SCHAEFFER-TICE SHOW CATTLE

# CHRISTMAS COLLECTION

12.22.23

# WELCOME

4-H, FFA, and general breed associations are looked to as catalysts to stimulate interest and ignite passion for both general and animal agriculture. These organizations allow for organized activities that facilitate leadership and exhibition activities. In the early years of breed associations, exhibiting livestock was the primary source for marketing endeavors and so junior activities within the association became necessary. One would imagine the thought process behind the addition of junior activities would be to enrich the future with the idea that many would return to the industry and the breed in which they grew up in. In general, and like many other things in life, the youth project has evolved into a rather large business model for a constantly evolving industry regardless of breed or species of choice.

Tim Schaeffer and Nate Tice represent the "good stuff" of what these junior programs can do for one's future. These two gentlemen have assembled an empire over the years that needs little introduction to the junior beef industry and the seedstock business alike. Countless Kansas City, Louisville, Denver, Junior National, State, and County level champions over nearly two decades. To say the Pennsylvania born duo have dominated the business would be an understatement, as their influence in the industry on the tan bark and green shavings is stronger than domination. They have put forth the investment in money, sweat equity, alliances, and friendships within the business to further strengthen that presence in a multi-breed affiliation approach as well.

However, there is another integral and important tandem of people that have helped bear the load with the impressively aggressive approach established by Tim and his team. He is quick to thank his parents for their support of his dream and endeavor in the business. Mr. and Mrs. Schaeffer established the foundation by igniting the drive, ambition, and desire to be the best. The junior project with awesome parental support is what established the Schaeffer brand in the early years. As parents they surrounded Tim with the best people that they knew, people that were good at daily care, feeding, clipping, and dressing stock on show day. Paul and Tracy also established the foundation or building blocks from a "golden rule" and integrity standpoint as well. Tim Schaeffer's parents are gritty, tough, hardworking people that love the cutting and performance horses, and they have a fond love for good livestock in general and the good people within the industry.

Ladies and gentlemen, it's an honor to welcome you to the first live auction to be held in the new sale pavilion at Schaeffer Show Cattle in Hagerstown, Indiana. The opportunity to invest in the elite bred cattle, a selection of proven donor dams and frozen genetics will be on Friday evening on the 22nd of December. If you should need any assistance or would have questions about the offering, we encourage you to reach out to any of the Schaeffer Team or Innovation Ag Marketing crew.

We pray that everyone has a very safe and happy holiday season!  
Merry Christmas and Happy Prosperous New Year to one and all!

## ENJOY THE CATTLE

BCII SANDY 0215

SCC SCH TSSC SANDY 8523  
2019 NJAS Division III Intermediate  
Champion Owned Heifer & Dam of Special Lot A

When we decided to change up the format of 'The Christmas Collection' to a live auction, we knew we had to start with a BANG, little did we know at the time this was going to come via an Angus herdsire prospect that has the opportunity to change the face of the breed. TEAG Unlimited 311L is an Angus herdsire prospect like few we have ever seen before. We have no doubts that TEAG Unlimited 311L is set to be a household name in the short term, his dam, SCC SCH TSSC Sandy 8523 was a phenotypic outlier in our opinion, and is one that we think, along with our partners the Teague Family, is going to help leapfrog our programs towards the front of the Angus business. His dam was a division winner at the North American, and his maternal granddam is recognized as the Roxi matron for Henning and Cunningham that has to be one of the most admired Angus females of the past decade, culminating an incredible show career with the Reserve Grand Champion Angus Female banner at the National Western Stock Show in 2017. This year marked the coming out season for the Sandy 8523 donor for our program, maternal sisters to Unlimited received \$60,000, \$25,000, and \$15,000 price tags, and the future of this lineage is in good hands with this calf crop. We feel like the impact and potential of this Conley No Limit son is truly UNLIMITED, he has the form and function, pedigree and predictability to be utilized with success across breed lines, and can have an impact on a major level. We think that the opportunity to derive revenue from his semen sales will be prolific, and that once revealed to the public, he is the kind that will have the business talking. Jump on board at the ground floor on the next big herd bull for the show cattle business, know that we have big plans here, and will be riding this guy all the way home!

