

ANNUAL FALL PRODUCTION SALE

SATURDAY, SEPTEMBER 19, 2026 • 6:00 P.M.

Sulphur, Oklahoma

Conley Cattle

WELCOME

WELCOME to the biggest event of our year, the 16th Annual Fall Production Sale at Conley Cattle! This is undeniably the deepest and most unique set of cattle we have ever offered. We look forward to this event every year, as it brings our customers and friends back from all over the country. We also look forward to meeting many new friends and having the opportunity to earn your business!

There is absolutely no way we could do what we do without a tremendous level of talent, and I feel extremely fortunate to have the crew we do. I would sincerely like to say "thank you" to Cole Atkinson, Cody Heavin, Adam Erickson, and Kristen Lovett for the countless hours they have logged preparing for this sale. We have a great team at Conley Cattle that works tirelessly day in and day out. We simply could not do it without each of them, and for that I am truly thankful.

I firmly believe the females represented between the covers of this sale catalog have the credentials to find success at any level. This year we will feature daughters of the \$1.4 million valued LT Marquee 169L, Conley Bristow 2317, Conley Claymore 4005, Conley Lead The Way 0738, Conley A 1, Rosewood Bellagio 090, and many more! Our very best cow families are represented throughout the offering, and we are proud of the genuine cow power behind the females that will sell on September 19th. Many full and maternal sisters to past high sellers, champions, AI sires, and influential individuals throughout the Angus breed will highlight the event. There truly is something for everyone!

The sale heifers are supported by cow families of significance within our breeding program. Daughters of Conley Sandy 9893, Silveiras S Sis Sandy 2355, Collison Proven Queen 875, Dieckmann Lady 1117, Schelske MSF Maddie 8229, and many more will be featured in this year's sale. The maternal power behind this set of females is something we are very proud of! The proven donor cow division is as loaded as it has ever been. We are cutting loose of some of our most profitable and predictable females, including proven donors and exciting young females from the heart of our program. Females like the \$1 million+ producing Schelske MSF Maddie 8229 will sell, along with a pair of maternal sisters to Conley No Limit, Conley Sandy 2746 and Conley Sandy 3132. You will also have the chance to purchase Conley Princess 3254, a FULL SISTER to the \$920,000 Conley Lead The Way 0738, as well as C-4 Extensions Forever 167K, a daughter of the late Chapman Lady 4128. The bred female division is LOADED, to say the very least. These females are in the prime of their lives and ready to go to work for your program!

NEW in 2026, we will not be offering any bred heifers in this sale. Instead, we will proudly offer 19 ET heifer calf pregnancies from the heart of our very aggressive embryo transfer program. These pregnancies are sired by the \$400,000 Conley Power Play 4136, one of the most exciting bulls we have EVER promoted, as well as Conley Bristow 2317. Nearly every single recipient dam is a registered female. Take advantage of this monumental opportunity—there is money to be made! This is an unprecedented chance to add herd-building genetics to your breeding program.

I would like to personally invite each of you to Sulphur, Oklahoma, for our 16th Annual Fall Production Sale! A special thank you goes to our loyal customers and partners for the role you have played. Your success is what drives us each and every day. I look forward to seeing each of you on sale day in Sulphur on September 19th! Please call with any questions about the offering.

Please call with any questions about the offering.

LIABILITY

All persons who attend the sale do so at their own risk, legal or otherwise, for their safety or for behavior of the animals. The owners, sale management firm, and the sale stall assume no liability for property loss or any accident that may occur

SUPPLEMENTAL INFORMATION

A supplemental sheet will be available sale day with complete and up to date calving information. Announcements from the auction block regarding the cattle selling in this sale take precedence over information listed in the catalog. Up-to-date genetic recessive status can be viewed online at www.angus.org. Retained embryo interests and/or future genetics from specific lots selling will be noted on the supplement sheet.

SALE PHOTOS

Advertisement photos were taken the first week of July and the sale catalog photos and videos were taken the first week of August.

HERD HEALTH

All cattle will be accompanied by proper health certificated for immediate shipment. Canadian buyers, all Canadian health work will be done at Hill Top Animal Health, by Dr. Cade Copenbarger, 580-622-4088.

BREEDING GUARANTEE

All females are sold as sound breeders. However, if we feel that a heifer has been fed to an extreme level of obesity, we will hold the feeder responsible for any reproductive problems. Seller reserves the right to take possession of any animal(s) that presents difficulty conceiving before a sale credit will be issued. Seller guarantees each female to produce a live calf or transferrable embryos.

