VOL. II

*Event*

YALE, OKLAHOMA

*Congratulations Collum Family!*  
**SUPREME CHAMPION FEMALE**  
2021 TULSA STATE FAIR OPEN AND JUNIOR HEIFER SHOWS

On behalf of all of us at Buck Creek Ranch we want to welcome you to our second annual "Grand Event". We have worked diligently to bring our best for your appraisal once again. We strive every single day to do better than we did the day before and we feel this set of cattle shows that.

Our BCR team is led by Garrett Cloud who is a vital part in our success; along with Bodie, Roxie, and Tyler. Together they keep the wheels turning around the ranch and we are extremely proud of the efforts they have put in to bring this set to you.

However, none of this would be possible without your support. We personally want to thank you for your time and consideration in viewing our cattle. Hopefully you find the cattle that best suit the goals you have established for your own operation. Feel free to contact us with any questions. We look forward to seeing you in Yale on the 17th of December!

Respectfully,  
*Jacob Moore*

What a pleasure it is to welcome you all to the annual Buck Creek Ranch Production Sale known as the "Grand Event" Volume II. Jacob Moore and his family were diligent, methodical students in the acquisition stages of their program and have continued the growth and expansion of the Buck Creek Ranch breeding program with the same approach.

Buck Creek has been extremely aggressive multiplying the success of elite individuals that are representatives from the most relevant and prolific cow families in the industry. As you navigate the pages of this sale book, you will take notice of the physical quality and the genetic advantage of this entire set of open and bred females. To say that the cattle being offered are "bred in the purple" would be a vast understatement. The open division is saturated with quality and consistency. The bred cattle are carrying the service of those sires familiar with being at the backdrop themselves or for sure producing the kind that gather the purple. The guess work has been removed in this offering as the heifer calves come with the needed maturity for one to project undoubtedly the future of each one and the same could be said for the bred division as well with most of them calving just around the corner. Rest assured, that you have the opportunity to tie into an elite set of stock with as much proven genetic merit as one can find anywhere in the breed.

The success of Buck Creek Ranch can be credited to the unwavering efforts and commitment that the team behind the brand repeatedly put forth. Jacob Moore and his family continue to manage the day-to-day operations of the Indiana division of Buck Creek Ranch, while Garrett Cloud and his fiancé Roxie Newell lead the charge in Yale, Oklahoma. Over the past year the cattle that sold through the Grand Event Vol. I have gone onto experience tremendous success for the new ownership. A true highlight from the 2020 marketing event was the half-blood Simmental female, B C R Serenity Now 052H, selected by the Collum family of Perkins, Oklahoma. She was selected as the 2021 Tulsa State Fair Supreme Champion Breeding Heifer Overall Breeds in both the Junior and Open show. Another open female that sold to Carter Hoge of Illinois was selected as the 2021 Cattlemen's Congress Division I Champion Purebred Female. These few mentions do not even begin to scratch the surface when it comes to success stories that the initial offering of the "Grand Event" have had. The next chapters will come when those females enter the production phase of their life.

The victories along the way are simply the icing on the cake for Buck Creek Ranch. It is the challenge and forethought that goes into the forward progression of a breeding program that Jacob and Garrett remained focused on. There is no question that Buck Creek Ranch approaches the business with an innovative mindset in the quest for constant improvement.

Please make plans to spend your pre-Christmas weekend with all of the cattle enthusiasts in the destination Stillwater area. The Moore and Buck Creek Family, as well as their talented staff welcome each of you to this second annual event at the ranch on Friday, December 17, 2021. If you have any questions or would like to stop in before the sale, we encourage you to do so and to reach out to any of the marketing team or Buck Creek staff as well.

Thank you for your interest, Merry Christmas, and may God watch over and bless each of you and your families.

*Graham Blagg*

**ONLINE BIDDING****TERMS AND CONDITIONS**

All lots sell in accordance with the suggested guidelines of the American Simmental Association, American Angus Association, or their respective breed association. For updated EPD's and information please visit [www.simmental.org](http://www.simmental.org). Announcements made sale day from the block during the sale take precedence over printed material in this catalog. Payment will be accepted in the form of cash, cashier's check, or check. All cattle must be paid for prior to release. All funds are to be paid to Innovation AgMarketing, LLC in U.S. currency. No cattle will be transferred, delivered, or released without full payment. In the event you need expedited registration paper transfers please make plans to pay in full on sale day. All sales are final.