TMCK DURHAM WHEAT 6030X  
**RIVERSTONE CHARMED**  
HSF YOUR FANTASY

One of the leading daughters of the once in a lifetime producer, Riverstone Charmed. Charmed will forever remain the benchmark of quality that one envisions when evaluating Limousin seedstock, and with that in mind we think 101G shares as many positives with her dam as we have seen in a daughter. The impact that this cow family has had on the progression of the Limousin business is simply unparalleled. In 2021, JSZC TSSC Larissa 101G joined the "Larissa" cow family's winners list when she was selected as the Limousin Junior National Third Overall Lim-Flex Heifer for Mackenzie Neal. 101G continued her winning ways when she was selected as the 2021 Ohio State Fair Supreme Champion Junior Breeding Heifer. However even after a short time in production, it is her progeny that have projected 101G a leader of the business.

She can be recognized as the dam of MKLN 1105J, the PVF Blacklist 7077 sired, Limousin Junior National Grand Champion Lim-Flex Heifer in 2022 and 2023 Reserve Grand Champion Lim-Flex Female. Another two daughters of 101G by SCC SCH 24 Karat 838 commanded \$86,000 and \$72,000 and another daughter by PVF Blacklist 7077 was a top 5 finisher at the Cattlemen's Congress. The proof is in the pudding here, take the opportunity to tie into a young, but already highly proven donor that has already shown dominance at the cutting edge of the business. If you are looking for a chance to make a splash within a breed that is swarming in popularity and quality then there is no question this is your kind of opportunity.

**AJE MISS GRACIE Y7**

AJE GABBY R7

HILB Amazing Grace E928 is a female that really embodies the type and kind of female that we have always centered our production goals around to replicate. She is a perfectly designed, flawlessly constructed and awe-inspiring female in the flesh, and has proven through several calf crops and mating decisions that the heritability of her quality is surefire. She is the dam of our \$60,000 1/2 interest promotional sire, S&S TSSC Limitless 041H that was the Champion Percentage Simmental Bull at the 2021 American Royal. Limitless is emerging as a sire for the future, and is going to continue to see heavy use in Hagerstown. Daughters of Amazing Grace have gathered banners such as the Champion Percentage Simmental Female at the Wisconsin State Fair, Reserve Division Simmental Female at the North American, and multiple top 5 banners at shows across the nation. Her potency has proven to be versatile enough to create both purebred and percentage cattle of added value, in fact to date she is averaging \$12,500 on over 15 head we have marketed. This doesn't include the added revenue production she has had by being a popular mainstay in our genetic sales where her embryo opportunities average over \$1,300 an egg. To be honest though, we are the most excited about the heifer calf she currently is raising on her side, this SCC SCH 24 Karat 838 daughter is one of the best Percentage Simmental Fall Borns to ever be raised at Schaeffer Show Cattle. As an added bonus to the opportunity to join us on Amazing Grace, the buyer will acquire 50% revenue sharing on the natural heifer calf when we market her this coming Spring in our Annual Fall Born Sale.

**LAZY H BAR FOREVER LADY 25Y**

LAZY H BAR FOREVER LADY 5001

The Christmas Collection is highlighted by a hand selected group of proven donor females, and a special sale feature that has been emerging as a pivotal piece of the donor battery at Schaeffer Show Cattle is Lazy H Bar Forever Lady 36D. 36D is a SimAngus member of the immortal Lazy H Bar Forever Lady 5001 cow family that has been a dominate supplier of superior show heifer genetics. This LLSF Uprising Z925 daughter is phenotypically an impressive female that was very well received during her days on the tanbark. She was a member of the Top 5 Supreme Female lineup at the Badger Kickoff and landed in the Top 10 Overall Females at the 2017 AJSA National Classic for Sara Sullivan. In terms of volume, capacity, and udder quality, this female sets the bar. The Forever Lady cow family is proving to be absolutely timeless in production, ask Mitchell Udell about the influence that 5001 daughters are having in their program, they accounted for some serious checks in their 2023 Production Sale. To this point 36D is averaging \$7,500 on her heifer calf progeny, and we think she is just one mating away from hitting a home run. She sells open and ready for embryo production; we look forward to seeing the direction you take this untapped goldmine.

