CK *cattle* & Wager *cattle*

On behalf of everyone involved, I would like to take this opportunity to invite you to our Sixth Annual Production Sale. There are a lot of good programs and good people in the cattle business, so we consider it an honor that you are taking time to look at this offering. We are extremely proud of the cattle that are being offered for your appraisal.

Three years ago, I was beating the drum that the cattle business was destined for great times! I think it's safe to say it's going to be an exciting ride for all involved in the protein/beef business. We just don't know how wild it's going to get. All I can say is that it's the American beef producer's turn. If you look at the fundamentals: cow numbers, placements, and demand for product we raise, it gives you a warm fuzzy feeling. The one important ingredient that we were all lacking is moisture. As I write this, moisture is hitting in many areas that have desperately needed it. We now have the final piece to the puzzle to make 2023 a year to remember.

It's been so much fun to watch our genetics thrive in every arena in the business. In the fall of 2021, we entered 6 steers in a steer profitability contest, conducted by the American Simmental Association. The steers were put on a grow safe system in November and harvested in June. All the important traits are measured from intake, conversion, health, cost of gain and of course, carcass traits. Kenidey had 2nd and 5th overall individuals and the 1st and 4th overall pens. The neatest thing, is that the top overall individual, was Jayna Blume's steer and he was sired by a bull we raised! This is a small sampling that backs up similar data from other producers that we have helped place their feeder cattle. I guess what I'm trying to say is that you can combine quality with functionality, and it will work – but it's not easy!

Rest assured, we are always looking and using all the tools given to us to give the beef business the best product we can provide. We will have scan data, scrotal measurements, yearling weights and 105 day gain information on a supplement sheet prior to the sale. The bred heifers will be re-pregged and have their second round of scour shots the week prior to the sale. We fully guarantee the cattle and will work with you if you have any problems. The bulls will be semen tested, freeze branded, and given their pinkeye, foot rot and lepto vibriosis shot prior to delivery. We will deliver bulls in late April and May. Truckers will be available to help with bred heifer delivery after the sale. If you have any questions feel free to call anytime, we would love to visit with you. We will have a Prime Rib sandwich and refreshments after the sale. We hope to see you February 11th in Highmore!

Thank you for your interest!

Sincerely,

Chris Effling

It is with great pleasure that we welcome you to the Sixth Annual Production Sale of CK Cattle and Wager Cattle. This joint family venture has been well received among some of the country's top commercial and seedstock outfits alike. People are certain that the positive customer service and the quality of stock go hand-in-hand, and they have the utmost confidence in the product that is being offered. The industry is in store for a rather huge upswing based on simple supply and demand. With that said, you'll want to have your operation in position to capitalize when that time presents itself. There are certainly some bold predictions for all classes of cattle in all phases of the marketplace from feeder cattle, to fed cattle, to production females, and what lands on the plate at the dinner table. The stock in Highmore, South Dakota on the second Saturday of February will meet all criteria and set new standards for the traits that matter within your respective operation!

The bull pen in Highmore is as loaded as it has ever been! This year's pen will feature the very first set of calves sired by the \$175,000 2021 sale feature, FRKG CKCC Platinum 009H ET, along with the first draft by the joint acquisition from Oak Meadows Farm known as OMF Hard Right H21. The stock from each of these freshman sire groups will complement one another in the years to come. Phenotype with power and acceptable performance expectations will generate success and profitability for any program. At weaning time, this set of studs pounded the scales like no other set before them. They were as impressive then as they are today. We are certain that you will be amazed by the power and scale that these bulls offer across the board. Again, a diverse set that is backed by a dominant set of females that are production geared and ranch managed with significant expectations to hustle year after year!

Chris is very passionate about customer service and is very confident in the product that they introduce to the marketplace each and every year. Honesty and integrity in the product and the people that represent them is why this outfit has such a high customer retention rate. For these reasons, those that have done business in the years past let their neighbors and friends know where the density can be found in the calves they are producing. It seems the customer confidence is infectious and strong in the CK and Wager product. Popularity has surged with the end results to the food supply meeting multiple premiums indicating profitable endpoints for those who invested. Chris will do everything he can, with the resources he has available, to generate interest in the acquisition of your product at weaning time. Your calf crop will be aligned with what he deems the best fit for long term relationships while achieving competitive, market topping bids on that product. He has spent a multitude of years forging strong industry relationships. Many of those have allowed the doors of opportunity to open and allow these CKCC and WAGR prefixed sired cattle their place in those rooms of the business.

As far as the female offering is concerned, it's also geared to be one of the absolute best. Many of these are natural calves from the working girls that continue to build the program. They will carry the service of the resident calving ease sire HOLT Night Vision 457H and the arm service to the proven industry specialists in the Angus breed known as Deer Valley Growth Fund and Sitz Stellar 726D. Chris Effling is gifted with quite possibly one of the absolute best eyes in the livestock industry for quality and structural build. He has the ability to see the slightest skeletal flaws and recognize subtle differences in shape and body design. With that stands the reason that these cattle and the cowherd are built as they should be with longevity and industry end points in mind. These females will be as good as the dams that raised them, and they possess the genetics to be better for their new homes if those programs select the right genetic tools to advance the program in the right direction.

Please consider this your personal invitation to the 2023 CK Cattle and Wager Cattle Production Sale at the ranch headquarters just north of the Highmore, South Dakota metroplex. You will be met with an awesome set of stock to evaluate and make your strategic selections from, to move your respective program to the next level of production. The hospitality will be first class as well with plenty of food and drink. If you should have any preliminary inquiries about the offering, please reach out to any of the ranch family, or the Innovation Ag Marketing team for assistance.

