

*Kearns Cattle Co.*  
**31ST ANNUAL BULL SALE**

*Thursday, March 5, 2020 at 1 pm*  
**AT THE RANCH IN RUSHVILLE, NE**

## *Cattle Producers and Friends.*

We can all say 2019 is finally over, and 2020 is like a new fresh breath of air! With that said this offering of bulls is without a doubt our best set yet, with over half of the bulls being ET calves. We have our very best cow families represented with Dolly, Victoria, Precision 2077Z, Misty May, Tiara and now some new matriarch's in Malsons Savannah 27Y, SB Peg 506, and Echo 40E.

Cattle markets this year showed that pounds paid, with that said these Simmental and Sim-Angus bulls are ticket for your success with the only free thing in this business is heterosis. As always, we are very thankful our customers, the interest from new customers and friends. Please come by anytime or don't hesitate to call to visit about the offering, or visit our website [kearnscattleco.com](http://kearnscattleco.com) or [superiorlivestock.com](http://superiorlivestock.com)

Please consider this your invitation to join us March 4th at 1-5pm for viewing of the bulls and hospitality. Join us March 5th at the ranch for our 31st annual production sale. We would also like to thank our neighbors and friends who assist us sale day and throughout the course of the year. We hope to you Thursday March 5th 1:00 PM MST at the ranch Rushville NE.

## *Fellow Cattle Enthusiasts,*

I'll be honest, we had to call Tom and ask about the existence of the Kearns' homestead, but we believe you will enjoy the story. This event essentially represents over a century of ranching heritage, multiple decades beyond, in fact. That fact matters more than most give it credit for, but the seedstock division started forward progression just past 1977 when Tom moved his bride back to the best place to ranch and raise a family.

If you have never been, this is the year to come to the sale. The entertainment value is all in the bull pen, we promise. The bulls have had as many challenges as any region of the country has had in the last 5 years. Extremely wet conditions hindered more than hay production in western Nebraska this past growing season. So, that said, the stock has rebounded in tremendous fashion and the cattle are as good as they have ever been in Rushville. Per usual, ideal picture weather was not found, but the posted videos will represent the program and the finished product.

For those that have been fans or haters of the \$120,000 Fort Worth High Seller, Exclusive, this will be the initial season of the proving ground! We believe this sire group is loaded with doability, shape, and body, not to mention look and productive eye appeal to the upper, foremost level! On another note, for those that doubt, the percentage cattle and the lion's share of the purebreds not in Denver are undoubtedly worthy of a look as well! These cattle are promised to not disappoint for those that make the trip to Sheridan county Nebraska. The hospitality will be plentiful and the people that back them are exceptional. The customer feedback over the past five years has been phenomenal and the reported customer service is consistent with more than satisfied.

Please consider this your personal invitation to the real world. The world where families thrive ranching and animal/production agriculture is commonplace. Join us in Northwest Nebraska, just 2 hours south of Rapid City and the Mount Rushmore Monument, March 5, 2020. The vision of 2020 is picture perfect!

*The Innovation AgMarketing Management Team*

A photograph of a herd of cattle standing in a snowy field. The cattle are mostly black, with one reddish-brown cow visible in the middle. The background is a vast, flat, snow-covered landscape under a clear sky.

## DELIVERY

Free delivery within 300 miles on all bulls and we will assist in finding delivery options to other parts of the country!

## HEALTH

Bulls have been vaccinated under Dr. Erquiaga's recommendations. All bulls have been tested negative for BVD. Sale vet will assist buyers on health status for specific states.

## ONLINE BIDDING

We are pleased to bring you real-time internet bidding and a live broadcast of this sale through Superior Broadcasting. If you are unable to attend for any reason, you may bid online at [superiorlivestock.com](http://superiorlivestock.com). Please be sure to create an account and get approved for bidding prior to the start of the sale. For more information consult the Superior Bidding Instructions in the back of this sale catalog. You can also contact the Superior Livestock Office at (800) 431-4452.

## TERMS

Terms of sale are cash or check payable immediately upon conclusion of the sale and before animals will be removed. Sale will be available to registered bidders via the Internet at [Superiorlivestock.com](http://Superiorlivestock.com) to accommodate both local and distant individuals who cannot attend in person. They provide a real-time internet broadcast during the sale. All absentee bidding will be done via internet to a ringside sale representative. Please register for bidder number at [superiorlivestock.com](http://superiorlivestock.com) anytime prior to 12 Noon on Wednesday, March 4th to accommodate the approval process. After this date/time, bidder approval may be delayed. Approved bidders will be issued bidder number and access prior to the sale.

## RISK

Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury, and will be loaded according to purchaser's direction. Insurance will be available sale day. Contact Jim Gies (970) 590-0500.

## GUARANTEE

Unless otherwise noted, all the breeding age bulls will have passed a breeding soundness exam prior to pick up/delivery. In addition to the standard Terms and Conditions of the American Simmental Association we will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all yearling and older bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. If a bull is deemed a non-breeder, we reserve the right to take the bull back and prove that he is a breeder within a 180-day period. We will work with our veterinarian and you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price less the salvage value of the animal.

