Structured f

We welcome you to our **Structured for Success** production sale at KLER Cattle. We certainly feel that this is one of our deepest and highest quality sets of bulls and bred females that we have ever offered. The cattle industry is buzzing with excitement and getting closer to the great prices that benefited both the buyers and sellers. With that being said, we ask that you study thoroughly through this offering of bulls and females so that none are missed.

Here at KLER Cattle, we strive to develop cattle that are **Structured for Success** for the long haul and work for their keep. We strive to produce structurally sound cattle with look, presence, and power. Working with breeders and operations that are both show and carcass merit-driven allows us to blend both worlds to make an even better animal.

In recent years, we have produced females like K-LER Dolly's Queen 609D (Dam to W/C Fort Knox 609F), and K-LER/RC Miss Hoya Saxa referred to as "Madonna", some of the top generating females in the Simmental breed. In the set of breds we are offering, there are future donors like the two listed above, along with breeding pieces that will make excellent breeding and production females.

As for the bulls, we feel this is by far the best and deepest set, from AI studs to long term breeding bulls. The fellas in the sale will fit all categories of buyer's selling weaned calves, fat cattle, replacements, and elite quality cattle. We are very strict in the type of bulls we keep to sell, as we only keep the ones that would be good enough in our own herd. A bull is an investment for any breeder, and that is why every bull sells with our 4-year breeding guarantee. Investing in a good bull will structure you for long term success.

We are very excited to be working fellow breeder's Paul and Nia Hill Family, Hill Brothers Livestock; Brandon and Nicole Hammann Family, Hammann's Rock Hill Angus; Trey and Brenda Hardesty, H20'S Farm; and Jake and Emma Smith.

There have been a lot of changes in the world we live in today, but having good friends, family, and a few cows around will always help keep the stress away, unless someone forgets to shut the gate. We invite you to call, text, or stop in anytime to view and study this set of cattle.

Sincerely,

Ralph & Mena
Cliff, Bailee, Phenix, & Devereux
Seth, Shelby, Creed, & Colt

TRUCKING

Dick Coleman 765.461.0954
Free delivery to customers within a 350-mile radius of St. Charles, Minnesota. K-LER Cattle covers the first \$200 trucking elsewhere in the United States. **\$100 discount per animal if you haul home day of sale.**

TERMS & CONDITIONS

Terms of sale are cash or check payable immediately upon conclusion of the sale and before animals will be removed. Sale will be available to registered bidders via the Internet at DV Auctions (www.dvauction.com) to accommodate both local and distant individuals who cannot attend in person. They provide a real-time internet broadcast during the sale. All absentee bidding will be done via internet to a ringside sale representative. Please register for bidder number at dvauction.com any time prior to 12 Noon on Friday, February 11th to accommodate the approval process. After this date/ time, bidder approval may be delayed. Approved bidders will be issued bidder number and access prior to the sale. For questions or sale bookings call Office M-F 8am-6pm CT: 402.316.5460

SEMEN INTEREST

Seller retains 1/3 semen interest in all bulls selling unless otherwise noted or announced from the auction block.

RISK

Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury and will be loaded according to purchaser's direction.

LIABILITY

Neither owners nor sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents.

BOARDING

Bulls will be wintered at no additional charge until April 1, 2022. Bulls will have passed a thorough breeding soundness exam prior to pick up/delivery. Since each animal becomes the risk of the purchaser as soon as sold, we strongly recommend a mortality insurance policy be taken out on any animal that is left to be wintered. Any bulls left past April 1, 2022 will incur a \$3/Day feed charge.

SUPPLEMENT SHEET

Announcements from the auction block will precedence over statements in catalog. Disclaimer: The information in this catalog is subject to change. Planned mating EPD's will also be available for the bred heifers the week of the sale.

