# "NO SECRETS"

## ELITE ANGUS FEMALE SALE

*Sunday, October 9, 2022 at 3:00 pm CST*

Brooks Sale Facility - Marietta, Oklahoma

K BAR D

Our 2022 sale brings an exciting and futuristic group of females reflecting the stamp of K Bar D components. A roster built from the ground up with girls that look like girls, who will be matrons that produce matrons for years to come. With a mission to remain an industry leader in the cattle business, we trust you will notice the top-notch lineage and quality of our sale lineup.

Once again we are showcasing cow-family power; the Wendy tribe, Princess 6358 influence, and Savannah 38D to mention a few. We have expanded our embryo transplant volumes over the last few years to better serve you, our customer. Thus, we have several lots from Wendy 151E, Wendy 29E, Wendy 149E, and daughters of Princess 6358.

It is our honor to share with you our pride and joy that goes into all K Bar D Angus, and we couldn't do it alone. Many thanks are owed to all who continue to support our program each year as buyers, fans, friends, family, and crew. Additionally, we are excited to welcome newcomers and look forward to working together in the future. An item of note is our sale location has changed from Oregon to Oklahoma, but rest assured our cattle are accessible in whatever part of the country you may reside in (return transport to Pacific Northwest available upon request).

As for family life, Camille and I were so fortunate to introduce our firstborn cowgirl Everett Mae to the world in 2021. She recently turned one and is already becoming quite the ranch hand -- be sure to say hello on sale day in Marietta!

We appreciate your interest and confidence in our operation.

*Best,  
Kimeric, Camille, and Everett Mae DeLashmutt  
K Bar D Ranch*

**Sale Location - Brooks Sale Facility**  
8243 Ward Ranch Road  
Marietta, OK 73448

**Saturday, October 8, 2022**

Pre-sale viewing of cattle all day.  
Refreshments available.

**Sunday, October 9, 2022**

8:00 am – Preview of sale offering  
12:00 to 1:00 pm – Lunch served  
Refreshments available all afternoon  
3:00 pm – K Bar D's 11th Annual  
'No Secrets' Female Sale!

# INNOVATION

— AgMarketing, LLC —

Fellow cattlemen and cattlemen, it is with great anticipation that we welcome you to the K Bar D Ranch 2022 offering in lush Marietta, OK. Bruce and Kathy Brooks have opened their beautiful place and sale facility to Kimeric, Camille, and Everett to hold their production sale in very south-central Oklahoma. Some of the Best of the West has to offer will be available for viewing and appraisal from October 1 through sale day on October 9, 2022.

The Oregon based outfit is no stranger to long distance travel, but this is the first time that they elected to take a leap of faith and bring the goods 1500 miles closer. High Desert country in the Western States has been under extreme drought conditions for the past three to four years. Irrigation water for the crops and grass has been hoarded by EPA regulation, municipality needs, recreational use and tourism instead of assisting the food supply chain and the families that depend on it for income and survival. So, K Bar and his girls will make the offering available in a centrally located setting. The cattle that have always represented the program will still be the same and they are backed by the same solid reputation and salt of the earth people that they have always been.

This dense quality set of stock is without question the deepest set of opens and breds to ever be offered by the operation. Embryo transfer has been stepped up to bring you more of what is in demand and to offer more of the three-time National Western Stock Show Division Champion Female, K Bar D Wendy 151E and her sisters. KR Mojo is the lead sire of choice once again as the full sibs to last year's sale feature and high sellers. The cattle are loaded with substance, body, and true dimension with his service featured on the bred heifer division as well. K Bar sampled the popular and proven Conley Express. A sire that needs no introduction or pat on the back, as a mature Angus breeding bull he will impress those that have been by Sulphur, OK in recent days and his trail of success is noted.

Kim is very passionate about the beef business and the Angus breed. He has always had a talent for the phenotype and realized early that the number profile needed to be considered in combination with the physical beast. He also approaches breeding with limited bulls on an annual basis to continue the consistency of the brand and the end product. The cattle are designed to thrive in the rugged, western high desert country, but when introduced to different parts of the land they do readily acclimate and are profit drivers for the new owners. No Secrets equals pure balance, business sense, and a set of females that will generate and produce the kind you desire for your respective operation.

