

The Inaugural  
**JARED WERNING CATTLE  
PRODUCTION SALE**

February 17, 2023

Parkston, South Dakota

SIMMENTAL | SIMANGUST™ | ANGUS

*We welcome you to our Inaugural Production Sale*

First and foremost, if you're reading this, I want to sincerely thank you for taking the time to do so. We are beyond excited to present this set of cattle to you.

As many may know, a drastic amount of change was brought to us in 2022. Life is never short of throwing curve balls, nonetheless, we have been working diligently to stay the course of breeding and developing cattle that yield positive benefits for our customers bottom line.

With change comes opportunity, 2023 brings us the opportunity to offer to you the things that mean the most to us. Those things are as follows: Trust, Integrity, Friendship, and Progress. Sticking to these values is what kept us moving forward this past year both on a personal and cattle basis. We are taking this big move in our lives as an opportunity to better serve you, our customer, and friends, on a more personal level. We are in this cattle business for the long haul. That is how we go about our relationships, breeding decisions, and strive to provide accurate, honest advice. Principal over profit should equal more profit in the long run, thus why it is our priority to always keep you and your program's best interest in mind.

The bulls we will sell February 17th represent our program to a T. You will notice the foot quality and structure of these bulls. They are built to travel and withstand any environment. The maternal bloodlines that run through their veins are some of the most proven and sought-after. Extensive embryo transplant work has brought us many full brothers that come from our best uddered, most productive, and most eye-appealing donors. As you flip through this catalog you will see sons of our time-tested performance sires, along with new genetics that we are proud to present for your valued appraisal. The cows and cow families behind these performance driven sons is what will make the difference in the long run. It is hard to put a value on foot quality, udder quality, and longevity.

Every bred heifer we raised will sell on this sale. With additional expense and moving cost, it was evident that we would offer them all for you in this Inaugural event. With that being said, we offer you our very best. There are few things in this world we find more enjoyable to look at, than high quality bred females. We've spent countless hours looking at these heifers over the past year and they mean the world to us. The top end is as good as we've ever been part of, and we are very humbled to bring females of this quality to live auction. Decades of making our cow families better, improving traits, and keeping the "look" in these cattle has been a challenge, but always offers utmost reward.

We look forward to sharing our genetics with you! If you are able, we look forward to seeing you all in Parkston on 2.17.23. Feel free to reach out to any of us here, or at Innovation AgMarketing with questions-anytime. Finally, we again would just like to say "Thank You". Thank you for being our friends. Thank you for giving us your time of day and thank you for considering our operation as a potential source of genetics to advance the future generations of your cattle.

*Sincerely,  
Jared and Kassi*

With change comes opportunity, 2023 brings us the opportunity to offer to you the things that mean the most to us.

*Trust, Integrity, Friendship, and Progress.*

# INNOVATION

— AgMarketing, LLC —

We want to welcome friends new and old, near and far to the Inaugural Jared Werning Cattle Production Sale. We look forward to watching the pathway this operation will take as they mold their breeding and marketing program around what will make their customers successful. Anyone that knows Jared and Kassi will confirm that these are two standup, hardworking, determined, and dedicated stock people that are focused on producing and raising the best product that they possibly can for their customers. The reputation of the stock they stand behind may be the calling card for some to this lineup of breeding cattle, but it will be the relationships you forge with the pair in support of the product that you will be most thankful for in the end!

The legacy of "Angel" is the cornerstone that this program has been built around, you will notice the influence of the legendary 2870Z deeply entwined throughout the entire sale book. She has been one of the most dominate breeding forces the past decade has seen, and the future shows that her progeny will continue to propagate at the highest level. Parkston, South Dakota will be the transaction point for the largest, most diverse, genetically advanced group of direct and generational Angel progeny in the nation. With that in mind, take note of the up and coming donors you will find featured throughout the book, they are the females that will anchor this firms breeding program into the future. The Angel tribe will be joined by several new cow families that have been acquired to bring the foremost product possible to the customers of Jared Werning Cattle.

The opportunity for bull buyers to purchase a herd bull that stems from industry approved and demanded pedigrees will sell with every single one of the bulls cataloged. You will notice several different sire groups represented, allowing for the option to sort on type and kind, age and breed. Buyers truly have the chance to customize the most ideal breeding piece that will fit their programs needs and ideals. One thing that does come standard issue with every JWC branded product is the ability to trust the maternal lineage in support.

The bred heifer offering will rival any consortium of females that will sell in the spring of 2023, there is truly a female to fit everyone's taste. With each page flip you will find a female that has the genetic potential to provide profitability in the right marketing scenario, whether you are looking to add a next generation herd bull producer to the donor battery or would like your programs prefix associated with raising purple banner winning show heifers in the nation's most competitive showrings, there are candidates that will sell February 17th.

The cattle will be on display the entire week of the sale, penned for easy viewing and sorting, with a warm facility and light refreshments available. The late afternoon sale time allows for taking care of the days business, and leaves time to inspect prospective investments. After the sale, an open and welcoming invitation is offered to those who would like to join in a scrumptious beef tip dinner and the fellowship of the great people involved in this program. Jared, Kassi and the entire sale management team are just a phone call away to answer any questions about the stock or provide direction towards what may best fit your program's needs. We look forward to having you join us for the Inaugural Jared Werning Cattle Production Sale.

*Sincerely,*  
*Graham Blagg, Jared Shipman, Tim Anderson*

# The Inaugural Event

**BULL DEVELOPMENT & DELIVERY:**

All bulls selling can be left at Jared Werning Cattle at no additional cost through April 15, 2023. At that point we will semen test, administer pre-breeding shots, worm, pour, and freeze brand your bull. Jared Werning cattle assumes full responsibility of injury or death loss while animals remain in our care. Any bull remaining in our care past the April 15th date are subject to yardage costs.