**ANNOUNCEMENTS**

A supplement sheet will be available sale day with updated information, corrections and additional information. This sheet and any announcements made sale day and from the auction block during the sale will take precedence over printed material associated with this sale.

**LIABILITY**

Buck Creek Ranch, Innovation AgMarketing, LLC, and authorized sale personnel assume NO liability for injury, accident, or damage to persons or personal property. All persons who attend the sale do so at their own risk.

**RETAINED FLUSHES**

Buck Creek Ranch reserves the rights to (2) two successful flushes on each open show heifer/donor prospect in the sale at the expense of the seller and convenience of the buyer.

# The Grand Offering

FEATURING AN ELITE GROUP OF SIMMENTAL AND SIMANGUS™ OPEN SHOW/DONOR PROSPECTS, ALONG WITH THE INFLUENCE OF...

*The great  
Miss Time To Shine Y251...*

*and her most prolific daughter,  
CMFM Time to Shine 99D!*

*Lot 1* B C R MISS TIME TO SHINE 081J

We are excited to showcase the most diverse and high-quality group of open heifer calves we have ever raised; we could not have come up with a more appropriate spot to start this book than B C R Miss Time To Shine 081J. A direct daughter of WLE Copacetic E02 and a Purebred that is unconventional in her muscle pattern and structural design, by doing homework into her pedigree it will garner results lined with only the most potent individuals in the Simmental breed. Miss Time To Shine Y251 was the leading star of our donor pen prior to highlighting the Grand Event last Fall and continues to amass the stranglehold of her progeny's dominance on the high sellers and banner winning list, this combination with an individual who is mirroring that dominance on the paternal side has proven to be the most exciting yet. If your serious about investing into a cow family that consistently generates the most desirable kind then serious consideration is due with 081J. **Terms announced sale day. Entered in OKC Cattlemen's Congress**

**MISS TIME TO SHINE Y251** *Matriarch Donor Dam*

*Lot 2A* B C R MISS TIME TO SHINE J096

Regardless of the hide color of B C R Miss Time To Shine J096 this one is special, so with that in mind we think her esteem is only elevated by the fact she is solid red hided and of Purebred status. This may be the maiden breeding season for JSUL Something About Mary 8421, however we look forward to keeping him a mainstay in our breeding program. When you stack a pedigree with as much maternal power and phenotype like we have here, it can be difficult to trace back where the quality is exactly coming from, however here is one that stands up to the hype of the ancestry. A massive set of running gear, eloquent front third design and a May birth date are all just extra qualities that deem this one a sale highlight. **Entered in OKC Cattlemen's Congress**

**B C R TIME TO SHINE 182G** Maternal Sister to Lots 1, 2A, & 2B

*Lot 2B* B C R MISS TIME TO SHINE J074

If you have followed our program the Miss Time To Shine Y251 female should be no stranger, we have built this program around her potency and will forever be indebted to the legacy she has built within our cowherd. B C R Miss Time To Shine J074 is the baldy faced, direct Y251 daughter that is extra massive and bold in her makeup, we love how big bodied she is whilst remaining long and square in her outline. Her sire JSUL Something About Mary 8251, has created quite the stir within the breed in his rookie season, with individual progeny already cracking the six-figure dollar mark, and early campaigns on the tanbark resulting in purple. If your search is seeking a female that can hang wall accessories whilst becoming a revenue generator when it's her time at the breeding box then this would be a logical place to start, her pedigree is spangled with notable individuals, so we like her chances to produce.

*Lot 3* B C R TIME TO SHINE 311J

A direct daughter of JSUL Something About Mary 8251 and out of our lead daughter of Y251, CMFM Time To Shine 99D, making her a Purebred that has the extra structure and body shape, unique traits when compared to much of the contemporary group in the breed. This one does the basics perfectly but brings the added presence that is needed to be set apart, check out her high ear set, refined facial features and smooth tailhead set. Set her in motion and is will only add more ticks beside her name, we are excited to see what fun she can make for her new owners this upcoming show season.