EMBRYOS/SEMEN + SHIPPING

Each package of 3 embryos will sell with a guarantee of 1-60 day pregnancy if implanted by a certified embryologist. The shipping costs associated with all frozen genetics will be the responsibility of the buyer. For assistance scheduling shipping from Trans Ova Genetics please contact Savannah Dei at 712-441-7427.

FELLOW PRODUCERS

Conley Cattle is one of the few multi-faceted Angus breeding programs that has experienced success at all levels of the game. From intimidating show heifer offerings, to breed leading herd sire production, and all things in between, Kyle and company have maintained the chartered path of success in the seedstock business. A skillful eye with a historic blend of Angus knowledge continues to lead the family operation in the right direction with marketing power and presence that is unreplicated by any other in the land.

The generational program stands alone in knowing that each mating has to be productive and profitable for the namesake but more importantly for those who invest in the brand year after year. These cattle, regardless of sex, produced in this program, will have the genetic capacity to sire and produce a quality product with positive margins attached. If there's a shadow of a doubt in your mind, one has the access to the entire squad at Conley Cattle that can assist you with the pursuit of the right direction.

This year's September offering will promise to be like none before them. The quality runs as deep as ever as the cow families that support them become more proven over time. The infiltration of the potent bull battery is most impressive in this marketing year as one studies the stock throughout the course of the Conley Cattle marketing cycle! Kyle takes great pride in recognizing the fact that the genetics involved have been able to keep up with the demands for those looking for the next go to AI sire of choice that can continue to improve phenotype without sacrificing skeletal quality and genuine width and body shape. Resulting progeny cannot only hang a banner but when duty calls, the females can go to work and return for their investing families. One of the tried, true, and proven, result driven, multi-purpose operations in the entire industry regardless of breed affiliation.

Success is not given, it is earned, and the crew in Sulphur, Oklahoma, lives and believes that every day. Cole Atkinson and the team bring a wealth of knowledge, experience, and respect from their peers throughout the industry and beyond. The pursuit of perfection is relentless in the day-to-day operation, evident in the presentation, preparation, and attention to every detail. It is that unwavering commitment to excellence that has earned this outfit a reputation deserving of one word — elite. One is hard pressed to go anywhere in the land and find a set of cattle with a team of people behind them as good as the crew at Conley Cattle. Invest with confidence is what the repeat customer base does annually and for those who have not made the trip to take in the operation, this is the year you do not want to be shopping on the internet. We are certain that you will be impressed with all they have to offer!

