

HILLTOP

— SIMMENTALS —

November 10, 2023 • Six O'Clock In The Evening

WORTHING, SD

welcome

There are few people in the business that have had the enthusiasm & persistence that Jaron has shown towards building a nationally reputable program. Not only has significant knowledge, toil & financial sacrifice been made to get to this point in the Hilltop Simmental program but a significant faith in trusting the process and only settling for the best has yielded the product you see today. We are excited to help showcase the product that Jaron and his first-class crew have tirelessly worked on putting together, and just know that this program remains in the building phases of the process, yet they are opening the heart of the cowherd and allowing access to the cream of their bred heifer and open female crop.

No doubts can be made about the commitments and support that Jaron has put into the Simmental breed; the Hilltop program has already been involved with numerous legendary individuals in the breed and made it evident that no ceiling is too high when it comes to procuring the absolute most elite genetics that are made available. Make sure to read through the pages of the offering, paying attention to the maternal lineage of these females, it continually becomes more evident that cow power and consistency rules supreme in the successfulness of a cowherd and program. In that regard you will struggle to find a group of bred females to sell with a more diverse set of cow family prevalence than the ones that will sell November 10th in Worthing, South Dakota. Please take this as your personal invitation to join us at the ranch for sale day!

HILLTOP — SIMMENTALS —

We would like personally invite you to the 3rd Annual Female Sale at Hilltop Simmentals in Worthing, SD. We have put together a great set of cattle for your appraisal. We put a lot of thought and consideration into this breeding program, all to help further other breeders and commercial herds.

We have invested heavily into breed leading herd sires and cow families here at Hilltop to provide power and consistency. A herd sire we currently run is ES Right Time FA110-4, who is no stranger to the breed. He has bred above and beyond our expectations, we are excited to watch his heavy influence on our herd grow. Proof being the two best heifers we have ever raised being Right Time daughters! I have no doubts they will be a big part of the Simmental breeds future!

Developing heifers is something we take a lot of pride in. From the time we decide which heifers make the replacement pen, to how they perform on our ration. We believe in strong and proven genetics to back our females produced here at Hilltop! We have learnt first-hand that if the heifers have been developed on a hot ration, they will not hold up and not be a good producing cows for the new owner. They are on a pretty basic high roughage ration with a really good mineral program.

We want to thank you for taking the time to read through the catalog, and would love to see you here with our family and friends!

We are happy to help arrange affordable and reliable trucking options for our customers. Please contact us following the sale for further assistance.

TERMS & CONDITIONS

All cattle sell under the Suggested Terms and Conditions of the American Simmental Association. View updated guidelines and conditions at www.simmental.org. Announcements made sale day from the block take precedence over printed material in this catalog. Payment will be accepted in the form of cash, cashier's check, or check. All cattle must be paid for prior to release and transfer.

RISK

Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury, and will be loaded according to purchaser's direction.

LIABILITY

Neither owners nor sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents.

- Two maternal sisters that stem from the maternal power of a female we have always idolized in the 2013 National Western Grand Champion Simmental Female, WHF/PRS/HPF Alley 247Y that was the high selling female in the historic Hudson Pines Farms Dispersal at \$81,000. 247Y has become a household name for many Simmental breeders, because not only did she claim championships in her own right, but she has gone one to produce at the highest level.

- The combination of Alley 247Y with the National Champion Percentage Bull, FHEN Halftime A127 has created a phenotypic outlier! We think this high percentage female is something special, and is a quick favorite for those who have been through the sale pen. This one alone will make the trip to the ranch worth your while!

WHF/PRS/HPF ALLEY 247Y

Dam of Lot 3 & 4

• Regardless of mating thrown her way, 247Y has clicked, generating both Purebred and Percentage cattle that have topped sales and won purple. High sellers include daughters sired by Colburn Primo 5153 at \$43,000, \$26,500 and \$20,000 the first of which was the Supreme Champion Female at the 2019 TN Beef Agribition. The list continues with price tags of \$37,500, \$32,000, \$28,000, \$26,000, \$22,000, and \$11,000.

• There is no denying the value that MR CCF 20-20 has added to the bottom side of many maternal pedigrees, nationwide. He quickly and reliably adds eye appeal, structural integrity and longevity. HTP/HLTS Alley J15 is rugged at the ground, yet is still eloquent headed and jawed, she carries a pregnancy by the confirmed sleep all night heifer bull, LCDR Revolution 214H.