Lot 4 B C R TIME TO SHINE 065J

Undoubted donor candidate here, 065J is the extra cowy, maternally powered daughter of B C R Perfect Vision, she is the only open heifer calf sired by him in this offering, and that's not because his progeny didn't make the cut, but because we have kept the rest of her siblings to build our cowherd around. She is so big middled, flexible at the ground and has the added performance that makes her the kind that will work in the real world beyond her days at the end of a halter. Her donor dam is streaking her way towards stardom, it was only inevitable because of the lineage she stems from, crossing the legendary HPF Quantum Leap Z952 and Miss Time To Shine Y251. 065J is sired by B C R Perfect Vision, the multiple time Champion that has quickly proven himself as a logical choice to add style, structural integrity, and presence to the genetic equation. We are excited to offer a full sister ET pregnancy to the stunning 065J female. . . help yourself to the genetic consistency that this mating will yield!

Lot 5 B C R TIME TO SHINE 314J

B C R Time To Shine 314J is a standout in this offering, the Berwick cattle have been well received, but here at Buck Creek this might be our favorite one to date. This March Purebred is so long necked, massive sided, rugged boned and angular, she has been high on the list of favorites from day one. She is solid black hided, soft haired and chiseled jawed, and carrying the most infamous family name to ever come out of our program, we don't know what else we could do to impress you than sorting this one to the sale pen, this is some of the best we can offer in terms of pedigree and phenotype.

A pair of half blood sisters that both offer big time quality yet give you choices of phenotypic traits that you can tie to depending on your personal preference. If you place added emphasis on showing the type that are impressively feminine and maternally built than the older 503J female would be your choice, she has the massive swooping underline that is deemed desirable, with a soft hair coat and square framework. If you like a splash of chrome and the unteachable presence that sets one apart then pay closer attention to the 505J female, she is one that takes quality to another level and hits us with a big-league show heifer look. Sure, there might be some differences between the two but when it comes to searching for a common denominator its built by the necessities of structural excellence and pedigree. These daughters of Silveiras Style 9303 and the CMFM Time To Shine 99D donor are prime examples of what we set out to produce at Buck Creek Ranch and are proud to stand behind them. **Entered in OKC Cattlemen's Congress**

12.5	0.2	67.5	99.2	17.4	129	73.2

A brood cow prospect that packs an extra punch, particularly for a half blood female, this is one massive bodied specimen. Not only does she have the phenotype for success she carries potency in the blood with both sides of her pedigree representing some of the leading members of influence in their respective breeds. The Angus sire, Silveiras Style 9303 needs no introduction to the seedstock business, as his progeny have hung as many purple banners as any sire group in existence to date, regardless of breed composition he has achieved it. On the bottom side of this one's pedigree, you will find the Time To Shine 99D donor, our leading lady. Come early February she will calve with a three quarter blood return on investment sired by THSF Lover Boy B33, that prospective calf could pay for her mother tenfold. *AI BRED ON 5/2/21 TO THSF LOVER BOY B33 (ASA: 2983443). PE 5/17/21 TO 7/7/21 TO B C R MR 20-20 160G (ASA: 3737903). LIKELY SAFE AI.*

Lot 6C B C R TIME TO SHINE 312H

Lot 7A B C R TIME TO SHINE 168G

Two direct daughters of the MR CCF 20-20 sire, one that has gained a huge amount of respect from cattlemen around the nation since his passing, several of the businesses most decorated production sales have been highlighted by his progeny. Here in Yale, Oklahoma we share that same respect, the cattle have a refreshing looseness of structure, both at the ground and in their spines, the added presence that is common with his service is resounding and we feel he injects more back and hip shape than many of his contemporaries. Maternally you will find the pin up girl for the Buck Creek Ranch, CMFM Time To Shine 99D, the Quantum Leap x Miss Time To Shine Y251 daughter that will carry our program well into the future. This is about as good as it gets for offering up Purebred donor cow prospects at our house, there will not be too many opportunities to tie into these 20-20 females in the future, his semen is extremely scarce and if found, is not traded very easily, the leg work has been done, take advantage!

