On behalf of everyone here at CK Cattle and Wager Cattle we would like to thank you for your interest and business in our program and consider this your personal invitation to the sale. I was just talking with Lanny last night and we were discussing the way the bulls were looking. I told him I didn't want to sound like the old cliché, "this is our best set ever," but when it is true it is not a paraphrase, it is a fact. I am so excited about putting this set of cattle in your hands, it sends goosebumps down my spine. This program might operate under two separate names, but it is a family operation that conducts business, management, and work force as one.

I hate to remind everyone of the UFC cage match the American Agriculturalist has had with Mother Nature for the last year. It goes to show you that she has given everyone a knock on the chin, and you went toe to toe with her and gave her one back twice as hard. With Highmore and Gettysburg having 40 plus inches of moisture the last calendar year to a country that usually only gets 16 inches, it has handed us a lot of scenarios that we are not used to. We usually stare at the sky looking, praying, and cussing as we wonder if it will ever rain. The plus side to all of this is that there will be grass, hay, and ample moisture to go into 2020 knowing that the cows will have a great year ahead of them.

We as animal protein producers have great times ahead of us as well. As I write this letter, the feeder cattle market has gained \$10-\$15/cwt since the turn of the new year. With less replacement heifers being bred this year and 10% less protein globally due to Asian Swine Flu, the supply and demand are going to collide in a positive manner for you producers. It's going to get fun. The demand for high quality beef is going to be at an all-time high!

As I stated before, I am beyond excited about how good this set of cattle is. There is definitely something for everyone! The profitability that these cattle can add to your programs should excite you too. It has been great hearing from customers and their satisfaction of the product that they have invested in. Rest assured that we will continue to place emphasis on real world traits and not the mixed-up stews that someone in a cubical that grew up raising hogs tells us are important. Cattle that breed, have great udders, mother with a sensible mind, bring in a heavy product, breed back, live on forages, and have the ability to go down the line and become a profitable, value-added product. It's a hell of a job description and if you think every one of them around here does it, then you are sadly mistaken. Rest assured the ones that make the catalog are the ones that we have confidence in to check all of the boxes. Again, the adjusted weights, scrotal, gain info, and scan data will be available on a supplement sheet and posted on the websites. We apologize for it not being in the catalog, but we can't take the measurements at print time because the bulls are too young. Your satisfaction, profitability, and friendship mean the most to us.

So, with that we guarantee the bulls to be breeders, offer volume discounts, and are as aggressive as anyone with our health protocols. The heifers will have had both rounds of scour shots, re-pregged the week before the sale, and re-poured. With the sale being a week later this year, we will try to get them to you in a quick and safe manner. We will deliver the bulls weather permitting this is a loose statement in mid-April. If you have any questions or would like to come look please give us a call. Thank you for your interest and we hope to see you Sunday, February 16, 2020 at 3 PM.

Sincerely,
CHRIS EFFLING

CATTLEMEN,

Cattlemen and cattlemen, it gives us great pleasure to welcome you to the 2020 edition of the CK Cattle Co. and Wager Cattle Co. Production Sale. This will be the family's third event and it will include the absolute best and deepest set of herd sires that they have ever bred and assembled for your appraisal and they will be followed with a great sort of bred heifers. With the budding New Year, optimism is high as we inch closer to spring with December closing on the upward climb and introductory 2020 fat cattle prices at and over a \$1.24 cwt in the real marketplace, allows many to patch up from the fall and take advantage of these feeder cattle values.

In Highmore, the forecasted outlook is always on the up and up regardless of politics or good or bad market reports. There's no room for crying or whining in this business, is what Chris lives by day in and day out, and for that attitude they have been rewarded over the years. Keep your head down and leave your focus on the end goal and good things will happen. As many of you repeat customers know and understand, these cattle are ranching stock that are aggressive in the workplace. The bulls from this program get out and get cows bred and award the commercial investor with a set of vigorous, fast growing stock that pound the scales at the Dakotas' finest commission marketing venues and have been received well on the video further west. For those of you that are unaware or new to the program, Chris and a very good friend of his are in the customer service business and do everything possible with the resources they have to utilize to find one or multiple buyers to bid on your cattle in a ranch direct transaction. Simply put, "the hustle" doesn't stop after you invest in a bull or bulls at CK Cattle Co. and Wager Cattle Co.

