ENTHUSIASTS

Welcome to the first ever Fall Bull and Female Event at Smoky Y Ranch. For those that have been with us over the past years in April for the spring edition, you should expect the same great product with the same great customer service. The bulls in this offering will be age advantaged 16 to 18 months old and older with the market targeted primarily to fall calving operations, but for those with Spring herds this sale gives you the opportunity to tie into older bulls for spring turn out as well.

The added feature to this offering will be the elite offering of top end registered females as well as some of the best drafts of commercial Smoky Y influenced open and bred females from some of their most progressive minded bull customers. The registered open show heifer / donor prospects are a direct cut off the top. They intend to capture junior and breeder interest alike with incentive programs in the future. These cattle have been proven to be very high quality and competitive at a very high level with the 2020 Reserve Champion Female at the National Western Stock Show and most recently Champion Female at the Kentucky State Fair of 2021. That's a solid track record on a limited number of opens ever leaving the ranch. This female offering also includes an opportunity to tie into some of the best donors from the Y along with frozen genetics that are the same matings that they have placed themselves in their ET program.

The bulls in the offering a direct result of the growth and expansion that this program has had over the past few years. The cow base at Smoky Y has grown to well over 2000 head in number between the registered and commercial females in production. This number will continue to increase as the land base allows for it. Simply put, the Younkin family and this program are not going anywhere. In fact, it's just getting started and they intend to earn your business and friendship at every level. Cody and Kelly are very aggressive and forward thinking and with their competitive nature they intend to be the best and provide the best. This fall offering of seedstock, and commercially minded bulls will continue to grow and so will the customer service and marketing ventures offered for your commercial females and feeder cattle.

It's indeed a privilege to invite you to join us for an evening event on November 8, 2021, at the Smoky Y Sale Facility. Come early to evaluate the offering and bring your appetite as dinner will be served. Please contact any of the Innovation team if you should have any questions. We look forward to seeing you.

TERMS & CONDITIONS

All bulls sell under the suggested terms and conditions set forth by the Red Angus Association of America. All announcements from the sale block take precedence over any printed material.

BULLS SELLING

Smoky Y Ranch is retaining one-third semen interest on all bulls sold unless specified differently in the sale catalog. This gives Smoky Y Ranch the option to collect, use and market semen from the bull at thier expense and at the buyers convenience.

LIABILITY

All persons attending the sale do so at their own risk. Neither Smoky Y Ranch, nor any other person connected with the management of the sale, assumes any liability, legal or otherwise.

GUARANTEE

All bulls have passed a breeding soundness exam and are guaranteed to be breeders. Each animal becomes risk of buyer as soon as sold. All bulls selling for \$4000 or more are guaranteed against breeding injury for the first breeding season. A breeding season is defined as 90 days after turn out. Breeding injury is defined as an injury to penis or preputial tear with inability to extend. This is not an insurance policy. This guarantee does not cover non-breeding injury resulting rom a accident or gross negligence. If any breeding injury occurs contact Smoky Y Ranch or Dr. Miller, or have your veterinarian contact Dr. Miller. If a replacement bull is available he will be provided, or if the buyer prefers, 1/2 of the purchase price value will be applied toward another bull in the next sale. Buyer keeps salvage value. Notification must be made prior to or during the first breeding season.

DELIVERY

Free delivery within a 400-mile radius of the ranch or a central location. We will assist with trucking arrangements on any purchases outside of the area. Any delivery over 400 miles will be discussed and pro-rated with the customer.

HERD HEALTH

All calves have been PI tested. All bulls in the sale will have been semen checked and passed a fertility and soundness exam. Health certificates can be issued on any animal in the sale, making them eligible for interstate shipment. The bulls and females in the sale have been pre-weaned and weaning vaccinated for respiratory disease. They have been poured, dewormed and ear notch tested for BVD. All females have been palpated and pelvic measured. All beifers are guaranteed open and have been tested for BVD and calfhood vaccinated.

