Sale Schedule

Sunday - March 28, 2021
Bulls available for viewing all day
Monday - March 29, 2021
9:00 am - Bulls on Display
11:30 am - Lunch Served
1:00 pm - Partners in Progress Sale

Welcome friends and neighbors to our 9th annual Partners in Progress Production sale here at McEntire Red Angus. We hope you know how much we appreciate everyone who supports our program. We love the cattle business and the families that it brings to our Ranch. It's what we do day in and day out, except for a few sporting events with the kids every so often!

We are excited about the offering of bulls we have for you this spring. These bulls were weaned on the 1st of October and developed here at the ranch. We have had them on a high roughage ration on a 110-day test. The carcass ultrasound data came back with great results, as you will be able to see in the bull information listed with each lot.

We understand that the Red Angus Breed is becoming more and more popular and that you have many options when it comes to choosing your herd bulls. We invite you out to the ranch to look over the bulls and heifers and hopefully you will find something that will bring value to your own operation and move your program forward. Good Bulls make great cows and our mating decisions have been based on producing next generation females to be more efficient and productive than their mothers. The Red Angus cattle have been known for good dispositions, calving ease, adaptability, and keeping your operation in the black! A good set of Red Angus tagged calves will top the sale no matter where you go.

We will be selling a nice set of herd bull prospects that we feel will make a great addition to a seed stock producer or to a commercial cattle operation. We will also be selling 90 commercial straight Red Angus replacement heifers and 50 commercial Red Angus Pairs. These heifers have been on a complete vaccination program and will be checked by Dr. Richard Prather one week prior to the sale for reproductive soundness. We will be selling these heifers and pairs in a gate cut of five head or more.

We would like to invite you to come out to the ranch on Sunday night before the sale and enjoy supper and a social. We would love to get to know you and your family! We will eat around 6:00 pm.

Please join us sale day at 11:30 am for lunch. The sale will start promptly at 1:00 pm CST. Again this year, the sale will be broadcasted live on CCI.Live for those of you that are unable to attend the sale. If you have any questions about the sale, please feel free to contact us or any of the sale staff to visit about the offering. Be sure and check out our website at www.mcentireredangus.com to view videos of all the lots in the sale. We will not sell in catalog order this year. Therefore, please be sure and look on our Facebook page or on CCI.live for the sale order on sale day. Thank you for your interest, and we look forward to doing business with you.

See you at the sale!

Randy McEntire

INNOVATION

— AgMarketing, LLC —

Welcome to the McEntire Red Angus 2021 Annual Partners in Progress Sale! It is a pleasure to work with the McEntire family and their program. There is no question that this operation is committed to producing a high-quality product for their valued customers. Randy, Crystal, and their family have assembled a tremendous foundation of brood cows to build from. Structure, longevity, fleshing ability, and performance are priorities. This highly functional, no-nonsense cow herd has been further enhanced through elite herd sire selection. Many of the walking herd sires at McEntire Red Angus are breed-leading sires that offer exceptional phenotype, genomics, and numeric profiles. The cowherd has adapted to the arid conditions of Western Oklahoma and thrives on the natural resources. These cattle are capable of going to different environments, adapting, and thriving because of the strict selection criteria that the cattle are put through day in and day out.

The McEntire family is fully committed to their product and their customers. They will be offering 64 stout, yearling and age advantage Red Angus bulls, as well as 30 head of foundation building registered females. A tremendous set of commercial Red Angus open females, and 50 commercial Red Angus pairs will sell following the registered offering. Consistency within sire groups is present, and the McEntire family is proud to offer large sire groups to better serve their customers with large selections of 1/2 brothers to improve uniformity of their customers calf crop.

The registered females are from the heart of the program and offer foundation-building traits. Many of these females are from top producing females that have endured the conditions and excelled. The commercial offering is a top shelf set of commercial Red Angus females that offer tremendous promise as brood cow prospects.

Consider this your invitation to join us on Monday, March 29th in Sweetwater, Oklahoma for the McEntire Red Angus 2021 Partners in Progress sale! Lunch will be served at 11:30 and the sale will begin at 1:00 PM CST. Again, this year the sale will be broadcasted live on CCI.Live for those of you that are unable to attend the sale. If you have any questions about the sale, please feel free to contact any of the sale staff to visit about the offering. Enjoy the Cattle!

Enjoy the Cattle!

SALE ORDER

Cattle WILL NOT sell in catalog order this year. A sale order will be available prior to the sale.

