

The Oak Meadow Farms
7th ANNUAL PRODUCTION SALE
FEB. 8, 2025 AT 1 PM- CRESCO, IA
Simmental and Sim Angus™ Genetics

Oak Meadow Farms

Sale Schedule

Friday, February 7, 2025

Cattle on display 1:00 - 5:00 pm CST

Saturday, February 8, 2025

Cattle on display beginning at 9:00 am

Lunch served at 11:30 am

Sale Begins at 1:00 pm CST

Sale Location

Howard County Ag Education Center

220 7th St W - Cresco, IA 52136

Cattle will be onsite beginning Friday, February 7, 2025. Some of the bred heifers may be left at their respective farm in the event they appear to be close to calving.

Sale Updates

Please visit the Oak Meadow Farms or Innovation AgMarketing, LLC Facebook Page for sale updates and announcements. In the event there is a snowstorm or winter weather advisory, we will make announcements regarding the start time of the sale.

Supplement Information

A supplement sheet will be posted at DVAuction.com with ultrasound data and scrotal measurements. Additionally, the supplement sheet will outline special terms & conditions and/or retained semen interest in any of the bulls selling.

OMF

Oak Meadow Farms

Friends,

The Aggen, Bigalk, and Seinola families would like to wish you a warm welcome to the Seventh Annual Oak Meadow Farms Production Sale. We are once again excited to have produced a set of bulls that are backed by the hard-working females that make up our respective programs. As breeders we have been diligent in our genetic selection and are dedicated to producing healthy, high-quality Simmental and SimAngus™ beef cattle. We take our role as your seedstock provider very seriously and will continue to make genetic investments annually to improve the product we offer.

Now more than ever quality genetics and customer service are a must. One example is our popular Oak Meadow Farms influence customer appreciation feeder calf sale held every November. We appreciate and value the relationship we have with Joe Nelson and the industry leading commission firms that he and his family operate in Lanesboro, MN and Decorah, IA.

The cattle in this offering excel in their physical traits and have strong EPDs and Indexes with the common goal of customer success. We welcome you to join us on February 8, 2025 at 1 PM for our 7th Annual Sale that will be held in Cresco, Iowa at the Howard County Ag Education Center. NEW this year, we are excited to host you all on Saturday afternoon for our 7th Annual Sale. The sale will be a video auction in the comfort of the state- of-the-art climate controlled building. We will have videos of the entire offering and welcome you to stop by the farm prior to the sale. The sale cattle will be on display the day before the sale and sale day for your inspection as well. Please feel free to call or text us to discuss the offering, thank you for your interest!

February 8, 2025 in Cresco, Iowa

Welcome,

What a ride the entire U.S. Beef Industry has had over the past five years! Sure, not every entity had their hay day in unison with another, but at some point, every moving facet within the business has had a great experience. For the past eighteen months, the cow/calf entity has had their fair share of gravy, and it needs to continue so that it can be passed on, as success only breeds success. The seed stock provider is in a good position as we look towards the spring 2025 bull run, if they have the product that meets the criteria of their prospective customer base. Outfits like Oak Meadow Farms and their astute constituents that host and contribute to the cattle offering, are prime known suspects in the marketplace with the reputation to have the stock that meet the stringent industry standards.

"Doc Lynn", Matt, and the entire team of Harmony, Minnesota, take great pride in what they have built over the past few decades. They have always bred cattle with size, scale, skeletal integrity, and fertility. Hoof quality became inclusive from day one, given the professional career choice of Lynn Aggen, and along with that came the expectations and the sort on udder quality, disposition, and maternal instinct. The mindset has worked pretty well to this point, and they continue to tweak on the genetic side just like anyone else who desires to stay on top. Over the past five years they have been able to place cattle within some of the finest breeding programs known, CK Cattle and Wager Cattle, Iron Creek Cattle, Kearns Cattle, Werning Cattle, King Cattle, Clear Water Simmentals, and JWC, to name a select few, have all shown confidence in the program through their investments in herd sires and donor females. The OMF prefix has stayed the course to produce the perfect blend of phenotype with the numeric credentials that assist their clientele in achieving their goals for conversion and payweight regardless of market endpoint with sensible calving merit, the right amount of maternal, and carcass value.

Along with the finest people of Harmony, Minnesota, they have close friends of the program in the Bigalk family of Diamond K Simmentals and the Seinola family of Five Star Ranch. Both have been students of the OMF brand and program for many years. Both entities deeply respect Lynn and Matt and are very devout to the sale and the core values the father program has set. One of the sale highlights in the bull pen would be the son of Rockin H Captivate J75, known as Five Star Monument M29, bred by Five Star Ranch. We believe him to be of high quality and demand and quite possibly the very best Purebred Simmental prospect with a red hide anywhere in the land.

As always there will be a very healthy, high quality set of bred females and some will be calved by sale day. These are always a treat to look at and evaluate as the quality never ceases to improve from one year to the next. Several of these females go into other seed stock breeders and end up in the donor pen or at least raising a bull or a female that with nearly double the investment every time. These girls are bred to work and bred to last.

It's always an enjoyable time in the climate controlled sale facility. The food will be abundant, the fellowship will be plentiful, and the hospitality will be incredible. If you love good cattle and enjoy great people, then we will see you on February 8 at 1:00 PM for the new date but same start time. If the Innovation AgMarketing team can help in any way, please feel free to contact any of us for assistance.

We will see you at the sale!

Super 8 - Cresco, IA - (563) 387-9233

HERD HEALTH

All animals selling are tested negative for BVD-PI. Bred females are vaccinated with scour guard. All 3 herds have an extensive Johnes testing program, and have complete vaccination programs supervised by Dr. Lynn Aggen. In the event any of the bred heifers appear to show immediate signs of calving, they will be left at the farm in Harmony, Minnesota. Many are due on or around sale day.

BULL GUARANTEE

Unless otherwise noted, all the breeding age bulls will have passed a breeding soundness exam prior to pick up/delivery. In addition to the standard Terms and Conditions of the American Simmental Association, we will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all yearling and older bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price less the salvage value of the animal.

VOLUME DISCOUNT

A 5% discount will be given on the purchase of 5 or more bulls.

TERMS

Terms of sale are cash or check payable immediately upon conclusion of the sale and before animals will be removed. Sale will be available to registered bidders via the Internet at DVAuctions (www.dvauction.com) to accommodate both local and distant individuals who cannot attend in person. They provide a real-time internet broadcast during the sale. All absentee bidding will be done via internet to a ringside sale representative. Please register for bidder number at dvauction.com any time prior to 12 Noon on Friday, February 7th to accommodate the approval process. After this date/time, bidder approval may be delayed. Approved bidders will be issued bidder number and access prior to the sale. For questions or sale bookings call Office M-F 8am-6pm CT: (402) 316-5460

SEMEN INTEREST

Seller retains 1/3 semen interest in all bulls selling unless otherwise noted or announced from the auction block.

RISK

Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury, and will be loaded according to purchaser's direction.

INSURANCE

James Bessler - (815) 762-2641

LIABILITY

Neither owners nor sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents.

BOARDING

Bulls will be wintered at no additional charge until April 1, 2025. Bulls will have passed a thorough breeding soundness exam prior to pick up/delivery. Since each animal becomes the risk of the purchaser as soon as sold, we strongly recommend a mortality insurance policy be taken out on any animal that is left to be wintered. Any bulls left past April 1, 2025 will incur a \$3/Day feed charge.

ANNOUNCEMENTS

Announcements from the auction block will precedence over statements in catalog. Disclaimer: The information in this catalog is subject to change.

TRUCKING

Free delivery on all bulls within a 250-mile radius of the sale. In the event you have a further distance to travel we will assist in the coordination of your animals delivery. Here is a trucking contact that we strongly recommend. Dick Coleman (765) 461-0954

ONLINE BIDDING

We are pleased to bring you real-time internet bidding and a live broadcast of this sale through DVAuction.com. If you are unable to attend for any reason, you may bid online at dvauction.com. Please register for bidder number at www.dvauction.com anytime prior to 12 Noon on Friday, February 7th to accommodate the approval process. After this date/time, bidder approval may be delayed. Approved bidders will be issued bidder number and access prior to the sale. For questions or sale bookings call the Office M-F 8am-6pm CT: (402) 316-5460.

