TRULY A "ONCE IN A LIFETIME" TYPE OF FEMALE!

FBFS X-CLAMATION 76X
2011 NAILE GRAND CHAMPION PUREBRED SIMMENTAL HEIFER

WELCOME

On behalf of our entire family at Foster Brothers Farms, we are excited to welcome you to the Hybrid Advantage Bull Sale! For years, we have proudly offered our bulls through private treaty sales, and we are incredibly grateful for the relationships we've built with customers who have trusted our genetics. This year, we're taking the next step by hosting a live sale, and we couldn't be more excited to share this offering with you.

We also want to take a moment to thank everyone who stopped by to visit us at the National Western Stock Show in Denver, Colorado. Taking pen bulls is not for the faint of heart, but it reminded us how great this industry truly is! Being able to catch up with old friends and meet new ones who share our passion for quality cattle was worth the snow and freezing temps. We are incredibly proud to showcase our genetics and were honored to receive Grand Champion Percentage Simmental Pen of Three and Reserve Champion Percentage Simmental Pen of Five. These achievements reinforce our commitment to raising Simmental influenced cattle that excel from a phenotype and performance standpoint, and we're excited to offer you that same level of quality in this sale!

Raising cattle is truly a family effort, and we take great pride in standing behind every bull we sell. Whether you've purchased bulls from us privately in the past or are joining us for the first time, we are here to help you find the right fit for your operation. If you'd like to view the bulls before sale day, we welcome you to visit us. We'd love to show you the offering and talk cattle.

Please join us on April 18, 2025 at the Lonestar Stockyards in Wildorado, Texas, just outside of Amarillo. Food trucks will be available starting at 11:00 AM and the sale will begin at 1:00 PM. If you are unable to join in person, online bidding will be available through CCI.live or call any of the sale contacts listed. This event is not just about selling bulls, it's about building connections, sharing our passion for the cattle industry, and celebrating the customers and friends who make this way of life so rewarding.

Thank you for your trust in our program. We look forward to seeing you on sale day and making this sale a great success!

INSURANCE

Insurance will be available sale day. We suggest a mortality policy on all bulls purchased. To properly insure your investment please contact, James F. Bessler (815) 762-2641

PHOTOGRAPHY

John Reasor (423) 290-6002

CATALOG & AD DESIGN

Fave Creative (580) 770-1302

ANNOUNCEMENTS

Announcements made sale day and from the auction block during the sale take precedence over printed material in the catalog or other printed material associated with this sale. Anyone attending this sale, attends at their own risk. Breeders or any of the sale force will not be held responsible for any injury while attending this sale.

SUPPLEMENTAL INFORMATION

Ultrasound data and scrotal circumference measurements will be available the week of the sale.

SEMEN INTEREST

Seller retains 1/3 semen interest in all bulls selling unless otherwise noted or announced from the auction block.

DELIVERY

Free delivery within 300 miles on all bulls and we will assist in finding delivery options to other parts of the country!

TERMS & CONDITIONS

Terms of sale are cash or check payable immediately upon conclusion of the sale and before animals will be removed. The cattle will sell under the standard terms and conditions of the American Simmental Association and American Chianina Association.

RISK

Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury, and will be loaded according to purchaser's direction. Insurance will be available sale day.

BULL GUARANTEE

Unless otherwise noted, all the breeding age bulls will have passed a breeding soundness exam prior to pick up/delivery. In addition to the standard Terms and Conditions of the American Simmental Association and American Chianina Association, we will provide the first breeding season (the 90-day period immediately following turn out) guarantee on all yearling and older bulls. This guarantee is not an insurance or mortality policy, but a guarantee on functional fertility. It is not a substitute or replacement for poor management. Buyer assumes all risks for injury due to running bulls together or management decisions outside genetic control. For the guarantee to apply, we ask that you contact us as soon as a condition is observed and before the animal is sold. We will work with you to determine whether the animal is returned or sold for slaughter. We will attempt to provide a suitable replacement. If one cannot be provided of equal or greater value, we will issue a sale credit to be used in a future sale for the full purchase price less the salvage value of the animal.