**TRUCKING:**

Jared Werning Cattle offers free trucking to customers in South Dakota and surrounding states. We will gladly assist in coordinating delivery beyond these boundaries at the expense of the buyer.

With many of the bred heifers coming close to their due dates we would like to arrange trucking and/or pick-up within a few days following the sale. We recommended the following trucking options that will provide a professional, cost effective, and reliable transportation of your new purchase(s).  
 Dick Coleman: (765) 461-0954 | Brandon Bertsche: (815) 867-0547

**INSURANCE:**

Dakota Ag Insurance - Jared Mohnen: (605) 990-5355

**SIGHT UNSEEN GUARANTEE:**

If you are unable to make it to the sale, please feel free to reach out to anyone associated with Jared Werning Cattle or authorized sale representatives to help find the best fit for your operation. Please reach out to Jared Werning ahead of sale day to discuss the cattle in more depth. 100% customer satisfaction is guaranteed!

**EVENT LIABILITY:**

All persons who attend this sale do so at their own risk. Jared Werning Cattle, facility owners or sale personnel assume no liability for accidents.

**LODGING:**

Holiday Inn Express & Suites: (605) 292-9292 8  
 10 E Spruce St. - Mitchell, SD 57301  
*Ask for the JWC block rate! Book quickly as it's a busy weekend in Mitchell, South Dakota!*

Freeman Country Inn: (605) 925-4888  
 1019 US-81 - Freeman, SD 57029

**TERMS & CONDITIONS:**

All cattle will sell under the suggested terms and conditions of the American Simmental Association and American Angus Association. All cattle selling have been parent verified with their respective breed associations and DNA is on file. All Simmental cattle have been tested via the GGP-100K qualifying them as AI sires and donor dams.

**ANNOUNCEMENTS:**

A supplement sheet will be available sale day with updated information, corrections, and additional information. This sheet and any announcements made sale day from the auction block during the sale, will take precedence over printed material associated with the sale. Anyone attending this sale attends at their own risk. Jared Werning Cattle, facility owners, nor the sales team will not be held responsible for any personal injury from attending this sale.

**VIDEOS:**

Videos of cattle will be available prior to the sale. The videos will be available for viewing at [www.DVAUCTION.com](http://www.DVAUCTION.com) and [www.INNOVATIONAGMARKETING.com](http://www.INNOVATIONAGMARKETING.com)

**BULL GUARANTEE:**

We guarantee that all bulls sold through our sale are fertile. If a bull is injured anytime in the twelve months following the sale, that makes him functionally infertile, we will provide a replacement bull or issue a credit in following sales, equal to the purchase price minus the salvage value received for your bull. The sale credit can be used on bulls or bred heifers the following year. This is not an insurance policy. The guarantee is in addition to the sale terms and conditions of the American Simmental Association and American Angus Association which apply also.

**SEMEN INTEREST:**

Jared Werning Cattle retains one-third semen interest on all bulls selling; meaning if Jared Werning Cattle should choose to collect semen on any sale bull, they would have the option to do so at the seller's expense. In addition, if semen is sold on any bulls that Jared Werning Cattle collects, revenue shall be split with seller retaining 1/3 of proceeds. Buyer will receive full possession and salvage value unless otherwise specified or announced.

**BRED HEIFERS:**

Bred heifers have been pregnancy checked by a licensed veterinarian and are guaranteed to calve within the catalog printed time-period. Should sale credit be offered for any reason, it must be used within 12 months (1 calendar year) from date of the original purchase.

**BRED HEIFER PARTNERSHIP DETAILS:**

Jared Werning Cattle will be offering 50% embryo interest in a select few bred heifers that are noted throughout the offering. The buyer is ONLY purchasing 50% embryo interest, with no possession. Buyer will receive 50% ownership of the first born natural calf that is being sold in utero. It will be decided between buyer and seller what the best marketing route is for the first born calf. The 50% embryo interest being purchased will be structured in one of two ways:

- 1) IVF cycle/conventional flushes will be split evenly between the two parties involved and all costs associated with embryo production will be divided evenly.
- 2) The second option would be to alternate IVF cycle/conventional flushes if the sire choice is not able to be decided on between the buyer and seller. Costs will be distributed solely to the partner that the individual IVF cycle/conventional flush has been designated to.

For more details please feel free to reach out to Jared Werning at (605) 933-1661 to discuss the mating and marketing options that sell all-inclusive with this investment opportunity!

**VOLUME DISCOUNT:**

A volume discount can be applied if several bulls are purchased by one firm. The discount begins with your third bull and continues as follows:

3 bulls = 3% discount; 4 bulls 4% discount; 5 bulls = 5% discount; Etc.  
 10 or more bulls = 10% discount. There is no discount on bred heifers.

- We proudly initiate the Inaugural JWC Production Sale with a direct son of the most reliable and proven female in our donor pen, W/C Angel 2870Z. Her career in production has been the only thing to outshine her victorious day in Fort Worth, Texas when she was selected as the 2014 National Champion Purebred Simmental Heifer.
- 2870Z is one of the most well-known daughters of the great 8543U, the highest dollar generating female in the Simmental breed.
- 2217K is a standout phenotypically, offering an elite look of quality and style. He is square built, smooth made, and sets to the surface with tremendous flexibility and comfort.
- A three-quarter brother in blood to the \$90,000 W/C Red Bird 269J, as well as a three-quarter brother in blood to the \$192,500 W/C Bet On Red 481H.
- A maternal brother by MR SR 71 Right Now E1538 also highlighted the 2022 sale season when Wheatland Cattle Company of Saskatchewan, Canada purchased him for \$40,000.
- We strongly believe in the genetics that support this unique red hided herd sire prospect!