TERMS & CONDITIONS

Cattle sell under the standard terms and conditions as recommended by the Red Angus Association of America.

SEMEN INTEREST

McEntire Red Angus will retain 1/2 semen interest in all bulls sold.

SEMEN TEST

All bulls will be semen and Trichomonas tested prior to the sale and are guaranteed to be fertile.

INCENTIVES

Free delivery within 150 miles of the ranch on bulls selling for \$3,500 or more and free nation-wide delivery on purchases greater than \$20,000. This does not include heifers. All trucking on females are the buyer's responsibility, but we will be glad to assist with trucking plans. If bulls cannot be taken sale day or arrangements have not been made with us within the first week for delivery, the seller can house bulls until pick up at a rate of \$4/day, however we will not be responsible for sickness or injury.

LIABILITY & ACCIDENTS

Every precaution will be exercised to protect the safety and comfort of those attending the sale. Neither the owners, auctioneer or any sale staff assume any responsibility in this matter and disclaim any liability, legal or otherwise, in the event of accident or loss of property. All persons attending the sale do so at their own risk. We are not responsible for typographical errors.

GUARANTEE

All bulls selling over \$4,000 will carry a first breeding season guarantee. The first breeding season ends August 1 of the year of purchase. Any request for a replacement bull needs to be made by this date. Death loss is the buyer's risk and mortality insurance is available on all bulls at the sale. Anything selling over \$5,000 is recommended to buy Livestock Mortality Insurance and McEntire Red Angus will pay 2% of the premium. Normal care and adequate nutrition need to be provided for maximum potential to be reached. It is recommended that bulls receive supplemental feed after the breeding season until they have reach maturity.

HERD HEALTH

All cattle sold through the sale are on a complete health program and will be accompanied by the health papers for shipment anywhere in the United States.

4MC Prospect 9100 is a long sided, smooth made, powerful individual that is backed by the Saga influence maternally. He boasts a REA Ratio of 110 and a WW Ratio of 116. A herd sire candidate that offers real world power and performance.

The Yearling Bulls

Lot 17

We initiate the yearling herd sire offering with an own son of the industry leading 4MC King of the Cowboys 706. 0101 offers the same look, style, presence, and muscle expression as KOTC did just a few years ago when he topped our Partners in Progress Bull Sale. KOTC has sired countless high sellers across the industry for top programs in North America. KOTC is the sire of the 2020 NAILE Reserve Grand Champion Red Angus Heifer, 2021 Cattlemen's Congress Reserve Grand Champion Red Angus Heifer, and the sire of the \$40,000 1/2 Interest bred heifer at Werning Cattle Company. Here is your opportunity to acquire an own son of KOTC for yourself! Bid with the utmost confidence.

How to Bid Online

Tips and Tricks to Master Online Bidding

STEP 1. Use Chrome or Safari, a newer browser or download the CCI.live app at Google Play or Apple App store.

STEP 2. Open your app or go to the address of www.CCI.live in your browser. CCI.live can be used on a cell phone, tablet, laptop or desktop. Some older models may not be compatible and will show a yellow caution symbol if so.

STEP 3. Create an account and then request bidding credentials through CCI.live. Use the bank information listed on your check. Please use a correct phone and email address.

STEP 4. Once you are accepted for bidding credentials you will receive a text message and/or email notification. Proceed to "Get Buyer Number" on the actual sale page of your interest. Some sales may also require a passcode to obtain a buyer number. On these auctions, you will obtain passcodes from the sale office phone number for the specific auction you are interested in. Please closely read the terms!

STEP 5. You are ready to go! Make sure you understand, once you are logged in, have a buyer number and are watching the sale that you are on a highly sensitive web page. **Be careful when scrolling that you do not accidentally hit the bid button and watch children closely as they tend to grab cell phones and accidentally bid.**

TIPS FOR SUCCESSFUL BIDDING

- Make sure you have good service. Bidding and driving is not recommended. You should have two - three bars on your cellular devices. At home you should have an UPLOAD speed of 2 mg or more UP. Use this site to test your internet: www.speedtest.net.

REFRESH YOUR SCREEN AT SALE TIME

If you have logged in over an hour prior to sale time, you may need to login again. **DO NOT** let the computer set idle and then return and try to bid, the website may have logged you out.

CCI.live does not accept payment, you will pay the sale management, farm or ranch direct.

