

BULL SALE

SUNDAY, MARCH 9, 2025 • AT THE RANCH • 1 PM MST

40 YEARS OF BREEDING & SELLING

PAP TESTED BULLS BACKED BY **PAP** TESTED, PROVEN FEMALES

TAKE THE LEAD

FELLOW CATTLEMEN

It is with great excitement and pride that we present to you our 2025 offering. This year marks the 24th annual bull sale at Lazy JB, a milestone made possible through your continued support and trust. We are confident that commercial cattlemen will appreciate the consistency, quality, and value reflected in this year's offering.

*As the cattle industry continues to evolve and chase new trends, one truth remains unwavering at Lazy JB: **balance is key** to building a profitable cattle operation. There is no substitute for fertility, health, and vigor. Combine these with excellent feet and legs, performance, and fleshing ability, and you have a sound investment. At Lazy JB, our brand is synonymous with real muscle, and this year, we proudly offer several generations of cattle bred for power, balance, and sustainability.*

*This year's sale highlights exciting **new** sire groups alongside cattle backed by generations of High Altitude PAP-tested genetics. All bulls and females in this offering have been PAP tested, raised at 9,500 feet during the grazing season, and tested at 6,500 feet elevation. These animals are supported by generations of high-altitude-performing dams and grand-dams, ensuring they are not only hardy but proven investments for your operation.*

*At Lazy JB, everything we do is driven by one priority: **improving the productivity and profitability of the customers we serve**. Our innovative breeding program undergoes constant progress and refinement, incorporating new sires, rigorous selection pressure, and high-level competition to ensure that each year's offering surpasses the last.*

The cattle business has experienced an upswing this past year, making this the perfect time to invest in your herd. The right bull is not just an asset—it's an investment that pays off with more pounds of calves weaned in the fall.

We encourage you to inspect the bulls anytime prior to sale day. Videos of the offering can be viewed on our website, www.lazyjb Angus.com, or on DV Auctions. We're happy to guide you through the selection process and assist in finding the right bull that meets your specific needs and budget.

*To our customers, both new and longtime, thank you for your friendship, trust, and continued business. We are truly blessed to have incredible people, exceptional livestock, and abundant opportunities enriching our lives and give all the glory to God each and every day. We look forward to welcoming you to the ranch on our **NEW SALE DATE: Sunday, March 9th**. Please don't hesitate to call with any questions or to schedule a time to view the cattle.*

We hope to see you soon!

The Creamers

JEFF, KATHI, BRANDON AND BRITNEY CREAMER

This business is saturated with great people. People that represent multi-generational farming and ranching operations; the weekend warriors that have agricultural backgrounds with town jobs, to the entrepreneurs and business owners that decide to invest in the business because the industry interests them. We are here to tell you that if you find yourself reading this letter, you are engaged with some of the best that the purebred seedstock business has to offer. The Creamer family has deep roots within agriculture and all have chosen pathways to continue furthering the quality of the beef business, an endeavor that is fueled by both tradition and passion. You can trust that an investment in Lazy JB genetics places you at the forefront of their years of meticulous selection, endeavoring toils and dedication to success.

The selection criteria employed by Lazy JB Angus has been developed with a focused and intense goal in place. If you ever take hold of the opportunity to tour the cowherd, it will quickly become evident that superior phenotype blended with cow families of significance is what is driving this program in the right direction. While a visual tour of the cowherd will impress, it's the genetic and genomic power that is being built on the other side of the hide that is perhaps what is positioning the program at the forefront of the breed. In an effort to bridge the gap between Angus stock that excel from a performance and commercial profitability standpoint and those that garner attention from those that appreciate added maternal and phenotypic value, the quest has been taken very seriously in Montrose. The last thought to be made when it comes to breeding decisions made by the Creamer family pertain to showing acceptance, yet through a consistent search for cattle that upstand to their rigorous phenotype specifications, they have unconsciously developed a cowherd that seeks merit from stockmen nationwide, both in and out of the showing. This was recognized most recently at the National Western Stock Show when three bulls that feature in this sale were recognized at the Reserve Champion Pen of Three Late Bull Calves. Now when it comes to discussing geographical acceptance, this is where you will find the most significant selection pressures at Lazy JB Angus.

