CK *cattle* & Wager *cattle*

On behalf of everyone here at CK Cattle & Wager Cattle, I would like to invite you to our 5th Annual Production Sale. First off, I would like to thank all of our past customers for your confidence in our genetics. The success stories have been fun to listen to!

I have been on my soap box about where the cattle business is headed as far as fed cattle prices, and if it wasn't for COVID there is no question that it was headed in our favor. Beef continues to be the number one protein source for consumers around the world. The cattle market continues to surge in the right direction at a fast pace because of the safe and wholesome protein source that American beef is and will continue to be. For you, the producer, great times are on the horizon!

This group of bulls is something we are extremely proud to put up for your evaluation. The depth of quality this year is like nothing we have offered before, as it should be. Our constant goal is to improve the offering each year so that these bulls will positively impact your operation's bottomline. We are always looking for a new herd sire, donor cow, bred heifer, or embryos that will advance our program in the right direction.

The bulls weaned good considering all the drought adversities that were handed to them. We will scan them and take their yearling weights in a couple of weeks. I've been extremely pleased with how they're feeding and developing.

This year is no different than it has been in the past, the bulls are sold as guaranteed breeders. We will have scan data, yearling weights, scrotal measurements, and test gains on a supplement sheet posted on both the DV Auction and Innovation AgMarketing websites. We offer volume discounts on 3 or more bulls as well. The bred heifers will be re-preg checked the week before the sale and all scour shots are up to date. We will work diligently with truckers to help get the bred heifers to you as quickly as possible. The bulls will get delivered in April or May after they have passed their BSE's.

Please feel free to call with any questions you might have, and by all means don't hesitate to come and evaluate the offering before the sale. We invite you to bring your entire family to the sale. We will have prime-rib sandwiches and refreshments after the sale, so please stick around and visit with us. Thank you for your consideration and we hope to see you February 12th!

Sincerely,

Chris Effling

Cattlemen and cattlemen, it gives us great pleasure to welcome you to the 2022 edition of the CK Cattle and Wager Cattle Production Sale! While this will be the family's fifth event, it will include the absolute best and deepest set of herd sire prospects and bred heifers that they have spent a lifetime creating. The industry has been blessed with optimism and the predictions of the first two quarters of 2022 are significantly brighter than they have been for those of us in the food grade protein sector of the business.

CK Cattle and Wager Cattle are family owned and operated programs that have a true passion for this industry and the way of life that it provides. The Effling and Wager families continue to trudge forward with the "keep your head down and leave your focus on the end goal approach" and it has been proven to work for this family operation time after time. Many of you repeat customers know and understand, these cattle are ranching stock that are aggressive in the workplace. The bulls from this program get out and get cows bred and award the commercial investor with a set of vigorous, fast-growing stock that pound the scales at the Dakotas' finest commission marketing venues and have been received well on the video further west.

CK Cattle and Wager Cattle have an enhanced customer service feature with a ranch direct transaction on your feeder cattle at weaning time. They will exhaust all resources to insure you a competitive or market topping bid/buyer on your cattle, so do not hesitate to research this option by phone, email, or in person with Chris before, during, or after the sale. Simply put, "the hustle" doesn't stop after you invest in a bull or bulls at CK Cattle and Wager Cattle.

This program was initiated with one female, Melody, that was flushed to one bull, Dream On, and the rest is history. The influence of that donor dam and that initial mating in super ovulation saturates the core of this entire operation. In the beginning it was based on phenotype with strict culling on head shape, udder quality, fertility, structural integrity and the quality followed. The implementation of the right power, Upgrade, followed up with Profit, with continued pressure applied to the traits that are essential to a profitable cowherd and breeding program. There's been some "new light" shed on the program with the introduction of ES Right Time FA110-4 three years ago to the pastures of Highmore. This sire group has been met with intense reception as they were the "talk of the breed" just a short year ago. The sophomore class of Right Time sons will initiate the 2022 offering and there is no doubt that he is more than just a one hit wonder. These bulls continue to impress us with their stoutness, and ability to combine such a rugged build with so much balance both phenotypically and numerically. They are cattle that are built for the real world!

The bulls have remained the main focus, but this year's set of bred females needs some attention as one will be able to tell from the pictures in this book and the sale videos will support. Several of these are from some of the most productive females in the program with incredible phenotype, impeccable structure, with significant genetic value. Past bred heifer purchases have paid big dividends for those that have made the initial investment. Brad and Meg Freking of Minnesota purchased 7054E a few years ago and last year she was responsible for the \$175,000 high selling bull, Platinum. Last year, Keith Lambright purchased 9026G as the high selling bred heifer. Her first born son by Hook's Eagle 6E leads off the sire group. Pay attention to the genetics that support this year's offering. There are several more success stories that have yet to be written!