BREEDING SOUNDNESS EXAMINATION

Performed by Dr. Miller, 620.874.5169.

ULTRASOUND DATA

Performed by David Aborn, 417.861.8407.

SPECIAL THANKS

We would like to thank our nutritionist, Dennis Holthaus, our veterinarian, Dr. Miller, our ultrasound technician, David Aborn. Thank you to our family and friends who help us prepare for the sale. Our event would not be possible without their hard work!

The BULLS

LOT 1

Our leadoff son of Smoky Y Shamrock 6102D, the PIE One Of A Kind 352 son that we retained and have been using in herd. Following in the footsteps of his paternal ancestors, SYR Shamrock 69H is big and burly, and his mother is a standout daughter of Six Mile Fast Lane 525A that we purchased out of Canada. We have stacked the good stuff together here.

DAMAR Next D852
Sire of LOT 3

SY Next 44H is a son of the calving ease specialist, Damar Next D852 affectionally known as “Lexus”. An impressive animal in the flesh, 44H is big backed, and powerful, and there are members on both sides of his pedigree that suggest he will generate the type of females that will be retained in herd for years to come. The PIE One Of A Kind 352 daughter that raised 44H is a testament as to why the hype around this sire is so appropriate. Pay attention to the impressive data profile that comes with 44H, his ability to add payweight to your calf crop will be potent and quick, couple that with the addition of carcass yield and ribeye and here we have a true beef bull breeding prospect.

LOT 10

SYR Fusion 25H leads off the set of extra rugged and mature, age advantage herd sire prospects that we will sell on November 8th. The Andras Fusion R236 cattle have proven their worth on either side of one's pedigree, they are reliable from the ground up and the heritability of longevity and performance in their progeny is high. The balanced set of EPD's that accompany 25H only go to compliment his stout and shapely phenotype.

LOT 16

We continue to utilize the Damar Trump C512 influence throughout the cowherd, his progeny are renowned for bringing extra substance and density to their calf crops in the first generation whilst still being a great calving ease option. You will notice the Rojas Navarrea 6054 matron on the paternal side of Trump 104H, she is one of the most impressive Red Angus females you will ever see. We think the set of replacements that could be generated through the service of 104H would be great additions to any cowherd.

ROJAS Navarre 6054

SLGN Wideload 920W
Sire of LOT 17

If you share the opinion of many, and believe that length of body ultimately equates to payweight then SY Wideload 139H comes to you as a strong candidate for appraisal. The sole Wideload 920W son in our offering, but nationwide his progeny have been aggressively sort out because of the balanced birthweight they bring, those figures are only outshadowed by the impressive growth data they are generating.

*AHL Flashback 446B
Paternal Grand sire of LOTS 18-25*

SY Bricklayer 112H is a sale stand out, check out the huge growth figures that accompany this son of our Smoky Y Bricklayer 7302 herd sire. You will also notice the inclusion of our patriarchal sire AHL Flashback 446B, in the pedigree of 112H, he is a monumental member of the sire battery here at the Smoky Y Ranch. Phenotypically he is deep bodied and masculine, with a big set of feet and legs that will help him to cover cows out in big country. At weaning time 112H was ahead of the pack, he ratioed a 112 and ever since has continued to increase this gap. A top 2% Weaning, top 3% Yearling, top 6% Average Daily Gain and top 14% Carcass Weight help support the case of this big time performance bull.

LOT 25

SY Regulator 108H rounds out this impressive set of Regulator 7301 sons we will offer on November 8th. He is the most moderate in terms of birthweight of the brothers, and then compliments this with a 103 weaning ratio and sits within the top 25% of the breed for Weaning Weight. He is an earlier maturing bull that is ready to be grouped up with a fine set of ladies.

