

THE 53RD ANNUAL
THOMAS RANCH BULL SALE

4.8.2025

1:00 pm at the Thomas Ranch Sale Facility
HARROLD, SD

THOMAS
RANCH

Dear Cattle Friends,

First, all of us here at the Thomas Ranch would like to Thank You for taking time to take a look at our catalog and cattle. We think you will be impressed with this years offering and we look forward to visiting with you if you have questions or just want to visit about the bulls and heifers in the offering. This year we are excited to offer a sortable spreadsheet. Which allows you to sort through the offering in order of what is important to you to move your program forward.

The continued high market prices for all aspects of the beef industry continue to be STRONG. High prices for cull bulls are a great reason to update your herd bulls. You not only get a little younger bull, but update your genetic battery.

Cow inventory continues to be low and replacement heifers seem to still be going to market. When the rain comes and folks start holding on to those heifers as we start to rebuild the cow inventory, it will be a great time for those who took the time to invest in good female genetics. We have been working hard on the bull side of our business as well as the female side.

We strive to produce not only bulls, but also heifer mates that produce cattle that have both the Genetic appeal and the phenotypical look all of us as good cattlemen and cattlemen are looking for. Please take a look at the chart in the following pages about the results we have had through the Prime Pursuits Program "Pi" and how the Thomas Ranch genetics have done as a whole compared to all other cattle in this same program. This has all been achieved through careful breeding choices and management.

President Trump and Vice-President Vance have been agriculture friendly right out of the gate. There is a lot of "chatter" right now as to all the things going on with tariffs and exports. We think if we just hold on "Everything Is Going To Be Alright." Change takes time. And, America will be Great Again.

We would be remise if we didn't take the time to Thank the people who work here with us day in and day out. Mardy has been with us for twenty-three years. Laura is coming up ten years this summer. Bill has been with us for seven years and lives here at the ranch. Andy, JW, Jady and Danielle LeDoux have been with us for three years, they live at the ranch as well. Cally and her family come and help with all the sales. We also lean on Family, friends and neighbors for a lot of help sale time and throughout the year.

Dr. Dan Herold from Famo Feeds visits us frequently and continues to formulate our rations. We appreciate all these folks for everything they do to help us here at Thomas Ranch.

We also want to thank Farm Credit for helping with the cooking along with Loren Hansen with Crop 1.

There are numerous others who come throughout the year and help with various projects. Everyone who ranches knows the time, energy and commitment it takes to keep everything moving in the right direction and we certainly wouldn't be where we are today without the commitment from each and every one of these folks.

Come join us for lunch and stay for the Bull & Heifer Sale. Tuesday April 8, 2025 at the Ranch.

Troy and Veabea Thomas

CLINT, CALLY, TEE & TYLER
KINDRED

TROY & VEABEA
THOMAS

HARRY & KAY
THOMAS

Ladies and Gentlemen,

All sale season we have been repetitive about how good the marketplace is and how great things look for the unforeseeable future and we reiterate that again with this opening letter for one of the most reputable, multi-generational family ranching entities known to great stockmen and women both near and far. Harry and Kay Thomas had the vision, the ambition, and the desire with the work ethic to set stakes deep in central South Dakota. That vision and rock-solid foundation built on sacrifice, discipline, and perspective brings us to the Thomas Ranch as we know it today.

Although Harry and Kay are semi-retired, the examples they demonstrated to the next generation and beyond is still employed by the Thomas name in the day-to-day ranching operation. Troy and Veabea Thomas need no introduction to the seedstock circles as the multi-breed operation is well known especially within the breeds that are represented in this annual sale offering. The power couple endured a multitude of hardships and loss along the way, but they never wavered by pulling hard on those boot straps every morning to take on the next opportunity of life's blessings or face the next challenge in their continued ranching endeavor.

The TR prefix was certainly made known over the past several decades for phenotypic excellence as the family gathered more hardware and banners than most operations of equal status. The firm sold them as well and as high as anyone to many of the elite seedstock firms throughout the nation as well. However, the focus has always been on making the cattle better than the previous generation and so the annual quest to inject fresh genetics into the program has never ceased. Many a great breed influencing herd sires have carried the TR prefix just like the ones represented throughout this sale book and many reflect that annual investment made by the firm.

