

The Last Call
FEMALE SALE

NOVEMBER 16, 2019 | BROWNELL, KS

Lot 1 – Pictured summer 2019

Sale Schedule

Saturday, November 16, 2019

9:00 am - Cattle on display

12:00 pm - Lunch served

1:00 pm - The Last Call Female Sale

WELCOME TO THE *Last Call!*

Friends welcome to the our “Last Call Female Sale” the final stage of our herd reduction plans. As we have stated Cindy and I are reducing our workload so we can redirect more of our time and energy to other personal interests. This being the last stage we are getting into the elite best genetics we have ever produced. All the bred heifers and older have been kept previously for the possibility of being in our donor program. This is the first time we have offered nearly every calf as we are in this sale. This group of heifer calves runs especially deep and are futuristic in their design.

After this sale we will be down to a small core of our favorite cow families from which we will continue to follow our passion of creating new and breed leading genetics. Through a network of partners, who will put flesh and bone to these genetics we plan to continue to have a bull sale every spring that will include the female production of the year. We are excited to have an excellent group of associates to continue the physical work of raising and developing these calves for years to come.

We are thankful for the family, friends, neighbors and customers who have allowed us the opportunity to follow our passion. We appreciate and never take for granted the support from each one of you. We continue to be dedicated to ranching and great cattle and appreciate the opportunity to present to you a great set of Red Angus Females for your consideration. See you at the barn on November 16th.

God and Family first!

Sincerely,

Steve & Cindy Meier

*I*NNOVATION AgMarketing, LLC

Red Angus Enthusiasts,

Welcome to the C-Bar Red Angus "Last Call" Fall Female Sale at the ranch in Brownell, Kansas. It is with great enthusiasm that we present to you one of the most elite offerings of Red Angus females to sell in the United States this fall. This will be a once in a lifetime opportunity to acquire young and productive females from the heart of the program. The offering will be led off by several sisters to the \$105,000 9 Mile Franchise 6305. These females are in the prime of their lives with tremendous futures ahead. This is your opportunity to put them to work for your respective program and reap the rewards from this investment.

Steve Maier has spent his lifetime building a cowherd based around the fundamentals of proven cow families, balanced phenotype, breed leading EPD's, and superior carcass traits. This combined make a well-rounded individual, rather than the constant chase of popular trends and fads that lead to single trait selection. Balanced, comprehensive genetics that have stood the test of time and will continue to generate for their new owners has been the focus of the C-Bar program since its establishment. This is a set of females that are built from the ground up with emphasis on the key traits of economic importance in the cattle business; longevity, fertility, and structurally sound cattle that offer calving ease, real-world performance with visual appeal, and carcass merit.

An extensive Embryo Transfer program will be focus moving forward, with new cooperators now on board to raise more ET calves than ever before. However, this will create great opportunity for buyers to acquire cattle and genetics that have never been offered up before. Countless bred heifers, young donor candidates in production, and open show heifer/donor prospects will be offered for sale on November 16th that in prior years would be sent to the replacement pasture. Moving forward the females will be marketed during the spring sale following their flush mate brothers.

There is continually growing enthusiasm in the Red Angus breed, growing in numbers and popularity by the day. This was evident by the participation and attendance at the National Red Angus convention this past September in Dubuque, Iowa. Let this be a buying opportunity for your program to have the chance to own sisters and daughters of the most proven cow families and donors to ever set foot on the ranch in Brownell, Kansas. Many of the females will sell safe AI to the hottest and most proven sires in the breed, while some of these females are also full sisters and maternal sisters to the AI sires.

We invite you to Brownell, Kansas on November 16, 2019 as we offer up the most dynamic set of Red Angus genetics that C-Bar has produced. Videos of the entire offering will be available compliments of Wyatt Durst of Ideal Video Productions, in the weeks prior to the sale at DVAuction.com. Please feel free to contact any of the ranch or sale staff if you have questions regarding the offering. We look forward to seeing you on sale day!

Enjoy the cattle,

SALE LOCATION

For the most accurate directions to the sale please use the following coordinates

Latitude: 38.7258

Longitude: -99.7263.

