

C-BAR

90+ BULLS

RANCH RAISED

ANNUAL BULL SALE

MONDAY | MARCH 9, 2020 | 1 PM | BROWNELL, KS

Dear Friends, Neighbors and Fellow Cattlemen,

On behalf of the whole C-Bar team I would like to invite you to join us on March 9 to evaluate what we believe is one of the deepest and most complete sets of bulls we've ever offered.

Special thanks to our team for doing a great job bringing in a heavy and healthy set of calves off the cow last fall. To the Durst's for a great job developing the bulls throughout the winter. I think you will find the bulls to be very gentle and in perfect shape for evaluation. They haven't been pushed or overfed and are ready to turn out to do great work in your pastures this spring.

A word and thought for the day.

PHILOSOPHY: The study of the fundamental nature of knowledge, reality, and existence, especially when considered as a basic discipline.

Why am I a rancher, cowman? The challenges facing all of us in the industry today can test the resolve of each and every one of us. I love my cows. Nothing brings more clarity to my life than the day to day of a cowherd on a Kansas prairie or a western range setting. It is my privilege to work with family, friends, and nature to care for this wonderful part of God's creation. Although many tools are available to assist with decisions we make in our management nothing can replace the time spent caring for and observing a cowherd day in and day out.

I believe in HAPPY COWS!

Cattle that are genetically designed to fit our environment and management. If you love your cows, I invite you to join us, I think you'll be glad you did.

Remember to keep God and family first.

Sincerely,

Steve & Cindy Maier

Red Angus Enthusiasts,

Welcome to the annual bull sale at C-Bar Red Angus. The C-Bar program has been built entirely on cow families that are stacked generations deep with proven and predictable genetics. Genetics that represent a potent proven program that has stayed to course for many successful years. Steve knows and understands the seedstock business as well as any of our clients and is especially passionate about his work. Once again, this sale features multiple full and half-brothers that represent the progressive-minded thought process that built this program.

Steve Maier and his family have bred and assembled one of the elite sets of Red Angus bulls for you to invest in. The responsible donor base for these herdsires have been selected for big, sound feet, text book udders, body mass, and fleshing ability without sacrificing pounds and performance. These cattle are not bred on the extremes but rather with balance in mind to insure profitability here at C-Bar and in your respective programs as well.

The bulls have been developed in a manner to host longevity for you as you make your investment. Steve is not only hard on the physical characteristics but has been diligent in recording the data needed to further prove positive his quest for the ideal. This program has yielded many bulls over the years that have went out and influenced some of the breed's most elite programs as well as being accepted by nearly every bull stud in the business. The genetics that back this set of bulls will enable one to tie into gene pools of consistency to improve the uniformity of your next calf crop. Performance and ultrasound data serve as a tool to producers to study the information that is provided and be confident and comfortable in your buying decision. This program has been built on generations of A.I. and embryo transfer, so the fertility of your potential replacements will be as phenomenal as their steer mates' performance on grass and in the yard before harvest.

The industry is on the rebound as we believe that the spike low is past us for awhile. As our government officials get closer to accomplishing international trade agreements, the protein business will only get better. Cattlemen and cattle women alike, you should take great pride in the fact that our nation the largest supplier of protein in the world with the safest standards in the world. The world population prefers our product, that's no secret, but we must continue to strive for perfection and not fall in a content state. That's why each of you that are serious about the business and desire to be an industry leader, need to be at the ranch in Brownell, Kansas on March 9, 2020 to invest in the future of your program and the beef business.

Enjoy the cattle!

John Bluff *Jul Sh*

SALE TERMS & CONDITIONS

1. BIDDING

The Auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

2. TERMS

Terms of sale are cash unless satisfactory credit arrangements have been made with Sale Management prior to sale.

3. PURCHASER'S RISK

Each animal becomes the risk of the Buyer as soon as sold, but it shall be the obligation of the Seller to see that animals are fed and cared for free of charge to Buyer, until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner.

4. HEALTH

All animals are eligible for interstate shipment, except as otherwise announced. Interstate health papers will be furnished for each animal requiring tuberculosis and brucellosis tests in accordance with Federal Regulations.

