

Bayou Creek Ranch

# THE DISPERSAL SALE

October 4 & 5, 2023

at the Ranch in Lone Grove, Oklahoma

*"Only the Best"*

Welcome to the Bayou Creek Ranch Mature Cow Herd Dispersion; we are pleased that you are interested in Red Angus genetics. We do not take this opportunity to share our program lightly. We strive to promote the elite genetics of the Red Angus breed and deliver those to our producers. We focus on producing cattle that are structurally sound, uniform, and adaptable with extraordinary performance.

We are a family owned operation with ranches in Jacksboro, Texas and Lone Grove, Oklahoma. The Swan and Lewis families have a great passion for the cattle business. Agriculture has always been a part of our lives in one way or another. Over the past 5 years we have made key acquisitions to build the foundation of our cowherd. These investments have enabled us to build a more versatile donor battery that embodies the fundamentals of efficiency and maternal strength.

Kent Shankles oversees the operations at our ranch in Oklahoma. He and his crew have logged a lot of hours in preparation for this year's sale. We appreciate the dedication, knowledge, and commitment that they have invested in our program.

Please join us on Wednesday, October 4th for dinner at 5:00 PM with the sale beginning at 6:00 PM and on Thursday, October 5th at 10:00 AM. We will sell the bred heifers on Wednesday night and the spring pairs and bulls on Thursday.

Our sale includes a powerful set of age advantage bulls that have been developed to thrive in the toughest environments. If you have questions about the sale, please give us a call, we would love to visit with you about the cattle. Thank you for your interest.

Sincerely,

*Ken and Becky Swan | Jeff and Kori Lewis*

Optimism through adversity is one of the very important keys to seeing something through and meet goals set throughout life. Ken and Becky Swan along with their son in law and daughter, Jeff and Kori Lewis built a Red Angus program through two confirmed droughts, record heat, and have experienced record winter season adversity relative to geographical location as well. They have a set of stock that are built to fit any environment and meet the challenges that face them when introduced to new programs across the country.

When this program was established, they did not cut corners on buying the right set of cows. They went to the very best of the Red Angus breed and bought a program set of females. The Bayou Creek team then went on to invest in the best sires that they could find to run the pastures in south central Oklahoma and north central Texas. Jeff was aggressive initially with AI and ET but then realized how good the general population was and adopted turning bulls out instead and I think you will concur that the natural calves are as good if not better in quality than most aggressive ET programs within the breed.

Rest assured that this set of females has been sorted hard over the past three years for hoof quality, fertility, udder quality, and disposition. These cows are responsible for four successful bull sales as the male progeny marketed have been well received. Bayou Creek has scattered these bulls throughout the country. They run on the coastal plains of Texas, thrive in the tough winters of the northern plains, they have been successful on fescue, and worked in the desert southwest. The repeat bull business has been very good and most generally those buyers bring a friend or neighbor with them to acquire the product the next year. Bull buyers, this sale will feature those same, great, age advantaged bulls and you will have the opportunity to look at the younger studs to gather up and get them acclimated sooner to your environments and climates.

These cattle have not been pampered or fed in preparation for this sale. They are what they are, and we think you will like the way they look the first week of October. If you desire Red Angus stock with substance of foot and bone, cattle that have skeletal integrity and longevity, and cattle that have all the meat animal shape that you desire, then you need to make plans to attend this great event.

Bring the family, it will be an event that you won't want to miss. Visitors are welcome anytime leading up to the sale, just reach out to Jeff or any of the staff to schedule a visit. If you need help with any of the offering details or purchasing cattle feel free to reach out to the Innovation Marketing team or any of the auction staff. We will plan to see you at the North Ranch in Lone Grove, Oklahoma the first week of October.

Enjoy the cattle,

*Graham Blagg    Jared Shipman    Tim Anderson*

## SALE ORDER

Cattle will not sell in catalog order. A sale order will be available the week of the sale.

## DNA

All Bayou Creek Ranch herd sires have had DNA submitted to the Red Angus Association of America. Each breeding group has been noted on page 8.