Structured for Success

Welcome to the **Structured for Success** production sale, hosted by KLER Cattle Company, a family owned and operated seedstock operation that is multi-generational. The Kaehler family has deep tying roots to the production agriculture business throughout the upper Midwest. A long-standing program that has put strong selection pressure and breeding emphasis on creating eye-appealing cattle that are sound built and offer real world performance. The program is anchored around key cow families that can be identified throughout the entire offering.

The bulls have been developed in a manner to host longevity for you as you make your investment. This program has yielded many herd sire prospects over the years that have positively impacted some of the breed's most notable programs. The genetics that support this set of bulls have the credentials to positively impact your program's bottomline. Regardless of your production goals, there are bulls that will fit your every need. From calving ease prospects to performance driven sires that will add terminal merit to your next calf crop, or maybe you're searching for a herd bull that will add the necessary maternal function to his daughters to warrant replacement status post weaning, rest assured that this herd sire offering has the diversity and quality that deserves your consideration!

The bred heifer division is saturated with quality and cow family – this set of females are straight from the heart of the program! Daughters and granddaughters of the most proven and prolific will sell on February 20th in Saint Charles, Minnesota. In addition to the bred heifer offering, the Kaehler family is opening the vault to their most elite frozen genetics through the form of select embryo matings and IVF cycles. The opportunity to invest in the future of your program awaits your appraisal and should not be taken lightly.

Consider this your personal invitation to join us at KLER Cattle Company for the **Structured for Success** production sale on February 20, 2022. The cattle will be available for viewing at the farm any time prior to the sale. If you are unable to attend on sale day, rest assured that DV Auction will be able to accommodate your schedule with a live broadcast that offers real-time bidding. If you have questions about the offering, please reach out to any of the sale staff prior to the auction. We look forward to seeing you on the 20th in Saint Charles, Minnesota!

Enjoy the cattle,

Graham Blagg *Jered Shipman* *Tin Anderson*

Brand Guarantee

1. Four-Year Feet and Semen Guarantee

All bulls sell with a four-breeding season guarantee on feet and semen. If his semen or feet go bad, we will provide credit for the breeding seasons left to complete. The sale credit issued will be the purchase price minus salvage value. Sale credit reduces 25% of that value for each breeding season completed. Feet will be covered for unsoundness not caused by illness, foot rot, or other bulls. Vet statement must be provided for semen test or soundness and with statement bull is in good health and condition. Sale credit must be used within one year.

2. Feeder-Calf Marketing Program

We have feedlots wanting to buy calves out of our genetics. Contact Seth if you would like to get a bid on your calves – at the farm or the sale barn. Early notice will help us get loads in order.

3. Female Guarantee

All females sold as open animals are guaranteed to breed or they will be replaced with another animal, or with sale credit towards another female. Sale credit must be used within one year.

4. Sight-Unseen Purchase Guarantee

All cattle bought sight unseen- If you don't like the animal once delivered, you don't own it. Warranty will be issued for the appropriate value as sale credit towards another animal and must be used within one year.

5. If you have an issue with an animal purchased from us, please let us know, and we will find a solution.

Testimonials

"Our relationship with the Kaehler family started because we had something in common. We loved good maternal Simmental cattle. Specifically, we were super impressed with Rain Marie. What a female! Our family had opportunity to partner on her sire, No Worries. He roamed our pastures during the winter breeding cows. Bulls like that produce and work in any environment. We're in Texas and his sons and daughters are outstanding. Glad to have a relationship with the Kaehler family. We appreciate their cattle and their hospitality!"

– Chance and Jo Farmer

Ennis, TX

"We have bought multiple bulls and even partnered with the Kaehler family for years. They have always had high quality cattle. We look forward to continuing our relationship in the future and plan to purchase more Kaehler genetics to add to our herd. We appreciate the added length and pounds that Kaehler cattle bring to the table. Our calves were the heaviest this year with our heifers even outweighing the steers. We attribute this to most of our females being sired by KLER bulls. We couldn't ask for a better family to work with."