The dedication to supplying customers with the most up to date information, research and results when it comes to PAP testing is taken seriously. Every effort is made when it comes to supplying their customers with the most accurate and reliable PAP testing possible. When it comes to bull selection and mating decisions, the first criteria to be checked off before any further thought is made pertains to the suitability for regional environmental stresses. You can trust that Lazy JB Angus continues to be a leader in the business when it comes to supplying their customers with a source of cattle that are backed with reliable, science driven PAP testing and selection.

The offering has been bred and managed with the success of the buyer in mind, and behind each animal stands a family owned and managed ranch that want to be your first call if problems were to arise. There is a desire for everyone that invests in the Lazy JB program to reap the rewards and add profitability to their end product, regardless of whether their marketing plan seeks a value by the pound or by the head. We are proud to join the marketing team of this first-class operation, and truly find privilege in being able to represent such a fine offering of mountain raised, purebred Angus genetics. We look forward to hosting you alongside the Creamer family, on their earlier sale date of Sunday, March 9th in Montrose, Colorado.

DVAuction

LUNCH

Please join us at noon on sale day for a complimentary lunch.

LIABILITY

All person who attend the sale do so at their own risk and Lazy JB assumes no liability, legal or otherwise, for any accidents which may occur.

TERMS & CONDITIONS

All bulls sell fully guaranteed under Suggested Sale Terms and conditions of the American Angus Association. Terms are CASH. All bulls are to be paid for during or immediately after the sale and will not be released until settlement has been made. Cattle will not be transferred until paid for in full. Lazy JB Angus retains 1/3 semen interest and 1/3 revenue sharing semen interest in all bulls.

HERD HEALTH

All bulls are on a complete health program and will be accompanied by health papers for shipment anywhere in the United States. All bull have been vaccinated with the following:

- Calves at Birth: Inforce3 & Multimin 90
- Calves at 3 months: Nasalgen 3mph, Ultrabac7 Somnus, Ivomec Pour On, Multimin 90
- Weaning: Bovashield Gold fp5l5 (2 rounds), Ultrabac7 Somnus (2 rounds), Multimin 90, Safeguard
- Prior to sell: Poured and treated with Ivomec

All bulls have been tested negative for PI BVD. All bulls are AM, NH & CA free by test or pedigree

INTERNATIONAL PURCHASE

ALL expenses involved with cattle being exported out of the United States will be the responsibility of the buyer, including all vet work, export permits, and trucking on both sides of the border. Lazy JB will help coordinate the process.

FERTILITY AND SOUNDNESS

All bulls have been semen tested and certified as satisfactory breeders. Scrotal measurements will be available sale day.

PAP SCORES

All cattle have been PAP tested by Dr. Tim Holt. Bulls were born, raised and developed at high altitude. They spent the summer at 7,500 to 9,500 feet. Lazy JB Angus has been PAP testing for over 40 years.

INSURANCE

Insurance will be available sale day, please notify sale clerk if you wish to purchase insurance.

BULL VOLUME DISCOUNT 2.5% DISCOUNT ON 5 OR MORE BULLS.

First Breeding Season: All bulls selling for \$3,500 or more are guaranteed to be satisfactory breeders for the first breeding season. A breeding season is defined as the 90-day period following the first turnout of the bull. All animals become the responsibility of the buyers when the animal leaves the ring. This guarantee does not cover illness, injury, death or neglect. If a replacement bull is available, he will be provided or if the buyer prefers, credit for the amount of purchase minus \$1,500 will be applied toward one bull will be given in the following sale. Buyer keeps the salvage value. Please notify Lazy JB as soon as possible should breeding injury occur prior to the injured bull being sold for salvage. All breeding injuries must be diagnosed by a veterinarian and all claims must be made by **SEPTEMBER 1, 2025**. This is not a mortality insurance policy nor does it cover mis-management or neglect, we encourage insuring your bulls.
