Dear Cattle Friends,

On behalf of all of us here at Thomas Ranch we would like to welcome you to our 50th Annual Production Sale. We would like to thank you for taking the time to look through our sale offering. It is quite an exciting year for us as this is not only our 50th annual production sale we also celebrated Harry & Kay's 60th anniversary in December.

Anyone who puts on a sale knows the countless hours and hands that it takes to put it all together. Without the help from our three full time employees, Mardy, Laura, and Bill we would not be able to get it all done. Although Cally and Clint live 4 ½ hours away we are fortunate to have Cally back on a regular basis to help when needed. There are also fellow cattlemen and women who also come to help when called upon, without all these much-appreciated folks none of our accomplishments would be a reality. As producers we have a great responsibility to manage the land and tend to the livestock and we here at Thomas Ranch take that responsibility seriously.

Beef is the number one protein of choice in this world. It's been proven that when folks all over the world have more disposable income the first thing that they buy is better protein (beef). The USA has the best farmers and ranchers in the world and when given a choice of beef the world over chooses American Beef. As we continue to endure this pandemic, we see that Americans are learning to cook and prepare their meals at home and this has been Good News for beef producers. Consumers are willing to pay the price at the counter.

The bulls and heifers are all developed here at the ranch under the guidance of Dr. Dan Herold from Hubbard Feeds. We strive to grow these cattle and not fatten them. Our goal is to have cattle with sound feet, longevity and to be profitable for our customers. They are fed a 48-meg ration with the goal of gaining 3 to 3.25 pounds per day. The ration consists of ground hay, alfalfa, silage, distillers and rolled corn.

The bulls have been ultra-sounded, performance tested and EPD's are available; these are all valuable tools but visual appeal and structural correctness are still a must. We strive to produce and present to you, our valuable customers, with the best cattle possible. Whether you are looking for calving ease bulls or power herd bulls to add weight at weaning we have the bulls to fit your needs. There is also a nice selection of bulls that have ideal maternal traits for the cattlemen and women who are looking to retain heifers in their herds. There are many ½, ¾ and full brothers. Sort through the bulls and their data and find what's good for your cowherd. Better yet, give us a call, tell us about your cowherd and we can help you choose a good fit for your outfit.

We will again be doing a video auction with CCI.Live. Videos will be available on all bulls by April 1, 2022. Thomas Ranch guarantees sight unseen purchases, volume discounts and an unconditional 1st breeding season guarantee. A beef lunch will be served starting at 11:30 am and the Angus bulls sell at 1:00 followed by Charolais, Simmental, SimAngus and Red Angus, and finally the heifers. Our goal here at Thomas ranch is to provide our customers with long lasting breeding bulls and/or heifers that you can be proud of.

INNOVATION

— AgMarketing, LLC —

Ladies and Gentlemen,

The people that back the brand and the program in Harrold, South Dakota are as intense on making their product as good as they possibly can as anyone in the seed stock business. They are passionate about what they do, they enjoy what they do, and they get their ultimate satisfaction through their customers' success. Each and every decision made is based with a frugal mindset but not one that sacrifices quality or significant advantages that can be passed on to the ranch's bottom line or on to their long term, dedicated customers. Their intense investment in time, sire research, and customer herd visits allows them to make educated decisions about the next genetic line to be offered to you and utilized for multiple seasons in the program.

As you read through the offering one will notice that the sire groups represented are kept to a select few. The continuous cross back and forth between them is methodical and proven. Sires like Sonic Boom, Rave, Ashland, Broken Bow 002, Rainmaker 4044, Rally, Barstow Cash, and 1682 take up the lion share of the Angus gene pool. Those sires represent generations of proof positive pedigrees and results with very little left to question. The well rounded EPD and index profiles are as solid as they come breed wide while still offering that traditional South Dakota Rancher style and appeal inclusive to the total package. The dedication to the Angus division of TR is priority as "the business breed" would account for a very dominant portion of the ranch inventory.

The Charolais inventory would represent what the TR is world renowned for. White hided cattle have been synonymous with the Thomas name for multiple decades. Multiple national champion sires and females have been born and raised on the pastures of Sully County and those same genetics would be the foundation of yesterday and the trend for today throughout the entire Charolais offering. Troy's passion to keep the cattle fault free with balance, eye appeal, and optimum shape and dimension allows for the set being offered. We are certain that you can find one or multiple sires to suit any scenario in this set of bulls as we truly believe they offer more to the industry than ever before with more ruggedness and real-world performance.

