

Bayou Creek Ranch

# 4TH ANNUAL PRODUCTION SALE

Thursday, October 6, 2022

1:00 PM in Jacksboro, TX

*“Only the Best”*

**BAYOU CREEK RANCH**  
— RED ANGUS —

Welcome to the Bayou Creek Ranch 4th Annual Fall Production Sale; we are pleased that you are interested in Red Angus genetics. We do not take this opportunity to share our program lightly. We strive to promote the elite genetics of the Red Angus breed and deliver those to our producers. We focus on producing cattle that are structurally sound, uniform, and adaptable with extraordinary performance.

We are a family owned operation with ranches in Jacksboro, Texas and Lone Grove, Oklahoma. The Swan and Lewis families have a great passion for the cattle business. Agriculture has always been a part of our lives in one way or another. Over the past 5 years we have made key acquisitions to build the foundation of our cowherd. These investments have enabled us to build a more versatile donor battery that embodies the fundamentals of efficiency and maternal strength. Moving forward there will be countless full sisters to many of the top selling bulls over the past two years that will follow in the footsteps of their prolific dams, paving the way for the next generation of Red Angus genetics at Bayou Creek Ranch.

Kent Shankles oversees the operations at our ranch in Oklahoma. He and his crew have logged a lot of hours in preparation for this year's sale. We appreciate the dedication, knowledge, and commitment that they have invested in our program.

Please join us on Wednesday, October 5th for a pre-sale viewing of the cattle and dinner at JR's Chophouse in downtown Jacksboro, Texas. The sale will be on Thursday, October 6th at 1:00 PM. Our sale includes a powerful set of age advantage bulls that have been developed to thrive in the toughest environments. If you have questions about the sale, please give us a call, we would love to visit with you about the cattle. Thank you for your interest.

