The 3rd Annual Fall
"PARTNERS IN PROGRESS" PRODUCTION SALE AT
McEntire Red Angus
MONDAY, OCTOBER 6, 2025

7pm | Sweetwater, Oklahoma 

McEntire Red Angus

Randy, Crystal, Chloe and Rance McEntire

Eugene & Pam McEntire | Randy: 580-729-9036

MCENTIREREDANGUS.COM

Welcome friends and neighbors to our 3rd Annual Fall "Partners in Progress" Production sale here at McEntire Red Angus. We hope you know how much we appreciate everyone who supports our program and hope that offering a selection of bulls and females in the fall will bring some new faces to the ranch. We love the cattle business and the families that it brings to our ranch. It's what we do day in and day out, except for a few sporting events with the kids every so often!

We are excited about the group of bulls and females we have for your appraisal. These bulls are the younger end of our calf crop, and we have developed them here at the ranch. We will be selling a nice set of herd bull prospects that we feel will make a great addition to a seed stock producer or to a commercial cattle operation. We will also be selling an elite group of registered bred females and 85 commercial bred females that we feel will make a great set of cows to move your program forward in the Red Angus breed. The entire sale offering has been on a complete vaccination program. The heifers will be preg checked by Dr. Richard Prather one week prior to the sale.

We understand that the Red Angus breed is becoming more and more popular and that you have many options when it comes to choosing your herd bulls. We invite you out to the ranch to look over the bulls and heifers and hopefully you will find something that will bring value to your own operation and move your program forward. Good bulls make great cows and our mating decisions have been based on producing next generation females to be more efficient and productive than their mothers. Red Angus cattle have been known for good dispositions, calving ease, adaptability, and keeping your operation in the black! A good set of Red Angus tagged calves will top the sale no matter where you go.

We would like to invite you to come out to the ranch on Sunday night before the sale and enjoy supper and a social. We would love to get to know you and your family! We will eat around 6:00 pm at the main house just located around the corner from the cattle pens.

Please join us sale day at 12:00 pm for lunch. The sale will start promptly at 1:00 pm CST. Again, this year the sale will be broadcasted live on CCI.Live for those of you that are unable to attend the sale. If you have any questions about the sale, please feel free to contact us or any of the sale staff to visit about the offering. Be sure and check out our website at www.mcentireredangus.com to view videos of all the lots in the sale. We will not sell in catalog order this year. Therefore, please be sure and look on our Facebook page or on CCI.Live for the sale order on sale day. Thank you for your interest, and we look forward to doing business with you!

See you at the sale!

Randy McEntire

*I*NNOVATION AgMarketing, LLC

Optimism is a welcome and fresh term for the beef industry! This market began to brew over two years ago, and it continues to surge and set records daily from coast to coast and border to border. Enthusiasm among producers is extremely contagious, as most all have received more for their work and investment than at any other time in their lives. The daily discussion among producers is making the investment in the next generation genetics and setting out to improve through their genetic acquisition instead of getting by with the traditional status quo price restriction. Several of those producers will turn to family outfits like McEntire Red Angus to take that next step in the right direction and rightfully so.

Randy and Crystal have stepped the operation up another level through key genetic acquisitions in herd sires over the past couple of years. The infrastructure at McEntire in terms of facilities also ramps up so that they can serve their current customer base and add numbers in the future to give bigger ranching entities the peace of mind by offering the same quality in volume. The roots of this outfit would be strong and deep with a commercial focus, and that's why they keep making the trip to the metroplex of Sweetwater, Oklahoma.

The focus has always been to offer a product in a red hide that can improve any program, commercial, or seedstock. Searching for and acquiring the genetics that keep the program moving forward is a constant process. Randy has done a great job of keeping the cow base like in kind and genetics. Each year, pressure is applied to make sure the female base is tough enough to withstand the volatile environmental pressures of Western Oklahoma. An environment that can be the hottest and driest place on the continent or host a record blizzard with sub-zero wind chills for an extended time. The cattle must be low-input and self-sufficient, yet are also expected to produce large, market-topping calves, and/or the kind of herd bulls that sire premium-bound progeny with the performance and conversion to give that respective producer the reputation for having the goods.