## SALE LOCATION & DIRECTIONS

### 91 Fox Creek Rd - Lone Grove, OK 73443

- From US Hwy 70 turn south onto Cheek Road just west of Lone Grove, OK
- Travel 5 miles south on Cheek Road, turn right onto Rio Grande Road
- Travel 1.1 miles west on Rio Grande Road, turn left onto Fox Creek Road
- Travel 0.5 miles to Bayou Creek Ranch entrance on the right side of the road
- Once entering the ranch's overhead entrance follow the sale signs to the auction facility (approx. 2 miles from the entrance).

## TERMS & CONDITIONS

Cattle will sell under the standard Terms & Conditions as recommended by the Red Angus Association of America. All sales are final, and the cattle will become the property of the buyer when the auctioneer says "SOLD".

## HERD HEALTH

All animals in the sale are on a complete herd health program. The bulls have received Vista 5 (VL5), Vision 7, Dectomax in the spring of 2023, Safeguard in the fall of 2023, and Multimin. All cattle will be accompanied by proper health certificates for immediate interstate shipment.

## EPD's

The EPD's in this sale catalog were pulled from the Red Angus Association of America on August 15, 2023. For updated EPD's please visit RedAngus.org

## BREEDING SOUNDNESS EXAM

All bulls will be fertility tested and trichomoniasis tested prior to the sale and guaranteed to be breeders.

## LIVESTOCK TRANSPORTATION

Load out will be available at the sale facility following the sale. We will assist customers with trucking arrangements as needed. Our facility can accommodate has a loading chute to accommodate semi trucks.

Below are a list of recommended professional trucking options:

- Randy Lathrop: (847) 910-4673
- Dick Coleman: (765) 461-0954
- Brandon Bertsche: (815) 867-0547

## SUPPLEMENTAL INFORMATION

A supplement sheet will be provided the week of the sale with updated breeding information, corrections, and addition information. All announcements made from the auction block will take precedence over printed materials associated with this sale.

## LIABILITY

**By participating in any event planned and controlled by Bayou Creek Ranch, you agree to the following:**

- Bayou Creek Ranch events are provided with no special warranty either express or implied. The Organizers, including but not limited to Bayou Creek Ranch, its employees, Jeff and Kori Lewis, Ken and Becky Swan, and Innovation AgMarketing, LLC assume no liability for any loss, theft, damage, or injury to property or persons, including death, whether arising in contract, negligence, equity, or otherwise.
- You assume all risks when participating in Bayou Creek Ranch events. All participants must obey all rules and regulations of Bayou Creek Ranch and the laws of the State of Oklahoma. Participants must comply with all requests made by employees and agents of Bayou Creek Ranch. Bayou Creek Ranch reserves the right to eject any participant who does not comply with this section, and further, refuse entry to any participant. Refunds for any reason are at the discretion of Bayou Creek Ranch.
- All participants agree to indemnify and hold harmless Bayou Creek Ranch and The Organizers listed without limitation for any and all legal action arising from or related to a Bayou Creek Ranch event.
- All participants expressly give Bayou Creek Ranch authorization to use and post any photographs, videotapes, recordings, or any other record of our events, including full names of any participants, before, during, or after the event for promotional use reporting to the media, and to publish on our website or blog. Participants are not entitled to compensation for Bayou Creek Ranch's use of their name or image.
- We are not responsible for any typographical errors.

### VIEWING THE AUCTION

The auction will be broadcast online at Bid.SuperiorLivestock.com and the pre-recorded videos will also be hosted there. You do not need an account just to watch the auction or view videos of the sale offering.