A GUIDE TO EXPECTED PROGENY DIFFERENCES

Expected Progeny Differences (EPDs): EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing what units they are expressed in. For example, if the above case referred to weaning weight EPDs, A would be expected to sire 15-pounds more weaning weight than B. If calving ease were the trait, A would be expected to sire 15-percent more unassisted births in first-calf heifers; in other words, if B sired 30 assists in a group of 100 heifers, we'd expect A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit www.simmental.org. Listed below are the units ASA EPDs are expressed in:

- **Calving Ease (CE):** Percent of unassisted births when used on heifers.
- **Birth Weight (BW):** Pounds of birth weight. Calving Ease (CE): Percent of unassisted births when used on heifers.
- **Weaning Weight (WW):** Pounds of weaning weight.
- **Yearling Weight (YW):** Pounds of yearling weight.
- **Maternal Calving Ease (MCE):** Percent of unassisted births in first-calving daughters.
- **Milk (MLK):** Pounds of weaning weight due to milk.
- **Maternal Weaning Weight (MWW):** Pounds of weaning weight due to milk and growth.
- **Stayability (STAY):** Percent of daughters remaining in the cowherd at 6 years of age.
- **Carcass Weight (CW):** Pounds of carcass weight.
- **Yield Grade (YG):** Yield grade score.
- **Marbling (MRB):** Marbling score.
- **Back Fat (BF):** Inches of backfat.
- **Ribeye Area (REA):** Square inches of ribeye.
- **All-Purpose Index (API):** Dollars per cow exposed under an all-purpose-sire scenario. (See below for more details.)
- **Terminal Index (TI):** Dollars per cow exposed under a terminal-sire scenario. (See below for more details.)

\$ Indexes: Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where \$ indexes come in. Through well- conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on your bottom line. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes: All-Purpose Index (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

Terminal Index (TI): Evaluates sire for use on mature Angus cows with all offspring put on feed and sold grade and yield. Using API and TI: First, determine which index to use; if you're keeping replacements use API, if not, TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. x 4 yr. = \$6,000). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit www.simmental.org.

Quality available at every price point

**258 BULLS HAVE SOLD OVER THE LAST 6 YEARS AT
OAK MEADOW FARMS FOR AN AVERAGE OF \$7,425!**

The price inflation per head is directly correlated to AI sire prospects that have previously sold. At Oak Meadow Farms we take our roll as your trusted source for quality Simmental genetics seriously. We believe our genetics will add profitability to your bottomline in the form of pay weight, maternal excellence, and longevity!

Call today to discuss what specifications you are looking for – we want to get you a bull that best fits your operation!

From Our Customers

"We have been purchasing bulls from Oak Meadow Farms for most of the last decade. The performance of our calves and market animals has improved dramatically during this time. Their customer service is excellent, and we value their advice in livestock production and animal health. They are an asset to the seedstock industry, and they are really nice people."

- Loren Mathison - Preston, Minnesota

"We have purchased bulls over the past several years and the results of that stand out in the pasture! The females we have invested in are not only replacements, but are cattle that we have used to build out cow herd. The team at Oak Meadow Farms is always willing to lend a helping hand. They know what bulls will fit our program and will help us achieve our production goals!"

- Nate & Lucas Huesinkveld - Decorah, Iowa

"I have purchased a bull, bred, and a flush in past sales; each time thinking I got the buy of the sale. I've retained daughters for my herd out of each investment. The bull has bred spring and fall cows each year since he arrived. Perfect toes, second to none disposition, and the presence to win a show. These cattle have made me money, but the relationships and networking opportunities that I've gained by doing business with these firms is the most important to me."

- Ethan Wedeking, Plainfield, Iowa

THE RIGHT TIME SON

LOT 1

OMF LUDACRIS L17 | \$70,000 3/4 Brother to Lot 1

- We initiate the Oak Meadow Farms 7th Annual Production Sale with a dynamic individual that is supported by the high income producing cow family in Harmony, Minnesota. Allow us to introduce you to OMF Makaveli M24, a son of the iconic OMF Time Less B100 that is sired by ES Right Time FA110-4. M24 is a full brother to the \$64,000 half interest bred heifer that was selected by Maple Lane Farms and Griswold Cattle Company in last year's sale. Following the sale, these two progressive firms doubled the hammer price to acquire full interest in the stunning OMF Kristy K88!
- OMF Ludacris L17, a three-quarter brother in blood to OMF Makaveli M24, topped the sale last year commanded a \$70,000 hammer price and is now a member of the prominent herd sire battery at Nelson Family Farms in Mabel, Minnesota. A full sister to OMF Ludacris L17 also sold last February at CK Cattle and Wager Cattle where she sold for \$32,500 and is now working at Swanson Cattle Company in Iowa.
- B100 is the dam of OMF Epic E27, one of the industry's most prominent AI sires. Another son of B100 is the \$300,000 OMF Doc Lynn L92, a son of STCC Tecumseh 058J that was purchased by Freking Cattle Company, King Cattle Company, and Eric Handy.
- There is no denying the sheer power, shape, and dimension that M24 brings to the equation. His phenotypic excellence is further supported by one of premier cow families in the Simmental breed!
- TERMS ANNOUNCED SALE DAY.**

- OMF Merk M33 is another direct son of the iconic OMF Time Less B100 donor dam that is featured in this year's sale. M33 is sired by the \$110,000 OMF Journeyman J24, one of the premier Simmental AI sires in the business that is an own son of OMF Deka D23, a prominent cow family at Oak Meadow Farms.
- M33 is an ultra-complete, long bodied, dense made Purebred herd sire prospect that is built right from the ground up! Countless maternal brothers and sisters to M33 have been high sellers and individuals of influence across the industry.
- The Effling family at CK Cattle of Highmore, South Dakota have experienced great success with their progeny from B100, including a pair of daughters that were members of their 2023 NWSS Grand Champion Pen of Three Purebred Simmental heifers.
- We love the blend of calving ease, growth, and carcass merit that he exhibits. There is no doubt that he will inject maternal excellence without sacrificing any traits of economic importance. A true sale feature!

February 8, 2025 in Cresco, Iowa

THE JOURNEYMAN SIRE GROUP

LOT 3

- The next pair of ET flushmate brothers are backed by OMF Genny G30, a daughter of OMF Time Less B100 that is sired by Rubys Turnpike 771E. G30 was selected by Joey Schreck for \$12,000 in 2021 as a bred heifer. G30 has evolved into a cornerstone breeding piece for the Schreck families breeding program located in Appleton, Minnesota.
- OMF Mogul M91 is a homozygous black and polled son of the \$110,000 OMF Journeyman J24 that offers tremendous performance and shape. His genomic data is further complimented by his 882 pounds of payweight at weaning.
- A tremendously long bodied, thick made bull that is loaded with power from end to end. He offers tremendous skeletal quality with an excellence shape to his hoof.
- Look to M91 if you're in the market for a herd sire prospect that will add value to your next calf crop in terms of maternal functionality and real world performance. M91 is a must see on sale day!

NWSS DISPLAY BULL

OMF HELE H61

Maternal Sister to Maternal Granddam of Lots 5-7

- M010 is another top shelf son of OMF Journeyman J24 that is backed by the influence of the iconic Hooks Angel 11A donor, one of the premier matriarchs at Oak Meadow Farms. Here is a homozygous polled and black Purebred Simmental herd sire prospect that offers a premium blend of calving ease and growth.
- M010 is a product of the same cow family that produced the \$60,000 OMF Hard Right H21. The maternal side of his pedigree aligns the influence of OMF Time Less B100, Hooks Angel 11A and Miss Werning KP 8543U. A maternal sister to the dam of M010, OMF Hele H61, was the \$14,500 selection that Jaron Van Beek made in the 2022 Oak Meadow Farms Production Sale! She is now a leading donor at Hilltop Simmentals.
- M010 is an ultra-attractive, smooth made, good structured bull that is flexible on the move and offers tremendous shape and balance.

LOT 6

- M012 is another premier son of OMF Hangel H29, the OMF Epic E27 daughter that is supported by OMF Fangel F74. There is no denying the genetic consistency and power that this pedigree produces.
- Here is another stout featured full brother to M010 and M09. This trio of ET flushmate brothers is built with tremendous stoutness and squareness at the surface. They are good footed, deep heeled, rugged herd sire prospects that are built to last.
- M012 is a homozygous black and polled Purebred that ranks among the top third of the breed for 12 measurable traits of importance!

- OMF Magnitude M09 is another standout from the OMF Hangel H29 donor that was purchased by Shane Rose of Worthington, Minnesota. This trio of ET flushmate brothers will add consistency, uniformity, and unrivaled quality to any set of cows that they are introduced to.
- There is no denying the unique combination of phenotype and genotype that M09 presents. He offers an incredibly balanced number profile that positions him among the top third of the breed or better in 13 measurable traits!
- A huge spread bull that came to the weaning pen with an impressive 879 pounds of adjusted payweight!

