

Legends OF THE FLINT HILLS

SUNDAY, DECEMBER 3, 2023 | 1 PM CENTRAL

Westmoreland, Kansas

Welcom

TO THE FLINT HILLS

A few years ago, our group of fellow breeders and close friends decided to sell fewer open heifers in our fall Heritage Sale, and establish an elite bred heifer event. Hence, the Legends of the Flint Hills was born. It was my personal goal to make this the top-tier event in the country where Simmental breeders can invest in genetics that will take their program to the next level. I was hoping we could accomplish this by year five, however, because of the dedication of this group and their commitment to excellence, the 2023 Legends of the Flint Hills will set the bar to a new level!

When breeders allow me to go into their herds and select their very best females, it makes it easier to accomplish our goal in a shorter time. I identified more than 125 elite breed-leading females from a population of over 600 head. I tell these breeders, “If it doesn’t pain you to sell her, then I don’t want her.”

This sale is unique because we each have a slightly different twist on pedigrees. As a result, we have cattle that will fit into a variety of programs. Even though our genetics may differ, we have far more goals in common with one another — all these cattle have been selected to survive and reproduce in real world cow country. Traits such as soundness, foot quality, udder structure, fertility are not just current buzz words, rather traits we have all emphasized for multiple generations.

I strongly encourage you to stop by Westmoreland, KS and take a look on SUNDAY, DECEMBER 3RD. I have personally never walked through a set of young females as good as these. Needless to say, I’m very proud of the cattle, but perhaps more rewarding are the families that represent these great matrons!

THE SCOTT SCHAAKE FAMILY

The industry demand for the elite of the elite is certainly and absolutely evident in today's marketplace. With that extra pressure applied the quest to meet those expectation is set in motion. The drivers behind that momentum in this set of bred females are some of the very best cattlemen in the country. This breeder group is loaded with industry experience and talent. Within the pages of this sale book there is something for everyone with opportunities to advance any program in the right direction. It does not matter if you have a phenotype driven direction for your program or one that is based on genomics and EPD profiles, you will find it in Westmoreland, Kansas on December 3, 2023.

As interested parties, you will notice that the head count has increased as well as the overall quality of the offering. We believe that it would be an absolute challenge to find a bigger set with anymore quality and genetic flexibility up for appraisal anywhere in the land. This nearly 100% Simmental and Simgenetic offering is one of a kind and scope outside of any dispersal. You will have the opportunity to invest in and acquire genetics that are certainly loaded with pedigree and have cow families that have built or influenced many programs nationwide. Sires represented are breed leading in their respective genetic profile. From curve bending number and index values to those that have sired many backdrop winners on the tan bark at any show in the country. One thing that is promised, the best of the best, is in this offering and they are brought to you by great people that influence the industry on many fronts.

Besides the professional ranching and land stewards, this group comprises industry leaders in evaluation of all livestock, AI bull procurement executives, bull stud owners, veterinarians, embryo technologists, nutrition and feed industry executives, beef processing and marketing executives, cattle buyers for the end product, and order buyers that lead the trade in the region with a great national reputation for all classes of cattle. The incentive to join this awesome group of people for the first weekend of December could positively impact, not only your operation, but your family as well. The alliances and relationships that can be made over time would simply be priceless in so many ways.

As a marketing firm, we are very humbled and feel privileged to be involved with this set of cattle and the families behind them. With that said, we encourage you to reach out to any of the breeders affiliated with the stock that you have interest in as their knowledge of their product is "since day one" in nature. However, we also extend the invitation to reach out to anyone affiliated with the Innovation AgMarketing team as well. We are here to assist every step of the way if need be and will look forward to making your acquaintance. In conclusion, consider this the opened invitation to the 2023 Legends of the Flint Hills in the new Schaake Farms Sale pavilion on the first Sunday of December. We look forward to seeing you all there.

As always, please enjoy the stock!

TERMS + CONDITIONS

All cattle sell under the terms and conditions of the American Simmental Association. Every animal will be sold to the highest bidder with the auctioneer settling disputes. All cattle are the buyer's property as soon as sold and will be cared for a reasonable length of time at the buyer's risk. On embryos, buyer to pay per unit and all shipping costs. Guarantee of one 60-day pregnancy if implanted by a certified embryologist.

ANNOUNCEMENTS

Announcements made from the auction block on sale day take precedence over printed material associated with the sale. Anyone attending this sale attends at their own risk. Sale staff, hosts and/or their representatives will not be responsible for any personal injury or damage to any attendee or his or her property. Several pregnancies have been determined by ultrasound, but do not guarantee a 100% accuracy for calf gender. EPDs listed in the catalog are current as of November 1, 2023. For updates, visit www.simmental.org.