Please make plans to join us October 9, 2022, for a fantastic event and opportunity to grow your Angus program at the Brooks Cattle Company Sale Facility just right off of I-35 at Marietta, Oklahoma. Also, remember that the cattle will be available for viewing October 1 through sale day, and if you need any assistance with anything associated with this sale offering please give any of the marketing team a call or send us a text.

*Graham Blagg - Jered Shipman - Tim Anderson*

### **Sale Day Contacts**

Kim DeLashmutt: (503) 887-6861  
Camille DeLashmutt: (503) 704-9803

### **Sale Location**

Bruce Brooks Sale Facility – Marietta, Oklahoma  
Directions from I-35: Take Exit 15 at Marietta. Go East on Highway 32, at T Intersection turn right and go south for 100 yards, at next stop sign turn right and proceed Downtown. Cross the railroad tracks, then turn North on NE 2nd Street and follow the road to the sale facility.

### **Auctioneer**

Col. Jered Shipman: (806) 983-7226

### **Sale Management**

Graham Blagg: (530) 913-6418  
Tim Anderson: (605) 682-9343  
Jered Shipman: (806) 983-7226

Bill Conley: (816) 248-5533  
Clinton Laflin: (620) 583-0207  
Jared Patterson: (208) 312-2386

### **Lodging**

National Hotel Chains available in Gainesville, TX (25 Miles) or Ardmore, OK (35 Miles)

### **Air Transportation**

Ardmore Municipal Airport – 30 Miles  
Dallas/Fort Worth Airport – 80 Miles  
Will Rodgers World Airport – 110 Miles

### **Photography & Videography**

Allison Manchester, ALM Productions  
(219) 776-0594

### **Catalog & Advertisement Design**

THM Promotions, LLC: (806) 679-0231

### **Special Terms**

K Bar D reserves right to flush any open heifer lot with a minimum of 6 viable embryos. If elected this is to occur at the buyer's convenience and seller's expense. A Supplement Sheet will be provided prior to sale day with any updated information regarding the cattle selling. EPDS listed in the catalog were pulled 9/19/22.

### **Liability**

All persons who attend this sale do so at their own risk, legal or otherwise, for their safety or for the behavior of the animals. The owners, sale management firm, and other sale staff assume no liability for personal injury, property loss, theft, or any accident that may occur.

### **Terms & Conditions**

Cattle will sell under the standard terms and conditions recommended by the American Angus Association. All sales are final, and the cattle will become the property of the buyer when the auctioneer says "SOLD". Announcements from the auction block on sale day regarding the cattle and equipment selling will take precedence over the information printed in this catalog. No cattle will be loaded until paid for in full.

### **Payment**

U.S. Currency only. All sales are final, and payment is to be made in cash or check. Master Card or Visa will be accepted with a 3% convenience fee.

### **Registration Papers**

All registration papers from the American Angus Association will be transferred to the buyer once full payment has been received. Please provide transfer information at buyer registration.

### **Livestock Mortality Insurance**

James Bessler, Inc.: (815) 762-2641

### **Online Broadcast**

Online broadcast and bidding will be available through CCI.Live. For assistance please contact: (516) 366-0734

## LOT 1A - K BAR D WENDY 74K

- The pursuit of raising Angus seedstock that are deemed acceptable at either end of the spectrum continually proves to be difficult, however when the stars align and these goals become reality, the pursuit becomes all worth it. We feel like the pair of sisters that will be tagged with Lot 1 give us belief that we are on the right path.
- These two daughters of Conley Express 7211 represent the ideals of what the K Bar D program stand for. Their awesome look balances perfectly with their mass, bone composition and foot size, they are wide pinned, big bodied and cowy. They bridge the gap between the show industry and the real world.
- K Bar D Wendy 149E is a direct daughter of PVF Insight 0129 and goes back to the iconic, K Bar D Wendy K1T in her maternal lineage, making her a three-quarter sibling to K Bar D Wendy 151E. If you share our opinion that solid investments in the cattle industry require a trustworthy cow family in support, then you can rest assured that's exactly what you will find here.