TERMS

Terms of sale are cash or check payable immediately upon conclusion of the sale and before animals will be removed.

TRUCKING

Dick Coleman: 765.461.0954

NUTRITION

Jordan Holt: 605.380.1209

HEALTH & WINTERING

Bulls can stay to the first of May when they will have a breeding soundness exam, along with leptospirosis, pinkeye, and hoof rot vaccine. Bred females will need to leave as soon as possible after the sale due to close proximity of calving. Any female left and calved at CK/ Wager facilities will not be guaranteed a live calf. Prairie View Vet Clinic: 605.695.4086

RISK

Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury, and will be loaded according to purchaser's direction. Insurance will be available sale day.

ANNOUNCEMENTS

Announcements made sale day and from the auction block during the sale take precedence over printed material in the catalog or other printed material associated with this sale. Anyone attending this sale, attends at their own risk. Breeders or any of the sale force will not be held responsible for any injury while attending this sale.

LIABILITY

Neither owners nor sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents.

INSURANCE

Insurance will be available sale day. We suggest a mortality policy, especially if you plan to leave your bull(s) to be wintered until May 1, 2023. We will pay 1/2 of the insurance premium if you wish to purchase a policy. Please visit with Ray Trudeau at the clerking desk if you have interest in insuring your purchase.
Ray Trudeau - Martin-Trudeau Insurance 605.770.5170.

ADDITIONAL INFORMATION

Ultrasound data, yearling weights, gain test results, scrotal circumference measurements and Homo Black/Homo Polled testing results will be available sale day. Many of the donor dams to the cattle selling will be available for viewing sale day.

CK AND WAGER SIRED CALVES TOP THE MARKET!

"We have been purchasing Simmental and SimAngus bulls from CK Cattle and Wager Cattle to capitalize on the added heterosis that SimGenetics can bring to the table. The improved carcass data, real world performance, and ability to consistently grade is what these bulls have contributed to our operation. The Simmental influenced cattle not only perform in the feedlot, but the female contemporaries offer a strong maternal foundation that will benefit the cowherd for years to come. We have been very impressed with the ability that these bulls have to cover large country and maintain flesh during breeding season."

-Darren Ridley

THE BULLS

BULL GUARANTEE

Unless otherwise noted, all the breeding age bulls will have passed a breeding soundness exam prior to pick up/delivery. In addition to the standard Terms and Conditions of the American Simmental Association, we will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all yearling and older bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price less the salvage value of the animal.

BULL BUYER VOLUME DISCOUNTS

3% off total purchase price of 3 Bulls

4% off total purchase price of 4 Bulls

5% off total purchase price of 5-9 Bulls

10% off your total purchase price of 10+ Bulls

DELIVERY

Free delivery within 300 miles on all bulls and we will assist in finding delivery options to other parts of the country!

EMBRYO TRANSFER PROGENY

Bulls without a WW Ratio are the result of embryo transfer. Their respective breed associations do not recognize them as having a contemporary group so they do not have a WW Ratio.

SEMEN INTEREST

Seller retains 1/3 semen interest in all bulls selling unless otherwise noted or announced from the auction block.

DATA

Each pedigree includes an Actual Birth Weight and all bull pedigrees include an Adjusted Weaning Weight and Ratios for Birth and Weaning.

THE 20-20 SIRE GROUP

LOT 1 - FRKG CKCC TITANIUM K207 ET

- Two years ago we initiated the sale catalog with a bull that we believed was one of the most intriguing individuals that we had ever offered, let alone raised for that matter. We proudly present a full brother to the \$175,000 FRKG CKCC Platinum 009H ET.
- FRKG CKCC Titanium K207 ET is by MR CCF 20-20 and backed by the prolific WAGR Ms Profit 7054E, a past high selling bred heifer that commanded \$20,000 to Freking Cattle Company.
- K207 has the same look of quality and balance that set FRKG CKCC Platinum 009H ET apart from the crowd when he sold. He too is blessed with an eye appealing look about his front third and from the side. The difference between Platinum and Titanium is that the younger brother comes with more power and shape from behind. He is bigger hiped, stouter pinned, and offers more shape to the base of his quarter.
- Homozygous black and polled with a balanced number profile that positions him among the top 15% for WW, top 30% YW, top 1% YG, and top 15% REA.
- His perfectly etched blaze face only further compliments the unparalleled look of quality that is both modern and masculine. A unique herd sire option that is supported by generations of maternal excellence!

THE 20-20 SIRE GROUP

LOT 2 - ADSC CKCC 20-20 K107

- There is no question that MR CCF 20-20 has left behind a set of daughters across the country that are worth their weight in gold. Easy fleshing, low input cattle that offer excellent fleshing ease, fertility, and longevity.
- K107 is an eye appealing, smooth made, well designed son of the late MR CCF 20-20 that is backed by a daughter of MR NLC Upgrade U8676.
- He ranks top 1% YG, top 2% REA, and top third of the breed for WW.
- This bull is an IVF ET calf, hence the increase in birth weight due to length of gestation. He is breed average for BW and CE. Recommended for use on mature cows.
- Homozygous black and polled.

- This homozygous black and polled SimAngus™ herd sire prospect is one that offers extra length, power, and dimension.
- MR CCF 20-20 continues to leave a lasting legacy within the business, as his progeny and grand progeny influence the breed.
- A trio of maternal sisters to FRKG CKCC Kryptonite 210K ET sired by SO Remedy 7F were selected as the 2023 NWSS Grand Champion Percentage Pen of Three Heifers. The opportunity to purchase a choice of the ET flushmate sisters sold after their banner winning performance and commanded \$64,000 to Bowling Cattle Company of Indiana.