This program was initiated with one female, Melody, that was flushed to one bull, Dream On, and the rest is history. The influence of that donor dam and that initial mating in super ovulation saturates the core of this entire operation. In the beginning it was based on phenotype with strict culling on head shape, ear set, udder quality, fertility, and the quality followed. The implementation of the right power, Upgrade, followed up with Profit, with continued pressure placed on feet, udders, performance, and disposition is where we are today, essentially. Over the past couple of breeding seasons, Enough Said, a son of Cowboy Cut, and Right Time, a son of Dew it Right, have been brought in to enhance some values on paper, without sacrificing physical appraisal. As this program moves forward, the intention will never be to breed cattle on paper like so many do today, but it will be to continue to mold and shape the ideal beef machine both physically and numerically, within reason. Rest assured of one thing, Chris Effling understands phenotype and structure with the best of them and he's just one of few people that can assist with improvement of the entire beef business when the data gets processed, for years to come.

This family has been friends of ours for two decades, they have never wavered from the end goal. The cattle are proven, documented, and sorted in the most discriminating fashion known to the business, they are real world ranch stock that will take care of your bottom line. The diversified, proven, profitable use of these cattle works as well on the heifer mates retained as it does the steer mates that weigh up the end dollar value. Make plans to be with us in Highmore February 16, 2020 at 3 PM and invest in your program's future.

Two handwritten signatures in black ink. The first signature appears to be 'Chris Effling' and the second is a more stylized signature, possibly 'JL Sh'.

HEALTH & WINTERING

Bulls can stay to the first of May when they will have a breeding soundness exam, along with leptospirosis, pinkeye, and hoof rot vaccine. Bred females will need to leave as soon as possible after the sale due to close proximity of calving. Any female left and calved at CK/Wager facilities will not be guaranteed a live calf. Prairie View Vet Clinic - 605.695.4086

RISK

Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury, and will be loaded according to purchaser's direction. Insurance will be available sale day.

ANNOUNCEMENTS

Announcements made sale day and from the auction block during the sale take precedence over printed material in the catalog or other printed material associated with this sale. Anyone attending this sale, attends at their own risk. Breeders or any of the sale force will not be held responsible for any injury while attending this sale.

LIABILITY

Neither owners nor sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents.

INSURANCE

Insurance will be available sale day. We suggest a mortality policy, especially if you plan to leave your bull(s) to be wintered until May 1, 2020. We will pay 1/2 of the insurance premium if you wish to purchase a policy. Please visit with Kristi at check out if you have interest in insuring your purchase. Kristi Effling 605.769.1308.

ADDITIONAL INFORMATION

Ultrasound data, yearling weights, gain test results, scrotal circumference measurements and Homo Black/Homo Polled testing results will be available sale day. Many of the donor dams to the cattle selling will be available for viewing sale day.

CK AND WAGER SIRED CALVES TOP THE MARKET!

**Over the last two years 95 CK and Wager Simmental, SimAngus, and Angus bulls scanned with an Average REA of 13.37 and an Average IMF of 4.14.
18 Hereford bulls scanned with an Average REA of 12.5 and an Average IMF of 3.21**

Look for this powerful set of bulls to follow suit!
Ultrasound Data and Scrotal Measurements will be available on prior to sale day and online at DVAuction.com

SIMMENTAL & SIMANGUS™ THE BULL OFFERING HEREFORD & ANGUS

BULL GUARANTEE

Unless otherwise noted, all the breeding age bulls will have passed a breeding soundness exam prior to pick up/delivery. In addition to the standard Terms and Conditions of the American Simmental Association and the American Hereford Association we will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all yearling and older bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price less the salvage value of the animal.

BULL BUYER VOLUME DISCOUNTS

- 3% off total purchase price of 3 Bulls
- 4% off total purchase price of 4 Bulls
- 5% off total purchase price of 5-9 Bulls
- 10% off your total purchase price of 10+ Bulls

DELIVERY

Free delivery within 300 miles on all bulls and we will assist in finding delivery options to other parts of the country!