5. ANNOUNCEMENTS

Any changes from information of any kind in this catalog will be announced from the auction box and such announcements shall take precedence.

6. DEFAULT

In the event the Buyer defaults on payment, the Buyer shall be responsible for all costs, including attorney's costs, incurred by Sale Management or Seller in connection with collecting, or attempting to collect, payment due.

7. BREEDING GUARANTEE

All animals are guaranteed by the seller as outlined in the Red Angus Association of America Code of Ethical Sale Practices.

8. CONTRACT

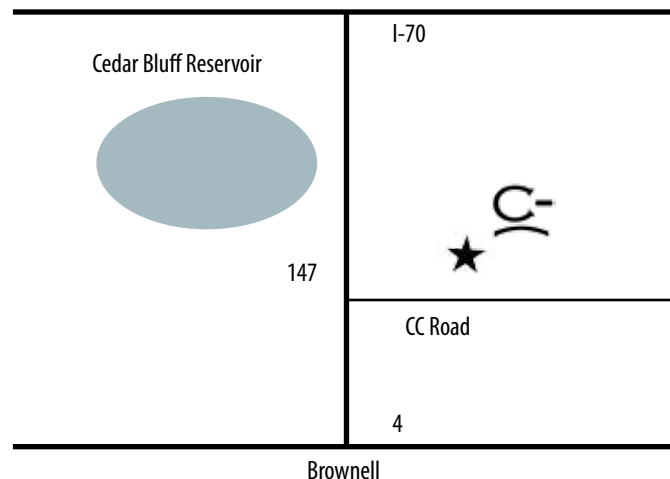

The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

9. LIABILITIES

All persons who attend the sale do so at their own risk. The seller, the sale manager, and the auction facility assume no liability for accidents that may occur. It is to be clearly understood that the sale manager and their representatives act only as a medium between the buyer and seller.

C-Bar Resolute 9012G leads off the 2020 offering of powerful, proven, and reliable Red Angus genetics. The cow family that supports and influences 9012G is the iconic A302 matriarch that has become a household name within the Red Angus breed and beef cattle industry. Resolute is from the young and exciting donor dam, ADHM Stony 503C. The Saga influence combines the added growth, length, shape, and carcass quality that we can all appreciate. Resolute is a true sale feature and one of the most intriguing young studs to sell at C-Bar Ranch. He is not only phenotypically appealing, but offers an excellent blend of numeric figures, carcass data, and cow family. 9012G ranks top 16% GridMaster, top 13% CED, top 7% BW, top 17% YW, top 3% ADG, top 15% Milk, top 8% HPG, top 11% CEM, top 19% CW, and top 10% REA. A true real-world spread bull that boasts impressive carcass figures with over a 4 IMF and a 14.10 REA. Resolute is an exciting herd bull prospect from the foundation cow line in Brownell, Kansas!

C-Bar Franchise is another standout brother from the A302 influence via Stony 503C. 9 Mile Franchise 6305 needs no introduction to the business as the six-figure valuation herd sire that continue to pave the way in the Red Angus breed. 9002G is the leading heifer bull candidate of the three brothers. With a sensible birth weight of 67 pounds, he is a logical option for use on virgin heifers. The udder quality, fertility, foot shape, and shear quality that is found within this cow family is second to none.

9005G is another standout Franchise 6305 son that is backed by a young donor dam, Stony 502C. She is the result of the Alliance x W914 mating that has proven to be very consistent and predictable. W914 is the dam of the \$60,000 C-Bar Legit, now working in the Kolle Red Angus program at Inez, Texas. He charts top 8% GM, top 10% BW, top 23% WW, top 5% ADG, top 10% HPG, top 4% Marb, top 1% CW, and top 3% REA. Legit is one of the highest marbling bulls we have ever seen, 9005G follows suit of the family tradition. He scanned with a 5.15 IMF and an IMF Ratio of 118. A carcass super star!