ONLINE BIDDING + VIDEOS

The sale will be broadcasted to watch and place your live bids online. Videos of the sale cattle can be found on cci.live.

INSURANCE

Caden McAfee, *Kansas Insurance, Inc*913-416-0155

TRUCKING

Free delivery to Kansas buyers and we are willing to help out-of-state buyers with the most economical trucking possible.

ACCOMMODATIONS

Please feel free to explore multiple options in Manhattan, Kansas.

AIR TRAVEL

We are located 30 minutes from Manhattan Regional Airport (MHK), and two hours from Kansas City International Airport (MCI).

DIRECTIONS TO THE SALE

FROM MANHATTAN, KS Take US Highway 24 (W) and turn right onto KS Highway 13 (N) across Tuttle Creek Dam. Stay on Highway 13 for approximately 6.8 miles. Turn right onto Myers Valley Road. Go 2.7 miles and the sale site will be on your left (N).

FROM WAMEGO, KS Take US Highway 99 (N) for approximately 4.7 miles and turn left (W) onto Louisville Road. Stay on Louisville Road for approximately 7.9 miles, and turn right (N) onto Flush Road. Stay on Flush Road for about 2.1 miles, then turn left (W) onto Myers Valley Road and in 3 miles, the sale site will be on your right (N).

HILB Oracle C033R, the ST Simmental calving ease sire of choice is excellent in his calving merit with cattle that are certainly broody in their center body with true muscle shape in a refined and sharp featured package. This female would carry two doses of low BW' and CE with the influence of W/C Executive Order 8543B, another stud noted for his contribution of shape, width, look, and balance. Maternally this young female is from the legendary HF Serena only solidifying her investment status on your sale short list. Her dam, SFI KWIN Serenity E21, is one of the premier young females in the donor pen at Winter Farms and Schaake Farms. Her quality is unsurpassed to say the very least. DUE TO CALVE 1/8/24 TO W/C STYLE 69E "FAMILY TRADITION" (ASA: 3336318)

The one thing that is certain about this set of cattle regardless of representative breeder is that they are loaded with cows that are name brand and produce the goods every year. This maternal granddaughter of HF Serena is one to sure pay attention to as her dam is also a maternal sister to the rising star known as STCC Tecumseh 058J. It just keeps getting better when one points out that she is also carrying the service of the Silveiras Style 9303 x Miss Werning KP 8543U stud known as "Family Tradition" for the double shot of 8543U.

Straight from the heart of the Durst program. An intriguing one with a balanced approach to production value as she's influenced by WLE Copacetic, with support from Mr HOC Broker to grab your attention. Every one of those aforementioned sires have impacted the business with phenotype, performance, shape, and maternal value as well. This female has some added bells and whistles as she ranks in the top 15% for YG, top 20% for REA, and in the top third of the business for CE and BW.

W/C Bank On It 273H is the past high selling sale feature for Werning Cattle Company, selling to Griswold Cattle Company and Gustin Cattle Company. This stud is killer in his overall look and design especially on the profile as evident in these direct daughters that are from a very powerful, Broker sired dam that leads the Puett program. Buy with confidence, as she comes with the service to Rocking P Private Stock H010.

Sweet Emotion COW FAMILY

LOT 8

Show me the money! This one is from a full sister to SFI Brigade D21 owned by Chad Holtkamp and SFI Savage D20 that works in the Bruhn program. Most know that her maternal granddam CAJS Sweet Emotion is the famous daughter of the timeless flush mate sister to MR HOC Broker known as JM Steel My Heart. PVF Insight 0129 has proven to be a sire of quality stock that are balanced with maternal and performance values that meet industry demands. They are cattle with look and merit. Sure, they have some imperfections, but those blemishes are very subtle. We compare his contribution to the business to the likes of his paternal grandsire S A V Bismarck 5682. The blend one finds in J158 is good from every angle, so don't let anyone tell you any differently. She does rank in the top 3% for REA.

LOT 9

For those that wish to produce show stock or just cattle with a ton of look and presence, then a female such as 202K should make the short list based on pedigree alone. The Silveiras Style 9303 cattle are more often than not loaded with great hair, an impeccable profile, and solid running gear. SC Pay the Price C11 was also no stranger to the backdrop or the competition on the tan bark. His cattle always trend to be stouter than he was and equally great looking. We expect this centerfold to turn heads by any visitor on or prior to sale day.

