

HILLTOP

— SIMMENTALS —

November 18, 2022 • Six O'Clock In The Evening

WORTHING, SD

welcome

It doesn't take long after meeting Jaron and the crew at Hilltop Simmental's to realize that there are few people in the beef business that share the same level of excitement about the breed and its future. In a world of negativity, it's refreshing to work with such an upbeat crew that enjoy the labor just as much as the fruits. To those that have not been to the ranch or met the talented people behind the Hilltop operation then wait no longer, they will go out of their way to take you through the cowherd, explain their breeding philosophies and talk about how you could benefit from an injection of their genetics into your program.

The donor battery that stands in Worthing, South Dakota encompasses several of the most dominate and proven cow families in the breed. There is no doubt that Jaron has been aggressive in his search to secure a group of cornerstone breeding pieces that lead the business. The influences of his leading ladies, Red Jewel, Right To Love Z338, Orange Crush and Ebony X319 are all featured in the offering, there's not many female offerings in the nation offering access to such powerful cow families of both hide color!

The opportunity to secure the influence of ES Right Time FA110-4 has been easier said than done since his debut at the Eiachker Simmental Sale when CK Cattle and the Effling family purchased the high selling son of Welshs Dew It Right. His influence has quickly been in favor of leading producers nationwide, however the small annual supply of his genetics to the public has driven a strong demand for the semen, averaging more than \$850 a unit when sold. In demand of the most revolutionary genetic components available, Jaron made the significant investment to secure a breeding right in this once in a lifetime animal. You will find that every mature female in the offering carries his service. There are significant cow families embedded in every lot, but the opportunities for return on invest that come with the pregnancies of lots 17-26 is significant.

Take this as your personal invitation to view or enquire about the Hilltop female offering. The CCI.Live sale format makes it convenient to bid whether you are standing in the sale facility or from the comfort of your own home. But rest assured if you make the journey to Worthing to view the cattle in person you will be met with a treasure chest of genetic value and maternal power. Please reach out to the ranch crew or sale staff if you have any questions!

Enjoy the cattle,

*I*NNOVATION

TERMS & CONDITIONS

All cattle sell under the Suggested Terms and Conditions of the American Simmental Association. View updated guidelines and conditions at www.simmental.org. Announcements made sale day from the block take precedence over printed material in this catalog. Payment will be accepted in the form of cash, cashier's check, or check. All cattle must be paid for prior to release and transfer.

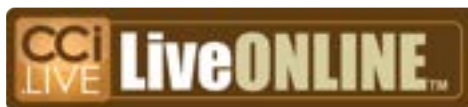

RISK

Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury, and will be loaded according to purchaser's direction.

LIABILITY

Neither owners nor sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents.

• The goal since the beginning of Hilltop Simmentals has been to locate, procure and propagate the most potent and elite Simgenetic females in the business, period. Little did we know that so early on in this quest we would acquire a female that would epitomize the goals. EKHCC Red Jewel 760 has been a blessing to our operation. The opportunity to tie to her name is now limited with her passing, yet two direct daughters sell on November 18th.

• The combination of EKHCC Red Jewel 760 and W/C Fort Knox 609F could be the best yet, we think Jewel 051 might be the most unique and intriguing built member of the clan. We love the dark cherry hide color, added length of spine, perfectly marked face, additional bone and foot size and the looseness of structure she possesses.

- CTN Jewel Bank J505 is the \$23,000 W/C Bankroll 811D sired three-quarter sister in blood to Lot 1, this combination has the added consistency and predictability of two of the breeds legends on either side of the direct pedigree.
- Purebred cattle with this kind of build and pedigree are hard to find, the fact that she is red bided only adds more esteem to her value.

- Regardless of which side of the pedigree of HLTS Jewel J191 you look into first, you will find an ancestry littered with notable Simmental figures. This direct daughter of the deceased and highly sought after, MR CCF 20-20 personifies the hype that has been generated about the sire group. Ideal in her structural build, big and bold in her pin set, neatly tied in her pieces and has an awesome look from the side.
- Maternally you find the legendary EKHCC Red Jewel 760, a female that has stood the test of time, generating the right kind for more than a decade now and regardless of the mating she proves to continually add breeding accomplishments to her resume.

• We think the purebred mating here with THSF Lover Boy B33 aligns the stars, the combination of look, presence, structure and intrigue has us excited to follow her story.

• The cow family in support of HLTS Believe J100 needs little introduction. Her mother is a maternal sister to the triple crown winning, HOC Mr. Broker, who with over 8000 registered progeny in the ASA database, goes down as one of the most highly respected stud bulls, across breeds, of recent history.

• Sired by W/C United 956Y, the \$25,000 OBCC Miss H25 910B is an impressive bovine in her own right, she has the added feature and power you would expect from her lineage, and yet has an elevated and extended outline.

• Another triple crown winner can be identified as the sire of J100, LLSF Pays To Believe ZU194 has been long known as a generator of elite breeding pieces.