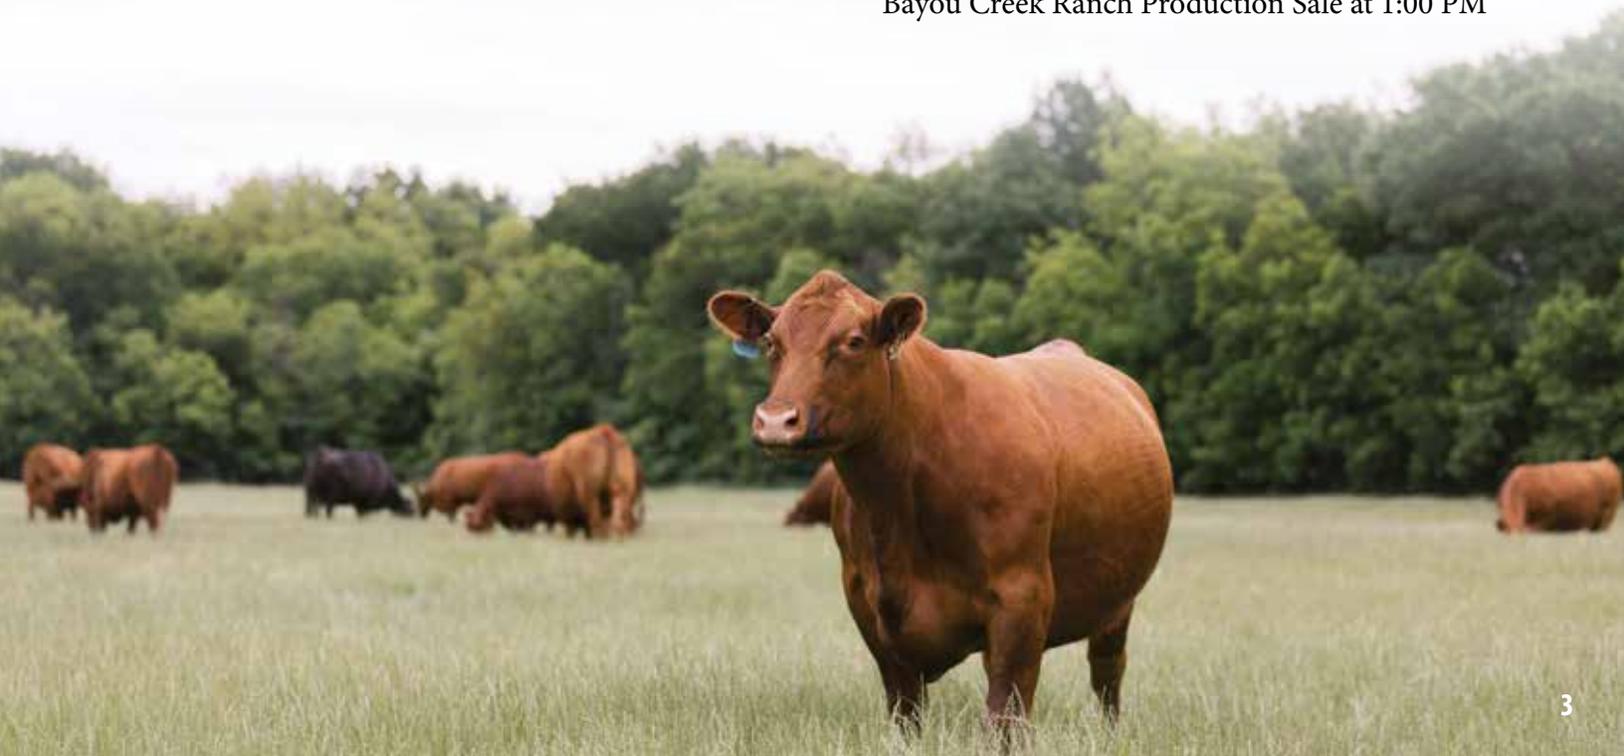

Sincerely,  
*Ken and Becky Swan*  
*Jeff and Kori Lewis*

### WEDNESDAY, OCTOBER 5, 2022

Bulls will be available for viewing at the Jack County Fairgrounds from 12:00 PM- 6:00 PM  
Join us for dinner at JR's Chophouse at 6:30 PM  
119 North Main Street in Jacksboro, TX

### THURSDAY, OCTOBER 6, 2022

Sale Cattle on Display at 8:00 AM  
Lunch served from 11:30 AM - 12:30 PM  
*Lunch will be sponsored by*  
*Martindale Feed Mill and Stillwater Milling Co.*  
Bayou Creek Ranch Production Sale at 1:00 PM

# INNOVATION

— AgMarketing, LLC —

Fellow Cattlemen, Cattlewomen, and Red Angus Enthusiasts,

Welcome to the 4th Annual Bayou Creek Ranch “Only the Best” Production Sale, one of the premier opportunities to purchase proven, predictable, and profitable Red Angus seedstock this fall. It has been an honor to work with the Swan and Lewis families, along with their talented staff over the last three years. Bayou Creek Ranch is fully committed to producing functional, long lasting, problem free Red Angus cattle that offer added value to their customers and positively impact their respective program. This offering exemplifies their motto, “Only the Best”, as they have rigorously culled and put these bulls to the test time after time through the development process. A disciplined approach to their management practices and breeding program has resulted in this year’s offering.

Genetic progression is taken very seriously by everyone at Bayou Creek Ranch. A constant focus on the next generation is the mentality that Jeff Lewis and Ken Swan embrace. They are always searching for the next breeding piece that will elevate their program and ultimately improve the product that they raise and supply their customer base with. Through key transactions, Bayou Creek Ranch has established one of the most consistent and proven cow herds in North America. In 2017 they introduced several key females to the donor roster at Bayou Creek Ranch. PIE Cascade 561, PIE Lakota 046, PIE Fayette 1160, PIE Stormy 541, PIE Janet 1065, PIE Tilly 9117, and TKP Marigold 0147 have been pillars in the donor program at Bayou Creek Ranch. While their presence is strong and meaningful, daughters and granddaughters of these matriarchs have begun to fill their tracks in production. New herd sires have been introduced from top programs throughout North America that include Weber Land & Cattle, McEntire Red Angus, Sandbur Ridge Red Angus, and C-Bar Ranch to name a few. We believe that these next generation herd sires will complement the strong maternal foundation that Bayou Creek Ranch has been built upon.

Large sire groups with many full and maternal brothers has enabled cattlemen to add consistency and uniformity to their programs through genetic advancements. The bulls have been developed in a 300+ acre pasture at the ranch in Jacksboro, Texas. Maintaining a slower more precise development, these bulls are true athletes that are ready for heavy service. We confidently say that these bulls will endure more seasons in the breeding pasture. The bulls have had DNA submitted and will sell with genetically enhanced EPD’s to facilitate you in making a more educated decision during the buying process.