- When FRKG CKCC Platinum 009H ET sold in the 2021 CK Cattle & Wager Cattle Production Sale for \$175,000 to Doug Groth and Harrell Cattle Company, he was considered one of the most popular yearling bulls of the 2021 bull sale season.
- The dam of 2740K was the \$18,000 featured lot that highlighted the bred heifer division selling to Maple Lane Farm. TMS Ms Katinka Kay 9741G has become a rising star in production, raising the \$33,000 high selling purebred Simmental heifer this past fall at CK Cattle.
- 9741G is a tremendous young female that offers textbook udder quality, fleshing ease, and real world performance.
- 2740K came to the weaning pen with an impressive 787 pound adjusted weaning weight that is further complimented by ranking among the top third of the breed for WW, YW, ADG, and REA.
- Homozygous black and polled Purebred herd sire prospect that offers an elite phenotype.

**CKCC MS KAYLENE 2637K ET
Maternal Sister to Lot 6**

- 2667K is a younger bull that was raised by a poorer recip that did a less than satisfactory job, but he has just about caught up to the pack. This homozygous black and polled purebred is the real deal phenotypically and has the pedigree to support it!
- Sired by the \$175,000 FRKG CKCC Platinum 009H ET and out of OMF Time Less B100, this herd sire prospect is a maternal brother to the popular OMF Epic E27. As you'll notice flipping through the catalog, the OMF Epic E27 sire group is as strong as ever in Highmore!
- This herd sire prospect has an eye appealing look of quality and style that is hard to deny!
- His dam produced two heifer calves that recently made up the 2023 NWSS Grand Champion Pen of Three Purebred Simmental Heifers in Denver!

- 2101K is a late March born ET calf sired by FRKG CKCC Platinum 009H ET that is backed by the WLE Big Deal A617 donor at Wager Cattle.
- A pair of maternal brothers sired by ES Right Time FA110-4 will sell as lots 18 and 19 in this offering.
- Tremendous consistency from the donor dam that supports this purebred herd sire candidate. He is homozygous black and polled.
- Top 30% WW, top 5% YG, and top 20% REA.

LOT 8 - CKCC BELLA`S PLATINUM 2680K ET

- The next set of ET flushmate brothers are backed by 54Z2, the prolific dam of countless high sellers, individuals of influence, and the National Champion Bull, CKCC Edge 7692E.
- 2680K is a powerhouse SimAngus herd sire prospect that is sired by FRKG CKCC Platinum 009H ET. This set of ET flushmate brothers have been standouts since day one and were among the favorites of early visitors that toured the calves while they were still on the cow. This set of brothers are the real deal – plain and simple!
- 2680K is as rugged in terms of his build as any, while still offering true skeletal quality and eye appeal. He is homozygous polled and has been blessed with exceptional body depth and rib shape.
- A sale feature that will add quality and consistency to any program!

LOT 9 - CKCC BELLA`S PLATINUM 2663K ET

- 5422 has consistently produced high end SimGenetic seedstock, regardless of our sire choice when mating her. She is one of the most fertile, consistent, and proven producing females on the ranch.
- Just last year a maternal sister by Ruby's Currency 7143E was the high selling bred heifer, selling for \$34,000 to Maple Lane Farm of Indiana.
- 2663K offers tremendous length, extension, and shape. He is a larger framed bull that possesses a quality look of balance from every angle!
- This set of ET flushmate brothers alone are worth the drive to Highmore!

- 2762K is a light birthweight bull that entered the world with a modest 78 pound actual birth weight.

THE NIGHT VISION SIRE GROUP

LOT 14 - CKCC MR NIGHT VISION 2775K

TR MS
ROSIE 0196H
Dam of Lot 14

CKCC MR RIGHT TIME 1713J
Full Brother to Dam of Lot 15
Purchased by Effling Cattle Company

- Two years ago we set out to find a calving ease herd sire prospect that we could utilize on heifers without sacrificing quality or performance. The journey led us to Jordan Holt's in Mina, South Dakota where we found HOLT Night Vision 457H, an eye appealing smooth built son of the great MR CCF 20-20.
- There is no question that HOLT Night Vision 457H has exceeded our expectations with his rookie calf crop, siring marketable cattle with calving ease, quality, and real world functionality and performance.
- Here is one of the youngest bulls in the sale that is out of TR Ms Rosie 0196H, a first calf heifer by Bushs Tundra 602.
- He ranks top 20% CE and top 25% MCE while further confirming his heifer safe credentials with a moderate 72 pound birth weight. His two year old dam brought him to the weaning pen with an adjusted weaning weight of 733 to post a WWR at 106.
- Recommended for use on heifers.

- 2616K is a homozygous black and polled SimAngus herd sire prospect that is out of a first calf heifer sired by ES Right Time FA110-4.
- The dam of 2616K is a full sister to CKCC Right Time 1713J, the herd sire that was purchased by Ryan Effling in last year's sale.
- He is a performance driven bull that came to the weaning pen with an adjusted weight of 750 to record a WWR at 108. He was the number 1 weaning weight bull in his contemporary group that was raised by first calf heifers.
- He charts top 15% WW, YG, REA, and top 30% YW.

- K100 is an impressive half-blood by HOLT Night Vision 457H that is out of a productive young female from the "Katinka Kay" cow family at Thomas Ranch.
- He is smooth made, clean jointed, and long sided. A high quality SimGenetic option that will add pounds in the form of payweight to your next set of calves.