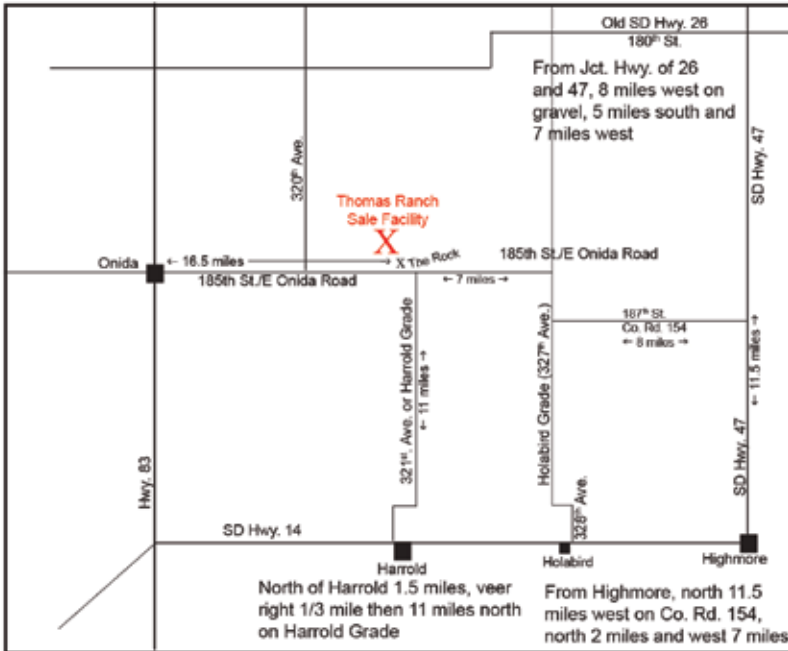

Throughout the entire offering, in each breed, new sire groups are introduced in this year's sale offering. We are very certain that you will find the cattle offered to not only be elite in their presence and build, but also offer data packages that rival some of the very best in the nation. The TR is focused on improving the total animal and your profit potential when you invest into a TR herd sire or female. Those that are past customers know and understand the value these cattle have, especially in their native environment of the Northern Plains and that is why so many of you return annually. For those that are new to the Thomas program, you're in for an absolute treat as the tide continues to turn more to efficiency and profitability with many options and exit strategies for your feeder cattle and beyond. We encourage all customers, repeat and new, to visit with Troy about your marketing options available through the TR program.

It is our pleasure to welcome you to this annual marketing endeavor at the Thomas Ranch. We are certain that you will like what you see in the pens or on video and that you will be intrigued by the data these cattle have to offer. With the cattle trade as it is, we know that this is the opportunity for anyone to introduce a fresh genetic line to your program regardless of program affiliation. The Thomas Ranch family is on board to assist with whatever necessary to make your buying experience one that is pleasurable and simple. You can also reach out to anyone affiliated with Innovation AgMarketing for suggestions or information regarding the stock between the covers of this sale book as well. We look forward to visiting with anyone about the cattle and the people who represent them. Consider this your invitation to join us on April 8th, 2025, for a great set of cattle and even better hospitality north of Harrold, South Dakota.

We hope that you enjoy the cattle and pray that God continues to bless our nation and protect those who fight to preserve our freedom to ranch and be involved in one of the greatest industries on Earth.

Thank you for your interest,

Graham Blagg Jared Shipman Tim Anderson

DELIVERY

Thomas Ranch will offer free delivery on bulls beginning May 1, 2025 to South Dakota and surrounding states. After May 1, 2025 bulls left at the ranch will receive a \$5 per day feed charge from Thomas Ranch. Bulls left between the sale and May 1 will be fed free of charge. We will assist in finding affordable and reliable delivery options to other parts of the country for bulls and heifers and may be able to arrange for cattle to be shipped to a central location where you can meet a truck.

EPD's & ULTRASOUND DATA

EPD's printed in this catalog for the Angus offering were current as of March 3, 2025. Updated EPD's will be available on sale day. An updated, sortable spreadsheet will be available online April 4, 2025.