Consider this your personal invitation to join us on Thursday, October 6, 2022 in Jacksboro, Texas to view the offering at the Jack County Fairgrounds. Lunch will be served at 12:00 and the sale will begin at 1:00 PM. If you are unable to attend the sale in person, a live broadcast with real-time bidding will be provided by Superior Livestock. Please feel free to contact Jeff Lewis, Kent Shankles, or any of the sale staff prior to the sale to discuss the offering. We look forward to seeing you on Thursday, October 6th in Jacksboro, Texas!

Enjoy the cattle,

*Graham Blagg    Jered Shipman    Tim Anderson*

## INTERNET BROADCASTING

Online broadcast and bidding will be available through Superior Livestock Productions. Please see page 7 for instructions to log on. Chad Gordon: (580) 678-1918, Blake Tucker: (308) 660-3963

## TERMS & CONDITIONS

Cattle will sell under the standard Terms & Conditions as recommended by the Red Angus Association of America. All sales are final, and the cattle will become the property of the buyer when the auctioneer says "SOLD".

## SALE LOCATION & DIRECTIONS

The sale will be held at the Jack County Fairgrounds. Address: 1072 State Hwy 59 - Jacksboro, TX 76458. Take State Hwy 59 North 1 ½ miles from Jacksboro. Fairgrounds are on the right.

## HERD HEALTH

All bulls in the sale are on a complete herd health program. The bulls have received Vista 5 (VL5), Vision 7, LongRange in the spring of 2022, Safeguard in the fall of 2021, and Multimin. All cattle will be accompanied by proper health certificates for immediate interstate shipment.

## RETAINED BULL INTEREST

Bayou Creek Ranch will retain 1/2 semen interest in all bulls but will be selling full possession. The buyer will also receive full salvage value of their purchase.

## BREEDING SOUNDNESS EXAM

All bulls will be fertility tested and trichomoniasis tested prior to the sale and guaranteed to be breeders.

## LIVESTOCK TRANSPORTATION

We are offering free delivery on all purchases over \$15,000. We will be happy to arrange delivery at standard rates for all other purchases.

## LIABILITY

**By participating in any event planned and controlled by Bayou Creek Ranch, you agree to the following:**

- Bayou Creek Ranch events are provided with no special warranty either express or implied. The Organizers, including but not limited to Bayou Creek Ranch, its employees, Jeff and Kori Lewis, Ken and Becky Swan, Innovation AgMarketing, LLC, the City of Jacksboro and the Jack County Fair Association, assume no liability for any loss, theft, damage, or injury to property or persons, including death, whether arising in contract, negligence, equity, or otherwise.
- You assume all risks when participating in Bayou Creek Ranch events. All participants must obey all rules and regulations of Bayou Creek Ranch and the laws of the State of Texas. Participants must comply with all requests made by employees and agents of Bayou Creek Ranch. Bayou Creek Ranch reserves the right to eject any participant who does not comply with this section, and further, refuse entry to any participant. Refunds for any reason are at the discretion of Bayou Creek Ranch.
- All participants agree to indemnify and hold harmless Bayou Creek Ranch and The Organizers listed without limitation for any and all legal action arising from or related to a Bayou Creek Ranch event.
- All participants expressly give Bayou Creek Ranch authorization to use and post any photographs, videotapes, recordings, or any other record of our events, including full names of any participants, before, during, or after the event for promotional use reporting to the media, and to publish on our website or blog. Participants are not entitled to compensation for Bayou Creek Ranch's use of their name or image.
- We are not responsible for any typographical errors.

# Bull Development

This year the sale bulls were moved to Texas the middle of May to be developed in a 300+ acre pasture at the ranch in Jacksboro. The bulls are developed slowly with a 15% fiber ration at a rate of 1% of their body weight. After 180 days the bulls are moved to a higher energy ration. They have been maintained at a rate of 1-1.5% of their body weight to prevent structure and foot issues. By maintaining a slower and more precise development, these bulls are true athletes that are ready for heavy service. We confidently say that these bulls will endure more seasons in the breeding pasture. The bulls have been handled both on foot and horseback. Bulls have been strictly culled based on performance, structural integrity, fleshing ease, fertility, and disposition.

The bulls have had DNA submitted and will sell with genetically enhanced EPD's to facilitate you in making a more educated decision during the buying process. The bulls that carry the Bayou Creek Ranch brand will add terminal value to your calf crop and in turn contribute to your bottom line!

