INCREDIBLE
Day Three

AI Bred Heifers | Spring 2021 Heifer Calves
Simmental, SimAngus, Angus, Club Calf, Charolais, Shorthorn, Red Angus, & More...

LOT 701 - BFJV MS LEDGER H052

With the quality you will find throughout the next chapter of this book you would think it would be a difficult time in sorting out a place to start, but to be honest for us it was no trouble at all. BFJV Ms Ledger H052 has been the pinup girl for this event, and we honestly believe one of the most intriguing individuals that has ever come out of the Bruhn program. To find a Purebred Simmental female that ties together so many of the right pieces in a package that is so attractive, bold, smooth and correct has taken an entire career to do. We are placing our trust in this one to carry on the legacy of this program well into the future, and the ability she has to change the outlook of a program should not be taken lightly. An investment in this daughter of TL Ledger will be a prolific step in the story of a program, so saddle up here boys and girls, the ride with this one could be wild!

Bred Heifer

Color: Black White Face

DOB: 1/4/20

TL LEDGER - SIRE OF LOTS 701 - 745

LOT 702 - BFJV MS LEDGER H030

How about the good looks of this fancy TL Ledger daughter, and she's only one breeding away from raising a high valued Purebred. Ask anyone around the farm how much we like these Ledger derived stock, he as perhaps as consistent as any sire he have used when it comes to adding performance, density and bone to his offspring. Here you get more than just good beef cattle because she has a presence and awe about her that is seldomly replicated. As you have come to expect the mating on this one is pretty special too, she is due for a Purebred heifer calf by W/C Bankroll 811D come February.

LOT 703 - BFJV PATTYS LEDGER H088

Once you see this one you won't forget her, check out the big set of fuzzy ears that this one was blessed with. There is no shortage of dimension and mass all the way through this one's build, get behind her and check out the back and hip shape. She is an absolute powerhouse that we think could flat raise one, her first mating is included in this statement, because from what we have seen her mating to SO Remedy 7F could hit a home run.

LOT 704 - BFJV MS LEDGER H350

We like this one's ability to make a great cow as she enters her prime years of production, there is not too much we would change about the way she is constructed, and just like many of her paternal sisters is not lacking when it comes to inspecting her muscle mass and dimension. When mating her there was no clearer option than SO Remedy 7F, and the resulting $\frac{3}{4}$ blood heifer calf she will have in February will go a long way towards covering your investment if you decide to sell her.

LOT 709 - BFJV ROYAL LEDGER H074

A super attractive, neat profiling half-blood female that exemplifies the potency of TL Ledger when crossed with Angus based females. However, with that being said the maternal power of H074 doesn't come from some middle of the road type Angus female, in fact her dam is the result of a long line of Angus hierarchy given the Royal Lady cow family name. We mated this one to our newest addition to the sire battery, W/C Cyclone 385H, the W/C Bankroll 811D son back on a CDI Innovator x Angel 2870Z daughter.

LOT 715 - BFJV MS LEDGER G980

Woah talk about one that is has all the power you could want; this half blood is impressive regardless of the emphasis you have when it comes to a selection criteria. A direct daughter of the TL Ledger stud that's influence is prolific as both the sire and service sire in this bred heifer offering, that just proves how much respect we have for his progeny. This black hided beauty will lay down and calve a $\frac{3}{4}$ blood calf by the full brother to W/C Bankroll 811D that we have had the pleasure of running these past two breeding seasons.

LOT 725 - BFJV MS LEDGER H073

Here is another standout half-blood daughter of our go to AI sire, TL Ledger, you will find this one's structural build to be correct and smooth, and as she continues to mature will follow in the footsteps of her highly productive Angus based mother. H073 got a dose of sexed heifer W/C Night Watch 84E this Summer and we think this mating will be perfect to add body and substance to her great looks.

LOT 746 - MS BRITTANY

A half-blood Simmental bred heifer who is a direct daughter of the \$400,000 Profit, and maternally you will find an Angus female that lacks nothing in terms of look and quality. Ms Brittany has the big bones, correct feet and added feature that the reputation of Profit has been built around, add the traits she will contribute to the sexed heifer mating with SO Remedy 7F and let your imagination run wild.

LOT 760 - BFJV MS BOTTOMLINE H373

Ultra-dimensional and shapely, it's amazing how we have kept so much density in these Simmental influence cattle whilst adding extra look and structural soundness. A prime example of the mold we have built this cowherd around, the mating opportunities remain wide open, but you can trust in the genetics that have delivered us to this point. Due the end of January with a $\frac{3}{4}$ blood heifer calf by W/C Pinnacle E80.