This family has been friends of ours for two decades, they have never wavered from the end goal. The cattle are proven, documented, and sorted in the most discriminating fashion known to the business, they are real world ranch stock that will take care of your bottom line. The diversified, proven, profitable use of these cattle works as well on the heifer mates retained as it does the steer mates that weigh up the end dollar value. Make plans to be with us in Highmore February 12, 2022 at 3:00 PM and invest in your program's future.

TERMS

Terms of sale are cash or check payable immediately upon conclusion of the sale and before animals will be removed.

TRUCKING

Dick Coleman: 765.461.0954

NUTRITION

Jordan Holt: 605.380.1209

HEALTH & WINTERING

Bulls can stay to the first of May when they will have a breeding soundness exam, along with leptospirosis, pinkeye, and hoof rot vaccine. Bred females will need to leave as soon as possible after the sale due to close proximity of calving. Any female left and calved at CK/ Wager facilities will not be guaranteed a live calf. Prairie View Vet Clinic: 605.695.4086

RISK

Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury, and will be loaded according to purchaser's direction. Insurance will be available sale day.

ANNOUNCEMENTS

Announcements made sale day and from the auction block during the sale take precedence over printed material in the catalog or other printed material associated with this sale. Anyone attending this sale, attends at their own risk. Breeders or any of the sale force will not be held responsible for any injury while attending this sale.

LIABILITY

Neither owners nor sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents.

INSURANCE

Insurance will be available sale day. We suggest a mortality policy, especially if you plan to leave your bull(s) to be wintered until May 1, 2022. We will pay 1/2 of the insurance premium if you wish to purchase a policy. Please visit with Ray Trudeau at the clerking desk if you have interest in insuring your purchase. Ray Trudeau - Martin-Trudeau Insurance 605.770.5170.

ADDITIONAL INFORMATION

Ultrasound data, yearling weights, gain test results, scrotal circumference measurements and Homo Black/Homo Polled testing results will be available sale day. Many of the donor dams to the cattle selling will be available for viewing sale day.

CK AND WAGER SIRED CALVES TOP THE MARKET!

"We have been purchasing Simmental and SimAngus bulls from CK Cattle and Wager Cattle to capitalize on the added heterosis that SimGenetics can bring to the table. The improved carcass data, real world performance, and ability to consistently grade is what these bulls have contributed to our operation. The Simmental influenced cattle not only perform in the feedlot, but the female contemporaries offer a strong maternal foundation that will benefit the cowherd for years to come. We have been very impressed with the ability that these bulls have to cover large country and maintain flesh during breeding season."

THE BULLS

BULL GUARANTEE

Unless otherwise noted, all the breeding age bulls will have passed a breeding soundness exam prior to pick up/delivery. In addition to the standard Terms and Conditions of the American Simmental Association, we will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all yearling and older bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price less the salvage value of the animal.

BULL BUYER VOLUME DISCOUNTS

3% off total purchase price of 3 Bulls

4% off total purchase price of 4 Bulls

5% off total purchase price of 5-9 Bulls

10% off your total purchase price of 10+ Bulls

DELIVERY

Free delivery within 300 miles on all bulls and we will assist in finding delivery options to other parts of the country!

EMBRYO TRANSFER PROGENY

Bulls without a WW Ratio are the result of embryo transfer. Their respective breed associations do not recognize them as having a contemporary group so they do not have a WW Ratio.

SEMEN INTEREST

Seller retains 1/3 semen interest in all bulls selling unless otherwise noted or announced from the auction block.

DATA

Each pedigree includes an Actual Birth Weight and all bull pedigrees include an Adjusted Weaning Weight and Ratios for Birth and Weaning.

- 1743J is super complete and ultra-balanced from every single evaluation point.
- He offers a unique combination phenotypically and genomically.
- He is another standout from the ES Right Time FA110-4 sire group that will garner the interest of seedstock operations.
- His dam is sired by TJ High Calibre 446B and from the CMFM Hottie 207B cow family that influenced the Circle M Farm program early on, and now is hard at work in the budding XTB Cattle operation in Texas.
- Breed leading genetics with top 15% values for YW, API, and TI, while maintaining top 25% marks for BW, WW, and Marb.