C-BAR Abigrace Y11 will forever remain one of the most influential females to ever be a member of the C-Bar program donor pen. She was a true producer that was as consistent, reliable, and as proven as any female we have ever flushed. When she was mated to the black-red carrier carcass super star we could have only hoped that the mating would yield a fraction of the success that the progeny has gone on to have. 9 Mile Franchise 6305 was purchased as a pregnancy and is quickly proving himself to be one of the most dominant young sires in the business. Franchise commanded \$105,000 and has been utilized by top ranches across the country with tremendous success. On November 16, 2019 in Brownell, Kansas the legacy that Y11 has left behind will be offered in the form of several daughters, including full sisters to the great Franchise, along with the next generation of females to carry the Abigrace name. There is no doubt in our mind that Y11 will continue to make a monumental impact on the business for years to come!

The 9 Mile Franchise 6305 stud has simply changed the industry. There is no denying the combined traits of excellence in which he is able to inject into his progeny. His dam is the potent Y11 female that has left behind a string of daughters that have served as the foundation of the C-Bar program. Never before has an opportunity quite like this presented itself in Brownell, Kansas. On November 16, 2019 we will offer up three full sisters to the \$105,000 9 Mile Franchise 6305, a sire that has reserved his place in the history books as one of the all-time great young herd sires. 635D is a special kind of female that is simply unmatched in terms of her body mass, density, structural build, carcass traits of significant economical value, and phenotype. Truly a rare opportunity to have the chance to own in her entirety a female of this caliber from undoubtedly the most potent flush created at C-Bar Red Angus. "The Last Call" Fall Female Sale on November 16, 2019 is a must attend event in the Red Angus breed! *AI Bred 5/3/19 to C-BAR AVIATOR 8151F. AI Estimated due 2/9/20. A brood cow in the making! 919G is a direct daughter of the powerful 635D donor and is sired by the popular and time-tested 5L Bourne. This open heifer calf is a true donor prospect among the offering. Her rib shape, capacity, fleshing ability, and maternal look is further complimented by her unbelievable genomic figures. She ranks among the elite in the breed for HerdBuilder, while posting a double digit CED, negative BW EPD, and spreading to triple digits at a year! If that's not enough to satisfy your criteria's, study her breed leading carcass figures that compliment her functional and long-lasting structural build. A foundation cow in the making!

THE LEGACY OF ABIGRACE Y11

LOT 2 - C-BAR ABIGRACE 633D

The Black-Red Carrier sister to 9 Mile Franchise 6305 has been argued to be the stoutest, widest based, most three-dimensional of all the sisters. We certainly wouldn't argue and are firm believers that this black hided beauty is destined to leave her mark on the business as a true producer that is capable of creating the next generation of elite Red Angus genetics. She not only in a big spread female that offers a negative BW EPD and spreads to triple digits at a year, but she ranks among the elite 1% of the breed for CW and REA, while being among the top 3% for GridMaster, top 4% Marb, and top 5% for ADG. A true maternal icon with the carcass merit and potential to make a lasting impression on any operation! AI Bred 4/13/19 to COLLIER FINISHED PRODUCT. AI Estimated due 1/20/20. PE 4/22/19 to 5/1/19 to C-BAR BIG RIVER 119E. PE 5/17/19 to 9/1/19 to C-BAR AVIATOR 8151F.

LOT 2A - C-BAR ABIGRACE 920G

920G is proof that 633D is capable of generating elite Red Angus seedstock from a Black-Red Carrier package. 920G is a dark cherry red, big centered, high capacity open prospect that is flawless in her structural base, wide topped, big hipped, and offers an incredible number profile to further solidify her significance. She is among the top 4% for HerdBuilder, top 2% GridMaster, top 4% Marb, and top 8% for CW and REA. A truly unique breeding piece that offers outcross genetics on her maternal side with the influence of the popular 3SCC Domain A163 as her sire.

