**HANEL'S BLACK SIMMENTALS**  
2022 BULL SALE • MARCH 7 IN COURTLAND, KANSAS AT 1 P.M.

# HANEL'S BLACK SIMMENTALS

Brock, Angie, Maddy, Gage, & Kollins Hanel

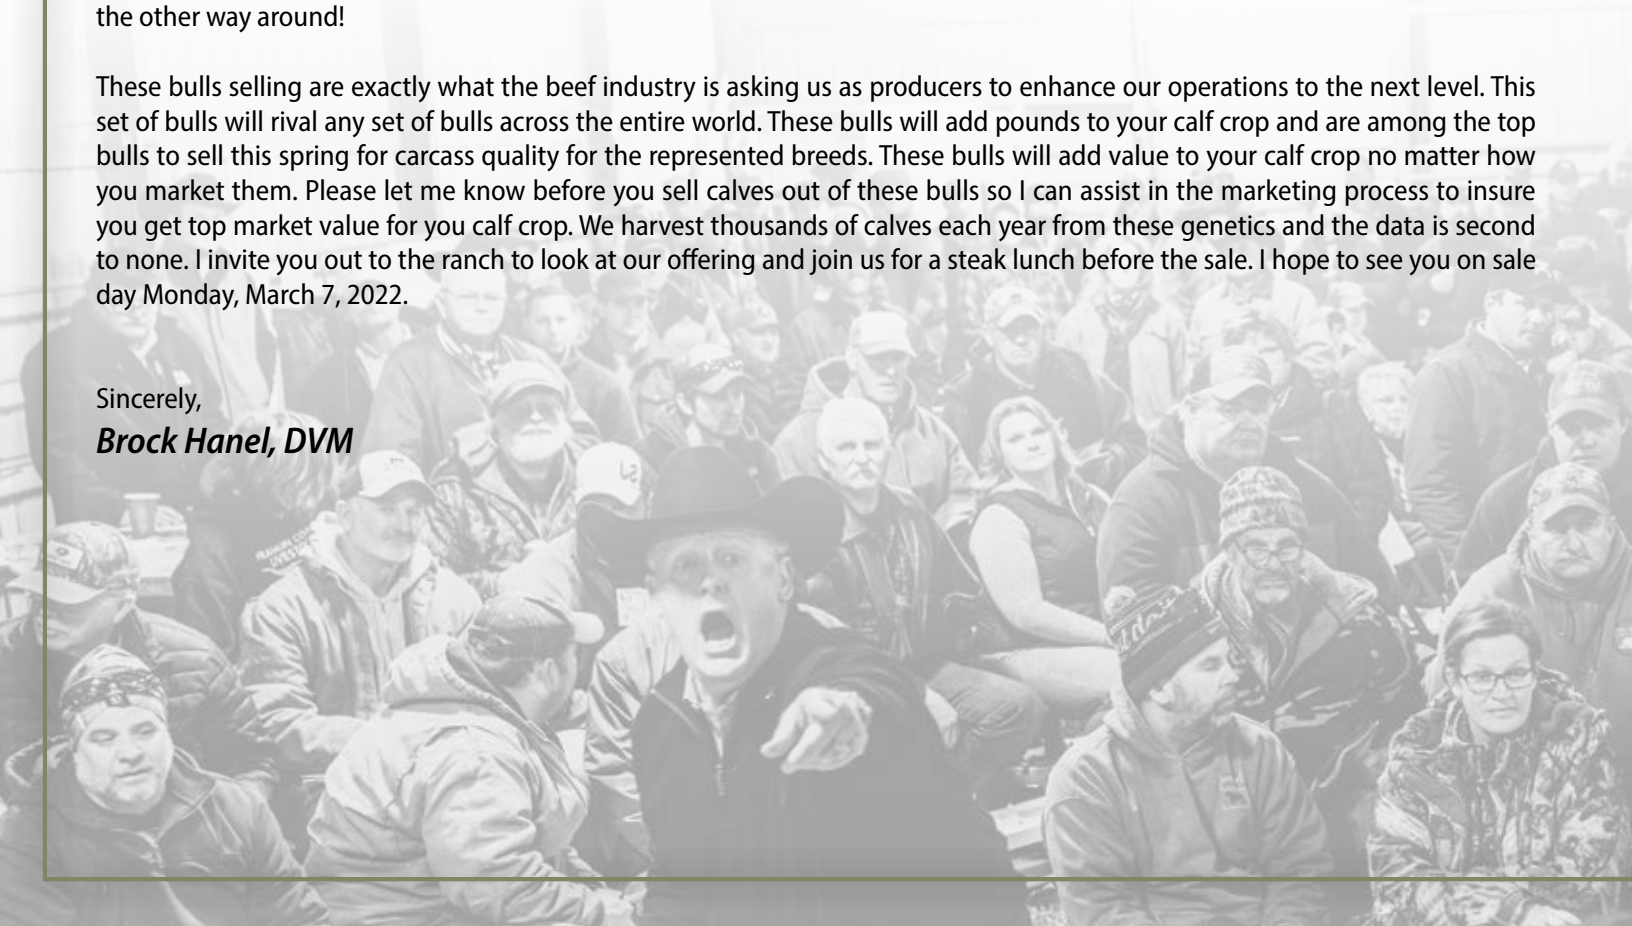

Welcome to the 4th Annual Hanel's Black Simmentals Bull Sale! While this is the fourth auction sale, we have spent over 20 years producing and marketing Simmental and SimAngus seedstock for our customers. The bulls that carry the Hanel prefix epitomize performance and have a proven history to produce a consistent calf crop year in and year out. It has always been our goal to produce honest, hard-working cattle that adhere to the standards we place on our own females for performance and function. We will not waiver from this vision.

We are excited to have Cody Cattle Company joining us again in our Black and White Bull Sale. This year there will be 190 Simmental, SimAngus, Angus and Charolais bulls in the offering. Every bull selling in this offering will enhance your bottom line with increased performance and carcass traits. NEW in 2022, we will proudly offer 40 of the most elite open replacement females straight from the heart of our program. These are the females that we would normally AI and offer in our Fall Female sale, but we have made the decision to combine the sales and offer these top tier heifers for your appraisal in March. We have different development and breeding options available for these females, please reach out with any questions you may have about how we can be of assistance to you.

This operation has the upmost respect for our cattle and our beef industry. Nowhere will you find more passionate and hardworking cattle enthusiasts than this operation. When you lay eyes on our operation you will see that in seconds, and we expect that out of our genetics. With 2022 upon us the future seems extremely bright for the cattle industry, and there is no denying that great times are ahead for you, the producers, as markets trend in the right direction for prosperity. We expect these cattle to work for you, not the other way around!