W/C HARRELL ANGEL 7110E - Dam of Lots 2-4

- The next three brothers are FULL SIBS in blood to the \$192,500 W/C Bet On Red 481H. The dam of this trio is W/C Harrell Angel 7110E, the W/C Relentless 32C sired daughter of W/C Angel 2870Z. She was competitive during the 2019 show season for Sara Sullivan where she was selected as the AJSA National Classic 3rd Overall Purebred Heifer.
- Now in production, 7110E has emerged as one of the absolute most consistent and reliable producing daughters of the great 2870Z.
- The ET flushmate brothers are consistent in the fact that they offer tremendous shape, dimension, and capacity. We appreciate the added look and extension that each of these bulls possess.
- 6615K is the only brother that tested homozygous black and polled. He is massive in terms of his hip and pin width, square built at the surface, and offers the presence of a true herd bull when on the move!

*lot 3* JWC DTC FORT KNOX 5888K

- What he lacks in terms of tail length he definitely makes up for in terms of quality, shape, dimension, and performance! 5888K is a massive bodied, bold centered, big topped purebred herd sire candidate that is backed by multiple generations of females that have made a significant impact in the beef business.
- He came to the weaning pen with an impressive 871 pound adjusted weaning weight and recently posted an adjusted yearling weight of 1313.
- Pounds pay!

*lot 4* JWC DTC FORT KNOX 827K

W/C BET ON RED 481H  
Full Brother in Blood to Lots 2-4

- A striking blaze face, ultra-high quality hair coat, and a masculine look of balance from the side are the major components that set this herd sire prospect apart!
- The third member of the W/C Fort Knox 609F x W/C Harrell Angel 7110E flush that has proven to be highly successful and very consistent.
- We appreciate the skeletal quality and flexibility that this homozygous black purebred brings to the table.
- High quality stock with an elite maternal support system!

- Talk about a good looking stud that has the basic build, eye appeal, and muscularity to make a big difference in a single generation!
- 9227J is sired by W/C Style 69E, affectionally known across the industry as "Family Tradition". The dam of 9227J is the \$164,000 high selling SimAngus heifer from the fall of 2018 that sold at RJ Cattle Company. RJ PF Rita 8288F was successfully shown by the Sullivan family to countless victories. She was selected as the 2019 IA State Fair Supreme Champion, 2019 AJSA National Classic Grand Champion, and 2019 NAILE Supreme Champion Junior Breeding Heifer!
- This age advantage double bred half-blood herd sire prospect is homozygous polled.
- He offers two shots of the legendary 8543U within his pedigree – a surefire herd sire prospect that is certain to sire elite replacement females.

RJ PF RITA 8288F - Dam of Lot 6 & Full Sister to Lot 7

EXAR RITA 5406 - Dam of Lot 7

- Beef bull time! We initiate the W/C Bankroll 811D sire group with a powerhouse half-blood herd sire prospect that is backed by the legendary EXAR Rita 5406, making him a full brother to the dam of Lot 6, RJ PF Rita 8288F.
- Many have made claim that the full sister to 41K, RJ PF Rita 8288F, is one of the most phenotypically dominating SimGenetic females that has ever been exhibited.
- EXAR Rita 5406 continues to be one of the high income generating females for RJ and Plamp. This is a cow family that offers unparalleled maternal excellence.
- 41K is also a full brother to W/C Bankroll 1199F, the impressive herd sire prospect purchased by Eric Kroupa that is more commonly known as "Chinstrap". He is the sire of the \$25,000 W/C Craftsman 1424J that was purchased by Rosebud Cattle Company and Weis Cattle.
- A sale feature that deserves serious consideration if you're in the market for bull to add profit to your next calf crop!

*lot* 8 JWC BANKROLL 137K

- JWC Bankroll 137K is an eye appealing homozygous polled purebred sired by W/C Bankroll 811D that is supported by the picture perfect R&R Miss Cut Above Y127.
- Y127 is the dam of FHEN Halftime A127, the NAILE Grand Champion SimAngus Bull that is widely responsible for the excitement and popularity that surrounded the “double half” trend that has proven to be a highly successful mating technique for breeders across the country.
- Another maternal brother to 137K, Rust Night Moves 100H, was a sale feature that sold in the Rust Mountain View Ranch Bull Sale to Maple Lake Stock Farms in 2021.
- High quality purebred that is supported by two of the most phenotypically impressive females in the Simmental breed, 8543U and Y127!

*lot* 9 JWC BANKROLL 970J

- JWC Bankroll 970J is another son of the W/C Bankroll 811D sire group. We love the masculinity, rugged design, and sheer performance that this half-blood herd bull prospect possesses.
- The dam of 970J is sired by the industry icon, PVF Insight 0129. The maternal side of 970J traces to the famed Lazy H Bar Forever Lady 5001, the foundation female of Barry Hageman’s Angus breeding program.
- This baldy half-blood is homozygous polled. He is a performance oriented bull that came to the weaning pen with a 770 pound adjusted weaning weight.
- He ranks top 30% CE and top 25% BW. Suitable for use on heifers.

JSUL SOMETHING ABOUT MARY 8421 - Sire of Lot 10

- Check out the only son of the now deceased JSUL Something About Mary 8421. He is backed by a daughter of MR HOC Broker that is further influenced by the maternal excellence of the Rito 9FB3 of 5H11 Fullback sire line.
- A purebred herd sire prospect that is unrivaled in terms of length, weight, and performance. He is one that we admire from a structural integrity, and flexibility standpoint. A true athlete on the move!
- The dam of 87K, Udell Farrah's Surprise 170B, was the 2016 San Antonio Livestock Exposition Grand Champion ORB Junior Breeding Heifer. His maternal granddam, Farrah 15W, was the 2010 AJSA National Classic Reserve Grand Champion Heifer.
- With the recent passing of his sire, there is certainly a void that needs to be filled. A high quality Purebred herd sire prospect that has the quality and pedigree to follow any AI protocol. Bid with confidence here!