LOT 26

SYR Detour 45H is an absolute stand out phenotypically, we love the proud look he gives from the side, he is masculine about his head and neck, wide and shapely from behind and has the dark cherry red pigment that we deem desirable. The pedigree of 45H leaves nothing further to be desired, A Detour 3003A descendant back on a AHL Flashback 446B daughter, so you can trust the female progeny will be the kind you want to retain. Do not worry about having to make any sacrifices in terms of performance either, 45H ranks in the top quarter of the breed for Weaning Weight.

The Lakota tribe of females is one that we look forward to propagating here in Oakley, they are balanced on paper, but it's the cow power and longevity of these females that makes them so desirable to us. Good and square feet, great udder quality and easy fleshing ability means these cattle work in our country.

A very dimensional Six Mile Rusty 230G daughter that sits in the upper echelon of the breed for traits that we take seriously here at Smoky Y Ranch, Stayability, and Maintenance Energy, therefore she is also in the top 4% of the entire Red Angus breed for the HerdBuilder index. Couple these traits with her intriguing and powerful design and we like the chances this one has to raise both bulls and females for her new owners.

SMOKY Y Emuly 1921G
 Daughter of LOT 115

Smoky Y Emuly 1442B is a top producer here in Oakley, she has consistently generated females that have been in strong demand, in fact she even has an open heifer calf in this offering - Smoky Y Emuly J4, she is one of the exciting pair of NCJ Coming In Hot 24E daughters. A cow that when you see her in the flesh, you'll probably debate the age of, we have pinpointed her as the design and build that be need to continue propagating, and she proves validity to the top 10% HerdBuilder index and top 17% Stayability EPD that accompanies her profile. 1442B is the dam of Smoky Y Emuly 1921G, a featured female in our 2020 Production Sale that sold for \$6,000 to Stratten McKenna of Norton, Kansas. The right to flush 1442B gives you the opportunity to fast track your program, use the sire of your choice, and have the opportunity to add your prefix to the calf crop of one of the most exciting Red Angus females running the hills of Logan County.

Estimated Due 1/7/22. Conventional Flush or IVF Procedure to be done 45-60 days following calving. Offering the right to Flush Smoky Y Emuly 1442B to the sire of your choice. Guaranteeing 6 transferrable embryos with an open top. Conventional Flush or IVF procedure to be done no sooner than 45 days post calving. If the buyer wishes to flush 1442B to a herd sire owned by Smoky Y Ranch, semen will be provided at no additional cost. For further details about this opportunity please contact any member of the Innovation AgMarketing, LLC team or Smoky Y Ranch.

If you have interest in the flush of Emuly 1442B but would prefer to purchase a live animal then we may just have the ticket. Red Windy Hill Emuly 1278Z is the matron that stands behind the Red SSS Traverse 387Z donor female, in fact she's never skipped a beat during her tenure here at the Smoky Y Ranch. We have focused on improving longevity in the cowherd through foot structure, udder quality and easy fleshing ability, and in doing so we have many females in the herd with the experience of 1278Z that are still big-time producers! 1278Z is a powerful female that is the dam of 7140E, who sold as lot 23 in our 2018

sale. In 2020 she produced Smoky Y Assassin 9155G, the \$5,000 purchase of Brent Bertrand of Wallace, Kansas. In 2021 she produced SYR PTO 80H, the \$6,000 purchase of Tanner Kinen. Consistency is key and we firmly believe in this female's unwavering ability.

We have decided to offer some prime of production age females as to provide our customers the same opportunities that these cows have given our program. By no means is this a way to disperse cows that have not produced for us, or have problems and we are just trying to pass them along, these are cows that consistently put progeny in the sale or replacement pen. Smoky Y Duchess 1503C is a beautiful outlined daughter of the female maker Red SSS Traverse 387Z that we can only offer for sale because of the three daughters we have

retained in herd, now is your opportunity to reap the rewards. This past year she produced Smoky Y Duchess 2082H, the 2021 KY Beef Expo and 2021 KY State Fair Grand Champion Red Angus Female for the Hopper family. The chances of gaining a new member of the cowherd is strong when 1503C calves to AHL Flashback 446B this coming January.