These bulls selling are exactly what the beef industry is asking us as producers to enhance our operations to the next level. This set of bulls will rival any set of bulls across the entire world. These bulls will add pounds to your calf crop and are among the top bulls to sell this spring for carcass quality for the represented breeds. These bulls will add value to your calf crop no matter how you market them. Please let me know before you sell calves out of these bulls so I can assist in the marketing process to insure you get top market value for you calf crop. We harvest thousands of calves each year from these genetics and the data is second to none. I invite you out to the ranch to look at our offering and join us for a steak lunch before the sale. I hope to see you on sale day Monday, March 7, 2022.

Sincerely,  
**Brock Hanel, DVM**

Welcome to the 2022 offering of the Black & White Bull Sale. Two of the elite, young seedstock providers have maintained joint forces once again to bring you a set of bulls that will promote hybrid vigor and scale revenue to your cattle operation's bottom line. Whether you have a purebred operation looking for an elite herd sire or A.I. stud, or you are a progressive commercial operator engaged in continued improvement and profitability, you are analyzing the right sale offering for all.

Hanel Black Simmentals have forged their name in the seedstock business over the past twenty years. Much of the credit would go to the vision and foresight of the late Dr. Lannie Hanel and Brock would be the very first to give credit to where credit is due. Brock would also be quick to thank the individuals that he conducts all business ventures with for their insight, partnership, and friendship over the years as well. Dr. Brock is aware of the team that's needed to bring these bulls to you year after year and the investment in genetics through bull acquisitions and semen to enhance the genetic quality of the stock that's offered in this sale as well.