## ANNOUNCEMENT

Announcements from the auction block will precedence over statements in catalog. Disclaimer: The information in this catalog is subject to change.

## LIABILITY

Neither owners nor sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents.

## WHY SIMGENETIC CATTLE?

- LOWER YIELD GRADES
- INCREASE WEANING WEIGHTS
- IMPROVE THE UDDER QUALITY AND LONGEVITY OF YOUR REPLACEMENTS
- ENHANCE YOUR ANGUS BASED GENETICS WITH SIMGENETIC BULLS

## 2019 SALE PRICING BREAKDOWN

## KEARNS CATTLE COMPANY BULLS ARE AFFORDABLE!

75% of the bulls sold for \$4999 or less in the 2019 sale. With extensive use of E.T. and AI, we are proud to offer many full, 3/4, and 1/2 brothers to provide our customers with a more uniform and consistent product! You will see the direct benefit of uniformity in your calf crops and the added value that they will command!

# A GUIDE TO EXPECTED PROGENY DIFFERENCES

**Expected Progeny Differences (EPDs):** EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing what units they are expressed in. For example, if the above case referred to weaning weight EPDs, A would be expected to sire 15-pounds more weaning weight than B. If calving ease were the trait, A would be expected to sire 15-percent more unassisted births in first-calf heifers; in other words, if B sired 30 assists in a group of 100 heifers, we'd expect A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit [www.simmental.org](http://www.simmental.org). Listed below are the units ASA EPDs are expressed in:

- **Calving Ease (CE):** Percent of unassisted births when used on heifers.
- **Birth Weight (BW):** Pounds of birth weight.
- **Weaning Weight (WW):** Pounds of weaning weight.
- **Yearling Weight (YW):** Pounds of yearling weight.
- **Maternal Calving Ease (MCE):** Percent of unassisted births in first-calving daughters.
- **Milk (MLK):** Pounds of weaning weight due to milk.
- **Maternal Weaning Weight (MWW):** Pounds of weaning weight due to milk and growth.
- **Stayability (STAY):** Percent of daughters remaining in the cowherd at 6 years of age.
- **Carcass Weight (CW):** Pounds of carcass weight.
- **Yield Grade (YG):** Yield grade score.
- **Marbling (MRB):** Marbling score.
- **Back Fat (BF):** Inches of backfat.
- **Ribeye Area (REA):** Square inches of ribeye.
- **All-Purpose Index (API):** Dollars per cow exposed under an all-purpose-sire scenario. (See below for more details.)
- **Terminal Index (TI):** Dollars per cow exposed under a terminal-sire scenario. (See below for more details.)

**\$ Indexes:** Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on your bottom line. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes: All-Purpose Index (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

**Terminal Index (TI):** Evaluates sire for use on mature Angus cows with all offspring put on feed and sold grade and yield.

Using API and TI: First, determine which index to use; if you're keeping replacements use API, if not, TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. x 4 yr. = \$6,000). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit [www.simmental.org](http://www.simmental.org).

### HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at [www.superiorlivestock.com](http://www.superiorlivestock.com).

### HERE'S HOW IT WORKS

**Turn in Bids Over the Phone.** This is our traditional method of buying livestock. To get started simply go online to [www.superiorlivestock.com](http://www.superiorlivestock.com) and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it, or scan and email the form to [info@superiorauction.com](mailto:info@superiorauction.com). You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