12.2	1.5	79.7	112.2	25.3	125.1	80.5

Here is a young and productive daughter of 99D that is sired by the \$205,000 W/C Bankroll 811D. This female offers a pedigree that combines some of the highest dollar generating females in the Simmental breed in 8543U and Y251. A powerhouse bull calf sells at side by our Quantum Leap x Saugahatchee junior herd sire, F304. *Lot 9A: BULL CALF SIRED BY B C R BIG LAR F304. BORN 10/26/21.*

Lot 10 B C R TIME TO SHINE J080

A younger percentage female that was raised by a powerful two-year-old female, B C R Time To Shine 140G. 104G is a full sister to the 2021 Cattlemen's Congress Reserve Grand Champion Purebred Simmental Heifer, B C R Time To Shine 105G. The striking looks of B C R Time To Shine J080 will be what catches your initial attention but upon further inspection you will like the flawless structure and captious middle third that she's built with. We like the prospect of her generating Purebreds in the future as her features will perfectly compliment the added power that the popular sire choices are bringing to the table. The opportunity to purchase a full sib pregnancy to the popular Cattlemen's Congress Champion will also present itself on December 17th in Yale, Oklahoma! **Entered in OKC Cattlemen's Congress**

Lot 12 B C R BUILT TO LOVE 031J

We promise there has never been an animal that has garnered as much attention at the Buck Creek Ranch prior to sale day then B C R Built To Love 031J, a direct daughter of Reckoning 711F and out of the RP/MP Built To Love A021 donor that needs absolutely no introduction to this business. Seldom do individuals come along that are this unique in their build, so genuine in their structural integrity and so seamless about the transitions between their pieces. As you break 031J down it becomes evident, quickly that there is little further to desire, a big circumference of foot and bone meets the earth, with fluid joints and shaggy hide. All built to carry the extra volume and mass that she has matured with. This is one that needs to be inspected in the flesh as she comes with an aura that has been unmatched to this point in our program. One of the most elite Purebred Simmental females to sell in 2021, period.

Terms announced sale day. Entered in OKC Cattlemen's Congress

Lot 13 B C R BUILT TO LOVE 307J

There is only a very short list of females in the breed that can match the accolades linked to RP/MP Built To Love A021, just recently she added Grand Champion Simmental Bull at the North American to that list. Here is a March born daughter that stems to the Perfect Vision stud paternally and has combined the best of both direct members of her pedigree phenotypically. We love the perfect markings, long extended outline and the ideal feet and legs this one presents. **Entered in OKC Cattlemen's Congress**

ROCKING P PRIVATE STOCK H010

2021 NAILE Grand Champion Purebred Simmental and Full Brother to Lot 14

Lot 14 RP/BCR BUILT TO LOVE 053H

We are committed to offering our best, and we think regardless of which division you sort through, we are offering the goods. With that in mind please realize the scale of the opportunities that lay with the offering of RP/BCR Built To Love 053H a Purebred daughter of WLE Copacetic E02 and out of the legendary RP/MP Built To Love A021 matron who has dominated high sellers lists and the winners circle of recent. In fact, a full brother to 053H, Rocking P Private Stock was just crowned Grand Champion Simmental Bull at the North American and has become a hot commodity with just a small offering of semen that has been released. When you see this one in the flesh it's easy to realize why there is so much hype surrounding this mating, phenotypically she is extremely unique for a Purebred female, extra soft about her joints, with overwhelming amounts of look and presence, combine that with the way she balances into a robust body shape, and we challenge you to find many specimens that match her. We look forward to watching the dynasty this female builds in her new home, as we know we will regret loading this one onto the trailer post sale day. *AI BRED ON 5/2/21 TO B C R PERFECT VISION (ASA: 3516009). An absolute highlight of the bred heifer division is this direct daughter of the infamous Loves To Smile cow that has been a featured Percentage donor female for the past decade. This modern version of her dam is a daughter of SC Pay The Price C11, and carries three- quarter blood papers. She is a stout blaze faced beast that is extra massive in her body construction and bone density. There will be seldom opportunities in the future to tie into this cow family so if you're searching for a rock-solid donor prospect with a pedigree that is open to a fresh twist then pay attention here. Early in February you can expect a Purebred calf sired by the highly proven and successful generator, THSF Lover Boy B33. *AI BRED ON 5/6/21 TO THSF LOVER BOY B33 (ASA: 2983443). Lot 16 B C R VALENTINE J018

