

Spring SORT

SUNDAY | MAY 2 | 1:30 P.M.

Welcome

It is certainly a pleasure to welcome you to The Spring Sort. This Spring 2021 sale season has certainly been a good one for much of the country. Demand for genetic improvement and quality is as high as ever. Stimulus money allowed by the previous administration has been hard at work and put to good use and rightfully so. When you give cattlemen a dollar, they will more than likely spend two, as the daily gamblers believe in chance and opportunity and understand where there's risk, there's reward.

We believe that within the pages of this book is offered a great set of cattle. Cattle that are backed with reputation, genetics, and overall quality. Every hoof represented on the open heifer side has some sort of story to go with a full or maternal sib, a donor dam, and/ or a sire that has won a show or captured top value for that particular market year. Each one of these females will go out and make an impact for their new owners if managed correctly, in which can be insured by staying in contact from the respective breeder that you select from. Each of these sale partners have had success at all levels in the show ring and, very much so, enjoy working with the youth and their parents to help them achieve whatever goals they may have.

The bred cattle, donors, and embryos offer investment opportunity as well. The results from any of those lots will have marketing opportunities in the future with the group in some shape or form as we will be more than happy to assist with any of those needs, if needed, down the road. I am not really sure in this digital age if anyone reads this letter or the footnotes with in, so we encourage you to do so as much of what is needed to know is in the print in this book.

Each of us involved were given an opportunity at one point in our lives that changed the future for us in a positive way. Those opportunities included working for some of the best in the beef business or growing up through the junior program and having the desire to pursue this venture as a "Real Job". In conversation this past week with Myron Benes, he told me story about one of his sons, Kevin, and how Kevin's daughter

told her teacher that her dad didn't have a job. That's because Kevin never leaves the place and runs 24/7, 90 to nothing every day he hits the ground running doing what he loves. That story is absolutely true for everyone involved in the Spring Sort, we love what we do and each of our families are involved as well. It's a gifted lifestyle that many outside the business do not understand. It's certainly a 24/7 occupation/ addiction that requires intense work ethic, education on all levels of performance, dedication, sacrifice, and the mind set to be the best no matter what life or the environment throws your direction.

Each partner involved in this sale, is a multi-faceted operation in regard to offering bulls to the commercial cattlemen, buying feeder cattle or feeding cattle, and procuring pot loads of commercial breeding cattle as well as raising females with competitive phenotype. We all are involved in this business at every level and are serious about it. Our way of life seems to be under attack by those on the coasts and within the big cities in between based on ignorance and simply not knowing. We all must do a better job of educating the general American public and ourselves to defend what matters the most. We were at a steer show last summer and during showmanship the judge said, "I don't believe that this needs to be a quiz bowl....", that statement can be true to save time at the show however we believe that the youth involved in showing cattle need to be educated on what this industry contributes to daily life, the environment, and the finished product side. The kids that show cattle are closest to the consuming public thus having the most opportunity to connect with an inner city family or urban household to explain to them how our products benefit them and the world on a daily basis.

We hope that you can make it Sunday afternoon, May 2, at 1:30 p.m. Lunch will be served, and hospitality should be plentiful. We encourage you to reach out to any of the breeders involved for additional information on anything you may have interest in. Thank you for your interest and enjoy the cattle.

DINING

MASSEY BBQ 201 N Pkwy Dr. Alvarado, TX
Burleson, TX offers every amenity needed from a large selection of lodging, dining, shopping, and has a very active downtown. Some of our favorites include; Hard Eight for steaks and Frescos for second to none Tex-Mex. There are multiple other places to dine and all major hotel chains are represented. Burleson, Hillsboro, Waxahachie, and Midlothian are all approximately 20-30 minutes from the sale site.

AIR TRAVEL

We are located just under an hour from DFW Intl. and Dallas Love Field.

DIRECTIONS TO THE SALE

FROM THE WEST: via I-20 or from the North via I-35W: I-35W south to Exit 17 the 2258 Rd Exit. Cross back over I-35W after exiting then from stop sign proceed approx. 4.7 miles east to County Road 206, turn right or south on 206. Continue 1.1 miles to trailer parking on left or 1.3 miles to sale site.