TL BOTTOMLINE - \$300,000 SIRE OF LOTS 760 - 761

LOT 762 - MRB BFJV BROKERS MACHO H389

You don't need to tell us how hot the red game has become within the Simmental breed of recent. We think we are bringing a pretty unique opportunity to the game with this one, a granddaughter of the HOC Mr. Broker, out of an awesome 3C Macho M450 daughter that never skipped a beat in production. To keep with the red influence we mated this one to our new red member of the sire battery, W/C Cyclone 385H, so you can stay on the forefront of the red deal.

BANKROLL 811D
\$205,000 SIRE OF
LOTS 763 - 786

MSF EBONY 200E - DAM OF LOT 767 SHE SELLS AS LOT 245

Could you paint a picture of a more ideally built bred heifer? We think this one's phenotype is out of this world, so balanced and correct, the way she ties all her intriguing pieces together is more than admirable. When H084 entered the breeding box this Spring we thawed out a unit of sexed heifer TL Ledger that resulted in a pregnancy due for March. I think this one is a big-time feature within the Simmental bred heifer offering. Her dam is the powerful Plainview Luton E102 daughter that sells as lot 254 as the lead off Angus female on the second day. Power in the blood!

LOT 774 - BFJV MS BANKROLL H490

A super deep sided, yet skinny necked half-blood who reads all day for big time cow power, this one is fun to look out, she's nonconventional in the way she ties together her pieces. With the added back and hip shape that TL Ledger brings to the equation we think the $\frac{3}{4}$ blood she will have in February could return your investment quickly.

The panda marked high percent female that is one you always keep an eye out for when its feeding time, perhaps it's just the markings, but I like to think it has more to do with her high-quality phenotype that regardless of color would make me check in on her. A direct daughter of W/C Bankroll 811D and out of the Phoenix donor who has the blessing of Plainview Lutton in her blood, this one's genotype matches her phenotype in terms of quality. Her generating potential begins this coming March with her initial pregnancy to TL Ledger.

LOT 801 - BFJV MS SAVAGE H114

We love this red baldy half blood, sired by SFI Savage D80 she follows closely to the trend of extra big featured and bold sprung offspring that he is becoming accustomed with generating. The red deal is as hot as it's ever been, but regardless of the color of this one's hide we know she will find plenty of friends in Dunlap. Bred for a TL Ledger heifer calf, she will calve nice and early, while the ground is still hard.

LOT 807 - BFJV MS SAVAGE H243

SFI Savage D20 in our opinion is one of the Simmental breeds most underutilized sires, the sets of females he continues to generate for us are breathtaking. He consistently adds cool white markings, rib shape and bone circumference, we think that as the females continue to approach their prime years of production their value will only increase. H243 is mated up for a TL Ledger heifer calf that will carry $\frac{3}{4}$ blood papers.

LOT 809 - BFJV MS SAVAGE H100

A half-blood bred with a world of potential to mature into a matron type female for the herd, she is a direct daughter of SFI Savage D20 the W/C Loaded Up 1119Y son that we acquired from the Schaake Family. This sire has done a great job of adding look, bone and hair quality in a single generation. Maternally you will find a S A V Bismarck 5682 cow that is pretty as a picture, we have her mated to sexed TL Ledger to calve towards the end of January.

LOT 820 - BFJV MS SAVAGE H484

We know it's important to pay most of your attention to the animal your purchasing, however it has always been a goal of us to wow people when they look at how we have these bred cattle mated, and the sire of the prospective calf she will have. This is a prime example, the Conley High Rise F3 bull is a young sire that is difficult to secure the genetics of, however this SFI Savage D20 daughter is bred to calve with a heifer to him this coming January. This is the type of opportunity you will only ever find at the Incredible Female Sale.

LOT 835 - BFJV WHISKEY POWER H118

The next trio of females are direct daughters of the legendary Irish Whiskey sire, a bull that will go down in history as a one who has played an instrumental role in shaping the show cattle industry. The number of first- generation progeny though is on the downhill slide only because of age and semen availability, so your opportunity here to invest in a set of flush sisters that are about to enter production should not be taken lightly. With that being said, these not just ordinary Irish Whiskey daughters either. We love the structural integrity, shape, and dimension that these Irish Whiskey daughters from the great SVF Star Power S802 possess. A full sister commanded \$51,000 in The Incredible Female Sale in 2015, and another at \$10,000. This mating never misses!