A blaze faced female that is burly, and reads for added cow power, we like how powerful she is when you get behind her. Her sire, Fitz Gideon 802F is Profit son we purchased from Nick and Ashley Fitzsimmons, he hung banners at the American Royal and the North American and has transferred his high quality phenotype into his progeny. A Purebred female that will form the building blocks for a productive and revenue generating cow family for her new owners.

**PUREBRED SIMMENTAL**

B C R Right To Love H057 is a truly unique Purebred breeding piece that combines the elite of the elite in the Simmental breed. H057 is sired by the deceased MR CCF 20-20 herd sire that has left a substantial impact on the breed. Like many of the industry's great maternal breeding bulls, by the time we figured out how to make MR CCF 20-20 click, he was gone. His daughters are proving to be his most valuable assets once they are in production. Superior udder quality, fleshing ease, and fertility would be among the most notable virtues that the 20-20 daughters possess. The dam of H057 is a FULL SISTER to the late HPF Quantum Leap Z952, from the famed RP/MP Right To Love 015U matriarch. Unlimited mating flexibility and genetic relevance that you can hang your hat on. A true sale feature! *AI BRED ON 5/5/21 TO THSF LOVER BOY B33 (ASA: 2983443). Lot 18A B C R VALENTINE 304H

We realize that to make this sale successful, we need to produce the goods and let go of the things we want to keep the most. So here is your opportunity to buy deep into one of the most potent cow families we have here at the Buck Creek Ranch, RP/MP Ms Valentine 013U, the full sister to the great RP/MP Right To Love 015U. 015U would be most known as the dam of HPF Quantum Leap Z952 and THSF Lover Boy B33. These four bred heifers come from two different sire groups, the spring born females are sired by LLSF Pays To Believe ZU194 and the age advantage fall born females are HTP/SVF Duracell T52 daughters. G320 and G600 would be full sisters in blood to Quantum Leap and Lover Boy. All four are Purebred and all four read with the potential to become mainstay donor females for their respective new owners. Find the time to come and view these cattle in person, we truly think there are opportunities that could change the direction or caliber of an operation in just a single generation.

Maternal Sister to Lot 28A & 28B

A pair of flush sisters that make for a fun comparison when poised against one another, they are direct daughters of the deceased, yet proven banner sire HPF Quantum Leap and out of the Sweet Emotion matron that more than holds her own against the powerful donor battery we have built. J300 is the burly and stoutly constructed one of the pair, she comes with no lack of body shape but does have the fancy facial markings that catch attention. If you like to pick them a little more eloquent about their front third, and smoother in their muscle pattern then you could perhaps tie into the younger of the pair in J309. Either way you can trust that genetically they are elite and have the build to compete at the highest level.

When it comes to selecting for brood cow potential and the kind that return quick on the initial investment then J063 presents a strong case. An extra capacious and round centered Purebred that aligns with the strict structural checklist that every animal sifted into the sale conforms too. The Quantum Leap stock ride the line effortlessly between real world beef characteristic and the show industry where all the bells and whistles are needed.

Lot 30 B C R CLASSIC 071J

The lone daughter of THSF Lover Boy B33, but a great representation of the sire to countless champions this year, including Sara Sullivan's Supreme Champion Female at the 2021 Cattleman's Congress in Oklahoma City. Big and soft hairs, big body shape and great look, this is the type of calf that is fun to work on because she's a very safe bet. Being out of a High Regard half-blood female only consummates our opinion that she will mature well and keep her attractive front third as a bred heifer. **Entered in OKC Cattlemen's Congress**

If you have been spending time around the Simmental breed then the Knockout cow family is one you have heard of, the grandam of 042J is one of the most accoladed females in the existence of the Simmental breed, Miss Knockout 74T. She has over 200 progeny recorded in the registry and is the mother of HF Serena a female that has accumulated in excess of two million dollars in progeny sales including two One Eyed Jack brothers that are both valued at over \$180,000 a piece, and most recently a daughter by Berwick that sold for \$150,000. HF Serena is a maternal sister to the mother of B C R Knockout 042J so there is no question about the potency of pedigree we are offering here. If pedigree isn't enough, the phenotypic value of this one should make up for any short comings.