OPEN & READY FOR EMBRYO PRODUCTION

S&S Camilla Belle 620D would be one of the proven females that could very quickly turn into a cash cow for her new owner. As a heifer calf, she was a \$60,000 high seller to Sullivan farms, where she was a multiple time division winner at the majors. She stems from the influence of the queen of Schaeffer Show Cattle, the great Honey R007 who racked up in excess of \$2 million in life time earnings. In production herself, 620D has emerged as one of the most potent producing daughters of Honey in existence, her resume includes a set of High Maine daughters sired by BNWZ Data Bank 1311C ET that averaged \$25,000, and one was selected as Calf Champion at the 2023 Cattleman's Congress and Fort Worth Stock Show. Another daughter of SCC SCH 24 Karat 838 demanded a \$40,000 price tag in the 2022 sale season, needless to say, there is plenty of revenue to be made from an investment here. Absolutely a donor cow that needs attention!

LBS PASSION MAID 4F

Females built like this are what we see keeping this industry profitable, not extreme in any fashion, however you would struggle to find a hole in them! You will notice that is the trend being set by these daughters of the legendary, HPF Ms Honey R007, they are just so easy to look at, breed on and be put into production without hesitation. This kind are fun to have around, a bigger scaled, massive, easy keeping female that has never skipped a beat in production and brings something of added value to the weaning pen each year. Evan Summers sold a very good Limitless sired female out of 702E this past fall for a nice premium and every year before that she has put one in the sale pen to make a lifetime avg of \$6,500 on progeny sales. As for her next one, he have done the work for you and set in motion the next generation of greatness with her mating to the new kid on the block, the \$200,000 Purebred Simmental sire, Revelation.

LBS PASSION MAID 4F

It should be no secret that we don't mind pushing the boundary just a little bit to make something different or try to get on the leading edge, and that is exactly where we were headed when we came up with this mating. This dual registered beast combines two individuals that were both way ahead of their time and have both been instrumental on what has occurred in Hagerstown yet come from two different worlds. ASHW Who Da Man has a strong presence throughout this offering, he has to be one of the most unique breeding bulls in the history of the show heifer business, his progeny are just, different. The HPF Ms Honey R007 donor would be approaching her 20th birthday, and is one that got the party started for us on the maternal side, her progeny built the Simmental cowherd, and even to this day immense value is seen in her direct daughters. This is a wild card female with a wild card mating, she has the big pieces, that will at some point yield a big outcome. We think you can go any direction when mating this one, be that for show heifers or club calf, to this point she has raised a \$9,000 daughter of Conley No Limit that sold as a bred, and is also the mother of the Lot 55 bred heifer in this sale.

**JBSF PLENTY FOXY 12E**

JBSF MISS GOLDMINE 303A

JBSF Plenty Foxy 12E has been a game changing addition to the Simmental donor pen for us. The first time we laid eyes on Foxy, we knew that we had to do whatever it was going to take to make her an Indiana resident. Her show career was short but included being 3rd Overall Purebred at the AJSA Classic and the Supreme Female at the 2018 Keystone. However, Plenty Foxy's job title quickly changed as she entered production and became a focal point of where we were headed. She has passed the \$2,000,000 mark in production and is one of the smartest investments we have ever made in this business. We can attribute many big titles and price tags to direct daughters of Foxy, and now what the granddaughters are being able to get done is just icing on a very sweet cake, especially with the unexpected and early death of Foxy this year. The first of the maternal sisters, S&S TSSC She's So Foxy 071H has a very bold and stout build, that comes with the big muscles and bones. We think she is a perfect match up for trying to make steers, particularly with How Great Thou Art. This one has the goods to get it done on any stage!

MR HOC BROKER  
**JBSF PLENTY FOXY 12E**  
JBSF MISS GOLDMINE 303A

The second of the young and prime aged daughters of the recently and shockingly deceased, JBSF Plenty Foxy 12E. This Silveiras Style 9303 sired half-blood cow is one that we deem flawless in her look, build and phenotype. She runs dead level in her hip design, with a perfectly laid in tailhead, monster set of running gear and unreal presence and charisma. The Angus sired matings on Foxy have been her absolute drawing card, and it is without question that these daughters have the goods to get it done in production particularly for making higher percentage Simmental show heifers like this ones mating to Revelation will make. You can question our sanity for offering up this young cow that is just hitting her strides in production, but don't let that get in the way of making plans to secure her for yourself, there are big time opportunities selling throughout this book, Lot 9 is certainly one of them.