This daughter of BJFV Margin D9040 could easily be one of the most phenotypically elite animals in our entire bred female offering, this one's build is so intriguing. The way she combines an eloquent and square topside of her skeleton with a robust and overwhelming bottom half puts her in another category in our opinion. Add the blaze face, and mating to sexed heifer TL Ledger and we think the opportunity here is big time! Looking into the future we feel her ability to raise high value show prospects of several different breeds and endpoints is exciting.

The Daughters of
Margin

LOT 850 - BFJV MS MARGIN H240

Where do we even begin here? This one could be the pinup girl for this entire offering of bred heifers, her build is so intriguing, and we think her generating potential matches that statement. The splash of white on this one's head perfectly complements everything that's right about this one. Her heifer mating to W/C Night Watch 84E will yield one that you will struggle to let go from the replacement pen when someone offers you a fat check for her. But just trust that that's only the beginning, we look forward to hearing the success story that she writes for her next owners.

LOT 852 - BFJV MS MARGIN H035

Although this one is a half-blood Simmental by pedigree don't think that her mating flexibility is just limited to that breed, we think H035 has a build that is versatile enough to raise show cattle for various different sectors. Her mother is a direct daughter of the National Champion TL Bottomline and in the flesh resembles this one closely. If we had to make a prediction about the ¾ blood Simmental calf she will have it would just make us regret offering her.

LOT 854 - BFJV MS DRIVER H357

Another one of these half-blood females that is overwhelming about her body cavity shape and dimensional build. We love the clean throat latch, and maternal head design of this WAGR Driver 706T daughter. Her mating to W/C Cyclone 385H aligns perfectly with this one's phenotype too. There are many opportunities that will sell in Dunlap, take ahold of the cow families we have built and let them work just as successfully for you!

LOT 863 - BFJV MS HAMMER H378

A direct daughter of the \$200,000 promotional sire MR TR Hammer 308A ET and back out of a beautiful Angus cow. She blends both worlds perfectly being monster bodied, eloquent headed and broody. The fun will begin only two months prior to sale day when she calves a heifer calf by the \$530,000 sensation of the 2021 Embryos On Snow, SO Remedy 7F. Opportunity is knocking on the door with this one.

How to Bid Online

Tips and Tricks to Master Online Bidding

STEP 1. Use Chrome or Safari, a newer browser or download the CCI.live app at Google Play or Apple App store.

STEP 2. Open your app or go to the address of www.CCI.live in your browser. CCI.live can be used on a cell phone, tablet, laptop or desktop. Some older models may not be compatible and will show a yellow caution symbol if so.

STEP 3. Create an account and then request bidding credentials through CCI.live. Use the bank information listed on your check. Please use a correct phone and email address.

STEP 4. Once you are accepted for bidding credentials you will receive a text message and/or email notification. Proceed to "Get Buyer Number" on the actual sale page of your interest. Some sales may also require a passcode to obtain a buyer number. On these auctions, you will obtain passcodes from the sale office phone number for the specific auction you are interested in. Please closely read the terms!

STEP 5. You are ready to go! Make sure you understand, once you are logged in, have a buyer number and are watching the sale that you are on a highly sensitive web page. **Be careful when scrolling that you do not accidentally hit the bid button and watch children closely as they tend to grab cell phones and accidentally bid.**

TIPS FOR SUCCESSFUL BIDDING

- Make sure you have good service. Bidding and driving is not recommended. You should have two - three bars on your cellular devices. At home you should have an UPLOAD speed of 2 mg or more UP. Use this site to test your internet: www.speedtest.net.

REFRESH YOUR SCREEN AT SALE TIME

If you have logged in over an hour prior to sale time, you may need to login again. DO NOT let the computer set idle and then return and try to bid, the website may have logged you out.

CCI.live does not accept payment, you will pay the sale management, farm or ranch direct.

Help videos can be found at www.CCI.live

LOT 889 - TALONCREST PROVEN QUEEN 023

The lead off female in our Angus bred heifer segment, and we truly believe this one could lead off the same department in many of the nation's most recognizable Angus production sales. Not only is the phenotype of 023 elite but you will have to dive back a long way in her pedigree to find an individual that hasn't had an influence in their respective operations. The Proven Queen cow family has been responsible for an extravagant number of dollars being traded in the Angus show heifer business. Taloncrest Proven Queen 023 carries the family name and will stand up to the reputation that precedes her, initially it will come through her ½ blood SO Remedy 7F heifer calf, but we look forward to seeing which direction her new owners take her in when they get her home.