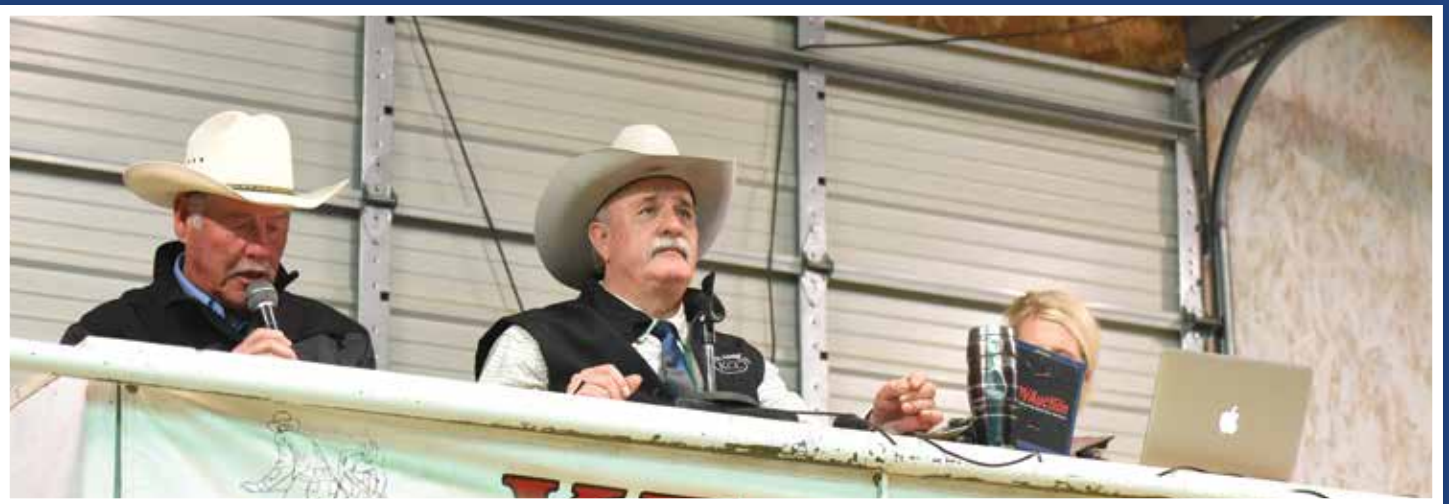

**Click-To-Bid.** This is Superior's online bidding platform for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) to sign up. Becoming a member is easy - just go to the homepage of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

**Viewing the Auction.** There are 2 places to view the sale broadcast live on the internet: [www.superiorlivestock.com](http://www.superiorlivestock.com) or [www.superiorclicktobid.com](http://www.superiorclicktobid.com). Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone or tablet go to [www.superiorlivestock.com](http://www.superiorlivestock.com), but if you want to bid over the computer you must go to [www.superiorclicktobid.com](http://www.superiorclicktobid.com). Remember you can call in to bid on the internet, but you must be a member of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) to "clicktobid". Your computer must have Flash Media Player installed for this website to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452.

\*If you plan to bid by phone through Superior Livestock or 'Click-to-Bid', you must register at [www.superiorlivestock.com](http://www.superiorlivestock.com) prior to bidding.

**K**earns Cattle Company has always been based emphasis around breeding cattle that work for our customers. Through changing trends, fads, and market fluctuations we have always remained focused on producing beef cattle that remain sound structured, fertile, maternal, efficient, and come to the weaning pen with pay weight. At the end of the day, this is what counts! The lead off pair of flush brothers are from the most successful mating at Kearns Cattle Company and backed by the two most dominant producers, Victoria and Dolly. This mother daughter duo is responsible for countless herd sires, donor dams, and individuals of influence within the Simmental Breed. Sired by Hammer, making these two brothers full sibs to the \$120,000 ½ Interest KCC1 Exclusive 116E that was the high selling lot in the 2018 Cowtown Classic. Exclusive is well represented in the 2020 offering with 31 sons and two full brothers selling! Other brothers to these two herd bull candidates are working for the Sulak family of Texas, one for Kelly Holderread of Oklahoma, Adam Dryer of Illinois, Brian Schied of Nebraska, Kory Kessinger of Colorado, and Bar O Cattle Company in Kansas. The proof is in the progeny, and the late Victoria has written her chapter, just as Dolly has done herself. Consistent, reliable, proven, and time-tested genetics. These are variables that are hard to put a number value or prediction on, these are cold hard facts. Hang your hat on a cow family that has earned their keep the old-fashioned way!

Victoria - Dam of Lots 1 & 2

LOT 2

**K**CC1 Hammer 359G is a three-quarter brother to several sale feature percentage SimAngus bulls that sold in our 2019 sale and were members of our class winning Percentage pen at the 2019 NWSS. Those brothers to 359G were sired by Classified, the impressive Dolly son that walked at Hudson Pines Farms in New York. A true performance-oriented stud that came to the weaning pen with over 750 pounds of pay weight. He ranks top 25% WW, top 25% YW, top 25% CW, top 20% BF, and top 25% REA. The dam of 359G is the productive Limestone Star W992 matron that is by BC Lookout 7024 and backed by the legendary SVF Sheza Star S803. Maternal stability, predictability, and true functionality line his pedigree and we expect 359G to leave behind a trail of productive replacements.

**W**e start the Exclusive sire group with a tremendous trio of brothers that are from the CBAR BD Sara 927W matriarch that works in the A&D Sulak Farms program of Texas. 927W was a past high selling female in the Circle M Farms dispersal sale. These bulls exemplify power, substance, functionality, and sheer performance. Exclusive exceeded all expectations in his rookie calf crop, and we are ecstatic for what is to come. As a sire group they are true beef cattle with real-world performance, shape, and genuine base width. Structurally speaking, these bulls are big footed, deep healed, and travel with athleticism. 3009G and 2014G made the trip to the National Western Stock Show in Denver where 3009G was a member of our class winning pen of three Purebred bulls. Numerically, these bulls offer excellent spread from birth to yearling with balanced traits across the board. The actual data confirms the impact that these three brothers will have on the business. All three brothers were born in the 80-pound range, and all weaned off at over 760 pounds of Payweight. This visual performance, substance of body, muscle, and mass combined is what sets these brothers into a league of their own. This mating has proven consistent on the female side of the equation, as a full sister was sold in The Black Label last fall commanding \$15,000. A true example of power in the blood!

## LOT 7

Without question 338G and 317G are two of the most unique bulls among the offering. They are sired by the popular KCC1 Exclusive and backed by the Limestone Star W992 matriarch. A three-quarter brother to 359G that sells as lot 3. The Hammer influence seems to always click with tremendous success when mated to W992. In 2019, W992 produced several Classified sons that were among the featured lots in our 30th annual sale. 338G sets the standard for body mass, capacity, volume, and shear dimension from every angle. These cattle come easy, grow fast, and never miss a beat when it comes to conversion and daily gain. 338G offers a sensible 79-pound birth weight and came to the weaning pen at 800 pounds!

