PLUM CREEK ANNIE LU 9271

PLUM CREEK ANNIE LU 4472

We hope and believe that lightening can strike twice here, with this full sister to last year's Lot 1 female, the one that has been campaigned by the Curtin family, and was selected as the Reserve Champion Female at the 2024 NJAS. Lot 1 is backed by a pedigree that has captured some of the most prestigious banners in the nation over the past two years, being sired by the hottest Angus bull in the breed, BNWZ Dignity 8017, and backed by the impressive Plum Creek Annie Lu 9271 and furthermore Plum Creek Annie Lu 4472. Over the past two sale seasons, 9271's ET progeny have sold for \$55,000, \$42,000, \$40,000, \$25,000, and \$19,000. Another full sister to 44M was the Thoreson families, Kruse Annie Lu 9152 that was the Supreme Champion Breeding Heifer at the 2023 Iowa State Fair. Truly this is a female that carries the credentials and confirmation to play on the major league stage, she is a sight to see in person and she alone is one that makes the trip to St. Ansgar worth it.

The second daughter of the rising star in the breed, Plum Creek Annie Lu 9271 is supported by a fresh mating. Sired by the STAG Good Times 201 ET stud, brings to the equation the maternal powers of the herd bull generating, SCC SCH Phyllis 6104 matron. This maternal sister to Lot 1, the Curtin families Reserve Champion NJAS female and the Thoreson families, Kruse Annie Lu 9152 that was the Supreme Champion Breeding Heifer at the 2023 Iowa State Fair, stands up to the high standards set by those illustrious members of her family tree. It seems there is no wrong to be done by associating your program with one of these daughters of the Annie Lu influence. Keep in mind, their maternal granddam, Plum Creek Annie Lu 4472 is the mother of Braelyn Schaeffer's Supreme Champion Female at the 2022 Hoosier Beef Congress, Reserve Champion Angus Female at the 2023 Cattleman's Congress, and Reserve Champion Angus Female and 4th Overall at the 2023 North American, along with being a full sister to Plum Creek Paradox.

The third maternal granddaughter of the Plum Creek Annie Lu 4472 influence to sell comes from a different maternal source than you have come to expect through our past couple of marketing events, yet when they say power in the blood, it certainly rings true here. This SCC SCH 24 Karat 838 sired daughter stems from an ultra-impressive S A V Resource 1441 sired daughter of Plum Creek Annie Lu 4472, that was a \$50,000 high seller in the fall of 2018. This burly built, January born female combines the intangibles of good beef, with all the extra bells and whistles that it requires to make a consistent trip to the backdrop.

Here we see the results of a fresh mating on the cornerstone Angus donor for Weis & Lashmett, UDE Queen Ruth 9088 "Becky". This May born daughter of PVF DLX King Pin 0058 has such an intriguing look to her, she is truly captivating in her presence and her build foreshadows a very successful show career ahead. Her sire, PVF DLX King Pin 0058 stems from the maternal power of the famed Lucy cow family that has helped build the PVF cowherd, his C&C Priority 1428B sired dam is a direct daughter of the legendary Thomas Lucy 7360 and is a past NJAS division winner. His first eight daughters to go under the hammer averaged over \$50,000.

You will recognize the dam of Lot 7 as the Steenhoek families, 2018 NAILE Grand Champion Junior Angus Heifer, UDE Ellie 153E. This daughter of the North American champion is sired by a popular sire of choice among Angus enthusiasts, KR Casino 6243! Her stoutness of feature, rugged design, and square build at the surface has laid the foundation for true skeletal quality. We have always admired the extra dimension that this female possesses. Maternal sisters to 153E would include Sara Sullivan's 2020 NJAS Grand Champion Owned Heifer and 2020 NAILE Grand Champion Junior Angus Heifer, UDE Ellie 9230. UDE Ellie 9230 is emerging as a leader of the pack from the SULL branded Angus program with two daughters commanding \$275,000 and \$120,000 price tags in the 2023 sale season. Another popular maternal sister to 153E, UDE Ellie 9197, was a many times champion for Kaylee Langford.