- The pedigree of Conley Express 7211 only adds notoriety to the cow families you'll find supporting the sisters, Wendy 72K and Wendy 74K. Maternally you find the legendary DPL Sandy 3040 female, a direct daughter of K N C Cabin Creek Sandy 804. Apart from Express, other sons of 3040 include the \$160,000 Lazy JB Edge 8745 and DPL Dillinger. She was also the Grand Champion female at the 2014 Western National Angus Junior Futurity and the Reserve Champion Owned Female at the 2015 National Junior Angus Show.
- Sale terms on this pair announced prior to sale day.*

### LOT 2A - K BAR D WENDY 70K

- The Wendy cow family has undoubtedly carried our program onto the next level, and the star of the show is K Bar D Wendy 151E, the dam of these three full sisters. This new mating with Conley Express 7211 on Wendy 151E could possibly be the one we have all been waiting for, a mating that combines two of the most potent cow families that the Angus seedstock business has ever seen.
- The oldest of the trio, Wendy 70K is the combination female, and one that we struggle to really put a hole in. We love the way she balances from the side, and the effortless way she ties together in her spine, transitions out of her forerib and functions her hind leg. We think this one runs with the best on the tanbark, and between her cow power and phenotype, has the makings of a cornerstone donor prospect for her new owners.

CED	BW	WW	YW	CEM	MILK	CW	MARB	RE	FAT
2	3.3	56	90	8	29	36	0.48	0.54	0.01

- Wendy 73K would be the brood cow prospect of the litter, she has always impressed with her boldly designed rib cage, swoopy underline, and maternal muscle shape. We know that her quality will truly be realized when she enters production.
- K Bar D Wendy 79K is the youngest of the full sisters, but we think the most intriguing in her build. The upside potential here is very exciting and worth evaluating, because it would come as no surprise to us if she develops into the one that hangs the most purple banners at the end of the day. Her presence and eye appeal are striking, the correctness of build is reassuring and the composition of her pieces is ideal.
- We couldn't be prouder of this set of females, bringing the sale to Oklahoma was a big leap of faith, however knowing the quality of this set of females reassured us that the added investment of sale expense and time was necessary. The league of the heifer calves born in 2022 far outshine any set we've calved before, and the trio of sisters selling as lot 2 are at the forefront of this claim.

**LOT 2C - K BAR D WENDY 79K**

**LOT 3A - K BAR D WENDY 13K**

- This pair of full sisters mimic the kind that were so impressively received last year, those full sisters sold as lot 1A and 1B and commanded \$42,000 and \$30,000 respectively, selling to ZWT Ranch of Tennessee and the Coleman family of Modesto, California.
- The combination of KR Mojo 8520 and K Bar D Wendy 151E continues to prove to be one of the most potent mergers we have witnessed in Redmond, Oregon. But when you begin to analyze the members of the pedigrees of these heifers then the outcome becomes more logical.
- We regard K Bar D Wendy 151E as phenotypically elite of an Angus female as we have ever produced. In person she takes one's breath away, and we feel honored to have her wandering the pastures of Deschutes County. The heritability of her phenotype has proven to be potent and fortified, her daughters are consistently blessed with an authentic and enviable structural build, and a silhouette that captivates.
- K Bar D Wendy 13K is overwhelming in the shape of her middle third, this includes not just the view from the side but from behind and up top. She is the kind that takes no guess work or one you'll feel your taking a chance one, she is just genuinely good beef cattle. This one defines maternal in our mind, and it's going to be fun to watch her hang banners along the way.
- K Bar D Wendy 16K has the advantage when it comes finding one with a heavier muscle pattern and stoutness of feature. She is extra long sided, bold centered and combines this robustness with ultimate levels of femininity and look. We predict her to be a generator of herd bulls down the road, but her added hair quality will sure make for a fun time on the show road beforehand.
- *Sale terms on this pair announced prior to sale day.*

17	-1.5	60	98	15	24	35	0.31	0.9	0.00

- You don't need to see Wendy 76K in person to know that the long-term value from pedigree alone holds immense value. Then when you get to inspect her and break her down phenotypically it only further validates the investment opportunity here. Possibly the stoutest in her bone makeup of these 151E daughters, and one that's potential goes further than her time in the show ring, but as a valuable member of your cowherd and donor battery.
- A full sister to Wendy 76K calls home to Grandview, Texas under the ownership and management of Brecken Shipman, Col. Jered's oldest son, who selected her out of last year's sale. We can only imagine the future she has both as a producer of purebred Angus seedstock and percentage Simmentals.
- Take the opportunity to possess your own daughter of the legacy builder of our program, K Bar D Wendy 151E.