C-Bar Fearless 9143G offers a unique blend of the most proven cow families and influential individuals in the history of C-Bar Ranch. Sired by the \$105,000 9 Mile Franchise 6305, the impressive Y11 son that has taken the breed by storm. Maternally he is from the famed Stony cow line that has created a foundation in Brownell, Kansas. Stony W914 is the dam of the \$60,000 C-Bar Legit, one of the most impressive scanning bulls we have ever heard of, ranking among the top 1% of the breed for Marbling. 9143G charts top 9% GridMaster, top 8% BW, top 20% CED, top 16% ADG, top 10% HPG, top 15% CEM, top 5% Marb, top 25% YG, top 15% CW, and top 3% REA. With a 17.30 REA and a 5.60 IMF, Fearless offers an exceptional blend of carcass quality with breed leading scan data. He boasts an impressive 126 REA Ratio to accompany his numbers, phenotype, and cow family. A true breed leader and a definite sale feature!

9144G is the result of a very successful flush we purchased on the young and exciting WDZ Girl Power 5028 female. A set of flush sisters highlighted our fall female sale due to their unrivaled consistency, look, and structural build. 9144G is sired by Franchise 6305 and offers an exceptional blend of numeric values, phenotype, and cow family. He charts top 19% GridMaster, top 11% CED, top 9% BW, top 11% ADG, top 22% CEM, top 17% CW, and top 23% REA.

THE SPUR FRANCHISE SIRE GROUP

Spur Franchise of Garton
Sire of Lots 18 - 23

9132G, 9138G, and 9139G are flush mate brothers that are sired by the breed enhancing and carcass merit sensation, Spur Franchise of Garton. Most commonly recognized as the sire of the \$105,000 9 Mile Franchise 6305, Franchise of Garton is a trait leader for marbling and carcass quality. These three full brothers are backed by the C-Bar Stony 502C matron that is an own daughter of W914. These brothers rank top 2% for GridMaster, top 29% YW, top 21% ADG, top 18% HPG, top 1% Marb, top 1% CW, and top 1% REA. These bulls offer tremendous carcass merit, with the added shape, performance, and substance to sire heavy weaning steer calves with true carcass value and added earing potential. The females are destined to follow in the footsteps of the tried and true Stony cow family.

Tried and true is the most efficient way to describe the cow family that supports this dynamic pair of flush mate brothers. Sired by Spur Franchise of Garton and from the instrumental Laso Leanna X23B cow family, tracing to BC114R. These brothers offer an exceptional number profile as they rank top 1% GridMaster, top 15% CED, top 23% BW, top 26% ADG, top 17% Milk, top 13% CEM, top 1% Marb, top 10% YG, top 13% CW, and top 2% REA. Generations of powerful matriarchs can be identified throughout their lineage.

Big River is one of the most influential sires that we have ever produced at C-Bar Ranch. Sired by the popular PIE One Of A Kind and backed by the famed Joline Z243 matron. Without a doubt one of the most proven and reliable matings on the ranch in Brownell, Kansas. The influence that sons of Z243 have had and continue to have on the business is remarkable. They are stout, sound footed, athletic cattle with real-world performance, shape, and density. This set of flush mate brothers are led by C-Bar Overflow 9008G. 9008G is a unique individual that is from one of the most exciting flushes to be born in 2019. The flush sisters were equally as impressive in their type, kind, and style. C-Bar Abigrace 264Z is the matriarch that was sold as a featured lot in a past C-Bar Ranch marketing event to Nancy Bowling of Oklahoma. Her impact and influence on the Boling Ranch program will be exciting to watch, just as she has done within our program. 9008G, 9004G, 9013G, and 9401G are among the top 14% for GridMaster, top 3% WW, top 3% YW, top 8% ADG, top 23% YG, top 20% CW, and top 20% REA. Carcass merit, real-world performance, cow family, and phenotypic excellence these flush brothers check all of the boxes!

C-Bar Big River 9010G combines the influence of two of the most visually eye-appealing females to ever set foot on the ranch. Z243 and the late Y11 are extraordinary producers and have left an impact on the business. 730E is a two-year-old female that is a maternal sister to the \$105,000 9 Mile Franchise 6305. He ranks top 9% GridMaster, top 4% WW, top 3% YW, top 4% ADG, top 16% HPG, top 17% Marb, top 8% CW, and top 6% REA. A sensible birth weight of 75 pounds makes this category 2 stud a calving ease option for virgin heifers.