2021 NAILE GRAND CHAMPION PERCENTAGE SIMMENTAL BULL  
Maternal Brother to Lot 36A & 36B

A pair of Purebred Angus flush sisters that stem from some of the most exciting and admirable pedigrees in the breed, daughters of PVF Blacklist 7077 have been in high demand this season, they are proving to be extra powerful and cowy and the Phyllis cow family needs no introduction to and Angus enthusiast. The older sister of the duo, 84J is long spined and extremely chiseled about her head and neck. The younger, 92J has extreme wow factor! We love the way this one ties all her big and fancy features together; it begins with the eccentric ear set and goes all the way down to the big and square paws she sets down. The Angus division is small but understand the investment in genetics has not been. **Terms announced sale day.**

Lot 37 BCR BABY'S BREATH 041J

This one combines the most potent and dominated individuals in the modern day of the Charolais breed. Her sire, TR CAG Carbon Copy 7630E was a National Champion in his own right. Maternally you will find the sire of more banner winning Charolais cattle than perhaps any other in history, M&M Outsider 4003 PLD. Typically, it would be difficult to top the prowess of these two sires, however if there was ever to be an individual that it could be the grandam of 041J, in Thomas Ms Impressive 0641. Long story short, this one's pedigree is absolutely stacked, and with keeping that in mind we don't think she will disappoint when inspected in the flesh. She is ultra-smooth compared to her breed contemporaries, seamless in her lines and soft in her body type. Breed for breed this one could possibly be one of the most exciting show heifer prospects to sell in this edition of the "Grand Event".

# How to Bid Online

Tips and Tricks to Master Online Bidding

**STEP 1.** Use Chrome or Safari, a newer browser or download the CCI.live app at Google Play or Apple App store.

**STEP 2.** Open your app or go to the address of www.CCI.live in your browser. CCI.live can be used on a cell phone, tablet, laptop or desktop. Some older models may not be compatible and will show a yellow caution symbol if so.

**STEP 3.** Create an account and then request bidding credentials through CCI.live. Use the bank information listed on your check. Please use a correct phone and email address.

**STEP 4.** Once you are accepted for bidding credentials you will receive a text message and/or email notification. Proceed to "Get Buyer Number" on the actual sale page of your interest. Some sales may also require a passcode to obtain a buyer number. On these auctions, you will obtain passcodes from the sale office phone number for the specific auction you are interested in. Please closely read the terms!

**STEP 5.** You are ready to go! Make sure you understand, once you are logged in, have a buyer number and are watching the sale that you are on a highly sensitive web page. **Be careful when scrolling that you do not accidentally hit the bid button and watch children closely as they tend to grab cell phones and accidentally bid.**

### TIPS FOR SUCCESSFUL BIDDING

- Make sure you have good service. Bidding and driving is not recommended. You should have two - three bars on your cellular devices. At home you should have an UPLOAD speed of 2 mg or more UP. Use this site to test your internet: [www.speedtest.net](http://www.speedtest.net).

### REFRESH YOUR SCREEN AT SALE TIME

If you have logged in over an hour prior to sale time, you may need to login again. **DO NOT** let the computer set idle and then return and try to bid, the website may have logged you out.

CCI.live does not accept payment, you will pay the sale management, farm or ranch direct.

**Help videos can be found at [www.CCI.live](http://www.CCI.live)**

## So you can focus on what's important.

# The Bred Offering

AN ELITE COLLECTION OF SIMMENTAL, SIMANGUS™ AND ANGUS GENETICS THAT SHARE A COMMON THREAD...