### ONLINE BIDDING

Go to Bid.SuperiorLivestock.com for Superior's new online bidding platform. If you have not registered there before you will need to create an account. The first time you register an account you will receive a confirmation e-mail that you must click on. Once you have completed this, select the auction you would like to bid on and click the "Request a Buyer Number" button. The first time you request a buyer number you will be sent a confirmation code via text. Enter that code in the login portal and you will receive a buyer number. This 2-step verification process will only have to be done once and in the future you will be able to simply login and request a buyer number and receive it instantly for any auction. Once you have successfully registered and received a buyer number it will show your name and buyer number on both the video preview page and the online bidding page when you are logged in. If you have an account at LiveAuctions.tv you may skip the registration process and use those login credentials to request a buyer number as LiveAuctions is a division of Superior Livestock. For more details on registering an account and also how to bid, you may watch a tutorial at Bid.SuperiorLivestock.com/how-it-works

### TURN IN BIDS OVER THE PHONE

This is Superior's traditional method of buying cattle and is the suggested process for anybody who does not have consistent, high-speed internet. You still must register an account at Bid.SuperiorLivestock.com and request a buyer number. Once you receive a buyer number you will see the bid line phone number. Just watch the auction online and call in at least 2 lots ahead of the lot you are looking to bid on. A Superior Livestock representative will be with you on the phone and will assist you in placing bids.

FOR HELP WITH REGISTRATION OR ANY PART OF THE BIDDING PROCESS PLEASE CALL SUPERIOR AT (800) 422-2117.

# A Guide to EPD's

- HB** HerdBuilder is a maternally focused selection index that predicts the probability of developing profitable cowherd traits while maximizing the value of marketed progeny. Expressed as dollars per cow exposure, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained, and all remaining progeny are marketed on a quality-based carcass grid. (Index/High Value)
- GM** GridMaster is a terminally focused selection index that predicts the probability to increase the value of marketed calves. GM places selection pressure on growth, feedyard performance and carcass quality, predicting differences in profit as expressed per cow exposure. GM is calculated based on the scenario that bulls are mated to cows only, and all progeny are marketed on a quality-based carcass grid. (Index/High Value)
- CED** Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)
- BW** Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)
- WW** Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)
- YW** Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)
- ADG** Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)
- DMI** Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the postweaning period. (Pounds/Low Value)
- MILK** Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)
- HPG** Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)
- CEM** Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)
- STAY** Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)
- MARB** Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)
- YG** Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)
- CW** Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)
- REA** Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)
- FAT** Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

### LOT 1 - PIE FULLBACK 7005 SEMEN PACKAGE

PIE Fullback 7005 was our selection from the 2018 Pieper Red Angus Bull Sale where he commanded \$132,500. We loved the skeletal quality, density, and shear power that he offered to the breed. A direct son of PIE Cinch 4126, PIE Fullback 7005 is supported by a daughter by the \$50,000 PIE Code Red 9058, PIE Ms Patriot 536. He is a true breeding bull that has exceeded our wildest expectations in terms of his ability to sire real world, fundamentally correct cattle with the extra performance, eye appeal, and longevity that we can all appreciate. He posted an impressive data profile as a yearling when he recorded a BWR at 94, WWR at 106, YWR at 111, and a REA scan ratio at 103. Nearly 500 calves are registered to his name, with countless more that will be for programs that have utilized his service. We used PIE Fullback 7005 each season, sometimes in both our spring and fall calving programs to cover cows naturally. An exciting investment opportunity to acquire the remaining domestic semen inventory from the iconic PIE Fullback 7005!

*Offering 1,000 units of domestic conventional semen from the great PIE Fullback 7005.*

What a bull to lead off the WEBR Red Revival 78H sire group! 2398 is so good in his look and stature for a herd bull prospect. Has a huge spread from 70 pounds at birth to 1325 yearling. To top it off, his dam is the iconic PIE MS JR 0323 donor female. Progeny of 0323 have been among the featured individuals annually at Bayou Creek Ranch. He ranks top 14% CW, top 16% REA, top 19% WW, top 26% Milk, and top 35% YW. One of the best bulls to ever carry the BYU prefix!

WEBR RED REVIVAL 78H  
 Sire of Lots 29 - 46

**LOT 30 - BYU REVIVAL 2397 ET**

2397 is an ET flushmate full brother to the 2398 stud, and this guy deserves every bit the consideration as his brother. He's rugged in his build, full of shape and muscle, while still maintaining an attractive herd bull look. He's a tick more moderate in his individual growth than 2398, but still a bull to get excited about. He ranks top 26% Milk, top 26% CW, and top 28% REA.