9009G and 9403G are Big River sons from the breed impacting Mimi W085 cow family. One of the most successful matings has been the Anticipation 101W x Mimi W085 cross. The udder quality, longevity, foot structure, and shape is second to none. Mimi 404B is an exciting young female that is now working for Schoen Farms Red Angus at Adams, Nebraska. These brothers chart top 13% for GridMaster, top 16% WW, top 19% YW, top 26% ADG, top 20% Marb, top 15% YG, top 29% CW, and top 8% Fat. 9009G boasts a sensible actual birth weight with over a 15-inch REA. 9403G offers an impressive weaning weight of over 720-pounds with balanced scan data.

Damar Rock'A Dilly Z373 is the dam of a powerful set of females that highlighted our female sale in the fall of 2019. Z373 was the high selling female in The Elite female sale from Cloud 9 Cattle Company at \$32,000 and has become one of the most impressive and prolific females in the program. 9011G is a powerful and rugged Big River son that is equipped with the added shape, performance, and dimension that we have come to expect from this sire group. He ranks top 11% WW, top 17% YW, top 25% YG, and top 20% Fat.

LOT 35

C-Bar King Pin 9115G is the lead off son from a popular and productive flush of flush brothers sired by HXC Allegiance 5502C. Allegiance is designed to infuse breed leading growth, marbling and phenotype in one package. Allegiance is the #1 bull in the active ABS lineup for marbling EPD with top third of the breed calving ease and top of the breed growth and performance. Progeny have been born effortless and possess his great phenotype. Near flawless type and kind, attractive profile, super sound, very thick with added muscle yet deep and soft sided. C-Bar Abigrace A364 is most famously known for producing the two-time National Champion stud, C-Bar Blake's Bonanza. Bonanza is now working in the Niobrara program in Nebraska with great success. The brothers to 9115G would include 9107G, 9108G, 9109G, 9114G, 9116G, 9118G, 9122G, 9126G, 9127G, and 9128G. These 11 full brothers offer breed leading figures to accompany their real-world performance, shape, structural integrity, and shear quality. These brothers rank top 29% GridMaster, top 17% ME, top 7% Marb, and balance with excellent figures numerically across the board. Here is the opportunity to tie together several full brothers that are from not only one of the most respected cow families on the ranch in Brownell, Kansas, but also represent the blend of phenotype, performance, and add carcass merit potential. A must see set of brothers on sale day at C-Bar Ranch!

C-Bar Allegiance 9135G is out of a young and productive female that is a maternal sister to the \$105,000 9 Mile Franchise 6305. Backed by the impressive Y11 matriarch. 9135G is an Allegiance son that boasts a top 7% GridMaster, top 14% YW, top 22% HPG, top 2% Marb, top 2% CW, and top 10% REA.

LOT 48

The Allegiance sire group continues to impress with each set of flush brothers that we have born and developed. There is no denying the shape, foot quality, and maternal stability that this set of flush mate brothers offer. The maternal granddam of these studs is the \$60,000 valuation Laso Leanna BC114R. HXC Allegiance 5502C is designed to infuse breed leading growth, marbling and phenotype in one package. Allegiance is the #1 bull in the active ABS lineup for marbling EPD with top third of the breed calving ease and top of the breed growth and performance. The 9 flush mate brothers represent a strong balance of phenotype, breed leading figures with balance, along with elite carcass merit, and maternal stability. A well-rounded package that is hard to create and even more challenging to find when searching for a herd sire prospect. 9101G, 9102G, 9103G, 9105G, 9106G, 9111G, 9112G, 9113G, and 9102G are among the top 3% for GridMaster, top 30% WW, top 20% YW, top 13% ADG, top 1% Marb, and top 24% CW. Backed by generations of tremendous udder quality, foot structure, and complimented by breed leading carcass merit. True BEEF bulls from a powerful flush.

