[JEFFRIESCATTLE.COM](http://JEFFRIESCATTLE.COM)

Welcome to our Annual Bull and Female Sale. We are proud to offer a powerful set of Red Angus bulls and females for your appraisal on the 24th of September. Our primary goal when breeding cattle is for them to work and be profitable for our customers. We have remained disciplined from a selection and culling standpoint to bring you the very best from our program.

There has never been a period in the cattle business where the red hided cattle have garnered such a premium with so much demand in the commercial marketplace. The Red Angus influenced feeder cattle have proven time after time that they can perform and grade, while the female replacements are making role model brood cows for producers across the nation.

It is our commitment to continue to refresh and improve the genetic base of our cowherd to offer a better and more uniform product each year. We take great pride in the genetic progress that we have made at Jeffries Red Angus, and we will continue to incorporate the most proven technology and genetics available.

A special thank you to Kirk Breed, our Ranch Manager. We appreciate the long hours, dedication, and commitment he has made to our program. JC Andras served as our herdsman, he is very knowledgeable about the genetics and the seedstock industry. JC retired this past July. We appreciate his years of service, knowledge, and dedication. Kelly Massey of KJM Photography is responsible for the great scenic ranch photos and handles our social media presence. Kelly and her husband Buck own and operate Massey Land & Cattle, they will once again offer a select group of bulls in this sale.

I hope that you will join us on the evening of Thursday, September 23, at our sale facility for dinner and hospitality. The sale is set to start at 12:30 PM on Friday, with lunch being served before. I look forward to seeing you all on sale day!

Sincerely,

*Jerry and Tricia Jeffries*

# INNOVATION

— AgMarketing, LLC —

*Fellow cattlemen, cattlemen, and Red Angus enthusiasts,*

Welcome to the Annual Bull and Female Sale at Jeffries Red Angus! It is indeed a true pleasure to have the opportunity to work with Mr. Jeffries, Kirk Breed, and the talented staff in Checotah, Oklahoma. This program is one of the true pioneers in the Red Angus business that has remained committed to producing a product with the customer's bottom line in mind. Maternal function, longevity, foot and udder quality, and fertility are the foremost priority when it comes to cow herd retention. The cows that support this set of age advantage bulls are truly a sight to see!

The bull offering is comprised of a stout, powerful, and rugged set of age advantage bulls that are ready for heavy service. The bulls have been developed in a large pasture setting to ensure the structural integrity of each individual. A disciplined management approach and a strong selection process has elevated the level of quality offered at Jeffries Red Angus year after year. A top sort of hand selected bred heifers and four year old production age females will also sell, with many carrying the service of the \$70,000 EGL Guidance 9117!

Jeffries Red Angus is committed to constantly improving the genetics within their program and annually seek out top herd sire prospects from other seedstock operations from across North America to ensure constant forward progression. Performance driven cattle with balanced data and superior functionality is what the Jeffries prefix embodies. The offering will have a balanced combination of calving ease, carcass driven, and performance focused options depending on which facet best suites your programs breeding needs. The common denominator that you can count on is the maternal function, structural soundness, and longevity that supports each bull being offered on September 24 at the ranch.

Consider this your personal invitation to join us for the Annual Bull and Female sale at Jeffries Red Angus on Friday, the 24th of September at the ranch. The cattle will be on display starting the day prior for your inspection. The entire offering will have an individual video if you would like to review the cattle prior to sale day. We hope you will join us for hospitality the evening before and on sale day, but if you won't be able to make it in person, DV Auction will provide a live broadcast for your convenience. If you have any questions about the offering, please feel free to reach out to any of the sale staff prior to the sale. See you in Checotah on September 24th!

Enjoy the cattle,

*John Bly Kirk Shea Anderson*

# Livestock Insurance Coverage Options

Jeffries Red Angus is offering to pay for 1/2 of the first year insurance policy on every bull.

### 1: Mortality Only Coverage

Coverage: Pays 100% of the value of the cow or bull in the event of death or humane destruction as a result of a life-threatening injury.

Age: 24 hours of age - 10 years of age.

### 2. Bull Mortality + Accident Only Infertility

Coverage: Provides traditional, full mortality plus injury's that cause Total and Permanent Infertility. (ex. Broken Tool, Injured Stifle).

### 3. Mortality + Comprehensive Infertility

Coverage: Covers all the above options (1-3) plus Frozen Testicles, Testicular Degeneration and Infertility caused by abnormalities. Also pays 20% of the insured value for temporary Infertility of 21 days or more.

This does not replace the breeder's guarantee.

# A GUIDE TO EPD'S

- ProS** Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born.
- HB** HerdBuilder is a maternally focused selection index that predicts the probability of developing profitable cowherd traits while maximizing the value of marketed progeny. Expressed as dollars per cow exposure, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained, and all remaining progeny are marketed on a quality-based carcass grid. (Index/High Value)
- GM** GridMaster is a terminally focused selection index that predicts the probability to increase the value of marketed calves. GM places selection pressure on growth, feedyard performance and carcass quality, predicting differences in profit as expressed per cow exposure. GM is calculated based on the scenario that bulls are mated to cows only, and all progeny are marketed on a quality-based carcass grid. (Index/High Value)
- CED** Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)
- BW** Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)
- WW** Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)
- YW** Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)
- ADG** Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)
- DMI** Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the postweaning period. (Pounds/Low Value)
- MILK** Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)
- ME** Maintenance Energy predicts the difference in maintenance energy requirements.
- HPG** Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)
- CEM** Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)
- STAY** Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)
- MARB** Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)
- YG** Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)
- CW** Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)
- REA** Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)
- FAT** Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