EMBRYO TRANSFER PROGENY

Bulls without a WW Ratio are the result of embryo transfer. Their respective breed associations do not recognize them as having a contemporary group so they do not have a WW Ratio.

SEMEN INTEREST

1/3 Semen Interest retained in all bulls, unless otherwise noted.

LOT 1 - WAGR MELODYS CURRENCY 9042G ET

The lead off trio of brothers in the 2020 production sale are direct sons of the great 3C Melody M668. This will be the initial offering of Ruby's Currency 7134E sons offered to the public. Currency was the \$435,000 1/3 interest promotional AI sire that sold through the Hartman Cattle Company Bull Sale. Several sons of Melody have become breed leading AI sires within the industry. Melody has sons and daughters working in top programs across the country with over 180 recorded progeny with the American Simmental Association. Sons of impact would include Driver, Dream Catcher, and Catalyst. Her most noted daughters would be WAGR Lullaby 703T and WAGR Panarama 204Z. These females have produced countless high sellers, donor dams, and sires of importance within the breed, such as the \$400,000 Profit. 9042G, 9083G, 9402G are all standouts among the 2020 production sale offering with exceptional quality, stoutness, and structural integrity. The genuine mass, bold rib cage, and square build that these three herd sire prospects offer, with breed impacting possibilities, is remarkable. A set of flush mate brothers are from a long line of powerful cow families that consistently generate at the highest level. There is no denying the power in the blood! 9042G will be used extensively back in the CK Cattle and Wager Cattle programs. **RETAINING 1/2 SEMEN INTEREST**

LOT 2 - WAGR MELODYS CURRENCY 9083G ET

WAGR Melody's Currency 9083G ET is an ultra-attractive, smooth built, well designed son of the late Melody, one of the most influential Simmental donor matrons in the industry. This good-looking stud is well balanced from every angle. One of the most unique individuals to ever be born at CK Cattle Co. and Wager Cattle Co. He was raised on a below average recip dam but has continued to gain and perform at the highest level. His joint work, structural build, and practicality sets him apart. Another top candidate from the most proven cow family on the ranch. 9083G will be incorporated into both programs moving forward. **RETAINING ½ SEMEN INTEREST**

MELODY - DAM OF LOTS 1 - 3

LOT 3 - WAGR MELODYS CURRENCY 9402G ET

9402G is the third flush mate brother from the highly successful Currency x Melody mating. The lone blaze faced brother from a powerful set of brothers. The consistency, structural integrity, and genuine dimension of muscle shape and rib capacity is impressive. Pay attention to the influence that these three brothers have the opportunity to make. Proven and reliable genetics that have worked for over a decade!

Bailey's Dream Girl was the \$135,000 Profit daughter from the prolific Dreamy donor for Bailey Livestock in North Dakota. Dreamy has generated nearly \$1 Million in progeny sales to date and continues to produce the great ones. 9734G is a unique individual that combines breed leading phenotype, growth, and pedigree. His flawless basic build, bold shape, and real-world performance combined with his added balance make him a standout among this year's offering. He offers balanced data to accompany his superior phenotype and proven lineage. A top seedstock caliber herd sire prospect. **Polled | Black**

9662G is a direct son of FSC2 Bella, the dam of the 2019 National Western Stock Show Grand Champion Percentage Simmental Bull, Edge. This homozygous polled herd sire prospect came to the weaning pen with nearly 800 pounds of pay weight. His correct structural build, body shape, mass, and density make him a rugged herd sire prospect for even the most discriminating. Bella has evolved as one of the most consistent and productive females in the donor pen at CK Cattle Company. Structural correctness, shape, and performance! **Homozygous Polled | Heterozygous Black**

LOT 6 - CHEZ KRIC MR CURRENCY 9658G ET

A strong trio of flush mate brothers sired by the industry leading Ruby's Currency 7134E and backed by the MR HOC Broker daughter that is from the legendary GF Evening Tinge 1X matron. These three homozygous black and homozygous polled bulls are from the \$40,000 high selling Simmental female in the 2019 CK Cattle Company Proven Female Sale. These flush brothers offer sensible birth weights and rank among the top 15% of the breed for WW and top 25% YW. They offer carcass merit and are backed by one of the most phenotypically impressive females to ever set foot on the ranch. Substance, eye-appeal, and post weaning performance. These brothers will add consistency and value to your next calf crop.