*Stevenson Turning Point - Sire of Lot 4*

*K Bar D Wendy 86J - Full Sister to Lot 4*

**LOT 5 - K BAR D WENDY 8K**

- We think this one might be the most exciting maternal prospect/donor candidate in the offering, where this one stands alone is the unique pedigree she brings to the offering. J&J Weigh Up 294 is one of the most admired Angus beef bulls by stockmen from coast to coast, border to border. You can see this quality and authentic build has transmitted unequivocally to 8K.
- The dam of 8K is one of the most trustworthy Wendy descendants of the tribe, unfortunately she has only ever raised one other daughter, and so letting any piece go of this 2022 model is a decision not easily made. K Bar D Wendy 8W, was Reserve Winter Calf at the National Western Stock Show, and being a granddaughter of K Bar D Wendy K1T closely links her to many banner winners for our program.
- The generating potential we foresee in the future of 8K is going to be a bright one! This is one that you will be hearing of for a long time to come.
- *Sale terms on Wendy 84K announced prior to sale day.*

**LOT 6 - K BAR D WENDY 82K**

- If you have the same type of feed scoop that we do, one with some patience, and one that enjoys feeding a calf with the skeleton and build to mature into a show stopper then you need to pay attention here.
- A long and thin neck sits high on the top of this Turning Point daughter's shoulder, plus she has the big feet and feature that helps her balance from the side.
- Her mother K Bar D Wendy 29E was a feature in our 2017 sale, she is a Poker Face 1304 daughter that went on to produce the lot 1 females in both 2019 and 2020. She was a NWSS 2019 ROV Class Winner before entering the donor battery as a two year old for K Bar D and our partners MB Angus, LLC. K Bar D Wendy 13H was the lot 1 female in 2020, half interest in her sold for \$15,000 to Kathryn Coleman of California. 13H experienced great success on the tan bark, as a calf she was reserve in the Winter Calf division in Reno, and then went on to be slapped as the 2021 Western Regional Angus Futurity Reserve Grand Champion PGS Female. In 2022 she came back to do one better when she was awarded Champion PGS Female at the Western Regional Junior Angus Show for Kathryn and was the 7th Overall ROV Show Heifer of the year.
- A full brother to 82K has been a valuable member of our 2021-2022 showstring. K Bar D West Point 14H was the Early Junior Champion Bull Calf in Reno, Junior Champion Bull at the 2022 NWSS ROV Show and Reserve Junior Champion bull at the 2021 American Royal.

*SAV Bismarck 5682 - Sire of Lot 7*

*Silveiras Princess 6358 - Dam of Lots 7 - 9*

CED	BW	WW	YW	CEM	MILK	CW	MARB	RE	FAT
11	-0.7	41	70	12	24	20	0.2	0.56	0.05

- We initiate this small trio of Silveiras Princess 6358 sisters with one of possibly her most impressive breeding accomplishment to date. K Bar D Princess 3K reads with extra body shape, structural integrity, poise and balance, capped off with an extra attractive front third of her skeleton. When this one is parked she catches your eye, but as she sets in motion she gets your heart racing. High quality livestock here, and with the power of the cow family that backs her, we know her time in production will be profitable.
- Elite Lineage. Proven Results. Time Tested. These are the thoughts that come to mind when looking at the pedigree of 3K. SAV Bismarck needs absolutely no introduction; he is a maternal giant plain and simple. Silveiras Princess 6358 was the lead member of the Champion Cow-Calf Championship at the 2019 National Western Stock Show and the American Royal, she traces back to the third-generation dam, the late and great \$400,000 valuation Greens Princess 1012. A pedigree lined with individuals of influence!

# Elite Open Angus Females

**LOT 8 - K BAR D PRINCESS 14K**

- We love the functional build of this direct daughter of Silveiras Princess 6358, in the pursuit to keep making these show cattle so unique and “out there” we think it’s become increasingly easy to lose sight of the product we are producing. But its cattle built like 14K that help readjust the kaleidoscope, fault free structurally, robust in their body shape, appropriate in frame size and dimensional from every standpoint.
- The full sisters to Princess 14K were in strong demand at the 2021 “No Secrets” event, averaging north of \$7,250 and selling to the keen eyes of Abby Bianchi, Garren Walrod, Lynzee Storey and Stephen Koontz.