## *Our Most Sincere Thanks to JC Andras*

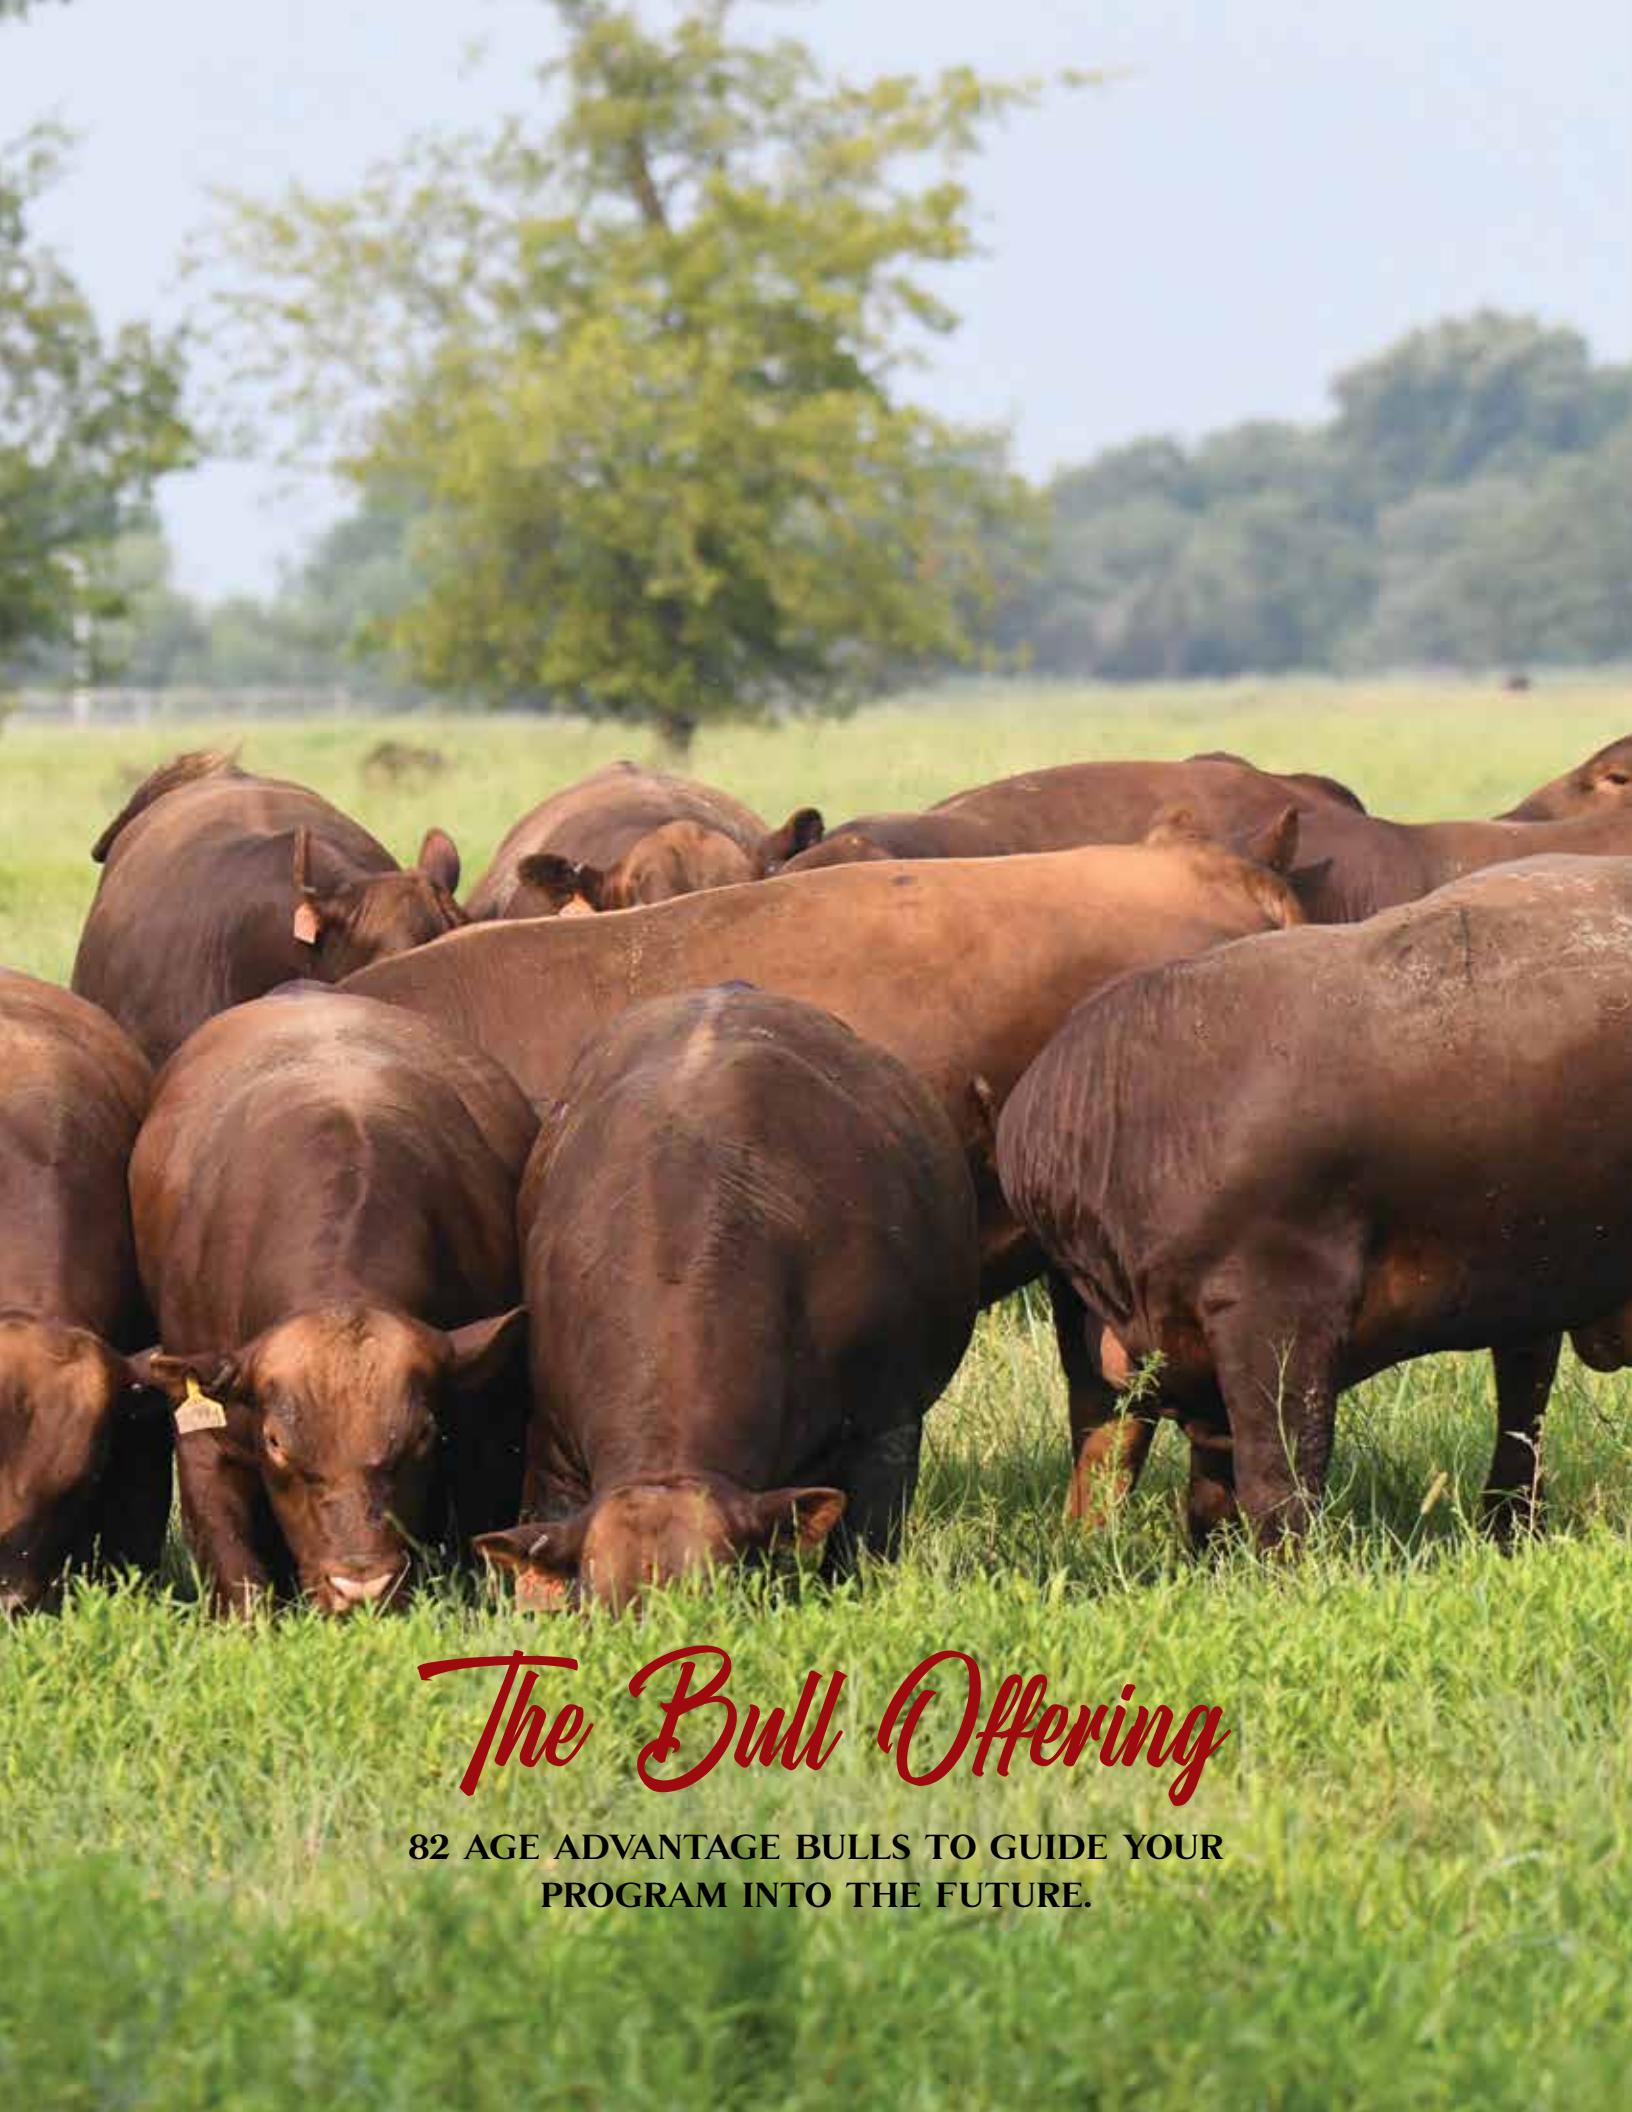

A special thank you JC Andras for the years of service, knowledge, and dedication that he provided to the breeding program at Jeffries Red Angus!