As always, the McEntire family has put their very best foot forward as they have assembled a very top notch set of seed stock for your appraisal. The bulls offer so much advancement for genetic improvement as well as being saturated with eye catching phenotype. If you're in need of adding females to your outfit, these leading ladies will remove the fear factor of investing after you set your eyes on the undeniable quality they have to offer. Performance-charged, maternally driven cattle with the longevity in skeleton and reproductive fundamentals to catapult your operation into the next level above tax bracket. Quite possibly the very best part of this offering is doing business with the family that backs the product!

The McEntire's are a prime example of the good folks of the industry. Hospitality is their forte, food is a mastered craft, and the stock then becomes secondary. This is your invitation to join us for great cattle and great people at the Sale Facility on the ranch of McEntire Red Angus for their 3rd Annual Fall "Partners in Progress" Production Sale. Please do not hesitate to reach out to any of the McEntire team or Innovation AgMarketing for assistance with purchases or requesting pre-sale information. We hope to see you all at the sale!

SALE ORDER

Cattle WILL NOT sell in catalog order this year. A sale order will be available prior to the sale.

TERMS & CONDITIONS

Cattle sell under the standard terms and conditions as recommended by the Red Angus Association of America.

SEMEN INTEREST

McEntire Red Angus will retain 1/2 semen interest in all bulls sold.

SEMEN TEST

All bulls will be semen and Trichomonas tested prior to the sale and are guaranteed to be fertile.

INCENTIVES

Free delivery on bulls within 300 miles of the ranch. This does not include heifers. All trucking on females is the buyer's responsibility, but we will be glad to assist with trucking plans. If bulls cannot be taken sale day or arrangements have not been made with us within the first week for delivery, the seller can house bulls at McEntire Red Angus until pick up at a rate of \$6/day. However, we will not be responsible for sickness or injury.

LIABILITY & ACCIDENTS

Every precaution will be exercised to protect the safety and comfort of those attending the sale. Neither the owners, auctioneer or any sale staff assume any responsibility in this matter and disclaim any liability, legal or otherwise, in the event of accident or loss of property. All persons attending the sale do so at their own risk. We are not responsible for typographical errors.

GUARANTEE

All bull are guaranteed by insurance only. McEntire Red Angus will pay 30% of the insurance premium on each bull purchased in the sale if the buyer chooses for the first year after purchase date. Insurance will be available for purchase on sale day. We strongly recommend purchasing insurance so that your investment is properly protected.

HERD HEALTH

All cattle sold through the sale are on a complete health program and will be accompanied by the health papers for shipment anywhere in the United States.

Red Angus Guide to EPDS and Indexes

ProS... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

RED SIX MILE BRANDO 666C - PATERNAL GRANDSIRE OF LOTS 1-12

4MC FULLBACK 3027 - MATERNAL BROTHER TO LOT 7

- As eye catching of a herd sire prospect as you will find in this offering.
- Combines a powerful muscle pattern, plenty of rib shape, and a sound running gear into a striking profile that will certainly be noticed by those that walk the pens.
- The dam of 4174, 4MC Sue Miaty 502, has produced sons that are working for Wagonhound Land & Livestock and Martin Loewen. She also has four daughters that are productive members of the cowherd at McEntire Red Angus.
- An individual performance standout for WW at 675 lbs. and YW Ratio at an impressive 107 among his contemporaries.
- Combine his performance ledger with a maternally oriented EPD profile and you get one of the leading prospects in the fall 2025 sale offering.
- Top 4% MILK, top 5% STAY, top 30% HB, top 35% DMI, HPG.

