

# HILLTOP

— SIMMENTALS —

*February 23, 2024 • Six O'Clock In The Evening*

WORTHING, SD

**LET US HELP TAKE YOU  
TO THE TOP OF THE HILL**  
ONE BULL AT A TIME.

# WELCOME

*We would like to personally invite you to the 9th Annual Bull Sale at Hilltop Simmentals in Worthing, SD. We have put together a great set of cattle for your appraisal. We put a lot of thought and consideration into this breeding program to help further other breeders and commercial herds.*

*We have invested heavily into good herd sires and cow families here at Hilltop to provide power and consistency. A herd sire we currently run is ES Right Time FA110-4, a bull that is no stranger to the breed. He has bred above and beyond our expectations, seeing how he is going to heavily influence our herd has us excited for the future. Proof of this being the strongest and most diverse group of paternal brothers that we have ever sold in one offering, as lots 1 through 11 are all sired by ES Right Time FA110-4. This includes a full brother to the \$100,000 HLTS/CLRWTR Ahead Of Time K1 and the \$55,000 AHLTS/CLRWTR Always On Time K4 who sells as Lot 1.*

*Developing bulls is something we take a lot of pride in. From the time we decide what bulls are going to be marketed in the sale, to how they perform on our ration. We believe in strong and proven genetics to back our bulls. We have learnt first-hand that if the bulls have been developed on a hot ration, they will not hold up in the pasture. They are on a pretty basic high roughage ration with a really good mineral. Doing this we have heard countless times how impressed the customers have been with the bulls holding weight and not melting away after breeding season. We believe in developing bulls in this way also results in very good fertility, which is exactly what we need for our customers be successful.*

*We want to thank you for taking the time to read through the catalog, and would love to see you here with our family and friends!*

*Jaron*

# welcome to HILLTOP

*Again in 2024 the forecast for the beef business is only as positive and bright as the attitudes of the men that stand behind the Hilltop Simmental firm. Truly if you have not yet taken the opportunity to tour the ranch or visit over the phone with Jaron, then take this as your opportunity, because he and his crew approach the business with an enthusiastic and driven mindset that is unrivaled. They take their role as your trusted seedstock provider very seriously.*

*As always, you can trust that the offering is backed by serious investment and cow families of significance that have made a substantial impact on the beef industry. The offering is led off by the third and final flush mate brother that stems from the ES Right Time FA110-4 and WS Sugar C4 potency. The dam of this powerful duo is the recently re-valued \$210,000 donor dam known as WS Miss Sugar C4, a female that has put as many herd bulls in stud as any other donor in the last few years. He would be a full brother to the three highest valued individuals to come out of the 2023 marketing season at Hilltop Simmentals in the \$100,000 HLTS/CLRWTR Ahead Of Time K1, the \$55,000 HLTS/CLRWTR Always On Time K4 and their sister the \$17,000 half interest, HLTS/CLRWTR Sugar K5. This mating has proven to reliably combine the best of both sides of their lineage in terms of functionality, performance, and carcass merit. Lot 1, HLTS/CLRWTR Timekeeper K2 offers the final opportunity to directly tap into the ownership of an individual from this potent mating.*

*With Jaron and his families experience in the livestock nutrition business, it comes without question that the presale care and development of the bulls is first class. Developed with the intentions to create long-term relationships with the buyers, the crew at Hilltop Simmentals has fed this set of bulls with longevity, fertility, and functionality in mind. They have been slowly developed in order to preserve their structural integrity and foot quality. They are fit and ready for heavy service!*

*Consider this your personal invitation to join us on Friday evening, February 23rd, 2024 in Worthing, South Dakota for a powerful set of Simmental herd bulls that will positively enhance your program's bottomline. Hilltop Simmentals is conveniently located right off I-29, the gateway to a majority of the South Dakota Bull Sales, so don't think twice about making a quick detour on your travels to investigate the impressive set of bulls ready for inspection. We believe that this offering presents the necessary diversity in terms of performance bulls, calving ease bulls, and aged bulls – there is truly something for everyone! We encourage you stop by the ranch or call and visit with Jaron about the sale offering. It won't take you long to recognize the passion that he has for the beef industry. We look forward to seeing each of you on sale day!*

*Enjoy the cattle,*

## TERMS, CONDITIONS & GUARANTEE

*In addition to the standard Terms and Conditions of the American Simmental Association we will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all yearling that are purchased for \$3000 or more. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. All animals selling are up to date with our vaccination program built with the assistance of Sweetgrass Veterinary Clinic. Announcements made sale day from the block take precedence over printed material in this catalog. Payment will be accepted in the form of cash, cashier's check, or check. All cattle must be paid for prior to release and transfer. Hilltop Simmentals will be retaining at least one-third revenue sharing semen interest in all bulls selling. This means if we would like to collect semen on the bull for our own use, we would have the option to do so. Also, if semen is sold we would retain one-third revenue. The new owners of the bulls will have full possession and full salvage value.*

## RISK

*Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury, and will be loaded according to purchaser's direction.*

## LIABILITY

*Neither owners nor sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents.*

## INSURANCE

*We recommend serious consideration is taken about insuring your herd bull purchases. Insurance will be available sale day via James Bessler representing XL Catlin. James Bessler, 815.762.2641*

CE	BW	WW	YW	ADG	MCE	MILK	MWV	CW	MARB	REA	API	TI
14.8	1.4	87.7	142.1	0.34	7.7	24.6	68.4	45.2	0.53	0.85	173.4	96.2
BV	WW ADJ	1/25/24 WT.	SCROTAL	REA ADJ	IMF ADJ							
86	760	1725	41	15.31	2.32							

Here is the featured full brother to last year's high seller, HLTS/CLRWTR Ahead of Time K1. This stud posted some impressive measurements beginning at weaning time with 760 pounds that contributed to a yearling weight of 1310. Under the hide, he measured quite well regarding REA with a REA ratio of 108. He keeps the bar high from a numeric perspective too as he ranks in the top 4% API and top 10% TI with profit drivers that keep him in the top 10% for YW and ADG, top 15% CE, and top 20% for WW as well. He is certainly one who will not sacrifice carcass value as he charts the top 10% for both CW and Marb and keeps that REA value in the top half of the business.

