Dear Friends & Customers,

As we finish up the sale catalog, it is always a good time to reflect on last year and to look forward to this coming year. Looking back at past years letters and letters from other producers it comes to mind: "The more things change the more they stay the same." Covid-19 has brought many changes to the world we live in but for those of us on farms and ranches life did not seem to change too much. The most exciting change for us has been the addition to our family. Tee Michael Kindred was born to Clint and Cally November 5, 2020. He has been a blessing to all of us.

The 2021 calf crop is hitting the ground and spring is in the air. Our extensive ET program has allowed us to focus on the top females in their respective breeds and produce consistent, proven genetics. That along with using highly accurate AI sires add uniformity and quality. EPD's, performance testing, ultra-sounding are all powerful and useful tools. That is just what they are "tools." To be used with visual appraisal of the offering.

We are proud of this year's offering. As you look through the catalog, you will find cattle that rank at the top of their breed in almost every category. We strive to produce easy doing, sound and problem free cattle that have some muscle and look. We realize 95% of the cattle sold in the United States are sold by the pound so it is obvious pounds are dollars.

These bulls and heifers are all developed here at the ranch under the guidance of Dr. Dan Herold from Hubbard Feeds. We strive to grow these cattle and not fatten them. Some breeders have tried to turn bull development into a feeding contest. We disagree with that and want our cattle to have sound feet, longevity and to be profitable for our customers.

All the cattle are available for viewing here at the ranch before sale day as well as on our website. Feel free to give us a call if you would like to come before sale day to evaluate the cattle. Thank you for your time and the consideration of our program. If we can be of any help don't hesitate to give us a call. We stand behind these cattle 100% and look forward to your evaluation.

INNOVATION

— AgMarketing, LLC —

Ladies and Gentlemen,

It is with honor and excitement that we welcome you all to the 49th Annual Production Sale at Thomas Ranch of Harrold, South Dakota. This legendary, multi-generational operation is busting at the seams with quality across four breeds of beef cattle that are loaded with production history, maternal prowess, and backed by the industry's leading sires. This ranch has been built on integrity and reputation initiated by Troy's family and has achieved success on many levels but most importantly they have maintained long term customer relationships with an annual influx of new interest from the positive word of mouth. The customer service, comradery, and the genetics have been met with certain praise and unconditional confidence and the team at the "TR" knows the industry inside and out taking the good with the bad and creating new strategies to fit the stringent demands of consumer acceptance of the end product.

In recent years they have become more aware of the rapidly changing technologies and ever-changing numeric values placed on beef production for both seedstock and commercial purposes. The Angus division has slowly changed the focus without sacrificing the fundamentally sound cowherd with the use of reliable genomics and more pressure placed on certain harvest to plate traits that not only improve the product the human population consumes but as well adding value to those that retain ownership in the stock they produce. This selection criteria will also add value to a reputation set of calves that may be marketed at weaning time and for more insight on those options we strongly encourage you to visit with Troy about the future of marketing those calves by Thomas Ranch bulls.

Thomas Ranch has always utilized the Angus female, in fact there has always been more Angus females on the ranch than any other breed. The Thomas family is dedicated to making each breed represented within their program as good as they possibly can with decades of production and management knowledge backing each and every decision. We know that you will find the Angus bulls loaded with foot and skeletal integrity with the required equipment in muscle, body shape, and data to meet your operation's rising demand for excellence with fewer excuses. It is as well certain, that the expectations for quality and kind will be met in this elite sort of Angus open heifers that will be ready to take home and go to grass with one of the excellent heifer safe bulls in the offering, or direct to the AI pen... either way you will win with your investment.

The Charolais cattle are no doubt what the Thomas Ranch has been known for on a promotional basis with multitudes of success and substantial breed influencing donors that would date back to the Dewey Ranch days. The approach to these cattle is to offer loyal and future customers with a proven product that will add value to a commercial outfit through heterosis and the kind with added performance in the steers at weaning time with enough maternal value to justify keeping replacements back in the program. The seedstock value of the top end of this bull offering is as good as it

has ever been, with multiple herd bull options for even the most discriminating breeder. There is no question that there is something for everyone in the white-hided offering with an outstanding set of production minded open females brought to you by C&S Cattle, one of their most loyal and dedicated cooperator herds they do business with throughout the course of a production year.