The Simmental and Red Angus influence have also been a mainstay for TR for a multitude of years. Much like the other breeds tied to the ranch, the Simgenetics and Red stock have been built to follow industry standards and demands without sacrificing phenotype and longevity. These two breeds have always been in high demand in the early April bull

trade and rightfully so. Both have an initiating end that are loaded with bone, substance, shape, density, and hoof quality needed to withstand any environment. The SimGenetic studs offered are the kind that will provide the needed heterosis in a British based cowherd supply that needed extra punch for growth, power, and weight. Whereas the red stock are ideal for use in any Red Angus or exotic based cowherd to moderate birth weight, improve fleshing ability, enhance carcass merit, or leave a set of daughters to retain from a commercial perspective. Both sets of cattle are suitable for any seedstock operation as well with the look, genetics, and phenotype they offer throughout.

The records at TR are undoubtedly priority one! We promise you that the paperwork behind this offering is bulletproof, as Veabea and Laura are very dedicated and committed to making sure that everything is documented and recorded correctly. All the necessary data and needed info has been submitted to the respective breed associations in a timely fashion to prepare the information that sets between the pages of this sale book. Rest assured that the printed material is as accurate as it can be. With that said, the set of open females would represent years of production records and recordable data as they are a very elite sort. These females have left the ranch over the years and branded the programs that have invested in the quality product. Fertility, structural integrity, and longevity are bred into them along with the support of the most current genetics from the sire side but backed by nearly a half century of ranch raised cow families that have that ranch bred grit and maternal instinct. 2022 allows for TR to offer one of the absolute very best group of females they have held for public appraisal, so prepare to make one of the soundest investments you can make in this day and time.

In closing, we would like to extend the invitation to join the family and ranch team at Thomas Ranch for their annual bull and female offering on April 12, 2022. Please pay close attention to the sale schedule of events in order to plan for the breed that you may have primary interest in, but we would prefer you to join us for the entire day. Great cattle and great people always go hand in hand. Feel free to reach out to any of the ranch team members or Innovation AgMarketing group for assistance with anything that you might need about the offering.

Thank you for your interest,

Graham Blagg Jered Shipman Tim Anderson

THE 50TH ANNUAL THOMAS RANCH PRODUCTION SALE

SEMEN INTEREST

Thomas Ranch will retain 1/3 revenue sharing semen interest in all bulls selling in this sale unless otherwise stated. Buyer receives full possession and 100% salvage value.

BREEDING SOUNDNESS EXAM

All bulls will have passed a fertility test before delivery. Any bull picked up sale day is guaranteed to pass a semen test. Thomas Ranch will pay for semen test costs. Scrotal measurements that are printed in the sale catalog were recorded on March 7, 2022 (Angus) and March 8, 2022 (Charolais, Simmental, & Red Angus).

HERD HEALTH

- All bulls and heifers were preconditioned in August with BoviShield Gold 1 shot, Vision 7, Autogenous Mycoplasma/Histophilus, Autogenous Pinkeye.
- Boosted at weaning with BoviShield Gold 1 shot, Vision 7, Autogenous Mycoplasma/Histophilus. Repoured in December with Clean Up and injectable Dectomax.
- Heifers had their pre-breeding shots and were bangs vaccinated on November 22, 2021. They were also given a BoviShield FP5, VL5 on March 18, 2022 and were repoured with CleanUp.
- Bulls will be furnished with interstate health papers as needed
- All registered Angus bulls are AM, NH, CA, OS and DD FREE by DNA test or pedigree unless noted in the catalog. All registered Red Angus bulls are OS FREE by DNA test or pedigree.

DELIVERY

Thomas Ranch will offer free delivery on bulls beginning May 1, 2022 to South Dakota and surrounding states. A \$50 bill will be given for each bull hauled between April 13 through April 20, 2022. After May 1, 2022 bulls left at the ranch will receive a \$3 per day feed Thomas Ranch charge. Bulls left between the sale and May 1 will be fed free of charge. We will assist in finding affordable and reliable delivery options to other parts of the country for bulls and heifers.

EPD's & ULTRASOUND DATA

EPDs printed in this catalog for the Angus offering were current as of March 18, 2022. Ultrasound information (%IMF, BF, & REA) are adjusted numbers.