UDELL FARRAH'S SURPRISE 170B - Dam of Lot 10

lot 11 JWC VIP 1315K

- A large offering of purebred herd sire candidates that are ET flushmate brothers sired by W/C VIP 005G, the CDI CEO 281D son that is backed by the legendary Miss Werning KP 8543U. 1315K is an eye appealing homozygous polled bull that is among the top 2% of the breed for YG and top 20% REA.
- He is a moderate birth weight bull that is further influenced by W/C Angel 7114E, an ET flushmate to 7113E, the dam of W/C Bet On Red 481H.
- His pedigree is supported by the great Miss Werning 534R a total of four times within the first four generations.

W/C ANGEL 7114E

Dam of Lots 11-14

- Here is a homozygous polled purebred from the W/C VIP 005G sired flushmates out of W/C Angel 7114E. He is a moderate birth weight bull that is smooth made, clean jointed, and offers the look of a top tier calving ease option.
- He started with a moderate 79 pound birth weight and spread to nearly 650 pounds of adjusted payweight at the weaning pen.
- 510K ranks top 30% BW, top 10% YG, and top 25% REA.
- A suitable option for use on heifers.

RUBYS TURNPIKE 771E - Sire of Lots 20-22

- 79J is the first of several sons that are out of the famed HPF Victoria B396E, one of the great producing daughters of W/C Relentless 32C that was the high selling open heifer calf in the historic Hudson Pines Dispersal. "Vicki" has become a household name in production, producing countless high sellers across the country. We had the opportunity to acquire an embryo interest in this legendary female and never thought twice about it!
- 79J is a homozygous black and polled purebred that offers tremendous length, weight, and frame. He is among the breeds top 15% WW, top 15% YW, top 20% ADG, top 15% CW, and top 2% YG. He came to the weaning pen with an adjusted weaning weight of 836 pounds. A beef bull that will add performance without sacrificing maternal functionality.

AGE ADVANTAGED

lot 21 JWC KC2 TURNPIKE 153J

- 153J is another ET flushmate brother from the influence of the great "Vicki" sired by Ruby's Turnpike 711E. He is a bold bodied, loose hided, low input type herd sire prospect that is wide based and thick topped.
- The daughters of HPF Victoria B396E that have entered production are much like their donor dam in terms of udder quality, femininity, and calf raising capabilities.
- A homozygous black purebred that will sire cattle with more density and internal capacity. He ranks top 15% YW, top 15% YW, top 25% ADG, top 15% MWW, top 1% YG, and top 15% REA.

*lot* 25 JWC HARL CROWN VIC 19K

- Power, body, length, and shape! This son of the late \$400,000 Profit encompasses the fundamentals of beef production without sacrificing the added eye appeal that is in demand. JWC HARL Crown Vic 19K is an ET flushmate brother to the popular heifer calf that sold for \$55,000 this past fall in the Boyert-Core online sale.
- Another full brother to 19K, KC2 Net Profit, is working for Shane Ryan of Illinois. Jeremy Bottum of Tulare, South Dakota also employed a full brother that was the result of an embryo purchase by CK Cattle. A full sister, KC2 Miss Victoria 7H was purchased by the Trauernicht family of Nebraska.
- A logical option on February 17th if you're looking for the next herd sire for your program that will inject shape and power!

*lot* 26 JWC EXECUTIVE ORDER 382K

- JWC Executive Order 382K is a son of the legendary W/C Executive Order 8543B that is a direct son of the iconic Kappes Sadie T635. With nearly 100 progeny recorded to her name, T635 is one of the high income generating cows to ever work in the Kappes Simmentals program.
- 382K is a big, stout, high performing herd sire prospect that is soggy made and dense built. He recorded a weaning weight north of 700 pounds after starting at a modest 85.
- The E.O. daughters in production are absolutely breathtaking. Let this bull change the trajectory of your cowherd by enhancing udder quality, fleshing ease, and longevity in a single generation!

\$140,000 Maternal Sister to Lot 36

- Angus enthusiasts gather 'round! We have a special treat for you in the next three herd sire prospects that offer breed leading genetics and the phenotype necessary to improve further generations within the beef business.
- We initiate the Angus offering with an absolute STUD that is sired by the late legend himself, Silveiras Style 9303. He is backed by the influence of the famed FCF Phyllis 532, the dam of the 2022 NJAS Grand Champion Owned Heifer that was shown by Josie Phillips.
- A full sister to this herd sire prospect is the \$115,000 UDE Phyllis 9129 that was a many time National Division Champion. She has matured into one of the premier young females in the breed, expect to see big things from her in the years to come!
- Maternal brothers to this herd sire prospect sired by Profit have been dominant National Champions in Louisville, Oklahoma City, and Denver.
- A tremendous herd sire prospect that has the build, pedigree, and potential to make a big time influence the business!

UDE PHYLLIS 9129 - 2020 FWSS DIVISION CHAMPION

Sire of Lots 36 & 37

**NORD LUCY 8022**  
Maternal Sister to Lot 36

- JWC Bellagio 5121K is another Angus bull that is backed by a pedigree that is of royal status! A stout featured son of KR Casino 6243 that is supported by the famed PVF Lucy 1125, making 5121K a maternal brother to Nords Lucy 8022, one of the most widely admired Angus females of the last decade.
- Nords Lucy 8022 was the 2019 American Royal Supreme Champion Junior Breeding Heifer, 2019 NJAS Reserve Grand Champion Owned Heifer, and 2020 NWSS Reserve Grand Champion Angus Heifer for the Stagmeyer family of Nebraska. 8022 has become a dominant producer, raising several elite females and herd sire prospects over the last two years.
- With KR Casino 6243 semen being scarce and in high demand, what an opportunity to acquire a son that has the chance to make a mark on the breed!