The "Timekeeper" is a bull that is built for the business and bred for the program. His dam records nearly 200 progeny to her credit and needs no introduction to the Simmental breed. They call her WS Miss Sugar C4 and she has proved to be better than sticky sweet as she continues to shell out the curve-bending trait leaders time and again. C4 will leave more than a legacy when her productive years come to an end, she will leave a dynasty to the breed. Serious investment consideration needs to be made if you are a progressive stockman who likes to incorporate the high expectation digits.

72		732		1346		40		13.92		2.42		

Here is the ES Right Time FA110-4 son that should enhance every aspect of an operation. The SimGenetic herd bull ratioed 105 at weaning with over 730 pounds, and at a year he ratios 105 again with over 1340 pounds. For his carcass potential he ratios 125 on IMF and keeps an EPD for CW, REA, and YG in the top half of the business. He is truly a performance warrior as he puts up a top 10% value for YW and ADG and top 15% for WW. Tie into a bull that will improve nearly any set of cows he trails.

Rubys Premium 0H3 is a past sale feature produced in the Ruby Cattle Company program of Murray, Iowa. The sire consolidates everything that is awesome and proven within the barbed wire of Ruby Cattle Company as indicated by the stats this young stud puts in the ASA database. He is simply incredible with over 720 pounds of weaning to ratio 110, he posts a yearling ratio of 101, and an REA ratio of 106. He's all about the business on his expected profit drivers as well as he charts top 15% for REA, top 20% for YG, top 25% WW, and top 30% for both YW and CW.

**JOHN MOHR, SOUTH DAKOTA**

What a stout, durable, burly-built herd sire prospect that comes with a fresh pedigree that represents an outcross to many. This specimen is so stout, wide-centered, deep and bold in his center body, and impeccable in motion. He will sire the keeping kind as far as female progeny and the male-born cattle will certainly meet the standards of the most progressive feeder cattle marketing venues throughout the nation. Big shape, high cutability, and high retention all in one inclusive package.

**CLRWTR HTP LOOKING GOOD**  
DAM OF LOTS 15-17

Stock sired by the \$175,000 CK Cattle & Freking Cattle stud known as FRKG CKCC Platinum 009H ET have been well received and the sophomore class of his cattle are even better than the freshman set a year ago! They are consistently loaded with true beef cattle shape while being genuine in their overall skeletal design and injecting muscle shape and look throughout. This son of 009H ratioed a 133 for IMF, ranks among the top 15% for YG, and top 25% for Marb. He too charts top 10% for WW while measuring just shy of 700 at weaning time himself. He's a creature that's stout, square, good-looking, and will be easy to spot with that unique blaze from poll to muzzle.

**SS WINDSONG W017**  
MATERNAL SISTER TO DAM OF LOT 33

**SVF NJC MAGNETIC LDY M25**  
LEGENDARY MATERNAL GRANDDAM OF LOT 33

We absolutely love the cowboy logic behind this bold-bodied, loose-hinged, big-ended, blaze-faced herd bull! Besides two proven, great Simmental matriarchs in his pedigree he is influenced by one of the most well-rounded Angus sires of today, PVF Insight 0129. The “Insight” influence comes with added power, shape, length, and shear mass without sacrificing value on paper. This stud ratios 120 for IMF and posts carcass EPD values in the top 10% for CW, top 15% for REA, with YG and Marb values in the top half of the business.

**TJ MAIN EVENT 503B**      **MG/GSC AUTHORITY W14C**  
**CDI MAINLINE 265D** × **CLRWTR ELLIE G39X**  
**HOOK'S BEYONCE 82B**      **BESH MS ELLIE E39X**

GE	BW	WW	YW	ADG	MCE	MILK	MWW	CW	MARB	REA	API	TI
11.3	0.9	68.3	101.3	0.21	4.7	25.1	59.2	15.7	0.13	0.69	111.1	69.7
BW	WW ADJ	1/25/24 WT.	SCROTAL	REA ADJ	IMF ADJ							
90	619	1072	36	13.5	1.79							

The CDI Mainline 265D cattle have a tremendous amount of quality and kind to them. This punchy, stout-made individual posted a REA ratio at 102 and should inject cutability and red meat yield into any set of cows that he trails.

### HLTS MAIN EVENT K246

**ASA 4260213 • TATTOO K246 • DOB 10/3/22 • BREED 5/8 SM 3/8 AN • HOMO POLLED**

BW	WW ADJ	1/25/24 WT.	SCROTAL	REA ADJ	IMF ADJ							
92	585	1197	37	13.49	2.11							

This black herd sire prospect is sired by the late TJ Main Event 503B who left a great set of cattle to his record. Cattle that are functional with muscle, body shape, longevity in structure, and very productive on the female side of the progeny. K246 ranks among the top 15% for YW and ADG, top 20% for WW, and the top 25% for CW.

### HLTS PRIMO L95