– Gus and Terri Sidwell

Ault, CO

"We've been buying bulls and breds from Kaehler's for 5 years. Last year, our calves weighed an average of 636# (steers & heifers) the heaviest sets we have had in a long time when calving the end of March for 60 days. The bulls have a great demeanor, get cows bred fast and have everything that we are looking for in a bull for our commercial herd. The Kaehler's have been great to work with, and we look forward doing business with them for years to come!"

– Travis, Sheri & Lincoln Ryan

We initiate the 2022 Production Sale at K-LER Cattle Company with an own son of the hottest Simmental bull in the business, ES Right Time FA110-4, the resident herd sire at CK Cattle Company of South Dakota. In 2021 semen was offered exclusively in Embryos on Snow and averaged north of \$850 per unit! Only 13 sons have sold at public auction to date, averaging more than \$26,000 per head! The first high seller would be KTE FRKG Reset 825H ET, commanding \$230,000 for 2/3 semen interest to King Cattle Company of Indiana. A month later another Right Time son, KCC1 Countertime 872H

commanded \$230,000 for 1/2 semen interest to the Countertime group, a progressive group of breeders. Right Time has maintained his status as one of the most consistent breeding bulls in the business. The dam of KLER Right Design 012J is the prolific GW Miss GRPD 028X, the dam of K-LER Dolly's Queen 609D, most famously known as the dam of the \$180,000 W/C Fort Knox 609F. 028X plays an essential role in the donor pen at K-LER Cattle and H20'S Farms. Right Design is a homozygous black and homozygous polled SimAngus herd sire prospect that ranks top 4% WW and top 3% YW. A true sale feature!

111J is a direct son of the late MR CCF 20-20, a legendary sire within the breed that has left a tremendous set of daughters back in some of the nation's most well-respected programs. Semen has become very scarce on the now deceased MR CCF 20-20, now commanding more than \$1,000 per unit! 111J is another son of the productive 028X donor dam that is homozygous black and homozygous polled. He charts top 15% WW, top 20% YW, top 5% YG, and top 3% REA. A big spread bull that boasts a moderate 77 pound birth weight and spreads to over 900 pounds of pay weight at weaning.

KLER Stellar 031J is a standout from the class of 2021 that is without a doubt one of the most unique herd sire prospects ever produced at K-LER Cattle Company. 031J is sired by the ST Genetics line-up stud, CDI Trustee 387F, and is further supported by the K-Ler Young Money influence from the 028X cow family. The maternal granddam of 031J is the legendary GW Miss GPRD 028X, who is also the maternal granddam of the \$180,000 W/C Fort Knox 609F. 031J is a homozygous black and homozygous polled Purebred that charts top 10% WW, top 10% YW, top 10% ADG, top 10% CW, and top 10% REA. 031J has been admired by all that have been through this year's offering for his ability to combine his powerful and rugged build without sacrificing flexibility or functionality. A true herd sire prospect that is worth the trip to St. Charles, Minnesota!

KLER Impressive 024J is the homozygous black and homozygous polled Purebred that is supported by the 028X tribe on the maternal side of her pedigree. We love the softness, depth of body, and spring of rib that this JSUL Something About Mary 8421 son brings to the table. The dam of 024J is a three-quarter sister in blood to the dam of the \$180,000 W/C Fort Knox 609F. Full sibs have sold for \$20,000 and \$7500. 024J came to the weaning pen with over 800 pounds of pay weight. A standout son of S.A.M. that we believe has the maternal strength from both sides of his pedigree to influence any progressive operation.

KLER Unique J4 is one of two the \$400,000 Profit and backed by the strong influence of the breed leading matriarch, WS Miss Sugar C4. The donor dam that supports J3 and J4 is the first-born natural calf of the great C4 donor, a female that has had a monumental impact on the business. This pair of brothers are bold ribbed, stout made, thick ended Purebred herd sire prospects that combine a unique genetic combination that pools some of the highest dollar generating females in the breed in a single pedigree. We admire the genuine shape, density, and real-world performance that this pair of flushmate brothers offer. They will positively contribute to any progressive seedstock or commercial operation, bid with confidence!