OMF HONESTY H48 | Full Sister to Dam of Lot 8

LOT 8

- OMF Murdock M44 is a homozygous black and polled Purebred that is from the dynamic OMF Journeyman J24 sire group. M44 is backed by the influence of the prolific Hooks Angel 11A donor, a foundation matron in the Oak Meadow Farms breeding program.
- The dam of M44 is sired by W/C Bankroll 811D, therefore making her a full sister to OMF Honesty H48. Jesse Haugh selected H48 as the high selling bred heifer in the 2022 Oak Meadow Farms Production Sale where she commanded an \$18,500 hammer price.
- A moderate birth weight bull that offers excellent performance both visually and genomically. We appreciate his blend of carcass merit, maternal strength, and real world performance. He is dense bodied, big hipped, and loaded with quality!

- Five Star Moss M21 is the first of several sons from the rising star in the donor pen at Five Star Ranch, ES J39, the stunning daughter of LBRS Genesis G69 that was a past high selling female at Eichacker Simmentals. ES J39 is the dam of the \$35,000 ES Five Star Limitless LJ39, a member of the herd sire battery at Clear Water Simmentals. M21 is sired by the \$110,000 OMF Journeyman J24, one of the most consistent sire groups that will highlight the 2025 spring bull sale season!
- We love the natural length, power, and substance this M21 and his ET flushmate brother, Five Star Mogul M25, bring to the table. Four
- maternal brothers to M21 sired by OMF Epic E27 will sell in this year's sale offering as lots 19 through 22.
- A homozygous black and polled Purebred Simmental herd sire prospect that offers a balanced number profile to accompany his elite phenotype. He is a big footed, stout featured bull that is ultra-attractive from the profile, while offering tremendous shape and expression from behind.
- Invest in the future of your breeding program with a son from the up-and-coming, ES J39 donor dam!

NWSS DISPLAY BULL

- Five Star MVP M60 is an absolute POWERHOUSE herd sire prospect that is supported by one of the cornerstone cow families at Five Star Ranch that has stood the test of time! M60 is a son of Five Star Sheila C1, one of the high income producing females in Saint Charles, Minnesota!
- Over the years countless maternal sibs to M60 have highlighted the sale offering from Five Star Ranch. Progeny of C1 are working for Ethan Wedeking, Shane Gavin, Brian Christopher, Jass Simmentals, Ryan Collins, Roll-N-Valley, and Duane Clausen. Five Star Sheila C1 never misses!
- A top calving ease prospect that offers curve bending genetics. His elite combination of calving ease, growth, and carcass merit is certain to elevate his herd sire status. His genomically enhanced data is further complimented by his elite phenotype!
- M60 is a big footed, stout boned, smooth jointed herd sire prospect that offers a balanced look from the profile. We appreciate the extra volume and capacity that he offers. A very sound built herd bull prospect that is built to last. There is no denying the Five Star MVP M60 is a must see on sale day!

- Five Star Majesty M20 is another big bodied, stout made, dense herd bull candidate that is supported by the everlasting influence of Five Star Sheila C1. This homozygous black and polled Purebred from the OMF Journeyman J24 sire group is an ET flushmate brother to Five Star MVP M60.
- There is no denying the extra mass, dimension, and performance that M20 possesses. He is a sound footed, good structured bull that is clean jointed and smooth made. We love the robust shape and substance that he offers to the center portion of his body cavity. He crushed down the scales with an impressive 1522 pound adjusted yearling weight!
- One his most prominent maternal sisters is Five Star Happi H23, the \$25,000 WS All Aboard B80 daughter that was purchased by Jass Simmentals in 2022.
- Backed by a cow family that has stood the test of time!

- M23 is another standout from the famed C1 donor that will sell on February 8th in Cresco, Iowa! We love the consistency and uniformity of this trio of ET flushmate brothers.
- Here is an ultra-complete, square hipped, big topped, long bodied bull that is rugged in his design. Another big testicled bull that is bold bodied, thick made and loaded with quality from end to end.
- His genomic data further enhances his phenotypic excellence. Another curve bender that is certain to be at the top of many short lists on sale day!

THE JOURNEYMAN SIRE GROUP

LOT 14

- OMF Mando M70 is a standout from the OMF Journeyman J24 sire group that is backed by one of the premier young females in the Oak Meadow Farms breeding program. The dam of M70 is the stunning OMF Hello H96 matron, a daughter of OMF Effort E74 that is backed by OMF Frina F25.
- The cow family that supports this herd sire prospect exemplifies udder quality, foot structure, and fleshing ease! F25 and H96 would be two of the most eye appealing females to roam the pastures of Harmony, Minnesota.
- A curve bending bull that posted a moderate birth weight, yet spread to an impressive 115 WWR and YWR.
- Pay attention to OMF Mando M70, we guarantee that you will love his daughters!

OMF FRINA F25 | Maternal Granddam of Lot 14

LOT 15

- OMF Merchant M58 is a very shapely son of OMF Journeyman J24 that is supported by the everlasting influence of the famed OMF Elin X58 cow family!
- M58 is a performance standout that came to the weaning pen with over 840 pounds of payweight to record a WWR at 109.
- The dam of M58 is a daughter of WS All-Around Z35 that has produced several herd sire prospects over the last few years. A maternal brother to M58, OMF Kee K34, was purchased by Tracy Tweten in 2021. In last year's sale Shane Anderson purchased a son of D39 by the name of OMF Landslide L21.
- Consistency is key!

OMF EPIC E27 | Sire of Lots 19-24

- Five Star Med City M42 is the first of four POWERFUL sons of the dynamic ES J39 that are sired by the tried and true OMF Epic E27, one of the industry's leading AI sires!
- This dynamic set of ET flushmate brothers would rank among the greatest breeding achievements in the history of Five Star Ranch. M42 and his band of brothers are maternal sibs to the \$35,000 ES Five Star Limitless LJ39, the calving ease specialist that was selected by Clear Water Simmentals in last year's sale.
- M42 is big bodied, dense made, powerful herd sire prospect that is built with precision that the surface. He is square made, wide based, and loaded with power and substance from end to end.
- A homozygous black and polled Purebred that ranks among the top 15% of the breed for CE with a moderate 80 pound birth weight.
- There is no denying the genetic value and potency that this set of ET flushmate brothers have the potential to contribute. A must see set of bulls!

LOT 20

- Five Star Market Ready M39 is the second brother from the dynamic OMF Epic E27 x ES J39 flush. M39 is extremely balanced both phenotypically and numerically.
- He records 10 traits of measurable value within the top 25% of the Simmental breed. In addition, he came to the weaning pen with over 800 pounds of adjusted payweight.
- The dam of M39 and his ET flushmate brothers is one of the up-and-coming young donors in the Five Star Ranch breeding program. This aligned with the everlasting influence of the dam of OMF Epic E27, OMF Time Less B100, is certain to add consistency, quality, and uniformity to his progeny.
- There is no denying the genuine mass, skeletal quality, and generating potential that lies within this set of ET flushmate brothers. Five Star Market Ready M39 is destined to leave his mark on the business!

- DKSM McCoy 3M is a homozygous black and polled SimAngus stud that is sired by the \$60,000 OMF Hard Right H21, one of the most famous sons of the iconic OMF Epic E27 in existence!
- 3M is a stout made, long bodied, well balanced bull that is supported by one of the premier cow families in the business on the maternal side of his pedigree. The dam of 3M is a daughter of CDI Innovator 325D that is out of the 2018 NWSS Grand Champion Percentage Simmental Heifer, Hook's/JRA Demi 605D! There is no denying the phenotypic excellence that lines his pedigree. His maternal grandsire, CDI Innovator 325D, was the 2018 NWSS Grand Champion Percentage Simmental Bull.
- 3M offers an extremely balanced number profile to compliment his elite maternal pedigree, which is saturated with individuals of significant influence within the beef cattle industry.
- DKSM McCoy 3M is a tremendous three-quarter blood Simmental herd sire prospect that offers a unique combination of phenotype and genotype. A must see on sale day!