VIDEOS

Videos will be available at www.thomasranchcattle.com and on CCI.Live around April 1, 2022. Videos done by Focus Marketing Group.

LUNCH

Please come and enjoy a complimentary noon lunch at the sale facility Tuesday, April 12, starting at 11:30 a.m.

TERMS

The terms of the sale are cash or check payable at the sale facility unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released or transferred. All cattle sell under the standard terms and conditions of their respective breed associations. All major credit cards will be accepted with an additional 3.5% buyer's premium.

SIGHT UNSEEN PURCHASE GUARANTEE

Buyers unable to be present may contact us for assistance. Bulls sent on order by management will be guaranteed to meet the buyer's acceptance. Buyers may also contact the Auctioneers, ring staff, or any authorized representative listed in the sale catalog for assistance. Buyers may also register through CCI. Live to bid during the auction.

ANNOUNCEMENTS

Errors discovered in the catalog will be corrected by announcements from the auction block at sale time, and such corrections will take precedence over the printed material in the catalog.

VOLUME DISCOUNT

5% on 5 or more bulls purchased, and 10% for 10 or more bulls purchased. Any credits will be deducted before volume discounts are figured.

BREEDER'S BULL GUARANTEE

Bulls selling for more than \$3000 are guaranteed for 90 days from first turnout against breeding injury. If a replacement bull is available, he will be provided. If a replacement bull is not available, credit will be given in next year's Thomas Ranch Bull Sale. Credit will be for the purchase price less volume discounts and salvage value of the injured bull to be used for the purchase of one replacement bull. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made prior to Oct. 1, 2022. This is not a mortality insurance policy.

INSURANCE

Mortality insurance will be available sale day through Martin-Trudeau Insurance. Any deviations from the above statement will be worked out between the buyer and Thomas Ranch.

ACCIDENTS AND LIABILITY

All persons attend the sale at their own risk. The seller and sales management assume no liability, legal or otherwise, for any accidents occurring in, on, or about the premises.

Here's the initiating Sonic Boom son of the offering from an evidently very productive daughter of the herd bull, KR Rally. Pounds, mass, and overall performance is not in short supply with this powerhouse stud. He's one of the heavy adj. weaning weight bulls of the day at 764 pounds to ratio an astounding 123 and completes the performance profile with a YWR 122. He's quite impressive where he ranks amongst his contemporaries as well. Top 1% WW, YW, and \$F to mention a few, top 2% \$C, RADG, and MW, top 5% \$B, and top 10% \$M, \$W, and DOC. No question that he can offer nearly all of it on any set of mature females.

BAR R JET BLACK 5063 Maternal Grand sire of Lot 7

Big Spread Genetics

LOT 8
TR GROWTH FUND 1094J

As we initiate the Growth Fund sire group, we think that you will appreciate the overall completeness in phenotype and numeric values as much as any one sire group in the book. This sire has been used extensively across the land with very similar and equal results across multiple programs. This lead off son is in the top 2% for \$W, top 3% WW, YW, top 10% \$M, CED, top 15% \$F, top 20% \$C, Milk, and multiple traits in the top 25% of the business. He too weighed a stunning 709 to ratio 114 at weaning and carried the weight advantage to yearling to ratio of 108. His dam would be the contributing force with 3 head recorded at weaning to ratio 110 and those 3 ratioed 108 at yearling time.

LOT 9
TR GROWTH FUND 1070J

1070J Ranks in the top 2% \$W, top 10% WW, top 15% \$M, BW, YW, and Milk. This stud ranks in top half of the business for 13 other traits as well as being right for the times physically. Under the hide, he is as balanced as they can be with an IMF measurement over 4 and a REA at 15.3.

TR GROWTH FUND 1093J

Another Growth Fund son from a Next Step dam that gets it done. He ranks in the top 3% \$F, RADG, and YW, top 4% \$W, top 5% WW, top 15% \$C, RE, top 20% \$B, and top 25% \$M.

**DEER VALLEY
GROWTH FUND**
Sire of Lots 8-11

LOT 11

TR GROWTH FUND 1113J

Phenotype, balanced performance across the spectrum of what is important to ranching's bottom line, sensible birth and CED with top third performance. Here is one that daughter retention should be strongly considered as his dam records 3 @ weaning to ratio 104 and 3 @ a year to ratio 105.