The SimGenetic stock on the Thomas Ranch were initially utilized as an additional source of heterosis with pressure applied to phenotype and basic fundamentals of maternal value; hoof quality, structure, fertility, pounds of calf raised, and big selection pressure on appeal and quality. With the introduction of Upgrade, the focus shifted to stouter stock with improved EPD values to work in complimentary fashion with the Angus cow base. Today one can say that the Sim-influenced stock are used to produce elite made, heavy built, hybrid bulls that can contribute to any of their customer base for commercial improvement and seedstock alike. Troy will tell you, with utmost certainty, that this set of Simmental bulls and females is one of the very best from top to bottom that they have ever offered. There is plenty of opportunity to evaluate especially for those that have zero preference on the amount of Simmental the cattle may have on a percentage basis. Good cattle never go out of style regardless of pedigree, numbers, or genomics and these are the kind that made you money a decade ago and will do so today and tomorrow.

The Red Angus division has always had a spot on the "TR", and like the other breeds, they have influenced multiple programs and commercial cowherds throughout the continental U.S. The latest headliner, Chivas, has multiple high-end sons in the offering that are sure to gather attention as one turns the pages of this sale book. However, the offering still maintains the high quality in the "old reliable" sire choices, with the featured sons of Damar Next "Lexus", Damar Trump, and Power Eye. These red bulls offer phenotype, cow power, calving ease, growth, and carcass value as well. It's a well-rounded group worthy of your attention.

We are all fortunate to be involved in the industry that is responsible for the production of the absolute safest, most nutrient dense, food protein known to man, BEEF. Please consider this your personal invitation to join us April 13, 2021 for an outstanding day of great seedstock, great hospitality, and to honor a legendary family program for their 49th Annual Production Sale.

Thank you and as always, enjoy the cattle!

THE 49TH ANNUAL THOMAS RANCH PRODUCTION SALE

SEMEN INTEREST

Thomas Ranch will retain 1/3 revenue sharing semen interest in all bulls selling in this sale unless otherwise stated. Buyer receives full possession and 100% salvage value.

BREEDING SOUNDNESS EXAM

All bulls will have passed a fertility test before delivery. Any bull picked up sale day is guaranteed to pass a semen test. Thomas Ranch will pay for semen test costs. Scrotal measurements that are printed in the sale catalog were recorded on March 8, 2021 (Angus) and March 9, 2021 (Charolais, Simmental, & Red Angus).

HERD HEALTH

- All bulls and heifers were preconditioned in August with BoviShield Gold 5, Vision 7/Somnus, and poured with Ivermectin. Boosted at weaning with BoviShield Gold, Soludoze with 7 way, Vision 7/Soludoze, C&D type ACE and mycoplasma. Repoured in December with Clean Up and injectable Dextomax.
- Heifers were also given a Bovishield 5 VL5. They had their pre-breeding shots and were bangs vaccinated on December 29, 2020. They were repoured in March with CleanUp.
- Bulls will be furnished with interstate health papers as needed
- All registered Angus bulls are AM, NH, CA, OS and DD FREE by DNA test or pedigree unless noted in the catalog. All registered Red Angus bulls are OS FREE by DNA test or pedigree.

DELIVERY

Thomas Ranch will offer free delivery on bulls beginning May 1, 2021 to South Dakota and surrounding states. A \$50 bill will be given for each bull hauled between April 13 through April 20, 2021. After May 1, 2021 bulls left at the ranch will receive a \$3 per day feed Thomas Ranch charge. Bulls left between the sale and May 1 will be fed free of charge. We will assist in finding affordable and reliable delivery options to other parts of the country for bulls and heifers.

EPD's & ULTRASOUND DATA

EPDs printed in this catalog for the Angus offering were current as of March 18, 2021. Ultrasound information (%IMF, BF, & REA) are adjusted numbers.

VIDEOS

Videos will be available at www.thomasranchcattle.com and on CCI.Live around April 1, 2021. Videos done by Focus Marketing Group.

LUNCH

Please come and enjoy a complimentary noon lunch at the sale facility Tuesday, April 13, starting at 11:30 a.m.