LOT 7 - CHEZ KRIC MR CURRENCY 9656G ET

9656G is one of the most eye-appealing and well-balanced herd bull prospects in the 2020 production sale. He is huge footed, stout boned, wide based, and offers exceptional thickness and dimension. His dam, J6RA Bada Bing 1602B topped the 2019 CK Cattle Proven Female Sale, commanded \$40,000 to Freking and Fawcett. The genuine dimension, squareness of build, and flexibility that he offers is simply second to none. He has been admired since day one for his poised presence and athletic build. A big scrotal, square hiped, powerful ended bull with tremendous potential. A true sale feature that will be used back within both programs!

Currency is one of the most exciting young Simmental bulls to hit the scene in recent years. 9506G is backed by the famed Traveler 004 and MR HOC Broker on the bottom side of his pedigree. This massive, rugged, well balanced baldy herd bull prospect is one to set your sights on. He is a big footed, stout boned, bold bull that charts top 10% YW, top 15% YW, top 25% ADG, top 20% CW, and top 30% TI. **Homozygous Polled | Homozygous Black**

LOT 15 - CKCC MR PROFIT 9434G ET

An exciting pair of half-blood herd sire prospects sired by the \$400,000 Profit and backed by the prolific GF Evening Tinge 1X matron. These two flush mate brothers are maternal sibs to the \$40,000 "Bobbi" donor that topped the Simmental division of the 2019 CK Cattle Co. Proven Female Sale. Her influence is also seen throughout this offering. A pair of flush mate sisters to these two standout herd bull prospects topped the pasture bid-off sale at over \$80,000 and \$20,000 respectively. Sound footed, rugged and athletic in their basic build, with three-dimensional shape, these flush mate brothers come from one of the most dominant cow families on the ranch. Consistency is key – these flush mates will sire a sensational set of SimAngus replacement heifers and heavy weaning steers.

9019G is a stout made SimAngus bull that offers length, stoutness, and style. He is backed by a young and productive female that is sired by the Pioneer 917 sire that traces to the influence of SAV Pioneer 7301. On the maternal side of his lineage he also traces to the WAGR Lullaby 703T and 3C Melody M668 cow family. Consistency is key and the maternal stability that 9019G boasts is certainly noteworthy.

9914G is a January yearling son of Fortune that is backed by the influence of the famed Countess 462A cow family. The dam of this powerful ended, thick made SimAngus bull is sired by the late Pilgrim. He offers a modest actual birth weight with over 700 pounds of weaning weight performance. He is numerically balanced with tremendous outward shape, dimension and scale. **Polled | Black**

LOT 39 - CKCC MR 20-20 9743G

9743G is a big bodied, bold sprung, smooth made, well-balanced half-blood that is sired by 20-20 and from a big centered, high capacity daughter of Basin Excitement. This heavy weight stud boasts a WW Ratio of 112. Numerically he ranks top 20% WW, top 20% YW, top 25% ADG, top 20% CW, and top 15% REA. A top homo black and homo polled half-blood herd sire prospect that will add consistency, quality, and pay weight to your calf crop. His basic build, squareness, flexibility, genuine rib shape, and overall thickness makes him a leading herd sire prospect that will be used back in herd. His productive dam was the high selling female in the Bush Angus Annual Production Sale. A must see on sale day!