The Rave sire group has definitely etched its place in the TR bull battery. They are consistent cattle with beef business merit and maternal power much like you find represented in this next pair of herd bull prospects. Lot 12 is in the top 1% of his contemporaries for WW, YW, and \$W, top 2% \$F, RADG, and top 4% \$C, \$B, and RE. This one offers built in measurable performance as well with a WWR of 107 and a YWR of 111 that is earned from a 5.61 gain/ day.

Ashland has done a great job nationwide in siring stock with industry appeal and high standards for the numeric values. Cattle that are proven high sellers with dollar generating stories and merit. This impressive direct son is all that and then some with his bar raising phenotype and genetic profile. He is in the top 10% for \$G, RE, CED, and WW, top 25% YW and \$W, while maintaining \$C and \$B values in the top half of the business breed. Across the scale he measures with a WWR of 111, a YWR of 103, and has a dam that has sent 5 to the weaning pen to ratio 101.

9	3	84	142	18	0.58	0.8	70	74	98	149	263

This grandson of Leupold offers a lot to the business with some extra length and density. He's wide and big spread in his performance game as well ranking in the top 3% for WW, 5% for YW, and maintains a sensible top 30% ranking for CED. However, what might be even more impressive would be his rankings across the board for his index values. Top 20% \$C, \$W, and \$F, top 30% \$B, top 35% \$M, and Top 35% \$G, shear balance in the profile is all one can say and with his adjusted data it becomes more evident of his total value with a WWR of 109, a YWR of 103, and an impressive 16.2 REA scan.

The Hometowns bring a lot to the table from all angles of production and measurements. 1185J scans a 15.2 REA and came across the scales with over 600 pounds of payweight at weaning and over 1260 pounds of yearling. His dam records 6 at weaning for a ratio of 109 and 6 at a year to ratio 107. This stud ranks in the top 1% for SC and Doc, top 2% \$C, top 3% \$G and \$W, top 4% \$B, top 5% Marb and \$M, top 10% WW and YW, top 15% \$F and Milk, top 20% RE, and the top third of the business for CED, CEM, and PAP.

This herd bull candidate comes to you with all of the basics covered. He has a very sensible birth weight of 71 with a scale pounding weaning weight of 709 to ratio 111 and followed that up with a 1339 yearling measurement to ratio 105. His dam is a very experienced producer bringing 5 head to the weaning pen to ratio 104 and those same cattle combined for a 104 ratio at a year as well. There's no question this calf has all the measurable good especially when you realize that he scans with one of the biggest REA of the day at 17.2.

We offer another son of the curve bending sire group known as GAR Hometown. He posts a WWR of 104, a YWR of 103 and he is backed by a dam that posts a WWR of 105 on 2 and a YWR of 104 on 2, very impressive indeed. His ultrasound data raised the bar for certain measuring over 4.3 on IMF and a near 16 for REA. He is a top 2% \$C, \$G, and CEM sire with a top 3% rank for \$W, Marb, and Milk, top 5% \$B, top 10% CED, top 15% RE and \$M, top 20% \$F, BW, and Angle, top 25% WW and PAP, and top 30% YW.

Folks, great bulls all the way through, all day long in the annual TR Bull Sale, and 1478 is an awesome specimen in terms of performance. He weighed in over 730 pounds at weaning to ratio 115 and carried that advantage to ratio 107 at a year with a 15.2 REA. His dam records 3 at weaning and yearling to ratio 102. This calf ranks in the top 20% for \$W and DMI, and top 25% RE.

The Charolais
BULLS

LOT 123 TR MR OUTSIDER 1709J ET

A pair of three quarter brothers that stem from the most notable pedigrees we have ever been apart of will initiate this 50th Anniversary offering of Charolais Bulls! TR Mr Outsider 1709J stems from one of the most dominate and accolated mating's in the history of the Charolais business, a direct son of the legendary M&M Outsider 4003 and a female that matches this status, TR Ms Montella 1572Y. Needless to say the pedigree here is enriched with the most prolific individuals to graze the hills, north of Harrold. 1709J has the extra degree of mass and substance that elevates his position to the front of this dynamic and versatile offering of Charolais bulls in 2022. The second of the pair is sired by Carbon Copy, he is even further impressive in his curve bending growth pattern, and surfaced as the leading IMF bull in the offering with a colossal 128 ratio. The pair are brothers to several national champions, breed leading producers and high sellers including females like Berkly and Dottie. Invest in the future of your cowherd with a quick injection of the most notable genetics the breed has ever seen. Full Brothers to lot 123 sell as lots 156 and 161.

