PROFIT SHARING 2022

SIMGENETIC AND CHAROLAIS AGE ADVANTAGE BULLS

Sale

Bar CK Cattle Company

PROFIT HAS NEVER LOOKED SO GOOD!

On behalf of Bar CK, I would like to welcome you to the 11th annual "Profit Sharing Bull Sale" which will be held at the Bar CK Ranch in Culver, Oregon on Monday March 14, 2022. Since 2005 we have been dedicated to breeding cattle for only one purpose, our CUSTOMERS PROFITABILITY. When deciding cow mating's over the last decade and a half we have never once considered how much we could sell the resulting progeny for, but rather how the results would impact our customer's bottom line. We did this by focusing on API (All Purpose Index).

API is a whole life cycle profit index that takes in account all expenses and receipts in beef cows from birth to rail and where replacements females are retained. Our mission has been to supply cow calf operators with a product that would let them harvest maternal heterosis and maximize their net return. This started us down the path to becoming the highest API herd in the IGS (International Genetics Solutions), the largest multi-breed data base in the world of more than twenty million head.

It's not our intent to sound braggadocios about our API standing but rather to show how our belief in the system has provided a measured and consistent improvement in our herd. We stayed the course with our model through times when it was neither popular nor profitable for us. Using the API index system together with the common goal of increasing heterosis to select mating pairs on our ranch has led us in a consistent climb in the average API ranking of our entire herd. Today we can not only say that the Bar CK Ranch is home to the highest-ranking API herd in the IGS database, we can also proudly say that we've consistently held that top spot for some time now.

The immediate result of breeding cattle for elite API indexes was a dramatic improvement in cow longevity related EPDs, such as direct and maternal calving ease, birth weight, and stayability. We also have seen a moderation in size. Cow longevity trumps all other traits for rancher's profitability. Another pleasant surprise we have learned in the last 15 years is that breeding for API has also made our cattle more attractive. Think about what makes cattle attractive. Physical traits like udder quality, slick shiny hair coats in the summertime, sound feet and legs, clean extended necks and shoulder angle all contribute to overall eye appeal. These same physical traits seem to positively impact the aforementioned longevity related EPDs as well.

Originally, we hoped that we could maintain an average TI index as we began our assault on API. TI or Terminal Index predicts profit differences in sires where all offspring are put on feed and sold on a grade and yield basis. What we found was that as we continued to put more pressure on API, we also gained upward pressure on TI because the ultra-high API sires are also ultra-high marbling sires. The 2022 offering averages over a 1 IGS marbling EPD. That is elite Angus marbling in bulls that are 50% or more Simmental. We have traditionally been known as the highest API herd in the IGS data base, but we are also the highest TI herd in the IGS data base as well.

The year 2021 was full of numerous challenges for us as well as many producers in the West. Drought and limited feed resources have been a recurring theme. Experiencing these environmental conditions has done nothing but strengthen our belief in API and hybrid cattle. Moderate crossbred cows that have been bred for stayability are the keys to surviving harsh conditions like these. Our cows are 200 to 300 lbs. smaller than before we started breeding for API. Weaning weights have remained relatively constant and less cows have been culled for being open at preg check time, resulting in more lbs. of calf weaned per cow exposed to the bull or units of feed.

With the limited feed resources available to us, we decided to forage develop these bulls just like our commercial customers do their calves. No corn or silage has been fed. We are extremely proud of the way the bulls have matured. Feet, leg structure and semen quality have all improved. These fellas are going to breed a pile of cows and last a longtime. Even though we never pushed our bulls hard, I don't believe we will ever develop the old way again.

So, no matter what your end game is in the cattle business, the most profitable bulls you can buy are right here at Bar CK. Come take a look at our cattle and see for yourself what unique and special offering this is. If you try a glass of our Kool-Aid, we guarantee that you will be back for a second one.

Take care,

Mike Alley - Bar CK Cattle Company

Sale Schedule

Sunday, March 13, 2022

Cattle on Display all day
6:00 PM Pre-Sale Dinner and Profit Seminar

Monday, March 14, 2022

Cattle on display 8:00 am to 12:00 pm
Complimentary Baked Potato and Stroganoff Lunch 12:00 pm
Profit Sharing Sale at 1:00 pm PST

Sale Updates

Updates and additional information will be available online at BARCKATTLE.COM or INNOVATIONAGMARKETING.COM. Also watch the Innovation AgMarketing Social Media pages for updates closer to sale day.