*Proven, time-tested, prolific cow families support this offering!*

Lot 42 B C R NETTY H001

If we had to pinpoint a sire that has influenced our cow herd the most to this point, we would struggle to look past HPF Quantum Leap Z952. The now deceased Duracell T52 son has immortally etched his name among the sires of stature in the Simmental breed, he was a National Champion in his own right, but his legacy will be remembered through his offspring that feature in the businesses most elusive sire batteries and donor pens. The group of Quantum Leap sired bred heifers we are offering are dynamic and come with several different opportunities for calving windows and registration status. Pay attention to the cow families that are featured maternally, these females stem from some of the best we have to offer. If you like cattle that survive in the real world, have extra body mass, with the good running gear and eye appeal then you need to take the time to look through this group of bred heifers because there is going to be more than one you will put a star by. A prime example is the lead off B C R Netty H001 a Purebred that is set to make a splash.

Lot 55 B C R DIANNA H077

The two Copacetic daughters that we have included in the sale offering are Purebreds with ample amounts of opportunity to recoup on the initial investment in quick order. Even numerically these cattle will add value. We love the influence that the Quantum Leap females are having on our cowherd, and to many his son WLE Copacetic E02 is more than adequately filling the sizable imprint left by his sire. Just know that the replacement pen here at Buck Creek Ranch is compiled with females that align genetically and phenotypically with both B C R Dianna H077 and B C R Kimberly 022H.

We kept utilizing CMFM Crossroads 224C at the breeding box when needing a sleep all night calving ease option, he goes further than that though by consistently generating females with a great look and more than ample performance and density. An impressive group of young females that stem from different cow families, but we project to be consistently good mothers and the low input type.

How about the rugged features that support this daughter of the HILB Oracle C033R stud, she has a big set of running gear that flex just like they should. Its ones with this type of build that we project to have long tenures in the cowherd. A three-quarter blood that features a standout BC Lookout 7024 female on the maternal side, this one has the big bodied and easy keeping type that we have trait selected for. *AI BRED ON 5/4/21 TO THSF LOVER BOY B33 (ASA: 2983443). PE 5/17/21 TO 7/7/21 TO B C R STOP & SEE H093 (ASA: 3925944). LIKELY SAFE AI.*

Lot 69 B C R FLORABELLE FANNY H042

HILB/SHER Data Breach was a sire we invested into because the ultra-complete phenotype he tied together, additionally his pedigree was just as intriguing. He went on to be slapped Grand Champion Purebred Simmental at the 2019 National Western. He offers a homozygous black and polled Purebred option that has blended nicely with the prevalent sire groups we had previously tied into. This assortment of Percentage females showcases the job he is doing for us, and let's just say we are happy. All four of the daughters we are offering have the extra capacious body shape, they are dense and soggy. And whilst having an extra degree of rib shape they balance so eloquently with their attractive front ends and heads. All four have been initially bred up to THSF Lover Boy B33 and we think offer an awesome opportunity to tie into a group of females that will provide a consistent and potent source of high quality seedstock.

(516) 366-0734 CCI.live schedule@cci.live

An impressive pair of CNS Pays To Dream T759 daughters that live up to the hypes of their influential sire, one that has generated perhaps as many individuals of significance as any in the Simmental breed. Whilst it might be more than a decade since their sire hit the scene, we can promise you these ones carry a quality that is timeless. Be sure to find both in the sale pens, both have a super maternal build with extra presence and structural integrity. Two breeding piece type females that would mate well to sires that will put some extra punch into their progeny.

Werner Queen 5107 is another good-looking Angus female that has been an integral part of the foundation of our SimAngus breeding program. We love the skeletal quality that she possesses, specifically the stoutness and squareness that she offers in terms of her hip and hind leg design. She is high tying in her neck attachment, angular about her front third, and bold in her rib cage. Her bull calf sired by Gideon is sure to make a powerful herd sire prospect!

LOT 89A: BULL CALF Sired BY FITZ GIDEON 802F. BORN 11/1/21.

ACR Barb Lassie 5136 is the sharp featured CCLC Effective 3169 daughter that is backed by the S A V Bismarck 5682 influence maternally. She is elegant in terms of her design, bold ribbed, and square built. She sells with a stout made bull calf at side that is sired by SJW Exit 44 7111E. The Exit 44 progeny have been a hot topic of conversation this fall, highlighted by the \$73,000 high seller in the Wallace Cattle Company program. Sexed female Exit 44 semen commanded more than \$400 per unit in the Ladies of the Lone Star sale in October. There is no question that this pair has the potential for a quick return on investment!