TR MR OUTSIDER 1965J ET

A pair of three-quarter brothers that could lead off any production sale in the nation. Their dam continues to solidify her position at the helm of the donor pen here at the Thomas Ranch, and her genetic potency and heritability of elite phenotype proves to be timeless. These two are proof in the pudding, being bulls that have a unique combination of eye appeal, power, structural integrity and growth. The immense quality exists on either side of the hide elevates their position to some of the most unique, and herd changing type herd bulls to come out of the program to date. Pick your poison and buy with confidence here as the story has already been wrote, and either individual in the pair has the quality for the occasion.

We love the combination of mass and functional design in this later maturing son of Carbon Copy. We predict him to generate value on both ends of the spectrum with high performance feeder cattle that grade with added quality, at the same time we believe the set of replacement females he will sire will be the type you struggle to let go of.

LOT 129 TR MR CARBON COPY 1707J ET

We initiate an impressive group of six TR Ms Kay 30A maternal brothers with an absolute standout. This Carbon Copy son has separated himself from the group with an elite growth pattern and exponential performance curve. His dam continues to produce at the highest level, and proves through this bull calf crop she has the potency to consistently sire cattle of immense quality, regardless of sire option. This big rib eyed and soft bodied herd sire prospect has been a favorite of all those that have made the trip to the ranch, and we think the influence he could make on the breed could be monumental, not often do stock come along that can combine the genetic and phenotypic value that you will find here.

TR MS KAY 30A ET *Dam of Lots 129-134*

LOT 130 TR MR OUTSIDER 1951J ET

This group of Ms Kay 30A sons offer a dynamic and formidable force of breeding prospects, each individual in the group offers quality, there are some choices to be made in regard to sire, birthweight, performance and EPD's however the most evident and impressive tie of these bulls would be the added muscle expression, width of base and true power phenotype that each brother brings to the table. Their mother, TR Ms Kay 30A continues to add chapters to the book of success she's written since her \$115,000 purchase price as a heifer calf, and several in this group of sons that sell as lots 129 through 134 could easily make claim to her finest breeding accomplishments to date.

You will have noticed a focus on high performance genetics in this Charolais offering, ones that are supported by generations of cow power and growth. CAG TR Mr Carbon Copy 1609J ET has emerged as an absolute outlier among the group, and there is no question that his influence will potently inject mass improvements of growth and performance genetics to an operation with goals of increasing scale pressure. Topping the class at 830 pounds come weaning time, calculating to 3.84 pounds per day of age and then solidifying his dominate performance with 1433 pounds at a year, are all factors that qualify 1609J as a sale feature. Take note that his full brother sells as lot 151.

The ultimate example of curve bending genetics. This Reagan son entered the world with a 75 pound birthweight but impressively flipped to a 723 pound weaning weight that ratios a 122, and he never took his foot off the gas as he accelerated towards 1368 pounds at a year. Even more impressive is the fact he did all this being raised by a first calf heifer. Trace his pedigree and you will be relieved to see individuals that have been time and customer approved in Montella and Carbon Copy. Add the fact that he scanned as impressive as any with 112 and 124 ribeye and IMF ratios, respectively.

LOT 139
CAG CC TR CARBON
COPY 0063H ET

CAG CC TR Carbon Copy 0063H ET may be the only age advantage Fall bull to sell on April 12th but he sure upholds the quality of his contemporaries. Both of his direct parents are past National Champions, and have proven that the purple banner applies to their generating potential just as appropriately. Invest in the cow families that support 0063H they have been influential for programs nationwide. A full brother to lot 136.

LOT 140
TR AC MR OUTSIDER
1974J ET

This Outsider son presents a strong case as a leading heifer bull option in the offering, he came light and unassisted towards the end of March, but has continued to mature and grow in a fashion that would convince you he was a performance orientated sire. He follows in the footsteps of his super attractive, Diablo 2X dam who is a bigger outlined, stout featured female that is beginning to write quite the success story. He sits top 6% of the breed for Calving Ease and 9% BW.

