

THURSDAY, MARCH 20, 2025 - 1 PM MST - AT THE RANCH CRAWFORD, NEBRASKA

Welcome to our 2025 production sale

Since we started in the seedstock business our customer's success is our success. As cattle prices and input costs vary, we strive to raise cattle that will make you succeed. WCS adds the most elite genetics for your success. Through all of this we have made great friends that are more like family. WCS takes our role in your success very seriously. If you have a problem with one of our bulls or females, we want to be the first to know so we can make it right.

We feel this is the strongest set of bulls with great genetic opportunities for you. We are offering a set of bred heifers that are out of the heart of the replacement pen. WCS emphasizes raising cattle that will perform in every facet of the industry. Whether it is the cow calf operation, yearling operation or selling your calves on the rail. We take great pride in the advancement of our herd to add value and advancement in your herd. We strive to raise great cows with good dispositions, great feet and legs superb udders and offspring that will add performance and carcass quality to your herd. We don't take this task on with a light heart. Contact us when you start marketing your calves as we will reach out to some of our contacts to help market your cattle.

We had the privilege of exhibiting the Reserve champion Purebred Pen of 3 heifers again this year all ET sisters out of the 6019D donor cow. They were Reserve last year as calves. We will be selling choice of these heifers this year. There are several opportunities to add her genetics throughout the sale. WCS is adding a new feature to the sale in the horse division. A few years ago WCS bought and trained Frenchmans Kruz and added several outstanding mares to our program. It is now time to share with you our hard work and dedication to produce a performance horse that is more than one dimensional. They can be used on the ranch, in the rodeo and show pen or wherever you want to go with them. We concentrate on trainable smart athletic horses that can win and help you complete a long day of work.

Thank you to all our friends and family that helped us throughout the year.

We also want to say thank you to Tyler Morava for all of his dedication and hard work he puts in for us.

Jock, Skye and I are very proud of our cattle and horses. We treasure our friendships with all of you and our future friendships. Stop by and look at the bulls and heifers prior to the sale. We look forward to seeing you all sale day and serving you a great beef dinner prior to the sale.

Sincerely Jock, Brenda and Skye

ANIMAL RISK- Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury and will loaded according to purchasers direction.

Insurance will be available sale day.

HERD HEALTH - The Western Cattle Source

herd is on a complete mineral program year round. They have been vaccinated with modified live Vista 5 VL5, MultiMin 90, 7-Way, Endovac and Guardian. Poured with Clean-Up in the spring and given Dectromax at pregnancy checking time.

Bulls were given 7-Way and MultiMin 90 at birth. At branding they were given Inforce, 7-Way with Somnus and Once-PMH In. At preconditioning they were given Once-PMH In, 7-Way with Somnus and Bovi-Shield Gold at weaning, Dectromax and Nasalgen 3 PMH, then later poured with Clean-Up. Bulls were then poured again with Ivomec when they were semen tested. The bred heifers are under the same herd health and vaccination protocol. They have also received their Guardian shots.

TRUCKING

Shannon Nagel: 319-404-5904 Dick Coleman: 765-461-0954

ULTRASOUND TECHNICIAN - Chad Gordon, Ultrasound Technologies - 580-678-1918

ONLINE BIDDING

The strong willed and resilient personalities owned by Jock and Brenda Beeson is the reason they are where they are today. Like many ranchers, grit and determination is what it takes and the unwillingness to take the word NO or accept the word CAN'T never enters the mind. The couple can be taken as brash and opinionated at times, but I am not sure that there are two people more willing to help or express compassion for those in the same business. For all that they have endured over the past decade with natural disasters, health battles, and the adoption of the next generation, both have significant and mindless desires to assist others in need or to support a fellow ranching competitor.