**LOT 9 - K BAR D PRINCESS 24K**

**BUBS Southern Charm AA31 - Sire of Lot 9**

- Rounding out the trio of Princess 6358 sisters is the BUBS Southern Charm AA31 daughter that you will undoubtedly find if you’re in pursuit for super power cow prospects. You cannot deny the boldness and substance of feature of this March born heifer calf.
- Whilst BUBS Southern Charm AA31 may not be a go to name in the show cattle arena, he is a familiar face to astute stockmen nationwide, he has produced a \$100,000 sale feature for Nowatzke Cattle in Indiana, an \$80,000 heifer calf sold at 44 Farms in Texas and the \$43,000 top-seller for Yon Family Farms of South Carolina.
- We think the investment here is bound to multiply exponentially.

# Elite Open Angus Females

**LOT 10 - K BAR D ERIKA 1K**

**LOT 11 - K BAR D SAVANNAH 9K**

- We love turning to some of the past greats to reinject quality, we are true believers that elite seedstock come in a timeless phenotype, and there is no questioning if that phrase applies to the legendary BC Lookout 7024.
- With that in mind, there is nothing old school about the build and composition of K Bar D Erika 1K, this Lookout daughter could even be described as futuristic in her eye appeal and presence. She has long been a favorite of those who have inspected the offering in Oregon, and we think her kind will be very well accepted in the sale pens once the cattle arrive on the red dirt of Marietta, add the fact that she has the attitude of an absolute sweetheart.

*B C Lookout 7024 - Sire of Lot 10*

- Just keep in mind these cattle are lotted by cow family, not quality or generating potential, not to demean the value of heifer calves lotted lower in order, but the opportunities for return that lay with K Bar D Savannah 9K may be as safe as any that sell on October 9th. The early growth trend, easy keeping pattern and maternal function that this On Point 25F daughter surfaces with is impressive.
- A full sister to 9K, KBARD Savannah 6H was slapped the 2021 New York State Fair ROV Grand Champion Female for Daisey Trowbridge of Ghent, NY and David Salem of Brookfield, Ma.
- She is a direct daughter of K Bar D Savannah 38D, this cow comes as a familiar face to our loyal clientele as the mother of our herd sire, K Bar D Turning Point 5F. The K Bar D Savannah cow family originates with Malsons Savannah 102W, another true herd bull generator, with sons such as K Bar D Joe Canada 18D and KR Millionaire.

- The sire of K Bar D Dolly 27K, K Bar D On Point 25F is a Turning Point son that is leaving a very strong impression on the replacement pen here in Redmond. His daughters are stamped with a low maintenance, easy keeping growth pattern, they are the kind that will have an extended career in the cowherd because of the structural build that comes standard issue.
- K Bar D Dolly 27K follows the trend of her sire, the combination of her stout features, dense center third and intriguing presence make her one we have high hopes for. She's the type that will capture the attention of show heifer buyers and astute cowboys alike.

- As enthusiasts of Angus seedstock, we recognize the value of a maternal pedigree centered around the power of the Blackcap cow family. The pedigree of this Maternal On Point 25F daughter traces to Vintage Blackcap 4256 who has been a mainstay in the donor battery for us, she has yielded several sale features, including a \$25,000 daughter that was the selection of Sierra Ranches.
- The impressive maternal lineage of 29K goes further than her grandmother, further back you will find she is a descendant of the \$280,000 full sister to Grid Maker in G A R 044 Traveler 2328, a female that many would perhaps still describe as the ideal Angus female. 29K is a balanced and functional show heifer prospect that is destined to make a great breeding piece.

*HF Tiger 5T  
Maternal Grand sire  
of Lot 13*

**LOT 14 - K BAR D BLACKCAP 29K**

*The Bred Females*

**LOT 15 - K BAR D WENDY 1J**

- An upper echelon breeding piece, a true product of the program, one that aligns the stars that have built the K Bar D.
- The pedigree of K Bar D Wendy 1J is built upon the fact she is a direct daughter of K Bar D Wendy 151E, the leading lady of our program, one that needs zero introductions to any follower of our program. 151E is the only female that has ever won her division three consecutive years at the National Western Stock Show, she has become the cover girl for our program, and then validated her successes by becoming a force in the donor pen. Even Colonel Shipman's discriminating eye selected a three quarter sister to 1J in last year's sale, and we look forward to seeing her on the tan bark this coming winter.
- The sire of Wendy 1J, combines the influences of Stevenson's Turning Point and the K Bar D Savannah 38D female, another foundation in the donor pen. K Bar D Turning Point 5F has proven to be a true breeding bull, we have turned to him to add structural integrity and genuine shape and mass. He is a maternal brother to Daisy Trowbridge's selection from our 2020 sale who was selected as the Grand Champion Angus female at the 2021 New York State Fair ROV show.
- 1J was bred up early to Kraye Big Country 0179, meaning she will be ready to enter embryo production and create a quick return on investment, the appeal of this female goes much further than phenotypically.