Sale Location

Bar CK Ranch

8925 SW Green DR - Culver, OR 97734

Directions

From Redmond: take Hwy 97 North for 15.7 miles, turn slight left on Old Culver Hwy 361 for 2.7 miles, turn left on Iris Lane for 1.0 miles, turn left on SW Feather Dr. for .01 miles, take the first right on SW Iris Lane for 1 mile, turn left on Green Dr. for .8 miles, turn left to Bar CK Ranch.

From Madras: take Hwy 97 South for 8.3 miles, turn right on SW Iris Lane for 2.3 miles, turn left on SW Feather Dr. for 0.1 miles, take the first right onto SW Iris lane for 1 mile, turn left on Green Dr. for 0.8 miles, turn left to Bar CK Ranch.

Cattlemen and cattlemen,

Properly addressed and those that have been customers of Bar CK in the past will be aware that this letter refers to the reasons they invested over the years, but the mainstream Simgenetic seedstock membership may not be aware of some of the latest happenings where Bar CK genetics have been featured.

“Not once, when I made a mating or looked into improving the indexes set forth by Wade Shafer did I consider what good it would do for me, I rather thought about how it would benefit my customers and put dollars towards their bottom line.” A direct quote from Mike Alley.

The initiation of the profit index phase of the Bar CK program began when the ASA introduced API and TI to the business. Several were very skeptical and a select few latched on and continue to utilize them today. We have often wondered why the Angus breed's slogan is “The Business Breed”, and now we realize how it plays into today's rapidly evolving industry through genomic and calculated data. It's a really simple mindset at the end of the day, register the stock, submit the DNA, submit the data, and reap the results. Academia, extension, and breed associations do an outstanding job of educating the lion share of all seedstock business, the commercial sector. The commercial cattleman or woman have so many selections tools to utilize in today's business and the freedom to use whatever selection method they choose. Just like EPDs, the indexes will become more accurate for those that play the data game. However, they will only benefit those that turn in the data and that's the absolute key to the bottom line of understanding the mindset.

In our short-term affiliation with Bar CK we have gained understanding in the indexes and the maturity pattern of the stock that represent the insane index values. The Alleys have geared this program towards Western ranching environments, high altitude, desert type outfits that require a cow that is moderate in size that will breed back on range, calve on open range, and bring the necessary weight to the weaning pen to generate profit for those that market at weaning. Now, those that invest in the stock to feed, like Agri Beef Solutions have over the years, have also experienced very stellar results with substantial Choice and Prime harvest points with minimal 3s and 4s in terms of yield. Other beef harvest entities have reached out to Mike over the years as well. Buyers from Tyson and Beef Northwest have reached out, wanting to source Bar CK sired stock, knowing that the feed ability and harvest data of these cattle is elite. With rising energy costs, genetics of known marbling quality will be in significant demand. The true object of the beef business is to provide the world with a safely produced, palatable product that is superior in its overall food value. We are responsible for the world's absolute best source of consumable protein and operations like Bar CK are on the forefront.

You will notice in the book the operations that dipped their toe in the water over the past marketing year and invested in Bar CK genetics. Kearns Cattle Co, Moriondo Farms, Sloup Simmentals, Gonsior Simmentals, Top Hat Simmentals, Heartland Simmental, and Griswold Cattle Company to name a few that had never invested before. Werning Cattle invested a couple years ago in a bull that they refer to as “Triple Threat” that went on to sire an elite group of low birthweight bulls with awesome look for the 2022 Werning Cattle Co. Bull Sale. Western Cattle Source made the \$47,500 investment in a stellar baldy son of “Triple Threat”. Mike is not oblivious to phenotype, he is very aware of it, but the marketplace of “Western U.S. Ranching” doesn't revolve around a show ring or one high seller a year, it revolves around a bottom line, customer profitability, and stock that is built to withstand the given environment that they are introduced to. Rarely can one take an animal from the far west and have it thrive in fescue nation, but due to the grazing schematic at Bar CK, the stock do graze fescue at some points of the year and those that have brought those cattle to Missouri and Iowa have noticed little acclimation time needed.

Cattle that calve unassisted, that have substantial vigor and hustle, along with acceptable performance, adaptability to any environment, and the genetics to grade have great value to the business. We invite you to join us on March 14, 2022, at the Ranch in Culver, Oregon for this year's bull offering. If you cannot attend get signed up early on CCI.Live to bid online or reach out to any of the Bar CK Family or Innovation Ag Marketing team to inquire about the stock and we welcome you to the “Real World” experience.

Enjoy the cattle,

Graham Blagg Jered Shipman Tim Anderson

Bar CK Sale Rate \$96/night for a King Bed Non-Smoking room and \$106/night for a Double Queen Non-Smoking room

Redmond Airport (RDX) 23 miles South of Bar CK Ranch on Hwy 97, transportation available from RDX. Contact us as early as possible for transportation needs.