## LOT 8

317G is big boned, wide bodied, square hiped and also offers tremendous real-world spread from birth to weaning. There is no doubt that this mating works and we believe that both bulls are candidates for use on well managed virgin heifers, yet will not sacrifice the added power, pounds, and fleshing ability that reflects your bottom line!

Lot 10

The next set of brothers are from arguably one of the most successful flushes at Kearns Cattle Company. When we purchased SB Peg 506 from our good friends at Sisco Brothers we knew that this female was destined to make an impact in our donor pen. Not only did 506 prove to set the bar when it came to fertility, but the Exclusive mating proved to be as consistent and uniform as any set of half-blood SimAngus bulls ever born in Rushville. These six brothers are modern, stout, and thick. From the ground up they are designed with true athleticism, structural integrity, and genuine base width. These brothers were extremely consistent in their birth weights, with all of them ranging from the mid 70's to the low 80's and coming unassisted. The vigor, performance, and conversion capabilities that these Exclusive sons offer is second to none. From their sensible birth weights, this flush of brothers all came to the weaning pen pushing down the scales with over 700 pounds of pay weight. These 506 sons are true calving ease options that rank among the top 15% for CE, top 25% for BW, and remained balanced in their number profile across the board. Consistency is key, calving ease is critical, and performance from birth to weaning is necessary to be profitable. If you're searching for full brothers to turn out to increase uniformity within your next calf crop, the search is over!

872G and 290G are flush brothers from the staple Angus donor dam at Kearns Cattle Company, TR Ms Precision 2077Z, a tremendous Final Answer daughter that has proven to be one of the most consistent and reliable producing females in our program. In 2018, TR Ms Precision 2077Z produced a pen of bulls that highlighted our sale. Sons of 2077Z by Carver are working in programs across North America at top programs; Krebs Ranch of Nebraska, KenCo Cattle Company of Tennessee, Mark Johnson of Nebraska, Jane Krause of Nebraska, E&B Arthur of Iowa, and Nelson Family Farms of Minnesota. This pair of homozygous black and homozygous polled flush brothers not only impress phenotypically, but rank top 5% CW, top 25% BW, top 10% WW, top 10% YW, top 15% ADG, top 4% MCE, top 35% MWW, top 35% Marb, top 25% REA, top 10% API, and top 5% TI. Balanced, proven genetics that are sure to add the fundamentals to your cow herd; foot structure, performance, udder quality, and longevity!

## LOT 19

518G is the Exclusive sired stud from the Final Answer influence. He offers tremendous real-world performance and spread from birth to weaning. With a 79-pound actual birth weight and a BW Ratio of 104, this bull never missed a beat and came to the weaning pen with 740 pounds of pay weight. With a 13 CE, negative BW EPD, and a spread to over 100 at a year, this homozygous black and homozygous polled bull checks all the boxes! A maternal brother to 518G was one of the featured lots in 2019 and was purchased by longtime customer and friend, Travis Goings.

TKCC Exclusive 320G is a leading Exclusive son that is backed by a unique young female that has evolved as one of the newest members of the donor pen at Kearns Cattle Company. Ms Echo 40E is a Profit daughter from the SAV Blackcap May 1657 matriarch. A full brother to 40E topped the percentage Simmental division at CK and Wager in 2019 at \$19,500. The Blackcap May cow line is one of the most renowned, well-respected, and proven cow families in the famed SAV program. 320G is a thick made, wide pinned, big topped three-quarter blood that is sure to impress even the most critical from a mass and dimension standpoint. He is another heavy weaning stud that will add pounds to your calf crop!

TKCC Defiant 604G is another stout made, big hipped three-quarter blood SimAngus that offers the influence of a past sale feature, TKCC Pinnacle. Pinnacle was selected and used heavily by one of the great cattlemen and outfits in North America, Gib Yardley of Yardley Cattle Company in Beaver Utah. 604G traces to the influence of WAGR Driver 706T, one of the most impactful sires that we have ever had the opportunity to utilize. Balanced traits with a triple digit yearling weight EPD are identified here.

## LOT 38

KCC1 Generation 856G is one of the most unique individuals among the entire offering, and it all starts on the maternal side of his pedigree. The dam of 856G is the rising star in the donor pen at Kearns Cattle Company, KCC1 Havana 83E. Havana 83E is the lone full sister to the \$120,000 KCC1 Exclusive stud, the most heavily represented sire group of the 2020 sale offering. 856G is sired by the breed leading CDI Innovator 325D, offering an outcross type pedigree to most through the influence of TJ Main Event 503B. Generation 856G brings forth a stout, fundamentally correct, sound and functional build. His body shape, muscularity, and rugged look is further complimented by the most unique and dynamic number profile among the entire sale offering. He ranks top 10% CE, top 20% BW, top 4% WW, top 10% YW, top 20% ADG, top 20% MCE, top 15% MWW, top 4% Doc, top 3% CW, top 10% Marb, top 10% REA, top 5% API, and top 2% TI. A full sister was selected by Swain Select Simmentals of Kentucky and will be incorporated into their progressive program. Study the cow family, the look, the build, and the elite number profile that solidifies his herd sire credentials.