JC Andras retired from Jeffries Red Angus in July of 2021. JC and his wife Deb plan to travel and spend more time with family and friends. We know we can count on seeing JC at future cattle sales and shows across the country. We wish him well and hope that he and Deb enjoy this next chapter in their life!

# *The Bull Offering*

**82 AGE ADVANTAGE BULLS TO GUIDE YOUR  
PROGRAM INTO THE FUTURE.**

**LOT 1 - JEFFRIES  
GLADIATOR 58H**

What a way to initiate the 2021 Jeffries Red Angus offering! Jeffries Gladiator 58H is sired by senior herd sire, Jeffries Gladiator 24C. The dam of 58H is young and productive Jeffries Ms Rosette E655, a female who offers a MPPA of 104. 58H is a sure shot calving ease specialist that charts a -3.8 BW EPD that is accompanied by a moderate birthweight of 64 pounds. He posts a BW Ratio at 96 and a WW Ratio at 109. 58H ranks top 16% GM, top 16% BW, top 5% WW, top 4% YW, top 4% ADG, top 5% HPG, top 18% CEM, and top 7% Marb. Additionally, he scanned with over a 15 inch eye and an IMF of 3.15. 58H is a moderate framed, bold ribbed, deep sided, shapely bull that is a true herd sire prospect among a deep set of age advantage bulls!

JEFFRIES GLADIATOR 24C  
SIRE OF LOTS 1-4

**LOT 2 - JEFFRIES  
GLADIATOR 291G**

291G defines the term STOUT! It does not matter which angle you study this herd sire prospect from, you are sure to be impressed. Here is another standout son of Jeffries Gladiator 24C that is a true performance specialist. 291G ranks among the elite 1% of the breed for WW, YW, and ADG. He charts top 17% GM, top 20% Milk, and top 8% Marb. A true beef bull that exemplifies real world performance, width, and genuine dimension. He posts a WW Ratio of 113. Pay close attention to the profitability that this herd bull can bring to any set of cows!

**LOT 3 - JEFFRIES GLADIATOR 60H**

60H is sired by Jeffries Gladiator 24C and is backed by the strong maternal influence of a female that was bred in the TJS Red Angus program at Lodge Grass, Montana. 60H recorded a moderate 79 pound actual birth weight to accompany his performance driven data that rank him among the top 3% WW, top 3% YW, and top 5% ADG. He also charts top 17% HPG, top 19% CW, and top 10% Marb.

**LOT 4 - JEFFRIES GLADIATOR 43H**

Jeffries Gladiator 43H is a moderate framed, dense made, powerful son of Jeffries Gladiator 24C that is backed by the influence of Jeffries Blueprint 258Z and Basin EXT 8926 on his maternal side. 43H is one of the most genuine, wide based, and three-dimensional herd sires in the offering. He boasts one of the largest REA measurements and ranks top 19% GM, top 10% WW, top 11% YW, top 14% ADG, top 7% HPG, and top 11% Marb. A true beef bull that will enhance any outfits profitability!

**LOT 5 - MLCRA MASSEY'S G211**

Massey Land & Cattle have been longtime friends and customers of everyone at Jeffries Red Angus. We are pleased that they will once again have a hand selected group of bulls in our sale this year. MLCRA Massey's G211 is an absolute standout that is sure to be admired by the most astute cattlemen. G211 is sired by the Select Sires standout HXC Dawson 7003E, the Leachman Pledge A282Z son that stamps his progeny with a balanced look of quality, moderate calving and birth weights, and explosive growth. G211 is a must see on sale day due to his added length of side, stoutness of foot and bone work, and balanced number profile. He offers the dark cherry red hide color we can all agree upon, further enhancing his herd bull characteristics. G211 scanned with over a 16 inch REA and a 3.11 for IMF. This big scrotal bull ranks top 12% WW, top 9% YW, top 9% ADG, top 15% Stay, and top 19% Marb. A true sale feature!

Jeffries Alliance 128H is a moderate framed, bold ribbed, deep bodied son of the great Brown Alliance that is backed by the legendary Red Brylor Priscilla 3045. A maternal sister to this standout herd sire prospect is the iconic Red Brylor Priscilla 67W, the dam of the legendary Red Blair's Priscilla 44Z. 128H is among elite company when it comes to discussing the cow family that supports his lineage. He is balanced numerically in terms of his performance data, while ranking among the top 17% for Marb. He boasts balanced ultrasound data and is big scrotal bull. Pay attention to the generating potential here!

**LOT 9**  
**JEFFRIES THUNDER 208H**

Jeffries Thunder 208H is one of two sons of Andras Thunder A092, an outcross herd sire that we purchased from Andras Stock Farm with Nine Mile Ranch. 208H is backed by a Red SSS Oly 554T daughter that was bred by TJS Red Angus. 208H is a top maternal sire that ranks top 5% for Milk and top 23% ME. He is a sound footed, big scrotal bull that offers added body mass and shape.