TERMS

The terms of the sale are cash or check payable at the sale facility unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released or transferred. All cattle sell under the standard terms and conditions of their respective breed associations. All major credit cards will be accepted with an additional 3% buyer's premium.

SIGHT UNSEEN PURCHASE GUARANTEE

Buyers unable to be present may contact us for assistance. Bulls sent on order by management will be guaranteed to meet the buyer's acceptance. Buyers may also contact the Auctioneers, ring staff, or any authorized representative listed in the sale catalog for assistance. Buyers may also register through CCI. Live to bid during the auction.

ANNOUNCEMENTS

Errors discovered in the catalog will be corrected by announcements from the auction block at sale time, and such corrections will take precedence over the printed material in the catalog.

VOLUME DISCOUNT

5% on 5 or more bulls purchased, and 10% for 10 or more bulls purchased. Any credits will be deducted before volume discounts are figured.

BREEDER'S BULL GUARANTEE

Bulls selling for more than \$3000 are guaranteed for 90 days from first turnout against breeding injury. If a replacement bull is available, he will be provided. If a replacement bull is not available, credit will be given in next year's Thomas Ranch Bull Sale. Credit will be for the purchase price less volume discounts and salvage value of the injured bull to be used for the purchase of one replacement bull. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made prior to Oct. 1, 2021. This is not a mortality insurance policy.

INSURANCE

Mortality insurance will be available sale day through Martin-Trudeau Insurance. Any deviations from the above statement will be worked out between the buyer and Thomas Ranch.

ACCIDENTS AND LIABILITY

All persons attend the sale at their own risk. The seller and sales management assume no liability, legal or otherwise, for any accidents occurring in, on, or about the premises.

This direct son of KM Broken Bow 002 is certainly stout and heavy in his kind. A bull that came to the weaning pen at 709 pounds to ratio 110 and exited the yearling pen at 1442 with a 112 ratio, while gaining 4.2 pounds a day. His moderation of CED and BW place him in the top third amongst the population for those two traits with performance measurements that keep him in the top 10% for WW and top 15% for yearling. He too maintains substantial ultrasound data placing him at 108 ratio for IMF and 107 for REA. His 2 year old dam did the job without question. He is a true sale feature!

As we get into a trio of Rally sons, we cannot say enough good things about the industry kind this sire group consistently offers as indicative by Lot 2. He is one that impresses upon physical evaluation with a near textbook foot, structural integrity, balance, shape, and raw performance. He posts a heavy 744 pounds of weaning weight to ratio 115 with an impressive scale pounding 1459 yearling that ratios 112, allowing him to rank in the top 5% for weaning and top 10% for yearling EPD values. He's also one that has an IMF ratio of 113. His dam is a very impressive daughter of the great 1682 who posts a weaning ratio of 113 on 2 and a yearling ratio of 109 on 2 head as well.

KR RALLY Sire of Lots 2 - 4

Unmatched Soundness

LOT 3 TR RALLY 0089H

Bred like the previous son of Rally as he traces to a direct daughter of 1682 as well. One will find several similarities in kind and construction as well. Beef Business stock without question that ratios 102 for both weaning and yearling measurements that translate to top 20% rankings for performance related EPD values. One can invest in production genetics here as his dam posts production ratios of 108 on 2 head for both weaning and yearling.

The Sitz Accomplishment 720F sire group obviously have the true growth and performance of the pen. 0073 ratios 108 for WW, 111 for YW with a 108 ratio for gain on test. He too is in the top 15% for CED, top 4% for WW, top 5% for YW with one of the bigger ribeye measurements to allow him to ratio at 109. This calf is from a very productive and wet 2 year old daughter of DL Dually that has made her mark in her first trip to the weaning pen.

SITZ ACCOMPLISHMENT 720F Sire of Lots 5 - 7

A True Accomplishment

LOT 6 TR ACCOMPLISHMENT 0016H

Impressive conversion in this direct son of Accomplishment that just happened to measure an impressive 43cm on his scrotal on ultrasound day. This dense, stout built calf ratioed 114 on test and measured with a 112 IMF ratio and a balanced REA of 15.0 to ratio 107. He should produce the kind that convert, weigh, and capture premiums on the rail as well. Another lead off sire from a two year old dam.