LOT 3 - C-BAR ABIGRACE 8001F

8001F is a full sister to 9 Mile Franchise that is just a fall yearling. This Black-Red Carrier female has the body mass, dimension, and shear volume that we strive for in our females with the elite carcass and growth profile numerically to accompany this phenotype. She is a moderate framed, huge bodied, wide hipped female that has donor cow written all over her! She ranks among the top 1% for REA, top 2% for GridMaster, top 4% CW, and top 5% Marb. She is an elite daughter of the deceased Abigrace Y11, truly one of the staple females that helped to create the C-Bar brand!

Andras New Direction R240 - Sire of Lot 4

LOT 4 - C-BAR ABIGRACE 6014D

Abigrace 6014D is another top daughter from the "D-Model" calf crop that Y11 left behind. Her sire is one of the breed's most heavily used sires, Andras New Direction R240. This female is a dark cherry red, very attractive, feminine type female that offers key similarities of her donor dam, Y11. Not only does this powerful donor prospect offer the cow family and stunning phenotype, she too charts with impressive predictors. 6014D ranks top 1% of the breed for HPG, top 3% CW, and top 8% REA. Her growth indicators are excellent and we believe regardless of your focus, this female has the generating capabilities to be a major asset to any program!

626D is a powerful female and a true sale feature. Selling alongside her as the A, B, and C lots are three daughters that offer superior phenotype, structural integrity, and breed enhancing genetic predictors. 923G is the A lot female that has donor cow written all over her! She is a moderate framed, massive ribbed, square made daughter of the popular and proven RREDS Seneca 731C sire that has left his mark on countless programs throughout North America. The two flush sisters that sell as the B and C lots are sired by none other than the legendary Black-Red Carrier Spur Franchise of Garton. These females offer a refined and feminine look about their front third, while transitioning into the bold and robust center body design we admire so much. They not only impress in the flesh, but also chart with breed leading growth, carcass, and maternal genetic predictors that combined make these two sisters from the Brandy cow family truly elite breeding pieces that will compliment any operation!

5041C is a powerful and attractive daughter of Brown JYJ Redemption Y1334 that is from the Lainey cow family. There is no denying the impact and power that this female has from a genetic standpoint. Her balanced number profile is further complimented by her angular front third, robust rib shape, and square hip and pin set. 718E is a direct daughter of 5014C and is sired by the breed leading 5L Defender 560-30Z stud that has become a go to sire for a near flawless balance of maternal and carcass traits. The substance in which she offers is noteworthy and to further enhance her credibility she is backed by a balanced number profile. 913G is the daughter of 718E and granddaughter of 5041C that is one of the first Big River daughter to sell at public auction! Big River is the \$50,000 1/2 interest stud purchased by Genex that has created a stir among the breed as one of the most powerful and fault free sons of PIE One Of A Kind. From the Lainey tribe comes three powerful females that will positively enhance any program!

Big River - \$50,000 Full Brother to Lots 10-12

Big River is without a doubt one of the most popular AI sires to ever be created in Brownell, Kansas. Due to his sheer athleticism, functionality, and dimension there is no denying the impact that this sire will make on the Red Angus breed. Backed by arguably the most impressive female to ever set foot on C-Bar Ranch, Joline Z243. There is no doubt that this mating works, in fact this spring the high selling to Alta Genetics for \$40,000 was a full brother by the name of Whiskey River. Full sisters have commanded top dollar when offered through previous marketing events at C-Bar Red Angus. The mass, dimension, and maternal power that these three females offer is second to none. Numerically and phenotypically this trio has the opportunity to become donors in any program in North America regardless of your production goals. Backed by generations of elite cow families, it is evident that this mating is proven and tested time after time. A true sale feature on sale day November 16 in Brownell, Kansas! AI Bred 4/13/19 to 9 MILE FRANCHISE 6305. AI Estimated due 1/20/20. PE 4/27/19 to 9/1/19 to C-BAR AVIATOR 8151F.

Mission Nexus has evolved as one of the elite sires in the business, and there is no denying the impact he has made time after time. Now deceased, Mission Nexus semen has become extremely rare and hard to acquire. This daughter of the potent Stony W928 donor is an ultra-feminine, smooth made, big centered female that is tremendous on her feet and legs. She boasts an impressive number profile that offers excellent growth and carcass figures. AI Bred 4/6/19 to C-BAR AVIATOR 8151F. AI Estimated due 2/9/20. PE 4/27/19 to 9/1/19 to C-BAR AVIATOR 8151F.