DUE TO CALVE 3/25/24 WITH A BULL CALF BY FP/L JURISDICTION 103J (ASA: 3881332)

A maternal sister to K201 and K203 sired by the Werning Cattle Company sire known as Mr SR 71 Right Now E1538. The stock by this sire have topped the famed Werning Cattle Company Production Sales for years. Their real world merit is essentially priceless as he continually sires cattle that come easy at birth while offering explosive growth and conversion through the yearling stage of measurements. In production, the daughters have proved invaluable as well with great udder structure, the ability to wean pounds of calf, and the fertility that allows them another year of residence in the program they work for. Keep in mind that she is from the obvious producer from the Marple firm, M4 Ms Investment C55.

DUE TO CALVE 3/25/24 WITH A HEIFER CALF BY FP/L JURISDICTION 103J (ASA: 3881332)
 SFI Betty Sue Y85T lined up well with the Hillbrands and Werning Cattle Company stud that has experienced heavy use breed wide for a multitude of years, W/C Executive Order 8543B. That mating generated the dam of this daughter of KBHR High Road E283 to create an industry friendly blend of calving ease, growth, and carcass that is reflected within the top 15% index values that she brings to the table. F85K ranks in the top 5 to 35% for 14 traits, a feat not replicated by many in the business. Take advantage of the Marple's time, effort, research, and years of experience that they have dedicated to balancing the phenotype with genotype.

DUE TO CALVE 2/15/24 TO EGL FIRESTEEL 103F (ASA: 3498940)

Whoa! You better pay attention here! Pull up a seat and study this one! She is a direct daughter of the very popular LCDR Favor 149F and from a very young but very profitable daughter by CDI Innovator 325D from the very proven Wayward Hill and JS Simmental donor dam known as WHF Summer 365C. Not only did the CCR Wide Range 9005A sired female win on the tan bark, but she went on to produce multiple females like the dam of this female. Here is a female that ranks among the top 1% WW and YW with an astonishing, breed leading spread from 106.7 to 162. She also offers top 3% MWW, top 4% ADG, top 10% REA, CW, and TI, with a top third ranking value for Marb and API.

Retaining half embryo interest.

The maternal grandsire of this female is from a maternal sister to MR HOC Broker and sired by SVF Steel Force S701, JM OL Steel Y50 left a very productive set of females in both the Schaaque and Walrod programs. The strength in the Hanel Miss America U814 lineage needs little recognition for those that follow the SFI prefix. You just know that she and few others built the entire program that has experienced much success over the past three decades. The sire choice that made this female was fairly simple as he was one of the very best built red bulls supported by an awesome dam. We expect this female to be around for many years for whomever chooses to make the investment. Elite donor potential here!

Selling full possession and 50% embryo interest with the option to double the bid to own full embryo interest. Seller still retains the right to two flushes at seller's expense and buyer's convenience.

The Leefer family brings a female that is supported by a pedigree that is loaded with generating potential! Of course, her sire dominated his contemporaries in his tenure on the road and then went on to sire many that gathered the hardware and purple. The stock by HPF Quantum Leap Z952 are productive and are now raising or siring those that experience success that breeds true through the sire line. On the maternal side she brings Profit, two shots of MR HOC Broker, and the dominant donor dam of the North Dakota based Bailey program known as Bailey's Ms Dreamy 926W. 926W would be responsible for many high selling bulls and females across the land. She has without question exceeded the million dollar mark in progeny sales to date, and her daughters and granddaughters have continued the tradition!

Baylie COW FAMILY

LOT 35

Mike Dickson has always paid close attention to the successes on the phenotypic evaluation scene and has maintained his belief in lining up the good stuff in his program. 72K is another staunch example of the commitment and discipline he has kept in the course of their small but elite, Ohio based program. What a phenomenal combination of power, look, and maternal prowess in this blend of WLE Copacetic E02, MR HOC Broker, and the legendary Double S and Hudson Pines donor referred to as SS U-Nights Misti M706M. Another awesome breeding piece from the Dickson Family.

The brother to HPF Quantum Leap Z952, THSF Lover Boy B33, has been shown tons of love by those that chase the banners and the backdrop photos. He seems to be breeding a rib shorter than his older brother thus allowing for stock to balance easier and appear deeper through their center rib and flank. B33 has sired as many champions on the upper level too, making him more than comparable to the "Z-model" sibling. This mating on a LLSF Pays to Believe ZU194 daughter from the quintessential and productive Queen of the SimAngus shows known as RP/MP MS Valentine 013U, is a surefire way to improve phenotype and earning potential for any progressive operation.