- WAGR MR Right Time 1046J is a deep bodied, smooth made, great built herd sire prospect that offers exceptional performance values.
- He is a homozygous polled and homozygous black three-quarter blood herd sire prospect that offers a premium blend of carcass and performance traits to maximize profitability.

LOT 11 - CKCC MR EPIC 1626J

- The OMF Epic E27 cattle have been consistent since his introduction to the beef business. Epic was bred in the Oak Meadow Farms program of Minnesota and merchandised to the Schooley Cattle Family of Bloomfield, Iowa. This sire has experienced high use amongst the most discriminating cattlemen with positive outcomes.
- 1626J is one that certainly set the bar here at CK Cattle coming into the weaning pen with over 780 pounds that relates to his scale bending precedence with a top 3% WW, top 4% YW, that leads to a top 10% TI rank as well.
- He offers balanced carcass with a more than desirable phenotype. His power is a representation of the pedigree blend and the dominating maternal presence from his bottom side. He is the reference for quality!
- Out of a tremendous two-year-old dam that is backed by the MR CCF Vision x WAGR Driver 706T genetic combination that has been so influential.

- Here would be the true curve bender with a jaw dropping 898 pounds of weaning weight and posted a WW Ratio at 124. When you see this specimen in person you will be a believer!
- His two-year-old dam by CDI Innovator 325D is a maternal sister to the great Steenhoek donor, WHF Summer 365C. Summer is one of the leading young females in the breed from a dollar generating standpoint.
- This powerhouse posts trait leading performance with a top 1% ranking for WW, YW, and MWW, with a top 2% mark for TI, a top 4% for MWW, and very suitable CE and BW figures. This herd bull is homozygous black and homozygous polled. He has the phenotype suited for those that are concerned with their terminal bottom line.
- 1606J ranks among the top 20% of the breed for Milk. He is out of a two-year-old dam.

- Hook's Eagle 6E was sampled at CK Cattle and Wager Cattle predominantly on heifers. The dam of CKCC MR Eagle 1640J is the \$40,000 high selling bred heifer that topped the sale in 2021 to Maple Lane Farm.
- 1640J is a homozygous black and homozygous polled Purebred that offers a rugged phenotype in addition to an elite number profile.
- This super deep barreled, dense built herd sire candidate ranks in the top 1% for TI, top 4% WW and YW, top 10% ADG, Doc, Marb, REA, and API, with top 15% BW as well.
- He offers a moderate 77-pound birth weight that contributed to 777 pounds of direct weaning weight.
- The dam of 1640J is without question one of the most phenotypically impressive females ever produced in the Wager Cattle program. She traces to the MR CCF Vision x 3C Melody M668 BZ genetic combination on the maternal side of her lineage.
- 1640J is the real deal and should be considered by any program wanting to step up their game, we think this one can do it all!

71.9	19.4	15.6	40.5	-0.39	0.37	-0.06	1.12	160.1	96.3	

- Here's a definite herd sire prospect that is a bold bodied, dense featured Purebred son of Eagle.
- He comes with the proven and predictable influence of CCR Cowboy Cut 5048Z, TJ High Calibre 556B, and the great WAGR Lullaby 703T donor dam. He posts a BWR at 96 with a 106 WWR. This homozygous polled stud ranks top 2% TI, top 4% WW, top 5% API, top 10% YW, MWW, Doc, Marb, and REA, while remaining in the top half of the breed for 7 other traits.
- What a number profile to accompany his elite phenotype!
- A definite herd sire prospect that is out of a two-year-old dam.

- This Eagle son is supported by the famed Riverbend Rita 1107 cow family reinforced by the likes of the great Leachman Right Time and the legendary Connealy Dateline.
- His MR CCF 20-20 sired two-year-old dam did the job as well with a very low 69-pound birth weight that contributed to an acceptable nearly 650 pounds at weaning.
- This SimAngus herd bull prospect is impressive on paper as he ranks among the top 10% DOC and REA, top 15% CE, BW, and TI, top 20% API, and top 25% WW, YW, and ADG.

THE SO REMEDY SIRE GROUP

LOT 32 - WAGR MR REMEDY 1054J

- The SO Remedy 7F sire group has been met with desirable performance and shape. There is no denying the genuine mass, density, and real-world performance that is represented in this set of sons.
- WAGR MR Remedy 1054J is a homozygous black and homozygous polled herd sire prospect that will improve phenotype while adding power and shear performance to any set of cows.
- He boasts a 110 WWR that is tied to his scale pounding 743-pound measurement. We love a lot of things about this calf and what he represents.
- He is bold bodied, sound footed, and offers tremendous quality.
- We quickly labeled 1054J as a sale feature at an early age!