HPF MS BEAUTIFUL S054

BRAMLET TSSC Beauty Queen is best recognized as Mckala Grauel's multiple time Division and Reserve Division Champion Percentage Female at the AJSA Classic, Cattleman's Congress and the North American. This direct daughter of the Bramlets Beautiful A317 donor female that's progeny have amassed as many titles and dollars as any cow family that resides in Hagerstown. What might be most exciting about this female comes with her mating to the \$200,000 Revelation stud, we think this mating aligns the stars and has serious potential for game changing results, get yourself on the ground floor of the next big time industry influencer.

TSSC CHANEL U809  
Maternal Granddam of Lot 14

S&S Cant Touch Her 0206H is one that comes with plenty of punch! There is a very short list of females that can compare to the combination of intriguing front end with the mass and power this one has been blessed with. She is a granddaughter of the iconic Chanel U809 female that helped propel our program to new heights, and a maternal sister to the dam of 0206H would have raised the \$180,000 phenom from the 2022 Dakota Classic/First Class Female sale that sold to Kerlee. We think that this one provides the pieces and logical options to raise cattle at either end of the spectrum, whether that be show steers or breeding heifers.

SUL Who Dat Girl 118C ET gives you access to the donor pen here at Schaeffer Show Cattle, she has to be one of the most powerful Who Da Man daughters in existence, yet is one that was blessed with the functional body type that is required to make those major league, winning livestock. 118C was a champion herself, taking home the Reserve Grand Champion Female title herself in Louisville with Mattie Doerstler on the end of the lead, she is now a standout producer in production, amassing just shy of \$200,000 in progeny sales. She is the mother of Kelton Arthur's TSSC Who Dat Okie 0811H that was the 3rd Overall Supreme Heifer at the 2021 Kansas Classic. If we sort them on phenotype, there may not be one that screams generating potential louder than this one, you won't believe just how stout, powerful and massive she is, she makes them the same way, cattle that are dense, hairy and killer built, while still having so much body and mass. She is fruitful when it comes to making eggs too, to this point she averages 15 embryos per cycle, we look forward to gaining a partner on this goldmine, we truly think she is just on the verge of making big things happen.

BCII SANDY 0215 - Dam of Lot 26  
 2017 NWSS Reserve Grand Champion Angus Heifer

It doesn't get much more royal than the cow family in support of BCII HENNING TSSC Sandy 1223. The show career of BCII Sandy 0215 culminated with the Reserve Grand Champion Angus Female title at the 2017 National Western Stock Show, and 'Roxi' as she has become known was one of the most talked about and admired cattle on the circuit that season, taking home several Supreme banners at the nation's biggest jackpot shows too. This SCC SCH 24 Karat 838 daughter has the outlier kind and uniqueness that you would expect from combining two 'different' built Angus cattle, we think her opportunity to generate something of excessive value is likely, just because of the genetic power she is carrying. It is hard not to see opportunity when talking of the Sandy cow family!

DUE TO CALVE 3/1/24 TO ROSE MC ENCORE 0463

SSF ELLEN 4107  
Full Sister to Lot 27

PVF BLACKLIST 7077  
Sire of Lot 27A

The Angus division is stacked with two direct daughters of the queen at Sunrise Sunset Farm's, PVF Ellen 1185. 1185 is a SAV Brilliance 8077 daughter of the Hyline Ellen 410 matron that sits right at the top of the genetic tree for the Cates families Angus program, many of the most productive and successful stories for the SSF prefix can be traced straight back to this lineage. This is a full sister to Camryn Clapp's 4th Overall Supreme Champion Female at the 2017 Hoosier Beef Congress and Grand Champion Female at the Indiana State Angus Show. The first thing that comes to mind when thinking of SSF Ellen 1018 would be the bold and the beautiful. Not many Angus cows have this much foot, feature, bone and power yet still look so feminine and lady like. She stems from the VA First Round sire that helped build the Chestnut Angus cowherd into the powerhouse, bull generating program that it is today. Speaking of bull generating 1018 comes with a very impressive PVF Blacklist 7077 stud at her side.