ANDRAS THUNDER A092  
SIRE OF LOT 9 & 10

**LOT 10**  
**JEFFRIES THUNDER 232H**

232H is a smooth made, long sided son of Thunder that excels from a performance standpoint. 232H ranks top 6% WW, top 8% YW, top 14% ADG, top 10% Milk, top 5% CW, and top 13% REA. He offers a WW Ratio at 106 with over 700 pounds of weaning weight performance.

Jeffries Franchise 309H leads off an exceptional set of sons sired by the \$105,000 9 Mile Franchise 6305. As the Franchise daughters enter production, it has become clear that the influence of the late C-Bar Abigrace Y11 has made a substantial impact on the business. Perfect udders, easy fleshing, well designed, great built females that are leaving their mark. 309H is a prime example of what Franchise cattle have remained popular from coast to coast and border to border. Here is a bold, moderate framed, dense made, thick ended bull that is elite on paper and phenotypically. He offers a 61 pound actual birth weight and confirms his calving ease potential as he ranks top 11% CED, top 2% BW, and top 6% CEM. 309H also charts top 10% GM, top 26% Milk, top 23% ME, top 27% Marb, and top 21% CW. Heifer safe herd sire prospect that is a true sale feature!

G221 is a herd sire prospect sired by Jeffries Deep End 396D that was bred by our friends at Massey Land & Cattle that is sure to turn heads in Checotah on the 24th of September. G221 is a dense made, bold ribbed, stout hipped stud that is backed by Bieber Rose 479C, a top Hard Drive daughter with an MPPA of 101. The dam of 479C is the Rose 57U8 female that was a \$9,500 purchase of Dykes Cattle in 2015 from the Bieber Fever sale. G221 ranks top 3% GM, top 12% WW, top 5% YW, top 3% ADG, top 29% Marb, top 3% CW, and top 2% REA. A true sale feature that will add pay weight and carcass merit to any outfit!

**LOT 67 - JEFFRIES REDDINGTON 288G**

288G is a shapely, big topped, stout ended, thick made son of Jeffries Reddington 865C that is from the famed Red Brylor Priscilla 304S cow family. The dam of 288G would be a maternal sister to the legendary 67W matriarch that has secured herself as one of the dominant Red Angus donors in North America. 288G is a big REA bull that scanned with a 15+ inch ribeye. He is balanced numerically as he charts top 12% WW, top 12% YW, top 17% ADG, top 11% HPG, and top 5% CW. A big spread bull that has a moderate birth weight of 75 pounds and stretches to an impressive 761 pound weaning weight to Ratio at 118.

**LOT 68 - JEFFRIES JUSTICE 83H**

RED BRYLOR PRISCILLA 67W  
MATERNAL SISTER TO LOTS 68 & 69

Here is a pair of flushmate brothers sired by the Select Sires standout, Fritz Justice, a performance and marbling specialist. 83H and 78H are full brothers from the great Red Brylor Priscilla 4035 cow line that is responsible for females such as 67W and 44Z, two of the most well-known females in North America. If you are looking to improve performance, marbling, and the maternal characteristics that will enhance the quality of your replacement females then this pair of full brothers deserves your interest. Udder quality, fleshing ease, and longevity are built in this duo!

# *The Female Offering*

**30 PROVEN FIVE YEAR OLD COWS AND  
20 ELITE BRED HEIFERS FROM THE HEART OF OUR PROGRAM**

**LOT 101 - JEFFRIES MS LARKARBA G307**

Ms Larkarba G307 is a standout daughter of our senior herd sire in Jeffries Reddington 865C, and we deem her phenotypic design as ideal for our production goals. Her structural build is authentic and will support an extended breeding tenure. Both genomically and in the real world she excels in terms of performance, at weaning she ratioed a 123 against her contemporaries, and her EPD profile features a top 15% WW ranking, top 19% YW, and top 10% CW. Additionally you will find rankings in the top 12% of the registry for the HerdBuilder index, top 11% for HPG and top 20% Stay.

**LOT 102 - JEFFRIES BONNEBELL H159**

Jeffries Bonnebell H159 is phenotypically one of our most exciting prospects for your appraisal on September 24th. A daughter of TJS Empire E045, an exciting young herd sire who was our selection of the 2019 TJS Red Angus offering, he is already stamping his impact in our replacement pen. The build of H159 exemplifies the reason that the Bonnebell cow family has become a staple for many of the nation's most progressive and successful operations. There are 5 generations of Bonnebell females in the maternal pedigree of H159, so your faith in her consistent ability to produce is well warranted. We are excited about these EGL Guidance 9117 calves, and her mating to him for a January calf could be special.

The Female Offering

**LOT 103 - JEFFRIES MS DANA H46**

Jeffries Ms Dana H46 is an own daughter of CRS Diamond Peerless 9017 and out of a Jeffries Blueprint 258Z female. She sports a very dynamic set of expected progeny differences that help support her strong case of a profitable future in her new home. However it's her incredible build that is difficult to replicate, she is ultra feminine, sleek outlined and long muscled. However when it comes to production it may be her low maintenance, high output tendencies that we appreciate the most, she bred up quickly and is expected for an early November calf by EGL Guidance 9117.

**LOT 104 - JEFFRIES MS FLOWER H47**

Ms Flower H47 is a daughter of the Genex sire in Jeffries Gladiator 24C and out of a up and coming daughter of the curve bending sire in Andras JLJ Smart Choice R264, this is a double dose of pay weight and superior performance. She is a more moderate, big bodied and denser made female who is supported by a very impressive genomic profile. Major highlights of her EPD set include top 5% rankings for both WW and YW, top 7% ADG, top 7% HPG, top 9% Marb and top 9% CW. Females like this make up the cowherd, she is the bull raising kind with the genetic tabulations to generate an elite one.