0030H is sired by our 1682 x Upward bred herd sire from a 2 year old Dually x Final Answer bred dam that posts an impressive weaning ratio of 114 in her first year of production. This very complete Angus herd sire prospect was 735 pounds to the weaning pen and went on to register an adjusted yearling weight of 1425. He lists as a top 3% trait leader for both weaning and yearling with a moderate birthweight and calving ease ranks in the top 30% of the non-parent sires of the entire breed. From a physical standpoint, we find it hard to get critical on this very complete, sound, good footed beast that maintains balance throughout all aspects of his build.

LOT 13 TR RANIMAKER 4404 0066H

Here's a direct son of Basin Rainmaker 4404 from the maternal influence of Basin Payweight 1682 and our Validate herd sire that is supported by the greats of Final Answer and Upward. This stud comes off his dam with 106 WW ratio and a scale pounding 106 YW ratio, however he impressed us more at scan time as he measured 5.07 IMF to allow him to ratio 140. Another great herd sire option from our stellar class of first-time females.

0048H finds us back in the great Rally sire group with another long sided, sound constructed Angus bull with eye appeal and beef cattle build. Here's a bull that ratioed 105 at weaning, 108 at a year, and posts WW and YW EPD values in the top 25% of the business and all of this production from a 2 year old dam.

Here would be one of the few direct sons of Basin Payweight 1682 in the 2021 offering. Per status quo, lot 32 does not disappoint as he gained nearly 4.2 a day with moderation of birth and the ideal blend of growth allows him to be of consideration on many lists sale day. He posts an added feature with a 15.5 REA measurement to ratio 111 among his contemporaries. This sire group has been offered and proven for years with industry wide acceptance across several breeds that allow Angus influenced genetics to be recorded in their herdbooks. 1682 is a fixer and an enhancer in several areas, tie in with utmost confidence.

The Casino cattle have been received well as they are generally inclusive with a big bold rib cage, big, wide pin set, and look of notable nature. This bold centered, big testicled, herd bull prospect is on the right side of the sire group mean for all things positive. His dam, KR Mamie 5412, is also the dam of KR Rally. A maternal brother sired by Rave recently topped the RBM Livestock Annual Bull Sale.

LOT 51 TR DETAIL 7070 0705H ET

This direct son of Koupals B&B Detail 7070 has the needed shape and density for the ranching business. He smashed the scales down with 1340 pounds of YW, gained over 4.5 per day, and he offers a RE EPD value that ranks in the top 10% of the breed with a \$F index in the top 25%. He also has a dam that records 3 at weaning with a WWR of 109 and YWR of 118 on 1. KR Mamie 5412 has done it again! Real world, real business values here.

The Rally sire group is one that many will admire on sale day. This son ratioed 103 for IMF and 104 for REA with a 14.3 measurement. He maintains needed performance to sire the payweight and pounds your operation needs with a supporting dam that has brought 6 to the weaning pen in her tenure on the ranch.

0464H impressed us with his ADG at 4.6 to allow him a 1295 adjusted yearling weight that was achieved with a humble start at 581 pounds at weaning. He maintains that advantage in the top 25% for YW as well and scanned with some product with a 14.6 REA measurement that allowed to ratio 101 in his group. His dam is a calf raiser with 6 recorded at weaning and 6 at a year as well.

5	2.3	71	123	29	0.67	0.18	53	75	83	127	218

This Payweight grandson came rocking to the weaning pen at nearly 700 and gained over 3.7 per day to convert to 1389 pounds of yearling thus placing him in the top 10% of WW and YW EPD values. He too measures with an IMF ratio of 111. From a two year old dam that succeeded in raising expectations for next year.

10	-0.1	64	127	34	0.71	0.32	59	68	109	158	264

This calf is from a WK Doc sired dam that has weaned 4 for 109 WWR and those 4 maintain a 108 YWR as well. Which would explain the big gain post weaning on test to over 1300 with a near 4.4 ADG. For the ranching EPD values of concern, he ranks in the top 20% for CED, BW, and YW, and just out of the top third with a 35% rank weaning. However, we must stress his dams record of ratios and mention that he is in the top 4% for Milk so heifer retention can be on the table of consideration. Cowboys, he's late in the day, but not late enough to pass him on carcass as he records a 129 IMF ratio to factor into the must buy equation.