The story of Foster Brothers Farms is fundamentally about FAMILY! Jody and David grew up on a diversified row crop and cattle operation. They raised cotton, corn, milo, potatoes, and anything else that could be planted to produce a cash crop, alongside commercial black-hided beef cattle. In the mid-nineties, this tight-knit brotherly duo decided to engage in business at a registered level. Their breed of choice was Chiangus with Chianina Composites. While the existing cow herd was primarily Angus, they sought something more, with added muscle, growth, and improved phenotype. Larry Golden, a neighbor and extended family member, achieved significant success in the early years of introducing the Chianina breed, marketing countless Texas Major contending and champion-caliber steers and heifers. That successful start was just a mile down the road, igniting the passion for the "Hybrid Advantage", a reality that paved a path that shifted ever so slightly to include the influence of Simmental genetics.

In the early years after the turn of the century, Foster Brothers Farms became a household name—a family synonymous with integrity, quality, and success. Each of the five children proudly carrying the God-given Foster name earned scholarships at the San Antonio Livestock Exposition for exhibiting a Breed Champion Junior Breeding Heifers, and they all exhibited a Champion Female at the American Junior Chianina Association Junior National Heifer Show as well. The cattle boasted excellent phenotype with enhanced foot size, substance of bone, and true beef cattle shape, while exuding significant presence. This did not change when management shifted the focus to the SimGenetic business. The stock remained competitive, retaining the same trademark advantages as their Chi Composites, if not exceeding them.

We welcome all of you to the "Hybrid Advantage" Bull Sall version 2.0! This sale name continues what was started two decades ago, and we are thrilled to be part of the marketing team. In addition to the growth of the family, the cow herd has increased both in number and quality. This group of bulls results from significant genetic investments and commitments to some of the industry's most sought-after donor dams, known for their maternal prowess. The Angus donor, PVF Blackbird 3127, and Simmental donors like the past National Champion FBFS X-Clamation 76X, along with her daughter FBFS Exclamation 045E and HILB Deja vu G106W, contribute to the majority of the offering. 76X maintains a strong presence throughout the entire set, as she appears in both sides of many pedigrees, underscoring the maternal strength of her contributions to the program.

This set of bulls features not one, but two champion-caliber competitive pens of bulls at the 2025 National Western Stock Show. The Champion Pen of Three Percentage Simmental Bulls and the Reserve Champion Pen of Five Percentage Simmental Bulls are all exclusive to the event. FBF left an impression on those who attended the coveted event, and rightfully so. The decorated individuals mesh right in with their quality contemporaries, and we are positive that the buying public will concur.

Please consider this your invitation to join us on April 18, 2025, at the new and comfortable Lonestar Stockyards west of Amarillo at Wildorado, Texas, just off of Interstate 40 for the reinstatement of the "Hybrid Advantage" Bull Sale. This is your number one source for ranching's best tool, Heterosis! We are certain that when you commit to making the trip, you will not be disappointed with your decision to view the offering in person. There's so much more to say about the cattle and the family, but one page just isn't enough. If you should need any assistance or any additional information about this elite offering of herd sire prospects, we encourage you to engage with SyAnn, Jody, or anyone affiliated with the firm. The team at Innovation AgMarketing will also be available for any correspondence regarding the quality and talent of the offering that lies between the covers of this sale book. We look forward to fielding your interest and meeting you all in person on Friday, April 18, 2025!

Please enjoy the cattle and may God continue to bless our great nation and protect those who fight for our freedom to experience the ranching lifestyle.

