

THE MORIONDO FARMS & MM CATTLE CO.

ANNUAL PRODUCTION SALE

NOVEMBER 2, 2024 AT 1:00 PM

at the ranch in Mount Vernon, Missouri

Fellow Cattlemen and Cattlewomen,

It is with great excitement we invite you out to our Annual Fall Bull Sale, at Moriondo Farms and MM Cattle Company! This cattle market is a little bit of a roller coaster, but it sure seems to be a good time to be in the cow calf business! This fall we will have around 90 bulls ready to go to work, and when you see them, you're going to see the pounds! We think from top to bottom this is the STOUTEST set of bulls we have ever produced. Pounds still pay and these herd bull prospects are going to add the payweight to a calf crop for an instant return on your investment!

The SimAngus bulls will be highlighted by our herd sire, KCC1 Walk the Line 076J, a bull that we purchased from Kearns Cattle Company in 2022. The calves sired by KCC1 Walk The Line 076J have impressed us since day one! They come easy with tremendous vigor and never look back. They are high performing cattle that offer tremendous spread from birth to weaning. There is no mistaking a calf from the "Walk The Line" sire group! We love the integrity of their structure; the foot shape that they possess is what we strive for. These herd sire prospects will crush the scales and do it in an easy keeping fashion! KCC1 Walk The Line 076J has been our go to option to utilized as an outcross breeding piece on many of the paternal sisters to bulls that each of you have purchased over the last few years. Along with the KCC1 Walk the Line 076J sons, we have some outstanding sons of TJ Chief 460G, E&B Wildcat 9042, TJ Nebraska 258G, CCR 5532 Cowboy 5115F, MR SR Highlife G1609 and a few other prominent sires represented throughout the offering. The Angus selection is light in quantity but very high in quality! It is highlighted by sons of E&B Wildcat 9402, K C F Bennett Exponential, and Conley Verified 0853.

We remain focused on the cow herd, as you study the catalog look at the familiar cow names that continue to surface. We are proud of the cows that continue to produce time and time again, they are not just one hit wonders! There is predictability and genetic consistency running through maternal foundation of our breeding program. We continue to keep our customer's bottom line as our main objective, we slow grow our bulls with a high roughage diet. We do not push these bulls, which in turn helps make them last like they should. It is why we have the confidence in these bulls to offer a full year guarantee! We have continued to invest in new genetics to offer the very best product possible for our loyal customer base.

Our dedicated crew continues to blow us away every year with their hard work and dedication. Nathan and the entire staff here in Mount Vernon put their heart into it every single day and we are so very thankful for them! We are very appreciative of our past customers and the new ones to come! We take great pride in your confidence to invest in our program and the belief that you have in our bulls to produce your next generations of calves. Come join us for lunch and take a look at these studs on November 2, 2024. I am confident that you will not be disappointed! Call Nathan or I anytime, we are here for you and will be glad to show you around!

Thank you for your interest and God Bless,

Mark Moriondo

Welcome.

Anyone affiliated with success in production and animal agriculture knows and understands the amount of sweat equity and time one has to invest in the enterprise. Those that comprehend the value of hard work and commitment to the investment are generally the ones who experience success, but that success does not happen overnight! Larry and Rita Moriondo, like those before them, understood the basic values and principles in being disciplined, frugal, and staying the course to be the very best in their budding agriculture endeavor several years ago. They will tell you of the sacrifices that ultimately led to the rewarding accomplishments that laid the foundation for what Moriondo Farms is known as today.

Moriondo Farms is a multi-generation, diversified production, agricultural entity that really knows no boundaries when it comes to understanding the ultimate value of quality. Quality in sod, quality in row crop, quality in a beef operation that is primarily comprised of one of the best sets of commercial cows in the fescue belt which has led to them improving upon and setting the standard for their seedstock operation. The operation that has you reading this letter was built with a commercial mindset, and that's why the bull offering improves annually. These bulls have worked for many of you repeat buyers for so long and that is because they sort them on quality, disposition, and industry demands when they breed them, wean them, and develop them for your respective appraisal twice annually.