An obvious option if you're coming to the Ranch on sale day to find a herd sire prospect that will inject serious amounts of scale pressure to a calf crop in a single generation. This Carbon Copy son has been an outlier when it came time to run across the scale, he mashed them down at weaning with 742 pounds to ratio a 122, and there was no slowing down or lack of gas in the tank because he continued to impress at a year. Power and performance are exactly what you will get here.

CAG TR Mr Dakota Bob 1747J stems from a new sire group, but has a very recognizable pedigree, maternally. He combines growth and phenotype in an eye appealing and burly stature. You will notice a top 8% ranking for milk as a highlight feature of his EPD profile.

LOT 145
TR MR WHITE BEAR 1617J

The lone son of White Bear in the offering, he is an Outsider x Berkly son that collected many purple banners during his time on the tan bark. TR Mr White Bear 1617J is a bull that is hard to fault, his depth of body, back shape, structural build and balanced composition make him one to inspect on April 12th.

GHC REAGAN 9012
Sire of Lot 146

LOT 146
TR MR REAGAN 1603J

A son of the rookie sire GHC Reagan, we are impressed with what this sire could offer into the future. The first calving dam of this mating is quickly elevating her ranking in the group, but it comes as no surprise when you look further into her pedigree. 1603J has an attractive look, square and wide hip, and perfect structure, a formidable combination regardless of your production goals. Here is a calving ease option that still supplies impressive growth trends towards maturity.

If your number one priority is added pounds then place a star by Mr Rango 150, not only is he a leader at the scale, but genomically he proves validity to the raw data with top 15% rankings for WW and a top 9% rank for YW. Add the fact he ranks among the top 6% of the breed for REA, and comes from a proven cow family and we think he will make a potent impact on a program, particularly when it comes to marketing your calves by the pound after weaning time or on the rail.

A pair of maternal brothers that are the ranchman's kind! These April born sons are direct descendants of the TR CC MS Aubrey 3761A donor and stem from a father son combo on the topside with Rhinestone being the sire of Carbon Copy. They project to be bigger framed, loose structured and rugged in their composition. If added pay weight and red meat yield are what you're searching for then this duo is one that needs serious inspection. Both scanned with immense rib eye areas, powered their way towards the top of their contemporary group each time they ran over the scale, and are maturing with extra density and shape. The combination of both bulls could be very effective to a achieving a consistent calf crop in a multi-sire breeding situation.

In the pedigree of 1697J you will find several of our programs most potent influences, two shots of Carbine, Firewater, Mustang Sally, 0641, Outsider, and Diablo. Trust the service of this Sideline son to consistently implement phenotypic quality, in a very balanced and performance driven package.

LOT 151
CAG TR MR CARBON
COPY 0616H ET

CAG TR Mr Carbon Copy 0616H is a direct son of a new addition to the donor lineup, RBM 5100 Rhinestone E32, the mother of the \$102,000 heifer calf from Effling's 2021 Pasture Sale. Not only will you find this one sorts to the top on the hoof, but you would sort him the same direction if you were to select off of data and EPD's. He recorded impressive growth at the scale, and this is further confirmed with a top 20% weaning weight rank, top 25% yearling weight rank and top 15% milk standing. He is a full sibling to lot 137.

TR MS SISTER BEVIN 8630F
Full Sister to Lot 152

LOT 152
TR MR OUTSIDER 1950J ET

TR Mr Outsider 1950J ET stems from a cow family that never got the chance for stardom like it deserves, Twisted Sister 1Z was a full sister to Mustang Sally that was taken too soon, and it only pains us more now that her progeny have been so impressive. 1950J is a full brother to the Sister Bevin female that is bound for success, and in his own right we think this high-performance Outsider son offers more to the industry than just his good looks. He ranks top 2% of the breed for weaning and top 4% at a year, he recorded a monster 771 pound weaning weight himself along with close to a 17 inch eye. True POWER bull!

If you are looking for a calving ease herd sire prospect that is sound, attractive and backed by a proven and consistent cow family then you may have found the answer. EF Joe ranks in the top quarter of the breed for both calving ease and birthweight, and has matured into a smooth made longer muscled bull.

We purchased the dam of 1608J out of the Grand Hills dispersal, she was carrying the pregnancy by WC Southern Comfort 8043 that you will find in the sale pens on April 12th. He sports a very impressive data set that offers a unique combination of calving ease and performance, he is the kind that offers big time versatility, one that can be used on heifers, but still offers enough horsepower to breed to cows and get impressive gains.