HOLT NIGHT VISION 457H
Sire of Lots Lots 14-17

THE RIGHT TIME SIRE GROUP

LOT 18 - WAGR MR RIGHT TIME 2067K ET

- The next pair of ET flushmate brothers are something to see! We initiate the ES Right Time FA110-4 sire group with a pair of bulls that are massive in terms of their shape, sound built at the ground, and offer tremendous eye appeal!
- 2067K is a standout among the sale offering, not just because of the striking blaze face and proud featured look that he possesses, but because of the overall balance and phenotype that he brings forward.
- The dam of these bulls is a daughter of WLE Big Deal A617 that is backed by a MR NLC Upgrade U8676 dam. She is also the dam of lot 7 in this year's offering.
- This homozygous polled purebred herd sire prospect ranks top 25% WW, top 20% YW, top 25% ADG, and top 25% CW.
- As the paternal sisters to this set of bulls enter production, we have confirmed that ES Right Time FA110-4 is in fact living up to the expectations that we had for him. Tremendous udder quality, foot shape, and fleshing ease. This is a genetic line that will stand the test of time!

SFI ENOUGH SAID D3

Maternal grandsire to several lots selling!

THE EPIC SIRE GROUP

LOT 43 - ROLR CKCC MR EPIC 33K

- 33K is another son of OMF Epic E27 that certainly needs serious consideration on sale day if you're looking for a heifer safe option that will still inject performance and carcass merit.
- This homozygous black and polled bull ranks top 15% CE, top 5% WW, top 10% YW, top 15% MCE, top 10% MWW, top 15% CW, top 10% API, and top 2% TI.
- The dam of 33K was purchased by Roller Ranch as a bred heifer two years ago.
- We admire the rugged design and athleticism that this herdsire prospect offers.
- Recommended for use on heifers.

LOT 44 - ECC CKCC EPIC 2906K

- Here is a moderate framed, easy fleshing half-blood that offers a premium blend of calving ease and performance genetics. The dam of 2906K is a first calf heifer that did an excellent job.
- 2906K came to the weaning pen with nearly 700 pounds of pay weight.
- He ranks top third of the breed for CE, BW, MCE, and Milk.

LOT 45 - ECC CKCC EPIC 2910K

LOT 46 - ECC CKCC EPIC 2911K

- 2910K and 2911K are ET flushmate brothers sired by OMF Epic E27 that are backed by the RREDS Lakota 614D donor. She is sired by the legendary Bieber Hard Drive Y120.
- This duo of brothers are extra stout and big footed, smooth jointed, and offer a balanced combination of calving ease with performance and carcass merit.
- They rank among the top third of the breed for WW, YW, Stay, CW, and API.
- You'll appreciate the squareness of build and ruggedness that these ET flushmate brothers bring to the table!

- Two years ago we had the opportunity to buy into a herd sire prospect that was quite popular during the spring 2021 bull sale season. We teamed up with Hartman Cattle Company to acquire the \$60,000 OMF Hard Right H21, a son of OMF Epic E27 that is out of the tried and true Hook's Angel 11A.
- The first set of OMF Hard Right H21 calves to be offered at auction will begin with FRKG CKCC Hard Right 208K, a son of the \$135,000 Bailey's Dream Girl.
- 208K is a maternal brother to the \$230,000 KTE FRKG Reset 825H ET, as well as the \$50,000 KTE FL Hazel 1H ET.
- He is a dense bodied, thick ended, big hipped herd bull that offers tremendous depth of body and spring of rib.
- This homozygous black and polled purebred herd sire prospect is among the top 10% WW, top 20% YW, top 20% YG, and top 35% TI.

- 2907K and 2909K are ET flushmate brothers sired by OMF Hard Right H21 that are out of GF/HS Miley X243, one of the stoutest and most powerful females that has ever set foot on the ranch.
- This pair of brothers are homozygous black and homozygous polled. They are bold bodied, big ended, thick topped beef bulls that offer extra length and power.
- Both brothers came to the weaning pen with over 750 pounds of payweight.
- Maternal brothers are working for Darren Ridley, Prairie Winds Cattle, Springbook Farms, and RPS Trout Lake Simmentals.
- 2907K is longer sided, more extended, and sports the eye appealing blaze faced pattern. 2909K offers substantial power, width of skeleton, and stoutness from every angle.

LOT 55 - CKCC MR HARD RIGHT 2690K

Herd Sire Prospect

- This OMF Hard Right H21 son is a bold bodied, thick ended herd sire prospect that offers a rugged and masculine look.
- His dam is a top young daughter of MR NLC Upgrade U8676 that has put two daughters back into the herd at CK Cattle. This is the first bull she has raised and is certainly one that will impress.
- He posted a weaning weight at 720 pound to record a WWR @ 104. He started with a moderate birth weight of 83 pounds. A true spread herd sire prospect with added power and shape!

TR MS PRECISION 2077Z - Maternal Granddam of Lot 56

- 2687K is a homozygous black and polled herd sire prospect that offers a moderate birthweight of 74 pounds. His build combined with these stats make him a logical option for use on heifers.
- This calving ease prospect ranks among the top 25% of the breed for WW and top third of the breed for Stay, YG, API, and TI.
- Suitable for use on heifers.

- He is a long sided, smooth made SimGenetic herd sire prospect that offers heterosis that will enhance profitability within your program.

