Bulls available for viewing all day

Monday, March 31, 2025
9:00 am - Bulls on Display
11:30 am - Lunch Served
1:00 pm - The Partners in Progress Bull Sale

Welcome friends and neighbors to our 13th annual Partners in Progress Production sale here at McEntire Red Angus. We hope you know how much we appreciate everyone who supports our program. We love the cattle business and the families that it brings to our Ranch. It's what we do day in and day out, except for a few sporting events with the kids every so often! We are excited about the offering of bulls we have for you this spring. These bulls were weaned on the 1st of October and developed here at the ranch. We have had them on a high roughage ration on a 110-day test. The carcass ultrasound data came back with great results, as you will be able to see in the bull information listed with each lot.

We understand that the Red Angus Breed is becoming more and more popular and that you have many options when it comes to choosing your herd bulls. We invite you out to the ranch to look over the bulls and heifers and hopefully you will find something that will bring value to your own operation and move your program forward. Good Bulls make great cows, and our mating decisions have been based on producing next generation females to be more efficient and productive than their mothers. The Red Angus cattle have been known for good dispositions, calving ease, adaptability, and keeping your operation in the black! A good set of Red Angus tagged calves will top the sale no matter where you go.

We will be selling 75+ herd bull prospects that we feel will make a great addition to a seed stock producer or to a commercial cattle operation. We will also be selling 20+ registered Red Angus replacement heifers and 6 elite registered fall bred heifers from the heart of the breeding program. Additionally, we will also sell 60 commercial Red Angus first calf heifer pairs and 75+ commercial Red Angus open heifers. These heifers have been on a complete vaccination program and have been checked by Dr. Richard Prather prior to the sale for reproductive soundness.

We would like to invite you to come out to the ranch on Sunday night before the sale and enjoy supper and a social. We would love to get to know you and your family! We will eat around 6:00 pm. Please join us sale day at 11:30 am for lunch. The sale will start promptly at 1:00 pm CST. Again this year, the sale will be broadcasted live on CCI.Live for those of you that are unable to attend the sale. If you have any questions about the sale, please feel free to contact us or any of the sale staff to visit about the offering. Be sure and check out our website at www.mcentireredangus.com to view videos of all the lots in the sale. We will not sell in catalog order this year. Therefore, please be sure and look on our Facebook page or on CCI.live for the sale order on sale day. Thank you for your interest, and we look forward to doing business with you.

See you at the sale!

INNOVATION

— AgMarketing, LLC —

It's no secret that cattlemen and cattlemen from all corners of this nation have experienced some of the most remarkable times that we have ever seen in this industry that we all know and love. Trials and tribulations are faced head on each and every day, however it is the grit and determination that pushes Randy McEntire to provide a product on an annual basis that is better than the previous. No matter how much progress is made, the McEntire family continues to push the needle forward when it comes to genetic improvement by investing in cutting edge genetics that will in turn enhance the quality of the product that they provide on an annual basis to their loyal customers. It is their unwavering commitment to offer the "best" and the McEntire family is relentless in this pursuit!

The program's base is from an operation that has been in the cattle business for over 6 decades and now includes 3 generations. Randy and Crystal's investment in those genetics allowed for their operation to grow into what it is today. The knowledge they had from their previous commercial endeavors is why their product appeals to so many ranchers in the southwest and central plains. These red hided cattle that bear the McEntire brand are very hardy with additional strength in growth, durability, shape, and eye appeal. Randy sorts extremely hard on hoof quality and the cowherd that generated these studs has been grown in a very disciplined manner over the past 20+ years. So, it simply stands to reason why these cattle are as good as they are and why many continue to come back and new faces surface year after year.

The bulls and females from the program have been well received for many years and thrive wherever they are introduced. Skeletal integrity, hoof quality, body shape, fleshing ability, genuine muscle, and true width are what the cattle are reputable for. Maternally, the cattle come with the selected instinct and pass along significant calf vigor and performance, with better than suitable milk production to contribute to the final equation at weaning. Randy has invested in the genetics that not only excel on hoof, but they do transmit outstanding carcass merit as well with premiums attached. Customer retention is high to the program as those who have invested have experienced the results of the family's investment in genetics, management, and research to bring the very best year after year. This year we will offer 75+ age advantaged and yearling Red Angus bulls that have been developed with longevity in mind. We also have an incredible set of registered fall bred heifers and yearling replacement heifers for your appraisal. In addition, the McEntire firm is known for offering one of the largest and highest quality offerings of commercial Red Angus first calf heifer pairs and commercial Red Angus replacement heifers annually. The quality will impress even the most critical evaluators and stockmen!