C-Bar Dividend 9134G has one of the greatest opportunities to make an impact on the business as any bull in the offering. The sire of 9134G is ICC Pay Raise 4886, a powerful Payweight son with performance with outstanding phenotype. Top 5% growth with strong \$Weaning, \$Feedlot and \$Beef index values. His dam is attractive and highly productive with a great udder. Tremendous maternal pedigree stacking Hoover Dam and Traveler 8180 on top of a deep Rollin Rock base. Pay Raise 4886 exhibits a powerful phenotype with added capacity and muscle mass in a super sound and super attractive package. Dividend 9134G is backed by one of the true rising stars in the C-Bar program, C-Bar Abigrace 636D, an own daughter of the late Y11 and a full sister to the \$105,000 9 Mile Franchise 6305! Dividend is an unbelievable individual with tremendous upside from a phenotype standpoint and ranks top 12% GridMaster, top 17% DMI, top 22% Marb, top 9% YG, top 4% REA, and top 14% Fat. An outcross breed leader that will move the Red Angus breed forward.

Lot 57 - Bonus 9133G is another standout from the Pay Raise x 636D mating that has exceeded our expectations. The influence of individuals such as Basin Payweight, Hoover Dam, Y11, and Franchise of Garton make this bull and his flush brothers so unique from an outcross herd sire standpoint. The influence of Y11 will only aid in fertility and udder quality, with true genetating capabilities. He ranks top 12% GridMaster, top 17% DMI, top 22% Marb, top 9% YG, top 4% REA, and top 14% Fat.

Lots 58 - 61 - 9123G, 9124G, 9125G, and 9141G are flush mate brothers from one of the most successful Black-Red Carrier flushes we have EVER done at C-Bar Red Angus. The influence of Y11 has had as much impact on our program as any female to ever set foot in our donor pen. C-Bar Abigrace 636D is a rising star in the C-Bar program and we are confident that her legacy will follow in the footsteps of her donor dam. These brothers ranks top 12% GridMaster, top 17% DMI, top 22% Marb, top 9% YG, top 4% REA, and top 14% Fat.

THE BOURNE SIRE GROUP

The next set of flush brothers are sired by the tried and true SL Bourne 117-48A stud that was produced in the famed 5L program of Montana. Arguably, Bourne has become Red Angus' most balanced spread bull - combining calving ease and post-weaning gain with more style, shape, carcass and cow herd traits than almost any bull suited for heifers. We used Bourne heavily on both heifers and cows. 30 sons at 5L averaged 72-pound actual birth weight with average ratios of 105 WW and 105 YW. Bourne is a moderate framed bull with powerful shape - long-spined, thick quartered, and soft flanked. Few bulls improve so many traits simultaneously. These brothers are sure shot heifer bulls that offer excellent spread from birth to weaning, with balanced number profiles. They rank top 8% GridMaster, top 15% BW, top 18% WW, top 21% ADG, top 24% ME, top 3% HPG, top 3% Marb, top 29% CW, and top 9% REA. A strong trio of heifer bull options from an elite cow family.

Top Dollar Angus Feeder Program

Top Dollar Angus is a genetic-certification and marketing company focused exclusively on the top 25% of the industry in carcass and growth Angus and Red Angus-influenced feeder cattle. Top Dollar Angus is a program similar to other popular branded-beef programs, except that Top Dollar Angus does its "branding" in the feeder cattle and calf market.

Qualified herds must have two or more generations of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25% of the breed based on documented historical sire use. DNA evaluation, conducted by Zoetis or GeneSeek, is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo, and will be promoted aggressively to a large number of feed yards and buyers. In today's market, Top Dollar Angus cattle are seeing premiums ranging from \$30 to \$70 per head above the average market.

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder's pocket, which can be passed back to the producer in the form of premiums paid above market price.

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feed yards are tired of unpredictable performance and wide-ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but are very different genetically. That's why the genetic certification of high-end Angus and Red Angus feeder cattle is here! The industry must differentiate the best Angus and Red Angus genetics from average cattle, and that's what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus or Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle, our goal is to create more demand and higher prices for your calves.