Profit - \$400,000 sire of Lots 9-13

KLER Surplus J3 is another performance standout that is sired by Profit. We love the skeletal quality, foot shape, and athletic stride that Surplus brings to the table. A big scrotal bull that is bold ribbed, deep bodied, and rugged. WS Miss Sugar C4 is the maternal granddam of J3 and J4, she is arguably one of the most prolific females in the Simmental breed. Here is your chance to inject her genetics into your program!

A trio of ET flushmate brothers that offer tremendous power, length, and extension. 101J (Lot 11), 103J (Lot 12), and 109J (Lot 13) are sired by the \$400,000 Profit and supported by the maternal influence of the great K-LER Rain Marie tracing to the foundation influence of K-LER Sweet Marie. K-LER Rain Marie progeny are currently working at Tri-E Simmentals, Suhonen Farms, Rolling H Livestock, and in herd at K-LER Cattle Company. This set of brothers offer the signature shape and power that Profit has been so widely admired for. If you're looking for a set of brothers to turn out to increase the uniformity and consistency of your calf crop, then this set of Profit sons are certain to be on your short list sale day.

107J is a homozygous black and homozygous polled son of K-LER Rain Marie that is sired by the now deceased MR CCF 20-20, a sire that has left a monumental impact on the Simmental breed. Semen has become hard to obtain on the late 20-20, and when made available has cost upwards of \$1,000 per unit! 107J is a big bodied, bold made Purebred that is sound footed, loose built, and offers the easy keeping look of efficiency. A moderate birth weight bull that spreads to over 770 pounds of performance at weaning. If your program retains daughters, make sure to have 107J on your short list on February 20th in St. Charles!

K-LER Gladiator 842F is the W/C Relentless 32C sired stud that is owned with La Hacienda Hinojosa Ranch of Edinburg, Texas. He has been a reliable herd sire for both programs as he upholds the fundamentals of beef production. The dam of 011J is a young and productive female that combines the influence of K-LER Young Money and K-LER Make It Rain. 011J is a homozygous polled Purebred herd sire that offers exceptional eye appeal, structural integrity, and shape. We love the squareness of build and robust body style that he brings to the table. 011J offers a moderate birth weight and spreads to over 830 pounds of adjusted weaning weight performance. An exceptional herd sire prospect that is backed by generation of maternal excellence!

All In 052J is a true standout among the class of '21 herd sire prospects produced at K-LER Cattle Company. This homozygous polled Purebred herd sire prospect is sired by the MR SR 71 Right Now E1538 son that is backed by W/C Miss Werning 711E. The dam of 052J is the Remington Lock N Load 54U daughter from the famed Halley cow family. He is balanced genomically as he ranks top 30% CE, top 20% BW, top 20% WW, top 20% YW, top 25% ADG, top 30% Milk, top 20% CW, top 20% YG, top 20% BF, top 10% REA, and top 25% TI. A true curve bender that offers a moderate 78-pound birth weight yet spreads to 941 pounds of adjusted weaning weight performance with a WW Ratio at 111. A true sale feature and one that we certainly believe will leave his mark on the business!

110J is another standout Angus herd sire option that is long bodied, bold ribbed, thick ended, and offers and excellent combination of calving ease and maternal excellence. He is sound footed, athletic when set into motion, and offers an eye appealing herd sire look from every angle! 110J is a full sib in blood to the recently deceased, Genex Sire, S A V Resource 1441. Resource has maintained his status as one of the truly great Angus breeding bulls in the business!

The next pair of Angus bulls are sired by Bismarck 6725, a grandson of the legendary S A V Bismarck 5682 sire of influence within the beef industry. 6725 incorporates the influence of the Proven Queen and Lass cow families throughout his lineage. This pair of brothers are big footed, deep healed, sound-built herd sire prospects that offer exceptional length and muscle expression. They are backed by generations of maternal excellence top and bottom side of their pedigrees. Rest assured that the daughters they sire will be the keeping kind!