THE REMEDY SIRE GROUP

LOT 60 - FRKG CKCC MR REMEDY 203K ET

- We lead off the SO Remedy 7F sire group with a bull that offers unparalleled mass, length, and power. This powerful purebred herd sire prospect is a direct son of the legendary Bailey's Ms Dreamy 946W. A full sister to this herd sire prospect was selected for \$27,000 by Kersten Cattle Company.
- 203K has the added length of side and frame without sacrificing body mass, depth of rib and fleshing ease. He came to the weaning pen with nearly 775 pounds of payweight.
- He ranks top 20% WW, top 15% YW, top 10% ADG, top 20% CW, and top 5% BF.
- 946W is one of the most important females in the Simmental breed with over 120 progeny recorded to her name in the ASA herdbook. Maternal sisters to 203K have sold for \$195,000, \$135,000, \$100,000, and countless from \$25,000 to \$50,000 over the last 5 years. Those maternal sisters to 203K have become some of the most established young donors in the breed for their respective breeding programs.
- A definite sale feature that will command the interest of the most critical on sale day!

LOT 61 - FRKG CKCC MR REMEDY 205K

- FRKG CKCC MR Remedy 205K is a big footed, stout boned son of SO Remedy 7F that is backed by a young Profit sired daughter of FSC2 Bella.
- He is a dense bodied, thick ended bull that offers tremendous softness and depth of rib to accompany his added power.
- High quality purebred herd sire option with the extra "bells and whistles".

CKCC MS PROFIT 9735G ET
Dam of Lot 61

LOT 62 - FRKG CKCC MR REMEDY 202K ET

- 202K is another purebred son of the \$530,000 SO Remedy 7F that is out of a proven and predictable cow family.
- The dam of 202K is M2C Assurance 16F, the Profit sired daughter of the legendary SVF Above & Beyond T87 donor.
- Homozygous black and polled bull that ranks among the top third of the breed for CE, BW, CW, and REA.

THE REBEL SIRE GROUP

LOT 66 - FRKG CKCC KODIAC 211K ET

- A sale feature that was a member of the 2023 NWSS Reserve Grand Champion Pen of Three Percentage Simmental Bulls!
- FRKG CKCC Kodiak 211K ET is the lead bull of the winning pen that is certainly one of the most intriguing built herd sire prospects in the offering. He was also campaigned on "the hill" at the NWSS where he was selected as the Division I Champion Percentage Simmental Bull.
- He is so flexible in his joint work, sound footed, and deep healed. We love the length of side and softness of body that he offers. He is balanced numerically and unmatched in terms of eye appeal phenotypically.
- It's no secret that his dam is one of the most consistent producing SimGenetic females in the business!
- This is a herd sire prospect that we believe can be utilized in a number of different breeding programs with tremendous potential for maximizing profitability.

- He is a lower percentage SimGenetic bull that offers a 736 pound adjusted weaning weight to record a WWR @ 103.

THE PROFIT SIRE GROUP

LOT 73 - JDSC CKCC PROFIT K121

- We initiate the Profit sire group with a homozygous polled purebred that is backed by the influence of the famed "Cinderella" cow family that traces to the original Matlock Miss S031 matriarch.
- This is the same cow family that produced the \$87,500 MLJM Patron, the maternal grandson of S031.
- Profit daughters continue to make some of the very best females in production. The influence that Profit has on this year's sale offering can be mainly identified on the maternal side of the pedigree box. Many daughters and granddaughters of Profit are producing the top shelf herd bulls. Take lot 1 for example, his dam is one of the rising stars in the business... sired by Profit!
- K121 is a good looking herd bull candidate that offers exceptional performance and WDA. An eye appealing bull with the extra mass and dimension down his top and from behind.

THE LINCOLN SIRE GROUP

LOT 79 - ROLR CKCC MR LINCOLN 30K

- 30K initiates the CKCC Lincoln 0631H sire group with dominating performance! This homozygous black and polled purebred comes to the offering as the NUMBER 1 WW, YW, and ADG herd sire option. He ranks among the elite 1% of the breed for WW, YW, ADG, MWW, and CW. He also charts top 15% for TI.
- CKCC Lincoln 0631H ET is the Ruby's Currency 7134E sired son of the 5422 donor. He has matured into one of the most impressive mature bulls that you can imagine for the Weber brothers of Minnesota.
- The dam of 30K is G919, a young daughter of LFE The Riddler 323B. He came to the weaning pen with an impressive weaning weight of 870 pounds to record a WWR @ 107. This extra performance comes at a bit of cost, with all this performance comes some birth weight. This is a bull that is recommended for use on mature cows to add payweight.

THE LINCOLN SIRE GROUP

LOT 82 - CKCC MR LINCOLN 2716K

- 2716K is a very eye appealing star headed herd sire prospect that has "the look" of quality that we can all appreciate.
- This lower percentage SimAngus stud comes from a Basin Excitement dam that is backed by the influence of a MR NLC Upgrade U8676 x 3C Melody M668 BZ daughter known as WAGR Covergirl 027X.
- He ranks top 25% WW, top 20% YW, top 15% ADG, top 205 MWW, top 15% CW, and top 25% REA.

LOT 83 - CKCC MR LINCOLN 2768K

- Another son of CKCC Lincoln 0631H ET that has breed leading performance and carcass merit. The dam of 2768K is a young daughter of Profit that is backed by the VAR Magic Sandra 210, a daughter of S A V 707 Rito 9969.
- He is homozygous black and offers tremendous body depth and outward spring to his rib cage. He is big topped, and square ended with excellent shape and dimension.
- 2768K ranks top 20% WW, top 15% YW, top 15% ADG, and top 15% CW.

