

THE MORIONDO FARMS & MM CATTLE CO.

ANNUAL PRODUCTION SALE

NOVEMBER 4, 2023 AT 1:00 PM

at the ranch in Mount Vernon, Missouri

Fellow Cattlemen and Cattewomen,

What a time to be in the cattle business! We are equally as excited about these feeder cattle markets as we are about this set of bulls! The beef cattle industry is finally getting to reap the benefits of the hard work and money that we all have poured into our cow herd! Now is the time to put pounds on the ground and on the truck! We are very happy to invite you out to our Annual Fall Bull sale November 4, 2023. We have a very stout set of 18+ month old Angus and SimAngus bulls. Alongside those bulls will be an elite set of commercial spring bred females from the heart of our commercial cow herd, AI bred to the leading heifer bull at Genex, E&B Wildcat!

The SimAngus bulls are ground pounders! The mass and power that these bulls possess is second to none and the depth of quality throughout them runs very deep. They define what we are about here at Moriondo Farms. They are functional, powerful, sound, balanced cattle that are going to work for you. Power bulls sired by TJ Brutus 428H, TJ Chief 460G, OMF Epic E27, and several others will sell. Alongside their breed leading EPD's, these bulls are long bodied deep sided and will blow you away with their muscle mass. In addition to these power bulls that will add pay weight are a solid set of SimAngus heifer bull candidates that are sired by TJ Nebraska 258G, and our in house heifer bulls BAR CK 4196B 922G, We have all the confidence in the world in these heifer bulls to sire a nice sized calf from your heifers that will hit the ground running! Put pounds on the ground and push down the scales at the sale barn with those steer calves...Think SimAngus!

Again in 2023, the Angus bull offering is loaded with quality! Numerically and phenotypically, they are the kind through and through! Bulls sired by GAR Ashland, THE WR Growth Fund 140H, Conley Verified 0853, Conley Validate 0110, and K C F Bennett Exponential to highlight a few of the represented sires. These bulls offer a very complete package and are backed by the "elite of the elite" Angus cows in our herd! Buy with confidence and keep every daughter. The bred heifers are coming right out of the heart of our commercial cowherd, these girls are handpicked and built to last! They are pelvic measured, and AI bred to set them up for a lifetime of success. They are bred to E&B Wildcat, his semen has been hard to get ahold. Take these girls and cash in the coupon and let them go to work in your program!

Our dedicated crew continues to blow us away every year with their hard work and dedication, Nathan and the entire staff here in Mount Vernon put their heart into it every single day and we are so very thankful for them! We continue to keep our customer's bottom line as our main objective, we slow grow our bulls with a high roughage diet. We do not push these animals, which in turn helps make these bulls last like they should. It is why we have the confidence in these bulls to offer a full year guarantee! We have continued to invest in new genetics to offer the very best product possible for our loyal customer base.

We are very appreciative of our past customers and the new ones to come! We take great pride in your confidence to invest in our program and the belief that you have in our bulls to produce your next generations of calves! Come join us for lunch and take a look at these studs on November 4, you won't be disappointed! Call Nathan or I anytime, we are here for you and will be glad to show you around!

Thanks again and God Bless,

Mark Moriondo

Welcome

It is our pleasure to welcome all cattle enthusiasts to the Fall 2023 Edition of the Moriondo Farms & MM Cattle Company Annual Production Sale. Rest assured that your interest will lead to doing business with a family that represents full circle production agriculture. Cattle, row crops, and turf are the entities that make the world go round at Moriondo Farms. Larry, Rita, and those before them laid the foundation for the next generation and as Mark and Miranda become more involved in the day to day, we guarantee you that this outfit will be around for the long haul and are committed to their customer's success!

Mark takes great pride in what he does on a day-to-day basis with the cattle operation. He is always searching for the next bull that can impact their own program to make a larger impact on the program that you operate with intense genetic selection. The criteria is not only based on true weight and performance measurements, but the end product is in mind as well. The team here has also intensified the incorporation of carcass and maternal balance, thus ensuring that the daughters you retain from your investment in sire power will certainly be the keeping kind as well. These cattle are built and generated with a commercial mindset with common sense and practical cowboy knowledge and experience.

The sire groups represented are proven for both breeds and have substantial resumes suitable for the beef business. They have incorporated some of the most proven and elite bulls in the industry that represent both breeds. SimGenetic sires like OMF Epic E27, TJ Chief 460G, TJ Gold 274G, TJ Nebraska 258G, MR SR Highlife G1609, and the influence of the legendary CCR Cowboy Cut 5048Z can be identified throughout the offering. These SimGenetic bulls start light at birth with a significant amount of vigor followed up with industry ideal preweaning growth at every measurable angle. Take advantage of the most affordable tool in the ranching business regarding heterosis. Southwest Missouri and their fescue belt neighbors in all directions always prefer the influence of the "good stuff" that the Angus breed has to offer. Bulls like G A R Ashland, K C F Bennett Exponential, and Basin Rainmaker 4404 have sired an outstanding set of Angus bulls for your appraisal at Moriondo Farms. New in 2023, we will proudly offer the first sons by the \$77,500 Conley Verified 0853 and Conley Validate 0110, both herd sires that Moriondo Farms invested in at the 2021 Cattlemen's Congress National Angus Bull Sale. Those that have been customers for years will see and attest that this is the very best set of Angus bulls the family has offered to date. Options for maternal and performance exist in this intimate offering of Angus beef studs. Proven and cutting-edge options are available November 4, 2023, regardless of breed preference.

Please consider this your personal invitation to join the Moriondo family for the Fall Edition of their Annual Bull Sale series. Hospitality is always first rate and the company providing it are some of the best people this business has to offer. If you should need any assistance or direction on the offering to make the best decision possible for your operation, please feel free to reach out to the Innovation AgMarketing team for those needs. With that said, please enjoy the stock and we look forward to seeing you on the first weekend of November at the Moriondo Farms Sale Facility.