KLER Scarlett Queen 077H initiates a powerful and deep set of bred females that are from the most prolific cow families at K-LER Cattle Company. This set of females are backed by generations of hard-working females that have built the program in St. Charles, Minnesota. 077H is a stunning red baldy sired by Hart Bourbon 100F, the performance standout that we selected from Hart Simmentals of Frederick, South Dakota. This Bourbon daughter is bold centered, square built, and has the unique features to be a big-time donor prospect for any operation. A homozygous polled female that is backed by the influence of ES 130, the ES A100 daughter that is a full sister to the dam of the legendary ES Right Time FA110-4. She posts a balanced set of data that ranks her among the top 20% WW, top 15% YW, top 10% ADG, top 20% CW, and top 25% TI. A sale feature that we believe will make a positive impact on the business with her unparalleled quality and extreme mating flexibility. Total outcross red genetics.

AI'd bred on 4/28/21 to TJ Chief 460G (ASA: 3611575). Likley safe AI. Estimated due 2/8/22.

PE to KLER/HLL Mr Game On 090H (ASA: 3813140). Estimated due 4/1/22.

Ladies and gentlemen, we are proud to present the opportunity to acquire a direct daughter of the legendary EKHCC Red Jewel 760 for your appraisal on the 20th of February in St. Charles, Minnesota. H033 is sired by RGRS SRG Two Step 20Z ET, the sharp featured son of the legendary WLTR Lydia 39U ET, an essential member of the donor pen at Walter Cattle Company of Oklahoma. EKHCC Red Jewel 760 has over 230 progeny recorded with the American Simmental Association and will continue to be one of the most important red hided Simmental females in the breed. The influence of Red Jewel can be identified throughout the top programs in North America. She sells safe AI to Game On, the son of our D336 donor dam. Power in the blood!

AI'd bred on 6/7/21 to KLER Mr Game On 089H (ASA: 3813143). Likley safe AI. Estimated due 3/19/22.

810F is a powerful young SimAngus donor dam that is a full sister to the legendary K-Ler Dolly's Queen 609D, the dam of the \$180,000 W/C Fort Knox 609F. Another full brother would be the \$48,000 K-Ler Kingsman, the high selling bull at the 2017 NWSS that was purchased by Lee's Cattle Company of Colorado. 810F is also a maternal sister to KLER Promoter G15, the anchor bull of the 2020 NWSS Grand Champion Pen of Five that now stands at Select Sires. 810F has the phenotype and pedigree combination necessary to create the next generation of SimGenetic seedstock. Progeny from the great 028X matron have sold for \$30,000 to Heartland Simmentals, \$25,000 to Werning Cattle Company, \$20,000 to Brendtro Land & Cattle, and \$14,000 to River Creek Farms. Half interest in 810F was purchased in the 2019 Cowtown Classic by Hicks & King of Indiana for \$16,000. The Lot A embryos selling are sired by WLE Copacetic E02, the multiple time National Champion and sire of countless high sellers and show ring winners. The Lot B embryos are sired by the sensational OMF Epic E27 son that topped the Oak Meadow Farms sale in 2021 at \$60,000 to Hartman Cattle Company and CK Cattle. Help yourself to a fresh, exciting mating that is certain to make for a BIG return on investment!

Offering 1 Package of 3 Reverse Sort IVF Sexed Female Embryos. Guaranteeing 1 60-day pregnancy if transferred by a certified technician.

Barbies Order 970G is a unique three-quarter blood SimAngus donor dam that is derived from the influence of the great GW Miss GPRD 028X matriarch. The W/C Executive Order 8543B x 028X combination has had tremendous success, however the addition of K-Ler Young Money to the pedigree also incorporates the maternal prowess of the legendary Sweetness donor. This set of embryos are sired by the great DMCC Counter Attack 8C, a leading member of the herd sire arsenal at Bird Cattle Company. Counter Attack has seen heavy use because of his ability to consistently inject quality, eye appeal, and presence into his progeny. 907G is the dam of the featured lot 6 herd sire prospect that was a member of our NWSS pen that is sired by S.A.M. Maternal Sibs have sold for \$20,000 ½ interest, \$7,500 and \$7,500. This mating combines the unique feature and form necessary to generate elite high percentage Simmental show heifers!