- The next two bulls are sired by CKCC LD Hammer 8965F ET, the son of MR TR Hammer 308A ET that is out of the WF Forever Lady Z165 donor that calls home to Conley Cattle in Oklahoma.
- 8965F is a full brother to CKCC LD Dimension 8965, the featured son of MR TR Hammer 308A ET that sold in 2019 to Wheatland Cattle Company and Semex. Since making his way north of the border, "Dimension" has created quite a stir, siring some of the most sought after cattle for the storied Wheatland program. He is the sire of Wheatland Dimensional 1147J, the \$200,000 sale feature that sold to JP Cattle Co., Red Willow Ranch, Sandeen Genetics, and Werning Cattle Company.
- 8965F has done an exceptional job in our program, siring cattle with extra shape, dimension, and functionality.
- This pair of paternal brothers offer scale crushing performance with a look of quality and real world practicality!

THE STUNNER SIRE GROUP

LOT 86 - CKCC MR STUNNER 2629K

- Over the last several years we have sampled some of the industry's most popular and proven Angus sires, specifically for use on first calf heifers. There is no doubt that Musgrave 316 Stunner has quickly rose to the top of the list in terms of consistency and quality. With many of the females that were safe AI selling in last year's sale and the uneven number of heifer calves from this sire group born we only have the one son of Musgrave 316 Stunner in this year's offering.
- 2629K is massive bodied, great structured, and has the added dimension and capacity that portrays fleshing ease and functionality.
- The dam of 2629K is a first calf heifer that is sired by the popular ES Right Time FA110-4 and backed by the maternal influence of 3C Melody M668 BZ. With a pedigree that reads like this, there is no question that 2629K is a herd sire prospect that one should consider if planning to retain a large number of replacements.
- He charts top 20% WW, top 20% YW, top 20% ADG, top 5% CW, and top 20% Marb.

- Herd bull alert! If you like cattle with the extras in terms of body, power, bone, shape, and performance – then here is your guy!
- This homozygous black half-blood SimAngus herd sire candidate is among the top 4% of the breed for WW, top 3% YW, top 5% ADG, and top 4% CW.
- The dam of 2062K is the result of the MR HOC Broker x 3C Melody M688 BZ combination that has produced countless high sellers and individuals of influence that are working in programs across the country!
- 2062K is a trait leader for performance. He came to the weaning pen with over 700 pounds of payweight to record a WWR @ 108.
- A unique half-blood that will add profitability to your bottomline in the form of heterosis!

THE GROWTH FUND SIRE GROUP

LOT 88 - CKCC MR GROWTH FUND 2650K

LOT 89 - WAGR MR GROWTH FUND 2015K

- Here is another powerful son of Deer Valley Growth Fund that has the extra body, mass, and dimension that is synonymous with the sire group. We love the durability and consistency of this sire group when used on a variety of SimGenetic females that differ in terms of pedigree.
- The dam of 2650K is by a Profit son that is backed by the impressive Montana Blackcap 2009 female. 8694F is out of Rachel R&R 3038, the WAGR Upside 020X daughter that is from the famed R&R Rachel 11H cow family.
- 2650K is a homozygous black and polled quarter-blood SimAngus herd sire prospect.
- He ranks top 10% WW, top 5% YW, top 4% ADG, top 15% MCE, and top 1% CW.

DEER VALLEY GROWTH FUND
Sire of Lots 87-95

- 2015K is a standout son of Deer Valley Growth Fund that is backed by the Profit influence on the maternal side of his pedigree.
- The dam of 2015K is WAGR Ms Profit 8041F. She is also the dam of WAGR Ms 20-20 0016H, a featured bred heifer in last year's sale that was purchased by Rob Vanhove.
- Top 15% WW, top 10% YW, top 10% ADG, and top 10% CW.

- The lone Angus bull in the offering, but one that holds true to the fundamentals of his sire group. Deer Valley Growth Fund continues to raise the bar in terms of siring cattle with genuine dimension, body mass, muscle expression, and length of body.
- The dam of 2083K is Chestnut Georgina 599, the Woodhill Mel X219-A191 daughter that was our selection from Chestnut Angus Farm.
- Here is a big time spread bull that offers exceptional calving ease yet still spreads to breed leading performance.
- A suitable option for use on heifers without sacrificing pounds of performance when it counts!

THE BRED FEMALES

LOT 203 - KTE FRKG JULIA 1858J ET

LOT 204 - KTE MS REMEDY 1856J ET

- KTE FRKG Julia 1858J is a stylish daughter of the \$530,000 record selling SO Remedy 7F. He was selected as the 2021 Cattlemen's Congress Grand Champion Simmental Bull and has emerged as one of the most popular breeding bulls of the last decade!
- SO Remedy 7F sired the 2023 NWSS Grand Champion Pen of Three Percentage Simmental Heifers, 2023 NWSS Grand Champion Pen of Three Purebred Simmental Bulls, and the 2023 NWSS Reserve Grand Champion Purebred Heifer.
- The dam of 1858J is the M2C Assurance 16F donor, making this heifer a full sister to FRKG CKCC MR Remedy 202K ET who sells as lot 62.
- 16F is a direct daughter of the legendary SVF Above & Beyond T187 donor for Jerod Metzger in Kentucky. A maternal sister to 16F was the 2015 American Royal Grand Champion Purebred Simmental Heifer for Miranda Raithe.