Full Sister to Lot 37

- Stout, rugged, masculine – a true herd sire prospect that you’re going to want to study!
- Folks we believe in the power of cow families, and this entire sale catalog is proof that focusing on the maternal aspect of the equation will result in added consistency and quality. Here is an Angus bull that is from arguably the most elite Angus mating in the business! The KR Casino 6243 x KDJ Queen Ruth 502 mating has yielded countless high sellers over the last three years. This past fall four full sisters to this powerhouse commanded an average of \$183,000 per head!
- Other full sibs to 102K would include UDE Queen Ruth 9088, the donor for Weis and Lashmett that is known across the business as “Becky”. Another full sister is UDE Queen Ruth 0204, the many time National ROV Grand Champion that has evolved into a role model brood cow in production!
- If you’re in the market for an Angus bull that is backed by serious cow power – then you’re in the right place! We look forward to seeing each of you on February 17th to evaluate a set of bulls that we are very proud of!

*The Bred Heifers*

HPF VICTORIA B396E  
ASA: 3270188

*The influence of "Vicki" will continue to grow as we  
progress forward with future generations of progeny  
from this industry leading female!  
Owned with King Cattle Company*

*lot* 51 JWC ANGEL 126J

- This bred heifer offering is one that has been a lifetime in the making, truly just about every breeding decision, cow family and dollar invested into the JWC is reflected in some manner by the following females cataloged. We are proud to present this group that have been derived from our blood, sweat and tears.
- This initial pair of sisters are ones that light the world on fire in our mind, they combine the best of both worlds. Their sire, MR HOC Broker is one of the greatest breeding bulls in the history of not just the Simmental breed, but the business and his influence here has taken the potency of the Angel 2870Z legacy to another level.
- The maternal power of this duo is backed by the queen of our program, W/C Miss Angel 2870Z a female that has truly been a blessing, the once in a lifetime kind of breeding piece that we have built a program around. What is perhaps even more impressive is the track record that these 2870Z daughters have built while in the early stages of production.
- This next generation of Angel daughters foreshadow a breeding career just as elusive as their maternal sisters including, 7113E, 7114E, 7110E, 9005G & 7060E. These are females that work for the nation's most progressive programs, and this pair of Broker sired daughter's read with the same if not more generating potential then those that have gone before them.

W/C RED BIRD 269J - \$90,000 Full Brother to Lot 53

- JWC Angel 0204H is a purebred baldy that is built with all the style and pizzazz that you could ever imagine from combining two living legends in Bankroll 811D and Angel 2870Z.
- 0204H would be a littermate to the latest red hided phenom to evolve from our program, Red Bird 269J that Brandon Bird purchased for \$90,000 in 2022. We are excitedly awaiting his first progeny, ones we have huge expectations for. This genetic combination aligns phenotypic outliers, yet reads for consistency with the double shot of the legendary 8543U in her pedigree.
- The combination of feature and pedigree with Trident is sure to propagate a unique breeding piece in this first generation, there is a good chance that the breeds next leading calving ease stud is in utero.

W/C SWC HARRELL ANGEL 99G - Maternal Sister to Lots 51-58

- A MR SR 71 Right Now E1538 daughter that opens the door to a world of opportunities by offering a genetic package that allows for generating at the highest level. She is the kind that fits several different production goals and she ties together lots of unique pieces in one package.
- 101J is so burly and massive where it counts, yet remains square in her pin set and flawless on the move. You don't make cattle every day that have the presence of this one, a trait that comes from being a direct daughter of the legendary 2870Z herself.
- She's bred up to the sire of Trident, Bar CK 4118B 8102F "Triple Threat" and will likely have a calf at side for sale day. The genomic package that supports this calf will be remarkable!

*lot* 55 JWC ANGEL 133J

- PE 5/18/22-6/8/22 TO W/C JWC TRIDENT 9727J (ASA 3974393)
- Estimated Due 3/1/23

- In this business there are few certainties, but the profit generating predictability of the mating that stands behind these four flush sisters is just about as close as you can get.
- The Relentless 32C x Angel 2870Z combination will go down as one of the most potent genetic matchups in the history of our program, regardless of what the future brings! Full sisters to the four females that sell on February 17th include, Angel 7113E, the mother of the \$192,500 Bet On Red 481H, Angel 7114E, an up and coming donor that has proven to click to a wide array of sire choices, and Angel 7110E, Sara Sullivan's Third Overall Female at the 2019 Junior Nationals.
- The Angel 2870Z line has been the anchor of the JWC program, these direct daughters of the legend are proving to be the most valuable investment you can make in the Simmental business, not only do they generate cattle with outlier phenotype, but their progeny are proving to carry the same potent shot of heritable quality.
- We look forward to visiting with you about this set of sisters, they offer some differences in regard to phenotype and horn and poll status but all set the base for a cow family that is proven to yield tenfold.

W/C ANGEL 7113E - Dam of Lot 59

- A three quarter sister to one of the businesses most anticipated sires, Bet On Red 481H!
- This homozygous polled, purebred is built with the same unique feature and quality that has built the reputation of her cow family. She is a direct daughter of Angel 7113E, the \$240,000 valued female that highlighted the 2022 Embryos on Snow sale with half interest selling to King Cattle Company.
- In the Spring of 2021, Bet On Red 481H, the \$192,500 maternal brother to 106J captivated the minds of Simmental enthusiasts when he was selected by Griswold & Lambright. He went on to be featured on the front cover of the Griswold Cattle Sire Directory, leading to record breaking semen sales.
- A perfect ring eyed, baldy face just caps off the ideal build of this big bodied, perfect structured, maternal matron.
- The Bankroll daughters are shaping the legacy he will be remembered upon, this would be one of his best to come out of our program.