LOT 28

- Ladies and gentlemen, it is with great pleasure that we introduce you to one of the great breeding achievements to EVER carry the Five Star prefix! Five Star Monument M29 is the powerhouse red hided stud that has been a standout since day one. A son of the \$95,000 Rocking H Captivate J75, this dynamic built Purebred herd sire prospect is supported by Five Star Jinger J11. The dam of Five Star Monument M29 is a FULL SISTER to the \$65,000 Five Star Jackson J10, a past high seller that was selected by the Drake family of Iowa. His maternal granddam is the stunning KBHR F316 donor.
- M29 is a massive bodied, perfect footed, sound structured individual that is loaded with quality and dimension from end to end. His phenotype is extraordinary, while his natural performance is next level! M29 came to the weaning pen with an incredible 909 pounds of adjusted weaning weight to ratio at 115! He defended his position as the NUMBER 1 performance bull in the Five Star bull pen at 365 days with an adjusted yearling weight of 1760 pounds to ratio at 118!
- Genomically he is the biggest spread bull in the offering, with calving ease credentials and breed leading performance wrapped into a single package. In addition, he offers tremendous maternal strength, carcass merit, and longevity. There is no denying that Five Star Monument M29 checks all of the boxes!
- A truly elite herd sire prospect that is supported by one of the high income producing cow families at Five Star Ranch. Just imagine the semen sales that he will generate... this is a bid to own scenario!
- TERMS ANNOUNCED SALE DAY.**

- Five Star Make Good M16 is a three-quarter brother to Five Star Monument M29. M16 is a direct son of the legendary KBHR F316 donor, one of the high income generating cows at Five Star Ranch!
- M16 is another dynamic herd sire prospect that offers breed leading calving ease, performance, and carcass merit. M16 is one of the big spread bulls in the entire offering.
- There is no denying that this curve bending herd bull candidate has the credentials to make a lasting impact on the business. M16 is a maternal brother to the \$65,000 Five Star Jackson J10 and the \$20,000 Five Star Janae J9, a leading donor in the K-LER Cattle donor pen just north of Saint Charles, Minnesota.
- Five Star Make Good M16 is also a maternal brother to the dam of Five Star Monument M29. This is a cow family that has proven year after year that quality and consistency is all inclusive!
- Rugged, dense, and sound structured... there is no denying that Five Star Make Good M16 is a standout that will be a favorite on sale day!

- Five Star Midwest M6 is a calving ease specialist that is sired by the \$65,000 Five Star Jackson J10. The maternal side of his pedigree traces to the influence of the cornerstone donor at Five Star Ranch, Five Star Sheila C1. It's no secret that C1 has produced her fair share of high sellers and individuals of influence that have gone on to positively impact herds across the country.
- M6 is a homozygous polled Purebred herd sire prospect that ranks among the top 10% of the breed for CE, WW, YW, DOC, and MARB. His moderate birth weight of 83 pounds further solidifies his heifer safe capabilities!
- Recommended for use on heifers without sacrificing pounds or performance at weaning.

- Five Star Moon Man M10 is another calving ease specialist that is sired by Five Star Jackson J10. The dam of M10 is an NLC Free Agent 40A daughter that is supported by a female bred in the Kenner Simmentals breeding program of North Dakota.
- A maternal brother to M10, Five Star Libido L13, was purchased in last year's sale by Matthew Snyder of Spring Valley, Minnesota. Another maternal brother, Five Star Kindred K2, was purchased in 2023 by Sheldon Luehman of Altura, Minnesota. The year before in 2022, Shane Anderson purchased a maternal brother sired by OMF Epic E27. In 2019 she also raised a son by OMF Capital C17 that was selected by Jordan Suhr. Five Star Ease E8 was a half-blood herd sire prospect from C845 that was purchased by Ken McNally.
- This is a herd sire prospect that is supported by tremendous consistency and generating power. Of the last seven calves that C845 has produced, six of them have become herd bulls for top firms across the country and a single daughter is working for Matthew Snyder.
- Recommended for use on heifers.

- Five Star Morse Code M3 is sired by Five Star Jackson J10 and from a productive first calf heifer dam sired by the \$60,000 OMF Hard Right H21. The maternal side of his pedigree traces to the iconic GLS/KB Finesse Y187 donor, a direct daughter of the legendary T60 donor at Oak Meadow Farms and Diamond K Simmentals.
- The maternal granddam of M3 is the productive Five Star Everclear E3 donor that has a trio of daughters that will highlight the bred heifer offering.
- Sound structured, big bodied, and square built. We appreciate the extra eye-appeal and style that this balanced herd sire prospect offers. He offers a premium blend of calving ease, growth, carcass merit, and maternal functionality.

- M47 is another calving ease prospect that has positioned himself among the top 5 heifer bull options in this year's sale offering. OMF Most Wanted M47 is a son of MR SR 71 Right Now E1538 that is without a doubt suitable for use on heifers.
- His moderate 63 pound birth weight allowed him to record a BWR at 72, therefore making him the NUMBER 1 low birth weight option within his contemporary group of 50+ head. His dam is a productive first calf heifer dam that is sired by the industry leading OMF Epic E27 and further traces to the influence of the P40 matron.
- He offers tremendous growth despite his moderate birth weight, as he recorded a WWR at 108 and a YWR at 102.
- Certified for used on heifers based on his moderate birth weight and genomically enhanced data.

LOT 40

HOOKS ANGEL 11A | *Maternal Granddam of Lot 40*

- OMF Modelo M41 is sired by MR SR 71 Right Now E1538 and backed by a hard working first calf heifer sired by CCR Cowboy Cut 5048Z that is out of the tremendous Hooks Angel 11A donor dam. 11A has produced countless high sellers and individuals of influence within the Simmental breed over the last few years. OMF Kassandra K24 is a maternal sister to the \$60,000 OMF Hard Right H21.
- M41 is a performance standout that is the NUMBER 1 weaning weight bull within his contemporary group. He recorded an impressive 881 pounds of payweight at weaning to ratio with a WWR at 114. He maintained this same performance throughout development and recorded a YWR at 107.
- Power, performance, and predictability!

- OMF Mercury M39 is the NUMBER 1 calving ease option in this year's sale offering based on his genomically enhanced data. M39 is a son of the resident herd sire at Oak Meadow Farms known as Bridle Bit Kojak K297. This SimAngus stud recorded a moderate 71 pound birth weight and also boasts a CE EPD that positions him among the elite 1% of the breed.
- M39 was raised by a first calf heifer that aligns the influence of the famed OMF Elin X58 and Hooks Angel 11A cow families. Maternal brothers to the maternal granddam of M39 would include OMF Kareem K58, a son of KCC1 Countertime 872H that was purchased by Liberty Cattle Company. Another maternal brother to the maternal granddam of M39 is OMF Krossfade K59, a herd sire prospect that is working for Atlee Hershberger, a longtime friend and customer of the program!
- A smooth made, clean jointed, well-balanced heifer bull candidate that is ready for heavy service!

THE KOJAK SIRE GROUP

LOT 42

- OMF Main Street M54 is another standout calving ease prospect that is sired by Bridle Bit Kojak K297. The dam of M54 is a daughter of Hooks Angel 11A that is sired by W/C Executive Order 8543B.
- M54 is the NUMBER 2 calving ease prospect in this year's sale offering. His 85 pound birth weight combined with his genomically enhanced data position him as a logical option for use on heifers. However, he certainly will not sacrifice pounds or performance as he recorded a YWR at 107.
- A thick made, bold bodied, athletic herd sire candidate that is ready for deployment!

OMF LANCELOT L51

Maternal Brother to Dam of Lot 42

LOT 43

- OMF Mitchell M51 is a homozygous black and polled Purebred herd sire prospect that is sired by Bridle Bit Kojak K297 that was raised by a first calf heifer dam. The dam of M51 is sired by the \$175,000 FRKG CKCC Platinum 009H ET and supported by the everlasting influence of OMF Time Less B100 donor dam.
- The dam of M51 is a maternal sister to OMF Epic E27, the \$300,000 OMF Doc Lynn L92, and the \$128,000 OMF Kristy K88.
- A strong combination of maternal excellence, calving ease, growth, and carcass merit!

- OMF Mason M100 is the first son of the \$230,000 KCC1 Countertime 872H in this year's sale offering. We appreciate the genuine quality, squareness of build, and density of this particular sire group. M100 is a homozygous black and polled Purebred that is backed by the influence of OMF Diamond O Y37, a prolific female that has produced countless herd bulls for some of our very best customers across the country.
- M100 is a low birth weight bull that offers tremendous length of body, shape, and balance from the side.
- In addition to his extra power and substance, M100 has been blessed with an incredible hair coat as an added bonus. A multi-purpose herd sire prospect that offers tremendous mating flexibility.

THE COUNTERTIME SIRE GROUP

LOT 45

- A certified baldy maker that will be on many short lists sale day! OMF Maynard M52 is a soggy made, dense bodied son of KCC1 Countertime 872H that is backed by the influence of OMF Umbelina U9, a past champion turned prolific donor in the Oak Meadow Farms breeding program.
- M52 is a homozygous black and polled Purebred that came to the weaning pen at 700+ pounds.
- He is certain to add value to his progeny in the form of payweight and a perfect blaze face!