11	-0.5	60	108	24	0.71	0.63	58	58	84	141	241

This Bullet proof is from a curve bending Hickok dam that got the job done. This calf has nearly 640 pounds at weaning, 1301 at yearling with the same 107 ratios after a super light birth weight of 62 pounds. He's one that increases the bar for real world performance, gaining nearly 5 pounds per day while not sacrificing carcass merit with a 125 IMF ratio included.

If you're hunting for a powerhouse addition to the sire battery then mark this one in your book. He is a direct son of the famed M&M Ms Carbine 1567 a female that has singlehandedly captivated the seedstock beef industry and shone a spotlight on the Charolais breed. CAG TR Double Vision 0613H ET is a performance leader in this group of 2021 sale bulls, he was the heaviest actual weaning weight bull this past fall at 830 pounds. In addition he scanned with the largest rib eye area of any Charolais bull in the offering at 18.20 square inches. A full brother to 0613, Carbine's Vision 9700 is a junior herd sire at the Thomas Ranch, and we look forward to seeing his influence next year in our 50th Anniversary Annual Bull Sale.

CAG TR Dory's Vision 0686H ET is the first son we have offered for appraisal from one of the breeds most exciting young donor females, BRCHE TR Dory 6501. Of the small group she has generated to this point they are been received with huge excitement, with progeny taking out Championship banners at several of the nation's most competitive shows in 2020 and 2021. A maternal brother to 0686H, WIA Backwater Jack 060P was the Grand Champion at the 2021 Cattlemen's Congress. On inspection you will find him to be big hipped, stout boned, and massive, just like the Double Vision cattle have become renowned to be. A 40 cm scrotal measurement, 16.20 Adj REA, and over 4 pound ADG just reassure the fact that this stud is made to work in the real world.

An own son of the National Champion sire TR CAG Carbon Copy 7630E and out of an impressive daughter of the infamous TR Mr Firewater 5792. The quality goes further than just the pedigree of this stud, he is impressive in the flesh, super powerful hiped, wide and stout. Phenotypically he is one of the most complete sire prospects you will find in the pens on sale day. With a weaning weight ratio of 118, and a top 20% WW EPD the March born sire prospect is geared to add payweight to any calf crop. A 3/4 brother sold to Chad Berger in 2019, so you can trust there is a consistent generating cow family standing behind TR C&S MR Carbon Copy 038.

This would be the calving ease, low birthweight sire of the offering with added cow power. 0605H is a smooth made, sound built bull that offers low birth, high calving ease credentials. Recommended for use on heifers.

Here is a set of four strong aged Fall bulls that are ready for heavy service. This set of bulls does not have adjusted ultrasound data because they were too old at the time we scanned the yearling bulls. They are backed by some of the most elite cow families in the Thomas Ranch program, including TR Ms Wyoming Wind 5604R, TR Ms Montella 1572Y, and TR Ms Diablo 3631A. These bulls are sound footed, high performing, long bodied herd sire prospects, pay attention to the quality and consistency on sale day.

A pair of full brothers that are the ranchman's kind! These Outsider x Wyoming Wind derived sons are big framed, loose structured and rugged in their composition. If added pay weight and red meat yield are what you're searching for then the pictured bull, 0783 is a clear choice. However, if your operation is demanding a touch more calving ease the 70 pound birth weight, of 0784 should be appealing, and check out his impressive 41.50 cm actual scrotal measurement. The combination of both bulls could be very effective to a achieving a consistent calf crop in a multi-sire breeding situation.

If you too believe that length of body and muscle expression equals payweight then you need to mark 055 to inspect on sale day. Pay attention to the performance geared data set that 055 has complied, leading his peers with a 733 pounds of weaning weight, a 116 yearling weight ratio and 117 WPDA. His EPD profile reflects his actual measurements and phenotypically he continues to mature into an impressive performance leader who will add pounds regardless of whether hybrid vigor is utilized or not.

A direct son of the breeds most demanded AI sire in M&M Outsider 4003, and a cow with a unique twist to her pedigree. We went back and sampled a sire from the past in Gerrard Montezuma 6T and used him on one of our most consistent donor females in TR Ms Kay 30A, resulting in the mother of lot 159. Pounds and shape will be the result of his service with a 113 REA ratio and a 105 weaning weight ratio.