GEFF County O has done an excellent job siring cattle that are industry acceptable from a size and performance standpoint. They are consistent in their muscle and body shape and mostly flawless in their structure and build. WS Revival is a sire that lit up The One sale in Denver many moons ago for his near outcross genetic blend and his phenotype and kind. The one thing these two sires have in common is that there were several daughters of both retained over the years and they are certainly proving their worth to those that have them today. Tie in with confidence.

LOT 48

Here's the daughter of ES Right Time FA110-4 from the KWIN Broker 4901 SimAngus donor dam sired by MR HOC Broker. The stock by the FA110-4 stud are truly "real world" stock that come moderate to easy at birth with substantial vigor and rapid growth that only equates to dollars in today's high input business model. In this pedigree both ES Right Time FA110-4 and MR HOC Broker are the kind of cattle that weigh across the scales at weaning and convert well to smash them down again at a year. So there is absolutely nothing to question about the true value this female has to offer and she is safe to another sire that's one in the same as the two that influence her lineage.

DUE TO CALVE 1/8/24 TO W/C EXECUTIVE ORDER 8543B (ASA: 2900283)

Another invaluable breeding piece from Winter Farm and to elaborate, Kevin has never shied away from the investment potential in one saturated with cow family and quality. His arsenal isn't even tapped yet with the potential that his program could offer to the business. K206 is from one of the most decorated and proven matings on the maternal side. Remington Lock N Load 54U on Miss Werning KP 8543U is known at many dinner tables across the land. This combination produced females like W/C Miss Angel 2870Z and sires like W/C Bullseye 3046A. Sure, there would be several others and multiple half and three-quarter sibs in the country as well like W/C Bankroll 811D and W/C Style 69E "Family Tradition." ES Right Time FA110-4 is a stud that keeps a program grounded in the fundamentals and basics. They are simple at calving, they want to live, they convert very well, they weigh at every point of measurement, the females are fertile, and they are very wet in production. Study the textbook the sale group has provided for your viewing and reading pleasure but take serious note of the genetics and opportunities offered throughout.

OFFERED BY VOGLER CATTLE CO.

DUE TO CALVE 3/7/24 TO RUBY NFF SRIRACHA K247 (ASA: 4136078)

Hartman Cattle Company has encountered their fair share of "Nay Sayers" since their introduction to the breed, however it may be the program that seems to be working. The program works because of the limited use of sires and being very hard on the stock in the sorting and building process. When you keep the best and sort the rest, everything seems to fall in place. ACLL Fortune 393D is the MR TR Hammer 308A son that keeps the center body and rib shape in one which could be justified by the donor power one consistently finds in cattle backed by Firefly 311A. Broker's influence only strengthens the equation especially when aligned with the influence of WAGR Driver 706T.

Certainly, a product of the program. Garren and Heidi have stayed the course with lining up the top cow families bearing the SFI prefix in their early years and they still swear by that today. The SFI cattle would stem from some of the very best old school class of genetics known to the breed. Those cattle may not have been trend setting, "hookesque" in their nature but the cattle were selected from the ground up and sorted accordingly by one of the very best evaluators of his time. This female comes with a shot of the goods from the Mayor of Palmer, KS in the form of O C C Echelon 857E to only enhance her already established maternal outlook.

OFFERED BY WALROD CATTLE COMPANY

DUE TO CALVE 2/6/24 TO KCC1 COUNTERTIME 872H (ASA: 3806012)

You will be seeing more of these daughters by the Walrod herdsire, SWC Game Day 514G. 514G is from the famed "ACW Annie K 330Y" cow family owned by Shipwreck Cattle Company and Hidden Oaks Cattle of Texas. The dam of SWC Game Day 514G is sired by the late JSSC Wide Body 090W bred in the Seale Show Cattle program of Texas and whose semen commanded well over \$500 per unit the last time offered. Consistently these cattle by Game Day are stout, square, three dimensional, good bodied stock, with a more than ideal build and substance of hoof and bone. This would be a scenario of mating like to like in terms of type and kind of stock. Rib shape, natural width, look, and eye appeal are readily noticed. Her mating to KCC1 Countertime 872H will be something to look forward to.

Cow family saturation without question. Miss Werning 534R, SVF/HS Expecting a Dream, and BF Miss Crysteel Tango, are the matrons listed up close and personal with this breeding piece.