GLS/KB FINESSE Y187

Full Sister to Maternal Granddam of Lot 46

LOT 46

- OMF Milt M56 is another standout from the KCC1 Countertime 872H sire group that is backed by the influence of OMF/KB Finesse Y4, a daughter of the legendary T60 donor.
- M56 offers a blend of calving ease genetics with real world performance and carcass merit. He ranks among the top 15% of the breed for CE, while maintaining a top 15% WW and YW EPD.
- His moderate birth weight combined with his genomically enhanced data suggest that he should work well on heifers.

- OMF Manny M26 is a sound structured, smooth made, well balanced son of the \$205,000 OMF Bankroll 811D that is supported by the legendary Hooks Angel 11A donor dam. 11A has produced countless herd sire prospects over the year's at Oak Meadow Farms.
- M26 is a FULL BROTHER to OMF Jack J45, the selection of Burmeister Farms in the 2022 Oak Meadow Farms Production Sale. Another FULL SISTER to M26 is the very impressive OMF Honesty H48, the \$18,500 high selling bred heifer from our 2022 sale offering that was selected by Jesse Haugh. This mating flat works!
- A maternal brother to M26 is the \$60,000 OMF Hard Right H21 that was selected by Hartman Cattle Company and CK Cattle Company. Another maternal brother to M26 is the \$24,000 OMF Laredo L8, a son of Ruby's Turnpike 771E that was purchased by Kearns Cattle Company last year.
- M26 is destined to make an impact on the business, much like the full and maternal sibs that have come before him. This is your chance to add the influence of the prolific Hooks Angel 11A to your breeding program!

THE JACK J45 SIRE GROUP

LOT 48

- OMF Mack M28 is the first son of OMF Jack J45 in this year's sale offering. OMF Jack J45 was a past sale featured sired by W/C Bankroll 811D that as purchased by Burmeister Farms in the 2022 Oak Meadow Farms Production Sale.
- The dam of OMF Mack M28 is OMF Eden A39, a daughter of the legendary OMF Elin X58 matriarch. This well balanced, stout featured, powerful son of OMF Jack J45 is a certified baldy maker! We have admired his extra shape, length of body, and dimension since day one. The dam of M28 is a full sister to the dam of OMF Elvira E24.
- This powerful herd bull prospect recorded an impressive 795 pound adjusted weaning weight to post a WWR at 102 and a 1301 pound adjusted yearling weight to post a YWR at 105.
- A tremendous option if you're looking for a herd bull to sire market topping blaze faced feeder cattle and highly sought after replacement females that will make your neighbors jealous!

LOT 49

OMF JACK J45

Full Brother to Lot 47 & Sire of Lots 48 & 49

- Here is a dense bodied, thick made, powerful herd sire prospect that is backed by a young and productive daughter of OMF Epic E27.
- The maternal side of his pedigree traces to OMF Diamond O Y37, a tremendous brood cow that has produced several herd bulls working for OMF customers across the Midwest.
- OMF Marriot M45 is a homozygous black and polled herd sire candidate that offer balanced data and tremendous performance.

THE ESSENTIAL SIRE GROUP

LOT 50

- OMF Mopar M120 is the NUMBER 4 calving ease herd sire prospect in this year's sale offering. He is the first of two bulls sired by GIBBS 9114G Essential.
- M120 ranks among the elite 1% of the breed for BW and top 2% for CE and API. He is also the NUMBER 1 highest MARB bull in the entire sale offering.
- He offers a premium blend of calving ease, carcass merit, and maternal traits.
- The dam of M120 is the very impressive OMF Frina F25, one of the up-and-coming young females in the Oak Meadow Farms breeding program!

OMF FRINA F25 | Dam of Lot 50

LOT 51

- OMF Maurice M55 is another son of GIBBS 9114G Essential that is also in the top 5 MARB bulls in the entire sale offering. He offers an incredible data package to compliment his rugged and masculine phenotype.
- A homozygous black and polled Purebred that is backed by the OMF Umbelina U9 influence! A maternal brother to M55, OMF Lyle L49, was purchased in last year's sale by Bill Wingert of Preston, Minnesota.
- Recommended for use on heifers. This herd sire prospect has the basic build and elite genomic data to add profitability to any breeding program that he is utilized!

From Our Customers

"Our first exposure to Oak Meadow Farm bulls occurred when one of their bulls found his way into our pasture. He bred our heifers, and we liked how easily they calved and how efficiently they grew. We decided to buy the bull and also a half a half-brother to OMF Long Cut J6. We have been buying bulls from the Aggen family ever since! They started a feeder sale at the Lanesboro Sales Commission, which is the first weekend in November. This has worked very well for us, as we bring them to Lanesboro and sell them with other producers calves sired by Oak Meadow Farms bulls."