SELDOM REST BRMF PIN UP GAL

One of the first daughters of the Bayer families, NAILE division winning, Seldom Rest Pin Up Gal 8105 or as she is known around the barn, "Mocha" to be marketed. And she enters the scene with a splash, as this BNWZ Dignity 8017 sired daughter is certainly the kind to turn heads. Maternally she stems back a further generation to the legendary Seldom Rest BRMF Pin Up Gal donor that stands at the center of the Foster family's program. Countless success stories out of the Seldom Rest stable are attributed back to Seldom Rest BRMF Pin Up Gal, including a pair of successful full sisters to the dam of Lot 9. Seldom Rest Pin Up Gal 8134 was the Grand Champion Angus Female of the 2020 Fort Worth Stock Show, Supreme Champion Breeding Heifer at the San Antonio Stock Show, and Supreme Champion female at the Tri-State fair for Georgia Bezner. Seldom Rest Pin Up Gal 0103 was a very successful female for the Oakley clan, yet her shining glory came with the slap for the Supreme Champion Breeding Heifer at the 2022 Cattleman's Congress, a feat that only just a small handful can lay claim to.

MATERNAL LEGENDS

If cow power and maternal value is high on your list of selection priorities, then some investigation into this BNWZ Dignity 8017 sired daughter is certainly valid. Her dam, Pinehurst Donna 8409 sets the standard for what a female should look like, with a beautiful udder set up, impeccable structural build, ideal fleshing ability and longevity built in, we love how she has mated up with the show ring approved Dignity. You can trace the maternal pedigree of R2C Donna 4840 to multiple generations of powerhouse females, her maternal great granddam is the \$290,000 valued, Coleman Donna 714, the all-time high income-producing female at Coleman Angus Ranch and the source of many of the most prominent individuals to come from the hallowed program. The maternal granddam of Lot 13 is also a maternal sister to the \$480,000 Coleman Rock 7200 and the \$450,000 Coleman Bravo 6313.

It should not come as a surprise that we aren't afraid to try something a little different if there is quality involved, here you will find exhibit A. The Tassin family have left no prisoners on their escapades in the Beefmaster circles, and when we reached out about sending one north for a different crowd they sure delivered. This female is just high quality when it comes to the fundamentals of breeding cattle, cat like flexibility, the big pieces that meet the earth, and while she comes with a little extra surface to her front third, you can read through that and realize the femineity and extension she has. She shares a sire with the National Champion Bull and Heifer calves that the Tassin family have been campaigning, so you can trust that you're jumping on the right boat within this progressive program.

We look forward to entering the Gelbvieh circles with this PVF Blacklist 7077, Balancer female. BSSC Montana 4081M comes to us from the Butlers Ms Jasmine 730J ET female that was campaigned by Braylen Schaeffer. 730J is a cornerstone female for the Schaeffer program, and is a full sister to BCFG Butlers Ms Greta 730F, the other Gelbvieh breeding piece for Schaeffer that was the Grand Champion Junior Balancer Female at the 2020 North American, and 2021 Cattleman's Congress. Tie into a cow family has earned the respect of the best in the business.

We have been fortunate to collect some very prestigious banners with the white hided stock to come out St. Angar, and the 2023 National Western Stock Show testifies as one of the most momentous, as a daughter of BOY Outlier 812 ET PLD, in TLAC Good Time Dallas 9916J, was crowned the Grand Champion Charolais Female in the Junior Show for Kade Roeder. This was not her first time at the backdrop either, as she was also the 4th Overall Champion Breeding Heifer at the 2022 World Beef Expo. This champion is the donor dam responsible for the two full sisters tagged 23 & 24. If you keep investigating the maternal lineage, then you will find the next generation adds plenty of accolades, as CC BS Call Me Maybe 8906