Brock and his team have made huge strides in a short amount of time. They have remained focused on building cattle with growth performance and carcass merit while improving phenotype. They to have the ability to feed the cattle that their customers produce as they are very aggressive when it comes to customer product acquisitions to feed and generate carcass data sources. The herd health and risk management involved is second to none just like the overall follow up to customer service. Team Hanel wants to earn your business and trust for generations to come, so don't go at it alone in this competitive and volatile business and invest in a true business relationship with the outfit that has experience on their side to guide you down the right path.

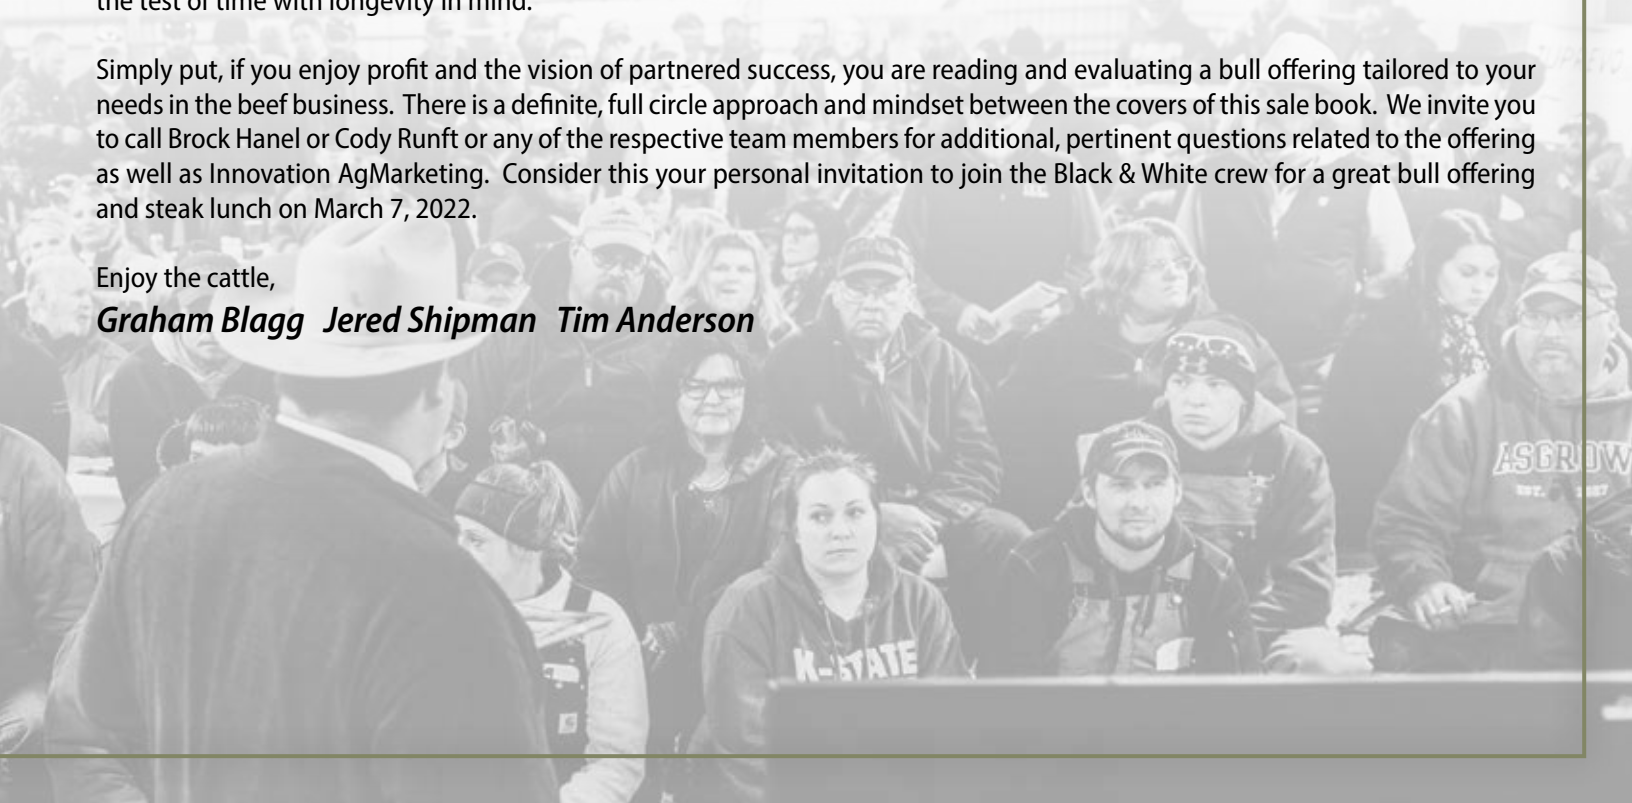

The Cody Cattle Company Family brings a wealth of knowledge and generations of quality to the offering as well. Cody, Lindsay, and the entire Runft Family and Crew are highly reputable for producing the "Top 1%"! The performance, disposition, and maternal values of the genetics offered in the Charolais division have impactfully led the Charolais breed for some time. These cattle are bred to set new industry standards each and every year as they consistently bring stock that push the positive side of the outer edge to another level annually.

The white hided cattle are represented with full disclosure and transparency. Cody will flat out, directly tell you if there is the slightest of issues with any of the bulls. He is relentless on hoof quality, structural integrity, conversion, fertility, and the maternal qualities that support this set of bulls annually. These cattle are bred and sorted by an outfit that loves curve benders that weigh, stock that are superior in their phenotype, stock that not only provide power and shape, but stock that will survive all trends and the test of time with longevity in mind.