**LOT 108 - JEFFRIES SAMANTHA H219**

Come November when Jeffries Samantha H219 calves down her first calf by EGL Guidance 9117 you will be very glad you made the initial investment. Her design is ultra-maternal and functional, being huge bodied, wide pinned and extra shapely, combine this with a flawless structural build and this maybe be the type to build a program around. Her pedigree indicates a similar outcome, paternally she is linked to 4MC One Of A Kind 818 and a super productive daughter of Jefferies Gladiator 24C, that herself was the heaviest weaning calf of her group, ratiing 121.

*AI BRED ON 1/29/21 TO EGL GUIDANCE 9117 (RAAA: 4208972). PE FROM 2/27/21 TO 5/6/21 TO EGL GUIDANCE 9117 (RAAA: 4208972). ESTIMATED DUE EARLY NOVEMBER.*

**LOT 109 - JEFFRIES MS LADY H228**

The females that 4MC One of A Kind 818 is generating are very unique for our program, they are super attractive, extra maternal and earlier maturing. Jeffries Ms Lady H228 is the perfect blend of good looks, structural integrity, and genomic prowess. The Reddington 865C granddaughter is curve bending about her growth, she is in the top third of the breed for birthweight, and the top 30% and top 18% respectively for WW and YW. Additionally, she is top 10% ADG, top 15% HPG, and top 22% CW.

*AI BRED ON 2/6/21 TO EGL GUIDANCE 9117 (RAAA: 4208972). PE FROM 2/27/21 TO 5/6/21 TO EGL GUIDANCE 9117 (RAAA: 4208972). ESTIMATED DUE EARLY NOVEMBER.*

**LOT 110 - JEFFRIES MS PRISCILLA H287**

If your selection criteria is satisfied by the extra cowy, broody and maternal type of female, then Jeffries Ms Priscilla H287 is one you will need to inspect on sale day. The daughter of 4MC SAGA 530 7304 is huge bodied, and extra dense, her udder development is impressive, and her teat setup is square and correct. The first sign of her productive future was the conception to her initial AI of the \$70,000 EGL Guidance 9117, resulting in an expected early November born calf.

**LOT 112 - JEFFRIES MS NAMO H256**

Smoky Y Renown 8128F was the leadoff son of the \$75,000 Red U-2 Renown 193C stud that has been utilized across North America in many of the most progressive seed stock operations. She is dark hided, and high performing, she weaned off of her 9 Mile Franchise 6305 mother with a 105 ratio. We think the prospect of her November born EGL Guidance 9117 is exciting, and just the beginning of a prosperous investment for her new owners.

AI BRED ON 2/6/21 TO EGL GUIDANCE 9117 (RAAA: 4208972). PE FROM 2/27/21 TO 5/6/21 TO EGL GUIDANCE 9117 (RAAA: 4208972). ESTIMATED DUE EARLY NOVEMBER.

The perfect outline of Jeffries Samarie H249 will catch the eye of any astute cattle enthusiast. Her sire SR Full House A66 has built a legacy through his daughters in our herd, they are great uddered, with a strong motherly instinct and we think they will have long and illustrious breeding tenures in Checotah, Oklahoma. This level spined, big middled and pretty headed female will calve in early November to the much anticipated \$70,000 EGL Guidance 9117. *AI BRED ON 2/1/21 TO EGL GUIDANCE 9117 (RAAA: 4208972). LOT 121 - JEFFRIES PERSUASION E426

The maternal pedigree of Jeffries Persuasion E426 can be referred to as Red Angus royalty, Meado-West Persuasion is one of the breeds most dominate and desirable matrons, with 142 registered progeny, her influence has been proven to be absolutely and undoubtably potent. Her pedigree is featured in many of the nation's most renowned cowherds, and if you value the influence of the showing you will realize her progeny have taken purple banners on a national level. She has produced several high sellers, herd sires, and females of influence for us here in Checotah. The sire of Persuasion E426 is Jeffries Blueprint 258Z, he emerged as a special individual from early on, our visions for him were matched by Accelerated Genetics when they selected him to be our high selling bull of 2014. He injected weaning weight and performance in a single generation, just like we expect from EGL Guidance 9117, the sire of the expected January calf E426 will rear. We have done the leg work here, and are offering you our most elite genetics, take advantage of this opportunity because one of this magnitude aren't available often.

**LOT 122 - JEFFRIES MS JOTEN E454**

Jeffries Ms Joten E454 is one of the most eye appealing, stout featured and just overly impressive females you will witness when touring this dispersal of the 2017 set of females. With our commitment to refresh the cowherd, its females like E454 that make it extremely difficult to let go of an entire year group like this. She is a female with high predictions to increase carcass quality in her offspring, she herself uniquely ratioed a 104 for both marbling and rib eye area something that often act conversely of one another. E545's mother is a super productive and hardworking member of our cowherd, her sire C-BAR Contour 107X is a Conquest 4405P son who is renowned for adding maternal value. Her mating with Jefferies Gladiator 24C is bound to be one of the most interesting pregnancies of this offering, there is something to be said about the proven potency of this combination.

# The Female Offering

## LOT 123 - JEFFRIES MS GLORIA E467

You can ask many astute cattlemen about the reputation that Bieber Rollin Deep Y118 has built, and you will find that many indicate his legacy has been built around the exceptional set of females he has left the breed. The Gloria cow family is 10 generations deep on the maternal lineage of Jeffries Ms Gloria E467, she is the result of decades of stacking consistently maternal females. If you place value in the dollar indexes that have been built around profitability, then the top 9% GridMaster figure and top 18% ProS ranking should be of notice. Come January, E467 will calve to her AI of EGL Guidance 9117, the \$70,000 phenom we selected from the Eagle Pass Ranch of Highmore, South Dakota.