839F is another direct daughter of the great W928 donor dam that is sired by the carcass legend himself, Spur Franchise of Garton 2114. Her maternal substance, fleshing ability, and structural integrity is second to none, while offering breed leading carcass and growth predictors. Another influential pedigree from the Stony cow line. PE 4/22/19 to 5/1/19 to C-BAR BIG RIVER 119E. PE 5/17/19 to 9/1/19 to C-BAR AVIATOR 8151F.

Legit - \$60,000 Maternal Brother to Lots 15-16

W914 is the dam of the past C-Bar Red Angus high selling bull, Legit, a stud that was among the elite from a carcass standpoint and is without a doubt the most impressive scanning bull to ever be ultrasounded at the ranch. The influence of Spur Franchise of Garton can be identified in the pedigree of 839F, a true carcass icon within the breed that has left behind his impact on the business. 8202F is her maternal sister that is sired by the calving ease and carcass specialist 5L Independence 560-298Y. Both females rank among the elite in the breed for GridMaster, Marbling, Yield Grade, and growth. Extreme mating flexibility can be identified within these females and the cow power that backs them is generations strong!

C-BAR Abigrace 417B - Dam of Lots 17 & 18

838F and 841F are massive bodied, deep sided, easy fleshing daughters of Abigrace 417B, making them granddaughters of the prolific T715 donor that has left her mark on the C-Bar program and the breed for that matter. 838F is pictured and offers tremendous mass and dimension, while possessing superior udder quality and a look of maternal power. These females rank among the elite 3% for GridMaster, top 7% for Marbling, top 8% of Yield Grade, top 6% CW, and top 1% REA. Elite carcass traits combined with maternal substance makes for extreme mating flexibility.

C-BAR Abigrace 264Z - Dam of Lots 19 & 20

7015E and 7104E are flush sisters from the powerful Abigrace 264Z donor dam that highlighted the "Roses" Part I sale where she was selected by the progressive Bowling Ranch of Oklahoma for a \$13,000 hammer price. These flush sisters are sired by the worldly popular Red U-2 Reckoning 149A sire that has become one of the highly used and promoted sires in the Red Angus breed. There is no denying the impact that Abigrace has made on our program and we know that these daughters will make a major impact for any program. They are balanced numerically and offer the top 14% of the breed for ME and top 17% Milk. 7015E is an elegant made and super attractive female that is built for the long haul. Her unique structure and length of spine should aid in superior mating flexibly and generating potential.

C-Bar-RJ Abigrace A30 is a maternal sister to the \$25,000 El Grande stud that is owned by Pieper Red Angus. She is a young and exciting donor in our program that has a bright future. The sire of these two females is the \$105,000 9 Mile Franchise 6305 stud that is making waves across the breed. This pair of females are elegant in their design, sleek necked, attractive patterned, and offer plenty of mass and substance through their mid rib. Numerically they chart top 16% for GridMaster, top 9% BW, top 4% ADG, top 1% CW, top 2% REA, and balanced with tremendous uniformity across the board. Look to these A30 daughters to be successful both in the show ring and production!

9 Mile Franchise 6305 - Sire of Lots 32 - 34

555C is a staple in the donor battery at C-Bar and has evolved into one of the premier young females in our donor pen. These flush sisters by the great 9 Mile Franchise offer exceptional body capacity, balance, and look from a design and profile standpoint. They read with tremendous figures ranking among the top 5% of the breed for GridMaster, top 8% BW, top 6% ADG, top 12% Marb, top 7% CW, and top 3% REA. These females again will trace to the \$3 Million producing L7730 matron that has written her own chapter in the history books!

RREDS Seneca 731C - Sire of Lots 35 - 38

The next four sisters are also backed by "triple-nickel" as she is known around the ranch. 555C has become a go to when it comes to consistency and she does just that. The bull mates to these females are stout, powerful, heavy, and three-dimensional in terms of their mass and muscle shape. Seneca is a trait leader among the Red Angus breed when it comes to quality, substance, foot quality, and shear longevity. These females will be accompanied by a stellar set of bulls that will highlight the annual spring bull sale in 2020. These females offer tremendous promise numerically where they rank among the top 15% of the breed for WW, top 17% YW, and top 18% for REA.