FROM HILLSBORO/I-35W: Take Exit 15 the Grandview/Maypearl 916 Rd exit. Turn right on 916 and continue approx. 4.8 miles to County Road 206. Turn left/north on to 206 go 1.5 miles to stop sign, then turn back left/north continue 0.4 miles to sale site or 0.6 miles to trailer parking.

FROM WAXAHACHIE/I-35E: Take Highway 66 to Maypearl to the 157/66 JCT. Turn right/North on 157 continue approx. 5.5 miles to 2258. Turn left/ West on 2258 and continue 4.1 miles to County Road 206. Turn left/ South on to 206 and continue 1.1 miles to trailer parking or 1.3 miles to sale site.

FROM DALLAS: US 67 highway south to Venus, TX. At the Venus stoplight, (the US67/157 JCT), turn left/ South on 157. Take 157 to 2258, turn right/West on 2258 and continue 4.1 miles to County Road 206 on left. Turn left/ South on to 206 and continue 1.1 miles to trailer parking or 1.3 miles to sale site.

TERMS & CONDITIONS

All cattle sell under the terms of conditions of their respective breed association. Payment will be accepted in the form of cash, cashiers check, or check. All cattle must be paid for prior to release. The Spring Sort is not a lending institution or a bank, please submit full payment promptly. All funds are to be paid to the Spring Sort in U.S. currency. No cattle will be transferred, delivered, or released without full payment. In the event you need expedited registration paper transfers please make plans to pay in full on sale day. The Spring Sort & Shipwreck Saddle assume no liability for injury, accidents, or damage to persons or personal property.

AJSA Summer Classic ownership deadlines will be met so that these cattle can be entered. We ask for those considering the 2021 AJSA Summer Classic to be prepared to make payment in full on sale day so that those papers can be transferred Monday May 3rd. If there are any questions regarding this matter, please contact Jered Shipman at 806.983.7226.

CHRISTY COLLINS 580.305.0001

This one is well worth the trip to Grandview, Texas. Big time shoes to fill after two full sibs just commanded \$57,000 and \$31,500 just a few short weeks ago in Hagerstown, Indiana. These Dakota females are the real-world kind and females with this much quality and overall look are not only hard to find but hard to make. She is just as unique as they are!! She has that desired killer look with her perfect structural make up and can flat get it when put in motion. The sky is the limit on this young heifer. This is a Cow Family that flat out doesn't miss! Get in while you still can and reap the benefits of one of the hottest up and coming cow families in the breed. Cattle this elite will never leave you in the dust. Take this opportunity of a lifetime and run with it!

Wicked Hanna would be one of the first few heifer calves to be marketed sired by the 2020 Embryos on Snow sale feature and industry stud, JBSF Berwick. Her dam, NFF Wicked B125, is without a doubt one of the most absolute, proven potent donors in the Shipwreck program. Multiple maternal sisters have gone on to be major factors on the Texas Junior Show Circuit with 2020 Ft. Worth Champion, SWC Wicked Fran, 2019 San Antonio and 2019 Houston Reserve Champion Female, Ruby SWC Wicked E756 as well. Another fact not meant to scare anyone off by any stretch of the imagination would be that the female progeny of B125 have averaged just a shade over \$14,000 to further prove their public acceptance and popularity. We believe that 825H is the most complete to date with a great blend of phenotype and power. One that is met with certain skeletal integrity, quality of body and muscle shape, with an ultra- feminine look.

This would be the natural calf off of B125 for the 2020 production year that is sired by a Relentless x "Sage" herd bull that now runs in the Kansas pastures of Graham Farms of Garnett, KS. She is without a doubt the stoutest and broodiest one to date and has been since day one. Base width, power in rib and muscle, substantial bone and foot size are certainly included. The cowy ones generally fall through the cracks in today's show heifer market, but in time they prove themselves to be sound investments with needed qualities already attached for the next generation success.