This bull must be on the shortlist when discussing who is the phenotypic leader of the group. He combines everything you need in a standout herd bull! 2301 has the power, mass, skeletal build, balance, and eye appeal. This son of RREDS Seneca 731C looks the part, but also packs a punch genetically for growth and carcass improvement. Top 27% ADG, top 30% YW, CW, top 33% WW, and top 36% REA. A true sale feature!

3487G and 004G are new additions to our herd sire battery that we think a lot of! We had the opportunity to purchase this pair of ET flushmate brothers a year ago this fall from RJ Cattle Company of South Dakota following their heavy utilization on heifers in this breeding program. This pair of bulls are absolute studs in terms of eye appeal, cow family, and structural integrity! Their dam is the beautiful Pelton Miss 361B donor dam at Werning Cattle Company. They are ET flushmate brothers to the \$80,000 valued 9028G and the \$58,000 valued 9026G. Another ET flushmate brother, 018G, is working in the Fort Hays State University breeding program. We strongly believe in the genetics that support this pair of herd bulls, and we look forward to hearing the success stories that will follow them into the future!

Holton Commander 227K is the PIE Quarterback 789 paternal grandson that we selected from the Holton Cattle Company Production Sale this past spring. His pedigree aligns some of the top maternal greats in the Red Angus breed. His sire, PIE Commander 0100, is a son of C-Bar Abigrace 636D, a full sister to the \$105,000 9 Mile Franchise 6305! The maternal side of his pedigree again traces to Spur Franchise of Garton, the outcross Black Red Carrier carcass sire. The maternal granddam of 227K is the impressive C-Bar Ms Stony A302, phenotypically the most impressive female to ever carry the C-Bar prefix. Top 7% WW, top 2% YW, top 1% ADG, top 5% Milk, top 7% YG, top 4% CW, and top 2% REA. Power in the blood!

Check out this son of Red U-2 Reckoning 149A that is backed by the influence of CRSL Goldmaster X74 from the WEBR Emily 1135 cow family that calls home to Lake Benton, Minnesota. He recorded a WWR at 102 and an impressive IMF scan ratio at 128! He ranks top 11% Milk, top 19% CW, top 25% HB, top 25% CEM, top 26% ProS, top 27% REA, top 38% WW, top 43% GM, top 44% YW, and top 48% Marb.

WEBR EMILY 1135  
Maternal Granddam of Lot 117

**LOT 118 - 4MC STRONG SIDE 0403**

We selected 4MC Strong Side 0403 from McEntire Red Angus in Sweetwater, Oklahoma. There is no question that he offers the optimum blend of phenotype, performance, and eye appeal. We love the structural integrity and athleticism that he offers. A true breeding bull that offers the fundamentals. He is the service sire to many of the bred heifers in this sale offering. He ranks top 13% REA, top 28% BW, top 31% CW, top 35% CED, and top 40% ADG. An exciting young herd sire that is backed by a pedigree lined with cattle that have to earn their keep year after year!

Duff Red Man 18108 2036 is a dense made, heavy duty built herd sire that we purchased from Power Plus Genetic in Oklahoma. We love his body mass and the capacity that he offers. He is a complete and total outcross to our cowherd, offering a different genetic twist heavily saturated with powerful Canadian genetics. His paternal grandsire is the legendary Mann Red Box 55C. A calving ease option with elite maternal ties!

414K is the result of an ET pregnancy that we purchased out of the legendary MNS Pearle 3121 donor dam. She is the dam of the 2019-2020. Triple Crown winning Red Angus female that was campaigned by Hadley Hartman. EDG Finley 3121 was ultimately the 2020 American Royal Supreme Champion Junior Breeding Heifer, finishing her career as one of the most decorated Red Angus females of all time! Several other maternal sisters to this female have been very competitive for those that have invested in the genetics from the Edge family and Udell Cattle Company, including the 2023 NWSS Reserve Grand Champion Red Angus Heifer, UDE Pearle 224K. A unique genetic opportunity here! Top 27% WW, top 39% REA, top 43% YW, and top 48% CW.