Help videos can be found at www.CCI.live

The Yearling Bulls

MF RAMBLER 7191 - SIRE OF LOTS 20- 21

0353 and 0343 are paternal brothers sired by MF Rambler 7191 and both backed by the Optimism influence on the maternal side of their pedigree. MF Rambler 7191 was our selection from the McMurphy Farms program of Alva, Oklahoma. 0343 charts top 5% HB and top 1% Stay. 0353 ranks among the elite 1% of the breed for ProS, top 10% HB, top 1% GM, top 22% WW, top 10% YW, top 4% ADG, top 10% Stay, top 7% Marb, top 2% CW, and top 2% Fat. A powerful pair of powerful Rambler sons that are ready for heavy service!

4MC Seneca 0140 is the lead off son of PIE Seneca 7213 that is backed by a stout made daughter of High Capacity. He charts top 7% WW, top 14% YW, top 11% Stay, top 21% YG, top 20% CW, and top 6% REA. He boasts a WW Ratio of 106 and is a true performance standout. The Seneca sire group has taken the breed by storm due to the consistency, foot quality, true dimension, shape, and fleshing ability that these cattle offer. We selected PIE Seneca 7213 because he upheld the same fundamentals as his famous sire, RREDS Seneca 731C. Lots 33 through 42 are derived from this prolific sire line. If you are looking to add consistency and uniformity to a sire group, look no further!

4MC Top Shelf 0160 is a tremendous son of 4MC Top Shelf 766, another standout from the Seneca sire line that was bred right here in Sweetwater, Oklahoma. The dam of 766 is the prolific PIE Boteet 0192 matriarch. 0106 ranks top 13% ADG, top 17% HPG, top, 14% YG, top 9% CW, and top 19% REA.

4MC TOP SHELF 766 - SIRE OF LOT 43

THE SON OF *Top Shelf*

MARCH 29, 2021 IN SWEETWATER, OK

The Yearling Bulls

Lot 44

The next set of bulls are sired by PIE Weigh Up 8157, an own son of Bieber High Roller C553 and backed by the influence of PIE July Dalles 425. This set of bulls are sound footed, big hiped, stout boned, and offer breed leading performance. These bulls offer breed leading carcass figures that will enhance REA and Marbling within a set of feeder cattle. Pay attention to the tremendous performance and carcass merit that these bulls offer.

4MC New Territory 0157 is a true sale feature and one that we encourage you to study in the flesh on sale day. Sired by resident herd sire, 4MC New Territory 8106, the powerful son of PIE New Territory 523 and backed by the Monu 550 matron. Here is a moderate framed, dense, bold bodied beef bull that is sure to leave behind a sensational set of daughters that excel in terms of fleshing ease and longevity. He charts top 15% GM, top 22% WW, top 20% YW, top 20% ADG, top 17% Marb, and top 20% CW.

4MC NEW TERRITORY 8106 - SIRE OF LOT 56

THE SONS OF *New Territory*

The Yearling Bulls

PIE NEW TERRITORY 523 - SIRE OF LOTS 57 - 59

The next trio of brothers are peas in a pod. Consistency is key if you are selling you feeder cattle at weaning time, and this set of paternal brothers can certainly add value to any operation that is looking to capitalize on the added premiums that a set of uniform red hided feeders can command. Performance, carcass quality, and feed conversion... this set of bulls checks all the boxes!

The C194 daughters we have retained in the cowherd are proving to be of bigtime value. They are only just entering the production pen however we think their future is bright. This is a direct daughter of Bieber Fusion C194 and the result of his mating on a 5L Adina derivative, a cow family that needs no introduction to Red Angus enthusiasts.

The Commercial Offering

100+ OPENS & 50 FIRST-CALF HEIFER PAIRS

THE PARTNERS IN PROGRESS BULL SALE

BELOW YOU WILL FIND DESCRIPTIONS OF THE EPD DATA LISTED IN THIS SALE CATALOG.

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an “I”, and may or may not include the animal’s own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

ProS - Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB - HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM - GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the postweaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED - Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW - Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW - Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW - Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG - Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI - Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK - Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME - Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG - Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM - Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY - Stayability predicts differences in the ability of an animals’ retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB - Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG - Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW - Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA - Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib.(Square Inches/High Value)

FAT - Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

THIS IS WHY THEY CALL HIM THE

King

4MC KING OF THE COWBOYS 706 - RAAA: 3822051

Congratulations to the Hartman family for breeding and exhibiting these exciting young females sired by 4MC King of the Cowboys 706. KOTC topped our 2018 bull sale selling to Hidden Oaks Cattle in Canton, Texas. A customer success story that we are proud of!