HERD HEALTH

All bulls are greater than 13 months of age and have passed a breeding soundness exam. Bulls have received BoviShield Gold, Ultrabac 8, Long Range injectable wormer, Saber pour on and Vibrin. If bulls are going out of state, they may need additional tests. This process may take a few days. Bar CK Ranch will feed and house animals during this process.

VOLUME DISCOUNT

A 5% discount will be given on the purchase of 5 or more bulls.

TERMS

Terms of sale are cash or check payable immediately upon conclusion of the sale and before animals will be removed.

SEMEN INTEREST

Seller retains 1/3 semen interest in all bulls selling.

BULL GUARANTEE

Unless otherwise noted, all the breeding age bulls will have passed a breeding soundness exam prior to pick up/delivery. In addition to the standard Terms and Conditions of the American Simmental Association, we will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all yearling and older bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price of a bull less the salvage value of the animal.

RISK

Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury, and will be loaded according to purchaser's direction.

LIABILITY

Neither owners nor sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents.

BOARDING

Bulls have passed a thorough breeding soundness exam prior to sale day and will be ready to be taken home sale day. Due to a shortage of feedstuffs in the region we would appreciate that bulls be taken home on or shortly after sale day, if not please make plans with Mike. Since each animal becomes the risk of the purchaser as soon as sold, we strongly recommend a mortality insurance policy be taken out on any animal.

ANNOUNCEMENTS

Announcements from the auction block will precedence over statements in catalog. Disclaimer: The information in this catalog is subject to change.

Bar CK Genetics Working in herds around the country

A son of Bar CK 4118B 8102F "Triple Threat"
MR W/C TRIPLE THREAT 975J SOLD FOR \$47,500
TO WESTERN CATTLE SOURCE.

WERNING CATTLE COMPANY

BAR CK 4118B 8102F "Triple Threat"
Werning Cattle Company purchased BAR CK 4118B 8102F in the 2020 Profit Sharing, he went on to sire their \$47,500 sale highlight, Mr W/C Triple Threat 975J in their 2022 Production Sale. He will be one of the most exciting calving ease Simmental AI sires available for use in 2022 and will call Crawford, Nebraska home with Jock & Brenda Beeson.

Bar CK 3016A 9045G
PURCHASED BY KEARNS CATTLE CO.

KEARNS CATTLE COMPANY

Bar CK 3016A 9045G

The Kearns Cattle Company invested in one of the sale features from the 2021 Profit Sharing, Bar CK 3016A 9045G is a Target son that will rapidly inject profitability, foot quality, marbling and daughters with longevity. Tom & Zach thought enough of their bull purchase in the spring that they invested in the dam of 9045G in the Midwest Female Sale, we look forward to hearing of the impact this cow family is bound to make in Rushville.

Turn to the Bar CK Brand for

Foot Quality | Marbling | Calving Ease | Longevity

THE RED EMPIRE GROUP

Bar CK Red Empire 9153G

Bar CK Red Empire emerged as one of the most impeccable and intriguing breeding pieces out of the 2021 bull sale season, he combines a faultless phenotype, elite genomic package and time proven pedigree's. He has yielded as many phone calls and enquires as any animal to come out of our program to date! We want to thank Gonsior Simmentals, Ruth Simmentals, Sloup Simmentals, Square D Simmentals, T & B Livestock and Top Hat Simmental Farms for their investment in Red Empire!

Bar CK Red Empire 9153G
PURCHASED BY THE RED EMPIRE GROUP

GRISWOLD CATTLE

Bar CK Ms D948 9024G

Bar CK Ms D948 9024G sold as Lot 1 in the Midwest Female Sale, as the selection of Griswold Cattle Company of Stillwater, Oklahoma. An operation that has built a reputation around producing females with the highest quality of phenotype! They had the final bid on 9024G at \$16,500 and we think this is just the beginning of a long success story she is set to write.

Bar CK Ms D948 9024G
PURCHASED BY GRISWOLD CATTLE

MORIONDO FARMS

BAR CK MS 3016A 6124D

Whilst continuing to build a cowherd based around the strong fundamentals that drive profitability, Moriondo Farms of Mount Vernon Missouri trusted in the Bar CK brand this past September at the 2021 Midwest Female Sale securing 11 young females to cornerstone their growing program. Their customer base trusts in their program to produce bulls that are easy keeping and built for the long haul, two of the founding principles of our cowherd.