The daughters of WAGR Chanel 5073C are seldom offered for public appraisal, so this would most definitely be one of those rare opportunities to invest. Chanel has been the “poster cow” for the Simmental website and rightfully so. She has always intrigued many and even impressed critics such as Blake Bloomberg with her overall kind, build, and ability to generate. The Berwick sire worked well here solidifying the fact that two rights can equal greatness when blended. This female is cool featured with significant look, appeal, and pen presence. There is a full sib bull the same age that continues to impress us daily thus proving the mating to be as consistent as there has been done on this female. Tie in with confidence and certainty.

Introducing the first natural calf from the past high selling, \$30,000 sale feature of the 2019 Spring Black Label, SWC Annie Rose 091F. Her dam was selected by Munson Show Cattle of Shallowater, TX and at the 2020 AJSA Summer Classic she turned many inquisitive heads. The Double Down cattle are coming with more center body shape than expected along with added substance and length thus proving himself to be a low birth weight sire with substantial market value upside. This is all evident in this solid black heifer calf as one evaluates her lines and build. She is certainly proud, sound, deep sided, good built, great haired, and has a very cool disposition.

A rare but proven sire group in today's gene pool of show heifer sires is represented here in Lot 8. A Step Up has always stamped a sharp featured trademark look as they are generally more dense and compact in size and length with very chiseled and sharp angles and build complimented with unrivaled body shape. Those traits are readily found here in one that goes back to one of the most dominant cow families in the famed Schaake Farms program of West Moreland, Kansas that needs little notoriety for the consistency dominance that program offers on an annual basis. Due to the time frame and window of opportunity for picture prep, she did miss picture day but will take a stellar video that should leave many adding her to the short list of consideration especially by those that attend May 2.

\$120,000 Half Interest Sire of Lot 9

KCC1 Exclusive should see a resurgence in use after noticing several daughters in female sale reports. The critics have been hard on Exclusive for his mature size but as the first daughters enter production, they have proved themselves to be sound footed, good boned, wide based stock with true rib shape and simplistic sustainability at all measures of production. Hattie is from a proven daughter of Broker that traces back to the influence of In Dew Time and Hanel's Miss America, a donor again for the Schaake program. She has been a rounder since day one, one that makes you stop and take notice. Up headed, big and bold centered with a big high pin set, graceful motion, and certain hoof and skeletal build of quality.

Certainly, impressive body and dimension can be found in this direct daughter of DMCC Fully Loaded. Fully Loaded would be the Senior herdsire for High Prairie Genetics and Diamond M Cattle Co. He is the calving ease full brother to W/C Loaded Up and is a high use bull in the ST Genetics program. This female is influenced by the SFI Miss Beloved cow family which leaves no question in her overall quality and kind. She has a great disposition and big time good hair.

Joe Seale bred and raised, quite possibly one of the best breeding bulls in the Simmental business that unfortunately saw limited use due to his unexpected early demise. JSSC Wide Body 090W semen has commanded as much as \$1,000 at public auction and rightfully so based on the consistency and productivity found in his female progeny. This red head should be no exception to the rule given the maternal side of her lineage. She hails from the extremely influential WAGR/CK Cattle late donor, 3C Melody. Her dam, 476E, whose embryos have averaged over \$2,000 this spring on 9 embryos, is a direct daughter of Executive Order from a Pilgrim daughter of Melody known as 5076C. The maternal granddam is proving to be as valuable and productive as her Broker sired sister, Chanel 5073C. 976H is no question big centered, wide based, and broody and feminine in her kind and one with substantial donor potential with three dams that have preceded her with the title. Red hided cattle continue to gain popularity!

When KCC1 Folsom topped the 2019 Kearns Cattle Co bull sale, I knew he was the stouter, bolder, more suitable choice to use to attain his sire's influence. His dam has been a generator for Cow Camp Ranch, Hidden Oaks Cattle, and has earned her tenure without a doubt at Kearns Cattle Co with multiple high selling, sale feature bulls. This November daughter of Folsom is really cool designed with good feet, bone, body, and look. Her dam was a selection made from the maternally great Wesner program of Indiana. E744 is a direct daughter of Pays To Dream and is loaded with cow family for generations stemming back to Amazing Grace which is the Power Stroke sired maternal sister to the legend, Dream On.