It's people like those in the Beeson union who make ranching a pleasure everywhere. Knowing that your neighbor prioritizes your best interests and your family's well-being over their own, that someone wants you to succeed regardless of competition, or that someone is ready to send you a load of hay or feed and cover the trucking costs during a drought or after a natural disaster, is simply priceless. This mindset defines the individuals behind the Western Cattle Source program. They support numerous fellow breeders and cattlemen throughout the year without expecting anything in return. If they spot a bull or female that could enhance their program, they will go to great lengths to acquire it or find a way to make it happen. They know no limits in wishing success for others, and judging by this sale offering, it appears their actions of paying it forward are at work.

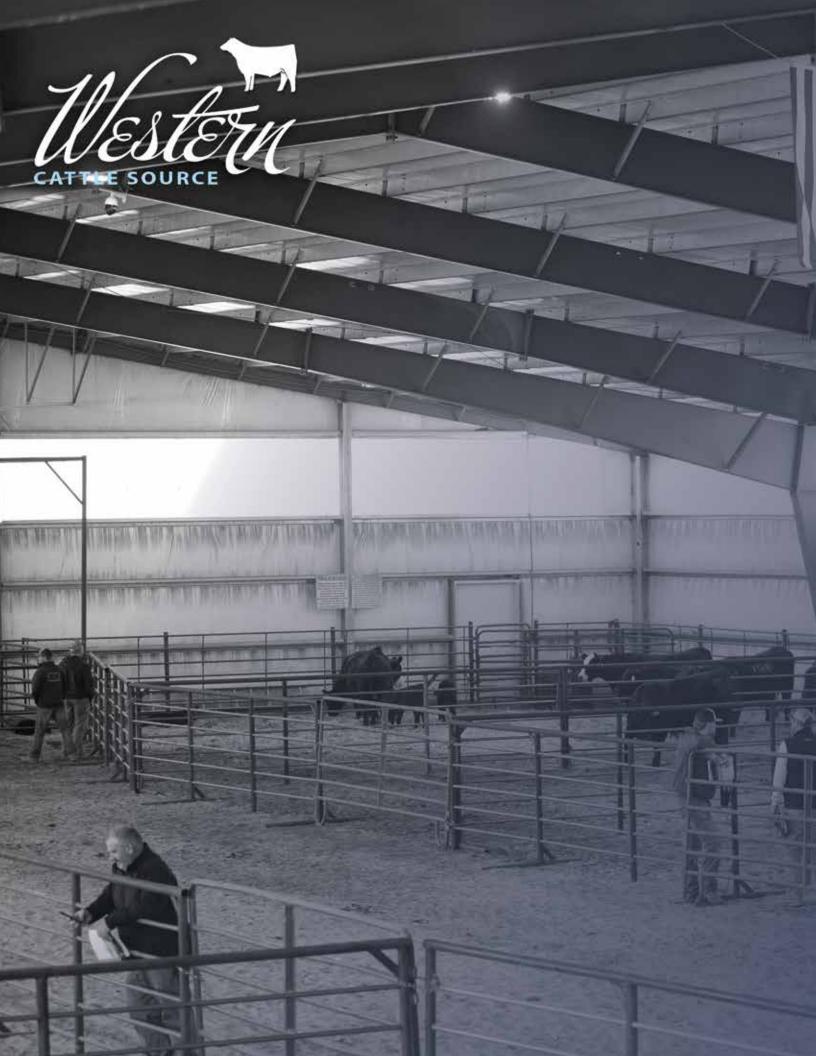

We believe that this is the very best set of cattle offered by Brenda, Jock, and Skye. The pedigrees are right; the cattle fit the mold and have the ability to adapt to any challenges they may encounter and to acclimate wherever they roam. Skeletal integrity and quality must be prioritized in the harsh Northwest Nebraska ranching environment for not just longevity but survival as well. Both the bulls and females have been sorted for any issues that arise and then assessed for quality and performance thereafter. Inventory on the ranch is expected to breed back rapidly and produce calves of suitable size to maintain profitability for the operation. They manage the working cow herd like a progressive commercial outfit with a zero-excuse policy, which is the main reason the program has improved so quickly. They understand their clientele and know what is expected of their product when it leaves the ranch, and that, my friends, is what drives the WCS prefix to remain aggressive and proactive in their management practices.