The EMBRYO

OFFERING FROM THE HEART OF THE SMOKY Y ET PROGRAM

150A 5 RED U-2 RENOWN 193C (2585133) X WINDY HILL MS DREAM 1226Z (1722588)

150B 5 BIEBER HARD DRIVE Y120 (1436718) X WINDY HILL MS DREAM 1226Z (1722588)

SMOKY Y Gisele 1900G
Daughter of Windy Hill Ms Dream 1226Z

Bieber Hard Drive Y120
Sire of LOT 150B

The Windy Hill Ms Dream 1226Z female has brought as much attention to the Smoky Y program as any, her progeny have always stood out from the crowd because of their flawless design. The females that she has raised to this point are so eloquent and different, and 1226Z has proven that she deserves her nomination to the donor pen with her 2019 daughter by Red U-2 Renown 193C that was the selection of Hadley Hartman and the Buchholz Family. Smoky Y Gisele 1900G went on to be slapped Reserve Champion Red Angus Female at the 2020 National Western Stock Show as a calf, a huge feat. The Lot A package of embryos offer you the opportunity to create full sibs to the talk of the barn at the 2020 NWSS, a female that we look forward to bearing a lot about as she enters production. The Lot B embryos are sired by the highly sought after and near impossible to get Bieber Hard Drive Y120, we think the prospect of this mating could unleash an unmatched potential on 1226Z. With each set of five (5) embryos we will guarantee the purchaser two (2) sixty day pregnancies if they are implanted by a certified embryo technician.

151 5 SIX MILE JOHN WICK 882E (3786643) X COCKBURN CORA 254Z (4024620)

Six Mile John Wick 882E
Sire of LOT 151

Cockburn Assassin 624D
\$77,500 High Selling son of Donor

RED Wilbur Cora 443P
Maternal Grand Dam of Donor

Cockburn Cora 254Z has established herself as one of the most accomplished Red Angus females in North America. She stems from the Cora family that has been one of the constant creators of breed improvement. It is no surprise that her influence is so potent, she is a maternal sister to Ribeye 308U, and many sisters remain in the heart of the herd at the Cockburn Ranch. Red Cockburn Assassin 624D, is a direct son of Cora 254Z, he was a high-selling bull going to Brylor Ranch for \$77,500. This new mating on 254Z could be absolutely lights out, the \$114,000 valued, Six Mile John Wick 882E has quickly lived up to the hype that surrounds him with high sellers across North America, his semen is indefinitely unavailable so an opportunity such as this will be hard to replicate again. With each set of five (5) embryos we will guarantee the purchaser two (2) sixty day pregnancies if they are implanted by a certified embryo technician.

152A 5 AHL FLASHBACK 446B (1667094) X A-1 SIERA INDEED 549X (1369549)

152B 5 BAR-E-L CONCEPT 49C (3488670) X A-1 SIERA INDEED 549X (1369549)

AHL Flashback 446B
Sire of LOT 152A

A-1 Sierra Indeed 549X
Donor Dam of LOT 152A and LOT 152B

A-1 Siera Indeed 549X was a featured female in the historic Wildcat Creek Ranch Dispersal, we have never for a moment regretted the investment we made that day, she is a maternal sister to the Red Six Mile Sakie 832S bull that during his time was the most utilized Red Angus bull in the breed and for good reason. Siera consistently makes them dense, big bodied, super functional and regardless of sex they quickly elevate themselves to the forefront of a calf crop. She has over 65 head of progeny registered in the Red Angus Association of America's database, many of which are employed within either our cowherd or others on prominence. The Lot A package combines two of our herds most influential individuals, the combination of AHL Flashback 446B and Siera is tried and true, we have an awesome set of young cows that will set the foundations for our Spring and Fall sales in the years to come. The Lot B embryos are out of a Canadian bull purchase, BAR-E-L Concept 49C a high performing, and growth driven son of U-2 Justified 235Z. With each set of five (5) embryos we will guarantee the purchaser two (2) sixty day pregnancies if they are implanted by a certified embryo technician.