A big-time pedigree backs the elite phenotype of Taloncrest Missie 001, this one has undeniable high quality. The Missie cow family has a reputation that is prolific and undeniable in the Angus breed, this name is synonymous with big time generating females and all the banners and dollars that come along with it. We got her bred early for a January heifer calf by the \$530,000 SO Remedy 7F bull so that you can get a flush or two and keep her apart of your calving blanket.

Here is a standout Purebred Angus female sired by the \$190,000 Casino Bomber N33 sire that is gaining traction, if he continues to generate this kind then it will be easy to see why his service will be trusted upon. This one is big and round bodied, and perhaps a touch more moderate in frame score, with that some would say comes some less maintenance and upkeep. We made sure her first calf won't be lacking huge genetic potential either with her conception to sexed heifer SO Remedy 7F semen.

We have grouped some elite individuals in this Angus bred heifer offering, each one is backed by cow families of importance. We love the sleek features of the 0170 female, this matched with her awesome structure and big compacity help us to project her longevity and generating potential to be high! There aren't many females bred up to sexed heifer HPF Quantum Leap Z952 in this offering because the semen has become increasingly rare and expensive, matching the demand that has been met on the deceased sire.

A brood cow matron in the making, we think this one as a momma cow will be quite the sight to behold. Take into account the genetic backing she carries with sires like KR Outfit and Barstow Cash and it becomes even easier to trust how impressive she will be. We like this one very well, and placed our full faith in her when we tapped into the depths of the semen inventory to thaw out the scarcely available SO Remedy 7F sexed semen we had on hand.

If you know of any other places you can find Angus bred females like this then feel free to let us know, we like this one a lot! Her added dimension and stoutness transcend any stereotype, while she maintains a balanced maternal look that we can all appreciate. With that being said her pedigree is completely outcross to many of the Angus show bulls that are being used. Her mating to TL Ledger is perfect, can you imagine the half-blood calf she will raise come this time next year?

LOT 893 - HAF LASSIE 091

LOT 895 - BFJV PRIMROSE PAYBACK G992

An extra captious, and extra high performance purebred Angus female that will work in a wide range of production scenarios. If you inspect her pedigree you will notice this one is geared for both phenotype and genetic tabulations, we think her ability to raise purebred performance bulls is just as high as the chance for generating replacement females. This first year her service was with sexed heifer semen to the Simmental breeds newest sensation in SO Remedy 7F, on the open market the conventional semen retails at \$750 a unit.

LOT 921 - BFJV MS HERE I AM G327

We think the offering of Club Calf derived bred heifers that sell on November 15 is extremely high quality, however it was an easy decision for us as to where we would begin. The Here I Am sire has made many Cattlemen a lot of money, his ability to put extreme muscle shape and dimension into his progeny without sacrificing look and hair quality is unmatched. The beast of a female tagged G327 is a prime example of why these cattle are so widely accepted, I'm not going to crow about the phenotype of this one, it's pretty obvious she isn't ordinary in that department. Bred up to right so you'll make a profit in the first year if you decide to sell her SO Remedy 7F heifer calf coming in January.

LOT 923 - BFJV MS DAKOTA GOLD H325

A fine example of the direction we think club calf females need to be headed, there is no shortage of femininity in this daughter of Dakota Gold, yet she carries all the mass and substance that is crucial to raise the big-time ones. The awesome blaze face just tops off the quality this one brings to the table, and then when you check out the breeding info on this one you'll realize this opportunity is the real deal.

TL LEDGER - SERVICE SIRE TO LOT 924

LOT 924 - BFJV MS LIMIT UP H326

A tricked out, fancy featured red baldy that is sure to garner plenty of attention as we approach the sale. Super attractive, with a big wide pin set and the big set of feet and legs that we think will transmit consistently into her offspring. Two legends of the business feature on the maternal side of this one's pedigree, Maternal Made and 3C Macho. Bred to calve early with a Sim Solution heifer calf by the female maker TL Ledger.

BFJV MS IN GOD WE TRUST 492

The In God We Trust cattle have rejuvenated the club calf business, they are extra functional compared to their contemporaries and the percentage of low dollar return progeny is low. If you want to make money in the club calf business then he and his progeny need to be apart of the breeding program. This bred female is high on our list as a donor candidate, we think a lot of her quality, and the next generation is secure with her service to the Simmental stud TL Ledger.