DUE TO CALVE 2/15/24 TO W/C LOCK DOWN 206Z (ASA: 2658496)

MR HOC BROKER
Sire of Lot 5 & 6

- We truly think that this combination of EKHCC Red Jewel 760 with the legendary MR HOC Broker has resulted in two of her best progeny yet to date! And that puts them among some very impressive company.
- Maternally you will find the iconic EKHCC Red Jewel 760, a female that has stood the test of time, generating the right kind for more than a decade now and regardless of the mating she proves to continually add breeding accomplishments to her resume. She may have passed but there is no question that her legacy will be long felt here in Worthing with her exceptional set of daughters.
- MR HOC Broker, who with over 8000 registered progeny in the ASA database, goes down as one of the most highly respected stud bulls, across breeds, of recent history. He has to be one of the most versatile breeding cattle we have and will ever witness, with sons, daughters, and grand progeny leading multiple aspects of the beef business.
- We think Jewel J26 might be the most unique and intriguing built member of the clan. We love the dark cherry hide color, added length of spine, perfectly marked face, additional bone and foot size and the looseness of structure she possesses. Her silhouette is truly remarkable.
- If you prefer the solid color of J25 we completely understand, she too is stunning from the profile, perhaps being even more extended up front and poses with some more presence.
- Purebred cattle with this kind of build and pedigree are hard to find, and the fact that they are red hided only adds more esteem to their value.

LOT 7

W/C EXECUTIVE 187D
Sire of Lot 7

- We lined up two dominate maternal forces in the pedigree of HLTS Jewel K49. She is a maternal, granddaughter of our cornerstone dam, EKHCC Red Jewel 760 that has a strong influence throughout this offering and cowherd. Additionally she carries two shots of the \$8 million dollar plus generating, Miss Werning KP 8543U that needs no introduction to Simmental enthusiasts or seedstock beef producers alike.
- Red hided, homozygous polled, purebred stock with this kind of look and build are not a readily available commodity, especially carrying the maternal power you find in this instance.

• The production record of the KS Miss Sequoia Y770 female is close to unrivaled by any other red female with an ASA registration number, both sons and daughters have been sale highlights for the Werning program, and for those who have reaped reward from investment in her frozen genetics.

• We are big fans of the Sequoia lineage, including her \$202,000 son, W/C Bank On It 273H; that is a part of the distinguished Griswold lineup. Not only does she stamp them phenotypically, she injects some growth and carcass attributes genomically.

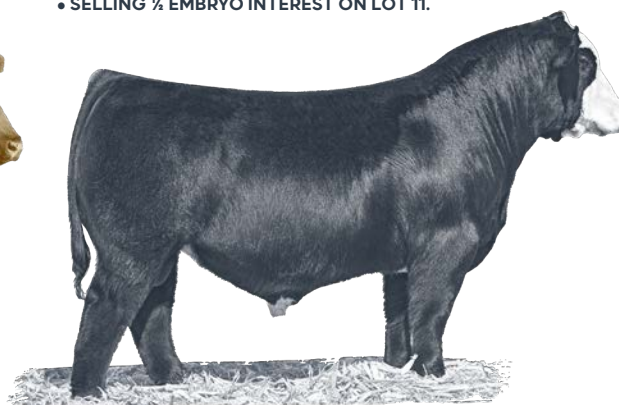

• This homozygous polled, stunning red head is built for speed. We love how loose and agile she is on the stride, and how neatly she balances and ties together from end to end.

• She is carrying an early due AI pregnancy to the quiet achiever, W/C Lock Down 206Z, a bull who to many wise cowboys is the undisputed king of longevity and maternal quality from the Werning program. His influence in Emery is just as strong now as when he entered their breeding program over 15 years ago.

• **SELLING ½ EMBRYO INTEREST ON LOT 11.**

DUE TO CALVE 3/1/24 TO LCDR REVOLUTION 214H (ASA: 3812286)

LOT 13

- This purebred daughter of WS Proclamation E202, is homozygous black and polled and presents a serious case for promotion to the donor pen once she is done highlighting this sale offering. We don't need to go into detail on her phenotype but trust that there is more than just a pretty face here, the stars aligned in her pedigree but still allow for breeding versatility particularly against our sire battery.
- Maternally she stems from the HTP/HLTS Worth The Wait G937 female who is a direct daughter of the legendary ES A85 donor. A85 is a female who we have anchored the breeding program around because of the way she generates daughters that are extra shapely in their body composition and extra sound at the ground. That is exactly where we see K10 excelling.
- An early indication of her generating potential will come with her pregnancy sired by LCDR Revolution 214H.