Innovator - Sire of Lot 38

## LOT 39

TKCC Escalade 507G combines two past high selling individuals, TKCC Escalade 1820E and KCC1 Pinnacle 118Z. Escalade was one of the sale topping bulls at \$28,000 a few years back selling to the progressive southeastern Simmental program, Fenton Farms. Escalade is a full brother to the \$100,000 Cannon, and the \$70,000 Classified studs. Pinnacle topped the sale a few years prior, selling to the renowned Yardley Cattle Company program of Beaver, Utah. 507G offers a unique blend of performance and carcass merit as he ranks top 30% WW, top 35% YW, top 10% YG, top 15% BF, top 10% REA, and top 30% TI. 507G combines the influence of Dolly and Tiara, two of the most prolific females in the donor pen. A true product of the program!

Carver - Sire of Lots 40 - 47

*Carver is one of the most consistent, dominant, and predictable sons of Dolly*

**T**KCC Carver 65C is a past high seller, commanded \$33,000 to the Carver group in 2016 shortly after he was the lead off bull in the National Western Stock Show Grand Champion pen of three Purebred Simmental bulls. Carver has evolved as one of the most consistent, dominant, and predictable sons of Dolly that we have ever used. The genuine shape, body capacity, structural integrity, foot design, and real-world performance that the Carver progeny offer is second to none. Carver's consistency is due primarily to the maternal stability of his dam, the legendary Ford RJ Dolly Y83 matriarch. Carver has proven to work on Purebred, Percentage, and Angus females with great success, and the buyer and bidder demand that his progeny have had is hard to compare to. These cattle come easy, offer excellent vigor, rapid growth, and true performance. SB Peg 506 has evolved as one of the premier Angus donors that we have in embryo production. We purchased this big bodied, stout made, good looking Angus female from our friends at Sisco Brothers Cattle Company in Syracuse, Nebraska with high hopes for the impact she would make on our half-blood sector, allowing new genetics to build from. 506 is sired by the renowned SAV Brilliance 8077 and from the famed Peg cow family that has experienced much success for other programs such as Hoffman Ranch. Here is a powerful set of flush mate brothers that are the kind we hang our hat on. Structurally they are stout, big bodied, easy feeding bulls with tremendous power, shape, and capacity. These flush brothers offer balanced numbers to accompany their phenotype. Add consistency, pounds, and profit to your calf crop with a tremendous set of Carver sons on March 5, 2020 in Rushville!

KCC1 Empire 4018G is the lead off stud from the KCC1 Empire 280E rookie season sire group. Empire 280E was the \$20,000 selection by Krebs Ranch in 2018. He is a Carver son from the famed TR Ms Precision 2077Z matriarch that is the most consistent and highest dollar generating Angus female on the ranch. There are a handful of full sisters to Empire 280E that have been retained in herd and will serve as a major building block in our program moving forward. KCC1 Brooklyn 4018B is the Broker sired dam of 4018G. She is a big bodied, stout made half-blood that is backed by the iconic Thomas Ranch donor, TR Ms Katinka 3208N. Cow power, predictability, and true maternal stability lines this stud's pedigree top and bottom side. Pay attention here if you retain females in herd, this bull will make a big impact for your program!

KCC1 Empire 183G is one of the most impressive big spread bulls among the entire offering. Starting with a 74-pound actual birth weight and an impressive BW Ratio of 110, he is the number 1 low birth weight bull in his contemporary group. 183G maintained his number 1 ranking through weaning time as he pushed down the scales with 844 pounds of pay weight. He boasts a 112 WW Ratio to further solidify his credentials. Top 10% CE, top 10% BW, top 4% WW, top 10% YW, top 35% ADG, top 10% MCE, top 15% MWW, top 20% Stay, top 30% Marb, top 35% REA, top 20% Shr, top 4% API, and top 2% TI.

TKCC Bottomline 540G is an own son of the top Pilgrim son, TL Bottomline, a multiple-time National Champion and six-figured high selling stud at the Hartman Cattle Company bull sale. NFF Wicked B125 is a leading donor in the Shipwreck Cattle Company and Ruby Cattle Company donor pens and has been a matron that we have admired for her consistency and generating power. B125 produced the \$30,000 high selling open heifer calf in the 2019 Cowtown Classic that went on to be selected as the 2020 Fort Worth Stock Show Grand Champion Simmental Female. Other daughters of B125 include a \$15,500 Battle Cry daughter that was a past Champion in Houston and San Antonio, as well as a \$12,500 Counter Attack daughter. There is no denying the genetic value, consistency, and potential that 540G offers as a herd sire prospect!