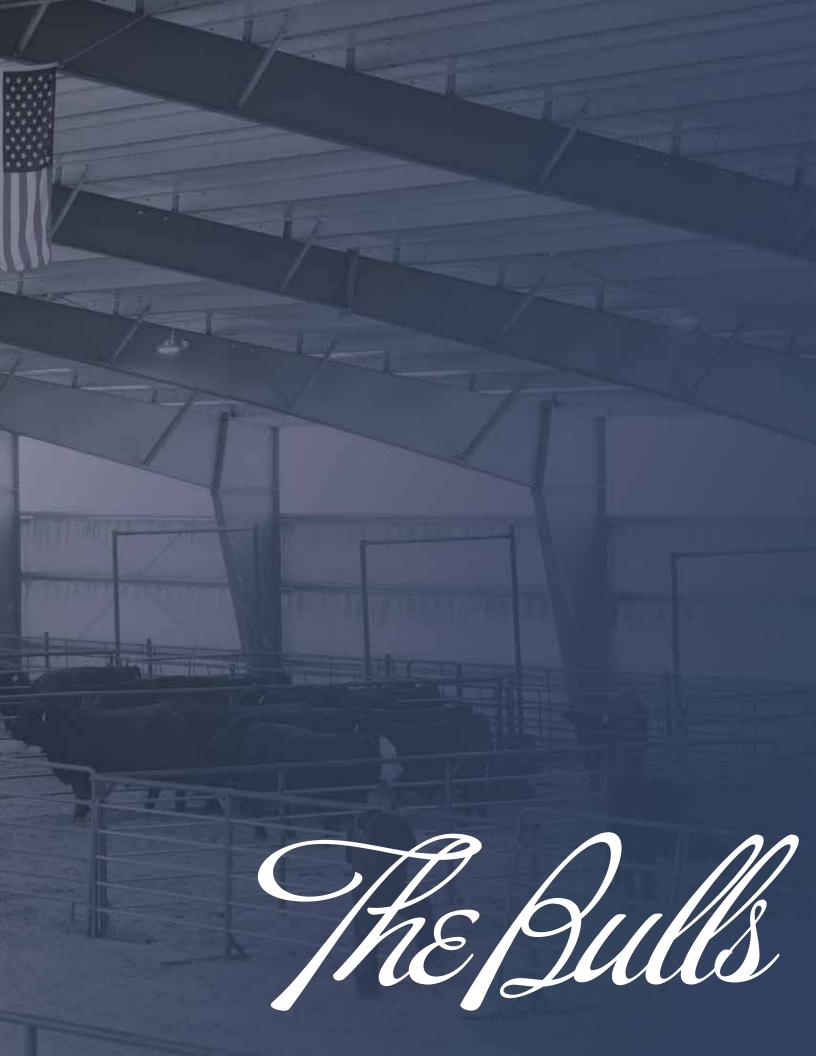

We would like for everyone to consider this an invitation to the annual event in Crawford, Nebraska at the ranch headquarters. The sale setting is in the totally enclosed pavilion on the ranch, so rain, snow, or shine, your buying experience will be comfortable and hospitable. Please reach out to any of the family, the ranch team, or the Innovation AgMarketing staff for inquiries about the top-shelf offering from Western Cattle Source.

Please enjoy the cattle and may God bless America and continue watch over those that ensure us the freedoms that we have and enjoy.