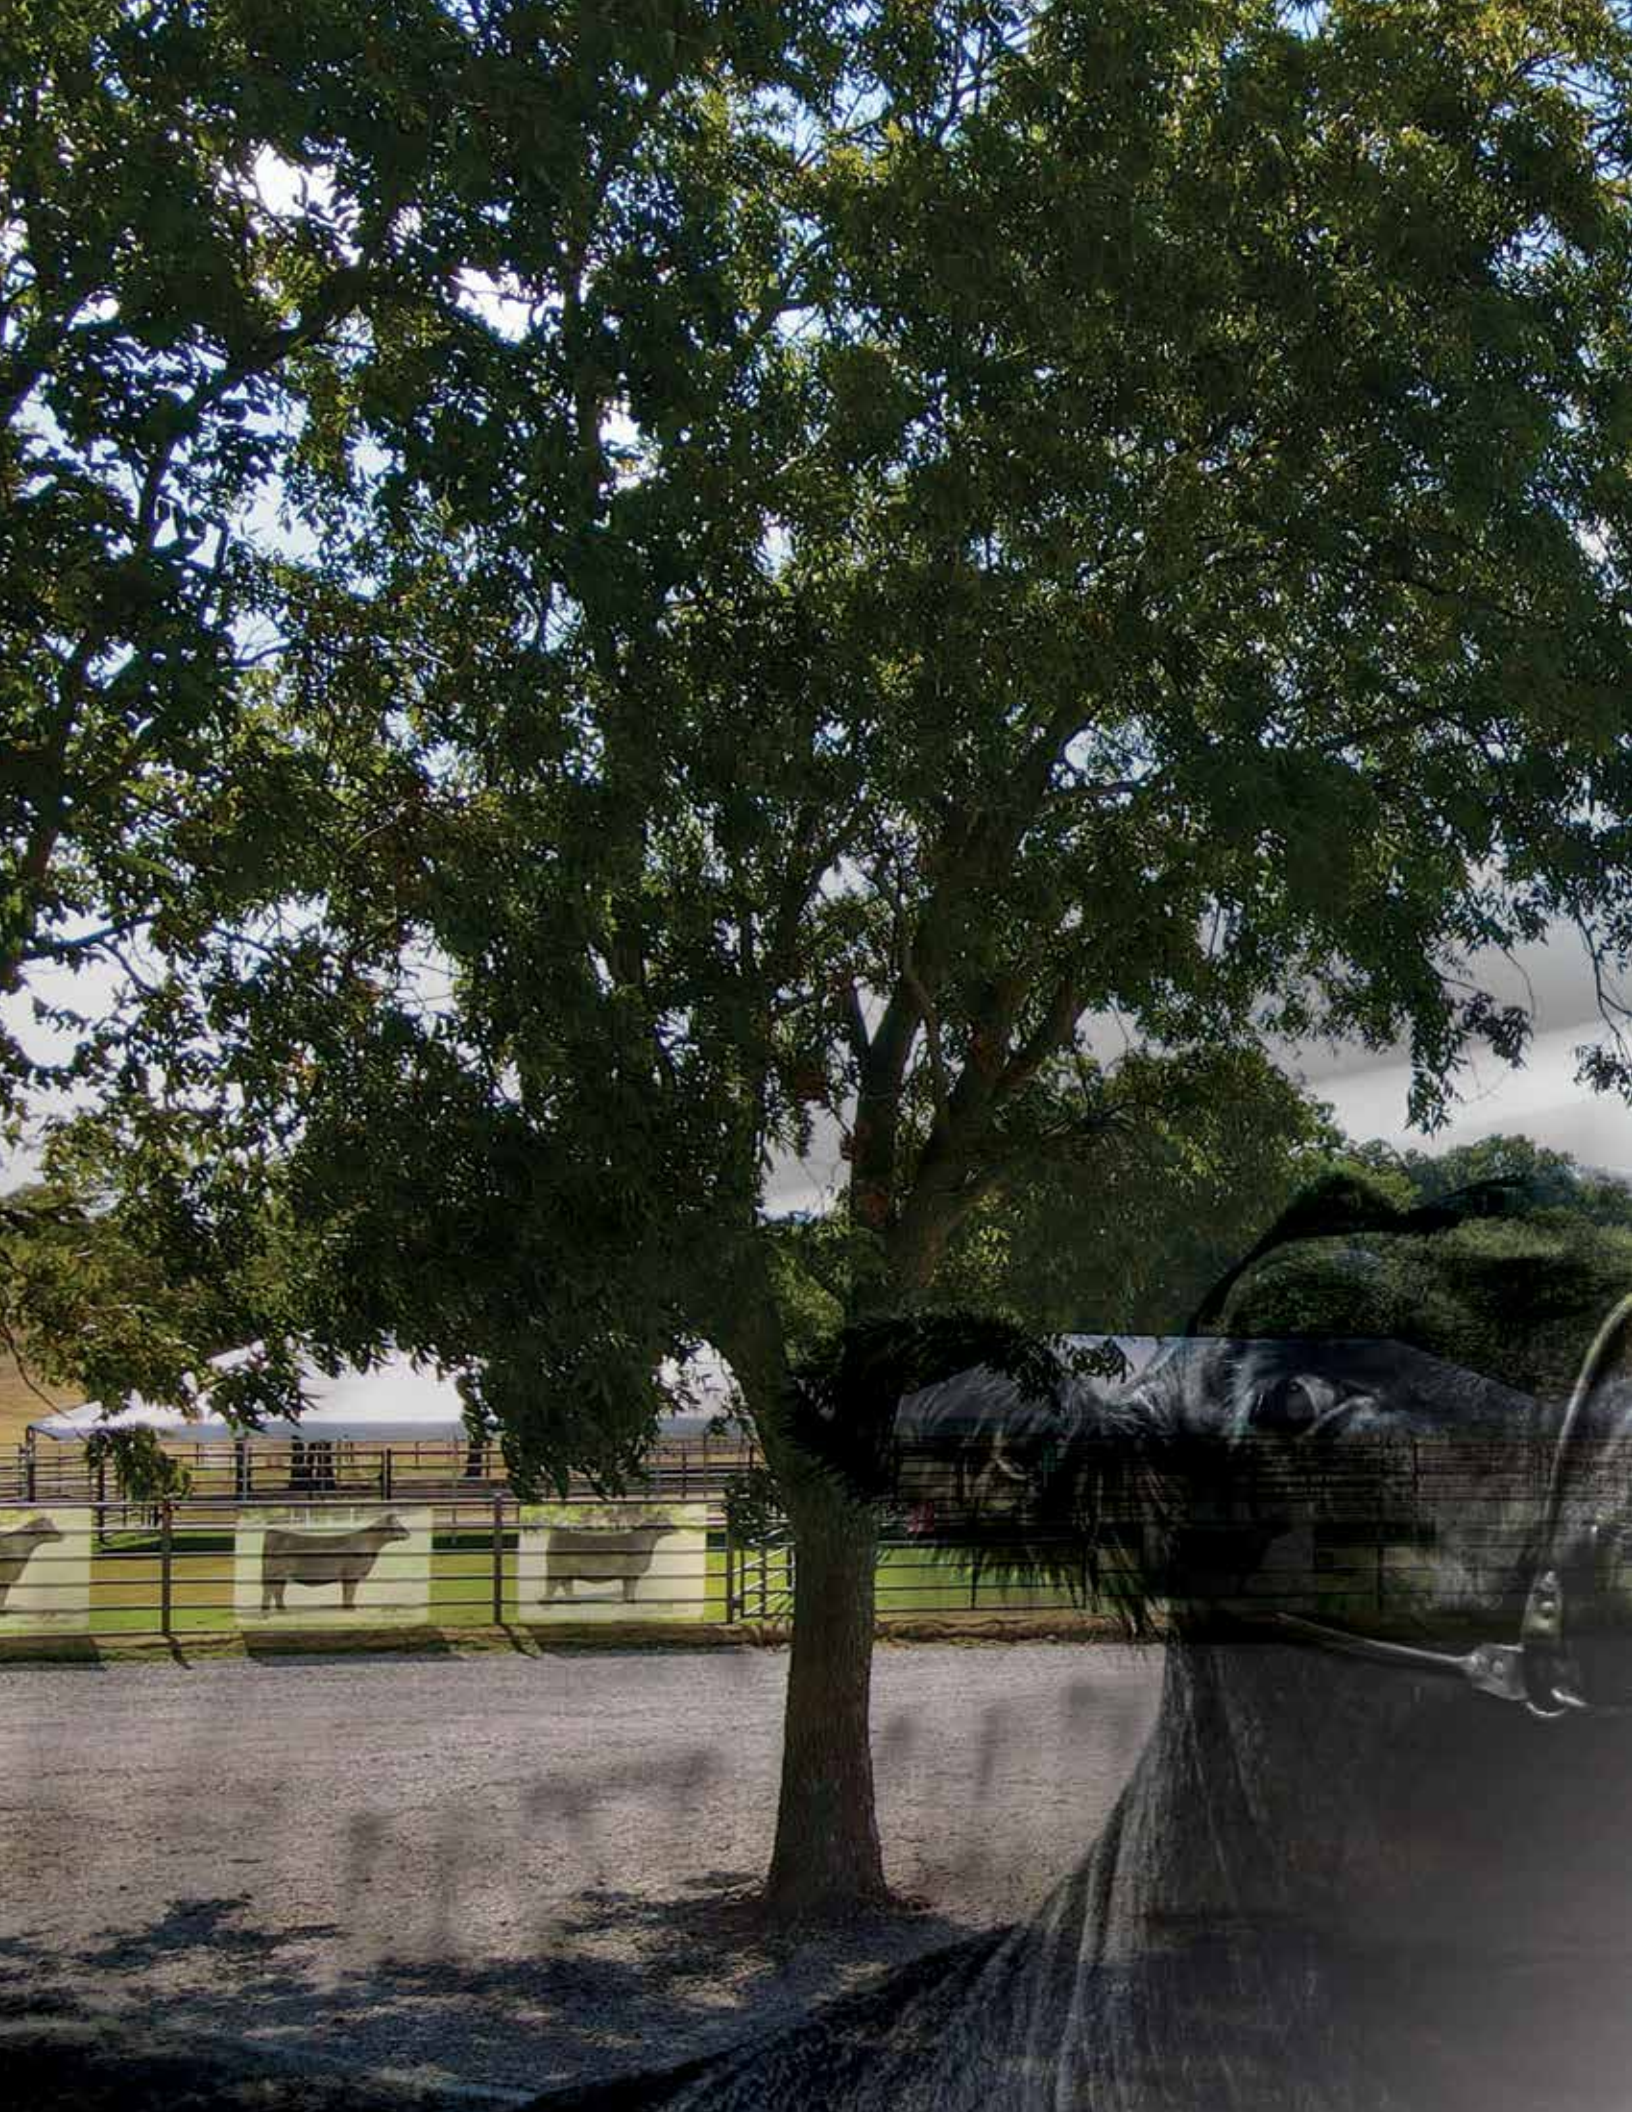

Consider this your invitation to join us on Saturday, September 19, 2026, at 6:00 PM for the Conley Cattle Fall Production Sale. The Conley Cattle team knows how to welcome a crowd with first-class hospitality, great food, and your beverage of choice. If you would like to visit before sale day, please do not hesitate to contact Kyle or any member of the Conley Cattle team to schedule a time that works for you. The cattle will be on display throughout the month of September, and the crew will do everything possible to accommodate your schedule. If you need guidance or assistance in making your selections, the sale management team is ready to help. Whether you need additional information, photos, videos, or simply another opinion, we are here to make the process as easy and enjoyable as possible. We sincerely appreciate your interest in the Conley Cattle program and look forward to visiting with you, answering your questions, and earning your business.

See you at the sale!

Sale Management Team

INNOVATION
— AgMarketing, LLC —

A person wearing a white protective suit, mask, and gloves is holding a small, dark-colored animal, possibly a cat or a small dog, against their face. The background is a bright, sunny day at a fairground or festival, with a large Ferris wheel visible in the distance under a blue sky with scattered clouds. The scene is slightly hazy, giving it a dreamlike or ethereal quality.