LOT 929
BFJV MS WHISKEY H318

We aligned a couple of the stars in the club calf business in this one's pedigree, a granddaughter of the infamous maternal legend in Irish Whiskey and out of a Meyer Ranch 734 cow that would convince you that you need to go back and use him in the breeding program. The extra substance and extra look that H318 brings to the table should be enough to convince you that an investment here is necessary, if not just consider the prospect of her half-blood W/C Cyclone 385H calf.

LOT 962 - BFJV G970

Kicking it a little old school with this granddaughter of the maternal legend Who Made Who, a sire that still pops up regularly in the maternal pedigree of ones on the high sellers list. Undeniable good looks, great body shape and a build that's made for the long run, this one will turn a quick profit. Bred for a half blood heifer calf by the full brother to Bankroll, W/C Pinnacle E80.

LOT 1001 - BFJV MS LEDGER J131

We lead off the Spring 2021 heifer calves with a stunning set of daughters that are sired by the \$250,000 TL Ledger. As you will notice throughout the catalog, the influence of Ledger has made a monumental impact on Bruhn Cattle Company. The daughters mature and develop into role model females once they enter production. We only felt that it was fitting to begin one of the deepest and most dynamic divisions of the entire sale with a run of powerful Ledger daughters. Check out this fancy January born female that has the extra bells and whistles to command your attention on sale day. We love cattle that strut with added presence and eye appeal, J131 comes to the top of the pack in that regard. With just a splash of white and a perfect hind leg, we think the chances of this one hanging some banners in her new home is high. Pay attention to how these Ledger daughters develop, by the time we sell her on Monday the sire group average is sure to impress.

BFJV FORT KNOX BUNNY J272

A direct daughter of one of the 2019 sale seasons most talked about Simmental bulls, the \$180,000 W/C Fort Knox 609F, and out of our WAGR Dream Catcher donor, STF Bunny 004Y. You will find that J272 is extra powerful, both up high and through her lower quarter, her feet and legs are shaped with more circumference then you will find with a majority of Simmental cattle. Combine these traits with her balance and eye appealing outline and we become envious of the generating potential that the new owner of J272 will get to unlock.

W/C FORT KNOX 609F - SIRE OF LOT 1012 - 1013

LOT 1014 - BFJV BANKROLL'S ARIEL J166

A bold, stout, and hairy heifer calf prospect that combines members of influence in W/C Bankroll 811D and the SDK Ariel donor. Ariel is a direct daughter of WLK BPF Banshee, the Built Right son back on the big time producer and American Royal Supreme Female, Anita Loan. Not only is the pedigree geared for raising the right kind, phenotypically J166 is overly eye appealing to put it politely.

SKD ARIEL - DAM OF LOTS 1014-1015

LOT 1015 - BFJV BANKROLL'S ARIEL J175

Just like big sister, J175 has been blessed with the extra good looks, fuzzy hair type and big rib shape, however both come by it honestly with the support of their dam in the SDK Ariel donor. Once the showing days are over for J175, the potential to generate is exponential, the extra shot of Simmental blood in her pedigree adds greater mating flexibility too.

MR HOC Broker is a once in a lifetime type of sire, he is often referred to as the best phenotypic bull that many cattlemen and women have ever seen. He came into the Simmental business and in one generation his influence was felt breed wide, J221 is a direct daughter of the legend himself. With a build like this one it's easy to see why his influence has been so highly regarded, the cattle are wide, heavy structured, awesome looking and are built for the long haul.

LOT 1041 - BFJV MS BANKROLL J164

An intriguing prospect lays within this percentage female, if her wild markings aren't enough to catch your attention then her awesome looks should do the job. Extra skinny necked and tight throated, with an extra large set of legs. That added stoutness could come from the shot of Maine that is on the bottom side of this ones pedigree. This one could go either way when she enters production, breed her back Simmental or try club calf, we can foresee reward in either scenario.

A longer spined, half-blood that is unique about the way she blends a smooth and muscle pattern into a wide rib cage and center third. Check out the running gears that the foundation is built upon, we cannot preach enough as to how much we like this W/C Bankroll 811D mating on our Angus based females.