# Maternal Bred Angus Heifers

- A trio of sisters that are going to be extremely hard to load on the trailer headed to Marietta. We love to sell fancy show heifers into great families each year, and watch the success stories both in and out of the ring that they have over the year. But for us it's really hard to see these bred heifers go, particularly when they are bred in the purple just like these three standouts.
- This trio of siblings help justify the excitement we have for the K Bar D Wendy 149E female who is cementing her position in the donor battery and being sired by the versatile Stevenson Turning Point adds value that goes way beyond just being standout show heifer prospects. A full sister to this trio was a sale highlight in the 2020 "No Secrets" when she became the selection of Hartman Cattle Company, of Tecumseh Nebraska, we look forward to seeing what her influence will produce in their program. K Bar D Wendy 149E is a direct daughter of PVF Insight 0129 and goes back to the matriarch, K Bar D Wendy K1T in her maternal lineage, making her a three-quarter sibling to K Bar D Wendy 151E.
- Choices can be made in regard to service sire and calving dates, but there are certainly some factors that tie these three together from a phenotype standpoint; maternal in their muscle pattern, flat and smooth jointed, fluid on the move and are bold sprung in their ribcage. An impressive group, we look forward to visiting about which is your favorite.

LOT 18 - K BAR D WENDY 73J

**LOT 19 - K BAR D WENDY 38J**

- There is no questioning how important Stevenson Turning Point has been in our program, we think his real world quality, commercial acceptability and the impressive phenotype that he generates put him in a league with few members. We love the daughters we have retained in herd, but as to make this an event worthwhile for our customers, our best sell! Add the fact that that she is a full sister to K Bar D Wendy 13H who was the lot 1 female in 2020, a half interest in her sold for \$15,000 to Kathryn Coleman of California. She has been quite the force to be reckoned with on the tan bark.
- Big volume, extra round in her middle third, built with flexibility up front and sets down on a soft pastern and square foot. We love her squareness of hip and appropriate tailhead placement, the brood cow potential cannot be questioned, plus she's a Wendy!

**Krays Big Country 0179 - Service Sire to Lot 19**

# Maternal Bred Angus Heifers

**LOT 20 - K BAR D WENDY 41J**

**LOT 21 - K BAR D WENDY 42J**

- A pair of littermates that we love phenotypically, we don't think you could make them softer in their body cavity, more robust in their ribcage or comfortable in their angles. We take pride in generating this type of female through our breeding program, built correct from the ground up, with the running gear that will outlast their breeding tenure, and the easy feeding type that regardless of environment will prosper and return profit.
- PVF Insight 0129 has made a significant impact on not just our program, but for many of the nation's leading seedstock programs. He uniquely generates cattle that teeter on both sides of the equation, both show cattle and production cattle, and that's why his legacy will live on long in our herd, particularly through our Wendy daughters such as K Bar D Wendy 151E.
- These sisters were both bred to KR Mojo 8520, a combination that will produce progeny of extreme value, we know they will have an awesome look, and build of longevity.

# Maternal Bred Angus Heifers

**LOT 22 - K BAR D WENDY 45J**

- There is a name that will never go out of style around the K Bar D, and that's Wendy! 45J represents the last opportunity to secure a K Bar D Wendy daughter this year, they have proved to be worthy investments for many of those that have made the decision to purchase one. 45J went on the show road as a calf, bringing home the Reserve Heifer Calf Champion banner at the 2021 Oregon State Fair, following in the footsteps of her dam, 6F who was the Champion Cow/Calf Pair at the American Royal the previous year.
- Her dam, Wendy 6F is a direct daughter of the famous 1010 herself and her sire, K Bar D Turning Point 5F finds maternal power from another powerhouse in the program, K Bar D Savannah 38D. Long story short, the pedigree of 45J aligns the most impressive and productive cow families we have, so you can invest with confidence here.