The outcross influence of the sire side is equally loaded with western rancher mentality and sustainability. The cattle from the Western Cattle Source program live the true ranch life; long distances to and from water, short grass in big country, savage winters, and trying summers. They will rise to the challenges of any environment introduction.

OFFERED BY WINDWALKER CATTLE CO.

DUE TO CALVE 2/10/24 TO TC MAVERICK 148 (ASA: 4037592)

On the top side this one is influenced just like the ever so popular, proven, and potent donor for the Owen Brothers Cattle Company program known as OBCC Legend S12X. S12X produced countless high sellers and champion alike and would have daughters working in programs like RJ Cattle of South Dakota. The cattle by EBY/GWS Rendition 402B were very three dimensional and cool featured, but when blended with kind and build of WAGR Driver 706T, they were lifted to another level. On the maternal side one couldn't ask for a better sire to influence udder quality and fertility than TJ High Caliber 556B. It's proven and accepted as fact with no question left to answer. This will all mesh well with the service the maternal and carcass superior service sire TC Maverick 148 that ranks in the top 1% in the Simmental data base for Milk, MWW, Doc, and CW with top 2% merit for Marb.

A proven female in the prime of her productive life that certainly comes with the credentials. This donor dam records 23 progeny on her cow card, so there alone is substantial proof that she is worth of attention and investment consideration. Her pedigree story is well versed with the known influence of one of the very best and widely used Angus studs in recent history, Connealy Capitalist 028. 028 undoubtedly left a substantial number of bull and female progeny throughout the countryside with those sons and daughters still influencing their programs of employment yet today, siring and raising the kind that lead programs and have the ability to further continue his legacy. On the maternal side she comes with the positive, female enhancing influence of the sure enough proven WAGR Driver 706T, but brings an old school twist with HC Power Drive 88H and Nichols Blk Destiny D12 up close as well. For those that have been involved in the SimGenetic business for a while, you know the impact that both 88H and D12 have had on the breed and the good, productive daughters that they both left nationwide. This marvel contributor is becoming a legend in her own right, and you can feel comfortable in knowing that she will continue to generate for her new ownership as well. Where else would one be able to invest in a proven donor, bred such as this, this youthful in her productive career? She is bred with longevity and industry merit in mind, so invest with confidence in a rare find.

M4 Ms Impulse E6Z is a donor dam that is kicking the good females out in top form and fashion. K205 is the maternal sister to the J142 female that is also offered in this elite set of cattle. LBRS Genesis G69 has left his mark on the breed over the past few years with an elevated level of use late in his tenure. These cattle are stout, long, big scaled stock that smash the scales down and harvest well too. Explosive and Impressive would be the ultimate understatement when one begins to discuss the numeric highlights this breeding piece has to offer to the industry. She should be more than sensible at calving with top 3% WW, top 4% YW, to 10% ADG, with a very impressive TI of 106.7 that keeps her securely in the top 1% of the breed. Maternally she charts top 2% MWW, top 3% Doc, top 10% Milk, and top 15% for Stay. Between her maternal dominance and her top 2% for Marb with a top 20% REA, her API is in the top 2% of the breed.

The full sister to K205 is no slouch in her own right even after the genomics. In fact, K206 quite possibly keeps the economic important traits closer to center without the extreme EPD values but still has the same phenotype to build a program around. She excels for her Stay value ranking in the top 1% and will continue to prove her worth in production with top 10% values for both Milk and MWW. K206 offers top 10% Marb with top 20% REA, that's accompanied by top 20% WW and YW. These credentials allow her to post index values that are more than acceptable with top 3 % API and top 4% for TI. Another awesome breeding piece from Marple E6Z donor with certain earning potential.

GUARANTEEING ONE 60-DAY PREGNANCY IF TRANSFERRED BY A CERTIFIED TECHNICIAN

As most of you know, Troy ran the Purebred Beef Barn for Kansas State University for multiple years. His ties to that cow herd are very strong and he would know his investment in KSU Miss Eagle 64G better than most, so I would invest with utmost confidence in the goods that they have selected to offer through this sale series. These embryos by the exciting performance bred stud, LCDR Reserve 210J, should be blessed with an abundance of carcass value, sensible calving, and curve bending growth. Much like the other embryo opportunities offered by Troy and his family, herdsire potential is potentially on the winning bidder's horizon with endless opportunities prospective in nature.