TERMS

The terms of the sale are cash or check payable at the sale facility unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released or transferred. All cattle sell under the standard terms and conditions of their respective breed associations. All major credit cards will be accepted with an additional 3.5% buyer's premium.

SIGHT UNSEEN PURCHASE GUARANTEE

Buyers unable to be present may contact us for assistance. Bulls sent on order by management will be guaranteed to meet the buyer's acceptance. Buyers may also contact the Auctioneers, ring staff, or any authorized representative listed in the sale catalog for assistance. Buyers may also register through CCI.Live to bid during the auction.

ANNOUNCEMENTS

Errors discovered in the catalog will be corrected by announcements from the auction block at sale time, and such corrections will take precedence over the printed material in the catalog.

VOLUME DISCOUNT

5% on 5 or more bulls purchased, and 10% for 10 or more bulls purchased. Any credits will be deducted before volume discounts are figured.

INSURANCE

Mortality insurance will be available sale day through Martin-Trudeau Insurance. Any deviations from the above statement will be worked out between the buyer and Thomas Ranch.

ACCIDENTS AND LIABILITY

All persons attend the sale at their own risk. The seller and sales management assume no liability, legal or otherwise, for any accidents occurring in, on, or about the premises.

VIDEOS

Videos will be available at www.thomasranchcattle.com and CCI.Live around April 1, 2025. Videos done by Focus Marketing Group, Kyla Fawcett.

APRIL 8, 2025 IN HARROLD, SOUTH DAKOTA

Our Commitment to Quality Bulls

BREEDING SOUNDNESS EXAM

All bulls will have passed a fertility test before delivery. Any bull picked up sale day is guaranteed to pass a semen test. Thomas Ranch will pay for semen test costs. Scrotal measurements that are printed in the sale catalog were recorded on March 4, 2025.

BREEDER'S BULL GUARANTEE

Bulls selling for more than \$4000 are guaranteed for 90 days from first turnout against breeding injury. If a replacement bull is available, he will be provided. If a replacement bull is not available, credit will be given in next year's Thomas Ranch Bull Sale. Credit will be for the purchase price less volume discounts and salvage value of the injured bull to be used for the purchase of one replacement bull. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made prior to Oct. 1, 2025. This is not a mortality insurance policy.

SEMEN INTEREST

Thomas Ranch will retain 1/3 revenue sharing semen interest in all bulls selling in this sale unless otherwise stated. Buyer receives full possession and 100% salvage value.

HERD HEALTH

Herd Health by Dr. April Schilder, Prairie View Vet Clinic, Highmore, SD

- All bulls and heifers were vaccinated at turn out time with BoviShield Gold 1 Shot, Vision 7, Autogenous Pinkeye, and poured with Bimectin.
- Preconditioned mid-August with BoviShield Gold 1 Shot, Vision 7, Autogenous Pinkeye, Autogenous Histophilus/Mycoplasma, and pour with Bimectin
- Weaned in October and boosted with BoviShield Gold 1 Shot, Vision 7, Autogenous Pinkeye, Autogenous Histophilus/Mycoplasma, drenched with Synanthic, and repoured with Bimectin
- Bulls repoured in December with Premectrin CDS and given injectable Valcor
- Bulls were ultrasounded and repoured March 3rd & 4th with Inhibitor.
- Heifers were bangs vaccinated 12/4/2024
- Heifers will have their prebreeding shots: Bovi Shield Gold FP 5 VL5 and Anthrax, and will be repoured before sale day.

NUTRITION

Guided by Dr. Dan Herold of Famo Feeds the bulls are fed a 50-52 neg ration with the goal of gaining them 3-3.25 pounds per day to ensure they are developed with longevity in mind. The rations consist of ground grass hay, alfalfa, silage, distillers and earlage along with a protein supplement that includes a chelated mineral package.

The Angus BULLS

Below you will find the data averages for the Angus bulls. We have provided the Angus breed-wide average as well as the average of the data of the Thomas Ranch bulls presented in this offering.