This pair of Outsider flush mates are full brothers to one of the breed most exciting young sires in TR Mr Outkast 6605D. Outkast was a dominate National Champion and Triple Crown winner for the year 2017-2018, and his influence is being felt among several of the nations most progressive cowherds. This is a pair of bulls who match up well, they are big hiped and stout boned.

We are firm believers that if you want to increase the weight of your cattle then adding length of body is one of the quickest avenues for success. 023 and the rest of the RBM TR Rhinestone Z38 sire group provide a great opportunity to do so. A sire prospect who will continue to mature with power and shape.

With a moderate 79 pound, unassisted birth, the huge 117 weaning weight ratio and 122 average daily gain towards weaning that this Rhinestone son recorded become truly impressive. His true curve bending growth pattern should catch your attention, along with his loose structure and length of spine. His maternal brother sold in the 2020 annual bull sale to our friend, and cattle woman Anne Rother of Belgrade, Nebraska.

RBM TR RHINESTONE Z38

Paternal grandsire of several herd bull prospects selling!

Don't let the later start in life of TR C&S Mr Rhinestone 4570 079 sway you from his quality and growth potential. His weaning ratios indicate that performance will not be an issue, and this fact is backed by a set of EPD predictions that support him favorably. You will notice top 30% rankings for both WWT and YWT, an elite top 3% ranking for REA, and a 16.35 ADJ REA measurement.

Of our entire offering, the numerical data that supports this son of TR Mr Rhinestone 4570B could be as impressive as any. A moderate 78 pound birthweight, 111 weaning ratio, 108 yearling ratio, 112 REA ratio, and monster 139 IMF ratio. His unique combination of carcass traits could be an asset to any beef production operation.

A light buckskin colored calf, whose TR Firewater 5792R dam has been a consistent producer for our program. His growth pattern has allowed for him to keep up with the pack, coming to the weaning pen to ratio 115, and then again at a year with a 118 ratio. Do not miss his outlier carcass credentials, 116 REA ratio and a 135 IMF ratio. He has 5 traits that rank within the top 10% of the breed, WWT, YWT, MWWT, CW and REA.

We purchased WCR Sir County Line 854 from our friends at the Wienk Charolais program of Lake Preston, South Dakota. He offers an outcross to many of the cow families that call Harrold their home, along with sure fire calving ease without sacrificing growth. We used him for pasture service on our replacement heifers, and though the sampling is small we think they have value. These three County Line sons are backed by cow families of notoriety and you can trust that they come from cows who make up the heart of our herd. Long bodied, and loose made herd bulls who will cover ground!

The Simmental

And SimAngustm
BULLS

LOT 181 TMAS MR PROFIT 6726 0825H

In regard to physical kind and nature, this lead off SimAngus bull is simply a beast. He is one of the youngest of the offering and from two half-blood parents that are loaded with cow power. His sire is a son of Profit from our leading Katinka 3208N donor female that is still alive today and on the bottom his dam would be sired by an Upgrade son from the famed and deceased CK and Wager donor, 3C Melody. We could stop there, and the rest would be explanatory when one evaluates the calf in person, but one will see that he has the shape, expression, and build of a purebred packing extra growth and look. He ratioed 111 at weaning with a scale pounding 700 pounds, an adjusted yearling weight of 1315 to ratio 109, in combination with an IMF ratio of 107 and measured with 14.25 sq. in. of REA.

One cannot deny the dominant presence this son of the 2-time National Champion Pay The Price has when you enter this pen. He is so stout, so extended, unreal base width, and significantly heavy. This guy can and will impact any program that chooses to buy and introduce him to their cowherd. He will sire record setting feeder cattle with undeniable seedstock potential as well. He weighed 1340 at ultrasound with a 16.03 REA to compliment the "total package".

When one gets down to the basics of a "rancher bull", lot 183 readily comes to mind. For those that like them long sided, bigger framed, with raw shape, big feet, and enough bone, one can simply begin their short list here. He is sired by a past Black Hills Stock Show high seller, TMAS Can't Touch 8531F, and from one of those awesome Bismarck daughters that took him to the weaning pen to ratio 105 and he offers a spread from a 9+ CE to over 80 WW and 131YW. Furthermore, this calf impressed us on scan day with an impressive adjusted weight of 1375 to ratio 103, an IMF ratio of 150, and an adjusted REA over 14 sq. in.