**JWC 7114 ANGEL 114J**

REG: 4070289 DOB: 3/15/21 PB SM

*lot* 60 JWC 7114 ANGEL 114J

- The build of JWC 7114 Angel 114J is indicative of the foundations this program is built upon, there may not be a phenotypic trait you would call her out for in terms of being extreme, but when it comes to pinpointing faults the decision making becomes more difficult. We love the silhouette this Bankroll 811D daughter paints, she is effortless about the way she ties together each of her fundamentals, so secure about the points she hits the ground with and exudes a look of elegance when your eye is caught by her front third.
- We believe the story this purebred, homozygous polled and black female is set to write will mirror that of the two females in her direct maternal pedigree. She ticks all the boxes we have set for selecting a program leading female.
- Long story short this is an opportunity to skip forward and take advantage of a proven cow family that has more than carried their weight in gold.
- She is carrying a late February pregnancy by Trident, a home raised derivative of the Triple Threat sire group that brings phenomenal phenotype and genomics together.

**MISS WERNING KP 8543U**

Influential matriarch that can be identified three times within the first three generations of Lot 60's pedigree!

**W/C BANKROLL 811D**  
Sire of Lot 60

*lot* 61 JWC 7114 ANGEL 124J

- JWC 7114 Angel 124J is homozygous black, homozygous polled and homozygous high quality. She aligns four shots of the highest grossing Simmental female in history with style and grace.
- Sired by the high selling VIP 005G, and out of the 7114E Angel donor, she truly is a product of the program, one that is built with longevity and maternal at the pinnacle. 7114E is the full sister to Bet On Red's dam that has shown to generate with just as much if not more consistency to a wide range of sires!
- 124J is super square, and neat in her overall design, she is maturing to show an udder design that will be ideal and carries herself with balance and femininity. We think Trident is the perfect mating on this cool built purebred, and you won't have to wait long after sale day to find out if our prediction is correct as she is due on February 26th.
- PE 5/18/22-6/8/22 TO W/C JWC TRIDENT 9727J (ASA 3974393)
- Estimated Due 2/26/23

*lot* 62 JWC 7114 ANGEL 105J

- JWC 7114 Angel 105J is a direct daughter of WINC Mahomes, a featured son of the legendary Surelock ZW15 that has been a staple source of performance genetics in the region for close to a decade.
- This stunning purebred baldy is homozygous polled, and out of the W/C Angel 7114E female that is quickly adding stripes to her resumé, that includes the two maternal sisters cataloged directly before 105J.
- She comes carrying a pregnancy by the legendary Night Watch 84E!
- PE 6/1/22-10/18/22 TO W/C NIGHT WATCH 84E (ASA 3336327)
- Estimated Due 6/4/23

*lot* 63 JWC DTC ANGEL 128J

- A homozygous polled and black purebred that combines the best we have to offer from a pedigree standpoint! This blaze faced beauty is balanced on paper, but it's the cow power and longevity that cowboy logic determines that makes her kind so desirable to us.
- She is good and square at the ground, coming with great udder quality and shows easy fleshing ability meaning that she is working every day towards making a profit.
- Her mother is a full sister to 7113E and 7114E, and was a successful show heifer in the ring for Sara Sullivan! She won her division at several national shows, and was most impressively slapped Third Overall Purebred Female at the 2019 AJSA National Classic.
- PE 5/18/22-6/8/22 TO W/C JWC TRIDENT 9727J (ASA 3974393)
- Estimated Due 2/25/23

*lot* 64 JWC 7060 ANGEL 0208H

- A bigger scaled, purebred daughter of W/C Fort Knox 609F that has an extra shot of power and mass, yet is long sided and eloquent. This blaze face has always been one to catch attention, weaning off at her dam at a staggering, 800 pounds.
- Her mother is a Utah x 2870 daughter that has entered the donor pen, she will be one that sees the limelight in due time. We think that this one will potentially add payweight from the maternal side.
- If you want to raise power bulls that maintain look and structure then seek out this stunner on sale day. This first year though she is coming with a Trident heifer calf!
- PE 5/18/22-6/8/22 TO W/C JWC TRIDENT 9727J (ASA 3974393)
- Estimated Due 2/25/23. HEIFER PREGNANCY

W/C ANGEL 9005G - Dam of Lot 65

- The apple doesn't fall far from the tree in the case of JWC 9005 Angel 121J. She is a direct daughter of Angel 9005G, the Sure Bet daughter that was one of the most talked about bred heifers to sell at public auction in the 2021 sale season and for good reason, because she is as uniquely built of a Purebred Simmental female as you will ever see.
- There is no doubt that the heritability of feature and quality is strong here. You will find that this purebred, blaze faced, Right Now daughter gives off the same intrigue as her mother, yet adds another degree of outcross pedigree, and genomic quality.
- Undoubtably a donor candidate that will provide results on either end of the spectrum.

W/C RJ MISS 8543 7039E - Dam of Lot 66

- A purebred red baldy that stands out from the crowd! There is no doubt that red hided seedstock are in fashion, and this gem would be one of the highest quality breeding pieces we have been around of that hide color.
- She is super square and symmetrical in her outline, with an ideal hind leg design and developing with a picture perfect udder setup.
- Another qualifying trait for donor status is her homozygous polled status, and impressive genomic package. The consistency of breeding potential is reassured with the double shot of the iconic, \$8 million producer, 8543U in her pedigree.

*lot* 67 JWC MISS 136J

- JWC Miss 136J is the only direct daughter of "Triple Threat" we will sell in 2023, but that's not the only distinguishing feature about this three quarter blood.
- She is the leading calving ease female in the offering with elite predictions for BW, CE & MCE yet still ranks above breed average for most of her performance traits. She further leads the offering from a marbling standpoint, and is top 10% of the breed for TI and top 5% API.
- The economic indicators we have for profitability all point towards this homozygous polled and homozygous polled female.
- *AI'd 5/22/22 to KBHR Honor H060 (ASA 3789447)*
- *Estimated Due 3/1/23*

*lot* 68 W/C MISS WERNING 129J

- GROWTH GENETICS.
- The bull raising kind, another one of the CEO daughters that will not only make her presence felt in the short term from raising high growth stock, but one that that have a long breeding career because of the added ruggedness and functionality of her build.
- She is wide at her base, bold up high, and explosive in her stifle. She goes back to a mating that has yielded results at the highest level, the Husker x 534R combination. Maternal siblings to 129J have sold to Jeff Miller, The Outback Ranch and Corey Easton.