Angus Breed-Wide Non-Parent Averages

CED	BW	WW	YW	Milk	Marb	REA	\$M	\$W	\$F	\$B	\$C
6	1.2	63	112	27	0.69	0.65	63	59	88	144	250

Thomas Ranch Angus Bulls Averages

CED	BW	WW	YW	Milk	Marb	REA	\$M	\$W	\$F	\$B	\$C
7.6	1.3	78	135	28	0.66	0.66	66	73	95	148	258

You will notice each bull in the offering carries the Angus GS logo. This is because the accuracies of their EPD profile is enhanced by a genomic test that was created by Angus Genetics and powered by Neogen GeneSeek. Each marker is intentionally chosen to build on the Angus genomic research database and drive the breed into the future. It offers maximum accuracy for genomically enhanced EPDs at great value, so you can test heifer and bull calves to reap the benefits of faster genetic gain. For more information about the advantages of genomically enhanced EPDs and the advantages it gives you in your bull selection then check out angus.org/agi/angusGS - For Angus. By Angus.

The Certified Angus Beef® Targeting the Brand™ Logo will identify animals with genetic predictions focused on carcass quality. The logo requirements can be met when the Marbling EPD is a minimum of +.65 and Grid Value (\$G) is a minimum of +55. Sire-identified carcass data from more than 8,600 records in the American Angus Association database show these minimum thresholds for Marb and \$G achieve an average of 50% Certified Angus Beef® acceptance.

The Highest Ranking Bulls

We have collected lists of the top ranking bulls in each EPD category. The bulls listed below all rank in the top 10% or better of the breed for the respective EPD.

The Highest Ranking Bulls

Thomas Ranch Angus Bulls Are

PROVEN TO INJECT PERFORMANCE

Thomas Ranch Angus Bulls are proving to transmit performance and carcass merit. A recent group of 651 head of Thomas Ranch Sired Angus Calves killed with the impressive data listed below. 84.5% of this group qualified for the Prime Pursuits Program. That is 10% above the national average for Prime Pursuits herds.

243 HEAD

Grade Prime

305 HEAD

Grade Upper 2/3 Choice

Scan the QR code above to get a sortable spreadsheet with the data for the bull offering. This awesome tool allows you to sort the data to find the best bulls in the categories that matter most to you or with pedigrees that best fit your operation.

The Future
AT THOMAS RANCH

We are excited to watch these 2025 calves as they arrive.

VIRGINIA TECH STATESMAN *Sire of Lot 1*

- When pounds and performance matter most in the beef business marketplace, we felt that it was only suiting to begin this year's offering with the scale-pounding, performance trait leader with look and presence, TR Statesman 4043M.
- He is a perfect genetic blend of the industry-changing Virginia Tech Statesman from a beautiful daughter of G A R Hometown. She allowed him the opportunity to post a weaning ratio of 113. He went on to perform, convert, and achieve a yearling ratio of 109 with a big REA to ratio 107.
- He ranks in the top 1% for both WW and YW, the top 2% for \$W, the top 3% for CEM, the top 4% for CW, Angle, and HS, the top 5% for MW, the top 10% for RADG, MH, and the almighty \$F, and the top 15% for \$C.

B A R DYNAMIC Sire of Lot 2

- Truly one of the standouts in the Thomas Ranch offering this year is a son of the very popular sire B A R Dynamic. The cattle by this sire are catching fire and rightfully so as they tend to be cattle with a balance of matching numeric value and undeniable phenotype.
- This stout, dense-built specimen ranks in the top 1% for WW, YW, and \$W with one of the more dominant spreads in the business. He too charts in the top 2% for YH, the top 3% for RADG, the top 4% MW, and CW, the top 10% for \$F and \$C, and the top 15% for \$B, and Marb.
- He should sire a set of cattle that will bend the bar for weight and have substantial value with CAB Premiums attached as he is the number one bull for ultrasound IMF with an astounding ratio of 225!

Full Brother in Blood to the Maternal Grand sire of Lot 3

- The cattle by the Tehama Patriarch F028 son are finding their place within the Angus business. They have so much to offer when it comes to all that matters to remain profitable.
- We expect this son of Virginia Tech Statesman to sire a set of cattle with performance, predictability, and profit on board. His daughters should prove retention worthy as he charts some of the more favorable maternal data within his industry-friendly numeric blend.
- He ranks among the top 1% for CEM, the top 4% \$M, the top 5% for YW, HP, the top 10% for \$C, \$W, \$F, \$AxI, SC, and RADG, and ranks in the top 15% for \$B, \$AxH, CW, CED, BW, and WW too.