The SEMEN

OFFERING FROM THE HEART OF THE SMOKY Y BULL BATTERY

I53 30 UNITS WEBR DECLARE 59H (4302161)

Our choice from the 2021 Weber Land & Cattle record setting bull sale. Declare combines the rugged, masculine, fault free phenotype that we all can appreciate, with the extra credentials that set him into a league of his own. Declare sets the bar high when it comes to his performance and ultrasound data, boasting a BW Ratio at 99, with a WW Ratio at 109, a YW Ratio at 111, an IMF Ratio at 125, and a REA Ratio at 107. Numerically he ranks top 6% WW, top 3% YW, top 1% ADG, top 15% CEM, top 10% Marb, top 5% CW, top 23% REA, and top 4% GM. Declare is backed by a dark cherry red daughter of WEBR TC Card Shark 1015. 59H is a truly unique breeding piece that will experience heavy use in our program and the Weber Land & Cattle program.

WEBR Declare 59H

I54 30 UNITS AHL FLASHBACK 446B (1667094)

Flashback was the \$105,000 stud that topped the Western Heritage sale at the National Western Stock Show. Flashback was our selection from the Englewood farms dispersal sale a few years back and we could not be more thrilled with the progeny that he has sired. Flashback is sired by the breed-leading Firestorm and backed by the PIE Get Western daughter that is known as Duchess 42W. Flashback daughters are among the most elite replacement females we have ever sorted back for our program and we anxiously await them entering production. One of the top sons ever born on the ranch is Cast Iron, another sire that will continue to see heavy use. Flashback has been used by top breeders across the United States with exceptional results!

AHL Flashback 446B

I55 30_{UNITS} RED WHEEL STARK 67G (4409819)

The newest but perhaps most anticipated member of the bull battery, we gained an interest in Stark 67G because of the extreme outcross he brings to not just our cowherd but many Red Angus herds. Additionally the buzz around the progeny he is propagating north of the boarder is surreal, we look forward to the extreme body shape, performance, maturity and carcass that he is supplying in the first generation. We turned to Wheel Stark 67G hard at the breeding box this breeding season and we eagerly await the results, we do not plan to sell very much of this semen so take advantage of the opportunity while it exists.

RED Wheel Stark 67G

I56 50_{UNITS} PZC TMAS RED SKY 2794 (1568472)

Red Sky is the flush mare brother to Red Zone that we selected from the Thomas Ranch Annual Bull Sale in Harold, South Dakota. Red Sky is without a doubt one of the most dominant producers that we have ever used in our program. His sons topped previous sales and continue to be a hot commodity on sale day. The daughters are without a doubt the most valuable asset that Red Sky possesses. In production it seems that the stoutest, heaviest, and highest quality calves each year are backed by a Red Sky daughter! Red Sky continues to walk the pastures of North Western Kansas and services cows naturally during the spring and fall breeding seasons.

PZC TMAS Red Sky 2794

I57 50_{UNITS} PZC TMAS RED ZONE 2795 (1568475)

Red Zone is a flush mate brother to Red Sky that is now deceased. Sired by Firestorm and backed by the great Whitestone Lana donor. He was our pick of the bulls that were on "the hill" at the National Western Stock Show in 2014. He was tremendous in terms of his foot size, stoutness, and muscle shape. A dark red herd sire that transmits exceptional stoutness and eye-appeal into his progeny. The Red Zone daughters are making tremendous producers in the pasture. Red Zone was purchased by Blairs.Ag and was used extensively in their progressive program in Saskatchewan, Canada.