Bar CK Ms 3016A 6124D
PURCHASED BY MORIONDO FARMS

Sire of Significance - Quigly

KBHR QUIGLEY C154

KBHR Quigley is the most dominate son we have used of our pedestal sire Bar CK Tebow 1006X, and he is clearly demonstrates why we value so highly the influence of profitability traits in the selection process. On the maternal side of Quigley's pedigree you will find a female that originated out of the Bar CK program and has gone on to become a trusted source for herd sires at the Keller Broken Hart Ranch in Mandan, North Dakota. Quigley C154 is a Homozygous black and polled super sire who ranks amongst the highest SimAngus bulls in the entire breed for several of our most desired traits including Whole Lifecycle Profitability, Marbling and Stayability. Apart from his outstanding profitability traits he is an outlier for Birthweight and Calving Ease. The future of our cowherd is being entrusted in the hands of Quigley, his ability to sire females with the moderation needed for our environment and a build with longevity at the paramount, is truly unmatched!

Dam of **Significance** - **Miss Northstar B180**

WS Miss Northstar B180 has secured herself as one of the most prolific producing Purebred females that has ever been a member of the donor pen at Bar CK Cattle Company. With over 50 progeny recorded to her name with the American Simmental Association, B180 has wrote her own chapter in the history books. Bar CK Red Empire 9153G topped the 2021 Profit Sharing Bull Sale when he commanded a \$25,000 hammer price to the Red Empire Group, made up of elite breeders that include Gonsior Simmentals, Ruth Simmentals, Sloup Simmentals, Square D Simmentals, T&B Livestock, and Top Hat Simmental Farm. Two other maternal brothers to this trio of females commanded \$11,000 and \$10,500 in the 2021 Profit Sharing Bull Sale. WS Miss Northstar B180 has progeny employed by 44 Cattle, Carlton Anderson, Berry Anderson, Andy Kratzer, Big Island Ranch, Crown J Cattle, Flying H Cattle, Gill Family Ranches, Ronnie Kelly, Lannom Ranch, McCormack Ranch, Mark McKinnen, Breanna Newman, Old Independence Ranch, One Penny West, LLC, Premier Beef, Court Priday, Mason Stafford, Vincent's 2C Ranch, Wapinitia Cattle Company, and Wilkins Farms. Opportunities to incorporate the timeless influence of the great B180 come through several mating's, including three full brothers to Red Empire selling as lots 19-21!

Sire of Significance - **Tebow**

BAR CK TEBOW 1006X

With a decade of his influence in our cowherd, it continues to become easier to trust in the genetic potency of our Legendary Bar CK Tebow 1006X, the more proven this sire becomes the more he earns his spot in our breeding program. Not only is he still siring direct progeny who will be highly sought after by cattlemen who have personally experienced his excellence, he is also beginning to feature several generations back in the pedigree of several of our most exciting herd sire prospects that will sell in the 2022 Profit Sharing. He has built a legacy that will long outlast his own lifetime, and we couldn't be prouder to offer latest edition of sons. At 14 years of age, Tebow is still a member of the herdsire battery, there is no better testament to longevity than proof in the pudding.

Sire of **Significance** - **No Equal**

BAR CK NO EQUAL 4118B

With over 350 registered progeny, Bar CK No Equal 4118B has been a go to half-blood sire for several years now. Not only will he provide the extraordinary high profitability that Bar CK cattle are known for, he phenotypically stamps all of his progeny with power, muscle shape and thickness from end to end. He consistently sires a calf crop that is well received for their extra degree of balanced eye appeal and power, in a black and polled package.

Sire of Significance - **Vindicator**

GW VINDICATOR 312E

When we began the search in 2018 for an elite outcross, herd bull to inject an extra shot of growth and performance to our sire line up we could have never imagined it would come in such a complete and well-rounded package like we got when we selected GW Vindicator 312E. He is a moderate, ground pounder who in the flesh is as impressive of any herd sire we have ever ran. In his rookie calf crop his progeny have totally astonished us, they are some of the most docile, good looking and balanced cattle we have had the pleasure of raising. He does not forego any excellence on paper either, check out his astronomical marbling number of 1.37 and additionally he ranks top 1% for both Whole Lifecycle Profitability (API) and Post Weaning Profitability (TI). We have no plans to release any semen on GW Vindicator 312E into the future, and your only access to his genetics will be through the sons you can find in this and future editions of Profit Sharing.

This sale offering of Bar CK averages Top 1% API and Top 3% TI with over a 1 IGS marbling EPD, way beyond Top 1%. Calving ease Simangus bulls that will add dollars to your bottom line!"