C-BAR

THE FALL BULLS

C-Bar DMDL Seneca 8406F leads off a powerful and rugged set of coming two-year old herd bull prospects. The same principles, philosophy, and criteria applies to the breeding and development that goes into the fall herd in which these bulls were produced. 8406F is one of the most masculine, stout boned, big footed, wide based, three-dimensional bulls in the entire offering. His dam is the picture perfect A305, a flush sister to the renowned A302 matron. Backed by the famed Stony cow family, this herd bull prospect is sired by the impressive Seneca that now walks the pastures of the 9 Mile Ranch in Washington state. Numerically he is balanced as he charts top 27% BW, top 22% WW, top 20% YW, top 21% ADG, top 29% HPG, top 24% Stay, and top 19% CW.

C-Bar My Oh My Mimi 512C - Dam of Lots 77 -80

The next four strong aged herd sire prospects are by the \$105,000 9 Mile Franchise 6305, one of the hottest and most exciting young sires in the Red Angus business. These brothers are supported by the Oh My Mimi 512C matron, arguably one the top daughters of the great Mimi W085 donor, a true individual of impact within the industry. These four brothers are smooth made, big bodied, well-balanced and offer an exceptional number profile. They chart top 9% GridMaster, top 8% BW, top 7% ADG, top 9% Milk, top 7% HPG, top 17% CEM, top 1% CW, and top 2% REA. The combination of low birth genetics, a negative BW EPD, and a double-digit CE figure makes them viable options for use on well managed virgin heifers!

8752F is the lone son in the offering by the two-time National Champion bull, C-Bar Blake's Bonanza 180C, the leading Saga son from the Abigrace cow family that was selected as the Grand Champion Bull at the Iowa State Fair, Minnesota State Fair Supreme Champion Overall Breeds, and the National Western Stock Show before being purchased by Niobrara Red Angus of Nebraska. The dam of this bull is a Mulberry sired daughter of the great Bonnebell N327, a leading female for the Damar farms program that has left her legacy within the Red Angus breed. A herd bull prospect that is backed by generations of proven lineage!

The next pair of flush mate brothers are sired by the great Bieber CL Atomic C218. His combination of calving ease, performance, maternal traits and carcass merit is unequalled in the breed. He is a big topped, deep ribbed, masculine bull blew the doors off with his performance; weighing in at 752 WW & 1375 YW for ratios of 120 & 119 respectively. Furthermore, he was one of the top bulls for carcass traits, ratioing 131 for IMF and 107 for REA. On top of everything, he offers an outcross pedigree to many of today's popular pedigrees. The dam of these flush brothers is the Abigrace 264Z matron that now works at the Bowling Ranch in Oklahoma. There is no denying the udder quality, carcass quality, and growth potential that supports these flush brothers and truly defines what they are capable of siring.

Six Mile Signature - Sire of Lot 92

C-Bar Miss Mimi 458B- Dam of Lot 92

C-Bar Signature 8760F is from a popular and proven mating. His sire is the blood red stud that took the breed by storm a few years back as one of the most impressive Red Angus bulls to ever set foot on "the hill" at the National Western Stock Show. A full sister to this bull is the C-Bar Mimi 727E female, a new and exciting addition to the evolving donor pen at C-Bar. Her unmatched look, udder quality, foot design, and shear quality is second to none. 8760F is from the Miss Mimi 458B female, arguably the most impressive young female on the ranch. A sale feature that is destined to leave behind a tremendous set of females.

843F and 856F are flush mate brothers by the popular Red U-2 Reckoning 149A. His females are super impressive and turning into beautiful uddered young cows. In his first calf crop, Reckoning took the Red Angus breed by storm producing highly sought-after females and herd sire prospects. He injects a dark red color, tons of shape and extra look in a skeletally correct package. Reckoning's first daughters topped Six Mile's Genetic Focus 2015 sale at \$34,000 and \$30,000 and highlighted the U-2 Ranch and Six Mile Ranch Bull Sales at \$105,000, \$75,000, \$60,000 and \$30,000. The dam of these two brothers is the foundation female A305, one of the most proven and tested young females in the program. A maternal brother to these bulls is the late C-Bar Creedence 131D, a bull that was retained in herd and used with great success until his untimely death. These bulls were both used at C-Bar Ranch. They sell with the same herd health protocol and breeding soundness exam as the yearling and 18-month-old bulls, along with a negative trich test.