Basin Payweight 1682 has evolved as one of the leading Angus sires in the industry due to his unmatched ability to infuse body mass, fleshing ability, longevity, and a three-dimensional muscle pattern into his progeny. 9035G and 9066G are flush mate brothers by 1682 and out of the iconic WAGR Lullaby 703T matriarch, arguably the most noted daughter of the iconic 3C Melody M668. Sensible birth weights in high 70's and low 80's make them potential candidates for use on well managed virgin heifers. Their advantages in performance, phenotype, and genomic predictors make this pair of flush brothers true standouts among a deep and powerful set of Simmental and SimAngus bulls. They rank top 30% BW, top 30% MCE, top 25% Milk, top 20% CW, top 20% Marb, and top 30% TI.

This pair of bulls are strong aged 18-month old Horned Hereford bulls that are ready for heavy service. They are flush brothers sired by BR Copper 124Y and backed by the impressive ECR Candi 5451 ET matriarch, a past National Champion female that has become a role model brood cow. These horned bulls are stout, rugged, big scrotal herd sire prospects that combine some of the most popular and relevant genetics in the breed. They are balanced numbered with exceptional performance.

SIMMENTAL

THE FEMALE OFFERING

SIMANGUS™

LOT 100A - CKCC BOBBI JO 8804F ET

The opportunity to own a maternal sister to J6RA Bada Bing 1602B, affectionately known as "Bobbi", will present itself on February 16, 2020 in Highmore, South Dakota. "Bobbi" is without a doubt one of the most unique individuals that has ever been on the ranch. She was successfully campaigned by Chesney, where she was selected Grand Champion Percentage Simmental Female at the American Royal and the NAILE. She commanded \$40,000 to Freking and Fawcett in the Proven Female Sale in 2019. These two Profit daughters are backed by a sensational Angus female that has continued to be incorporated into the program, GF Evening Tinge 1X, one of the most impressive Saugahatchee 3000C daughters in existence. The Evening Tinge 1X cow family continues to have an impact on the program and a maternal sister by Profit topped the pasture bid off this past spring! Sisters have been campaigned to titles such as Grand Champion Percentage Simmental Female at the American Royal by Sara Sullivan, Supreme Champion Female at the 2018 Illinois State Fair by the Moore family, and Supreme Champion Female at the 2019 Minnesota State Fair by the Jackson family. A pair of full sisters to these two females topped the 2019 Pasture Bid-Off at \$81,000 and \$20,000 for 1/2 interest. Offering CHOICE in two tremendous SimAngus females that will have a substantial impact on any program!

8402F is a big hipped, good built daughter of Profit that is backed by the influence of the beef industry leader, Barstow Cash. She is a square hipped, wide pinned, and offers a high-quality look that we have come to rely on Profit to stamp his progeny with. The Profit daughters we offered up for sale last year have made tremendous young females and many have entered into the donor pen at their new residence. The impact these females will have as brood cows is second to none. *AI BRED 5/21/19 TO OVAL F ECHO E709 (ASA: 3237099). EXPOSED FROM 6/9/19 TO 8/15/19 TO R5 SOLUTION E111 (AAA: 19058033). TJ High Calibre 556B has solidified himself as one of the truly great Purebred breeding bulls in the industry due to his consistency, structural integrity, soundness, and look of design. High Calibre daughters are proving to be exceptional mothers, with perfect teat size, milk flow, and a strong maternal instinct. There is no denying the calf raising capabilities that these females have and the impact they will continue to make. Some of the very best two-year-old females at CK Cattle and Wager Cattle are daughter of the \$400,000 High Calibre. Pay attention to these daughters, they are worth the investment!

8520 is the ultra-attractive, well designed, sound build Hammer daughter within the offering. She is refined, feminine, and offers an elite look of quality from the profile. She is stout boned, big hiped, and bold in her upper rib cage. Her dam is a high capacity, deep sided, bold spring Pilgrim daughter that is a steady producer. Be sure to study the quality represented by countless sires of influence within her pedigree.

CK AND WAGER BRED FEMALES

Again, this year we are proud to offer a stout and productive set of SimAngus females from the heart of the CK Cattle Co. and Wager Cattle Co. program. These females come from females that are productive, easy keeping, fertile, sound footed and uddered, and offer longevity. These females are bred to last, just like their dams. These females will generate and offer a world of potential regardless of your production goals. Mate them Simmental, Club Calf, or Angus, we think you will be pleased with the results!