Simply put, if you enjoy profit and the vision of partnered success, you are reading and evaluating a bull offering tailored to your needs in the beef business. There is a definite, full circle approach and mindset between the covers of this sale book. We invite you to call Brock Hanel or Cody Runft or any of the respective team members for additional, pertinent questions related to the offering as well as Innovation AgMarketing. Consider this your personal invitation to join the Black & White crew for a great bull offering and steak lunch on March 7, 2022.

Enjoy the cattle,

**Graham Blagg Jered Shipman Tim Anderson**

Cattle on display all weekend prior to the sale.

**MARCH 7, 2022**

Cattle on Display - 9:00 AM

Steak Lunch Served - 12:00 PM

**BLACK & WHITE SALE BEGINS - 1:00 PM**

**This sale will be broadcast live on the internet.**

***DVAuction***  
***Broadcasting Real-Time Auctions***

**Real time bidding & proxy bidding available.**

## BULL GUARANTEE

Unless otherwise noted, all the breeding age bulls will have passed a breeding soundness exam prior to pick up/delivery. In addition to the standard Terms and Conditions of the American Simmental Association and the American International Charolais Association we will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all yearling and older bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price less the salvage value of the animal.

## VOLUME DISCOUNT

Purchase 5 or more Bulls and receive 5% off your total purchase price.