Bred to calve 3/1/27 to Conley Ransom 1810 (AAA: 20174820).

- Donor Deluxe!
- It is with great excitement and a bit of hesitation that we offer across the auction block one of the premier matrons in the Conley Cattle donor arsenal. Schelske MSF Maddie 8229 is a once in a lifetime type of female that has proven time after time that she can generate at a very high level.
- Schelske MSF Maddie 8229 is the BCII Next Up 015 sired daughter from the FULL SISTER to Plainview Lutton E102. Her rookie calf crop was one for the history books! Conley Maddie 3157 topped the sale at \$220,000 to Ferree-Fitzgerald and started her career with a huge win at the Hoosier Beef Congress. She first won the Angus division before being slapped 4th overall breeds by Dan and Mark Hoge. The first four daughters of the unorthodox built Schelske MSF Maddie 8229 averaged \$60,875!
- 8229 is also the dam of Conley Maddie 3424, the \$40,000 bred heifer sired by Conley DS Clear Cut 0510 that is the dam of the featured Lot 1 heifer in this year's offering, Conley Maddie 6001.
- She is the dam of the \$50,000 Conley Claymore 4005, a son of Conley Bristow 2317 that is making HUGE waves with his first set of daughters that will highlight the 2026 Conley Cattle Fall Production Sale on September 19th!