C-Bar Miss Mimi 458B is without a doubt one of the most phenotypically impressive donors on the place. A direct daughter that many have acclaimed to be one of the best direct daughters of W085 in existence. She is a maternal sister to the most decorated female in recent years, Damar Barcelona, who commanded \$34,000 for 1/2 embryo interest in the historic Cloud 9 Cattle Company dispersal sale. A maternal brother, E381, was the 2019 NWSS Grand Champion Bull and has become one of the industry's most sought after sires. The power of the Mimi cow line is unmatched and here is an opportunity to purchase one of two females that are daughters of the great 458B donor matron and sired by the \$105,000 9 Mile Franchise, combining the influence of the late Y11 matron with W085. A true example of POWER in the blood!

C-Bar Blake's Bonanza 180C is one of the most dominant bulls we have ever laid a leather lead on and campaigned on the tan bark. In fact, Bonanza was a two-time National Champion Red Angus bull, being named Grand Champion Bull at the Iowa State Fair, National Western Stock Show, and Supreme Overall Grand Champion at the Minnesota State Fair. Here is a maternal sister from our grandson Blake's donor cow, Abigrace A364 that has become a consistent and reliable producer. This female is sired by the \$105,000 9 Mile Franchise, a true breed icon. This female is massive bodied, easy fleshing, and three-dimensional in her type and kind. A true brood cow prospect among the offering!

One of the very first C-Bar One Way 37E daughters to ever be offered for sale in the country. A302, her maternal granddam is the cover girl for C-Bar Red Angus that has become one of the most well-respected cows in the breed. She is flawless in her basic build, big centered, and offers the look of longevity we demand from our cowherd. An exciting genetic combination that includes the influential A302.

LOT 44 - C-BAR ROCK-A-BYE BABY 905G

DAMAR Rock'A Dilly Z373 - Dam of Lots 44 & 45

C-BAR Big River 119E - Sire of Lots 44 - 51

Damar Rock'A Dilly Z373 was a past high selling female from the Cloud 9 Program that we selected with B Good Beef Genetics as the \$32,000 high selling female a few years back. A daughter of Z373 commanded \$10,000 to Ray Dowd and we believe that Rock'A Dilly is just getting warmed up! This pair of flush sisters are sired by the \$50,000 Big River and there is no denying the substance, stoutness, and three-dimensional body type that we all admire. The 905G female has been one we have admired since day one. Her unmatched performance, substance, style, and ability to offer so much balance is amazing and this is a female that will certainly follow in the footsteps of her dominant donor dam. An exciting pair of flush sisters with unlimited upside!

Offering 5 Conventional Embryos. Guaranteeing 2 pregnancies if transferred by a certified embryologist.
Here is one of the newest matings we have made and once again combines the influence of the great Joline Z243 and Mimi W085, a surefire combination that will yield unmatched phenotype and quality, with superior structural integrity. This embryo mating is from the Anticipation x W085 female that is known as Mimi 7302E, a young rising star in our donor pen. Once again, a mating that combines years of disciplined breeding decisions and proven pedigrees!

556C is another female from the Anticipation x Mimi W085 tribe that has become an exciting young female in our core moving forward and was successfully campaigned by our grandson Blake Madden. This mating to Big River certainly didn't disappoint. 9301G offers superior stoutness, shape, and real world performance with exception figures that represent a balanced breeding piece.

THE SPRING OPEN HEIFERS

C-BAR Blake's Bonanza 180C - Maternal Brother to Lots 52 - 58

Without a doubt the largest flush of sisters in the 2019 offering and certainly one of the best! These females are sired by the breed leading HXC Allegiance 5502C, a true carcass legend that balanced calving ease with real-world performance. This set of females represent the quest to create Red Angus cattle with balance traits numerically and phenotypically. They are big bodied, sound built, attractive females with the potentially to positively impact any operation from a financial and herd building standpoint. The dam of these females is Abigrace A364, the dam of the National Western Stock Show Grand Champion Red Angus bull, Bonanza, now a herd sire at Niobrara Red Angus of Nebraska. Study the potential and future that these females can offer. They rank top 16% GridMaster, top 17% ME, and top 4% Marb.