- Suited for his namesake, this herd sire prospect is built like an American! Stout in his shape and bone with mass and weight per day of age.
- He is a son of the \$620,000 STCC Tecumseh 058J and out of FBFS Jenney 500J, a maternal sister to the impressive FBFS SWC Jordan 23J and FBFS Ledson 536L, the lead bull in the 2025 Champion Pen of Three Percentage Bulls at the National Western Stock Show! The past National Champion, FBFS X-Clamation 76X, is as strong of a cow family as any in the breed.
- He will be a trait leader for growth and sheer quality while contributing to end product yield.
- **Member of the 2025 NWSS Reserve Grand Champion Pen of Five Percentage Simmental Bulls.**

- Cowboy-bred and rancher-approved is exactly what this big framed, long-sided, heavy-built herd sire prospect is constructed for. He has the influence of W/C Loaded Up 1119Y, SS/PRS High Voltage 244X, JBSF Berwick 41F, and two shots of the West Texas-born JSSC Wide Body 090W, from the 76X cow family. He is, no question, a product of this elite family operation.
- 501M was a member of the Champion Pen of Three at the National Western Stock Show that was admired for their power, substance, beef animal merit, and what they could contribute to the industry.
- His sire, JSSC Caddillac Kind 86G, is a tremendous breeding bull that was bred by and owned in partnership with Joe and Josie Seale of San Augustine, Texas. The maternal side of his pedigree is supported by the famed "Susanna" cow family that calls home to R&R Cattle Enterprises of Keithville, Louisiana.
- We expect this performance-bound prospect to sire a set of cattle that will feed and yield while injecting additional profit through pounds.
- Member of the 2025 NWSS Grand Champion Pen of Three Percentage Simmental Bulls.

- This CLRS Homeland 327H son is from the \$75,000 FBFS Exclamation 045E donor dam making him a three-quarter brother in blood to 545M.
- His impressive genetic ledger in this offering places him in the top 2% for YG, the top 4% for REA, the top 10% for WW, and the top 25% for YW and Stay.
- 551M offers diversification and the ability to retain the female siblings to the scale-pounding male progeny.
- He's supported by a high-caliber cow family and is sired by one of the elite growth profile bulls of the breed.

FBFS EXCLAMATION 045E Dam of Lot 3

FOSTER BROTHERS FARMS

- This brotherly trio should solidify confidence not only in the cow family but within the sire group as well.
- 559L is a strapping, sturdily built creature with big paws, extra bone, and significant frame and scale. His mass and capacity will make you take notice.

68.3	16.7	10.1	37.8	-0.47	0.04	-0.087	1.16	121.1	78.7

- The burly, dense, rugged built brother of the flush by CLRS Homeland 327H from the dominant donor dam of the program.
- For those who follow the Simmental business and know the cow families, this offering could be comparable to the one at the W/C when you consider the saturation of dominant females that are responsible for the foundation of a progressive breeding program. 76X would be of comparable fashion to the likes of 534R when it comes to influencing a significant portion of a breeder's program.
- Again, plenty of punch and performance with carcass value on board, and the reputable donor family to take his cattle across the finish line.

57.8	14.3	13.8	31.6	-0.45	-0.25	-0.104	0.88	110.8	69.7

- This would be a royally bred herd sire prospect that would offer as much calving sensibility in terms of problem-free calving scenarios as any in the age-advantaged bull offering.
- Of course, it takes "two to tango", but when management is applied or a little supervision at calving, the cattle by SO Remedy 7F are consistently moderate at birth and the daughters are proving their worth in production as well.
- A son of the proven SO Remedy 7F from a dam that sports two National Champion Females in her pedigree.

- The influence of PVF Blackbird 3137 is very significant in the SimGenetic program at Foster Brothers Farms.
- We certainly appreciate and admire the build, shape, and look this "in-house" bred herd sire prospect has to his claim.
- His sire is a direct son of FBFS X-Clamation 76X sired by the JS Simmental Patriarch, CDI Innovator 325D. He blends two of the most potent donor families within the Foster Brothers Farms program, thus enhancing the likelihood that you will experience significant daughter retention to continue building your cow base for the future of your operation.