Havana is the lone sister that was produced from the Hammer x Victoria mating that yielded over \$250,000 worth of herd bulls that work in top programs across North America. She is one of the stoutest, squarest made, most three-dimensional females we have ever produced, yet she handles herself with sheer athleticism, and a maternal look of quality that can't be denied. This set of flush brothers are by the \$400,000 Profit that has influenced the beef industry with great success over the last 5 years. This fall Havana produced a Profit heifer that sold for \$13,000 and a heifer calf by Innovator that sold for \$8,000. The Profit x Havana mating exceeded expectations to say the least. These Profit sons offer tremendous balanced, structural integrity, and design with an eye-appealing look that is second to none. Havana is just a three-year-old now with her first set of ET calves highlighting this offering, but it is safe to say that she will follow in the footsteps of her dam and grandam when it comes to generating elite Simmental seedstock.

LOT 59

**B**attle Cry is the Broker son that was raised by Ruby and Shipwreck. He is from the famed Yeti donor dam that is also the dam of Economy, one of our walking sires that was purchased in 2018 with Jerry Adamson as the second-high selling bull at Ruby Cattle Company's annual bull sale. The Battle Cry progeny are stout, thick, wide, and deep cattle that offer an excellent presence and eye-appeal. The dam of this powerful set of flush brothers is the great KR Savannah 27Y, most widely known as the dam of the legendary Angus sire, KR Casino 6243. Casino took the breed by storm when he was on display in Denver as a calf in the Krebs Ranch carload prior to topping their sale at \$49,500 to Badger Creek Cattle Company. This flush yielded a standout set of half-blood SimAngus bulls that are destined to make a major impact on the business. What is more exciting to us about this mating is that the females are just as good, and all made their way straight into the replacement pen. They will offer outcross foundation SimAngus genetics to our Simmental cow herd and help to create the next generation of SimGenetic seedstock for our customers. Study the consistency, power, and presence that these herd bull prospects offer!

Savannah 27Y - Dam of Lots 59 - 60

3 55G and 741G are flush mate brothers from one of the most well-represented and dominant SimAngus females in the donor pen at Kearns Cattle Company. Limestone Star W992 is a representative of one of the Simmental breeds most important cow families. Battle Cry is the Broker son that is backed by the iconic Yeti 143Y donor. The number of power cows that can be identified throughout the pedigree of these two herd bull prospects is second to none. A strong maternal foundation is what we have built our program around, and we appreciate the significance of powerful females and what they are capable of producing. Behind every good bull is an even better female and we are firm believers that both of these three-quarter blood herd sire prospects will bring forth trait leading capabilities, balanced phenotypes, and performance-oriented growth and power. These bulls are balanced numerically, while ranking top 25% for WW, top 35% CW, and top 20% BF. This pair of brothers will add fleshing ability, body mass and volume. From a staple donor dam that has several sons represented throughout this offering, these genetics flat work!

Estelle 510E- Dam of Lots 63 - 64

**K**CC1 Estelle 510E is a maternal sister to the \$120,000 Exclusive that is sired by the top Broker son that was raised by Ruby and Shipwreck. Battle Cry is in turn backed by SWC Ruby Yetti 143Y, one of the most phenotypically appealing females in the business that consistently produces herd sire caliber sons and donor caliber females. Estelle topped The Event sale at \$30,000 to our friends at Forster Ranch and went on to be in the top 10 at the largest and most competitive Junior National heifer show in recent years when it was held in Minnesota. Estelle is a striking female with superb udder quality, volume, length, and dimension. She has evolved into a role model female just like we anticipated from an early age. Estelle will follow in the footsteps of her late dam, the iconic TKCC Victoria 57A. This pair of Purebred herd sire candidates are balanced numerically, stout featured, rugged in their design, and flawless on the move. The longevity that is identified through the influence of Dolly and Yetti line the pedigree of these full brothers. Power in the blood!

The staple Angus donor in our program, TR Ms Precision 2077Z has proven that she can produce at the highest and most elite level time after time. Her mating to Carver put her on the map two years ago when some of the best cattlemen in the business purchased sons through the ring here in Rushville. We decided that we would try her to a wider selection of Purebred Simmental sires that we have been using on the Simmental side of our program with great success. Ruby SWC Battle Cry 431B worked just like we expected it to here and we couldn't be more excited about the results. This pair of brothers ranks top 15% CE, top 35% BW, top 3% WW, top 3% YW, top 10% ADG, top 10% MCE, top 10% MCE, top 20% MWW, top 15% CW, top 25% Shr, top 35% API, and top 10% TI. The maternal sisters to these two studs will make a substantial impact within our program moving forward.

*Taylor Hood and Exclusive, thank you for all of your hard work!*

Turnpike was one of the highlights at the NWSS in "The Yards" and of the 2018 sale season. Turnpike topped the Ruby Cattle Company bull sale at \$71,000 to Werning Cattle Company and Double Bar D Farms. The first Turnpike progeny to sell have taken the breed by storm, with sons averaging over \$8,000 at Ruby's 2020 Bull Sale and a high of \$34,000. Turnpike adds stoutness, length, and frame. This mating to the legendary Dolly Y83 matron produced a heavy weaning, larger framed, long bodied herd sire prospect that offers exceptional data. He charts top 3% WW, top 3% YW, top 10% ADG, top 20% MWW, top 35% Doc, top 20% CW, top 15% YG, top 20% Marb, top 2% REA, and top 4% TI.