## SEMEN INTEREST

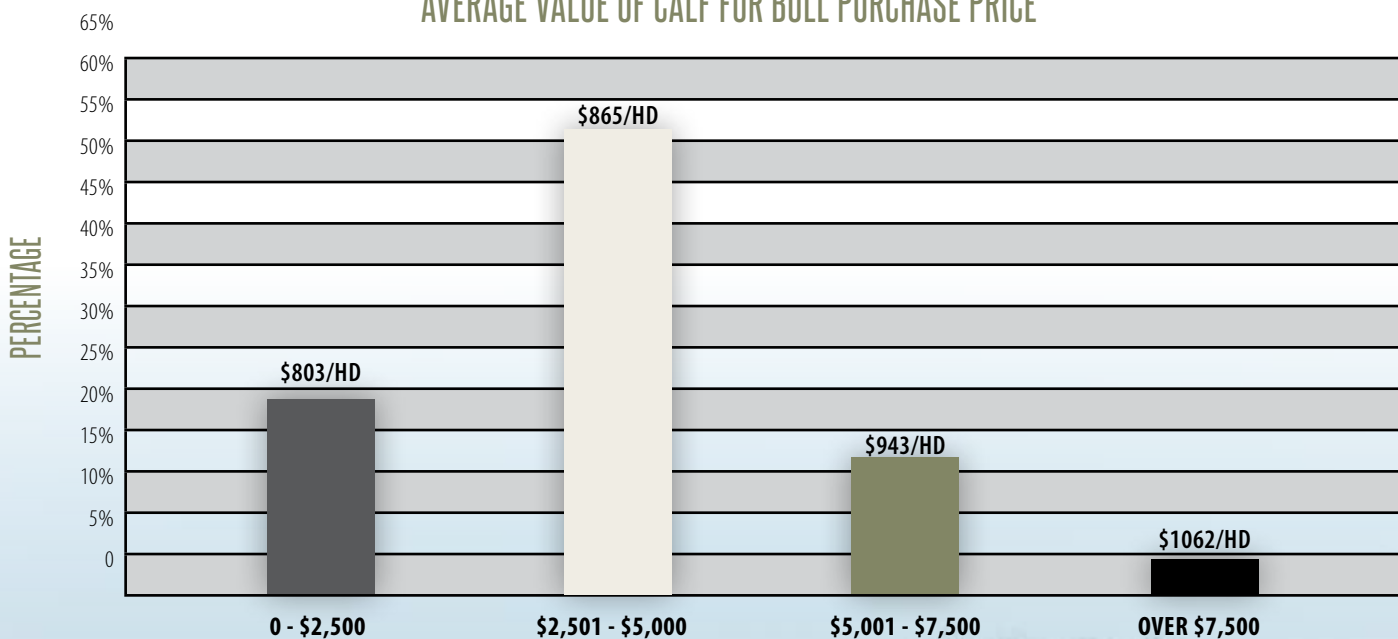

Retaining 1/3 semen interest in all bulls selling, unless otherwise noted or announced.

## TRUCKING

Free delivery within 200 miles and \$50 sale credit if bull purchase is picked up the day of sale. Otherwise, please contact the sales team for assistance with transportation for your cattle purchases. We will work with volume buyers and those outside the 200-mile delivery range. Dick Coleman is an approved and recommended professional trucking option. (765) 461-0954.

# THE POWER PLUS SONS

**LOT 101**

Hanel Foreman J1070 leads off the 2022 edition of the Black & White bull sale! Without a doubt one of the most powerfully constructed bulls ever produced in Courtland, Kansas. Foreman is a direct son of HSR Power Plus D206, a past sale feature in the Dakota Express bull sale that now stands at Hart Simmentals in Frederick, South Dakota. We sampled Power Plus to add performance, shape, and real-world practicality. The dam of J1070 is one of the proven matriarchs in the donor pen at Hanel's Black Simmentals. M4 Ms Capital Gains C75 is the powerhouse M4 Ms Capital Gains C75 donor that has been a staple in the donor pen for the last several years at HBS. Sons have been highlighted in past sales and sold to some of the top cattlemen in the region. James Wiedel, Trent Sorenson, Lloyd Jones, Heath Allen, and Drew Winder to name a few of the cattlemen with C75 sons working in their programs. Hanel Turnbuckle G9039 is one of the powerful young bulls that walks at HBS, his first set of sons will be featured in this very sale on March 7, 2022. The power and consistency of the C75 cow family is certainly noteworthy. Foreman charts top 15% WW, top 20% YW, top 25% ADG, top 10% MWW, top 15% Stay, and top 10% CW. He came to the weaning pen with nearly 750 pounds of adjusted weaning weigh without any creep feed this summer, after recording a moderate birth weight of 83 pounds. Here is the opportunity to acquire a herd sire prospect that will see heavy use back in the HBS herd through the extensive AI program. A true sale highlight!

Hanel Power Plus J1062 is another standout SimAngus herd sire prospect from the HSR Power Plus D206 sire group. The dam of J1062 is a top daughter of Connealy Forward. We appreciate the stout, rugged, three-dimensional build that this performance standout brings to the table. J1062 ranks top third of the breed for both WW and YW, while charting among the top 3% for Milk, top 10% MWW, top 15% Stay, and top 10% CW. Here is a big centered, easy fleshing, rugged herd bull that will add pounds to your feeder cattle at weaning and sire a set of replacement females that you will insist on keeping!