Sire of Lot 4

- This is one of the bigger adjusted weaning weight herd sire prospects of the offering. At yearling time, he impressed the ranch hands as he posted a yearling ratio of 110 and went on to ultrasound with a 160 IMF ratio and a REA ratio of 107.
- He is blessed with some of the best of the TR Angus program with the influence of SAW Sonic Boom 865. His paternal granddam is a badge winner as well as she qualifies for the Maternal Plus recognition as well.
- Besides a 116 weaning weight ratio, this stud should be suitable to sire profitable cattle in higher elevations with a top 3% value for PAP. He, too, charts multiple traits in the top 15 to 20% of the breed for economic drivers and indexes like \$C, \$B, \$F, and \$G, both beef on dairy indexes, CW and Marb, CEM, WW, and YW as well.

G A R HOME TOWN Maternal Grand sire of Lot 5

- Virginia Tech Statesman continues to do a great job with the daughters of G A R Home Town as yet another son of the combination posts over 700 pounds of adjusted weaning performance.
- He scanned with a 162 IMF ratio that assisted him to propel to the top 20% for Marb.
- 4076 ranks in the top 1% for WW, the top 2% for YW, the top 3% for CW and YH, the top 4% for \$C and \$W, the top 5% for \$F the top 10% for \$M, \$B, \$AxJ, Angle, MH, and RADG, and the top 15% for \$AxH and \$G.
- He's a long sided, big outlined, herd sire prospect that's deep sided, wide at the surface and comes with the extra big feet and an athletic build.

-3	4.8	90	160	0.72	28	0.93	0.75	78	73	141	204	343

- An impressive prospect that surfaces towards the top end on catalog day as he is competitive with the older bulls in the pen for visual frame, length, and mass.
- He does post some very intriguing figures with ratios attached; 105 for weaning, 110 for yearling, and 107 for REA. His dam also records two at weaning with a ratio of 104.
- A sire with pounds and performance on hand as he ranks in the top 1% for \$F, the top 2% for CW, the top 4% for YW and MH, the top 5% for WW and \$C, and the top 10% for \$B, RADG, and YH.
- He's one of the best sons of KR Quality 1219 in the sale.

CED	BW	WW	YW	PAP	Milk	Marb	REA	\$M	\$W	\$F	\$B	\$C
5	1.9	95	170	-1.12	16	0.8	0.55	78	74	130	182	314

- The organic idea behind the sort for this sale book, is that it is primarily done on phenotype within groups sorted by size and similar kind. The "Stateman" sire group sure didn't hold much back in terms of adjusted payweight and index values either after we did the final sort on paper.
- Yet another son of the Virginia Tech bred phenom that surfaces to the top of a very competitive lineup for TR.
- 4026 will rank in the top 2% for both WW and YW, the top 3% for HP, the top 4% for \$F and MH, the top 5% for CW, and the top 10% for RADG, YH, SC, HP, and PAP.

44 RIGHT KIND 1771 Sire of Lot 8

- This is the leader for index values and numeric stats of the entire pen! He also scans very well as he ratioed a 129 for IMF and a REA ratio of 106.
- He is the absolute curve bender that offers top 1% values for \$C and \$AxJ, the top 2% for \$F, \$B, \$AxH, RE, and HP, the top 3% for \$G, the top 4% for \$M, CED, and CW, the top 5% for Marb, and the top 15% for BW, Doc, and \$W.
- TR Right Kind 4140M offers a different pedigree twist to all who have done business with Thomas Ranch over the years. He should cross very well with "power pedigrees" and leave a set of daughters saturated with the goods to build a program around as well.

- A high quality beef bull that posts the #2 value of the offering for \$C!
- The son of the resident G A R Home Town son puts up some pretty impressive data across the scales and on scan day. He remains consistent from weaning to a year posting 106 for both ratios, but he also sets the bar for excellence in carcass quality as he ratios 142 for IMF and scans with one of the biggest ribeyes areas of the group at 17.7 to ratio 127.
- He is old school and proven in his lineage by today's standards but has a dam that keeps him propped up in the upper echelon of the breed and industry for profit indexes.
- 4187 ranks in the top 2% for Marb, the top 3% for \$C, \$B, \$G, and \$AxH, the top 4% for \$AxJ and PAP, the top 10% for \$F and RADG with a value for CED in the top 15%..