PRS SPRING VELVET X126
Maternal Granddam of Lot 14 & 15

LOT 14

• A pair of maternal granddaughters of the PRS Spring Velvet X126 donor, she is one of the most impressive SVF Stonehenge R95 daughters in existence. SVF Stonehenge R95 was on the verge of being the outcross sire of his time and beyond until he met his early and untimely demise. He was from a past many-time champion that had a very decorated sister known as "K205." Both females were very impressive for the time with trendsetting squareness, depth, combined with ultra-feminine characteristics and superior udder quality in production. Certainly, two of the greats from the triple crown winning HC Power Drive sire. Stonehenge's sire, HC Hummer was utilized for his ability to transmit maternal influence with length and performance.

LOT 15

• A further generation back in the maternal pedigrees of lots 14 & 15 you will find the Swain Velvet 607S donor that has built a cow family of excellence for Dennis Moore!
• If you are looking to add females to the cowherd with longevity, maternal function, easy fleshing ability and the potential to raise cattle that have added performance and growth then pay attention to this pair of purebred females that excel both on paper and in the flesh.

LCDR REVOLUTION 214H
Service sire to several females throughout the offering!

LOT 16

- The daughters of WS Proclamation E202 are prime pieces of property in this performance and growth savvy business.
- A purebred female that always strikes a pose! She goes back to a sale highlighting female from last year's offering. ADB Jody was a female that had longevity written all over her, one that was built with a beautiful hind leg and perfect bag at calving. This is the kind of cow family that keeps a cowman in business.
- The EPD profile indicates she will continue to raise progeny with added pounds when it comes time to run over the scale at weaning and yearling. She sports a very impressive set of trait indicators across the board, with top highlights including top 25% CE and BW, top 15% WW and YW, top 20% ADG and MWW, top 10% CW, top 20% Marb and API and top 10% TI.

- The exclusive opportunity in 2023 to secure a direct daughter of one of the most productive, herd bull generating and program changing females in the Simmental business, Kappes Sadie T635. TDSC Cowgirl Sadie 208K combines legends on either side of her pedigree being a daughter of the breed leading CCR Cowboy Cut 5048Z.
- You can trace several dominate forces to the T635 female, she stood at the front of the Kappes breeding program for years, with sons often topping their annual bull sale. Maternal sisters to 208K include the leading donor for the Windy Creek program in the Kappes Sadie T635 Y302 donor that would be the maternal grandmother to the \$147,500 Griswold Sire, WINC All Right.
- This purebred female has an extra dimensional build that regardless of your vantage point is impressive. This is one of the most versatile, powerful pedigreed genetic opportunities that you will find selling this season.

DUE TO CALVE 3/1/24 TO W/C LOCK DOWN 206Z (ASA: 2658496)

- We love the extreme brood cow that HLTS Kiesha K20 is developing into, she is so big middled, round in her upper rib cage and deep at the center of her underline.
- The mating to WRS Emergent E715 has developed an exciting outcross pedigree to our existing red hided lineup, this female is balanced numbered and robust built, she pushes the boundaries of cow power. She stems back to the Red Angus sire HXC Conquest 4405P on the maternal side, he built a strong reputation in the Red Angus world for siring cattle with moderation, that were deep sided, and bold sprung. His daughters are held in high regard for their longevity and production records.
- You can rest assured that her W/C Lock Down 206Z sired calf that is due the middle of February will be built for the long haul, there is probably a good chance it will be red hided too! We think that the females K20 will produce will be exceptional.

- We love the overwhelming curvature of this W/C Lock Down 206Z daughter, regardless of the vantage point you view her from. She is extra robust about the middle third of her body cavity, and is smooth from one end of her skeleton to the other. Check out the bulky muscle shape and awesome udder development she is already showing.
- POWER COW!

- HLTS Authority K31 is a daughter of W/C Pinnacle E80, the full brother to W/C Bankroll 811D that continues to see use by cowboys in our region of the world. He breeds with the same look and intrigue of Bankroll, with a consistent addition of body shape and fleshing ability.

LOT 31

- Two full sisters that are direct daughters of the National Champion, Hook's Bella B72 that was the Grand Champion Percentage Simmental Female at the 2016 National Western Stock Show. Bella B72 was the dark horse that took down a star-studded line up of females that competed on 'The Hill' that year.
- We love the elite build of these Bankroll 811D daughters, they bring a unique phenotype to the equation, and we would struggle to list many ways we would change their design and kind. Not only do they cast an awesome silhouette from the side, but when you inspect the true power that they carry it becomes obvious that they will be big time generators down the road.
- Cattle with banner winning phenotype, that are still impressive on paper. Check out the performance and carcass traits that accompany these breeding pieces.
- Their maternal sister, HILB/JRA Elsa 710E stands at the front of the prestigious donor pen that the Schaake family of Kansas have meticulously built.