ET P or “Phyllis”, remains one of the most decorated Charolais females to have entered a showing in recent history, perhaps a rap sheet only to be trumped by her own mothers wins! While the story written by the lineage is vast and impressive, we believe this pair of sisters has the makings of a nationally renowned resume in their own right. Built with just about the most of about every positive trait you can ask for, we think it is going to take some pretty special ones along the way to knock these off the top of the totem pole. The power of the pedigree reads true here, the Charolais breed continues to prove its ability to be a serious contender in the Supreme Champion lineups, get on board here and buckle up for the ride.

This direct daughter of the legendary M&M Outsider 4003 PLD has been a fun one to have around, she is elegant in her design, sleek about her front third, and offers a symmetrical look of balance and quality from the profile. This $\frac{3}{4}$ blood, Composite Charolais female stems from the maternal powers of a tenured member of the RJ Cattle donor pen in the Peaches 25F donor. Peaches is a Gunsmoke x Who Da Man daughter that has proven her incredible versatility across a wide array of matings. A must see on your trip to Weis Cattle if you're in the market for an elite show heifer that has the credentials and lineage to make her mark as a donor!

2024 has brought upon a new sensation in the Chianina circles, as the LLW Cardinal Crossover 236J sire has emerged, and is causing a stir. Those who were progressive enough to utilize him, are certainly going to be rewarded as they seem to be a next generation type of product, and are built with all the bells and whistles that make big time show heifers. We think this High Chianina, Mainetainer female is something quite special, and offers an elite look of quality regardless of your vantage point. So intriguing and attractive about her front third, yet transitions into a bold and three-dimensional body type and maintains a square and genuine structural build, one that allures you on the standstill but reinvents possibilities when she is set into motion. She has all the intangible assets to compete at a national level, and furthermore yield some serious returns on investment once she is done standing at the backdrop.

DIAMOND

The cow family in support here is a major cornerstone in the Weis Cattle program, stemming back to the Diamond female who has been a potent source of genetic matriarchy through several daughters that continue to lead the donor pen. This loud colored Maintainer has a stunning, high tying neck attachment and tight throat latch, needless to say she has no troubles catching attention. From that point she transitions into a robust forerib and center body shape and is near ideal in her underline. We dig the XL sized set of feet and legs that come as a standard feature of this lineage, and her perky ear set just tops off her intrigue and appeal. One that looks like she has some serious generating potential down the road, and offers versatility for show steer production.

HPF VICTORIA B396E

We have put a lot of faith in the HPF Victoria B396E cow family. Ever since I first laid eyes on 'Vicki' I knew that this was a female that had to be incorporated into our SimGenetic breeding program. KC2 Victoria 6H is the WLE Copacetic E02 sired daughter of "Vicki" that we own with the Lashmett family. 6H was a many-time champion that landed herself a spot in the top 10 at the AJSA National Classic in 2021. She is the dam of Lots 37-39. Maternal sisters to Lots 37-39 have found heavy demand, including two daughters of JBSF Berwick at \$33,000 for half interest and \$14,000.

Sired by the legend himself, MR HOC Broker, M406 is one that we have been crowing about for some time, we believe that she will be a major player on a major level. We could describe all the good things about her, but we just encourage you to make the trip to see her in person, we think this one would make a journey across the pacific worth it.

VEF BIB ANT 21E

DAUGHTERS

The second daughter of the up-and-coming star, VEF Ant 60G 'Winnie' comes with all the bells and whistles, she is extra-long and chiseled about her front third, with sharp, exotic lines from there back while setting down on more circumference of bone and a bigger foot than many of her contemporaries. This incredibly designed percentage female doesn't leave much to chance, take this one home, keep the feed to her and bring her genetic potential to life, not only does she have the phenotype, but she has the potential from a genetic standpoint. This kind is built for the long haul, she will see success all year long, but it will be on the biggest stages when her quality is recognized the most.