- WAGR MR Rebel 1063J is an absolute standout that is massive from every angle of evaluation.
- The very best of each breed is blended to compliment this SimGenetic prospect.
- Barstow Cash, S AV Final Answer 0035, MR NLC Upgrade U8676, MR HOC Broker, Meyer Ranch 734, and of course 3C Melody M668 BZ would all influence 1063J.
- This herd sire prospect also ranks in the top 20% for WW and YW.

- We have commented on Angus royalty throughout this offering in regard to proven sire lines and cow families that reflect on the Western and Northern ranching influence. This son of Rebel would be from the famous K N C Cabin Creek Sandy 804 and one can see the quality that exudes in this stud that pounded the scales at weaning time to the tune of 739.
- Great SimGenetic breeding bull with pedigree and sure enough upside!
- 1865J is a sound built, rugged, powerful herd bull prospect that will leave behind a tremendous set of daughters.

- FRKG CKCC MR Rebel 1872J ET is a sharp featured, good looking red hided beef bull by the great EC Rebel 156F.
- The red cattle have been in high demand, and it seems to be the color of preference the last few years.
- This powerful herd sire prospect would work awesome on any set of cows but imagine the outcome when used on a set of commercial Red Angus or commercial red baldy cows... Talk about added premiums!
- LDSC 700E affectionately known as "Lot 1", is a leading donor for Doris and Freking. 700E has produced countless high sellers and has evolved as one of the great producing young females in the business. A full sister to 1872J sold for \$20,000 to Kutter Prinz of Nebraska.

- 1860J is a Profit son that posts a moderate 86-pound birth weight with 713 at weaning.
- He is a big bodied, long sided, sound-built bull that is practical, and simply just good genuine stock.
- Great SimGenetics with the Red Angus maternal influence.

LOT 55 - ECC CKCC MR PROFIT 1860J

THE LEGEND SIRE GROUP

LOT 56 - BOBBI`S LEGEND 1639J

- J6RA Bada Bing 1602B really needs no introduction to this stage or even to the business. She is still regarded today as one of the most dominant females to hit the tan bark and remembered by most Simmental breeders that stay tuned to the sow ring.
- For all practical purposes she was appreciated for simply being good genuine stock, bold and deep in her center body, with dominant base width, incredible structure, and the necessary look. Her cattle are consistently one in the same as well. She worked so well to Profit over the years that they were on the hunt for a son that intrigued Chris enough to try and they landed on the GPG Legend 109F from the famed Moore Shania 17B donor dam.
- This mating certainly delivered on power and performance just as expected.

- As we transition into a new sire group in the sale book, we initiate the MR CCF 20-20 with a grandson of the great "Bobbi". This calf is from the young CHEZ Gypsy 9661G ET female that out did herself in her first year of production as she sent this stud to the weaning pen with 716 pounds of pay weight.
- He is loose built, deep sided, complete, and offers a very eye appealing look of quality.
- A striking baldy bull that is certain to add body mass and dimension to his progeny.

THE MR CCF 20-20 SIRE GROUP

LOT 61 - FRKG CKCC MR 20-20 108J ET

- Two more direct sons of J6RA Bada Bing 1602B that are sired by MR CCF 20-20, the now deceased herd sire of impact that is known for his genetic contributions across the country.
- Each of these studs came into the world at 88 pounds and both posted weaning weights over 700. Very similar in their kind as expected with rugged density, shape, plenty of bone, and great feet.
- Both ET flushmate brothers are homozygous black and homozygous polled.

- 105J is a full brother to the \$175,000 FRKG CKCC Platinum 009H ET, the high selling bull in the CK Cattle and Wager Cattle 2021 Production Sale.
- Platinum is one of the most unique Purebred bulls ever produced in Highmore, here is your chance to own a full brother.
- Upon visual appraisal, one realizes the length and power that this MR CCF 20-20 son offers to any progressive outfit.
- On paper he further solidifies his herd sire credentials with the data to support. 105J ranks in the top 15% for WW and the top 20% for YW and REA.
- He offers an adjusted WW of over 750-pounds.
- The dam of 105J, WAGR MS Profit 7054E, was high selling bred heifer in 2019.

THE MR CCF VISION SIRE GROUP

LOT 65 - CKCC MR VISION 1870J

- This blaze faced MR CCF Vision son comes with the length and essential to the ranching business.
- His dam is influenced by WAGR Driver 706T and the great TR MS Katinka 3208N, making her a full sister to MS TR Pandora 2770Z.
- Moderate at birth with substantial performance to compliment.