SO REMEDY 7F
Sire of Lots 203-206

- 1856J is another female by SO Remedy 7F, however her dam needs little introduction to the business. Bailey's Dream Girl is the \$135,000 featured daughter of the late Bailey's Ms Dreamy 946W that is also the dam of the \$230,000 KTE FRKG Reset 825H ET.
- A three-quarter sister in blood to 1856J is the lead off bull in the SO Remedy 7F sire group. He is a direct son of the now deceased Bailey's Ms Dreamy 946W.
- Unbelievable body and power combined with the cow family significance makes this female a sale feature!

LOT 207 - CKCC MS EAGLE 1612J

- We sampled Hook's Eagle 6E two years ago on heifers. Last year we marketed several sons that were out of first calf heifers. Here is a paternal sister to those bulls that offers an elite combination of phenotype and genotype.
- 1612J is a homozygous black Purebred that offers tremendous balance and eye appeal. She is big boned, stout featured, and maternal in her design.
- She is backed by a TJ High Calibre 556B daughter that is from the "Countess" tribe and traces to the original SJF Countess 152Y female, one of the original WAGR Driver 706T daughters bred in the Frankenreider program.
- 1612J ranks top 5% WW, top 4% YW, top 5% ADG, top 20% MWW, top 25% Stay, top 10% Doc, top 20% CW, top 10% Marb, top 25% REA, top 10% API, and top 4% TI.
- The resulting pregnancy sired by Sitz Stellar 726D will result in a half blood SimAngus calf with 10 traits in the top 20% or better of the breed numerically. Bid with confidence here!

Maternal Granddam of Lot 216

THE BRED FEMALES

LOT 217 - CKCC JENNY 1855J ET

- CKCC Jenny 1855J is the FULL SISTER to lots 66 and 67, two essential members of the 2023 NWSS Reserve Grand Champion Pen of Three Percentage Simmental Bulls. She is also a maternal sister to the SO Remedy 7F sired females that were selected as the 2023 NWSS Grand Champion Pen of Three Percentage Simmental Heifers.
- The dam of this striking female is the iconic J6RA Bada Bing 1602B, the NAILE Grand Champion SimAngus female that is affectionately known across the industry as "Bobbi".
- Last year a maternal sister sold to Windy Creek Cattle Company for \$22,000. Another maternal sib is CHEZ KRIC Limit Up 9565G ET, the featured lot by Ruby's Currency 7134E that sold in 2020 to Rust Mountain View Ranch.
- 9565G offers very unique proportions in terms of her elevation of front third held in tandem with the overwhelming depth of rib and capacity that she possessed.
- She is safe in calf to WAGR Patriot 1008J, the high selling Hook's Eagle 6E son that was selected by Wagonhammer Ranches in last year's sale.
- *Confirmed Safe to WAGR Patriot 1009J (ASA 3961833)*

- 1556J is a homozygous polled half-blood sired by HOLT MR Capture 54F, the son of VCL LKC Equity 608D that is backed by a daughter of MR TR Hammer 308A ET that traces to 106Y, a full sister to WAGR Lullaby 703T and WAGR Driver 706T.
- The maternal side of her pedigree is lined with proven and predictable Angus females that have helped build the "Katinka" cow family at Thomas Ranch.
- *Confirmed Safe to HOLT Night Vision 457H (ASA 3802475)*
- *Estimated Due 2/9/23*

THE BRED FEMALES

LOT 232 - WAGR MS OUTLAW 1145J

LOT 233 - WAGR MS OUTLAW 1128J

- WAGR Ms Outlaw 1145J is one of two daughters in the offering sired by Outlaw, the resident herd sire by WS Pilgrim H182U. Her dam is a MR CCF Vision sired female that is a direct daughter of WAGR Lullaby 703T.
- A pair of maternal sisters to this female have been retained in herd at Wager Cattle. They have both produced herd sire prospects that are working for Darren Ridley and Brett Binger.
- 1145J is a smooth made, attractive built female that offers an elite look of balance and quality.

OUTLAW
Sire of Lots 232 & 233

WAGR LULLABY 703T
Maternal Granddam of Lot 232 & Maternal
Sister to Dam of Lot 233

- A beautiful profiling blaze faced purebred sired by Outlaw that is out of WAGR Miss 600U 482B, the Circle S Leachman 600U sired daughter of the legendary 3C Melody M668 BZ.
- 1128J is homozygous black and polled. She possesses a well-balanced design from a structural standpoint and offers true skeletal quality.
- She sells safe in calf to TR Hometown 1119J, the incredible built G A R Home Town son we selected from the 2022 Thomas Ranch Bull Sale.

- CKCC Ms Justified 1649J is the lone daughter of the \$350,000 Justified, a maternal brother to the great Profit. The paternal granddam of this female is WAGR Panarama 204Z, the result of the famed MR HOC Broker x 3C Melody M688 BZ.
- A homozygous black and polled purebred that is bold ribbed, deep bodied and built to last. Her dam is a MR HOC Broker sired daughter of FSC2 Bella. CKCC Ms Flo 8687F has surfaced as one of the most productive daughters of 54Z2 born to date.
- A maternal sister to 1649J, CKCC Ms Katherine 2677K, was a member of the 2023 NWSS Grand Champion Pen of Three Purebred Simmental Heifers!
- Justified semen is scarce and in high demand after he sired the lead off heifer calf in the 2022 HCC Customer Appreciation Sale that sold for \$175,000. Take advantage of this opportunity to put a production age daughter of Justified to work in your program that is supported by maternal greatness!