*A special Thank You to Eddie Bracken  
for his dedication and hard work, we couldn't  
do it without you!*

In 2018 we identified a bull in "The Yard" at the National Western Stock Show that we felt would complement our cowherd. Ruby SWC Economy E766 is a unique individual that combines body, shape, and pedigree into a balanced breeding bull. The dam of Economy E766 is the great SWC Ruby Yetti 143Y matriarch that is responsible for countless sons and daughters working in top programs across North America. The most notable maternal brothers to Economy would include Battle Cry and Gentleman's Jack, two sires we have used within our ET program at Kearns Cattle Company. TKCC Ciara 26C is a full sister to the \$33,000 Carver and \$32,000 Certified, backed by the influence of the great Dolly matron. TKCC Ciara 26C is an exciting young female in the donor pen that we have big expectations and hopes for as she follows in the footsteps of her iconic dam. These bulls combine the influence of two of the most well-known and respected dams of herd bulls in the country. This powerful set of brothers rank top 35% CE, top 30% WW, top 15% Doc, top 30% Marb, top 25% REA, top 25% Shr, and top 30% TI.

The Economy calves are among some of the most consistent in the offering. They are big bodied, dense made cattle that have substance and eye-appeal. From a powerful flush, TKCC Ciara 26C has emerged as one of the leading young donors in the program. Balanced traits numerically from an elite cow family top and bottom side.

TKCC Economy 26G is a thick topped, big hiped, good footed bull that is rugged in his make-up. He scanned with a big REA to accompany his visual performance and stoutness. A good balance of ultrasound data, EPD's, and visual performance.

KCC1 Economy 116G is a maternal brother to countless herd bulls that have been produced at Kearns Cattle Company. Most known brothers would be the \$120,000 Exclusive, the \$35,500 Enterprise, as well as countless other Hammer sired brothers that are working in top seedstock and commercial program across the country. The late Victoria is one of the most consistent and prolific producing matrons that we have ever utilized in our embryo transfer program. 116G is a big centered, soggy made type Purebred that is homozygous black and homozygous polled. He charts top 20% CE, top 25% BW, top 20% MCE, top 3% Doc, top 20% YG, top 15% REA, and top 25% Shr.

LOT 79

**K**R Casino 6243 is one of the most impressive and intriguing Angus sires that we have EVER laid our eyes on. Casino was the popular son of Savannah 27Y that was the talk of the yards at the National Western a few years ago prior to topping the Krebs Ranch sale at \$49,500 to Badger Creek Cattle Company. Casino made his mark as the 2017 American Royal ROV Grand Champion Angus Bull and the 2017 NAILE ROV Reserve Grand Champion Angus Bull. We decided that we were going to incorporate Casino into our breeding program after we saw him and his dam. In fact, we liked Casino so much and appreciated what he brings to the table that we purchased his dam from Krebs Ranch. Power, performance, shape, and structural integrity. These cattle are stout, high performing, and offer added length and scale. The dam of this trio of bulls is Tiara 1Z, the Driver donor that continues to impress us with her consistency and maternal functionality. These flush brothers chart top 25% WW, top 20% YW, top 20% ADG, top 4% Milk, top 5% MWW, and top 35% CW.

*Casino - Sire of Lots 78 - 82*

Our admiration for KR Casino 6243 began in Denver and only continued as we watched him mature into one of the most impressive Angus bulls that has ever been campaigned. His stoutness, genuine shape, body mass, hip structure, muscularity, and thickness is what sets Casino into a league of his own. Although these bulls are just 3/8 SimAngus we knew that the Casino x Dolly mating would certainly be a hit. These brothers are big boned, stout made, high performing, and offer added length and volume. The sister mates to these flush brothers are absolutely sensational and will find their way back into the program. We are anxious to watch these females make an impact, just as their great dam Dolly has done for our program. 36G and OG rank top 15% WW, top 15% YW, top 15% ADG, top 15% Milk, top 10% MWW, top 20% Marb, and top 20% TI.

## From Our Customers

I have purchased Bulls from KCC for several years. During this time I have come to appreciate the consistent uniformity that these growthy, high performing bulls have given my operation. Excellent carcass traits and cattle that feedlots are looking for is what you will find in these SimAngus cattle. KCC bulls have added value to my operation in many ways! **-Travis Goings (Pine Ridge, SD)**

LOT 83

The next pair of flush mate brothers are sired by the popular half-blood SimAngus stud W/C Son Of A Biscuit 83E that is working for our friends at Western Cattle Source. His genuine body shape, structural integrity, cow family, and visually appealing profile is what sets him apart. The dam of these bulls is TKCC Ms Echo 40E, a member of the famed SAV Blackcap May 1567 cow family. She is a Profit sired half-blood that is a full sister to the high selling percentage Simmental bull that sold in the CK Cattle and Wager Cattle production sale in 2019. These bulls offer unmatched potential from a cow family standpoint, combining the influence of Blackcap May and 8543U. These bulls are balanced numerically, while offering tremendous appeal visually with great potential to inject the SimAngus advantage into your cowherd!

