

THE MORIONDO FARMS & MM CATTLE CO.

SPRING TURN-OUT SALE

MARCH 2, 2024 AT 1:00 PM

at the ranch in Mount Vernon, Missouri

*Welcome to the Sale!*

### *Fellow Cattlemen and Cattlegirls,*

We are excited to invite you out to our Annual Spring Turnout Bull sale March 2, 2024! We are starting to think a little bit about spring getting closer and boy are we glad, hopefully we can grow some grass to replenish our haystacks around the nation. We are very excited about this set of bulls and the overall direction our program is going. The old saying is "I love it when a plan comes together", and that is how we feel when we evaluate these bulls. There are genetic masterpieces, with maternal gems speckled all through their pedigrees. There is a slug of sleep all night heifer bulls, there are bulls ranking in the very top of the breed for terminal and all-purpose indices. There are true blue power bulls cranking out scale crushing weaning and yearling weights, this set of bulls is as well rounded as we have been able to produce here at the ranch.

The SimAngus™ bulls are as rock solid as we have been able to produce. The power and presence these bulls have is impossible to deny when you step in the pen with them. They are DENSE! Bulls sired by TJ Chief 460G, TJ Nebraska 258G, KBHR Bold Ruler H152, Hoffman High Road, TJ Gold 274G, along with a few other samplings we used from programs across the country. Power bulls along with heifer bulls, a person can study these bulls and find what they're looking for in a balanced functional package with tremendous feet and legs. SimAngus™ bulls that are built to add pounds and build longevity in the replacement females they sire. Turn them out and watch them work!

The Angus offering is small this spring but is very deep with quality. These bulls are sired by THE WR Growth Fund 140H, Double G Payweight 7705, Conley Validate 0110, Myers Fair-N-Square M39, and a few more. The maternal gems behind these bulls run deep, take a look through he pedigrees and take a look at the individuals. These bulls are the kind you keep every female, they will make you money in the long run.

We have really started to grow our embryo transfer program and as you roll through the catalog you will see it is packed with cattle stemming back to our foundation donors. The "Pleasant Pill" cow family, the "Evergreen" cow family, and TR Ms Echo 7459E have done great things for our program and have several daughters in production, the more you study our bulls pedigrees you will see their influence throughout. Proven cow families give us the flexibility to be able to try new bulls and keep our cattle as current as we can.

We would like to say a special thank you to Nathan and Candice Arnold for their tireless efforts! We would also like to thank Niko Kooi and David Bornreger, they manage our two bull development locations and handle the bulls day in and day out. I would also like to thank Tonya Phillips for keeping up with the paperwork on the registered cattle here at Moriondo Farms.

As calf prices are on the rise, what better time to add pounds and add value to your calf crop! A good bull doesn't cost money he makes you money, when you think of pounds, longevity, and consistency, look this way. Go pen to pen and see the consistency these bulls offer up and reap the benefits on your next calf crop. We look forward to seeing you all, bulls will be penned mid-week the week before the sale and available to view any time. Please give Nathan or myself a phone call, we would love to visit with you about the offering!

Thanks again and God Bless,

*Mark Moriondo*

## *Welcome,*

As the world protein business evolves and stewards of the protein sources continue to improve efficiencies, volume, and quality, the U.S. beef business continues to meet the demands of the population of the greatest country on Earth and the world. Larry and Mark Moriondo are certainly doing their part to contribute to the supply chain through genetics and selection as they offer not just one but two sets of bulls annually that meet the challenges and demands of the task at hand. This family-based operation really needs no introduction to Southwest Missouri or the Four State Region as their reputation and integrity are widely known.

The operation is in the fescue belt, so the bulls in this offering have been born, raised, developed, and sorted for acclimation to the high pressures of the region. They are cattle that have been sorted on foot shape, quality, and structure as the groups that they are developed with encourage the competitive nature instilled for them to withstand the pressures of the environments they become introduced to. These cattle are developed to be tough and hardy with extended longevity in structure, build, and shape to meet the demands of the most discriminating buying or commission agents at whatever point your marketing program becomes engaged.

A live calf has never been worth more than it is in today's marketplace and so the genetics that are sensible or fit the bill to the experience level of the females that you will introduce these bulls to will meet the criteria for low input management at calving as the numbers for Calving Ease and Birth Weight are documented for your discretion. The genetics within the pages of this book are saturated with calving merit and weaning and yearling performance to catapult your marketing experience toward the top end of the marketplace. For those who retain ownership, you can be rewarded significantly by tying into one or several of the many that are offered, which should sire premium bound stock with the much-improved data for Marbling, REA, CW, and YG that set of bulls compiles. Industry professionals are advising that end product traits have never been more important than they are today as consumers become more and more critical at the meat counter when selecting what they desire to feed their families.

Mark and Larry are very passionate about their bull endeavors. They are the cattlemen who always insist that they can improve and do better, not only within the barbed wire fences that line many of the roads in the Mount Vernon area, but they want you, their customers to be more successful and profitable as well. The program does search and scour the nation for genetics that they can incorporate within to continue the product within this sale book. They sort the cattle stringently and put a lot of input and effort into getting the bull offering to this point. The family believes in what they are doing as they do select some of the bull battery from each sale offering for their use within the large commercial operation. That statement alone should speak volumes to those who read this introductory letter and should remove all doubts about tying into this great family program for the future of your program.