The genetics within the covers of this catalog are the same genetics used in the aggressive commercial sector of the family operation. Mark has been very key in the selection of the herd sires and dams that continue the legacy and build the brand. We feel as though that this set is as good as they have ever offered, and we know what's in the pipeline to follow. This set of SimGenetic studs features multiple paternal brothers by one of the great young herdsires of the program acquired from Kearns Cattle Company that they refer to as KCC1 Walk The Line 076J. When we were at the Spring Sale and then stopped through in the summer, it was very evident that the cattle from that sire were as good as any set of bulls to trade this past spring as yearlings. The great set of herd sire prospects definitely will not disappoint as we are very certain that your selections on sale day will be more than ever. Opportunity presents itself, so take advantage of what the good family has set in front of you for your appraisal.

It is always our pleasure to work with the great team in Mount Vernon, Missouri. They are truly one of the greatest families in the business and they use the same stock within the barbed wire fences within their own program. The Moriondo team certainly has faith and proof in results of what these cattle can do for any progressive outfit. If you should have any questions or need any other assistance with purchasing your next herd sire, please feel to reach out to anyone affiliated with the Moriondo brand or the Innovation AgMarketing team. We look forward to seeing and visiting with each and every one of you.

As always, thank you for your time and interest and please enjoy the stock.

Watch the Sale on CCI.live!

The best, the fastest and most comprehensive marketing & bidding tool!

How to Bid Online...

- **As a buyer**, you do not need an account or to login to watch the sale but you must have a validated account to bid.
 - After you are logged in, you must proceed to the sale page for any and every auction and click **"Get Buyer Number."** Some auctions require a pass-code to obtain a buyer number even after you are approved by CCI.live. Pass codes generally come from the sale manager or ranch for that particular sale.
 - CCI.live will operate with ease on a **cellular device, laptop, desktop or tablet.**
- A **modern or current browser** is important and will make your experience better. You do not need to install the app on cellular devices to watch a sale. CCI.live is a browser-based application meaning it will play on most new browsers, but you can also download the CCI.live app at the Apple App Store or through Google Play.
- **For successful bidding you must have good Internet service!** It is very important to be stationary. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen - it is real time and refresh your browser if you feel like you have some lag.
- **Support line open during all sales. 405-400-9505** - Please contact the ranches for invoices and trucking.

Viewed around the world!

**SALE CATALOG, VIDEOS,
and LIVE BROADCAST...**

all at your fingertips from the sale page at www.CCI.live! Watch live sales weekly!

Over 35 years in livestock marketing!

MISSOURI SHOW-ME SELECT REPLACEMENT HEIFER PROGRAM

The Show-Me-Select® Replacement Heifer Program uses the latest research on health, nutrition, genetics and reproductive science to ensure Missouri counties continue to be national leaders in providing quality beef. The program focuses on Missouri’s farmers and is dependent upon active participation from regional extension livestock specialists and local veterinarians, each of which are critical components of the agricultural sector of this state.

This program is unique in that it is an educational program targeted at improving production efficiency through increased use of existing technology, coupled with the marketing component.

Program Objective:

- Improved heifer development programs through a Total Quality Management strategy
- Increased marketing opportunities for and added value for Missouri-raised heifers
- Creation of reliable sources of quality replacement heifers based on management, reproduction and genetics

Genetic Requirements:

Sire requirements: Eligible sires must have known ID, be registered by their respective national breed registry, and have complete EPD (opens in new window) information. Sires will be evaluated for qualification in the program based on the EPD provided by their respective breed registry and not on EPD produced by progeny registration in any other breed or hybrid registry.

Angus minimum Calving Ease EPD of 7.0

Simmental and SimAngus minimum Calving Ease EPD of 14.0

ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

Aim High

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the *Certified Angus Beef®* brand.