6	4.3	80	135	0.25	37	0.99	1.29	91	79	106	183	328

- Here is the first of several sons of the fresh sire group from Krebs Ranch known as KR Twist 2405. This sire group continues to build a fan base across the western and northern plains with projected heavier use of the sire on the horizon for the 2025 spring breeding season. The past sale feature of the Gordon, Nebraska based operation is leaving a mark for body, muscle shape, and substance of skeletal build and quality.
- 4122 is one that offers the phenotype and balance from end to end. He is big pinned, deep quartered, stout to the surface, and sets high out of his front third. His upper shape is genuine and true to form as he scanned with over 16 inches of REA to ratio 110
- He ranks in the top 3% for Milk and RE, with top 4% for \$M, the top 10% for \$C, and the top 15% for both \$W, \$G, and \$AxJ as well.

CED	BW	WW	YW	PAP	Milk	Marb	REA	\$M	\$W	\$F	\$B	\$C
1	2.8	80	139	-1.06	30	1.29	0.69	65	76	109	190	311

- A grandson of the proven and popular SG Salvation from a very productive daughter of Poss Achievement with the influence of Mogck Bullseye.
- He gets the mark for complete balance on paper and his physical build and design. His physical weights and scans suggest that the circle of production merit is complete as he ratioed 102 for weaning, 109 for IMF, and 105 for REA.
- He is a bigger framed, heavy-duty rancher bull with performance and pay weight credentials. He's a herd sire prospect that can do it all with top 15% index values for \$C, \$B, \$W, and \$G. The profit driver expectations put him in the top 5% for CEM and the top 10% for Marb and PAP.

- With a weaning ratio of 113, this son of 44 Brigade also posts top 1% values for \$W, WW and YW.
- He too is a top 1% SC prospect with the credibility to sire a set of daughters worthy of building a program around and a set of feeder cattle that should achieve top dollar in any progressive auction platform.
- The end product yield that he should inject into any set of cows will be priceless as well as his scan data supports ratioing 112 for REA. He too ranks in the top 3% for CW and the top 15% for RE.
- He's one of the very best at the TR, and he also charts with top 4% for HP, the top 5% for MW 10% values for \$F, \$AxJ MH, YH, and the top 15% for \$M, \$C, and RADG. He is the profit driven sire choice with size and scale.

- A son of B A R Dynamic that comes with calving ease credentials with extra payweight on board as he ratios 116 at weaning.
- He combines his scale-crushing weaning measurement with a top 1% \$W index value with top 4% data for CED, the top 10% for BW, and WW, and the top 15% for YW and Milk.
- 4039 is the sire choice that will sire a set of good feeding cattle with premium value when on the rail as he ratioed 117 for IMF and 104 for REA, but his daughters kept will be his legacy.

- We cannot say enough good things about the cattle sired by 44 Iconic 2079. 2079 is owned jointly with the worldly Zybach Ranches of the Texas Panhandle, and he hasn't come up short on any one trait in either program.
- We expect this son of 2079 to sire cattle that will require little labor at calving with industry-standard performance, and his females should be retention-worthy as well.
- 4281 ratioed 107 for his REA.
- He ranks in the top 10% for DMI and profit index values in the upper half of the breed for \$W, \$F, \$G, \$B, and both beef on dairy indexes.

- Bruns Rock Star left a set of daughters that were saturated with maternal instinct and production merit, and when you blended them with the likes of S AV Final Answer 0035, things just became more predictable. The dam of 4337 records five head at weaning to ratio a very notable 111.
- This son of 44 Supply Side 9389 ratios 116 for REA and has a data package that will keep a program focused on the center without the extremes. His maternal traits are a bit stronger in terms of where he ranks among the breed, but his performance and carcass drivers deliver with common sense and balance.