- WCS Journeyman 401M is a striking individual on the profile. He's got style to burn while still being dense made and sound built.
- The leadoff son of the OMF Journeyman J24 sire group carries a modest birth weight with loads of quality. The OMF Journeyman J24 sire group has proven to be a hot commodity from the early bull sales of 2025, and it's easy to understand why when you witness the combination of growth, phenotype and genetic power that these four sons selling as lots 1-4 offer.
- The flush of donor dam LRS MS Elevate 6019D was successful when it produces herd bulls like this guy.

CAR DON ANNUITY 114 - SIRE OF LOT 79

TOCK /HOW HE HEMALES

- What a way to lead into the bred heifer offering than with choice of three females that have been our showcasing females for the past two years at the NWSS, and as a trip have claimed two purple banners in the mile high city. Some serious decisions will have to be made, as each of the trio offer worlds of quality, both on the paper, and in the flesh.
- We think they are females that are difficult to poke a hole in. They have serious amounts of substance,
- The genetic predictions indicate that they are females that can take a program forward for growth and power traits. All three offer the conveniences of being homozygous black and homozygous polled, and come with the support of the most dominating donor dam in WCS history, 6019D.
- The 6019D female has built a strong legacy of excellence through sons and daughters that work on the forefront of not only in the WCS cowherd, but for several of the most progressive in the business, including Werning Cattle Company, and Windy Creek Cattle Company.
- We don't think there is a more secure investment in the Simmental business, than the genetic consistency and maternal powers that come with the LRS Ms Elevate 6019D linage.
- Selling Choice of lots 101-103, the three members of the 2024 & 2025 Reserve Champion Purebred

Service Sire: MR W/C TRIFECTA 975J (ASA# 3974519) Due Date: 3/15/25 Angular, attractive, and super feminine in her design.											

- You would love to have a pasture full of females like 355L.
- Top 30% CW.

THE HOUSES

THE HORSES

- Here is a super athletic colt ready to start however you want to.
- He is smart and very willing. This guy will make an exceptional rope, ranch, barrel, breakaway or anything you want to do with him.
- His sire is the Level 2 Bronze winner in heading at the world show in 2024 and is qualified already this year to go back.
- His mom traces back to some of the best performance horses in the world. Tremendous prospect here.
- 5 state eligible and more on the way.

- WCS Pay Me In Topaz is one cute and elegant filly. As you can see the quality runs deep in this family.
- This filly is so athletic and fun to watch run and play. I can only imagine how fun she will be to ride.
- Her mom was fun and athletic. When you combine this with Frenchmans Kruz, all I can say is wow! She will take you to the next level.
- When done riding her you will have a tremendous broodmare as well. Outstanding prospect here.
- 5 state eligible.

FRENCHMANS BRANDEE

- and his full brother is a stud for Emma Minor.
- The quality and genetics run deep here. By Frenchmans Kruz that won the level 2 bronze trophy in heading at the World Show in Oklahoma City this year.
- Plus he has Dash for Cash, Frenchmans Guy and several other bigtime performance horses in his pedigree. His mom is a daughter of PC Frenchmanlisbet that is the full sib to the great barrel horse Bozo, and Frenchmans Hayday, the sire of Stingray!
- What an opportunity here to purchase a great prospect here. Great disposition on this guy as well. I could go on and on about this guy and his athleticism.
- 5 state eligible and more on the way
- Co owned with Laure Sinn

MASSASUTA

What an opportunity to purchase a super sweet, talented, and athletic gelding that has around 80 rides on him.

- Tim Oswald has started him and has put a great foundation on him. If you'd like to contact Tim, he can be reached at (406) 629-0832.
- This guy will be able to do anything you want to do. You can ranch on him all day then go to the roping or barrel race and win on him.
- This guy has a lot of fancy buttons.
- He has a star-studded pedigree as well-being sired by Kruz and then his mom is by Sixes Pick out of the famous See You In Vegas mare who is by Caseys Charm. What a performance-oriented pedigree here with brains.
- 5 states eligible and more on the way.
- WCS Kruzntovegas has a bright future to take you to the pay window and to be a solid ranch horse.