TR MS MONTELLA 1572Y

BOY OUTLIER 812 ET PLD  
Service Sire to Lots 31 & 32

TR Ms Felix 8909F ET shares a very similar maternal pedigree with the lot 32 female being from the potent combination of TR Mr Fire Water 5792R ET and TR Ms Montella 1572Y, two of the breed's most influential members. This RBM TR Rhinestone Z38 daughter was a division winner at the American Royal and has since proven to be a reliable generator of quality with every opportunity she has had. The hereditability of her upmost sleekness and style is foolproof, and she has the uncharacteristic ability to combine this unique outline with still being robust and shapely in her dimension and muscle pattern. We think her mating with BOY Outlier 812 is set to unlock her massive genetic potential.

DUE TO CALVE 2/26/24 TO BOY OUTLIER 812 ET PLD

When you see this female walking the pens in Hagerstown, you will believe me when I say we sorted the best females out of the herd for this inaugural, live auction. This complete outcross to the classical breeding lineup of Charolais stock emerges as a breeding piece that has the potential to do some very interesting things for a program. She is one of the most intriguing opportunities that we will offer to the public, and I know that this is just the beginning of the story she is set to write for the highest bidder come December 22nd. She resides on the upper echelon in every trait we value in the show cattle business, she is way out there but in a really good way. She is a past \$28,000 high seller and was successfully campaigned by the Main Family. There is no fancy way to say it, this thing is as long as a freight train, has the looks of a run way model, and the power of a Philadelphia Eagles D Linemen. This is not your everyday Charolais female, but it's always cool to be a little on the wild side.

This daughter of the legendary SULL Red Knight 2030 ET is royally bred, stemming from the Lady Crystal lineage that ranks among the immortal show cattle family names! There aren't too many places in the nation what will give you an opportunity to get in at the ground level on genetics like this one. The presence and outline of MFS RK Crystal 34F will catch your eye, then evaluate her body shape and muscle design to capture your imagination. The return on investment will be quick and plentiful, Shorthorn cattle are becoming a hot commodity once again.

The red Simmental division is in safe hands with this incredible beast, if you are in search of a red hided donor with big time capabilities then you have found yourself in the right spot! This HILL Big Order 17G daughter is out of the Profit sired, Strawberry Wine donor female that has generated full sister's to J169 for \$70,000 and \$17,000 price tags. The maternal lineage here stems back a further generation to the W/C RJ Miss 8543 6102D donor that is owned by Smith and Wenell. She is a full sister to the breed influencing, W/C Bankroll 811D and therefore carries the potency of the \$8 million producing Miss Werning 8543U. This is an elite purebred with the look, body and bold feature to deliver the goods, she is the kind that will raise the high dollar show heifers. Santa really will have come this year if S&S Bramlet Ruby Red J169 gets delivered to your donor pen!

## RETAINING 1/3 EMBRYO INTEREST

WHOA! Absolutely one incredible beast! There may be several full sisters to this mating dominating the show ring, but we promise you aren't going to find any that are built like this special individual. This female needs a first class, non-layover ticket directly to the donor pen after she lays down and delivers her Conley No Limit heifer calf just a few weeks after sale day. This is the kind that you don't find on every street corner, a purebred that has an incomparable combination of look, maternal feature, bone, foot and some serious shape and muscle. The track record of these Something About Mary x Peine females is hard to comprehend, because they truly have had a stranglehold on the winners and high sellers lists these past couple of years. A most notable full sister would be Hendrickson's \$100,000 JSUL TSSC Lady In Black 2181K female that has been a force on the tanbark, taking home championships that include Grand Champion at the American Royal as a calf and then Reserve as a big one, Reserve at the North American as a calf, Supreme Champion Female at the Purdue AGR, 4th Overall at the AJSA Classic this past summer, Supreme Champion Female at the 2023 Keystone International, and was recently crowned National Show Heifer of the year. If you are looking for the next goldmine in the Simmental business then this is one you need to seriously evaluate, we think her generating potential is next level!

JBSF MISS GOLDMINE 303A

JBSF PLENTY FOXY 12E  
Dam of Lot 38

We love the type and kind of this ultra-functional and maternally built purebred. This HPF Quantum Leap Z952 daughter is one that floats to the top quickly when you start to sort the cattle on maternal feature, flexibility and foot size. We think this is the kind that you need to start with if you aim to generate top tier, high dollar Simmental show heifers, because of her looseness of structure and flawless structural build. Her pedigree suggest she has the potential to do so as well with the maternal backing of the legendary, and deceased JBSF Plenty Foxy 12E. A female that amassed over \$2 million in progeny sales during her fruitful breeding career in Hagerstown. This is like trading with blue chip stocks in our opinion, a very safe bet on a purebred female that will make significant ROI in a quick fashion.