The hospitality and food for sale day will be incredible and the stock will only compliment the reception when you set foot on the ranch. If you need assistance with information, selection, or purchasing, please reach out to the Innovation AgMarketing team with any questions. We hope to see you the 31st of March in Sweetwater, Oklahoma for this annual event.

Enjoy the Cattle!

SALE ORDER

Cattle WILL NOT sell in catalog order this year. A sale order will be available prior to the sale.

TERMS & CONDITIONS

Cattle sell under the standard terms and conditions as recommended by the Red Angus Association of America.

SEMEN INTEREST

McEntire Red Angus will retain 1/2 semen interest in all bulls sold.

SEMEN TEST

All bulls will be semen and Trichomonas tested prior to the sale and are guaranteed to be fertile.

INCENTIVES

Free delivery on bulls within 300 miles of the ranch. This does not include heifers. All trucking on females are the buyer's responsibility, but we will be glad to assist with trucking plans. If bulls cannot be taken sale day or arrangements have not been made with us within the first week for delivery, the seller can house bulls at McEntire Red Angus until pick up at a rate of \$6/day. However, we will not be responsible for sickness or injury.

LIABILITY & ACCIDENTS

Every precaution will be exercised to protect the safety and comfort of those attending the sale. Neither the owners, auctioneer or any sale staff assume any responsibility in this matter and disclaim any liability, legal or otherwise, in the event of accident or loss of property. All persons attending the sale do so at their own risk. We are not responsible for typographical errors.

GUARANTEE

All bulls are guaranteed by insurance only. McEntire Red Angus will pay 30% of the insurance premium on each bull purchased in the sale if the buyer chooses for the first year after purchase date. Insurance will be available for purchase on sale day. We strongly recommend purchasing insurance so that your investment is properly protected.

HERD HEALTH

All cattle sold through the sale are on a complete health program and will be accompanied by the health papers for shipment anywhere in the United States.

Performance Beef: Tracking costs made easy

- Track every pound loaded and delivered
- Build and change rations
- Pull accurate invoices at the touch of a button
- Generate real-time closeout reports
- Record pen and pasture treatments on the go
- Analyze trends in feed intake, added costs and performance
- Manage feed, medications and other inventory

Using Performance Beef for our registered herd has helped us not only track our data but correlate it all together.

AI BRED 12/11/24 TO HOLTON HARD DRIVE 2007K ET (RAAA: 4756579).
 LIKELY SAFE AI. EST. DUE 9/19/25.

- An incredible set of fall bred heifers to lead off the female division of this year's McEntire Red Angus "Partners in Progress" Spring Production Sale!
- Here is a beautiful daughter of the resident herd sire at McEntire Red Angus, WEBR Prowler J61, one of the most consistent sires in the program that stamps his progeny with extra body, mass, and power!
- The dam of 3143 is sired by LSF Optimism 1107Y and further influenced by TPIE Wagonmaster 753.
- She ranks among the top 17% YG and top 19% DMI.
- A true sale feature that has the credentials to serve as a cornerstone female in any breeding program!

The Open Female Offering

75 COMMERCIAL RED ANGUS OPEN HEIFERS

Offering 75 hand sorted commercial open heifers source from a customer in Nebraska! Traditionally we have gate cut groups of 10 head or more for our customers, but we felt this year the quality was deeper than it ever has been. These females are sorted based on size, weight, and kind for uniformity. We think that you'll agree, this is a top shelf set of red hided commercial replacement females that will add maternal strength to your cowherd. Bid with confidence!

COMMERCIAL RED ANGUS FIRST CALF HEIFER PAIRS

Again this year, we proudly offer a tremendous set of red hided commercial first calf heifer pairs that will all have calved at their side sired by 4MC Tight End 0182, a son of PIE Convoy 7058. This set of females are extremely high quality and are ready to go to work for you. At the time the catalog went to print there were still females that are close to calving. The complete list of pairs will be available the week of the sale. We expect there to be approximately 60 first calf heifer pairs that will sell on March 31, 2025. Following AI breeding we turned out a top shelf set of bulls to clean up these females. The bulls that served as pasture exposure sires would include PIE Groundbreaker 2036, Holton Hard Drive 2007K ET, and HRP Maximus 3084L. These are bulls that we have utilized and will continue to utilize extensively within our breeding program. For more information, please contact Randy McEntire at (580) 729-9036.