# Bull Guarantee

Unless otherwise noted, all the breeding age bulls will have passed a breeding soundness exam prior to pick up/delivery. In addition to the standard terms and conditions of the Red Angus Association of America, we will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all yearling and older bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price less the salvage value of the animal.

**Please contact Jeff Lewis at (940) 229-1465 or (903) 918-6988 for further questions about how Bayou Creek Ranch can add value to your operation.**

# Calving Ease Ranking

★★★★★

Bulls that rank among the elite top third of the breed for CED, have a -2.0 BW EPD or lower, and offer a moderate actual birth weight. Recommended for use on heifers.

★★★★

Bulls that offer a double-digit CED, have a 0.0 BW EPD or lower, and offer a moderate actual birth weight. Recommended for use on larger framed heifers.

★★★

Recommended for use on mature cows to add pounds at weaning.

# Special Thanks

We would like to thank our sponsors Martindale Feed Mill and Stillwater Milling Co. for providing our sale day meal. We are proud to partner with these progressive companies in our operation.

## HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at [www.superiorlivestock.com](http://www.superiorlivestock.com).

## HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to [www.superiorlivestock.com](http://www.superiorlivestock.com) and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it, or scan and email the form to [info@superiorauction.com](mailto:info@superiorauction.com). You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

### ***Click-To-Bid.***

This is Superior's online bidding platform for cattle buying. Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) to sign up. Becoming a member is easy - just go to the homepage of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

### ***Viewing the Auction.***

There are two places to view the sale broadcast live on the internet: [www.superiorlivestock.com](http://www.superiorlivestock.com) or [www.superiorclicktobid.com](http://www.superiorclicktobid.com). Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone or tablet go to [www.superiorlivestock.com](http://www.superiorlivestock.com), but if you want to bid over the computer you must go to [www.superiorclicktobid.com](http://www.superiorclicktobid.com). Remember you can call in to bid on the internet, but you must be a member of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) to "click to bid". Your computer must have Flash Media Player installed for this website to view the auction.

If you have any questions, please call the Superior Productions office at 800-431- 4452.

\*If you plan to bid by phone through Superior Livestock or 'Click-to-Bid', you must register at [www.superiorlivestock.com](http://www.superiorlivestock.com) prior to bidding.

# ✦ ✦ ✦ A Guide to EPD's ✦ ✦ ✦

- HB** HerdBuilder is a maternally focused selection index that predicts the probability of developing profitable cowherd traits while maximizing the value of marketed progeny. Expressed as dollars per cow exposure, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained, and all remaining progeny are marketed on a quality-based carcass grid. (Index/High Value)
- GM** GridMaster is a terminally focused selection index that predicts the probability to increase the value of marketed calves. GM places selection pressure on growth, feedyard performance and carcass quality, predicting differences in profit as expressed per cow exposure. GM is calculated based on the scenario that bulls are mated to cows only, and all progeny are marketed on a quality-based carcass grid. (Index/High Value)
- CED** Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)
- BW** Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)
- WW** Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)
- YW** Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)
- ADG** Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)
- DMI** Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the postweaning period. (Pounds/Low Value)
- MILK** Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)
- HPG** Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)
- CEM** Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)
- STAY** Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)
- MARB** Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)
- YG** Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)
- CW** Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)
- REA** Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)
- FAT** Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

# Genetics Backed by GGP

The GeneSeek Genomic Profiler (GGP) products and services empower decisions in selecting, raising and selling elite cattle, enhancing profit and protecting your reputation for high-quality seedstock. Beef genomics is evolving fast. GGP provides advanced, wide range DNA testing for the real world of cattle production.

*Using genomic-enhanced EPDs for selection of young breeding stock provides a level of precision and reliability that's never been available to producers before.*

Bob Weaber  
Kansas State University

## Efficient selection of seedstock replacement heifers

Never before has such power been so practical. As breed associations add the GGP uLD to their DNA services, you can genomically screen and select replacements for your herd while adding value to heifers you sell.

- **Profile replacement heifers** – Use genomics to select the best and sell the rest
- **Raise elite cows** – Superior nucleus cows are the source of superior bulls
- **Market quality heifers** – Sell heifers with GE-EPDs helpful to commercial cattle producers
- **Verify parentage** – Confirm parentage of heifers for registration and marketing

## The best 50K ever – Effective, affordable power to select, manage and market sale bulls

An ideal tool to test a crop of bull calves, the new GGP 50K is the most advanced 50K ever. Highly accurate. Highly affordable. Very versatile with built-in parentage and genetic-health screening. Nearly all major breed associations offer the GGP 50K as their workhorse profiler for routine use.