C-Bar Jolene 926G is the 9 Mile Franchise sired daughter of the time-tested and proven matron for longevity that is known as Jaylo LB136. At 18 years of age, Jaylo LB136 still roams the pastures of C-Bar ranch and has left a lasting impact on the breed and beef business for generations to come. This unique genetic gem ranks among the top 4% of the breed for GridMaster, top 16% YG, top 4% ADG, top 2% Marb, top 1% CW, and top 2% REA. A carcass focused, maternal based, sound structured female that any can build a cow family around!

LASO Leanna BC114\$ - Maternal Granddam of Lots 64 - 67

Laso Leanna BC114R is the \$60,000 valued granddam of the next four females, that we purchased from the Lautenschlager & Sons program from Washington. The X23B dam of this powerful flush of females is sired by C-Bar El Dorado 114Z, a powerful young cow that is making her mark on our program. The Leanna sisters are true breed leaders for several traits of economic importance, ranking among the top 2% for GridMaster top 1% Marb, top 16% YW, and top 12% ADG. This set of females offer herd building upside and are backed by an exceptional cow family that we have consistently hung our hat on!

Blairs Blackbird 107X was a featured female in the historic Wildcat Creek program in Kansas. She produced countless top selling herd bulls and females alike that commanded top dollar selling to the most well-respected operations. The dam of these two females is a red hided beauty of the original 107X matron that is sired by the great Red SSS Oly 554T stud, and was one of the featured females to sell in Denver a few years back where she commanded a \$30,000 hammer price. This mating to Allegiance has created the next generation of Redbird females that are backed by exceptional cow lines top and bottom side of her pedigree. They rank among the top 3% of the breed for GridMaster, top 12% YW, and top 1% Marb. Elite cow families, balanced numbers, and exceptional phenotype. True sale features!

967G and 972G are flush sisters by the Australian outcross sire, Marble Bar, a carcass phenom that has created a new line of carcass focused, and value-added Red Angus genetics. These females trace to the legendary L7730 matron and their dam is the Brown Ms Revelation W7927 matron. These flush mates are genetically unique and offer superior breeding versatility when it comes to sire selections. Additionally, these females will prove to be of the herd building kind due to their unparalleled body mass and fleshing ability!

The fall yearling division is special this year because of the depth and quality that the females of this age category offer. Lead off by a direct daughter of the impressive Stony 502C, the most impressive daughter of W914, making her a maternal sister to the \$60,000 C-Bar Legit. This female is ultra-attractive in her balance and symmetry, bold ribbed, deep sided, and possesses a brood cow type look from every angle. 8005F charts top 6% GridMaster, top 10% BW, top 4% ADG, top 6% Marb, top 1% CW, and top 1% REA. An elite phenotype that is complimented by a balanced number profile.

556C is a full sister to the powerful and predictable donor known as C-Bar Miss Mimi 458B. There is no denying the potency of the Anticipation x W085 mating and here is yet another example of why it works so well. Sired by our go to for quality, consistency, calving ease, and carcass, 9 Mile Franchise. It has been proven time after time in this set of cattle that the influence of Y11 and W085 within a pedigree is bullet proof and we are so anxious to watch the future unfold and see the impact that these females and their powerhouse flush brothers make on the business.

Stony 8006F is another direct daughter of the impressively massive A305 matron that continues to produce at the highest levels. The sire of this female is the black-red carrier full brother to 9 Mile Franchise. She is both balanced numerically and, on the hoof, as she combines the influence of both the Abigrace and Stony cow tribes. A powerhouse combination!

458B has been a staple in our donor pen and is without a doubt one of the best W085 daughters in production. The fleshing ability, body shape, udder quality, and foot design is second to none. Sired by Rockmount 197C, this pair of sisters once again combine Y11 and W085. The proof is in the pedigree, plain and simple. Study the genomic predictors, phenotype, and future that this duo offers!