One of the most intriguing pedigrees bound between the covers of this entire catalog, a direct son of SWSN Cashflow and out of one of the most acclaimed and renowned females in the history of the breed, HF Serena 74Y. Her most recent claim to fame, and by far the most impressive is a son by VCL Foresight that remains the talk of the industry after a hammer price of \$620,000 took him home. With that said, the heritability of phenotype in these Serena sons proves potent again here, you'll have no trouble finding 1863J in the pens on sale day. He's got a picture-perfect look from the profile while having plenty of volume and mass that a big-time herd bull needs. Another standout performer, hitting the scale at over 700 lb. on weaning day and a 14-inch REA at scan time. A high caliber herd sire prospect here!

A Hammer son that will add payweight to your feeder calves. Weighed in with an above average weaning weight and over 1200 lb. at yearling, this guy has plenty of gas in the tank. His mother is a 10-year-old female that is still doing a great job in the program.

A rugged, power type bull for your appraisal. Another son of Hammer with good individual growth, as well as breed leading EPDs for growth traits. His dam is a 2012 model female with plenty of strong production on her record. If you like stout, rugged beef bulls, tie into these Hammer sons.

What an impressive birth to weaning spread on this 100X son. Starting life at only 73 lb., 1685J crushed the scales at weaning with a 778 lb. weaning weight. He's the kind of sire prospect that will thrive in a herd where feeder calf pounds pay.

Another Can't Touch This from a 2011-born super dam. His calves will grow to weaning, but really excel in their post-weaning gain ability. A solid prospect for operators who want to keep their feeders and make money on them in the feedyard.

How to Bid Online

Tips and Tricks to Master Online Bidding

STEP 1. Use Chrome or Safari, a newer browser or download the CCI.live app at Google Play or Apple App store.

STEP 2. Open your app or go to the address of www.CCI.live in your browser. CCI.live can be used on a cell phone, tablet, laptop or desktop. Some older models may not be compatible and will show a yellow caution symbol if so.

STEP 3. Create an account and then request bidding credentials through CCI.live. Use the bank information listed on your check. Please use a correct phone and email address.

STEP 4. Once you are accepted for bidding credentials you will receive a text message and/or email notification. Proceed to "Get Buyer Number" on the actual sale page of your interest. Some sales may also require a passcode to obtain a buyer number. On these auctions, you will obtain passcodes from the sale office phone number for the specific auction you are interested in. Please closely read the terms!

STEP 5. You are ready to go! Make sure you understand, once you are logged in, have a buyer number and are watching the sale that you are on a highly sensitive web page. **Be careful when scrolling that you do not accidentally hit the bid button and watch children closely as they tend to grab cell phones and accidentally bid.**

TIPS FOR SUCCESSFUL BIDDING

- Make sure you have good service. Bidding and driving is not recommended. You should have two - three bars on your cellular devices. At home you should have an UPLOAD speed of 2 mg or more UP. Use this site to test your internet: www.speedtest.net.

REFRESH YOUR SCREEN AT SALE TIME

If you have logged in over an hour prior to sale time, you may need to login again. DO NOT let the computer set idol and then return and try to bid, the website may have logged you out.

CCI.live does not accept payment, you will pay the sale management, farm or ranch direct.

Help videos can be found at www.CCI.live

An impressive beast of a bull any way you want to analyze him. You can certainly appreciate how he went from a 68 lb. birth weigh to over 700 lb. at weaning. Or you can admire his maternal EPDs and HerdBuilder index that are as strong as any bull in this sale, indicating his potential as a sire of females. And you can certainly admire his phenotype as a rugged, massive beef bull with extra eye appeal. However you choose to look at him, he'll be at the top of your short list.

If you need to add look and style to your next set of calves, put a star next to Lot 244 in your book. A stud on the hoof with his added length and mass while putting it all together with an up-headed, appealing presence. He's more than just good looks, boasting above average carcass merit when compared to his pen mates. The cow power maternally is also immense, his mother is a maternal sister to Navarre 6054 and as heifer calves it was often a topic of debate as to which of the sisters was the favorite. This Mulberry son will be a favorite of many cowmen on sale day.

Another Tango son with top-tier calving ease and phenotype that make him a great candidate for breeding heifers. There's also longevity in this pedigree, as his dam is a 10-year old matron who always brings in a good calf. You'll buy him for the calving ease, but you'll keep him around for the daughters he leaves in your replacement pen.