- This son of STCC Tecumseh 058J should gather up the friends when videos get posted and by those who join us on sale day. His maternal granddam is one of the top-shelf donor options available at Prairie View Farms of Illinois making his value as a maternal sire a bit more realistic.
- 050M is very smooth in his transitions but maintains the masculinity needed to be titled as a "herd sire."
- He is very burly in his build with the extra power and shape to move any program forward as he ranks in the top 10% for DMI and YG, and the top 15% for REA.

- The quality continues from the elite SimAngus donor dam of the program, FBFS Go Blackbird 130G with another high-profile son of STCC Tecumseh 058J.
- This embryo transfer procedure contributed greatly to the quality of the experienced program, and this reinvented bull offering.
- The Hybrid Advantage was initiated nearly twenty years ago to provide commercial beef cattle operations with an injection of heterosis with added red meat yield and weight per day of age. 052M should do all those things and more as his daughters should have significant value when retained when supported by the 3127 Angus donor dam.

- Look and presence becomes elevated with the injection of STCC Tecumseh 058J with the PVF Blackbird 3127 cow family!
- 117M is attached high out of the front side of his blade with a quality jawline and head shape. He, too, offers spinal integrity with a level pin set and a loose-hinged hind leg. We definitely appreciate the overall build and shape he has to offer any set of cows.
- He charts in the top third of the breed for his \$GN index, so not only should his progeny be more profitable when ownership is retained, but with his top 10% YG and top 15% REA will only incentivize the premiums to be dealt when harvested.

- The strength in the presence of the past National Champion, FBFS X-Clamation 76X donor female, is substantial in this offering of herd sire prospects as she shows up on either side of the genetic equation.
- LLW CARD Merit 03H is a combination of the legendary Mr HOC Broker and TL Ledger. Both are noted for their superior maternal influence and the ability to inject phenotype and skeletal integrity consistently.
- This herd sire prospect should certainly work for a registered or commercial breeding program. He offers two shots of the THSF Ms Liberty S600 cow family through the past Circle M 1.0, Owen Brothers, and Red River Farms donor, FBFS Wakanda 620W and FBFS X-Clamation 76X. He, too, posts another elite donor of the Foster Brother's program, SVF Star Struck S199, the dam of FBFS Wheel Man 649W.
- 508L is laced with proven donors that have built the SimGenetic program in the 79241 postal code area for this great family who represents these bulls for public auction on April 18, 2025. Invest with confidence.
- Member of the 2025 NWSS Grand Champion Pen of Three Percentage Simmental Bulls.

LLW CARD MERIT 03H Sire of Lots 29-31

2025 NWSS GRAND CHAMPION PEN OF THREE PERCENTAGE SIMMENTAL BULLS
 Member of the winning pen!

FOSTER BROTHERS FARMS

- This three-quarter SimAngus herd sire prospect comes with a desired birthweight, and we expect him to sire cattle consistent with that modest number.
- The near-outcross bottom side of his pedigree is laced with predictability and proof-positive genetics for cattle with substantial post-weaning performance and power.
- He is tall fronted, high tying out of his shoulder, big and bold in his upper rib, with plenty of shape and width to his business end.

- This herd sire prospect is from a full sister to the Denver Champion, FBFS Wheel Man 649W.
- He is one high-tying, good-looking bull with plenty of length and extension.
- His transitions are as smooth as glass, and he is flawless in motion.

- Top 10% REA and \$GN with a 110 weaning ratio!
- The cattle with the PVF Blacklist 7077 influence are very good in every way and never sacrifice overall quality.
- The presence of the "Alley" cow family only solidifies the entire package.
- A super stout-built herd sire prospect with a very bright future.
- **Member of the 2025 NWSS Reserve Grand Champion Pen of Five Percentage Simmental Bulls.**

- A true SimAngus sire prospect that is saturated with the qualifications for significant female retention.
- FBF Smart Choice 808S is sired by the timeless and proven O C C Judge 679J and backed by the potent, Montana-derived "Revolution Rose" Angus cow family. The cattle by 808S are consistently blessed with significant center body shape, fault-free skeletal design, and beef cattle shape, much like 011M.
- He's an older Spring-born herd sire prospect that is influenced by the \$60,000 OMF Hard Right H21 and the proven NLC Upgrade U8676.