THE BRED FEMALES

LOT 235 - WAGR MS CRACKERJACK 1011J

- WAGR Ms Cracker Jack 1011J is a standout low percentage Simmental female sired by Musgrave Cracker Jack and supported by the influence of DUXS Embrace 79E and Basin Payweight 1682. 1011J was raised by a first calf heifer.
- This homozygous polled female is unparalleled in terms of center body mass and capacity. She is a brood cow in the making that is developing a picture perfect udder design.
- 1011J ranks top 20% WW, top 20% YW, top 20% ADG, top 10% CW, top 30% Marb, and top 25% TI.
- *Confirmed Safe to TR Hometown 1119J (AAA 20210408)*

THE BRED FEMALES

LOT 238 - CKCC MS ENOUGH SAID 1771J

LOT 239 - FRKG CKCC MS ENOUGH SAID 1783J

- CKCC Ms Enough Said 1771J is a homozygous black and polled three-quarter blood female sired by SFI Enough Said D3, the CCR Cowboy Cut 5048Z son that was the lead bull in the 2017 NWSS Champion Pen of Three for Schaake Farms.
- 1771J is supported by a maternal sister to J6RA Bada Bing 1602B that is sired by MR TR Hammer 308A ET. The influence of "Bobbi" and her maternal sisters can be identified throughout the entire offering!
- A good looking, smooth made female that is feminine and well balanced.

SFI ENOUGH SAID D3
Sire of Lots 238 & 239

- 1783J is the homozygous polled purebred sired by SFI Enough Said D3 that is backed by the Profit x WAGR Earthquake 236Z genetic combination. The maternal side of her pedigree lines the influence of 3C Melody M668 BZ not once, not twice, but three times!
- The added consistency and maternal greatness that supports this beautiful blaze faced female is worth its weight in gold.
- She sells safe to Deer Valley Growth Fund to have a half blood calf her rookie season of production. Based on the way that sire group looks in the bull offering, we'd sure think that would make for a speedy RO!

THE BRED FEMALES

LOT 244 - CKCC MS TRUE GRITT 1776J

- Here is a female that we could have started the bred heifer division with in terms of quality, eye appeal, and maternal functionality! We love the look of this blaze faced female and the type and kind that she represents. A low input female that is built to last.
- A homozygous black and polled purebred that is sired by the new and exciting outcross herd sire, TT Gritt 694G, a bull that we purchased from Double T Simmentals in 2020.
- J6RA Bada Bing 1602B does it again! Another daughter of "Bobbi" that is getting the job done in production. The dam of 1776J is CHEZ Bobbi 9812G, a full sister to FRKG CKCC Kryptonite 210K ET, a member of the 2023 NWSS Reserve Grand Champion Pen of Three Percentage Simmental Bulls.
- We appreciate the balanced number profile and growth predictors that TT Gritt 694G brings to the equation. This female sells safe to Styles Super M A99, the stud of an Angus bull we purchased by Styles Angus. Bid with confidence here, this female has a chance to write her own chapter to the "Bobbi" history books!

- By this point of the catalog it should be fairly obvious that cow family significance is a HUGE priority at CK Cattle and Wager Cattle. We value the consistency, the generating capabilities, and most importantly the fertility that our key cow families possess. These are the most critical traits in beef production, without fertility the rest doesn't matter!
- Another daughter of TT Gritt 694G that is backed by a first calf heifer. The maternal granddam of 1788J is the great MS TR Pandora 2770Z, a half blood female that is one of the original WAGR Driver 706T daughters that essentially put him on the map and labeled him as a "maternal legend". 2770Z is a direct daughter of TR Ms Katinka 3208N, a very important cow in the evolution of the Thomas Ranch Angus program.
- This purebred female has the cow family credentials to be a building block for the future of any operation.
- Confirmed Safe to Sitz Stellar 726D (AAA 18397542)
- Estimated Due 2/17/23

THE GENETICS OFFERING

OFFERING 20 PACKAGES OF 3 UNITS OF SEMEN CONVENTIONAL

Offered by: Doug Groth, Harrell Cattle, Freking Cattle, & CK Cattle

FRKG CKCC PLATINUM 009H ET

- FRKG CKCC Platinum 009H ET lead off the 2021 CK Cattle and Wager Cattle Production Sale, commanding an impressive \$175,000 hammer price for half interest and half possession to Doug Groth and Harrell Cattle of Carthage, Illinois.
- Platinum has without a doubt created a stir within the Simmental breed due to his elite presence, added stoutness, and true skeletal quality. His bold, deep body mass blends smoothly into his extended front third. He is flawless in his basic build, with exceptional foot quality and depth of heel. The dam of Platinum was a high selling bred heifer in a past Production Sale at CK Cattle and Wager Cattle, selling for \$20,000 to Freking Cattle of Alpha, Minnesota. Platinum is without a doubt a herd sire prospect that has experienced heavy use in herd at CK Cattle and Wager Cattle. He is a unique individual that is one of the true power bulls to surface within the last decade.
- The first progeny sired by Platinum are cataloged in this very offering as lots 4 through 12. The lead off bull in this year's sale is a FULL BROTHER to FRKG CKCC Platinum 009H ET. Cow family consistency and generating potential is built in!
- He experienced limited use during her first year due to a delay in semen production that many of us were faced with during the wild winter of 2021. We were able to use fresh semen for a few select flushes that resulted in the progeny pictured below. As you'll notice the oldest calf by Platinum is the tail end of February, with the majority of his sons being born in March. We are excited to offer you a small sampling of semen from a herd sire prospect that we believe is on his way to securing his foothold in the business as one of the great young sires in the breed!