You want to add size and scale to your operation? One cannot deny the positive impact that the Ruby's Turnpike 771E stud has had on the entire breed. Not only will he sire bulls and females that command top dollar wherever marketed, but he will also thrive with his influence in the females that one retains for program construction and continuation in the industry. KWIN Turnpike Sally is no slouch on the maternal side as she is a maternal granddaughter of the very influential Hillbrands Cattle Company donor known as HS Stop and Stare U118L. The Stop and Stare influence in Clara City is certainly stacked deep as Mark and Amanda know and understand the dams that keep on giving notoriety to their program and the revenue stream needed to sustain the substantial inputs necessary to survive under Biden's reign. U118L is certainly one of the cornerstone donor dams in the breed. K215 is top 4% REA, top 10% YG, top 15% CW and MWW, top 20% WW, YW, ADG, and top 25% Milk.

DUE TO CALVE 1/8/24 TO EGL FIRESTEEL 103F (ASA: 3498940)

Gage is offering up his change up pitch from a genetic standpoint in K2031. She is a daughter of the most popular son of Hook's Beacon 56B known as KBHR High Road E283 but her dam is a daughter of the many time percentage champion, WLE Copacetic E02 and from the SFI Miss Two Timen donor dam that has produced so many good ones in the Schaake Farms program. Why wouldn't you blend the best of both worlds within the breed to begin to bridge to gap of the extremes? Gage is purely a genius without question (only because of his dam). Her genetic blend offers trait leading expectations across the board with 13 traits considerably better than breed average and both index values in the top 15% of her contemporaries nationwide. Simply impressive.

DUE TO CALVE 2/15/24 WITH A HEIFER CALF BY

KBHR BOLD RULER H152 (ASA: 3960639)

What a cow prospect that recorded a weaning ratio of 111 after smashing the scales down with over 750 pounds of payweight. She's from the CCR Wide Range 9005A and CCR Cowboy Cut 5048Z bred female and sired by the very best the G A R prefix has to offer in the form of G A R Transcendent. She is the carcass queen with a top 1% for Marb, top 10% CW, and top 20% REA. She too records index values of 1% for TI and 2% for API as well as having growth numbers that rank in the top 10% WW and top 15% YW. She has the name to suit for the future, M4/3R Visionary K04E.

DUE TO CALVE 2/25/24 TO EGL FIRESTEEL 103F (ASA: 3498940)

The HARMS Hardwood sire group was in high demand back in March for HBS and these sisters to those studs are equally as impressive, both numerically and physically. This breeding piece leaves it all on the field as she boasts a top 3% for REA and top 10% for YG. She too trends to the top end of the performance spectrum with a near perfect balance for sheer maternal and performance with top 15% WW and MWW, top 20% YW, and top 30% Milk.

OFFERED BY HANELS BLACK SIMMENTALS

DUE TO CALVE 1/8/24 TO TJ GOLD STRIKE 506J (ASA: 3909662)

Another daughter of the HARMS Hardwood with the blend of some of the good stuff from the earlier chapters of the Werning Cattle Company success story referred to as W/C Paleface 756X. 756X was selected by Gibbs Farms of Alabama in that marketing year and was heavily utilized throughout the breed over the next few years. The cattle proved to be of excellence maternally and the longevity was second to few for certain. This female balances very well across the board with top 10% YW, top 15% WW, AGD, CW, and REA, with carcass values in the top third of the breed. This female meets the stringent demands of today's industry standards and should generate for whomever make the confident investment in her.

What an Angus female! She's a direct daughter of MGR Treasure from a Mill Brae female. Mark Nickel has always been one the very best cowmen known in the seedstock circles of Kansas. He made

Mill Brae tick back in the day and he continues to pursue the creating of perfect beef animal in production. Let's not forget about the MGR Treasure son that was backed by the influence of a Mill Brae bred dam that commanded \$85,000 in the Hanel's 2023 Bull Sale! K2003 is certainly a breeding piece with merit and ROI built in.

HANEL'S TEN PLUS K2002

\$85,000 SON OF MGR TREASURE FROM A MILL BRAE BRED DAM!

MGR TREASURE

SIRE OF LOT 126

A photograph of a cow in a field at sunset. The cow is in the center, looking towards the camera. The background is a bright orange and yellow sky. The cow's ears are visible, and a small tag with the number '878' is on its left ear. The text 'Thank You' is written in a large, elegant, white cursive font across the middle of the image. Below it, the words 'FOR YOUR INTEREST' and '& SUPPORT' are written in a smaller, white, all-caps serif font.

Thank You