The Upside daughters are great cows and tend to produce the kind that surfaces to the top. That's exactly what happened with this top tier son by the popular ES Right Time. The Right Time semen has commanded as much as \$1,000 per unit but has averaged just a shade over \$800 across the board with it being limited in offer. We are certain you will find this stud on sale day or any visits prior to the ranch. His quality is significant with plenty of substance, soundness, body shape, and build. He impresses one on paper with a top 3% ADG, 10% YW, 15% REA, and Top 20% WW. The raw data and measurements solidify the qualifications as well with 675 pounds of weaning, a 1545 pound yearling, and a flattering 15.13 REA for the business minded stockman only.

This calf would bring outcross genetics to the TR customer base in a very unique package. This big footed ground pounder should enhance any set of cow for center body depth as he is very sappy built and athletic in motion. The Copacetic stock have been well received and popular across the land and when they raise the bar on IMF with a 3.75% with only 0.28 BF and have a REA of 16.53, there's merit to sample without question.

This calf would be bred identical to the lead off bull in this division. He would adjust to 1270 to ratio 105 at a year with 110 IMF ratio leaves no question the potency of this herd sire and the cows bred like his dam. There is absolute merit to this equation, and you need to tie in with utmost confidence.

The lead off Red Angus herd sire prospect who regardless of which angle you evaluate him, is impressive. An own son of the exciting Rojas TR Chivas 17109, whose build quickly sorts him into a league of his own, he has heavy muscled, powerful and right for the times. His dark red pigment and big, correctly shaped feet are just some of the added features that push him towards the top of our list of sale features. Big ratios of 103 at Weaning, 106 at Yearling and 108 for Ribeye area, just solidify his case as a standout. 005H is sired by the \$60,000 half interest Rojas TR Chivas 17109, the 2020 National Western Stock Show Grand Champion Red Angus Bull. We think 005H represents an exciting new generation of Red Angus seedstock to come out of the Thomas Ranch program.

A direct son of the infamous Rojas Falling Water 6053 donor that is now employed by the Five Oak Farms Program of Sparta, Tennessee. And sired by our National Champion herd sire Rojas TR Chivas 17109 who continues to impress with his second calf crop, he is a prime example of power in the blood. The power however isn't only in the blood, TMAS MR Chivas 004H is a heavy structured, bold featured stud who will impress from every angle. The combination of his royal pedigree and impressive phenotype makes him an exciting prospect to generate a high quality red hided calf crop.

A trio of burly, dark hided full brothers sired by Red Soo Line Power Eye 161X, each of which make their own case as to why they demand attention. The dam of this flush is TR Rojas Dynamite 6201, an upcoming matron in the Red Angus breed. She is a daughter of Red U2 MS Dynamo 382, a cow who has generated herd sires who walk the pastures of some of the most progressive seedstock operations in North America. Power Eye 161X has built a reputation for consistently siring cattle with width, substance and eye appeal, it doesn't matter if those cattle are in the feedyard, bull pen, replacement pen or showing, they float to the top. Regardless of which of these brothers appeals to you most, the high quality phenotype is backed by some of the most sought after pedigrees in the business.

A true beef bull, with loads of width and substance, a powerful stifle and big hip. We are proud to bring this stout grandson of Rojas TR Chivas 17109 for your appraisal. Built upon a large foot, and rugged bone structure we see a lot of quality in this herd sire prospect. He ratioed well for WW, YW, BF and REA and has a top 16% HerdBuilder index. The backing of the RED BAR-E-L Kassie 117X cow helps us believe he can help push a cowherd in a direction of longevity, productivity and functionality without sacrificing any performance.

Another impressive son of Rojas TR Chivas 17109 who with the support of a young Bieber Rollin Deep Y118 cow has charted an impressive resume. Phenotypically he is long sided, dimensional, sound structured and has been a performance leader. At weaning time he ran over the scales with a 103 ratio, and come scanning time he became an outlier with a 117 IMF. Genomically he excels with a top 7% HerdBuilder, top 24% WW, top 12% Milk, top 19% ME and top 9% STAY.