TERMS OF IVF CYCLE: Buyer will receive a minimum of six transferable embryos and two 60-day pregnancies. On all embryos produced above 10, buyer receives odd-numbered embryos, seller receives even-numbered embryos. Buyer pays IVF charges, semen cost and all freezing and/or transfer fees, with all freezing costs over 10 embryos being split odd/even between the buyer and seller.

Powerful, stout, three-dimensional... the most accurate ways to describe the genuine mass and build that the homozygous black Barbie 455B possesses. 455B is a direct daughter of the legendary GW Miss GPRD 028X, also known as "Dolly". 455B has evolved as one of the premier young donors in the K-Ler donor pen. Progeny would include KLER Barbies order 970G, KLER Revive 974G owned by Justin Cave, and KLER Barbie 44G owned by Lu's Moos Registered Simmentals. 455B is the dam of two standout members of the bull offering, KLER Stellar 031J sired by CDI Trustee 387F and KLER Outsider 056J sired by Gladiator 842F. 455B is without a doubt one of the most unique high percentage females in the donor pen at St. Charles. Daughter is Lot 54 in the sale. A generation away from a Purebred gives tremendous mating flexibility to the winning bidder of this genetic opportunity.

An exciting genetic opportunity that is straight from the heart of our donor pen here at K-Ler Cattle Company. KMJ/K-Ler Ms Prophet D3008 is a picture-perfect brood cow that offers a sensible frame size that is complemented by unparalleled body and mass. We love the type and kind of cattle that D3008 represents. To date she has only produced female progeny, which has allowed us to label her more efficiently as the foundation matron of her cow family. D3008 is a homozygous black and homozygous polled daughter of the legendary G A R Prophet that is backed by the influence of the late CCR Ms Singletary 3000A. Not only is she a phenotypic standout within the herd, but she sets herself into a league of her own numerically as she ranks top 2% WW, top 2% YW, top 2% ADG, top 3% MWW, top 10% CW, top 1% Marb, top 4% API, and top 1% TI. More impressively she offers an adjusted IMF of 5.82 to complement her balanced number profile. Bid with confidence, this flush opportunity has tremendous upside!

OMF Hard Right H21 took the business by storm last spring when he sold for \$60,000 to Hartman Cattle Company and CK Cattle. The first Hard Right progeny are hitting the ground and the early reports are nothing short of exceptional! Hard Right is backed by the strong maternal function of Hooks Angel 11A. This three-quarter blood mating offers tremendous upside when it comes to creating the perfect blend of performance, phenotype, and genotype. The planned mating EPD's indicate the resulting calf will chart top 10% WW, top 10% YW, top 10% ADG, top 10% MWW, top 10% Marb, top 10% API, and top 5% TI.

Riverbend Queenie C353 is the foundation of our Angus division at K-Ler Cattle Company. Bred in the historic Riverbend program of Idaho. The dam of C353 is a member of the CRU Cattle Company program, tracing to the influence of G A R Ext 721, a proven matriarch that is responsible for countless herd sires and individuals of influence produced at the Gardiner Angus Ranch. C353 is sired by Sitz Top Game 561X, one of the great Boyd New Day 8005 derivatives in the breed. She ranks top 5% WW, top 5% YW, top 10% RADG, top 10% YH, top 10% Doc, top 10% Claw, top 10% PAP, top 10% Marb, top 3% CW, top 3% \$M, top 10% \$W, top 3% \$F, top 10% \$G, top 2% \$B, and top 1% \$C. This flush opportunity offers unlimited options whether you decide to flush her to a Simmental or Angus bull, the mating flexibility is second to none!