Only 1 in 4 non-parent Angus bulls qualify.

Minimum Genetic Requirements

Marbling EPD (Marb)	+0.65
Dollar Grid Carcass Index (\$G)	+55.0

For more information on Targeting the Brand™ visit CABcattle.com.

*Our guarantee to you and
commitment to service.*

OUR GUARANTEE

We guarantee that all bulls sold through our sale are fertile to the best of our knowledge. If a bull is injured anytime in the twelve months following the sale, that makes him functionally infertile, we will provide a replacement bull or issue a credit in following sales, equal to the purchase price minus the salvage value received for your bull. This is not a life insurance policy. The guarantee is in addition to the sale terms and conditions of the American Simmental Association and American Angus Association, which will also apply.

CUSTOMER SUPPORT

We believe in the cattle we are producing here and believe in the cattle that you are producing at home. When the time comes for you to market your calves, however that may be, if interested call myself and let me know your plans with your cattle and see if we can assist or bid on your calves however you may sell them. Extending every dollar in the cattle business is how it is made, and we would love to help if we can

- What a way to initiate the 2024 edition of the Moriondo Farms & MM Cattle Company Fall Production Sale! We are proud to introduce you to a NEW sire group that represent the type and kind of cattle that we strive to produce.
- KCC1 Walk The Line 076J was our selection from Kearns Cattle Company of Rushville, Nebraska in 2022. 076J is sired by the \$40,000 KCC1 Folsom 512F, a son of the \$400,000 TJ High Calibre 556B that is backed by the impressive CCR Ms Misty May 8014U donor. The maternal side of his pedigree traces to the high income generating cow family for the Kearns family, KCC1 Havana 83E, a full sister to the \$120,000 KCC1 Exclusive 116E! KCC1 Havana 83E is most known as the dam of the \$230,000 KCC1 Countertime 872H.
- L410 is supported by arguably the most dominant cow family in Mount Vernon, Missouri. His dam is the iconic MM Pleasant Pill 212 donor that is backed by the great MSC Pleasant Pill matron, the dam of lot 3.
- L410 is one of the very best SimAngus herd sire prospects that we have EVER offered. We love his foot quality, structural build, flexibility, and overall dimension. He is undoubtedly one of the most eye appealing bulls in the sale, offering a look of quality that is hard to mirror.
- He ranks among the top 15% CE, 20% MARB, 25% API, 30% TI, and 35% YW.
- Recommended for use on heifers.

- L420 is an ET flushmate brother to MMR Walk The Line L410, the featured lot 1 herd sire prospect. L420 a bold ribbed, dense bodied herd sire prospect that has a similar build and look to his full brother.
- L420 is the higher calving ease option that is tremendous option for use on heifers with his 18.2 CE EPD and moderate 77 lb. actual birth weight!
- The dam of L410 and L420 is a picture perfect female that offers exceptional udder quality, fleshing ease, and fertility. Maternal brothers are working for Zach Kearns and Travis Gauling.
- L420 ranks top 10% CE, 30% MARB, 30% API, 35% BW, and 35% TI.
- Recommended for use on heifers.

- Another standout from the KCC1 Walk The Line 076J sire group that is supported by a member of the famed "Pleasant Pill" cow family. The dam of L412 is the maternal granddam of lots 1 and 2, a female that has left a true impact within the Moriondo Farms and MM Cattle Company breeding program.
- L412 is supported by the original member of the "Pleasant Pill" cow family that came to work at Moriondo Farms and MM Cattle Company, MSC Pleasant Pill, the daughter of S A V Priority 7283.
- He is a sound footed, smooth made bull that offers exceptional shape and power. A definite option to consider if you're looking for a bull to sire top shelf replacement quality females.
- Recommended for use on heifers.