-Jerry McCabe - Lanesboro, Minnesota

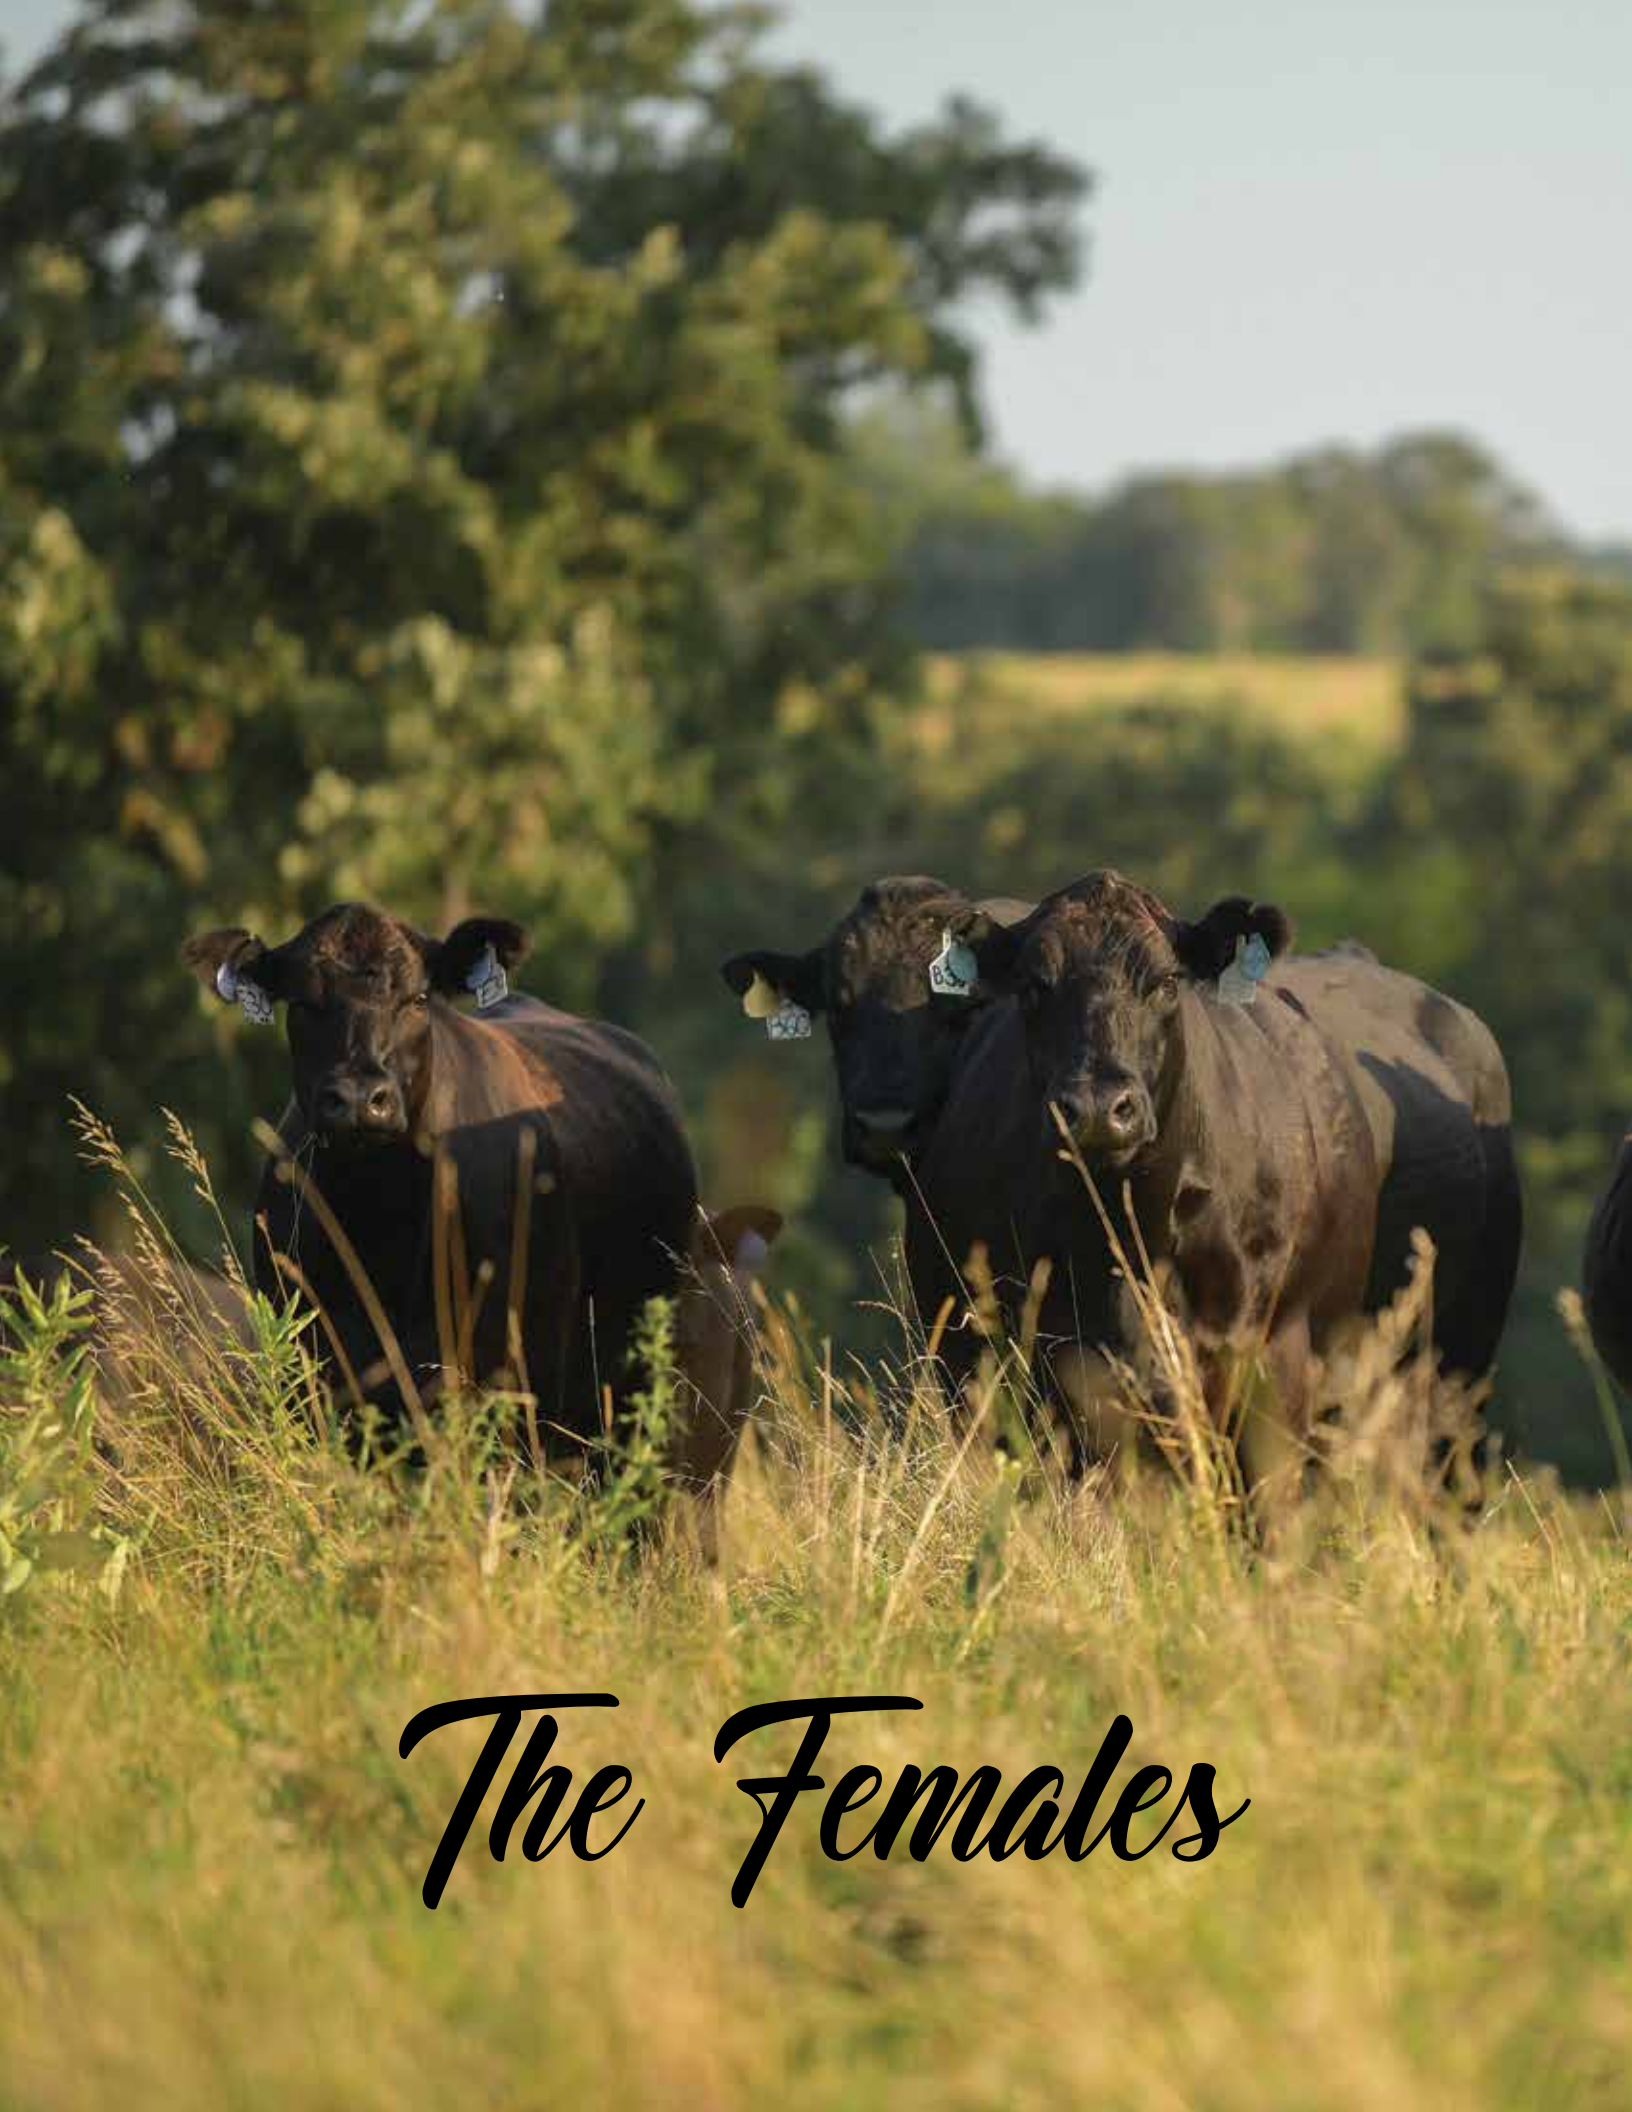

"I have been running Oak Meadow Farms bulls for ten years now. In that span of time I have bought 12 bulls. Only the original two from 2015 are no longer here. They have proven themselves in the pasture and in the feedyard. If you can land one of their females, you will not be disappointed!"

- Dean Redington - Scales Mound, Illinois

"We first introduced Oak Meadow Farm genetics into our program 10 years ago, with the purchase of the lead off bull in their Reserve Champion Percentage pen of bulls. We followed up for several years after that selecting open heifers from OMF to build our registered herd. We continued to purchase OMF sires to use on these OMF females to grow our herd. These genetics really clicked with our program and advanced the quality of our cattle. Our private treaty bull sales continue to grow, as well as the bred female offering. These cattle run on a rotational grazing and hay program in Central Minnesota and thrive in this environment. We feel the docility, growth, and efficiency of our herd stems from the strong OMF genetics that we have been using. "Buying seed stock from the OMF brand is seamless. Procuring quality cattle is important as is purchasing them from quality people. Three generational tiers of breeders indicate not only valuable experience but also commitment to their vocation. I'm confident my investment in genetics is sound when backed by such a program"