J1028 is a Purebred Simmental sired by HSR Power Plus D206 that is backed by a top daughter of HC Hummer 12M that is 11 years old and still in production. Last year the first son to be sold from X010 was purchased by Kris Bruning of Colorado. Every daughter prior has been kept back as a replacement in herd at Hanel's Black Simmentals. J1028 ranks top 5% for Milk, top 15% MWW, top 15% Stay, top 10% CW.

# THE STATE OF WAR SONS

**LOT 105**

We sampled Hart State of War 056C in our ET and AI programs and the results certainly exceeded expectations! The first four sons in the State of War sire group are backed by TJ Miss 63F, a new and exciting donor that we acquired from the Triangle J Ranch program. 63F is a daughter of TJ Franchise 451D and is backed by the TJ 42A donor that has put several sons to work in top programs across the country. J1033 is a prime example of what you can expect from this set of ET flushmate brothers in terms of length of body, depth of rib, and structural soundness. As a flush these brothers are big REA bulls that offer exceptional IMF without excessive back fat. We appreciate the lean performance and power that these SimAngus bulls possess and believe that they will positively contribute to any set of Angus based cows. They rank top 20% CE, top 10% WW, top 15% YW, top 25% ADG, top 20% MCE, top 10% Milk, top 4% MWW, top 20% Stay, top 20% Doc, and top 20% Shr. These four brothers are also homozygous polled by pedigree. If you're looking for a set of full brothers to turn out in order to increase the uniformity of your calf crop, the search is over!

J113 is one of the heaviest weaning weight bulls in the entire offering with a recorded WW Ratio at 114. Pounds pay!

# THE TURNPIKE SONS

**LOT 114**

The next pair of ET flushmate brothers are sired by the \$71,000 Rubys Turnpike 771E, now a member of the illustrious herd sire battery at Werning Cattle Company. The dam of this pair of performance standouts is the foundation female in the donor pen at Field Cattle Company. GLS Miss Cut E10, the prolific daughter of CCR Cowboy Cut 5048Z is most known as the dam of Field's Gunslinger, the \$19,000 high selling Simmental bull in 2020 that was selected by Hart Simmentals of South Dakota. Several daughters of E10 have been retained in herd at Field Cattle Company to carry on the next generation of Simmental genetics from this powerful cow family. Field's Juggernaut is without a doubt one of the most impressive individuals in the offering when it comes to performance and stoutness. He is among the top 2% of the breed for WW, YW, ADG, MWW, and CW. He also charts top 10% Milk, top 30% Marb, top 25% REA, top 15% Shr, top 25% API, and top 10% TI. He came to the weaning pen with 953 pounds of adjusted weaning weight performance! Field's Moon Shot, the ET flushmate brother is also a standout in terms of genuine shape, body mass, and structural soundness. He charts top 25% YW, top 15% ADG, top 10% Milk, top 15% MWW, top 25% CW, and top 15% Shr. Both brothers are homozygous black and homozygous polled Purebred Simmental bulls that will add consistency, uniformity, and quality to your next calf crop. Help yourself to a direct son of the great GLS Miss Cut E10, a female that is on her way to writing her own chapter in the business!

Hanel Turnbuckle G9039 is a bull that we are fortunate to use and could not be more pleased with the way that he has matured and the powerful breeding bull that he has become. Turnbuckle is backed by the prolific C75 donor that is also the dam of Foreman, the lead off bull in the year's offering. We love the mass, genuine dimension, and athletic stride that this Turnbuckle son possesses. His dam is a top daughter of Pale Face that traces to the Black Irish Kansas influence. This Purebred herd sire prospect ranks top 20% YW, and top 15% ADG. A true performance standout that came to the weaning pen with over 700 pounds of adjusted weaning weight performance to post a WW Ratio at 110. Sale feature!

J1154 is the lowest birth weight son of Turnbuckle that came to the weaning pen with over 730 pounds of weaning weight performance to record a WW Ratio at 104. A maternal brother sired by Cowboy Cut was selected by our good friends at Pruitt Farms in 2019, while a maternal sister is working for Adam Reedy that was purchased in our 2018 Female Sale. A3005 always brings one of the standouts in at weaning. Consistency is key!