• HLTS Cora L40 is a unique creature, she follows in the footsteps of her notable father being extra heavily boned, heavy muscled, wide hiped and big backed. A purebred female that whilst being so rugged up high, carries herself with unwavering flexibility at the ground, and poses with a feminine look and presence.

• Maternally you will notice the influence of a WS Proclamation E202 daughter, a further generation is the HF Cora 58C donor female, so you can trust there are generations of cow power built in. Tying together a muscle pattern like that of L40 with the cow power and symmetry that she has is not common, add the fact that she is impressive on paper and we present a very exciting opportunity to get in at the ground floor on a serious donor quality female.

OMF EPIC E27
Sire of Lot 44

HF CORA 58C
Maternal Great Granddam of Lot 44

LOT 45

- HLTS Lily L4 is a soft bodied and extra bold bodied gem that screams power cow. We truly think this is the most dynamic and elite set of females we have ever offered and this open heifer calf floats right to the top when it comes to sorting on phenotype, genomics and maternal power. This TJ Main Event 503B daughter stems from the combination of the curve bending standout, WS All-Around Z35 and the herd bull generating SVS Lily XS19.
- We strive to build our cowherd around females that are extra shapely in their body composition and extra sound at the ground, it's the way this female excels in those traits that promotes her to a leading option in the open heifer division.

LOT 46

- HLTS Right To Love L60 is a direct daughter of the maternal legend, S A V Brilliance 8077 and traces to the our HPF Right To Love Z338 donor cow that has been a constant source of cow power for our program. This half-blood female is both homozygous polled and black.
- This heifer calf is one that has extra eye appeal, easy fleshing ability and comes with a rugged construction that will help her continue to be a standout well into her production career.

 HLTS/CLRWTR AHEAD OF TIME K1 X OMF HELE H61
WS MISS SUGAR C4 **HOOKS ANGEL 11A**

- OMF Hele H61 is a new face to the donor pen here at Hilltop Simmentals, but her pedigree is no new face to producing at the front end of the breed, generating leading donor females and nationally accepted AI sires.
- H61 is sired by the \$71,000 Ruby's Turnpike 771E that has evolved as one of the great breeding bulls in the business. She comes from the maternal power of the prolific Hook's Angel 11A. She is the donor dam behind the \$60,000 OMF Hard Right H21 that was selected by Hartman and Effling the same year we purchased Hele. A full brother to our freshest and most exciting donor was a featured Lot in the 2021 Oak Meadow Farms production sale selling to Kearns Cattle Company of Rushville, Nebraska for \$10,000.
- OMF Hele H61 is a bold centered, stout featured female that offers an elite number profile to compliment her added dimension. Check out her elite carcass rankings, combing excellence for both carcass quality and ribeye area.
- We think both the ES Right Time FA110-4 and HLTS/CLRWTR Ahead Of Time K1 matings on Hele H61 are going to carry our program onto the next level, get behind the hottest and freshest genetics in the business here!

TERMS OF CONVENTIONAL FLUSH OR IVF CYCLE:

Buyer will receive a minimum of six transferable embryos and two 60-day pregnancies, with all embryos produced above 10 being split 50/50 between the buyer and the seller. Buyer pays flush or IVF charges, semen cost and all freezing and/or transfer fees, with all freezing costs over 10 embryos being prorated between the buyer and seller. OMF Hele H61 has recently calved and will be available to flush January 1, 2024.

• WLE Shez It C056 has made her way to Worthing, South Dakota, and now resides in the donor pen at Hilltop Simmentals and Shy 5 Simmentals. The C056 story began at Barry Weser's when Jered Shipman purchased her as an open heifer calf. She was successfully shown by Brecken Shipman during the 2016-2017 show season and broke into the top 10 at the 2016 AJSA National Classic.

• C056 has been a profitable producer for the programs that have employed her. From Shipwreck Cattle Company and Bar O Cattle Company to Diamond A Farms, this female simply does not miss! She sold for \$30,000 in The Black Label event alongside a set of ET heifer calves that averaged north of \$19,000! A daughter by JBSF Berwick 41F was purchased by the Benes family of Nebraska. She was selected as the 2022 Nebraska State Fair Junior Show Supreme Champion Female. To date, C056 has produced daughters that have sold for \$34,000, \$26,000, \$19,000, \$17,500, \$16,000, \$15,000, and several more from \$7,500 to 12,000.