- **Genomic-assisted selection** – Identify the best bull calves for sire development or AI studs
- **Profiling bull calves for sale** – Affordable accuracy with GE-EPDs adds value in the sale ring
- **Reputation builder** – Verify quality for local customers and distant buyers
- **Fits modern methods** – Uses markers enhancing new “single-step” GE-EPD calculations

## Setting a gold standard for the best of the breeds

The most powerful commercial seedstock profiler, the GGP HD150K is ideal for AI studs, donor dams and elite bloodlines. With its strategically chosen content, running the GGP HD150K on elite bloodlines improves imputation accuracy of pedigree genotypes.

- **Smart Design** – Contains 150,000 markers, filling in genetic details other tests miss
- **Modern** – Works synergistically with other GGP products in the “single-step” system
- **Imputation standard** – GGP HD150K data on parent and grandparent animals can sharpen GE-EPDs on their progeny
- **Unique content** – Impactful new markers for cattle performance, reproduction and quality

# ◆ ◆ ◆ The Top 10 ◆ ◆ ◆

We know every operation is different and has individual breeding goals and directions in which they focus. We have identified the Top 10 bulls in several key categories to help you more easily identify the herd sire prospects that will best fit your program and positively impact your bottom line!

# THE BULL OFFERING

◆ ◆ ◆ THE BULL OFFERING ◆ ◆ ◆

BULLS Sired BY MANN RED BOX 55C

LOT 1 - BYU RED BARON 1333 ET

- BYU Red Baron 1333 ET is the most unique individual ever produced at Bayou Creek Ranch. He is sired by the now deceased MANN Red Box 55C, a true icon within the breed. "Red Baron" is supported by generations of proven and predictable females.
- The bulls at Bayou Creek Ranch have been developed slowly in a large pasture setting with limited supplementation. Our focus has been and will remain our customer's profitability. Many of our customers are large ranchers that rely on tough built, fertile, athletic breeding bulls that cover ground and maintain their condition during breeding season. This bull exemplifies the fundamentals in which our cowherd was built.
- A maternal brother to BYU Red Baron 1333 ET was selected by Joe Stiles in 2020.
- BYU Red Baron 1333 ET has exceeded expectations in terms of performance, fleshing ease, and forage conversion. He is a bull that will be used heavily in herd at Bayou Creek moving forward.
- **Terms announced sale day.**

MANN RED BOX 55C - Sire of Lots 1-4

# ◆ ◆ ◆ THE BULL OFFERING ◆ ◆ ◆

- Mann Red Box 55C has made a substantial impact on the Red Angus breed and the beef industry. Red Box has been noted for siring cattle with added substance, volume, and dimension. Progeny by Red Box are admired for their forage efficiency, real world performance, and structural integrity.
- This set of ET flushmate brothers exemplify the fundamentals of beef cattle production as they offer the optimum blend of calving ease, performance, fleshing ease, and the ability to convert.
- Here is the opportunity to select multiple full brothers to enhance uniformity to increase profit margins within your operation.

**BYU FULLBACK 9348 ET** - Maternal Brother to Lots 1-3.  
He was purchased by Joe Stiles in 2020

**BYU FULLBACK 0303** - Maternal Brother to Lots 1-3.

- Another performance driven son of Mann Red Box 55C from the PIE Red Fayette 7245 cow family. He boasts a YW Ratio at 103 with tremendous daily gain on a forage-based ration.
- 1337 is a long fronted, shapely, big-ended bull that is tough built from the ground up.
- We appreciate the length of body and athletic look that he offers.
- 1337 is the highest yearling weight son of Mann Red Box 55C in this year's offering.

5L BLOCKADE 2218-30B - Sire of Lots 5-9

LOT 6 - BYU BLOCKADE 1366 ET

- 5L Blockade 2218-30B is a new sire that we used and couldn't be more excited about the consistency of this sire group. They offer exceptional performance, carcass merit, and the ability to convert forage and maintain optimum body condition.
- 1366 is a big footed, stout boned, square built herd sire prospect that is backed by the impressive PIE Cascade 561 donor dam, the dam of the influential and widely utilized promotional AI sire, PIE The Cowboy Kind 343.
- PIE Cascade 561 has sons working for Kirby Elenburg, Bridwell River Ranch, Joe Stiles, and Wagonhound Land & Livestock.
- 1366 has continued to impress all that have been through this year's offering of bulls in terms of mass, dimension, shape, and real-world performance.
- 1366 has the credentials to add balance to your program from a phenotype and genomics standpoint. A true sale feature!