- TR Relief 4718M ET brings together the most proven and some of the hottest pedigrees that you will find in the Charolais circles. Being a direct son of the highly demanded, WR Relief J4606 offers him up as a source for those who haven't been able to access the Relief lineage because of the scarce semen supply.
- Maternally you will find him to be a son of the legendary HF Mustang Sally 904 PLD that has built an incredible legacy through sons and daughters that have stood at the forefront of the business for over a decade now. Her genetic potency and heritability of elite phenotype proves to be timeless here once again.
- TR Relief 4718M ET has a unique combination of eye appeal, power, structural integrity and growth. The immense quality you will find in the flesh, along with his powerful pedigree promotes him to being one of the most unique, and herd changing type herd bulls to come out of the program to date.

- The sons of SVY Mayfield 30H have been long awaited, and we think they stand up to all the hype that has been generated around their debut. TR Mayfield 4719M ET leads off 10 sons of SVY Mayfield 30H that will sell this spring at the Thomas Ranch, and you will notice that the sire group comes built with the extra density and shape that would be expected after an inspection of their impressive sire.
- TR Mayfield 4719M ET comes with a stout build, extra expression of muscle, a round ribcage shape, and impressive flexibility when set into motion, particularly when you take into consideration the hefty load that he sports around.
- His dam, TR PZC Angelana 3763A ET is the result of the most potent combination known to the business, TR Mr Fire Water 5792RET on Thomas Ms Impressive 0641.

- TR EF Mr Mitch M96 is a son of the popular, LT Badge 1538 PLD that is siring cattle that combine real world function with eye appealing looks and longevity built in.
- We love the combination of mass and functional design in this later maturing son of LT Badge, 1538. We predict him to generate value on both ends of the spectrum with high performance feeder cattle that grade with added quality, and at the same time we believe the set of replacement females he will sire will be the type you struggle to let go of.
- His dam was purchased by the Evenson family through the pasture sale, she is a M&M Outsider 4003 PLD daughter of TR Ms Berkly 4711B, a mating that have been incredibly popular and successful.

- TR C&S Troubadour 415 has been a standout of the offering from a growth and performance standpoint.
- He has impressed with every opportunity to measure pounds, recording a large 116 WWR, that was aided by his impressive ranking 119 ADG ratio. The promises of adding performance are backed up by the genetic predictions of 415 where you will find top quarter of the breed or better predictions for WW, YW, CW, REA & TSI.
- His pedigree is written with productivity in mind.

LOT 135 TR C&S TROUBADOR 434

- Another son of Keys Troubadour 173J that is geared for adding impressive amounts of growth and payweight to his calf crops.
- Boasts a 103 WW and 103 YWR ratio and a high WDA among these Charolais bulls. His EPD profile is most favorable for traits that impact the bottom line: growth and carcass.
- Phenotype wise, he comes in a heavy and dense package, and is certainly one that impresses from a pure pounds and power standpoint.

LOT 136 TR MAYFIELD 4716M ET

- The sons of SVY Mayfield 30H will be the favorites of stockmen that appreciate pounds, shape and stoutness, all while maintaining an eye appealing look from the profile and a structural build that will last an extended breeding tenure.
- TR Mayfield 4716M ET is wide sprung, extra rugged structured and has always been leader of the pack from a growth standpoint, he records a huge 839 pounds adjusted weaning weight, and continued towards a year to ratio a 104 YWR.
- He comes with the maternal backing of the legendary HF Mustang Sally 904 PLD through a RBM TR Rhinestone Z38 daughter that has made her way to the donor pen, because she has been a role model in production with both sons and daughters being features of the Bull Sale and the Pasture Sale.

- TR C&S Wylies Vision 9729 405 rounds out the group of TR Mr Wylies Vision 9729G ET sons to appraise in Harrold on April 8th.
- Add a group of these herd bulls to your operation and reap the benefits.

Watch the Sale on CCI.live!

The best, the fastest and most comprehensive marketing & bidding tool!

How to Bid Online...