- Adam J. (AJ) Weis, Burlington, Wisconsin

The Females

THE KBHR F316 COW FAMILY

LOT 101

- Five Star Lady Captivate L20 is a dynamic red hided beauty that is straight from the heart of the Five Star Ranch breeding program. L20 and her ET flushmate sister are FULL SIBS to Five Star Make Good M16, one of the premier red hided herd sire prospects in this year's sale. Additionally, she is a three-quarter sister in blood to Five Star Monument M29, another featured lot in this offering.
- L20 is a massive bodied, dense made, ultra-complete brood cow/donor prospect that offers an elite look of quality and style from the side. L20 is a maternal sister to Five Star Jackson J10, the \$65,000 sale feature that was purchased by the Drake family of Iron Creek Cattle. Five Star Jackson J10 is a heavily utilized AI sire within the industry.
- L20 boasts an elite number profile to compliment her stunning phenotype. The dam of L20 is KBHR F316, one of the top income producing donors in the Five Star Ranch donor pen. A maternal sister to L20, Five Star Kauai K35, was purchased last year by Kemper Cattle Company. Five Star Jasmine J18 is working for the Siek family of Iowa. Five Star Janae J9 was the \$20,000 selection made by K-LER Cattle Company in 2023. Maternal brothers to L20 and L24 are working for Sheldon Luehman and Trace Steere.
- This powerful bred female sells safe in calf to Hook's Full Figures 11F, therefore making the calf on board a three-quarter sib in blood to the \$65,000 Five Star Jackson J10!
- **SELLER RETAINS THE RIGHT TO 1 SUCCESSFUL FLUSH/IVF CYCLE WITH A MINIMUM OF 6 TRANSFERRABLE EMBRYOS. WORK TO BE DONE AT THE BUYER'S CONVENIENCE AND SELLER'S EXPENSE.**

- L24 is an ET flushmate sister to Five Star Lady Captivate L20. There is no denying the consistency and generating potential that lies within the pair of full sisters. L24 is moderate framed, bold ribbed, dark cherry red hided female that offers tremendous power and shape.
- Another opportunity to acquire a maternal sister to the \$65,000 Five Star Jackson J10 promotional AI sire that is owned by Five Star Ranch and Iron Creek Cattle Company. She is also a maternal sister to the stunning red hided beauty known as Five Star Jazzy J14.
- Her balanced phenotype is further complimented by her industry leading genomic data. L24 ranks among the top 2% of the breed for TI, top 3% MWW, top 4% YW, top 5% WW, and top 10% of the breed for five other traits of economic importance!
- This future herd matron sells safe in calf to the \$35,000 ES Five Star Limitless LJ39 with no bull exposure to ensure an efficient and lucrative return!

- Allow us to introduce you to Five Star Lady In Red L38, a FULL SISTER to the \$65,000 Five Star Jackson J10 and the \$20,000 Five Star Janae J9. Another full brother to L38 was selected by Trace Steere in 2023. Five Star Jazzy J14 is also a full sister that is working alongside her full brother at Iron Creek Cattle Company.
- Here is a beautiful profiling, moderate framed, easy fleshing female that offers tremendous mass and capacity. We have always appreciated her practical build and body style.
- L38 offers an extremely balanced number profile that positions her among the top third of the breed in 14 traits! There is no question that she offers unlimited mating flexibility once she enters production. She will calve before sale day to the \$35,000 ES Five Star Limitless LJ39 stud. The guess work is done, invest in a mating that is proven and predictable!

THE HOOKS ANGEL 11A COW FAMILY

LOT 104

- OMF Larissa L54 is a beautiful blaze faced donor prospect that is supported by the legendary Hooks Angel 11A donor. L54 is sired by the \$230,000 KCC1 Countertime 872H, one of the great sons of KCC1 Havana 83E in existence.
- L54 offers a stunning phenotype that is further complimented by her rock solid data package. She charts among the top third of the breed in 11 traits of importance!
- L54 is a maternal sister to the \$60,000 OMF Hard Right H21, along with OMF Honesty H48 and OMF Jack J45. 11A has produced countless herd sires that have been employed by some of the nation's top seedstock and commercial producers.
- The influence of 11A can be identified throughout the entire sale offering. We love the extra volume, capacity, and ultra-cow look that this dynamic Purebred female offers. Her genuine skeletal quality is what solidifies her legitimacy as a future donor.
- She sells with a confirmed heifer pregnancy sired by the industry leading AI sire, OMF Epic E27. Bid to own, this is the kind of female that a program can be anchored around!
- **SELLER RETAINS THE RIGHT TO 1 SUCCESSFUL FLUSH/IVF CYCLE WITH A MINIMUM OF 6 TRANSFERRABLE EMBRYOS. WORK TO BE DONE AT THE BUYER'S CONVENIENCE AND SELLER'S EXPENSE.**

- OMF Lovey L102 is a homozygous Polled daughter of OMF Effort E74, the maternal brother to OMF Hard Right H21 that is sired by W/C Executive Order 8543B.
- The OMF Effort E74 sire group has been met with great demand over the past several years. The cattle sired by E74 are long bodied, dense made, and offer superior skeletal quality and efficiency.
- L102 is a prime example of what happens when you align the influence of 11A and T60! The maternal great granddam of L102 is the legendary OMF/DK Cheers C88 donor, a female that has generated year after year! Countless high sellers and individuals of influence tie to the C88 name.
- OMF Jurassic J58 is a maternal brother to the dam of OMF Lovey L102. J58 is the Hook's Baltic 17B son that was purchased by Adam St. Germain in 2022.
- L102 is backed by cow families that you can build from!

- DKSM Jasmine 22L is an ET flushmate sister to 64K. She is the stunning full faced baldy female that is bold bodied, easy fleshing and offers the look of future herd matriarch! We love the natural fleshing ease, doability, and efficiency of this cow family.
- 22L is homozygous black and polled SimAngus female that ranks among the top 1% of the breed for MWW, top 3% WW, and top 4% MILK. There is no denying the strong maternal ties that support this elite female.
- She also sells with a heifer calf at side sired by the \$110,000 TERS Kodiak 206K!

THE T60 COW FAMILY

LOT 116

- DKSM Lily 15L is a stunning daughter of Hook's eagle 6E that is further supported by the famed T60 cow family. The dam of 15L is a young and very productive daughter of Hook's Encore 65E that further traces to CCR Cowboy Cut 5048Z!
- 15L is a performance driven female that ranks among the top 5% of the breed for WW and YW. She is a bold bodied, smooth made, powerful female that long and square in her hip design. We love the strong maternal look that this female offers from the side. Her maternal granddam is the impressive OMF/DK Diedra D44 donor.
- She sells safe in calf to the calving ease stud Bridle Bit Blackout K249, a member of the herd sire battery at Cow Camp Ranch and Black Summit Cattle!

THE T60 COW FAMILY

LOT 118

- DKSM Lollipop 21L is one of the first daughters by the \$65,000 Five Star Jackson J10 to enter production! 21L is a neat featured, smooth made, well balanced female that traces to the iconic T60 donor on the maternal side of her pedigree.
- 21L boasts an elite number profile to accompany her phenotypic excellence. She ranks among the elite 1% of the breed for CE, top 2% MCE, 3% BW, and top 5% for MARB, API, and TI. Her number profile will allow for extreme mating flexibility!
- A maternal sister to 21L, DKSM Klarabel 4K, was selected in last year's sale by King Cattle Company of Indiana.
- She is carrying the service of GW Medicine Man 200K, an impressive SimAngus herd sire that is owned by Lyman Livestock!

DKSM KLARABEL 4K
Maternal Sister to
Lot 118

LOT 119

- DKSM Landry 14L is another captivating Purebred Simmental female that is supported by the influence of the legendary T60 donor dam. 14L is sired by the industry leading OMF Epic E27. There is no doubt that 14L is one of the premier young females in the entire sale offering when you consider the cow power that lines her pedigree!
- 14L is a direct daughter of OMF/DK Demi 3D, a daughter of the industry impacting CCR Cowboy Cut 5048Z.
- This beautiful profiling female offers tremendous udder quality, fleshing ease, and fertility. She sells with a stunning heifer calf at side sired by Bridle Bit Blackout K249!

THE ASF JESSIE J3 COW FAMILY

LOT 120

- DKSM Loyalty 5L initiates a new cow family from the Diamond K Simmental breeding program! 5L is sired by MR SR Red October G1761, a son of the immortal IR Imperial D948. There is no doubt that 5L will be a favorite on sale day!
- Here is a beautiful profiling, smooth made, ultra-attractive female that offers textbook udder quality and design. A very angular female that is destined to be a cornerstone matriarch for the winning bidder on sale day! 5L ranks among the top 1% of the breed for CE, top 2% BW, top 5% MCE, and top 10% MARB and REA.
- The dam of 5L is the very impressive ASF Jessie J3, a past high seller that was purchased by Liberty Cattle Company of Mabel, Minnesota.
- 5L sells with a heifer calf at side sired by WS Hollywood 79H!