EKHCC RED JEWEL 760
Maternal Granddam of Lot 52A & 52B Embryos

HARKERS UNLEASHED
Deceased Sire of Lot 52A Embryos

- HLTS Jewel J161 is another leaf of the EKHCC Red Jewel 760 legacy that has built the Hilltop program. This purebred daughter of W/C Pinnacle E80 is a phenotypic outlier and we think her ability to generate elite show stock is a definite.
- Both of the matings are sexed female, and combine stock that excel for eye appeal, presence, structural excellence and style. The Red Jewel stock have always been the kind the stop and stare kind that stand out from a young age.
- You will be seeing a lot more out of the HLTS Jewel J161 donor female going forward, but we are offering these hot off the press matings to share the genetic excellence with those that appreciate the type and kind of the Red Jewel legacy as much as we do.
- Keep in mind that Harker's Unleashed recently passed, and with the buzz around his progeny, opportunities to secure his influence will be in heavy demand.
- Both of the matings are sexed female, and combine stock that excel for eye appeal, presence, structural excellence and style. The Red Jewel stock have always been the stop and stare kind that stand out from their contemporaries from early on.

53A-T HLTS/CLRWTR AHEAD OF TIME K1 SEMEN

20 PACKAGES OF 10 UNITS WILL SELL

WELSHS DEW IT RIGHT067T **CLRS GRADE-A 875 A**
ES RIGHT TIME FA110-4 X **WS MISS SUGAR C4**
ES A110 **WS ANISE A71**

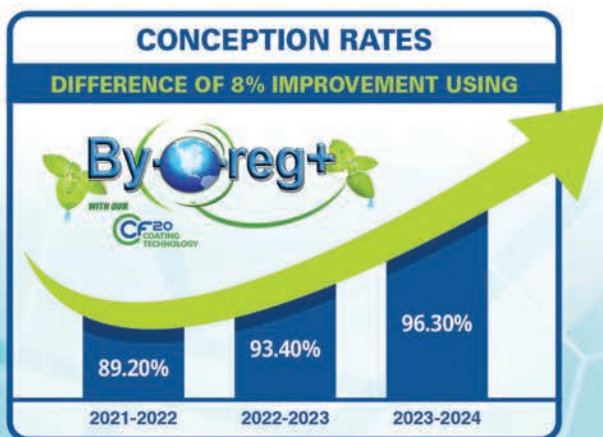

- The first offering of semen on our proudest breeding piece to date! We have never believed stronger in the fact of this herd bull to change the breed. HLTS/CLRWTR Ahead Of Time K1 was one of the most intriguing, complete, dynamic and elite Simmental breeding pieces to sell anywhere in the 2023 calendar year!
- Either side of the direct pedigree of the pair reveals two divisions of royalty within the Simmental Breed. ES Right Time FA110-4 has become a heavily desired source of paternal excellence, and as his progeny mature and dive deeper into their production careers, it's now that his influence is truly being realized and acknowledged. Sons of Right Time include KTE FRKG Reser 825H ET at \$230,000, the \$230,000 KCC1 Countertime 872H, the \$45,000 CKCC Relevant 0639H and the \$35,000 high seller from the 2023 CK Bull Sale. One of the first daughters of ES Right Time FA110-4 is KCC1 SWC Harmony 847H the \$60,000 2022 Houston Livestock Show & Rodeo Grand Champion Purebred Simmental Heifer and 2021 Cowgirls in Cowtown Show Grand Champion Female for Megan Brown. Her first year of production yielded the recently marketed \$450,000 3BCC KCC1 Krypton 100K, quite the resume builder for this young matron in the making.
- Maternally you will find the legendary WS Miss Sugar C4 who was purchased by Forest Lucas for \$210,000 in the Lazy C Diamond Production Sale this past spring. She is without question one of the Simmental breeds most notable females, with over 150 progeny recorded in the American Simmental Association Herdbook that includes a long list of breed influencing sons such as, WS Proclamation E202, LCDR Favor 149F, KBHR Revolution H071, LCDR Progressive 106G, LCDR Impact 134F and KBHR High Road E283.
- Two of the breeds most potent forces come together, in the exclusive mating of ES Right Time FA110-4 with WS Miss Sugar C4. This is a bull that can withstand the hype that one would have when thinking about combining these genetic gems, and is a full brother to the lot 1 & 2 females that headline this offering.
- He is homozygous polled and black with outlier phenotype, genuine muscle shape, foot quality, masculinity, impeccable structural integrity and an EPD package that rivals the best in the business. He is elite in his curve bending genetics that accelerate towards impressive performance and growth.