Pedigree, pedigree, pedigree! BYU Tilly 0003 ET is a stunning daughter of the tried and true herd sire at Bayou Creek Ranch, PIE Fullback 7005. The dam of 0003 is the legendary Bieber Tilly 399W, the dam of Bieber Rollin Deep Y118. This maternal sister to Bieber Rollin Deep Y118 is a true genetic gem, supported by one of the premier cow families in the breed. 399W has been a high income producing female for Bieber Red Angus and Pieper Red Angus with nearly 100 progeny recorded to her name in the Red Angus database. Unique breeding piece!

BYU Lakota 0020 ET is another daughter of PIE Fullback 7005. This female is supported by PIE Lakota 046, the dam of PIE Stockman 4051 and PIE Opportunity 3041. Countless high sellers and sale features over the last few years at Bayou Creek Ranch were sons of PIE Lakota 046. Help yourself to a female that is supported by true genetic consistency and longevity!

PIE Fullback 7005 has been a staple in our breeding program. The sons have been well received by commercial producers and registered breeders alike, however it is the daughters that are his greatest achievement to date. We love the udder quality, maternal strength, fleshing ease, and fertility that they offer. 0044 is a tremendous young female that produced a son by Damar Next D852 last year and has a high quality heifer calf by PIE Stockman 797 this year!

Sells exposed to PE sires in Breeding Group #2.

Another maternal sister the legendary PIE One Of A Kind 352 that is sired by the impressive PIE Fullback 7005. We love the consistency of this mating, regardless of sex. The bulls have been at the forefront of our past sales and the females always seem to surface in production. PIE Fayette 1160 is one of the cornerstone females that we anchored our breeding program around. Don't let this unique genetic opportunity pass you by!

1123 represents a unique blend of maternal genetics and would certainly be an outcross for many breeding programs. She is sired by the Canadian herd sire that we have utilized at the ranch for several years, Red U2 Rendition 340D. Her dam is a female we purchased from Cloud 9 Cattle Company that is sired by the Black Red Carrier son of Musgrave Aviator, RRA Aviator 502, from the famed RRA Rachel 246 746 cow family at Rich Red Angus. She is further supported by the great DFRA Bonnebell N327 donor dam.

 BYU RED ANGUS BYU RED ANGUS

*Due to calve 1/20/24 to ERKS MULBERRY 9918 (RAAA 4137398). PE to Breeding Group #2.*  
 The next female sells safe in calf to ERKS Mulberry 9918, a direct son of the legendary Red Fine Line Mulberry 26P. 9918 was raised by Erquiaga Cattle Company of Western Nebraska and purchased by Thomas Ranch and Bradley Cattle Company. We had seen progeny of this young herd sire and were impressed with the results. Dr. Jeff Erquiaga has a tremendous cowherd and a keen eye for quality. This combined with the fact that two great cattlemen, Troy Thomas and Bruce Bradley, invested in this bull made the decision to utilize his service a no brainer! You'll love the performance and fleshing ease that the sons offer, while the daughters are the front pasture kind!

## BYU RED VAL 0033

*Due to calve 2/18/24 to 4MC STRONG SIDE 0403 (RAAA 4413319). PE to Breeding Group #2.*  
 What a female that we lead into the 2020 model spring bull calf pairs with! BYU Red Val 0033 is tremendous daughter of PIE Fullback 7005 that is supported by the influence of Red Northline Trueblood 341T on the south side of her pedigree. She offers breed leading growth and performance to accompany her extra body and volume. She posted an impressive WWR at 131 and a YWR at 116! Her bull calf by Bieber Gladiator C386 is a true standout that offers the credentials of a herd sire. This pair is definitely one to pay attention to on sale day. 0033 was a female that we had slated for the donor pen one day.