HARA'S KIM KARDASHIAN 11C

HARAS HAIRIETTA CLONE H4W

It would be challenging to pinpoint which donor at RJ's is the most prolific; however, it's safe to say that Hara's Kim Kardashian 11C "Lady Killer" is making big strides in towards securing this position. In RJ's 2023 Fall Sale, her progeny combined for a group averaged of \$42,875 and topped out with the high selling female being a daughter by Memphis Mafia that commanded \$175,500 for half interest. She is also recognizable as the dam of the \$270,000 valued, RJ Trust Fund 212K. A full sister to Lot 46 was the talk of the Northern Plains this fall as she sold on RJ's 2024 Commitment to Excellence Sale for \$100,501. Tie yourself to the hottest cow family in the business, and while she is bound to make an impressive show heifer prospect, we think the chances of her generating some serious returns on investment is what excites us the most.

Its stock like this Percentage female that have us fired up about the RJ Trust Fund 212K influence, they are just built with an extra degree of shape and power, with an intriguing look and rugged structural kind. This female defines flawless build and kind with a very cool and ideal look through the front third of her skeleton, with the high tying neck shoulder junction and an elevated chest floor that transitions to an impeccable underline. Her overall body shape and squareness is complimented by an awesome rear leg that sets super flexible at the surface.

The Ruby NFF Rythm B064 donor dam has written an impressive chapter through the early stages of our Simmental breeding program. It's cattle like this granddaughter that will continue to build the legacy of her influence of success. The overall build and quality of this heifer calf is more than intriguing. If one built as elegant and flawless as this doesn't get you excited about the position that the Simmental breed holds into the future of the show heifer and beef business then we don't align. She entwines some of the very best cow families from the Angus and Simmental breeds that influence the upper echelon. Take note that her dam is a full sister in blood to the Curtin families, Iowa State Fair Champion Percentage Female, JPLF Rhythm E724.

Second Chance 601H is a Foresight x HPF Victoria B396E that is an absolute standout stud, he is built with the extra-large sized feet, a perfect hind leg, impressive extension and a dynamic look from the side. This April Purebred female is a perfect representation of what we think is to come from his influence going forward, cattle that are built with an incredible silhouette, impressive symmetry and a plenty stout enough set of features. Looking into the maternal pedigree of this female reveals the reliability of the high productivity, Ruby NFF Rythym B064 donor dam that has been there since the beginning for us, with this comes all-inclusive maternal quality and real-world beef value once she enters the revenue generating stages of her life.

RJ MISS ELLIE 7052E

HARA'S MISS HEARTBREAKER

A sale highlight sells here. This direct daughter of the dam of distinction, RJ Miss Ellie 7052E is a full sister to one of the most popular Purebred Simmental heifers to show in the last decade! The Roeder family showed TL Sadie 37K through the 2023 show season to countless victories. She debuted at the 2023 Illinois Beef Expo and was slapped Reserve Overall Supreme Champion Heifer. At the AJSA National Classic, TL Sadie 37K was a barn favorite that ended the day as the 3rd Overall Purebred Heifer. She to was the 2023 Illinois State Fair Grand Champion Purebred Simmental Heifer and eventually Reserve Supreme Breeding Female. At the 2023 NAILE she was slapped the Grand Champion Purebred Simmental Heifer in the Junior show and was Reserve Grand Champion in the open show! Another maternal sibling to Lot 50 is the \$100,000 TL Revenant 35, a resident herd sire for Jim Bowling of Indiana. There is no shortage of quality entwined in the supporting lineage of this phenotypic outlier, she has both the constitution and reliability of pedigree to shine under the bright lights.