MR HOC BROKER  
**JBSF PLENTY FOXY 12E**  
JBSF MISS GOLDMINE 303A

We think that this SCC SCH 24 Karat 838 female is absolutely incredible. She goes overboard when it comes to sorting on a striking presence, upmost look and elegance, foot size and shape, and just overall outlier build and design. She reminds us of what made her \$2 million producing dam so special the first time we ever laid eyes on her, a bovine that you cannot fault, and one that just projects ultimate generating potential. The story wrote by the full siblings to S&S HARA Hey Alexa 2515K sure only adds stripes to her resume. The first round of these sisters was born in 2021, that year, 4 heifer calves were sold for a combined total \$193,500 and to date this mating has amassed over \$500,000 in progeny sales. They debuted with a pair of them capturing Division Championships in Louisville and Kansas City, and another being selected 4th Overall & Champion Sim-Angus at 2021 Hoosier Beef Congress. Unfortunately Foxy has passed away, so the influence she is yet to have directly on our program is limited, however we feel at ease knowing the impact that females like this one are going to have, long into the future.

MR HOC BROKER  
**JBSF PLENTY FOXY 12E**  
JBSF MISS GOLDMINE 303A

The Conley No Limit x JBSF Plenty Foxy 12E combination is as perfect of a synergy of complimenting features as you will find in our breeding roster. Either side of the pedigree reads of program and breed leading individuals. The result of this pairing are cattle that come absolutely impressive in regard to their stoutness, dimension, width of base, dominating feature and overall balance. What might be most impressive is the way that these sisters are able to tie together these big and rugged pieces into a very eloquent and seamless look that oozes class and production in one package. Full sisters to this mating have been \$72,000 and \$20,000 highlights of past marketing events, and the one went on to be Calf Champion Percentage Simmental in Louisville for Sara Sullivan. We think that S&S No Boundaries 2119K is exactly what her name states, a female that will follow in her mother's footsteps as a breed changer and influencer. Study this one's picture, video or in person every angle you can simply sit back and enjoy. We are most excited for the BBR FX May We All 6D pregnancy that S&S I'm A Foxy Girl 2005K is carrying, that has the potential to ring the bell in just her first year of production.

**HOFFMAN H/G BLACKBIRD 620**  
ALL PVF BLACKBIRD 645

They say the Angus breed is the business breed, and well it's hard to dispute that when you hear the story of the full sisters to this one. Hoffman H/G Blackbird 620 wrote her own chapter in the Angus history books as she produced the \$300,000 record-selling heifer calf, UDE Blackbird 0153 to Ferree. UDE Blackbird 0153 began her career in the fall of 2020 when she was selected as the Hoosier Beef Congress Supreme Champion Overall Heifer. She was then the ROV Reserve Grand Champion Angus Heifer in the Open Show at Oklahoma City. She then also went on to be the 2021 Kentucky Beef Expo Supreme Champion Overall Heifer and the 2021 Atlantic National Reserve Grand Champion Owned Heifer in the Junior Show. In 2022 UDE Blackbird 2002, another SCC SCH 24 Karat 838 commanded \$55,000. Full sibling eggs to this mating have commanded over \$10,000 a piece. Needless to say the level of genetic potency embedded here is hard to match, and if you are in the Angus show heifer business and don't have the influence of the 620 cow family already then you probably need to pay serious attention to this genetic opportunity.

JEM ADELE 11A

A very striking Maine Angus donor prospect that comes with the super big features, extra-large foot size and the robust body and dimension that it takes to raise the winning kind. You have to admire the impeccable ribcage design, symmetrical outline, elegant head and neck, and most commanding presence of this BSC Freedom 147F ET daughter, she is plain and simply, high quality stock. The Freedom bull has been leading the charge at the coveted Beauprez Land & Cattle program, his daughters topped their 2023 Female Sale. This newer division to the Maine business is really taking off because of how practical and real world their type and kind is, that's exactly what we appreciate about this beauty.