*Silveiras Princess 6358*  
**2019 ROV Cow - Calf Champ**  
 Dam of Lot 23

**LOT 23 - K BAR D PRINCESS 82J**

- The only opportunity this year to invest in a pregnant daughter of THE 'Silveiras Princess 6358'.
- We love how this one is built, we won't be surprised when her name becomes a longtime producer for her new home, she is awesome in her foot shape, long and smooth in her muscle pattern and has the feminine feature that reassures that the Princess Cow Family has an immortal name among the best the breed has seen.
- Silveiras Princess 6358 is one of one of the most influential pieces of the K Bar D breeding battery so when her direct daughters become available, take the opportunity!
- We AI bred her on 4/8/22 TO KR Mojo 8520.

# Maternal Bred Angus Heifers

**LOT 24 - LAIDLAW CHOCOLAT 36J**

- The reason we love this business so much is being able to be a part of our friends and colleagues success stories, that's exactly what we have here in Laidlaw Chocolat 36J. When Clinton Moncahmp purchased the dam of 36F we couldn't be more confident that she was going to become a foundation type female for their Angus seedstock herd.
- We love the angles and refined build of her joints; this is the kind that will have a long and productive tenure for her new owners. The K Bar D On Point 25F daughters are freshly in production and we couldn't be more pleased with the job they are doing!

**LOT 25 - K BAR D FANSI LADY 21J**

- Her name describes her perfectly, this one has the added presence and look that catches your eye immediately. However it's for good reason because she's much more than a pretty face, as 21J comes with a set of rugged running gear, and an extra dense body cavity.
- The phenotype of Fansi Lady 21J was by no mistake, she goes back to a foundation of the K Bar D Angus cowherd, T J R A925 Lady, who was named the Reserve Junior Champion Female at the 1997 National Western Stock Show. Quality never goes out of style.

# Maternal Bred Angus Heifers

**LOT 26 - K BAR D PRINCESS 29J**

- A direct daughter of K Bar D Turning Point 5F that goes back to a legacy female in the Angus breed, one that needs little introduction, Greens Princess 1012. 1012 has generated as many dollars and individuals of notoriety as any female in the breed, she is the mother of EXAR Blue Chip 1877B and the grandmother to both EXAR Classen 1422B and the million dollar producing EXAR Princess 5391.
- There is no doubting that 29J has the big running gear and looseness of structure. We love her maternal quality, ease of fleshing and low input design. This is the kind that keep you in business, even if the going gets tough.

**K Bar D Saras Dream 18J**

2022 NWSS Class winning daughter of K Bar D Turning Point 5F shown by Chyloh Billman

**LOT 27 - K BAR D BLACKBIRD 22J**

- The loose structured, flatter muscled type that we know will mature into a front pasture type of female in production. We think she will mimic her mother's awesome udder set up and maternal instinct. We all know the quality that comes standard issue with the Blackbird cow family.
- She was Ai'ed to the talk of the town, Krebs Mojo 8520, you would struggle to find another complete outcross sire that combines elite phenotype and genotype quite like Mojo, he sired our two high selling Wendy daughters in last year's sale at \$42,000 and \$30,000.

# Maternal Bred Angus Heifers

**LOT 28 - K BAR D ELAINE 57J**

**LOT 29 - K BAR D ERICA 2J**

- The youngest of all the bred heifers in the offering, but one that continues to mature with quality. This K Bar D Turning Point 25F daughter comes from the Elaine cow family that has been a staple in the K Bar D program since the beginning, going back to the original WK Elaine 2261 that came out of the famed Whitestone Krebs program. A cow family admired for their elegance and low input body type, but ones that always weaned off big calves, we know that this one will make for a happy customer.
- Elaine 57J is the only female in this offering carrying a pregnancy by a sire that we are anxious to use more of, BC Robust 0807. The progeny reports we are hearing and seeing are impressive, and once we heard the buzz about his daughter in production we bred as many as possible this way, an exciting future ahead!

**BC Robust 0807** - Service sire to Lot 28

- There is quality throughout the offering, we truly think we have put together an offering as diverse as we ever had, and we couldn't be more excited to bring them to Oklahoma to show them to you.
- K Bar D Erica K2J is an own daughter of our resident senior herd sire in K Bar D Carhartt 48G, who is a littermate to K Bar D Bull Dozer 47G. This pedigree is the result of stacking generations of the Angus breeds most visually appealing members, guaranteeing a consistent and predictable outcome. Proof exists with K Bar D Erica K2J, she is long and level spined, elegant about her head and extended in the way her neck ties high at the top of her shoulder blade. The composition of the middle third of her body is bold and deep, and the structural integrity that forms her foundation is flexible and effortless. We believe that this one is a CATCH!