Werner Lady Jayne 5037 is a moderate framed, bold ribbed, good uddered female that is efficient in her type and kind. We have utilized her to create Purebred Angus progeny, and by the look of her GCC Money Earned bull calf you will agree that she is certainly capable of generating at a high level. Regardless of which direction you decide to go when mating her, rest assured that she will be a profitable investment. LOT 91A: BULL CALF SIRED BY GCC MONEY EARNED. BORN 9/1/21.

*Lot 92* **SSA LADY JANE CONFIDENCE**

SSA Lady Jane Confidence B37 is a Connealy Confidence 0100 daughter that is moderate in her frame size, bold in her rib cage, and square in her basic build. We admire the functionality and maternal excellence that she possesses. She sells with a future brood cow prospect at side that is sired by CNS Pays to Dream T759.

*Lot 93* **KENCO NETTY 73C**

Kenco Netty 73C is the GSC All In 72A son. All In 72A is a maternal brother to some of the breeds most well-known and prolific sires in W/C Relentless 32C, W/C Bankroll 811D, and many more from the legendary 8543U lineage. 73C is an ultra-good looking, long fronted, smooth made female that is very angular in her design. She sells with a stylish Gideon heifer calf at side that was born mid-October.

*Lot 101* DAF REBA D248

DAF Reba D248 is a true sale feature and is among one of the most intriguing built females on the ranch in Yale. D248 is a full sister to the 2016 and 2017 National Western Stock Show Grand Champion Percentage Simmental females that were campaigned by the Sullivan family. That pair of sisters have evolved into role model producers in the donor pen at Dunlap, Iowa having produced countless Jr National and Major stock show champions. DAF Reba C85 recently added to her resume, having produced the 2021 American Royal Supreme Champion Junior Breeding Heifer. Her heifer calf that sells alongside her is sired by the popular sire of high sellers, SJW Exit 44 7111E. Pay attention here, this mother-daughter unit has the potential to make for a quick ROI and has the phenotype and genetic dominance to put any operation on the map.

Lot 102 B C R REBA J054

The chrome edition of this group of impressive HPF Quantum Leap daughters, if your task is to be noticed then here is a great place to start, plus she is a Purebred. B C R Reba J054 comes with the body shape, volume and loose structure that is accustomed to the sire group, whilst having extra width when you get behind her. Her mother is a young SC Pay The Price C11 daughter that stems back the Reba cow family that has helped hang numerous banners in the show barns of the country's most successful families.

*Dominant Champion from the Reba cow family!*

**Lot 103 B C R REBA 018H**

B C R Reba 018H is a powerful, big centered, stout made daughter of the potent DAF Reba D248 matron that sells as lot 101. 018H is sired by the full brother to the late HPF Quantum Leap Z952, THSF Lover Boy B33. A full sister in blood sired by Quantum Leap was among the featured bred heifers in last year's sale. B C R Reba 0267G is a FULL SISTER in blood to the 2021 American Royal Supreme Champion Junior Breeding Heifer, JSUL Oh Boy Reba 0267H. A maternal sister, JSUL Reba's Fancy 8375F, was the dominant 2020 AJSA National Classic Grand Champion Percentage Heifer for Sara Sullivan in 2020 following a dominant career the year prior. 8375F was the 2019 AJSA National Classic Grand Champion Bred & Owned Heifer in Louisville the summer prior. She sells safe in calf to the Pays to Believe son that is backed by the legendary Stop and Stare female.

**Lot 104 ZEIS REBA B1144**

Zeis Reba B114 is the powerhouse baldy female that is sired by the rugged and stout made Exposition, backed by the famed JF Reba 2495Z matriarch that has created a long line of proven and prolific family members employed by some of the well-respected programs in North America. Modern, stout, and functional would be the most accurate ways to describe her phenotype. Her functionality will certainly be advantageous for creating the next generation of Purebred seedstock.