- Next up is a phenotype standout from the KCC1 Walk The Line 076J sire group, MMR Walk The Line L419!
- This larger framed, long bodied bull is one that we have admired since day one. He is a rugged, masculine designed beef bull that is athletic in his stride. A big scrotal bull that is supported by one of the premier cow families at Moriondo Farms and MM Cattle Company.
- His dam, TR Ms Echo 7459E, is a daughter of Basin Payweight 1682 and from the impressive TR Ms Precision 9729W matron at Thomas Ranch. A maternal sister to 7459E, TR Ms Precision 2077Z, is one of the foundation Angus donors at Kearns Cattle Company that was instrumental in the development of their SimAngus breeding program.
- He is a big time carcass herd sire prospect that ranks top 15% MARB, 15% CW, 15% API, and 25% TI. L419 also ranks among the top 20% of the breed for STAY.

- Backed by the same cow family that produced the lots 1, 2, and 3 herd sire prospects in this year's sale! MMR Chief L371 is a big topped, thick made son of TJ Chief 460G that is supported by the everlasting influence of the MSC Pleasant Pill cow family!
- A big scrotal, stout made bull that is long sided, and sound footed.
- His dam has produced several other sons that have made the sale annually. Consistency is a key to success!
- He ranks among the top 15% of the breed for MILK and top 25% MARB.

MMR CHIEF K032 - FULL BROTHER OF LOT 24

MSC PLEASANT PILL - MATERNAL GRANDDAM OF LOT 25

WALLACE EVERGREEN 1105 - MATERNAL GRANDDAM OF LOT 26

ROCKING P LEGENDARY C918
MATERNAL GRANDSIRE OF LOT 26

LOT 27 - MMR CHIEF L373

- The next herd sire prospect is a three-quarter brother to L371. He too is sired by TJ Chief 460G and backed by a productive daughter of Rocking P Legendary C918.
- His maternal granddam is the iconic Wallace Evergreen 1105 donor, one of the foundation matriarchs that helped to build the maternal base of the cowherd on Lawrence Road!
- A maternal brother to L322 sired by Southern Fortune Teller was purchased in 2022 by Scott Wagner.
- He ranks among the top 10% of the breed for MILK.

- L373 is a big bodied, thick made son of TJ Chief 460G that is flawless in terms of his skeletal design. A big footed, sound made bull that is ready for heavy service!
- The maternal side of his pedigree is supported by the iconic GCC Total Recall 806T.
- Several maternal sisters to L373 have been retained in the program. In 2021 a maternal brother highlighted the calving ease prospects and was selected by Troy Mikell.
- He should sire scale pounding feeder cattle as he posted over 700 pounds of payweight at weaning time.

- Several maternal sisters to L407 have been put back into the herd due to their extra quality, fleshing ease, and real world performance.
- A moderate birth weight bull that should work well on heifers.

MMR FORTUNE TELLER K013 - MATERNAL BROTHER OF LOT 28

LOT 30 - MMR CHIEF L338

- Extremely eye appealing, well balanced, and powerful son of TJ Chief 460G that deserves serious consideration on sale day!
- We have featured L338 in a lot of the early advertisement for a reason! We love the extra length and extension that he offers in combination with the volume and capacity in which he possesses.
- His dam is a non-registered Angus cow sired by MAR Innovation 251 that has done a tremendous job year after year. In fact, a maternal brother sired by TJ Gold 274G was purchased last fall by Preston Lee.
- He ranks top 20% MARB, 25% MILK, 30% MWW, and 30% DOC.
- A top herd sire prospect that we believe will add true value to any program!

MAR INNOVATION 251
MATERNAL GRANSIRE OF LOT 30

LOT 31 - MMR CHIEF L400

- Check out this big framed, stout made, heavy duty herd sire prospect from the TJ Chief 460G sire group! We love the structural integrity, flexibility, and foot quality that he offers.
- A big scrotal bull that is long bodied, thick ended, and wide topped.
- He ranks among the top 15% MILK, 15% MWW, 25% WW, 30% YG, and 35% YW.
- A surefire candidate to sire cattle with extra frame and length of body.