- A pair of sisters that stem from one of most recognizable and successful Percentage Simmental females in history!
- RJ PF Rita 8288F, is one the most legendary SimAngus females of all time! She lived up to the hype of her \$164,000 pricetag in RJ's 2018 Pasture Sale, with wins from coast to coast, on the nation's biggest stages, culminating with the Superbowl equivalent win of Supreme Champion Female at the North American Livestock Exposition. It's hard to deny that she was the catalyst of the Bankroll phenomenon.
- These Family Tradition daughters are incredibly built, with a perfect outline, square pin set, swoopy underline and A+ grading for maternal and generating potential. The power is deeply embedded in the blood here.

- One incredible specimen! Truly one of the most fascinating breeding pieces we have laid our eyes on.
- Collison Forever Lady 145J makes us excited to be in the business, she is the kind that helps drive the passion when the going gets tough. Few animals can match the unrealistic proportions that this W/C Bankroll 811D daughter is built with. Impeccable in the lady like features of her front third, with a perfect head and neck carriage, ideal front third structure, and then extreme transition to a massive body cavity and ribcage. We don't know if you could paint one more perfect for the current state of the show heifer business.
- This half blood female stems from Angus royalty, and the Forever Lady cow family has been a pivotal building block to many of the National Champions that have been sashed in the past decade. The plans were for the mother of 145J to anchor our Angus program, but unfortunately she left us well before we could have planned, yet her legacy will be known in the short term with this special female.
- If you are as excited about this business as we are, then this is the kind to tie to, we look forward to being apart of this one with our new partners, because she is the program changing kind.

**OFFERING 50% EMBRYO INTEREST WITH NO POSSESSION.**

\$125,000 Half Interest Maternal Grand sire of Lot 75

- We think this one is pretty special, and she has made plenty of friends from the early visitors. We by no means are in the business of breeding our cows to solely make show heifers, however we do appreciate looking at, and breeding livestock that are uniquely built with beef cattle characteristics.
- This Fort Knox daughter blends together an eloquent front third, big sweeping rib cage and long yet defined muscle pattern. This is one you need to come and see in person to realize the presence she has been gifted, big things could come in the short term future of this perfectly marked, homozygous polled and black beauty.
- Her maternal pedigree is saturated with Angus royalty, originating with the legendary Lazy H Bar Forever Lady 5001!

2021 CATTLEMEN'S CONGRESS RESERVE GRAND CHAMPION JUNIOR ANGUS HEIFER  
Maternal Sister to Dam of Lot 76

- There's a lot to like about this big bodied and cowy daughter of MR SR 71 Right Now E1538, we can begin by talking about her fault free build that is correct from the ground up, she is dense and bold.
- After examining the phenotype check out the genomic data that supports her as she is curve bending in her growth pattern, flipping from top third calving ease to top 40% WW and accelerating to top 25% YW.
- The maternal value of this homozygous polled female comes from an eloquent built purebred Angus female sired by Plum Creek Paradox 161B.

*lot* 77 JWC MISS 144J

- Just about anyone who has taken home a Lock Down daughter in the past decade has made for a happy customer! It's hard not to like the job these functionally built, sound structured, extra maternal females do in the real world.
- Her mother is a result of the ET program, this Relentless 32C daughter is one of the young donors we are going to turn to heavily going forward, she carries the notoriety of the Sandy cow family, one that is etched among the legends of the Angus breed.
- PE 5/18/22-6/8/22 TO W/C JWC TRIDENT 9727J (ASA 3974393)
- Estimated Due 2/25/23

*lot* 78 JWC LILLY 146J

- The Lock N Load sire group has been a monumental one in the shaping of the Simmental breed, his quality has proven to be timeless, generating females that have stood the test of time and the fads and trends of the business.
- This direct daughter of the legend is a prime example of why the LNL x Angus mating has been an industry standard. JWC Lilly 146J is built for the long haul, and will start her prolonged breeding tenure with a Trident sired calf in the beginning of March.
- PE 5/18/22-6/8/22 TO W/C JWC TRIDENT 9727J (ASA 3974393)

SULL KEYMURA'S FIRST 4086  
 Member of the "Keymura Katy K006" Cow Family

HOFFMAN HCC KEYMURA KATY 09G  
 Maternal Sister to Lot 79

- A direct daughter of KR Casino 6243, a sire of attraction and distinction. He conforms to the all too common story of a sire that's demand way outreaches the supply, a demand that has been driven by the incredible set of daughters he consistently produces. Semen on Casino is highly sought after, averaging well over \$1000 a unit, and his most notable daughter of recent would be the Angus Show Heifer of the Year from the 2021-2022 show season for Rance Wheeler that dominated major shows from coast to coast.
- JWC Keymura Katy 115J is built with a picture-perfect outline, she encompasses the guidelines of the perfect built Angus female in our mind. Maternal in her underline, with a perfect built hind leg and ideal balance. She is backed by immense cow family, her mother, SLL Keymura Katy 2090 is a direct daughter of the legendary, Plainview Lutton E102 that goes back to the Steele Miss Kymra Katy K006 female that began the famed tribe.
- A maternal sister to 115J by Musgrave Sky Fall 1535 was the second high selling Angus female in the 2019 Hoffman Ranch Female Sale to our friends at Double Bar D Ranch of Canada.
- The backing of deeply rooted Angus cow families comes standard issue with this female.