ASF JESSIE J3
Dam of Lots 120-124

LOT 121

- Another featured sale attraction from the Diamond K Simmentals breeding program is DKSM Ms. Jackson 44L, a daughter of the \$65,000 Five Star Jackson J10 that is backed by the influence of the picture perfect ASF Jessie J3 donor dam that now works for Liberty Cattle Company.
- 44L is a moderate framed, easy fleshing, bold ribbed female that offers the look of a productive brood cow!
- She is carrying the service of WS Hollywood 79H and will calve in late February with a bull calf!

THE ASF JESSIE J3 COW FAMILY

LOT 122

- DKSM Jessie 38L is another daughter of ASF Jessie J3 that will turn heads on sale day! This OMF Epic E27 sired daughter of J3 is an ultra-attractive and eye appealing female that is long bodied, big hiped, and very angular about her front third.
- 38L is an ET flushmate sister to 34L. This duo are built for the long haul, offering superior skeletal quality, foot design, and heel depth. The pedigree that stands behind this pair of females incorporates the influence of the legendary OMF Time Less B100 donor dam.
- 38L is carrying the service of WS Hollywood 79H with a heifer calf on board!

OMF EPIC E27 | Sire of Lot 122 & 123

LOT 123

- 34L is another OMF Epic E27 sired daughter of ASF Jessie J3 that offers a practical body style. She is a moderate framed, easy keeping female that is long fronted and transitions into a bold and three-dimensional rib cage. We love the udder design and structure that these J3 daughters are developing as they approach the production phase of their lives.
- This well balanced female sells safe in calf to TJ Gold 247G for a big return on investment!

- DKSM 59K is a daughter of the ST Genetics stud known as OMF Epic E27, one of the most reliable AI sire choices in the business. The dam of 59K is a daughter of WS Proclamation E202 that is from the DKSM Brook B01 cow family.
- Her pedigree aligns the influence of OMF Time Less B100 and WS Miss Sugar C4, two of the all-time most productive matrons in the Simmental breed.
- 59K boasts a very balanced number profile to accompany her extra volume and mass. We love this female for her balance, eye appeal, and overall stoutness. She is developing into a role model brood cow prospect. The udder quality that she possesses is second to none!
- A homozygous black and polled Purebred female with a rock solid phenotype and number profile that sells with a heifer calf at side sired by GW Medicine Man 200K. There is no doubt that this is a bid to own scenario!

- OMF Kellee K123 is a powerful daughter of Welshs Dew It Right 067T, the sire of the legendary ES Right Time FA110-4. K123 is supported by the everlasting impact of the influential OMF Elin X58 donor. X58 was a many times champion for Hunter Aggen that evolved into one of the cornerstone cow families at Oak Meadow Farms.
- K123 is backed by a pedigree that has stood the test of time, offering extreme longevity, fertility, and functionality. The dam of K123, OMF Cellie C90, is a productive female that has progeny working for Krauskopf Cattle Company, Randy Berte, and several other daughters in the herd at Oak Meadow Farms.
- K123 is a dense bodied, big ribbed, stout hipped female that is sound structured, and flexible on the move. We love her strong maternal look and the udder quality that she is developing.
- She will calve before sale day to the calving ease specialist that works in the Werning Cattle Company and Western Cattle Source programs, MR W/C Trifecta 975J!

THE BRED HEIFERS

LOT 127

- OMF Lellie L90 is a daughter of OMF Effort E74 that is backed by the X58 cow family. Her pedigree aligns the influence of Hooks Angel 11A with the many times champion turned prolific donor, OMF Elin X58.
- This SimAngus brood cow prospect is sensible in her frame size, bold ribbed, and ultra-complete. We love the structural build and practical body style that she offers.
- She will calve just before sale day to Bridle Bit Kojak K297 with a heifer calf!

OMF ELIN X58

Maternal Granddam of Lot 127

LOT 128

- OMF Lassie L65 is a daughter of the \$230,000 KCC1 Countertime 872H that is supported by the OMF Umbelina U9 cow family. There is no denying that this star headed female is one of the premier females in this year's sale offering.
- A bold ribbed, extra capacious female that offers tremendous balanced and style from the side. We love her extra dimension and volume that she ties together seamlessly from end to end. L65 is a homozygous polled female that ranks among the top 3% of the breed for WW and top 4% YW. Her extremely balanced number profile further compliments her phenotypic excellence!
- She will calve prior to sale day with a future herd sire sired by TJ Gold 264G!

- Five Star Linda L3 is a daughter of the \$530,000 SO Remedy 7F that offers a superior phenotype! L3 is a direct daughter of the impressive JASS Wheel N Deal 04G donor that is now a member of the illustrious donor pen at Bloomberg Cattle of Berwick, Illinois.
- L3 is a homozygous black and polled female that offers an incredible look of balance and quality from the side. She is robust in the shape of her rib cage, soft flanked, and clean chested.
- A full sister to L3, JBSF/Five Star Lady Princess L2, was purchased by the Lodoen family last year as an open heifer calf. L2 was the 2024 ND State Fair 3rd Overall Breeding Heifer. She has been a many times champion for Zane Lodoen and will enter the donor pen at L83 Ranch this coming year.
- The dam of L3, JASS Wheel N Deal 04G, was a many times champion herself. She was the 2020 NAILE Grand Champion Junior Simmental Heifer for Sara Sullivan. Additionally, she was selected as the 2021 Cattlemen's Congress Grand Champion Junior Simmental Heifer.
- She will calve before sale day to the \$35,000 ES Five Star Limitless LJ39!

THE BRED HEIFERS

LOT 135

- Five Star Lady Lilly L48 is an ultra-attractive and eye appealing daughter of the \$110,000 OMF Journeyman J24 that is supported by Five Star Heartly H41. This homozygous black and polled Purebred is built for the long haul!
- The dam of L48 is sired by OMF Extra E73, the W/C Executive Order 8543B sired son of Hooks Angel 11A. There is no denying the influence that 11A has on this entire sale offering!
- L48 is a big hippered, square pinned female that offers a textbook set to her hip and hind leg. The dam of H41 was purchased by Kash Goddard in 2022 and is now a cornerstone of his breeding program in Nashua, Iowa.
- She sells safe in calf to Five Star Jackson J10 for a quick ROI!

FIVE STAR HEARTLY H41
Dam of Lot 135

LOT 136

- L5 is a powerful and shapely daughter of the \$60,000 OMF Hard Right H21 that is backed by the influence of an EGL Firesteel 103F daughter. The dam of L5 traces to the everlasting and very impactful influence of the OMF Sheena Mark Y1 cow family. This cow family has produced countless high sellers and individuals of influence over the past five years at Five Star Ranch.
- L5 offer a very balanced number profile to accompany her phenotype and eye appeal. We anticipate her to offer superior udder quality once she enters production.
- L5 will calve before sale day to the legendary Welshs Dew It Right 067T!

THE BRED HEIFERS

LOT 137

- DKSM Ms. Jackson 40L is the first of two ET flushmate sisters sired by the \$65,000 Five Star Jackson J10. They are supported by DKSM Brooke B01, a daughter of Hooks Shear Force 38K that traces to a daughter of the ultimate female maker, O C C Eureka 865E!
- 40L offers top shelf calving ease combined with elite carcass merit.
- She is a big bodied, dense made female that offers a very complete brood cow look! With the influence of Ohlde genetics on her maternal side, expect for her to be a beautiful brood cow!
- Study the planned mating EPDs that you can expect from her KBHR Homestead H016 heifer calf!

DKSM BROOKE B01
Dam of Lots 137 & 138

LOT 138

- Here is another daughter of Five Star Jackson J10 that deserves serious consideration on sale day! 42L is backed by the DKSM Brooke B01 donor dam, therefore making her a full sister to DKSM Ms. Jackson 40L.
- 42L is also a homozygous black and polled Purebred that is built with tremendous stoutness and power from end to end. She ranks among the top 4% of the breed for MARB.
- It's hard not to love the volume, capacity, and overall dimension that she offers. She sells safe in calf to Bridle Bit Kojak K297 with a heifer calf on the way!

From Our Customers

"I'm sold on this program. The bulls are docile, have great libido and stay in excellent condition in the pastures. With these genetics, we've been able to add significant pounds without frame creep on the replacement females. I'd recommend Oak Meadow bulls to anyone."

-Pete Burmeister, Burmeister Farms, Rowley, Iowa

"We have been purchasing bulls from Oak Meadow Farms for 15 years to use on our commercial SimAngus cows. We value the docility, structure soundness, and fleshing ability to OMF genetics. Our bulls need to have sound foot structure and be athletic as pasture terrain demands they be able to transverse steep slopes. We own our cattle to the finished product and appreciate how the OMF influenced calves perform in the feedlot. In 2022, we added our first female from guest consignor Diamond K and look forward to the influence she will have. If her first heifer calf is any indication, our daughter has a lot to look forward to in her "first cow's" impact!"