Stout, big ended, robust middled direct daughter of SFI Masterpiece again from a dam saturated in Vintage Simmental genetics with the not so distant influence of Power Drive and the great Black Perfector. She's the pedigree and kind that leave the number crunchers in Bozeman and those affiliated with AGR wondering how there can be any quality at all in a pedigree that old. Its old school cattle breeding applied the same way order buyers have bought feeder cattle for decades upon decades with positive results. We realize that's not the best way to describe a heifer suitable for competition on any tan bark in any city at any facility, but it's raw, honest, and true to the last syllable. Bred by a good cattleman that purchased good cattle from another good cattleman leads to common sense success.

We believe this heifer may very well be the "sleeper" of the event. She's big outlined, long sided, with correct build, balance, and very sound. She's not the slick throated, chubby, big haired one that captivates attention on sale day, but she is the kind that definitely makes a senior yearling and potentially laps her contemporaries a year from now. We bought one very much like her from Garren and Heidi 3 years ago that went on to be the Champion Female at the 2019 South Central Regional in Stillwater, Oklahoma. We believe in her kind and her genetics. She's sired by a past high seller in the Gold Bullion sale for Schaake Farms, SFI Guaranteed and from a Pilgrim bred 2 year old that evidently got the job done right out of the gate.

Lot 20 would be a direct daughter of Relentless from another proven, vintage pedigree. When we were involved in the Foster Brothers program, we were fortunate to manage an Angus cow acquisition from Foundation Cattle Co of Missouri. This set of cows was saturated with Tim and Trudy Ohlde's best and most influential donors top and bottom. The dam of H1X would be a direct daughter of Broker and from the 3811 donor dam that influenced Foundation Cattle Co, Foster Brothers, Duff Cattle, and GW Cattle respectfully. She would have been sired by OCC Joker and from the Durabull sired maternal sister to the great HA Imagemaker, 0464. This 0464 cow was an absolute powerhouse and unmatched in her kind anywhere you try to find one to replicate her. So, with that said this long necked, big hiped, stout featured SimAngus female blends some of the absolute best foundation Angus genetics with two of the most dominant sires on the Simmental show scene. It's documented, stamped, and approved for success.

Lot 21 has certainly turned heads and made those that have stopped in to take notice. This star headed, confident female sets high out of her neck/shoulder junction with an explosive turn and carriage through her center body, while having ideal width and shape from end to end. She has the balance and presence needed to compete at ultimately high levels. She is sired by the past Gold Bullion high seller, SFI Guaranteed, with the included influence of Pays To Believe and Broker it's a definite no miss opportunity.

BAAR USA WENDY 435 - Full Sister to Dam of Lot 22
2016 San Angelo Stock Show & Rodeo Grand Champion Angus Heifer for Lonnie Adams

COLBURN PRIMO 5153 - Sire of Lot 22

This Angus division is small in number but rich in quality and cow family. M-Tex is a fresh face for the Angus business as they began their Angus journey just over 5 years ago with the initial acquisition of cows from Troy Adams of Broken Arrow Angus. That cowherd had a ton of years of dedicated focus and discipline that stood the test of time and will continue to do so for the Massey family. Plan on more Angus females to come in the future of all sales held at this venue. The Wendy cow family is one the Angus breed's proven and quality lines of which both these females stem from.

One of the older show heifers in the sale is 1117H. An Angus sired Chi female that originated in the Altena herd in Iowa is extremely high quality and is 100% show ready. This one as a bred this coming year is going to be tough to get around and will give them all they want in the Supreme Drive. No doubt Angus sired Chi females are dominating this particular division and Fashion 1117H will be making her mark as well.

Time and time again this mating simply works. Style sired LimFlex females are all the rave and no doubt win the most banners. This mating particularly has been extremely successful, most recently the Reserve Limousin Female at the Fort Worth Stock Show & Rodeo in 2020. This one will give them all they want in the fall division.