BULLS Sired BY RREDS SENECA 731C

LOT 11 - BYU SENECA 1365 ET

- What a mating! There is no doubt that the RREDS Seneca 731C x RAR Lass 1764 mating is one of the most consistent and high-quality sets of ET brothers we have ever offered.
- The dam of this mating, RAR Lass 1764, was bred in the Rock'n R Angus Ranch program of Kansas and was acquired after her tenure at Pieper Red Angus. 1764 is an exceptional female that is well represented throughout the entire bull sale offering this year, with several sons sired by leading AI sires.
- RAR Lass 1764 boasts a DMPPA of 104, while also recording an impressive 5.1 Adj IMF with a REA Ratio at 108. She is an extremely fertile cow that has worked tremendous in our embryo transfer program, and several daughters have been retained in herd to carry on the maternal prowess that she exemplifies.
- If you're looking for several bulls to turn out, this is a set of brothers that deserve heavy consideration. They will add uniformity and consistency to your next calf crop.

LOT 20 - BYU FULLBACK 1348 ET

- There is no denying the impact that PIE Fullback 7005 has made on our breeding program at Bayou Creek Ranch over the course of the last few years. While the sons of PIE Fullback 7005 have been put to the test and gone to work for some of our very best customers, the female counterparts may very well be the greatest accomplishment of PIE Fullback 7005. Countless daughters of PIE Fullback 7005 have been retained in herd and are now in production. They offer textbook udder quality, foot shape, fleshing ease, and true maternal prowess.
- 1348 is one of the absolute stoutest, soundest footed, most agile, and athletic sons of PIE Fullback 7005 that we have ever offered for your appraisal.
- The dam of 1348 and 1338 is a young donor in our program, Smoky Y Harper 1910G, an own daughter of the \$100,000 AHL Flashback 446B.
- 1348 charts among the top third of the breed for WW, DMI, ME, and YG, while also ranking amidst the top 10% for HB and STAY.
- A performance standout that came to the weaning pen with tremendous payweight and has yet to miss a beat when it comes to converting and gaining.
- His depth of body and spring of rib is further enhanced by his ultra-rugged build and stoutness of hip. A masculine herd sire prospect that is destined to make an impact as a breeding bull.

- 1341 is the third full brother to PIE The Cowboy Kind 343. Much like his ET flushmate brothers, he is an athletic built herd sire prospect with excellent shape and expression.
- A big scrotal, long sided, good footed bull that is ready for heavy service.
- His genomically enhanced data ranks him top 11% ProS, top 19% GM, top 17% DMI, top 23% ME, top 26% Marb, and top 1% Fat.

- BYU Right Kind 1328 ET leads off an impressive set of flushmate brothers to world renowned PIE One Of A Kind 352, one of the breed's most influential AI sires of the last decade with over 800 progeny recorded in the RAAA Herdbook.
- 1328 is a bigger framed, long sided, deep bodied bull that has excellent rib shape. His added volume and capacity has enabled his efficiency and fleshing ease.
- 1328 is a big scrotal, masculine, and rugged herd bull candidate that will offer tremendous genetic merit to any operation.

PIE ONE OF A KIND 352  
Full Brother to Lots 55-58

- This next set of embryo transfer flushmates are full brothers to the impressive promotional AI sire, PIE One of A Kind 352, arguably one of the most popular herd bulls ever produced in the Pieper Red Angus program.
- PIE Fayette 1160 is a staple in the donor pen at Bayou Creek Ranch, with over 40 recorded progeny to her name in the Red Angus Association of America Herdbook.
- Other sons of PIE Fayette 1160 have been purchased by Trubenbach Cattle Company, Don McCauley, and Joe Stiles. Several daughters have been kept back at Bayou Creek Ranch to carry on the strong maternal legacy that PIE Fayette 1160 has created.
- There is no doubt that BUF CRK The Right Kind U199 is one of the most well respected and heavily used sires in the Red Angus breed due to the uniformity, and balance of maternal strength, performance, and carcass merit that he contributes.
- These flushmate brothers offer the same shape, muscularity, and volume that their full brother has been admired for injecting into his progeny. Consistency is key!