Due to calve 2/18/24 with a heifer calf by BIEBER SPARTAN E639 (RAAA 3762927). PE to Breeding Group #2.  
0105 is sired by the two time NWSS Reserve Grand Champion, KJHT Power Take Off and out of a direct daughter of the legendary Damar Mimi W085. The maternal granddam of this female is one of the high income generating females in the Red Angus breed. Her pedigree also aligns the influence of Brown Ms Abigrace L7730, a female that has produced well over \$1 million in progeny sales and continues to leave an impression on the Red Angus breed. Maternal greatness lines her pedigree! She is confirmed with a heifer calf on the way sired by Bieber Spartan E639!

Due to calve 1/19/24 to 9 MILE FRANCHISE 6305 (RAAA 3555188). PE to Breeding Group #2.

BYU Montana 9059 is an easy keeping, productive female that has done an exceptional job for our program. This past year she has brought one of the stoutest herd sire prospects to the weaning pen. She was the recipient dam of BYU KOTC 3349 ET, a son of PIE Janet 1065 that is sired by the \$210,000 valuation 4MC King Of The Cowboys 706. There is no question that 3349 is one of the best bull calves that we have produced to date. Study the shape, performance, and eye appeal that he possesses!

Due to calve 2/24/24 to PE sire in Breeding Group #2.

Here is a straight Canadian bred female that is a daughter of Red U-2 Recon 192Y and from the legendary Red Flying K Anexa 59N donor dam. 8037 is among the top 22% CED, top 25% BW, top 12% DMI, top 4% ME, top 25% Marb, and top 20% Fat. Her son, BYU Stockmarket 2325, is one of the premier herd sire prospects to sell this year. In 2022 a son by PIE Fullback 7005 was purchased by Double C Cattle Company. This cow does not miss!

PIE MS JR 0323 does not miss, it's just that simple! Here is another daughter of the cornerstone matriarch that is sired by the \$105,000 9 Mile Franchise 6305. This female is one that is angular with the extra volume and capacity that we admire. 8064 is a maternal sister to the lead off female in the bred heifer division, as well as several other females that highlight their year model groups within this sale offering. 0323 is a premier cow family that is also responsible for producing the \$31,000 BYU Red Baron 1333 ET, the high selling bull in last year's sale. She has several progeny represented throughout this offering that would include BYU MS JR 0036 and BYU Revival 2406. 8064 is following in the footsteps of her very prolific donor dam!

Due to calve 2/26/24 to PE sire in Breeding Group #2.

J702 is a balanced female sired by Bieber Deep End B597. Her dam is sired by Red SSS Arson 85U and further traces to Red Fine Line Mulberry 26P. She ranks top 20% ProS, top 3% GM, top 6% WW, top 5% YW, top 5% ADG, top 11% Milk, top 4% HPG, top 4% Marb, top 1% CW, and top 6% REA. She posted a WWR at 110 and a YWR at 117. Sons of J702 would include BYU Reckon 9330, a Red U2 Reckon 296D son purchased by Collier Farms. Her son born in 2022, BYU 90G One Of A Kind 2355, a herd sire prospect featured within the aged advantage bull division. She did it again in 2023 with a son by BYU Red Revival 78H that is definitely herd sire material! Bid with confidence – this female is the real deal!

PIE Payweight 418 has done an exceptional job of siring females that can flat get the job done in the pasture! They are easy keeping, highly fertile, low input type females that always bring a big calf to the weaning pen. 7406 is backed by a daughter of PIE Hoss 5106. A son of 7406 by PIE Just Right 7190 sold to Dan Selz in 2020. Another son by Red U2 Reckon 395D was marketed in 2021, and her calf this past year sired by PIE Fullback 7005 also sells. A productive female that earns her keep year after year!

PIE Pan Ann 7382 is a dark red daughter of 4MC Night Watch that is backed by the 145 matron, a direct daughter of PIE Gridmaster 589. She ranks top 26% HB, top 13% Stay, top 12% YG, and top 21% REA. Triple R Ranch has a son by PIE Fullback 7005 employed in their program. 7382 has also put several daughters back into production. This is a surefire investment opportunity to acquire a female that earns her keep year after year. In fact, her bull calf at side might be the best she has ever produced!

Due to calve 2/16/24 to PE sire in Breeding Group #2.