Sire of Embryos 52a

WHF/CCS/JS DOUBLE UP G365
Sire of Embryos 52b

TJSC KING OF DIAMONDS
Sire of Embryos 52c

KS MR SHAMWOW
Sire of Embryos 52c

SWC Annie K 214C is lone daughter of the late ACW Annie K 330Y that is in existence sired by Wide Body. Several sisters to 214C are working for top programs from coast to coast and border to border. We have mated 214C several different ways, but most recently mated her to the talk of the business, ES Right Time FA110-4. This spring the Right Time sire group was met with HIGH demand from producers across the country. Between the CK Cattle & Wager Cattle Production Sale, Kearns Cattle Company Bull Sale, and Hartman Cattle Company Bull Sale there were 16 sons to average an astonishing \$38,421. The same mating that produced the \$230,000 KCC1 Countertime 872H, also yielded a \$60,000 heifer calf that was the high seller in the 2020 Black Label Event. This mating is absolutely one to have on your radar come May 2 if you're serious about creating the next big time herd sire or donor dam prospect that you can label with your own prefix. **Guaranteeing 1 pregnancy per 3 embryos if transferred by a certified technician.**

Here is another mating that we believe will work due to the extensive stacking of elite, proven, reliable cow families top and bottom side. Double Up was the Reserve Grand Champion Bull at the 2021 Cattlemen's Congress and caught the attention of the most astute cattlemen and cattlemen in Oklahoma City due to his captivating presence, perfect structural build, and elite pedigree that in tandem make him one of the must use sires of 2021! Double Up is sired by the \$105,000 Double Down, and backed by the 2017 American Royal Supreme Champion, 2017 NAILE Grand Champion Simmental, and 2017 Iowa State Fair Supreme Champion, WHF Summer 365C. Pedigree, pedigree, pedigree.... This mating has it all and then some. **Guaranteeing 1 pregnancy per 3 embryos if transferred by a certified technician.**

214C is the only Wide Body daughter we retained from the great Annie K. We believe in this female; we know she is special as we know what she can do especially if I wasn't so hard headed on what to mate her to. We are offering, with no guarantees, 2 embryos by Kind of Diamonds and 1 by the red stud KS MR Shamwow. The King of Diamonds are on the ground with a stellar good look and presence with a high probability of an elite heifer calf being offered this fall. The Shamwow's, well, they are growthy, good performance stock, and red in color or at least have the potential to be red in color. **Selling 3 embryos with no pregnancy guarantee. Buyer pays two X the money and the third embryo will serve as the guarantee.**

Offering 3 Embryos per mating with a guarantee of 1 pregnancy per mating if transferred by a certified technician.

These embryos are from a proven, productive matron that has a pair of females leading off this very sale in Lot 2 and 3. B125 is a deep sided, mobile, productive brood cow with a resume that's worth consideration. We have mated B125 to several new and exciting sires in the business and have very high hopes for the outcome. The first set of embryos are sired by the \$109,000 one-third Interest JBSF Berwick 41F that walks at F4 Land & Cattle. These embryos are full sibs to the Lot 2 heifer that has created a stir.

The Lot B embryos are sired by the \$530,000 SO Remedy 7F, the sale topping Simmental herd sire from the 2021 Embryos on Snow Sale in OKC this past January. Remedy semen is commanding \$750 per unit and continues to be utilized in the most elite breeding programs in the country. The Lot C embryos are sired by Renegade, the full brother to Rebel that walks at Hoffman Ranch in Nebraska. Renegade was the \$120,000 stud that sold at the HCC Annual Bull Sale in 2020 and is making his mark as a true breeding bull. War Cry is the SimAngus maternal brother to the legendary KR Casino 6243 that was a sale topper for Kearns Cattle Company and works in the Wicks program of North Dakota. The Lot E mating comes to you sired by the \$185,000 ACLL Fortune 393D, a Hammer son rich in cow family history and consistency. Fortune has sired several high sellers to date and is just getting started. B125 is a cow the never misses... pick and choose, we invite you to enjoy a quick return on investment from the mating that best suites you!