Sire of Significance - Target

BAR CK TARGET 3016A

Genomically Bar CK Target may be our finest achievement to date. He ranks in the top 1% of the breed for 6 different traits, and you will not find many other candidates in the entire database who can do this, let alone at the accuracies that Target does it. His sons are known for their high fertility, while being low maintenance and structurally built to last the long haul. You will notice the Target cattle come with an extra degree of width and muscle expression, a highlight of the 2021 sale sold to the famed Kearns Ranch of Western Nebraska to rapidly inject profitability whilst maintaining a powerful phenotype.

Sire of Significance - Imperial

IR IMPERIAL D948

We tried IR Imperial D948 and have been blessed with some incredible results. The Red, Homozygous Polled AI sire has left us with a unique draft of herd bull prospects. Initially it was his impressive data profile and profitability traits that caught our attention, however once we calved out his first calf crop we realized how valuable his influence could be in our herd going forward. We don't have a large sampling of Imperial in this edition of Profit Sharing, but you can trust that these sons are the progeny out of some of our strongest maternal pedigrees. He is the sire of several of last year's high sellers, including the \$25,000 Red Empire.

You can sell Steers with Elite Angus Marbling and build a “Range Ready” cowherd with Maternal Heterosis...

For more than a decade Bar CK has focused on developing elite marbling genetics, equal to the top Angus sires, but without sacrificing the longevity, fertility and overall reproductive efficiency that comes through maternal heterosis which is captured in crossbred females. This strategy has required us to continually sample the Angus Breed's Top Marbling Genetics, and identify those that fit our demands of “heifer bull” caliber calving ease, moderate mature size and problem free disposition and phenotype. The result is a 2 & 3 generation deep hybrid SimAngus program (120 of the 126 SimAngus bulls in our sale are between 3/8th Angus and 5/8th Angus - with most being half-bloods) and where more than 100 bulls rank in the top 1% for Marbling EPD. Over 40 of these bulls exceed 1.0 for Marbling EPD which compares to popular proven Angus bulls that rank in the best 5% of the Angus breed for Marbling.

In addition to greater access to Prime and Upper Choice premiums, our elite Marbling SimAngus genetics deliver significantly greater heterosis than Angus bulls when used on the average commercial cow in the western United States. Heterosis (Hybrid Vigor) contributes to both improved animal health during the stocker- feeder phase and to improved fertility and longevity seen in the retained females. If you run in big country and/or in the high desert you'll appreciate the mothering ability, reproductive efficiency and foraging inherent in SimAngus females. And, your cattle feeder will appreciate the lower treatment and mortality rates that come from feeding elite Marbling SimAngus.

How to Bid Online

Tips and Tricks to Master Online Bidding

STEP 1. Use Chrome or Safari, a newer browser or download the CCI.live app at Google Play or Apple App store.

STEP 2. Open your app or go to the address of www.CCI.live in your browser. CCI.live can be used on a cell phone, tablet, laptop or desktop. Some older models may not be compatible and will show a yellow caution symbol if so.

STEP 3. Create an account and then request bidding credentials through CCI.live. Use the bank information listed on your check. Please use a correct phone and email address.

STEP 4. Once you are accepted for bidding credentials you will receive a text message and/or email notification. Proceed to “Get Buyer Number” on the actual sale page of your interest. Some sales may also require a passcode to obtain a buyer number. On these auctions, you will obtain passcodes from the sale office phone number for the specific auction you are interested in. Please closely read the terms!

STEP 5. You are ready to go! Make sure you understand, once you are logged in, have a buyer number and are watching the sale that you are on a highly sensitive web page. **Be careful when scrolling that you do not accidentally hit the bid button and watch children closely as they tend to grab cell phones and accidentally bid.**

TIPS FOR SUCCESSFUL BIDDING

- Make sure you have good service. Bidding and driving is not recommended. You should have two - three bars on your cellular devices. At home you should have an UPLOAD speed of 2 mg or more UP. Use this site to test your internet: www.speedtest.net.

REFRESH YOUR SCREEN AT SALE TIME

If you have logged in over an hour prior to sale time, you may need to login again. DO NOT let the computer set idle and then return and try to bid, the website may have logged you out.

CCI.live does not accept payment, you will pay the sale management, farm or ranch direct.

Help videos can be found at www.CCI.live

The Charolais Bulls

The injection of these Charolais herd sires will promote extra performance and a longer maturity pattern to a cowherd. If you think that your herd is needing an extra shot of frame that still maintains the Bar CK standards of longevity and functionality your attention is well warranted here. Here is the opportunity to add pounds and heterosis to your British based cow herd through utilizing Bar CK Cattle Company Charolais bulls!