LOT 1045 - BFJV MS BANKROLL J114

A super unique Purebred Simmental, and the term unique can be used for many more traits than just this one's color pattern. Super square hipped, extra stout legged, pretty headed and traces back on the maternal side to a Profit x SVF Steel Force S701 daughter named BF Miss Crysteel Tango, an individual that needs no introduction to the Simmental business. This one is bred in the purple.

LOT 1046 - BFJV MS BANKROLL J059

If you are looking for a female that has a big time future once you hang the leather halter up, then seek this one out on November 15. A 3/4 quarter blood female that has a unique set of features, the kind that will raise some awesome Purebreds if you choose to breed her that way, this one has the structural correctness that will pass on to the next generation. Turn back a couple of pages to the Simmental cow offering and find the beast of a cow that raised this one, you won't need any more convincing.

LOT 1156 - BFJV MS WHISKEY J397

Perhaps we are wrong but there aren't too many other opportunities these days to get in at the ground level of a young Irish Whiskey donor prospect, and the perfect baldy face of this one only adds value. This one is younger than many of the other females in this offering, but her added big features and awesome pedigree more than make up for what she lacks in days of age. This ones build will work for either show steer or heifer production, she is versatile and will raise the right kind.

AND DAM OF LOT 1156

LOT 1157 - BFJV MS MARGIN J071

Big time cow prospect here, lots of substance and density, along with a pedigree that leaves the mating opportunities fairly wide open. As this one continues to develop, she only further continues to impress, she's the right kind for many operations and we all know that longevity drives profit long term, this one hits us as the profit making type.

LOT 1158 - BFJV MS MARGIN J226

A quarter blood Simmental daughter that is super big bodied and sappy bellied, her maternal outlook has us predicting her influence in production could be very potent. BJFV Margin D9040 has left us with an awesome set of replacements, they are consistently big bodied and cowler than some of their contemporaries.

LOT 1159 - BFJV MS MARGIN J328

These Margin daughters are an impressive group, he is a double clean Irish Whiskey son that we raised and sold to Tyler Loudon, his maternal power comes from a past HCC Lot 1 and \$70,000 MR HOC Broker daughter. Following in his trend J328 has an awesome side profile, good hair type and correct set of feet and legs.

LOT 1197 - BFJV QUEENIES INSIGHT J025

A purebred Angus female that we see being a big-time generator for her new home. You can ask many Cattlemen about the reputation that these PVF Insight 0129 daughters are blazing and you will find the same answer, these females just flat work, regardless of the production goals. The breeding opportunities for J025 are endless, you can breed her for purebred production or use her base to create high quality percentage cattle, either way the return on investment could be rapid here.

SIRE OF LOTS 1198 - 1199

LOT 1199 - BFJV LADY LUT 2 J192

These Plainview Lutton x Forever Lady Daughters offer a big-time opportunity for their new owners, backed by generations of the Angus breeds most consistent generators, you can only expect the same out of these sisters. J192 is extra square in her build, with a long skinny neck and flawless structure, the building blocks required to raise big time show cattle after her show career is complete, regardless of the way you breed her we think she will raise the right kind.

High quality, production focused purebred Angus genetics here, if you like the security of knowing that you will have a big, broody cow as the result of your purchase then pay attention here. There is no fluff and puff with J333, she is extra cowy and functional, and with the backing of an impressive Bear Mountain purchase you can trust her best days will be after she leaves the breeding box.

LOT 1203 - BFJV MISS MAB J163

The daughters of Man Among Boys have hit their prime production years and have proven that perhaps we were wrong early on about him, his true value may just exist with his daughters! With that being said, there may be even more emphasis on the ability of his daughters to make those Hereford marked ones that always attract a big crowd to the sale pen. The added feature of J163 and the stout pieces she puts together tell us she has high probability of raising big dollar show cattle.

LOT 1213 - BFJV MISS WHITEWOOD J267

A Composite daughter of the Griswold sire in White Wood, the awfully impressive Turton son that continues to see use in Purebred herds because of the added power, and back shape that his progeny bring to the table. She has the long neck, correct bone structure and hip shape to become the base of a steer raising cow family.

WHITEWOOD - SIRE OF LOT 1213

LOT 1214 - BFJV MISS SMOKER J364

We see a lot of quality in this smoky, steer raising prospect. It's fun to raise this kind, she is extra powerful about her pin set, and the power stays true all the way along her spine. Her extra muscle shape has done nothing to impede her structural integrity, as she motors with confidence when set into motion. We really like what we have seen from our Holy Smoker progeny, we think the best is yet to come here.