BULLS Sired BY C-BAR ONE WAY 37E

LOT 60 - BYU ONE WAY 1319 ET

- Undoubtedly one of the most impressive bulls in the entire offering when it comes to offering the extras! 1319 has the extra look, shape, and balance that it takes to elevate a bull to herd sire status.
- 1319 has the build and data to confirm he has the credentials of a true herd sire prospect.
- The sire of 1319 is C-Bar One Way 37E, a maternal brother to the \$105,000 9 Mile Franchise 6305 that is sired by the influential PIE One Of A Kind 352. His pedigree is lined with cow families top and bottom side that offer breed leading maternal prowess.
- A shapely, deep bodied, bold stifted herd bull candidate that will be on many sale day short lists.

- 1416 may be the lone black-red carrier in this year's offering, but he is certainly one to pay attention to in terms of quality.
- This son of 90G is backed by PIE Raspberry 7445, tracing to the VGW Game Plan 508 influence. He is a moderate birth weight bull that came to the weaning pen with over 700 pounds of pay weight.
- His genomically enhanced data positions him top 13% GM, top 11% ADG, top 13% HPG. He is one of the standouts in the offering in terms of his Marb EPD.
- 1416 is big topped, thick ended, and loaded with shape from end to end.

- BYU Rendition 1432 is another son of our Canadian outcross herd sire, Red U2 Rendition 340D. His dam is productive female that has produced several sons that have been marketed at Bayou Creek Ranch during her tenure.
- A maternal brother was purchased in 2019 by Anthony Wolf Farms.
- 1432 is backed by a dam with a DMPPA of 107. He posted impressive performance data and offers a YW Ratio at 104.
- A tremendous option to use on a set of mature cows and retain the daughters as replacements. Longevity is bred into his pedigree.

BYU FRANCHISE 0336 - Maternal Brother to Lot 85.  
 Purchased by Bridwell River Ranch in 2021

- 1453 is the lone son of Red U2 Reckon 395D in this year's sale offering, but certainly one that is very high quality.
- The dam of 1453, PIE Judy 7355, is a 4MC Night Watch daughter that produced a son that sold in last year's sale.
- He is a performance standout with over 800 pounds of adjusted weaning weight to compliment his genomically enhanced number profile.
- He ranks top 13% WW, top 7% YW, top 3% ADG, top 13% YG, and top 23% REA.
- A logical option to add pounds at weaning time!

- 1419 is an exceptional son of TKP Allstar 7047 that is backed by a top daughter of PIE Code Red 9058.
- This dark cherry red hided herd sire prospect offers exceptional depth of body, spring of rib, and fleshing ease.
- A maternal brother to 1419 was purchased by Laura Burdick in 2019.
- He is suitable for use on well managed heifers based on his genomic data that is further complimented by a moderate 77 pound birth weight.

- 1403 is another low birth weight son of TKP Allstar 7047.
- The dam of 1403 is BYU Suffeina 8063, a beautiful daughter of TLF King of Spades 137 that was purchased by Don McCauley in a previous production sale.
- He offers a combination of calving ease, carcass merit, and real world function that makes him an option to use on well managed heifers.

- It has been our continued commitment to offer "Only the Best", and that is something that take very seriously as your seedstock provider.
- From front to back we strive to offer quality genetics that will positively enhance our customer's bottomline.
- 1393 is the #1 CED bull in the offering, a title that he shares with lot 82. He offers a 17 CED to position himself among the highest in the breed.
- He is a big spread bull that offers excellent weaning and yearling weight performance. His genomically enhanced number profile ranks him top 15% for YW, top 2% ADG, and top 8% CEM.
- This combined with his 66 pound actual birth weight make him a sleep all night calving ease option for use on heifers.

- Quality from cover to cover will remain something that we strive to bring you year after year. The last lot in the 2022 sale catalog is one that we could have started the offering with!
- 1364 is a FULL BROTHER to the breed leading PIE Code Red 9058, a sire that can be identified throughout the pedigrees of countless bulls in the sale offering.
- He ranks among the top third of the business for ProS, HB, WW, YW, Milk, HPG, STAY, and YG.
- PIE Code Red 9058 was born over a decade ago. That is a testament to the longevity of the PIE Stormy 541 cow family and the maternal prowess that she contributes. 541 maintains a DMPPA of 107 as a "2005 model" female.
- Foot quality, fertility, fleshing ease, and function . . . this mating checks all the boxes!