# THE COWBOY CUT SONS

## LOT 120

CCR Cowboy Cut 5048Z continues to lead the breed in terms of all time registrations within the American Simmental Association Herdbook, with well over 10,000 progeny recorded to his name. Cowboy Cut has been used in a wide variety of breeding programs from coast to coast and border to border with tremendous success. We initiate the Cowboy Cut derived sire line with a set of brothers that are sired by Hanels Cowboy Cut D6208, the rugged and powerful son of the ES X51 donor dam that was bred in the Eichacker Simmentals program of South Dakota. J1211 is a stout featured, powerful Purebred that is backed by the influence of Pale Face and Power Plus. J1211 charts top 25% WW, top 20% Doc, and top 25% Stay. He posted a WW Ratio at 102 with over 730 pounds of weaning weight performance.

One of the stoutest and most rugged sons of D6208 in the offering when it comes to foot size, shape, and length of body. We admire the Cowboy Cut lineage because of the daily gain and real-world performance that they possess. J1133 is an ultra-bold ribbed, loose built bull that is flexible on the move. This three-quarter blood SimAngus bull charts top 15% WW, top 25% YW, top 25% MWW, and top 5% Stay. A performance standout that posted a WW Ratio at 106. A standout three-quarter blood that is certainly a favorite of many that have been through the offering.

A trio of ET Flushmate brothers sired by the \$205,000 W/C Bankroll 811D are certainly worth the trip to Courtland to inspect this powerful and versatile set of Simmental and SimAngus herd sire prospects. The donor dam that supports these SimAngus studs is sired by the maternal legend, O C C Joker 620J, one of the greatest sons of O C C Emblazon 854E ever produced. 9613 is backed by the maternal influence of O C C Genesis 872G from the famed O C C Dixie Erica 814G matriarch, one of the highest dollar generating females to ever come out of the Ohlde program. O C C Dixie Erica 814G is the foundation matriarch at Duff Cattle Company and is most well known as the dam of Duff New Look 101. These full brothers are stout featured, bold ribbed, dense made and offer excellent rib shape and fleshing ease. We love the maternal power that backs them genetically as they incorporate the influence of 8543U and 814G, two of maternal greats in the business. If your operation needs a set of female makers, look no further!

This SimAngus son of F8102 ranks among the top third of business for WW and YW. His dam is a TNT Axis X307 daughter that traces to the great ES X51 donor dam. He came to the weaning pen with over 700 pounds of pay weight. Jerry Jensen purchased a maternal brother by Dividend in 2020, and Jeff Pruitt has a maternal sister by Cowboy Cut that was a featured lot in our 2019 Fall Female Sale.

We have sampled some of the leading bulls to surface in the CCC program over the last few years to create a terminal cross sire that offers exceptional growth and extension with the ability to convert. CCC Mescalito 9038 P was a sale feature in 2020 when he sold for \$62,500 to the Mescalito Syndicate. This black hided stud is certain to add pounds, length, and growth to a set of calves that will result in market topping prices! Help yourself to a standout half-blood with exceptional carcass data.

# THE AGE ADVANTAGE BULLS

## LOT 193

We initiate the age advantage Fall bull division with a pair of ET flushmate brothers that are certain to catch you attention on sale day. H0508 and H0510 are both sired by the \$71,000 Rubys Turnpike 771E and supported by the strong maternal influence of C75. A maternal brother leads off the sale as Lot 101 this year and is certainly a testament to the generating capabilities that supports the maternal side of their lineage. This pair of brothers are homozygous polled three-quarter blood SimAngus bulls with tremendous growth and power. They ranks among the top 10% for WW, top 10% for YW, top 25% for Milk, top 10% for MWW, top 15% for YG, top 10% for BF, and top 15% for REA. This is a pair of brothers that you can count on to inject maternal excellence into a set of females!