Lot 8

4MC PROWLER 4158

- 4MC Prowler 4158 balances appropriately with a smooth shoulder and expansive rib cage. He is loaded with mass and dimension from end to end.
- A solid performer with a yearling weight measure on the plus side of the sale group.
- Fill your keeper pen with the right kind of females, as his daughters enter your program. His dam has sent four daughters back into production at McEntire Red Angus and has a son working for K-T Farms of Sharon, Oklahoma. 4158 is backed by genetics you can count on!

- 4MC Chisum 4213 is a complete type of bull, with shape, style, structure, and quality to appeal to most cattlemen.
- We selected his sire, WEBR Chisum 229, from Weber Land & Cattle of Minnesota. We love the genuine mass, power, shape, and real-world performance that this sire group represents. They are cattle that are easy fleshing and good footed yet offer tremendous length of body and the added frame needed to sire cattle that are efficient in the feedyard. 4213 is a powerful individual that checks all the boxes.
- One of the leaders in the pen for his yearling weight measurement. If you need overall genetic improvement focused on growth and carcass, he should be on your short list.
- Top 3% CW, top 20% GM, HPG, top 25% WW, YW, ADG, top 35% MARB, REA.

4MC CONVOY 4121

- 4MC Convoy 4121 is hard to find a major fault in his kind. He's a high quality, complete individual. He is long bodied, bold ribbed, sound footed, and offers a well-balanced herd sire look from every angle!
- The dam of 4121 has produced countless herd sires that are working for Eddie Miller, Stanley Dunbar, Rock'n S, Tommy Laubhan, SS Family Farms, and Denver Stocking. Consistency is the key to success!
- This PIE Convoy 7058 son will be on plenty of short lists on sale day.
- Combines growth and maternal genetics in a useful genetic package.
- Top 10% MILK, top 20% HPG, top 30% STAY, top 35% WW, YW, ADG.

- 4MC REM Groundbreaker 4031 stems from our exciting PIE Groundbreaker 2036 sire group that we can't wait for you to see. 4031 is one of Rance's top bulls in this sale offering. The dam of 4031 is a productive first calf heifer sired by BYU Fullback 9338 ET.
- Plenty of depth of body with real muscle shape.
- He's really turned it on since weaning. There is no doubt that he will sire cattle with extra frame, length, and extension.
- One of the highest EPD profiles for his growth and carcass combination in the sale.
- Top 10% WW, top 15% YW, top 20% MARB, top 25% GM, ADG, top 35% CW.

Service Sire

LSF SAGA 1040Y

The commercial Red Angus spring bred heifers were AI bred to LSF Saga 1040Y, a foundational sire within our breeding program! They were then exposed to 4MC Tight End 0182, a tremendous calving ease option that is straight from the heart of our herd bull battery.

Please contact Randy McEntire at (580) 729-9036 for more information about this top shelf opportunity!

The Commercial Offering

Groups D through K commercial Red Angus spring bred heifers are bred to
4MC Tight End 0182 and 4MC Complete 4095.

The Commercial Offering

GROUP L - PE BRED HEIFERS

A top shelf offering of Commercial females that are from our long-time friend and customer, Jake Damron of Sayre, Oklahoma. The Damron family has purchased several McEntire Red Angus bulls over the years! These females are bred to Black Angus bulls that were bred by Quartermaster Creek Angus of Leedey, Oklahoma. These cattle are stout featured, bold bodied, easy fleshing, and offer tremendous longevity. Help yourself to a powerful set of females that are supported by premium genetics!

Please contact
Randy McEntire at
(580) 729-9036.

The Commercial Offering

11 HEAD OF COMMERCIAL OPEN HEIFERS

Another great opportunity to enhance your program in a continually surging cattle market with premium Red Angus genetics! These genetics have been hand selected and stringently culled over the years for fertility, fleshing ease, udder quality, and foot design.

This is a set of commercial Red Angus open heifers that will last you a lifetime!

These females are weighed, pelvic measured, and sorted in order to offer you the very best from our program.

Please contact Randy McEntire at (580) 729-9036 for more information about these commercial open heifers!