- If you need a calving ease herd sire to trail a set of heifers this year, we encourage you to add the "Smart Choice" son to your bull battery.
- With just a 63 pound actual birthweight, 005M should be qualified for the job.
- He's a big-centered, wide-based, good built herd sire prospect with calving ease credentials.

- Once again, the lineage tells the story. In today's industry, academia has encouraged folks to utilize the data submitted in the finished form of EPDs and Index values. However, when certain bloodlines have had minimal data submitted, those genetics are at a significant disadvantage. Yes, it is the responsibility of the management to turn in data, but more often than not, it doesn't get turned in, not because it is inferior, but because when they sell open heifers or show heifer sires for the amounts they do, they may not feel as though it is necessary.
- I can personally attest to the quality and performance value of many of the cow families and sires that are lined up in this herd sire prospect's pedigree. I guarantee you that every female that backs 532L and every sire within the first four generations of the maternal side were built like beef cattle should be to withstand the pressures of the Texas panhandle. Wide, square, true-built stock with integrity of hoof and skeleton with the ability to wean pounds of calf. Pure and simple cowboy logic.

3	22	38	0.34	0.39	118.09	81.04

- 539L posts up with the look and build of a high end Chiangus sire prospect that has the credentials to sire cattle with production and pounds or with that green shavings look.
- The son of STAG Good Times 201 is laced with the maternal sire power of the old-school patriarchs. RDD Aces High 6N 1CA, the past National Champion and sire of the likes, in combination with THMT E-Mail 375K 1CA, another National Champion with the same credentials, influence one that represents all three in his phenotype and presence.
- He's a breeder bull that should impact any program.

- The bulls that built the brand are still available. Chiangus Cattle founded the "Hybrid Advantage" bull sale. These cattle are loaded with shape, power, and a trademark look.
- 543L has the extras for size and scale with an extra shot of quality and he should sire cattle with cutability and carcass weight. We love his added dimension, shape, and real world power!
- RDD Aces High 6N 1CA and PVF Blacklist 7077 influence the sire prospect's high probability for female retention as well.

MCE	MILK	CW	MARB	REA	API	TI
6	24	49	0.34	0.42	127.31	80.81

- A more traditional Chiangus bull in terms of stretch, length, and frame.
- 544L is taller fronted, strong in his spine, high in his pin set, and sets down on a very textbook hind leg.
- We think highly of the son of LLW Cardinal Crossover 236J, but are more impressed by what his dam consistently does year after year. She is influenced on the top side by Thomas Lucy 2139, a female that was selected from the Akers and Cane Ridge programs of Kentucky. The blend of two of the more potent Bill Conley bred sires, BC Raven 7022 and BC Lookout 7024, add to the rib and density of this bull's pedigree and what he has to offer to a progressive outfit.

Watch the Sale on CCI.live!

*The best, the fastest and most
comprehensive marketing & bidding tool!*

How to Bid Online...

- **As a buyer**, you do not need an account or to login to watch the sale but you must have a validated account to bid.
 - After you are logged in, you must proceed to the sale page for any and every auction and click **"Get Buyer Number."** Some auctions require a pass-code to obtain a buyer number even after you are approved by CCI.live. Pass codes generally come from the sale manager or ranch for that particular sale.
 - CCI.live will operate with ease on a **cellular device, laptop, desktop or tablet.**
 - A **modern or current browser** is important and will make your experience better. You do not need to install the app on cellular devices to watch a sale. CCI.live is a browser-based application meaning it will play on most new browsers, but you can also download the CCI.live app at the Apple App Store or through Google Play.
- **For successful bidding you must have good Internet service!** It is very important to be stationary. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen - it is real time and refresh your browser if you feel like you have some lag.
- **Support line open during all sales. 405-400-9505** - Please contact the ranches for invoices and trucking.

Viewed around the world!