Please consider this to be your personal invitation to the Spring Edition of Moriondo Farms Annual bull marketing event. The cattle will be elite, and the people and hospitality will be another level above. Please reach out to Mark or Nathan about the bulls and schedule a farm visit to come before the sale. The cattle are always available for viewing starting mid-week before sale day as well. We look forward to seeing you all at the very nice sale facility at Moriondo Farms, on Saturday, March 2 at 1 PM in Mount Vernon, Missouri!

Enjoy the cattle,

*Graham Blagg | Jered Shipman | Tim Anderson*

Videos of cattle will be available the week prior to the sale. The videos will be available for viewing at [WWW.SUPERIORLIVESTOCK.COM](http://WWW.SUPERIORLIVESTOCK.COM) and [WWW.INNOVATIONAGMARKETING.COM](http://WWW.INNOVATIONAGMARKETING.COM)

### HERD HEALTH

Flying Cow Genetics: (918) 929-3178

## SALE SCHEDULE

**Friday, March 1, 2024**

Cattle available for viewing all day

**Saturday, March 2, 2024**

Cattle available for viewing all morning

12:00 PM - Lunch & Refreshment

1:00 PM - Annual Production Sale

## HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at [www.superiorlivestock.com](http://www.superiorlivestock.com).

## HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock and is the suggested process for anyone who does not have excellent, high-speed internet. To get started, simply go online to [www.superiorlivestock.com](http://www.superiorlivestock.com) and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information, Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone. You can also register over the phone by calling 800-431-4452.

Click-To-Bid. This is Superior's newest way to buy cattle! Please note that high speed internet is required – this is not for dial-up or satellite internet. Registration is free, but you must become a member of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) to sign up. Becoming a member is easy – just go to the homepage of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for.

## VIEWING THE AUCTION

If the sale is being broadcast on SLA-TV then, it will be available on DISH Network channel 997. Please note that there is a short delay if you are watching the auction on television, so be sure to call in at least one lot ahead of the lot you are interested in bidding on. Regardless of the television channel the sale is being broadcast on, all auctions will be broadcast live on the internet at [www.superiorclicktobid.com](http://www.superiorclicktobid.com). Some auctions will ONLY be broadcast online. Remember you can call in to bid whether you watch on the TV or on the internet, but you must be a member of [www.superiorclicktobid.com](http://www.superiorclicktobid.com) to "click-to-bid". If you just want to watch the auction without bidding online, you can do so by entering the auction as a guest. Guests do not need a username or password to watch the auction. Your computer must have Flash Media Player and Java installed to view the auction online.

**For more information or if you need assistance contact Blake Tucker (308) 660-3963.**

## MISSOURI SHOW-ME SELECT REPLACEMENT HEIFER PROGRAM

The Show-Me-Select® Replacement Heifer Program uses the latest research on health, nutrition, genetics and reproductive science to ensure Missouri counties continue to be national leaders in providing quality beef. The program focuses on Missouri's farmers and is dependent upon active participation from regional extension livestock specialists and local veterinarians, each of which are critical components of the agricultural sector of this state.

This program is unique in that it is an educational program targeted at improving production efficiency through increased use of existing technology, coupled with the marketing component.

### Program Objective:

Improved heifer development programs through a Total Quality Management strategy  
Increased marketing opportunities for and added value for Missouri-raised heifers  
Creation of reliable sources of quality replacement heifers based on management, reproduction and genetics

### Genetic Requirements:

Sire requirements: Eligible sires must have known ID, be registered by their respective national breed registry, and have complete EPD (opens in new window) information. Sires will be evaluated for qualification in the program based on the EPD provided by their respective breed registry and not on EPD produced by progeny registration in any other breed or hybrid registry.

**Angus minimum Calving Ease EPD of 7.0**

**Simmental and SimAngus minimum Calving Ease EPD of 14.0**

## ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

---

*Aim High*

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the *Certified Angus Beef®* brand.

**Only 1 in 4 non-parent Angus bulls qualify.**

*Minimum Genetic Requirements*

Marbling EPD (Marb)	+0.65
Dollar Grid Carcass Index (\$G)	+55.0

For more information on Targeting the Brand™ visit [CABcattle.com](http://CABcattle.com).

## OUR GUARANTEE TO YOU AND COMMITTMENT TO SERVICE

### OUR GUARANTEE

We guarantee that all bulls sold through our sale are fertile to the best of our knowledge. If a bull is injured anytime in the twelve months following the sale, that makes him functionally infertile, we will provide a replacement bull or issue a credit in following sales, equal to the purchase price minus the salvage value received for your bull. This is not a life insurance policy. The guarantee is in addition to the sale terms and conditions of the American Angus Association which apply also.