H0512 is a long bodied, thick ended Cowboy Cut derivative that is supported by a bold ribbed, easy fleshing female that was our pick of the Clear Springs Cattle Company program of Minnesota. We purchased 703E because of the unique combination of phenotype and genomics that she offers. She has matured into a role model brood cow that has quickly earned her keep in production. We sold a set of embryos sired by Rubys Turnpike 771E that were purchased by our good friend Troy Marple. He sold two sons of 703E, M4 Interstate 062H and M4 Freeway 063H in the 2021 Gold Bullion Sale. H0512 was the natural calf of 703E and is arguably one of the most complete bulls in the entire offering. Be sure to study his video online or make the trip to Courtland, Kansas to evaluate him for yourself! We like the combination of maternal stability, carcass merit, and real-world performance that this herd bull candidate brings to the table.

One of the standout calving ease options of the age advantage bulls that is backed by the influence of the Red Angus sire of impact, Messmer Packer S008 on the maternal side of his pedigree. He is sired by the tried-and-true calving ease specialist that is a member of the Select Sires line-up. He charts balanced data across the board and boasts a moderate 74-pound birth weight and spreads to 770 at weaning time with a WWR at 104. Recommended for use on heifers.

H55 is an ultra-stout, heavy duty built half-blood son of the widely popular KR Casino 6243. His dam is top producer, with several females that have been put back into the herd. A maternal brother sired by CCR Cowboy Cut 5048Z was selected by Greenwood Cattle Company. Casino semen is rare and in high demand, averaging north of \$450 per unit when sold! Here is a direct son of Casino that will add pounds and dimension to any set of cows.

Hanel Blackhawk J1001 is a son of Connealy Blackhawk 6198 and from one of the foundation Angus females that we purchased from the historic Mill Brae program when they dispersed. This big bodied, bold ribbed Angus stud comes with a balanced number profile to accompany the functionality that his build offers. He ranks among the top 30% for CED, top 25% WW, top 30% YW, and top 20% \$W. A potential heifer bull candidate based on his credentials.

B/C Casino 0914 is a standout son of the great KR Casino 6243, a sire that has become limited on semen and when offered has commanded as much as \$450 per unit! The dam side of the equation is without a doubt special, as the female that supports this age advantage bull is certainly one to marvel at. Massive in terms of her rib capacity, perfect udder design, and sets to the surface with confidence and ease. She defines the term low maintenance and is without a doubt one of the standout females ever raised in the Eby Ranch program! 2162 was selected by the Hicks firm, now of Kentucky for use in their SimGenetic program. Help yourself to a powerful individual that offers tremendous upside from a pedigree standpoint.

*The Black & White Sale*  
**SIMMENTAL FEMALES**

# THE FEMALES

NEW in 2022! We are excited to offer the females from the heart of our program as open replacements for you to select from based on the needs and direction of your respective program. Traditionally we have hosted a Fall Female sale each year the first Monday of November. We have decided to consolidate our offering to a single day to accommodate our customers. These females are the mates to the yearling bulls we are offering in this same catalog. They are backed by hard working, productive, no-nonsense type cows that get the job done year after year. Strict selection pressure is put on the cow for udder quality, foot shape, disposition, and fleshing ease. Please visit with Brock about the AI breeding and development options that Hanel's Black Simmentals is willing to assist with. A great opportunity to invest in the future of your program with the most current and cutting-edge genetics from HBS!

**We believe in our genetics and want to buy back your SimGenetic feeder cattle.**

### **ASK ABOUT OUR PROGRAM**

- 20,000 head capacity
- State of the art facilities
- Bull Customer feeder calf premium buy back

**PREMIUM FEEDERS, INC - Premium for Performance**

**Brock Hanel: (785) 275-1060**

*Thank you to our Meat Sponsors!*

*We proudly introduce the newest member of the herd sire battery at Hanel's Black Simmentals...*

## **"Doc"**

CCS/JS DOC 48H | ASA: 3946541  
CDI Innovator 325D x WHF Summer 365C

"Doc" is a tremendous NEW addition to our herd sire battery. He offers an unparalleled combination of phenotype, genomics, and performance. He is backed by one of the highest dollar generating females in the business that continues to prove herself as one of the great young Simmental females in existence. "Doc" is a full brother to Ole Son, as well as the newest member of our donor pen, CCS/UDE Summer 22H. The phrase "power in the blood" has never rang truer!