- As a **buyer**, you do not need an account or to login to watch the sale but you must have a validated account to bid.
 - After you are logged in, you must proceed to the sale page for any and every auction and click **"Get Buyer Number."** Some auctions require a pass-code to obtain a buyer number even after you are approved by CCI.live. Pass codes generally come from the sale manager or ranch for that particular sale.
 - CCI.live will operate with ease on a **cellular device, laptop, desktop or tablet.**
- A **modern or current browser** is important and will make your experience better. You do not need to install the app on cellular devices to watch a sale. CCI.live is a browser-based application meaning it will play on most new browsers, but you can also download the CCI.live app at the Apple App Store or through Google Play.
- **For successful bidding you must have good Internet service!** It is very important to be stationary. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen - it is real time and refresh your browser if you feel like you have some lag.
- **Support line open during all sales. 405-400-9505** - Please contact the ranches for invoices and trucking.

- Sired by the past sale feature for the W/C brand, W/C Dabo 703J allows this herd sire prospect to have the phenotypic quality and genuineness to initiate the SimGenetic offering of annual sale at the TR. The sons of Dabo 703J have been chased by stockmen that are searching to add a quick and potent dose of payweight to their calf crop.
- You will find this stud to be an extra heavy and dense stud that is wide based and expressive muscled.
- Besides posting industry-accepted performance values, he does ratio 105 at a year and for REA as well.
- He will put the pounds and product into a set of calves.

- There is a big sort of these direct sons of the Angus phenom, Tehama Patriarch F028, in this SimGenetic bull offering.
- 4520M ranks in the top 5% for ADG, the top 10% for YW and MCE, and the top 15% for CW and REA, with values for TI and CE in the top 20%.
- This son of F028 was modest at birth and does perform to a year to ratio 102 in combination with a REA measurement to pull ahead of the pack with a 108 REA ratio.

- A very stout and dense made son of the ST Sire, OMF Epic E27. He is saturated in proven low birth genetics with the maternal influence of the past high seller for Sunflower Genetics, SFG Cowboy Logic D627.
- 215M is very balanced in his genetic ledger and should keep an outfit in the black for many more years.
- On ultrasound day, he became real trendy as he ratios 106 for REA and a jaw dropping 113 for IMF.

- We expect big things from the RJ Trust Fund 212K sire group from a phenotypic stance and expect these cattle to not only surface when evaluated with the eye but to deliver red meat yield and payweight as well.
- They come with genuine base width, big muscles, big pin sets, stout bone work, and presence through their front skeleton and build.
- This prospect posts a huge weaning weight and a ribeye area that forces the competition to blush. He will inject sheer performance and shape into a set of cattle, there's no doubt.

- WINC Matter of Time 249K is a past sale feature for the Windy Creek program that was selected by the joint venture of Diamond M of Kansas and the W/C of South Dakota. His freshman class of stock is very nice, with more use to come.
- This stud certainly impressed the staff at weaning as he crushed the scales with over 950 pounds of payweight top to calculate a weaning ratio of 127.
- He ranks in the top 10% for WW, MWW, and REA, the top 15% for YW and CW, with sensible figures for CE, BW, Milk, and TI.

- A Red SimAngus prospect that will not come up short for industry relativity or sheer quality!
- 414 is a son of ETR GCC Real Time G380 that spends his tenure in the C4 program of Oklahoma. Besides the stellar phenotype, the sire group does come with shape, length, and scale-pounding performance.
- He is supported by the TC Rachel 04X matriarch that needs no introduction to the productive circles of the Red Angus breed.
- He posted an IMF ratio of 115 and 104 for his REA.
- 414 ranks in the top 1% of the Red Angus database for DMI, YG, and Fat, the top 4% for ME, and the top 15% for REA.

- The genesis of the Red Angus offering is a sampling of the combination of breed greats with the sire RED MRLA Resource 137E, and the maternal granddam Red Six Mile Lakota 112Y, whose influence has paved many ways for the most progressive firms. It's to no surprise in the quality when 4728 hits the pen.
- The dam of lot 201, Rojas Falling Water 6053 donor has pushed herself to center stage when it comes to the Red Angus donor pen, she has certainly asserted her dominance on the program with multiple sons and daughters highlighting past sales, through high sellers, champions and breed influencers.
- TMAS Resource 4728M ET is one of the most impressive herdsire prospects raised by the Thomas Ranch, across breed lines, and this comes with some serious clout when you think about the track record this program records. Every angle of inspection denotes quality about this stud. On foot you will find an impressive beast that sorts himself to the top in a dominating fashion.
- Power, presence, and pedigree all align here.