**LOT 124 - JEFFRIES FLOWER E492**

Jeffries Flower E492 leads of the set of these impeccably structured, long spined and elegant headed Andras Thunder A092 daughters that we will offer. Backed by a high-performance Fritz Justice 8013 cow with generations of the Flower cow family on the bottom side, these high-performance genetics have shone through with E492. Rationing a 104 and 105 at weaning and a year, respectively, whilst further evidence of added performance include a top 9% WW rank, top 11% YW, top 17% ADG, top 3% Milk, and top 16% CW. There is no lack of performance coming either with her December pregnancy by Gladiator 24C.

PE FROM 2/25/21 to 5/8/21 TO JEFFRIES GLADIATOR 24C (RAAA: 3534240). ESTIMATED DUE MID DECEMBER.

**LOT 125 - JEFFRIES MS DAY E622**

Jeffries Ms Day E622 is the high-performance type that adds the payweight required to make a profit each year. Her only bull calf to this point went through our 2020 Production Sale and was the selection of the Double Rainbow Ranch of Fort Gibson, Oklahoma. As a Gladiator daughter you know that the opportunity for added performance comes standard issue. This dark hided, massive centered female is pretty headed and extra stout, she is the bull raising kind. The combination of EGL Guidance and E622 could truly be one of the most exciting prospects of the sale.

AI BRED ON 4/8/21 TO EGL GUIDANCE 9117 (RAAA: 4208972). PE FROM 4/14/21 to 6/4/21 TO JEFFRIES FRANCHISE 786F (RAAA: 4008024). ESTIMATED DUE EARLY JANUARY.

Jeffries Ms Jena E405 is a direct daughter of a once featured herd sire here at Jefferies Land & Cattle in Jeffries Commander 793C, he was a unique combination of added style, performance and carcass. The dam of Jena E405 has been a mainstay female at Jefferies for almost a decade, and was a feature of the donor battery, with sons working for producers around the United States, including Mill Iron H Ranch, Frank Zermenio, Jackie Young, and the Watson Family Ranch. The mating to Gladiator 24C will result in progeny with lots of added growth, muscle shape and payweight.

PE FROM 2/25/21 to 5/8/21 TO JEFFRIES GLADIATOR 24C (RAAA: 3534240). ESTIMATED DUE EARLY DECEMBER.

Jeffries Ms Jan E406 is an absolute outlier in regard to her genetic potential to inject growth into her progeny. Her elite status is garnered through both her pedigree and real-world proof, in fact her initial son by Gladiator 24C was at the top of his class at both weaning and yearling times, ratioing a 113 for both. E406 ranks in the top 1% of the entire breed for weaning, top 2% yearling weight, along with a top 3% figure for average daily gain, these figures help secure E406's position as one of the most genomically elite females we have ever offered. Couple her own achievements with the prospect of her early February calf we are excited about the opportunity we are providing to our customers.

Jeffries Ms Lady E423 is a product of the program, with both her dam and sire being raised here in McIntosh County, Oklahoma. Her sire, Jeffries Checotah 817C was a featured member of our 2016 bull lineup, so much so that he was secured by ABS Global and led his class of rookie sires. Maternally there is a role model Bieber Rolling Deep Y118 female that year in and year out has proven more than just her worth on the ranch. We have retained two daughters of E423 in herd, and look forward to watching as they take advantage of their opportunity to carry the family name.

When we purchased Andras Thunder A092 it was in an effort to add some outcross, calving ease genetics to the cowherd. He went on to prove himself as a do it all kind of sire that propagated both male and female progeny of value. Jeffries Ms West E456 is a prime example of the functionally built, easy keeping and low maintenance type of females that the Thunder progeny are so respected for. Her first calf was a Gladiator 24C son that sold through our Production Sale to the Allen Brothers operation, E456 is currently carrying a full sibling to this sale highlight and will calve in November.

PE FROM 2/25/21 TO 5/8/21 TO JEFFRIES GLADIATOR 24C (RAAA: 3534240). ESTIMATED DUE MID NOVEMBER.

A daughter of the Andras JLJ Smart Choice R264, a sire that has had a very successful breeding tenure here in Checotah, Oklahoma. His influence will be left long into the future through the set of maternal masterpieces he has propagated for our replacement pen. There are seldom individuals in the Red Angus breed that can compare to his intriguing combination of calving ease and performance. The Basin Red Queen 6114 female that she is out of is picture perfect and is an extremely productive member of our cowherd, you can trust in the pedigree that supports E629.

Jeffries Ms Staress E420 was responsible for raising a 2019 Jeffries Extend 650E son that recorded a massive 129 weaning ratio against his contemporaries. An impressive feat for the first calver, however when you look into the lineage of her pedigree it becomes obvious that this wasn't by chance. She is backed by generations of strong cow families, that consistently raise the offspring that demand premiums. E420 fell pregnant to her pasture exposure with Jeffries Franchise 786F and is due towards the beginning of January.