### CUSTOMER SUPPORT

We believe in the cattle we are producing here and believe in the cattle that you are producing at home. When the time comes for you to market your calves, however that may be, if interested call myself and let me know your plans with your cattle and see if we can assist or bid on your calves however you may sell them. Extending every dollar in the cattle business is how it is made, and we would love to help if we can

### VOLUME DISCOUNT

**3-4 Bulls – 3% Discount | 5-9 Bulls – 5% Discount | 10+ Bulls – 10% Discount**  
**\$50 Discount if bulls are picked up within 1 week of the sale**

		10%	15%	30%		1%	1%	15%	35%	20%						

- Stout featured, smooth designed, plenty of muscle, and the herd bull character that you expect from a featured Lot 1 bull. His dam, MMR Antionette 827F MM, was selected by Deryl Riley of Nebraska in the fall of 2021. She has become a mainstay in his program, producing a \$27,000 son in the tremendous Triangle J Production Sale in February of this year.
- Supported by a cow family that never misses! 827F is a full sister to a past sale feature, and one of the best herd sire prospects ever produced at Moriondo Farms, MMR Payday 471F!
- This half-blood TJ Chief 460G son does many things well, including being homozygous black & polled, and tracing his female family to an outstanding momma cow. Check out her photo!
- A performance beast, posting a ratio of 116 for WW among all the SimGenetic bulls in the sale.

LOT 2 - MMR CHIEF 218K

TJ CHIEF 460G - SIRE OF LOTS 1-9

WALLACE EVERGREEN 1105 - MATERNAL GRANDDAM OF LOTS 2-15

2

## MMR CHIEF 218K

30%				20% 35% 20% 30% 50%												

- Soggy, deep sided, blaze faced stud with the build of a stockman's bull and a load of maternal excellence in his genetic profile.
- These TJ Chief 460G sons out of the staple dam MMR Evergreen 508E will add pounds at weaning, as well as maternal function through their genetic profiles.
- 218K has a strong growth and performance ledger. Don't overlook his WW and YW ratios.

3

## MMR CHIEF 219K

DOB: 8/19/22 ASA: 4258125 TATTOO: 219K

1/2 SM 1/2 AN | HOMOZYGOUS POLLED | HOMOZYGOUS BLACK

		30%				20%	35%	20%	30%	50%						

- 253K will certainly catch your attention in the sale pens: attractive profiling, stout featured, with plenty of body and substance. He will be on the short list for many serious bull buyers.
- There are 13 sons of MMR Evergreen 508E available in this sale offering. Not often do you find a single cow with the ability to provide such influence on a bull crop.
- Elite performance bull here, as he is the number 1 bull in the sale for adjusted weaning weight of 799 pounds, as well as the heaviest of the TJ Chief 460G sons at yearling, tipping the scales at 1,338 pounds to ratio at 105!

5

## MMR CHIEF 215K

- MMR Bold Ruler 261K fits the mold of the other members of this flush. They are powerful, soggy, well balanced, and full of masculine character.
- All these boys are packed with weaning performance, but he takes the cake!
- 261K is the number 3 individual weaning weight bull in the sale at 707 pounds!
- His 172.1 API and 101.3 TI validates that 261K and his brothers have as attractive a genetic profile as you can find in this year's Simmental sale bulls.
- Elite indices for even the most discriminating breeder!

- Study the photo of 235K and you will notice the extension and eye appeal this bull possesses.
- Traits of convenience are covered with this bull: homozygous black, homozygous polled, and should be safe for breeding heifers.
- 66 pound birth weight for the son of BAR CK 4195B 922G is one of the lightest in the sale.
- High carcass quality and calving ease in his genetic profile, while also ranking highly for both API and TI.
- Another herd sire prospect that is recommended for use on heifers.

# THE ANGUS BULLS

## THE ANGUS BULLS

LOT 45 - MF MM GROWTH FUND 2117

LOT 46 - MF MM GROWTH FUND 2100

- Leading off the Angus division is a square built, rugged bull with plenty of width and muscle. He's deep bodied and easy doing and carries himself on a sound structural base.
- The product of flushing donor dam Car Don Rita 965 to THE WR Growth Fund 140H, this bull and his brothers light it up both genetically and physically.
- There are not many things that 2117 doesn't excel at on paper, making him an all-around breeding bull.
- Top 2% RADG, top 4% MILK, top 5% \$W, top 10% YW, top 15% CED, WW, \$F, \$B, top 20% CEM, MW, \$G, \$C, top 25% CW, MARB, REA, top 30% BW.

DEER VALLEY GROWTH FUND  
PATERNAL GRANDSIRE OF LOTS 45-47

- MF MM Growth Fund 2100 is a deeper bodied, more rugged candidate from this successful Car Don Rita 965 flush. He is big barreled and still has plenty of muscle shape and base width.
- Huge EPD profile across the board for 2100. He's elite in his genetic figures.
- There are three brothers offered here. Take advantage of adding genetic consistency and quality to your calf crop.
- Top 2% RADG, top 4% MILK, top 5% \$W, top 10% YW, top 15% CED, WW, \$F, \$B, top 20% CEM, MW, \$G, \$C, top 25% CW, MARB, REA, top 30% BW.