PZC TMAS Red Zone 2795

Commercial FEMALES

200 20 COMMERCIAL FEMALES

DANNY GEORGE, MIKE AND AARON RACCETTE // OAKLEY, KS

A set of very loyal customers that have reaped the rewards of sticking to their guns and sourcing the best genetics they can find. They invest in the future of their program with bulls that come off the top end of our bull offering. These cattlemen do a lot of homework before the sale and it shows because they flat find the best ones. This exceptional set of red hided bred females are progeny of past Smoky Y bull purchases and are preg checked in calf back to featured Smoky Y bulls that have proven their calving ease over several different breeding seasons. The fancy set of open heifers would make an excellent group to breed on for an extended tenure in the cowherd, this group is not just gate cut, they were hand selected from the top of the replacement pen. This family partnership has opened the gates and assembled a group right from the cream of their replacement and bred heifer pens, take note of this monumental opportunity.

Shot record for the open heifers:

1st round: Cattlemaster 5, Calvery 9, Endovac-beef

2nd round: Pyramid 5 with Presponse SQ, Vision 7 with Spur

20 Red-Hided Bred Heifers due between 2.12.2022 and 4.14.2022

201 20 COMMERCIAL FEMALES

LEVI TROPF // WALLACE, KS

The offering of bred heifers that Levi has assembled are super complete, very sound and have the build that we deem ideal for the commercial setting. Levi is a young, determined and intelligent cattleman and this group of red hided commercial bred heifers are a glimpse of what he is building in Wallace, Kansas. We are excited to have the Tropf operation involved with the Smoky Y Ranch and we look forward to working with them into the future as they continue to develop their cowherd with top quality red genetics.

20 Red-Hided, Bred Heifers due between 2.15.2022 and 4.1.2022

Exposed to CRS Diamnd Cliffhanger 8028, RAAA 4038282

202 25 COMMERCIAL FEMALES

CHAD GRIFFITH // SCOTT CITY, KS

The heritage of the Griffith family is deeply embedded within the cattle business, Chad's knowledge and foundation comes from the time spent with his father, Charles Griffith, and through their thoughtful breeding decisions over many years they have developed a very unique and high-quality cowherd. This group of bred heifers have been developed through the use of the Smoky Y genetic influence and through a low maintenance conditioning program they are set to perform in any environment they are made to work in.

25 Black-Hided Bred Heifers due between 3.11.2022 and 4.26.2022

Exposed to: Smoky Y Atomic 40H (RAAA 4388365), Smoky Y Nebula 9217G (RAAA 4220574) and Smoky Y Detour 9121G (RAAA 4220612)

SMOKY Y Atomic 40H

203 10 COMMERCIAL FEMALES

TERRY OSTMEYER // GRINNELL, KS

The Ostmeyer Family have been great supporters of the Smoky Y program for quite some time now. They are great cattlemen and the health of their cattle is always the number one priority on their ranch, in saying this you can trust the vaccination and health protocols that support these cattle is extensive. This honest & hard-working family employee a strict culling protocol and these groups of females come from the cream of their replacement females. The dams to both the bred and open heifers are decedents from bulls that they sat in the stands here at Smoky Y Ranch to purchase.

Shot Record for the bred heifers:

Received Express 5VL5 and long range this spring and on 10.21.2021, as well as Guardian and Ultraboss.

Shot Record for the open heifers:

5 Black & Red, White Face Open Heifers

204 8 COMMERCIAL FEMALES

MATT MILDENBERGER // OAKLEY, KS

The Mildenberger family is offering 8 prime, running age bred cows that originated from the heart of our commercial herd here at the Smoky Y Ranch. The Mildenberger family run an aggressive, hardworking operation and over the past decade have made a commitment to quality, in doing so they have created a phenomenal cow herd. We are proud to work with this operation and we feel like we share their visions for the commercial beef business, we thank them for their investment in our genetics and look forward to working with them for a long time to come. A great group of young cows that will wean heavy calves, and be a great addition to any operation.