SCC ROYAL BLACKBIRD GAF 112  
Maternal Granddam of Lot 80

- JWC Royal Blackbird 137J is unique in her proportions, moving from an impressively sleek and tight throated front third, back into a massive center body cavity and round ribcage.
- She gleams with a look at me kind of presence, a trait that elevates her into the category of show heifer producer in our mind! Her pedigree is saturated with some of the most reliable show heifer producing individuals in breed history, yet she still offers plenty of flexibility when it comes to breeding her to the popular sires of current.

*lot* 81 JWC JILT 131J

- JWC Jilt 131J screams brood cow deluxe! She is one impressive female that is incredible in her body shape and robustness of center.
- The Jilt cow family needs little introduction to followers of performance-based Angus seedstock, they combine reliable maternal value with impressive growth and power, they are the foundation of the Mohnen Angus cow herd in White Lake.
- High quality female that you could build a cow family around.
- PE 5/18/22-8/18/22 TO W/C NIGHT WATCH 84E (ASA 3336327)
- Estimated Due 3/20/23

*lot* 82 JWC 110J

- For what this Angus based female lacks in registration status she makes up for in regard to longevity of build, easy keeping fleshing ability, udder development and kindness of nature.
- A beautifully designed bred heifer that will be a producing member of the cowherd for a long time, the market is looking bearish, it is time to build inventory!
- PE 6/9/22-8/18/22 TO W/C BEST MAN 811H (ASA 3808130)

PVF MISSIE 8132

The Missie cow family has been one of the Angus breeds most reliable sources of maternal value, show ring eye appeal, structural integrity and profitability. This Penners-CC Double Black 2257 daughter combines all the ideals that we are building the program around, and we see her as a leading matron of the Angus program for the future. She is built with the outlier feature and kind that is recognized with banners in the showing, yet her lineage lacks the presence of any of the common pedigrees that you will find winning the breeds highest accolades. The closest tie to a "showring" pedigree would be via her maternal great granddam, P V F Miss Raptor 024 who is the maternal granddam of the legendary PVF Insight 0129. The two embryo matings that sell are ones that we are leaning on to lead our future Angus show heifer endeavors.

The \$60,000 half interest high selling bred heifer of the 2021 sale season. This JS Sure Bet daughter is as uniquely built of a Purebred Simmental female as you will ever see, anyone that has seen this specimen in person will share the fact that seldom do livestock come with this kind of silhouette and design. The genetic tree that 9005G stems from has seen many bountiful harvests, the Angel cow family has developed a reputation for consistently pushing the boundaries for elite phenotypic traits and generating ability and you will find that the early progeny of 9005G dictate that she is the next legend in line from the tribe.

The spotlight is turning towards the maternal power behind this set of exclusive mating! W/C Angel 7114E is the full sister to the mother of Bet On Red and the 3rd Overall Purebred Female at the 2019 AJSA Classic for Sara Sullivan. She is impressing in production, regardless of sire choice, she is a major component behind several of the live lots selling! You will find her sons selling as lots 11-14 and daughters as lots 60-62. OMF Journeyman J24 was one of the most impressive rookie herd sires to sell in the spring of 2022! Limited semen was released, but the list of cattlemen and women that invested in packages represents a list of the businesses most stringent and progressive breeders. Embryos sired by the \$110,000 Journeyman will place their new owner at the leading edge of this dynamic matron's legacy!

Truly one of the most exciting herd sires that has ever been raised in our program! Red Bird was the \$90,000 red sensation out of the 2022 Spring Bull Season that Brandon Bird added to the nations most elite Red Simmental sire battery. The pedigree of Red Bird combines two of the most notable individuals in the history of our program, and you could perhaps say the entire breed. This purebred comes from the crossing of the \$205,000 W/C Bankroll and the proven generator and National Champion, W/C Miss Angel 2870Z meaning there are two direct shots of the highest generating female in the history of the breed, 8543U.

Less than 250 units of Red Bird have ever been released to the public to date, and it has only been marketed via public auction. The plan remains to market this semen on a limited basis, as we eagerly await the first progeny coming this Spring. Those that have seen this stud in person will agree, it wouldn't matter what hide color he was born with, he is a phenotypic outlier! He is built with the "Angel" phenotype that has promoted this cow family into the breed changing kind, we think that the brightest days of the Red Bird legacy are yet to come!

We proudly present an opportunity to acquire semen on the \$300,000 high selling lot from the 16th Annual Embryos on Snow that was purchased by Bird Cattle Company of Lubbock, Texas. Pandemic joins the illustrious herd sire battery that backs the JCBB prefix.

TRCC Pandemic is the uniquely built, dark cherry red, soft haired son of the \$205,000 W/C Bankroll 811D. Those that have inspected TRCC Pandemic in the flesh have commented that he maintains the signature Bankroll presence, style, and shape, while offering more frame, length, and squareness of pin set than that of his extremely proven sire. Pandemic sets the bar when it comes to skeletal quality, form, and function. He is flawless in the way he ties his long sleek neck high into the top side of his neatly laid in shoulder, while transitioning into a full forerib and bold center rib cage. We love the hip and hind leg quality that Pandemic exemplifies as he sets to the surface with confidence.

The first calf reports indicate that he has transmitted the quality, shape, look, and stoutness that was expected, with the added hair quality as a bonus! His first set of daughters highlighted the May born division at RJ Cattle Company and Rosebud Cattle Company, they built anticipation for those that used him and have progeny coming this Spring, the eccentric look and wild features are proving to be highly heritable!

TRCC Pandemic is without a doubt one of the absolute most exciting red blaze face Simmental bulls to surface, he was used extensively in some of the top programs in the United States. *There remain no plans to place Pandemic semen on the open market, so take this as forewarning.*