This daughter of the American Royal Champion, and NAILE Reserve Champion, J6C Weis Miss Coco 16F donor might not have days of maturity in her favor, but she certainly has favored amounts of upside potential, as she was blessed with some very neat attributes. This May born purebred has the trendy underline, bold ribcage, and ideal running gear. She is one of the squarest pinned, flexible spined Simmentals you will find, with the awesome soft hair quality, responsible frame size and perfect nature. On the halter she further elevates in regard to her presence and eye appeal. We think there is worlds of potential ahead for this female, a full sister sold in this same sale last year for \$16,500 to Paisley Betts.

The dam of this eye-catching baldy was one of the most impressive Maine Angus females you may ever lay your eyes on, she was shown by Brenna Wilkins to a purple banner at the American Royal in 2021. In her first calf crop she raised the impressive promotional sire, MINN Sure Thing 248K. Her second calf, and maternal sister to Lot 52 is the Safety First daughter that sold for \$66,000, half interest to the Guyer family. This female was the 3rd Overall in both rings at the Illinois Winter Warm-Up! But none of this should come as surprise once you investigate the pedigree, because there you will find the iconic, MINN Katie 9B just a generation back. The writing is on the wall here, get in on a cow family that is taking the business by storm. If you like them futuristic in their build, with incredible hair quality, outrageous proportions and all the extras then bid to buy here.

There is purple running through the veins of this sporty built three-quarter blood. Her dam, S&S TSSC BT Ariana 1226J was a \$92,500 feature of the 2021 Schaeffer-Tice September Sale and would have to have one of the most impressive jackpot show records of any in the last couple of winter show seasons. She was a leading lady in the Hendrickson families 2021-22 show string and was sashed with overall honors at the Hoosier Beef Congress, Purdue AGR, Cass County Preview, VCCP Winter Classic, Gibson County Preview & Kentucky Beef Expo. If you need any more convincing of the power of pedigree here, then take note that Ariana is direct daughter of the multi-million-dollar revenue generator, JBSF Plenty Foxy 12E. This daughter of Something About Mary comes with extra body volume, structural integrity, poise and balance, and is capped off with an extra attractive front third of her skeleton. When this one is parked she catches your eye, but as she sets in motion she gets your heart racing. High quality livestock here, and with the power of the cow family that backs her, we know her time in production will be profitable.

You couldn't find much of a hotter pedigree than the one supporting this perfect baldy faced purebred. The Pridette cow family has been lighting the Simmental breed on fire over the past 12 months, the maternal granddam of Lot 55, XXX Bailey's Pridette 1D is now best recognized as the dam of the Pryor families, R2C Bailey 314L, a WLE Copacetic E02 daughter that has been a crowd favorite ever since the first time she donned a leather halter. Her list of accomplishments this past year include, Reserve Grand Champion Simmental Female at the AJSA National Classic, Supreme Champion Breeding Heifer at the Iowa Beef Expo and 4th Overall Breeding Female at the Iowa State Fair. Now onto the dam of Lot 55, she was Jackie Sleichter's Reserve Grand Champion Simmental Female at the 2021 American Royal, and is a full sister to the \$180,000 phenom from the recent, 2024 Holtkamp Cattle Company Online Sale. Needless to say, pedigree alone separates this one into a league of her own, yet when you see her in the flesh you may think she does this on her own accord, due to her incredible phenotype.

JASS ON THE MARK 69D

VANHOVE ON THE MARK 822

UDE PRINCESS 905G

MLJM SHELBY

A striking baldy faced purebred female that is super maternal in her body cavity. She is a daughter of the Harker family's up and coming headliner, Vanhove On The Mark 822, and is probably best recognized as the dam of the Griswold and Vanhove promoted, Harkers Spot On. Although another daughter of 822 caused quite a stir when she was a part of the Harker family's show string in 2022-23. The fall born, EC Rebel 156F daughter was tough to roll in her division all year long, and most famously was the Fourth Overall Bred and Owned Purebred Female at the 2023 AJSA Classic. The Only One mating on the 822 donor has proven to align all the highly maternal genetics that are embedded on the bottom side of the pedigree here, and created a female that reads with worlds of generating potential.