TKCC New Direction 62C is the son of Dolly that our good friends at Vogler Cattle Company purchased a few years back and have found great success with him as proven heifer safe sire. 40G is the natural calf of the up and coming Ms Echo 40E female that is from the famed Blackcap May cow line. Here is a heifer safe option that boasts a 74-pound actual birth weight and spreads to over 700 at weaning time with a WW Ratio of 105. Big time potential here in a leading heifer bull candidate that will not sacrifice pay weight or the consistency of a proven cow family.

**1** G, 2G, and 20G are flush mate brothers that are sired by the Western Cattle Source resident herd sire, Son Of A Biscuit. The dam of these studs is the young and impressive KCC1 Estelle 510E, the Bottomline daughter of the late Victoria. There is no denying the impact that Victoria has made on the business during her tenure in Rushville, Nebraska. Estelle is a striking blaze faced female that personifies the maternal functionality that we strive for in each and every female within our cow herd. Estelle offers tremendous eye-appeal, body shape, udder quality, and structural integrity. We anticipate her to follow in the footsteps of her late dam, Victoria 57A from a generating and producing standpoint. She was selected by Forster Ranch as the high selling open heifer calf in The Event sale in the fall of 2017. Study the maternal stability that can be identified throughout the pedigree of these three bulls through the impact of Dolly, Victoria, and 8543U. Pay attention here to the consistency and genetic power!

5006G is a big bodied, deep sided, sound-built quarter-blood SimAngus bull that is one of the heaviest weaning bulls among the entire offering. He tipped the scales at 821-pounds and boasts a WW Ratio of 109. There is no denying the pounds of performance that he will inject into any cow herd! A balanced number profile accompanies his visual stoutness and pay weight.

TKCC Cowboy Up 103G is an impressive SimAngus bull that is certain to add pay weight to any calf crop. He offers a sensible birth weight of 78 pounds, while spreading to an impressive 805-pound weaning weight and a WW Ratio of 105. He is a true spread bull with real world application and breeding flexibility. Don't sacrifice weaning weight performance when selecting a heifer bull. He charts top 30% WW, top 35% YW, top 25% MCE, top 30% CW, top 25% Doc, top 25% Marb, top 25% API, and top 30% TI.

TKCC United 450G is a half-blood herd bull prospect that is backed by the influence of two of the most impactful sires in the beef cattle industry, W/C United 956Y and Barstow Cash. The dam of this powerful herd sire prospect is a big bodied, good footed, great uddered young cow that has proven her worth in production. A great maternal option with a 120 WW EPD and a double digit CE figure make him a multi-purpose individual for any program.

TJ Franchise 451D topped the Walsh Dispersal sale when he commanded a \$45,000 one-half interest hammer price this past fall. There is no denying that Franchise is one of the most sought after and impressive half-blood SimAngus sire options in the business. 7030G is the lone son and offers breed leading performance. He charts top 35% CE, top 15% WW, top 20% YW, top 20% MCE, top 35% ADG, top 1% MWW, top 20% Marb, top 10% API, and top 10% TI. A 783-pound weaning weight and a 104 WW Ratio solidifies his credentials as a performance oriented SimAngus bull that will add value to your calf crop. *Offered by Kennedy Kearns*

Victoria - Maternal Sister to Lots 101 - 108

Dolly is without a doubt one of the most important and influential females in the Simmental business. There is no denying the impact she has had over the course of the last 5 years and the legacy she will leave. Here is one of the most unique opportunities to acquire a daughter from this legendary donor dam. The most influential daughter of Dolly is the late, Victoria, a true producer that generated well over \$250,000 within her first set of ET calves, including the \$120,000 Exclusive, the largest sire group of bulls ever offered at Kearns Cattle Company. Another popular daughter of Dolly is the Dolly 49C matron that is sired by New Direction and works in the Rains Simmentals and Bird Cattle Company programs. Brothers to this dynamic set of females would include the \$100,000 Cannon, the \$70,000 Classified, the \$40,000 Frost, the \$33,000 Carver, \$32,000 Certified, the \$28,000 Eclipse, among countless other sons that are working in top programs across the United States. This set of daughters are sired by the \$435,000 Currency stud, the \$71,000 Turnpike, and the multiple time ROV National Champion, KR Casino 6243. These females are sound built, big bodied, and equipped with the fundamentals necessary to be a big-league producer. Proven, reliable, time-tested genetics that have built our program at Rushville, Nebraska. Tie into these genetics with the utmost confidence.

TKCC Miss Turnpike is a standout young female that is sired by the \$71,000 Turnpike stud and backed by the influence of Profit. The dam of this female is the Echo 40E donor that has several sons selling in this offering. 40E is backed by the famed Blackcap May family produced in the renowned SAV program. A full brother to 40E is pictured. Money Maker was the high selling percentage SimAngus bull at the 2019 CK Cattle and Wager Cattle production sale. A unique breeding piece that offers a genetic combination including the most well-respected bloodlines in the industry.