Countess 8350F combines an interesting pedigree that is hard to deny. Sired by the time tested and proven maternal icon Red Fine Line Mulberry 26P. It has become a trend that some of the most influential females in the business are either by 26P or granddaughters of this great breeding bull. The dam of 8350F is the Countess 20X donor that we featured in our female sale a couple years back that was selected by Kirby and Keenan Nixon of Floydada, Texas and is proving to be a sound investment as she has become one of the leading donors in their Red Angus program. A unique mating that we are excited for you to evaluate on November 16!

C-Bar Stony W909 is the Mulberry 26P daughter of the great Stony P7500 matron. This cow family is one of the original cow lines that started the C-Bar program and has allowed it to grow into what it is today. Sired by Rockmount 197C, this female combines the two primary cow lines on the ranch in the Stony and Abigrace tribes. An exciting genetic combination with exceptional genetic predictors!

719E and 925G are an interesting pair that offers linebred genetics from one of the most popular females on the ranch. 719E is sired by the black hided Commando sire and from the A305 donor dam. 925G is sired by the late Creedence, a direct son of A305 by Independence. There is no denying the cow power that can be identified multiple times throughout this elite and consistent pedigree.

Not exposed. Sells open and ready to flush.

C-Bar Blake's Bonanza 180C has been one of the most highly decorated bulls to be shown in the last few years, being named a two-time National Champion! Bonanza was a division winner at the National Western as a fall calf, then went on to be the National Champion Red Angus at the competitive Iowa State Fair. He was Grand Champion Red Angus and Supreme Overall Breeds at the Minnesota State Fair and capped off his career as the National Western Stock Show Grand Champion Bull in 2018. Here is a chance to own not one, but two full sisters to the resident herd sire at Niobrara Red Angus, one of the breed's progressive breeding programs!

767E is a maternal sister to countless herd sires and females of significance. Maternal brothers would include the \$50,000 Big River and the \$40,000 Whiskey River. A tremendous opportunity to acquire a direct daughter of the great Joline Z243.

PE 4/22/19 to 5/1/19 to C-BAR BIG RIVER 119E. PE 5/17/19 to 9/1/19 to C-BAR AVIATOR 8151F.

THE COWS AND PAIRS

TERMS & CONDITIONS

1. BIDDING

The Auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

2. TERMS

Terms of sale are cash unless satisfactory credit arrangements have been made with Sale Management prior to sale.

3. PURCHASER'S RISK

Each animal becomes the risk of the Buyer as soon as sold, but it shall be the obligation of the Seller to see that animals are fed and cared for free of charge to Buyer, until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner.

4. ANNOUNCEMENTS

Any changes from information of any kind in this catalog will be announced from the auction box and such announcements shall take precedence.

5. HEALTH

All animals are eligible for interstate shipment, except as otherwise announced. Interstate health papers will be furnished for each animal requiring tuberculosis and brucellosis tests in accordance with Federal Regulations.

6. DEFAULT

In the event the Buyer defaults on payment, the Buyer shall be responsible for all costs, including attorney's costs, incurred by Sale Management or Seller in connection with collecting, or attempting to collect, payment due.

8. CONTRACT

The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

7. BREEDING GUARANTEE

All animals are guaranteed by the seller as outlined in the Red Angus Association of America Code of Ethical Sale Practices.

9. LIABILITIES

All persons who attend the sale do so at their own risk. The seller, the sale manager, and the auction facility assume no liability for accidents that may occur. It is to be clearly understood that the sale manager and their representatives act only as a medium between the buyer and seller.

10. SIGHT UNSEEN PURCHASE

All purchases made on order or over the internet with C-BAR Red Angus are 100% satisfaction guaranteed upon delivery.

11. BREEDING INFORMATION

All of the females were pregnancy checked by embryo technician Dr. Gray of Cross Country Genetics on 9/13/18. Probable Safe AI means just as it implies. Too close to call means that there is potential that the female may be safe to her AI date or the pasture exposure sire. All other expected due dates are listed.