Enjoy the cattle

HERD HEALTH

The Animal Clinic of Monett, Dr. John Tyra, DVM (417) 235-4088

SALE SCHEDULE

Friday, November 3, 2023

Cattle available for viewing all day
6:00 PM - Pre-Sale Dinner

Saturday, November 4, 2023

Cattle available for viewing all morning
12:00 PM - Lunch & Refreshment
1:00 PM - Annual Production Sale

VIEWING THE AUCTION

The auction will be broadcast online at Bid.SuperiorLivestock.com and the pre-recorded videos will also be hosted there. You do not need an account just to watch the auction or view videos of the sale offering.

ONLINE BIDDING

Go to Bid.SuperiorLivestock.com for Superior's new online bidding platform. If you have not registered there before you will need to create an account. The first time you register an account you will receive a confirmation e-mail that you must click on. Once you have completed this, select the auction you would like to bid on and click the "Request a Buyer Number" button. The first time you request a buyer number you will be sent a confirmation code via text. Enter that code in the login portal and you will receive a buyer number. This 2-step verification process will only have to be done once and in the future you will be able to simply login and request a buyer number and receive it instantly for any auction. Once you have successfully registered and received a buyer number it will show your name and buyer number on both the video preview page and the online bidding page when you are logged in. If you have an account at LiveAuctions.tv you may skip the registration process and use those login credentials to request a buyer number as LiveAuctions is a division of Superior Livestock. For more details on registering an account and also how to bid, you may watch a tutorial at Bid.SuperiorLivestock.com/how-it-works

TURN IN BIDS OVER THE PHONE

This is Superior's traditional method of buying cattle and is the suggested process for anybody who does not have consistent, high-speed internet. You still must register an account at Bid.SuperiorLivestock.com and request a buyer number. Once you receive a buyer number you will see the bid line phone number. Just watch the auction online and call in at least 2 lots ahead of the lot you are looking to bid on. A Superior Livestock representative will be with you on the phone and will assist you in placing bids.

FOR HELP WITH REGISTRATION OR ANY PART OF THE BIDDING PROCESS PLEASE CALL SUPERIOR AT (800) 422-2117.

BID.SUPERIORLIVESTOCK.COM

*Our guarantee to you and
commitment to service.*

OUR GUARANTEE

We guarantee that all bulls sold through our sale are fertile to the best of our knowledge. If a bull is injured anytime in the twelve months following the sale, that makes him functionally infertile, we will provide a replacement bull or issue a credit in following sales, equal to the purchase price minus the salvage value received for your bull. This is not a life insurance policy. The guarantee is in addition to the sale terms and conditions of the American Angus Association which apply also.

CUSTOMER SUPPORT

We believe in the cattle we are producing here and believe in the cattle that you are producing at home. When the time comes for you to market your calves, however that may be, if interested call myself and let me know your plans with your cattle and see if we can assist or bid on your calves however you may sell them. Extending every dollar in the cattle business is how it is made, and we would love to help if we can

4TH ANNUAL SPRING TURN-OUT SALE**

The First Saturday in March 2024

MISSOURI SHOW-ME SELECT REPLACEMENT HEIFER PROGRAM

The Show-Me-Select® Replacement Heifer Program uses the latest research on health, nutrition, genetics and reproductive science to ensure Missouri counties continue to be national leaders in providing quality beef. The program focuses on Missouri's farmers and is dependent upon active participation from regional extension livestock specialists and local veterinarians, each of which are critical components of the agricultural sector of this state.

This program is unique in that it is an educational program targeted at improving production efficiency through increased use of existing technology, coupled with the marketing component.

Program Objective:

Improved heifer development programs through a Total Quality Management strategy
Increased marketing opportunities for and added value for Missouri-raised heifers
Creation of reliable sources of quality replacement heifers based on management, reproduction and genetics

Genetic Requirements:

Sire requirements: Eligible sires must have known ID, be registered by their respective national breed registry, and have complete EPD (opens in new window) information. Sires will be evaluated for qualification in the program based on the EPD provided by their respective breed registry and not on EPD produced by progeny registration in any other breed or hybrid registry.

Angus minimum Calving Ease EPD of 7.0

Simmental and SimAngus minimum Calving Ease EPD of 14.0

ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

Aim High

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the *Certified Angus Beef®* brand.

Only 1 in 4 non-parent Angus bulls qualify.

Minimum Genetic Requirements

Marbling EPD (Marb)	+0.65
Dollar Grid Carcass Index (\$G)	+55.0

For more information on Targeting the Brand™ visit CABcattle.com.

Here is a powerful individual that offer exceptional shape, length, and scale. He is out of a very productive female that we lost prior to realizing that DNA was not on file. 2041 is a Purebred Angus that sells as a non-registered bull, but don't let that take away from the extra mass, power, and substance that he brings to the table. A real beef bull that will sire heavy weaning steer progeny and top shelf replacements alike.

Commerical Female Offering

Moriondo Farms Bred Heifers

Moriondo Farms is proud to present to you a set of spring bred heifers straight from the heart of our herd. These females have been bred on for 30 years now and will carry on the traditions that we hang our hat on. 30 heifers have been pelvic measured, and AI bred on 5/8/23 to the Genex standout, E&B Wildcat 9402! These females are due to calve starting on 2/15/24. The work is done on these girls, what better time in the cattle business to expand than now!

Come and take a look!

Fescue bred, born, & developed!

Information concerning the veterinarian preg check status of each group of heifers will be available the week of the sale. For more information, please contact Mark Moriondo (417) 366-1249.