C9CC Blossom E119 ET is a daughter of the legendary Red Soo Line Power Eye 161X. She is out of the Damar Berry Blossom X207 donor dam that traces to the foundation donor dam, DFRA Bonnebell N327. She ranks top 12% CED, top 34% ADG, top 20% HPG, and top 16% CW. She has raised a pair of twin heifer calves during her rookie season of production. She then produced another heifer that went to the replacement pen and has a bull that will be marketed in this year's sale alongside her. Consistency is key!

PIE MS JR 0323 is the direct daughter of the proven TPIE Wagonmaster 753 from a dam sired by the proven quality enhancer, PIE Atlantic 2204. She has done the job in her tenure here at Bayou Creek. She is certainly bred for balance across the board and raises the bar for phenotype and shear quality. This experienced producer is still youthful in her numeric profile relative to her genetics with a top 14% for YG, top 26% for REA in combination with top third maternal expectations for Milk, ME, and HPG as well. Buy with confidence, the most proven are never the younger ones.

*Open & Ready for Embryo Production.*

PIE Lakota 046 is an absolute powerhouse! Check out the power, substance, and body that this female offers at her age. She is the type to build a program around based simply on her longevity, fleshing ease, and fertility. She maintains an elite number profile that positions her among the top 16% ProS, top 19% GM, top 10% CED, top 25% BW, top 20% WW, top 20% YW, top 20% ADG, top 1% CEM, top 20% Marb, and top 25% Stay. She has produced several sale topping bulls at Bayou Creek Ranch. PIE Lakota 046 is most commonly known as the dam of the impressive PIE Stockman 4051, a past high seller at Pieper Red Angus that was purchased by Bradbury Cattle Company and Bieber Red Angus. A prime opportunity to tap into an elite gene pool!

*Open & Ready for Embryo Production.*

The matron that has placed a firebrand on the Bayou Creek foundation. PIE Tilly 9117 has a load of daughters and granddaughters throughout the offering. Her story is written and told through those female progeny, but the successes of her bull progeny are noted by the appraised value that some of the nation's most aggressive and best managed ranches and institutions were willing to pay for those cattle. Like their dam, they have stood the tests of time and ranch life. 9117 is in the top 12% for HB with an impressive top 4% for Stay, and offers maternal balance in regard to CEM and Milk. She's the real deal that maintains generating potential.

As we get into the older matriarchs one must mention that they are here, still, for the simple reason that they punched their card by producing greatness year after year. This direct daughter of the legendary PIE Code Red 9058 from the famed PIE Polly 7052 Cow Family is no exception to the opening statement. Her numeric profile has stood the test of time just as her phenotypic quality. She is very impressive as far as her index values with top 17% for HB, top 18% ProS, with EPD values in the top 9% for STAY, top 14% Marb, and top 18% Milk.

*Sells exposed to PE sires in Breeding Group #2.*

This female was selected by Bayou Creek from the very elite program known as TC Reds of Wisconsin. She was the featured bred heifer last December in TC Reds awesome female offering. Her kind, her balance, her body, and her overall quality captivated the attention of those good cattlemen that enjoy the look and presence of a front pasture kind. This female is bred with a different twist and would be a total outcross to much of this offering. Looking for something unique or different genetically then set the satchel down and own her.

*Due to calve 3/1/24 to WDRST VALOR 270 (RAAA 4681241).*

The direct daughter of AHL Flashback 446B that topped the female offering for Smoky Y Ranch a few years ago. She is the big growth female of the offering as she posts ratios for weaning at 108 and 103 at a year. She is also equally aggressive on paper as she charts the top 1% for WW and top 10% for YW. She's still quite a lady and one that is ready to make a quick return on investment for her new owner.

Here's the MANN Red Box 55C x PIE Tilly 9117 daughter that will cause a stir. Top 17% of the business for Milk. This dark cherry red beauty is an absolute powerhouse! We love the dimension, power, and shape that she offers. A beautiful profiling female with an abundance of volume and capacity to compliment her balanced look. Her dam, PIE Tilly 9117, is one of the premier females in the donor pen at Bayou Creek Ranch. This female is the kind that programs are built around!