THE MUSGRAVE 316 STUNNER SIRE GROUP

LOT 66 - CKCC MR STUNNER 1619J

- There is zero doubt about how useful and practical the Stunner cattle have proven to be. Here is one of the very best of the sire group to be offered at CK Cattle.
- A very high-quality individual that weighed over 760 at weaning with an 82-pound birth weight.
- He ranks in the top 10% for WW and TI, top 15% YW and MWW, top 20% Marb, top 25% ADG, and top 35% API.
- His two-year-old CDI Innovator 325D sired dam is supported by WS Pilgrim H182U, MR NLC Upgrade U8676, and of course, 3C Melody M668 BZ.

- CKCC ML MR Crackerjack 1694J is a bold bodied, deep sided, square ended herd sire prospect that is backed by Tmas Ms Katinka Kay 9741G, a featured lot in the 2021 Production Sale that sold to Maple Lane Farm.
- This Crackerjack son will impress one in person with his look and kind. However, on paper, he's very impressive and balanced.
- Top 15% ADG, top 20% BW and YW, top 25% CE, MCE, Doc, and TI, top 30% WW and Marb, and still in the top half of the business for API.

THE RUBY'S CURRENCY SIRE GROUP

- This mating has been consistent from day one. It has generated cattle that perform, cattle that have shape, and cattle that have substance and presence. The sister mates to these bulls will be noticed in the near future within the Freking and CK programs when they enter production.
- These brothers will host significant growth and muscle as they chart top 10% values for REA, top 25% for YW, and top 30% for WW.
- Full brother to the \$38,000 CHEZ KRIC Limit Up 9656G ET.
- Both flush brothers are homozygous black and homozygous polled.

- Here's a pair of potential baldy making full brothers by Ruby's Currency 7134E and from a WS Pilgrim H182U x WAGR Lullaby 703T bred dam.
- After their EPD's were genomically enhanced, 1079J has a slight advantage in terms of performance as he ranks in the top 25% for WW and top 30% for YW and TI with a top 15% REA value as well.
- 1062J would remain in the top half of the breed for all things that matter from CE, WW, YW, ADG, Doc, CW, YG, Marb, REA, and his indexes.
- Both bulls are long sided, athletic in motion, with good feet and skeletal integrity for the long haul.

THE SON OF LIMIT UP

LOT 78 - CKCC MR LIMIT UP

- CKCC Limit Up 1663J is the lone son of the past high selling bull, CHEZ KRIC Limit Up 9656G RT.
- Limit Up is a Ruby's Currency 7134E x J6RA Bada Bing 1602B son that was certainly loaded with power, performance, and substance much like 1663J is.
- 1663J is one super stout, wide based, dense built stud with look and appeal at every angle.
- He weighed 82 at birth and posted a 758-pound weaning weight as well. From a visual appraisal standpoint, we believe that he can go to work in a seedstock oriented program and most definitely any commercial, West River program as well.
- He is homozygous black and homozygous polled.

- Here's a pair of CK MR Broker 8700F sons from two different Red Angus matrons.
- Besides genetics, their measured performance is very similar as well. Both have birth weights in the 80's with nearly 700 pounds of weaning weight performance.
- CK MR Broker 8700F is the full brother to the past Denver Champion Percentage Bull known as CKCC Edge 7692E.
- This pair is long, heavy, and built to cover a lot of cows.

- 1058J and 1060J are a pair of Purebred sons of the \$400,000 TJ High Calibre 556B that both represent the 3C Melody M668 BZ cow family.
- Each posts moderate birth weights and solid weaning data. Both bulls are homozygous black and homozygous polled.
- 1058J ranks top 5% Marb, top 10% Milk, and top 15% WW, YW, ADG, CW, API, and TI.
- 1060J ranks top 15% YW, ADG, Marb, API, and TI, top 20% WW, top 20% Stay and top 25% for MWW.

COMMERCIAL FEMALES

For the last few years, the Starr family has purchased bulls right off the top end of our Simmental and SimAngus bulls and the females selling are a strong representation of what these genetics can do. Brian and Kourt Starr have one of the best sets of black hided cows in the country. We had the opportunity to go back and select a handful of these powerful SimAngus females and are sure glad to have them for your appraisal. They are the right kind in terms of frame size, with the added length and power. They are big centered, sound-built females that are backed by generations of AI sired pedigrees and strong selection pressure for the fundamentals. The cows that support these females are excellent mothers with textbook udder quality and style. These females would work in a series of different breeding scenarios, help yourself to the quality that they represent!