- The kind that we love to look at! We think that this purebred WLE Big Iron E205 daughter is one of the most impressively built females that we will sell this year.
- She stems from a highly productive cow family for the Tylertown program, the Sue cow family is generations long of females that breed early, calve easily and return to the weaning pen with big calves.
- This big barreled, easy fleshing type of cow prospect is carrying a January due, MR SR 71 Right Now E1538 pregnancy, a mating that will yield a purebred calf of genetic and phenotypic value regardless of sex.

• A big-time genetic package selling here! The maternal granddam of J110, SVF NJC Magnetic Lady M25 has close to 200 progeny registered with the American Simmental Association and has been directly responsible for numerous cornerstone donors, leading herd sires and high sellers for operations nationwide. Ruby's Magnetic lady 328A, SS Enchantress and SS Cierra C777 just begin the list of maternal sisters to the dam of J110 that have proven their weight in gold at the donor pen.

- S A V Raindance 6848 has proven to be a generator of extreme maternal power! His dam, S A V Blackcap May 4136 has over \$10,000,000 in progeny sales, she is without doubt, one of the most prolific producers in the beef business!
- Magnetic Lady 1110 is carrying one of the earlier pregnancies out of our exciting new addition, Ruby's Premium oH3, the maternal brother to Ruby's Turnpike 771E.

• A set of percentage papered, TJ Main Event 503B daughters sell as lots 13 through 16. The legacy that 503B has left within the Hilltop program is unmatched to this point. His ability to quickly add foot size and quality, boldness of body shape, ease of fleshing, muscle shape and pattern and added pay weight both at weaning and yearling are more than we could have ever expected. You can trust that the four, TJ Main Event 503B daughters that sell are the kind that will keep you profitable, with big spread performance traits and a build made with longevity in mind.

- A first calving purebred daughter of OMF Epic E27 that has a long and productive career ahead of her in a new home. She brings an impressive data package and pedigree together in a balanced phenotype.
- Ms. Epic G946 is a direct daughter of the Sloup farms legacy female, SVF NJC Ebony X319, the maternal sister to the legendary SVF/NJC Built Right N48 sire who needs no introduction to any Simmental enthusiast.
- The genomic set that comes with HLTS Ms. Epic G946 is equally as impressive as her family tree, she tabulates with massive spread in regard to her growth, flipping from top 10% CE and top 15% BW figures to top 15% and top 20% weaning and yearling weights, respectively. Furthermore she ranks top 30% ADG, top 10% MCE, top 35% MWW, top 35% DOC, top 15% CW, top 25% MARB, top 30% REA, top 20% API and top 15% TI.

CONFIRMED SAFE. ESTIMATED DUE 1/5/23

HLTS CAMILLE J127

Daughter of Lot 18

She sells as Lot 13!

• This young half-blood cow is just hitting her prime years of production. She represents an outcross pedigree to a large majority of breeders, leaving her mating flexibility at a maximum. She came out of the Altenburg program that since their beginning in the 1970's has focused on longevity, easy fleshing, real world Simmental genetics that are low input and commercially orientated.

• We have made a commitment to investing in the leading genetics available across the breed, not only does the female selling represent this promise, but the sire of the pregnancy she is carrying further adds strength to the claim. Each of the mature females that sell November 18th are carrying a pregnancy sired by ES Right Time FAT10-4 one of the most complete and unique breeding solutions that the Simmental breed has seen in the past decade.

CONFIRMED SAFE. ESTIMATED DUE 1/10/23

- I know that next spring we are going to regret selling all of these cows bred to ES Right Time FA110-4. MISS Daisy 66oD is a perfect example of what Simmental females need to look like, she has the mammoth sized body, extra muscle shape and wide base width that is increasingly hard to find.
- With a double shot of cow power in her pedigree via RC Club King 040R you can rest assured that the maternal value here is optimum. This Blaze faced purebred has already raised a herd bull for Mark Pickering of Missouri, and we think that the coming January, purebred pregnancy by Right Time could yield her next great one! The production resume of Daisy 66oD is just beginning, take advantage of the opportunity here.

JBS BIG CASINO 336Y

Sire of Lot 19

JBS Big Casino 336Y has proven to be one the Simmental breed's best kept secrets for maternal excellence. A daughter of JBS Big Casino 336Y produced the now deceased MR SR Mic Drop G1534, the sire of the \$110,000 OMF Journeyman J24!

HPF RIGHT TO LOVE Z338 DAM OF

LOT 27 HEIFER CALF PREGNANCY

- HPF Right To Love Z338 has stood at the forefront of our donor pen since we acquired her; this Duracell daughter is a direct descendant of a cornerstone in the breeds development, RP/MP Right To Love 015U, making her a maternal sister to the triple crown winning, HPF Quantum Leap Z952. This mating is one we plan on taking our operation to new heights, so get in at the ground level with one of your own.
- The pregnant recipient comes with her own set of purebred registration papers (ASA# 3006216), so once she is done raising the Remedy x Z338 calf she can enter purebred production herself!