\$135,000 selling lot and 2018 American Royal Reserve Division Champion - Maternal Sister to Embryos

GEFF COUNTY O
Sire of Lot 56 & 57 Embryos

Bailey's Ms Dreamy 946W, a true breed icon. The embryos selling are maternal sibs to many, many champions and high sellers. She is without question one of the HOTTEST Simmental females in history. Most recently a daughter sired by Hammer Time commanded a \$100,000 price tag at the Paulsen Cattle Company Donors & Divas Elite Female Sale. Another daughter sired by Profit sold for \$50,000 the same day. Very few females have the ability to generate with the consistency at the level that Dreamy has for the past 5 years. In 2019 she produced a \$35,500 red baldy heifer by Profit that was the high selling Purebred heifer in the Boyert-Core online heifer sale. This donor dam produced the 2018 National Junior Simmental Grand Champion Female, shown by Sara Sullivan. Another leading daughter was Reserve Division Champion at the American Royal for the Effling Family. It was an impressive set of 946W daughters that sold in 2017. They gathered prices of \$195,000, \$135,000 and \$45,000. In 2018, several daughters sold for \$5,000 to \$25,000 right off the farm. Her other list of high sellers includes, a \$40,000 daughter sired by Chopper in the 2013 Diva to Donors sale and a son that sold for \$50,000 in the 2017 Hartman Bull Sale. The embryos selling are IVF Sexed Female embryos sired by the impressive GEFF County O stud that is a member of the illustrious sire line-up at Griswold Cattle Company. **Guaranteeing 1 pregnancy per 3 embryos if transferred by a certified technician.**

SJF EMERALD - 2018 AJSA National Classic Grand Champion Percentage Female - Maternal Sister to Dam of Embryos

SJF Filomena is a maternal sister to SJF Emerald, the 2018 AJSA National Classic Grand Champion Percentage Simmental heifer that was expertly campaigned by the Effling family and bred in the astute Frankenreider Cattle Company program of Annawan, Illinois. Filomena was our pick from The Program production sale in 2019. She is the maternal sister to the great SJF Emerald, a past National Champion and now potent donor in the CK Cattle program at Highmore, South Dakota. She is a young, up and coming female in the donor pen here in Grandview and we have neglected to get a photo of this impressive female. She is flawless from the side, bold in her body shape, square pinned, high tying about her neck attachment and confident on the move. Her first born heifer calf, SWC Hosta 248H was sired by Counter Attack and will be shown by Bodie. We mated her to Double Up after studying his basic build, presence, and eye appeal in Oklahoma City this past January. This three-quarter blood mating is bred in the purple... help yourself!

Guaranteeing 1 pregnancy per 3 embryos if transferred by a certified technician.

Bailey's Madonna 720E is the newest and most exciting young female in the highly decorated donor pen at Bailey Livestock. Madonna is the dam of the Lot 10 heifer that sold for \$20,000 in the 24th Annual Hartman Cattle Company Customer Appreciation Female Sale. Skeletal quality, presence, and a look that is second to none would be the best way to describe the result of this powerful mating. Madonna has been mating to several breed leading sires, but this mating is without a doubt the freshest, hottest, and most exciting new mating that has NEVER been offered to the public. We are proud to offer 3 non sorted IVF embryos sired by the \$230,000 KCC1 Countertime 872H stud that is the record selling herd sire prospect at Kearns Cattle Company. Pay close attention here... this mating has the possibilities to put ANY program on the fast track to success! **Guaranteeing 1 pregnancy per 3 embryos if transferred by a certified technician.**