We are excited about the impact that these Chivas sired cattle are going to make in both our own and the programs of some of the nation's most astute cattlemen and women. In one generation he is adding muscle shape, density and performance with improvements in foot shape and leg design. They are cattle that weigh heavy, 0107 has predictions that rank him within the top 15% of the breed for WW, top 22% YW and top 35% ADG. Along with those growth traits he has a top 9% HerdBuilder index, top 4% Milk, top 15% ME and top 24% HPG.

We feel like this could be one of the stoutest sets of Red Angus bulls that have sold through the bull sale, we feel there are several standouts that are as powerful, dense and unique as we have ever offered. TMAS Mr Lexus 0778H ET is a prime example to this claim, he is heavy structured, thick stifled and wide backed, however we still read longevity in his build. His donor dam is an exciting, young Bieber Rolling Deep Y118 daughter who is a derivative of the Strawberry cow family. He scanned with a monster 135 IMF ratio and ranks top 17% Marb, top 10% STAY, top 14% ProS, top 17% HB and top 24% YW.

A paternal brother to lot 231, 237, 239 and 256. Their sire TMAS Mr Detour 6702D ET is a product of our embryo transfer program, and is a go to herd sire because of his ability to ensure longevity and correctness are passed onto a calf crop. If your management strategies are low input then 026 could be a good option, he is backed by a pedigree bred with similar intentions in mind.

The Canyon family name is backed by generations of quality, they are performance driven cattle who add payweight come weaning time. The maternal pedigree of 023 is a who's who list of maternal legends in the Red Angus bred; 5L Norseman King 2291, Glacier Chateau 744, HXC Conquest 4405P and Beckton Epic R397 K.

BMRA Mr Detour 021 is unique in his ability to scan so highly for IMF yet so low for back fat, we see this as a huge advantage for adding carcass quality without sacrificing high cutability and yield grade. His positive EPD figures for growth help his case as a sire to add payweight to calf crops.

GMRA PEACEMAKER 1216

GMRA PEACEMAKER 1216

HARMONYS ANNIE 035

RED MILE HIGH OAKLEAF 62Y

Three Red Angus influenced bulls who phenotypically are as impressive as any of the Purebred registered seedstock we will sell on April 13th. They have a shot of Simmental influence in their pedigrees and as no fault to their own will sell without papers, however do not let this disregard their quality. Lots 257 through 259 are 3/4 Red Angus and 1/4 Simmental. They sell with the same no fuss, Thomas Ranch guarantee that has applied to every bull sale we have had over the past 49 Annual Bull Sales, applies here too.

How to Bid Online

Tips and Tricks to Master Online Bidding

STEP 1. Use Chrome or Safari, a newer browser or download the CCI.live app at Google Play or Apple App store.

STEP 2. Open your app or go to the address of www.CCI.live in your browser. CCI.live can be used on a cell phone, tablet, laptop or desktop. Some older models may not be compatible and will show a yellow caution symbol if so.

STEP 3. Create an account and then request bidding credentials through CCI.live. Use the bank information listed on your check. Please use a correct phone and email address.

STEP 4. Once you are accepted for bidding credentials you will receive a text message and/or email notification. Proceed to "Get Buyer Number" on the actual sale page of your interest. Some sales may also require a passcode to obtain a buyer number. On these auctions, you will obtain passcodes from the sale office phone number for the specific auction you are interested in. Please closely read the terms!

STEP 5. You are ready to go! Make sure you understand, once you are logged in, have a buyer number and are watching the sale that you are on a highly sensitive web page. **Be careful when scrolling that you do not accidentally hit the bid button and watch children closely as they tend to grab cell phones and accidentally bid.**

TIPS FOR SUCCESSFUL BIDDING

- Make sure you have good service. Bidding and driving is not recommended. You should have two - three bars on your cellular devices. At home you should have an UPLOAD speed of 2 mg or more UP. Use this site to test your internet: www.speedtest.net.

REFRESH YOUR SCREEN AT SALE TIME

If you have logged in over an hour prior to sale time, you may need to login again. DO NOT let the computer set idle and then return and try to bid, the website may have logged you out.

CCI.live does not accept payment, you will pay the sale management, farm or ranch direct.

Help videos can be found at www.CCI.live
