17

We admire this summer division contender! She comes to you from the famed Keymura Katy cow family that built the Steele Angus program and since dispersing the lineage influences many programs nationwide. Udell and High Prairie Genetics to name a couple have generated thousands of dollars from the Katy cow family genetics with multiple high sellers and champions as well. 18H is sired by our selection from one of the last production sales at Silver Towne Farms. We sought Brimstone out for his unique genetic blend and his standout numerical values at the time of acquisition. We are certain she will hold her own in that competitive division at The Classic.

LOT 18 CCS ELLIE 206H

From the 2018 North American Champion Angus female that is also the 3/4 sister to the 2020 Angus Jr. National Champion for the Sullivan crew, we present 206H by Follow Me. This high caliber female will only appreciate in value over time, given the rising popularity of her respective cow family. However, let's not forget to mention the fact that she can carry her own water when one analyzes how she is constructed from the ground up. She is really good on the go and transitions smoothly through all points of balance and symmetry, with enough body and power to go the distance. Proof positive, bred in the purple!

LOT 21A CCS CANDY'S BELLE AIR 107H ET

BR Belle Air 6011 took the breed by storm as a calf at the 2017 National Western Stock Show when he was slapped Champion Horned Hereford bull and finished off the week as the NWSS Supreme Grand Champion Hereford. Belle Air returned to "the hill" in Denver in 2019 and repeated his victory as a coming three-year old. This mating combines his influence with the maternal power of the C Eye Candy 2079 matron, a past Denver champion herself. 107H offers a unique look of quality, balance, and style. She is sleek fronted, neat chested, and transcends into a bold rib design. 105H, 106H, and 112H have been blessed with the short markings, deep dark red coat color, and added pigment. Their basic build, presence, and structural integrity mirrors that of their famous ancestors.

DECEMBER 11, 2020 IN PRAIRIE CITY, IOWA

LOT 22A CCS HARLEYS ABOUT TIME 110H ET

LCC Two Timin 438 ET, affectionately known as “Harley”, is without a doubt one of the most widely recognized names in the Hereford breed. Her dominance in the show ring was impressive, but her resume is simply unmatched in production. Harley is the dam of Shelby, the 2009 NJHE Grand Champion and 2010 NWSS Grand Champion Polled Hereford Heifer. Shelby is the dam of TCC Diana 01, the 2011 and 2012 NWSS Grand Champion Polled Hereford Heifer. Another daughter of Harley was selected as the 2014 NWSS Grand Champion Polled Hereford Heifer. SULL TCC Harley 4085B ET is a foundation breeding piece in the JS program and the 2015 Iowa State Fair Grand Champion Polled Hereford Heifer. 4085B is sired by the \$600,000 C Miles McKee 2103 ET, the 2014 NWSS Grand Champion Horned Hereford Bull and Supreme Champion Hereford. 110H, 111H, and 113H are sired by the 2009 NWSS Grand Champion Polled Hereford Bull and Supreme Champion Hereford, CRR About Time 743. This trio of females are big footed, stout boned, and square built, with the added bells and whistles to capture a win under the bright lights. Set your sights on owning a female from a mating that combines as many National Western Stock Show Champions as ANY mating to sell in the Hereford breed this fall... power in the blood!

DECEMBER 11, 2020 IN PRAIRIE CITY, IOWA

LOT 23A

CCS/JS SUMMER 41G

The bred females are dense in quality and pedigree at the Midwest Made Elite. This initiating duo of full sisters leaves it all on the field of play. An intriguing mating by the \$105,000 W/C Double Down 5014E and from none other than the WHF Summer 365C, our obvious cornerstone donor. This ideal blend of proven CE and performance comes with base width, body shape, and dimension for the most discriminating of buyers. Don't miss out on the opportunity to implement a little Summer into your program this winter through one or both of these females. *AI BRED 6/15/20 TO CDI INNOVATOR 325D (ASA: 3152448). LIKELY SAFE AI. PASTURE EXPOSED FROM 7/15/20-9/1/20 TO JS INNOVATOR 39G (ASA: 3620536).*

The Daughters of Summer

DECEMBER 11, 2020 IN PRAIRIE CITY, IOWA

LOT 24 JS FLIRTY 36G

JS Flatout Flirty 46T | Dam of Lot 24

This female is the lone maternal sister to 59Y in the offering. Her sire, May-Way No Pressure, is from an awesome donor female known as Top Line Lady 9115 and by the same sire as FHEN Halftime. The May-Way program of Kansas should be on everyone's short list to go acquire Angus breeding or show stock. The Flory Family has been aggressively improving Angus cattle for years and No Pressure is one of many examples to come from Baldwin City. This direct daughter of 46T is very valuable on both sides of her pedigree and will contribute to whomever writes the check. *AI BRED 4/18/20 TO W/C DOUBLE DOWN 5014E (ASA: 3336151). LIKELY SAFE AI. PASTURE EXPOSED FROM 5/5/20-9/1/20 TO WHF DOUBLE UP G365 (ASA: 3658592).*

LOT 25 JS MISS BROKER 21G

May-Way No Pressure | Sire of Lot 24

Ladies and Gentlemen please pay close attention to this breeding piece. 21G blends all the good of the Simmental herdbOOK. She comes to you sired by the proven and popular Innovator, but her dam is a direct daughter of Broker that goes back to the influence of the legend, Power Drive. The Angus influence in this female is also proven greatness with the great Duff New Edition up close. Flawless balance and production are offered to a T with this bred female. *AI BRED 4/18/20 TO W/C DOUBLE DOWN 5014E (ASA: 3336150). LIKELY SAFE AI. PASTURE EXPOSED FROM 5/5/20-9/1/20 TO WHF DOUBLE UP G365 (ASA: 3658592).*

As you can tell by browsing through this book, at JS, we strive to improve quality and consistency through a small but potent donor battery and sire selection. This bred is another result of just that from our Bismarck donor female and sired by the great Relentless. A very interesting bred female to add to the short list. *AI BRED 4/18/20 TO W/C DOUBLE DOWN 5014E (ASA: 3336153). LIKELY SAFE AI. PASTURE EXPOSED FROM 5/5/20-9/1/20 TO WHF DOUBLE UP G365 (ASA: 3658592).*