PE FROM 4/14/21 to 6/4/21 TO JEFFRIES FRANCHISE 786F (RAAA: 4008024). ESTIMATED DUE EARLY JANUARY

5L Out In Front 1701-457B was the talk of the Red Angus breed when he commanded \$100,000 in the 2015 5L Red Angus Bull Sale. His value however was well warranted, as he has gone on to be a breed leader in terms of injecting extreme growth and performance traits to his offspring. This standout daughter is a prime example of the potency of his growth attributes, she was the top of this 2017 class of females, ratiating a 141 and 139 at weaning and yearling respectively. Regardless of your marketing methods, added pounds result in extra return, so your opportunity for profit is expected to be high with this pay weight driven female.

The Andras Outer Limit A032 progeny come with extra punch and muscle shape, proof is in the pudding here as Jeffries Ms Lady E495 ratioed a 110 on her REA scan and 105 when she ran over the scale at a year. Truly good beef cattle here, her progeny will be the type that are impressive and bold, extra powerful and stout. If your calving period is a little later than ours then her late February calving date could work very well.

AI BRED ON 4/7/21 TO EGL GUIDANCE 9117 (RAAA: 4208972). PE FROM 4/14/21 to 6/4/21 TO JEFFRIES FRANCHISE 786F (RAAA: 4008024). ESTIMATED DUE LATE FEBRUARY.

Jeffries Ms Girl E594 is another member of the in Andras Outer Limit A032 tribe, you can see why we turned to him for several breeding seasons. The Outer Limit daughters offer extra dimension and muscle shape, and this breeds on into their progeny. This extra performance is highlighted by the impressive data set that accompanies E594. She ranks among the top 5% for WW, top 13% YW, top 5% Milk and top 25% Stay. Her Oly 903 daughter ratioed a 110 at weaning and is a featured member of the replacement pen.

Jeffries Rebello E516 is the result of combining LSF RR Extend 2313Z with a daughter of Red Six Mile Sakic 832S that we hand selected from the Six Mile program of Fir Mountain, Saskatchewan. We think this one is pretty special and has always been one that we have had high hopes for ever since she hit the scales at weaning ratioing a 110, only to be outshone by her 112 yearling ratio. Across the board you will find a balanced set of EPD's, and she has a very fancy, Smart Choice 523E daughter in the replacement pen that we look forward to breeding on into the future.

Jeffries Ms Mimi E600 is a product of one of the breeds most infamous cow families in the Mimi dynasty. They are relied on to add the maternal feature, build of longevity and supreme udder quality that this breed has been associated with. E600 comes to you as a prime example as to why the Mimi cow family has stood the test of time. The LSF RR Extend 2313Z influence will only continue the maternal attributes as his daughters prove every year why they deserve their spot in the cowherd, due for a Franchise calf in January.

PE FROM 4/14/21 TO 6/4/21 TO JEFFRIES FRANCHISE 786F (RAAA: 4008024). ESTIMATED DUE LATE JANUARY.

An own daughter of LSF RR Extend 2313Z and back on the Diamond cow family, Jeffries Diamond E532 is a powerhouse cow prospect who excelled in her own right when it came to running over the scale, She ratioed a 103 weaning figure and 107 yearling ratio. Her maternal grandsire RED SSS Oly 554T is one that is still utilized in embryo transfer programs because of the females he has injected into the beef business. Her mating to the breeds most talked about rookie sire in the \$70,000 EGL Guidance 9117 could be very special.

# TERMS & CONDITIONS

Except for those stated in the terms and conditions below, there are no warranties, either expressed or implied, as to the merchantability or fitness for a particular purpose with respect to the cattle being sold at this auction. The warranties and guarantees set forth in the "Terms and Conditions" are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy for the Buyer, or any party claiming through Buyer, for any breach of warranty or guarantee therein provided, and all other obligations or liabilities.

All cattle in this sale are offered according to the laws of the State wherein the sale is conducted. The right to bid, as provided under law, is reserved for all sellers unless otherwise announced.

## 1. BIDDING

The Auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

## 2. TERMS

Terms of sale are cash unless satisfactory credit arrangements have been made with Sale Management prior to sale.

## 3. PURCHASER'S RISK

Each animal becomes the risk of the Buyer as soon as sold, but it shall be the obligation of the Seller to see that animals are fed and cared for free of charge to Buyer, until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner.

## 4. CERTIFICATE OF REGISTRY

A transferred certificate of registry will be furnished to the Buyer for each animal.

## 5. HEALTH

All animals are eligible for interstate shipment, except as otherwise announced. Interstate health papers will be furnished for each animal requiring tuberculosis and brucellosis tests in accordance with Federal Regulations.

## 6. ANNOUNCEMENTS

Any changes from information of any kind in the sale catalog or related materials will be announced from the auction block and such announcements shall take precedence.

## 7. BREEDING GUARANTEE

The nature and extent of the Breeding Guarantee is set forth in section 10 of the Red Angus Association of America's Sale Terms and Conditions.

## 8. DEFAULT

In the event the Buyer defaults on payment, the Buyer shall be responsible for all costs, including attorney's costs, incurred by Sale Management or Seller in connection with collecting, or attempting to collect, payment due.

## 9. SELLER'S SEMEN RIGHTS

The Seller reserves the right to 1/3 semen interest in every bull sold, unless specified differently in the sale catalog. Any semen collected for the Seller will be at their cost and the Buyer's convenience.

## 10. LIABILITIES

All persons who attend the sale do so at his or her own risk. The Seller, and the Sale Manager assume no liability of accidents that may occur. It is to be clearly understood that the Sale Manager and their representatives act only as a medium between the Buyer and Seller.

## 11. CONTRACT

The above terms and conditions shall constitute as a contract between the Buyer and Seller for each sale animal and shall be equally binding upon both. Each sale and/or resale of a sale animal constitutes a separate transaction.