W/C DOLLY 8609F - Dam of Embryos

This mating represents a combinations of elite cow families stacked top and bottom side that have a rich history for generating at the highest level! W/C Dolly 8609F was Scott Bailey's pick of the 2020 Rust Mountain View Ranch Female Dispersal due to her perfect built, bullet proof balance, and ability to offer so much skeletal integrity. Dolly is a three-quarter sister to the \$180,000 W/C Fort Knox 609F. This mating to the \$230,000 KCC1 Countertime 872H represents an elite combination of cow family, phenotype, and true dollar generating potential. If you're looking to invest in an embryo mating that has the potential to put your program in a different tax bracket, pay close attention here! **Guaranteeing 1 pregnancy per 3 embryos if transferred by a certified technician.**

King of the Cowboys is a past high selling sale feature for McEntire Red Angus of Sweetwater, Oklahoma and was purchased and owned by Hidden Oaks Cattle of Canton, Texas. He is the Cowboy Kind son that is awesome built from the ground up with that arrogant, proud carriage while out on cows. He is without question, one of the truest shaped Red Angus bulls with dominating center capacity and look.

HEH Faith 15 is the first daughter of King of the Cowboys that has graced the tan bark. She was at the side of her dominant dam, EDG Finley 3121 when they first won the Red Angus show at the 2020 American Royal to later be selected as the Supreme Champion Junior Breeding Heifer. On her solo trip to the NAILE, HEH Faith 15 was selected as the 2020 NAILE Reserve Grand Champion Red Angus Female for the Hartman family. Faith continued her winning tradition being selected as the 2021 Cattlemen's Congress Reserve Grand Champion Junior Red Angus Heifer. HEH Shelly 113H is another KOTC daughter that is backed by the famed TLC Alaynah 329 cow family. She has been a many time Supreme or Reserve Supreme Champion during her short time on the road during the Spring 2021 show season. We are certain that won't be the end of the trail for this pair of females as they mature, and it won't be the last of the sire group with a long list of success to talk about!

NOTE: All semen has been professionally stored at Champion Genetics in Canton, TX

F4 LAND & CATTLE/
BLOOMBERG CATTLE

SELLING 100 UNITS OF CONVENTIONAL SEMEN IN PACKAGES OF 10

The 2020 Embryos on Snow high selling lot, JBSF Berwick 41F, commanded a hammer price of \$109,000 for one-third interest to the progressive F4 Land & Cattle program of Grandview, Texas. Berwick has experienced heavy use across the business, being used on some of the most prolific cows. The first calf reports from Berwick are OUTSTANDING, with a sensational set of Fall born Berwick calves on the ground at Bloomberg Cattle.

The first impression that one has when studying the shear quality, mass, and near perfect structural design that JBSF Berwick 41F possesses is simple; he is destined to be a sire of impact! Berwick is sired by Rocking P Legendary C918 and backed by JBSF 402B, a direct daughter of FBF Wheel Man 649W, a past National Western Stock Show Grand Champion Purebred Simmental Bull in 2012. The mating flexibility that Berwick offers is tremendous, with no Relentless, Broker, Profit, Lock N Load, or Loaded Up in his pedigree!

NOTE: All semen has been professionally stored at Nichols Cryo Genetics in Maxwell, IA and Champion Genetics in Canton, TX

MR HOC BROKER

SELLING 18 UNITS OF CONVENTIONAL SEMEN IN PACKAGES OF 3

MR HOC Broker is one of the greatest modern-day champions and has become one of the most decorated breeding bulls for phenotype, production characteristics, and marketability. Broker is undoubtedly the most dominant sire that the Simmental breed has EVER seen when it comes to generating elite show heifers that have been crowned champion at every level of competition repetitively. As a Triple Crown Champion himself, he sires cattle that will take you to the backdrop or top your next production sale. With a depleted supply, limited semen is left in the tank... here is one of the last opportunities to purchase semen on the great MR HOC Broker in volume!

RARE OPPORTUNITY!!!

This, now deceased, red-baldy bull has produced females that are extremely correct, big-bodied and loaded with eye appeal! This Remington Locked and Loaded son is sure to produce high-caliber females and bulls! His mother, the famous Miss Werning KP 8543U is the highest dollar generating female in the history of the breed, producing in excess of \$8 Million in sales. Do not miss this opportunity to add Red Answer to your arsenal, as the supply is nearing extinction!