- Her unique stoutness combined with her unmatched proportions from the side is what separates Schelske MSF Maddie 8229 into a league of her own.
- This is a **BID TO OWN** scenario!
- *Averaged 9 transferrable embryos on 19 aspirations/flushes.*

- The depth of quality continues—the “goods” just keep coming!
- Allow us to introduce you to Conley Sandy 3132, a FULL SISTER to the featured Lot B donor prospect, Conley Sandy 2746. This pair of full sisters are destined to leave an impact on the Angus business for years to come.
- Silveiras S Sis Sandy 2355 is one of the cornerstone females behind the modern Conley Cattle breeding program and has built an unusually deep resume through both high-selling progeny and national-level show winners.
- What is especially impressive is how long 2355 has remained relevant. This isn’t a donor whose reputation rests entirely on females produced ten years ago, as her direct daughter Conley Sandy 3712, by Conley A 1, was the 2024 National Junior Angus Show

Bred & Owned Division III Champion, the 2024 NAILE Junior Angus Division VI Champion, and the 2025 Oklahoma Youth Expo Bronze Medallion Purebred Breeding Heifer!

- Invest in the future of your breeding program with a donor prospect backed by the strength and predictability of a legacy cow family!

- Conley Sandy 6312 is the next generation from a long line of championship caliber Angus genetics that countless breeders from coast to coast and border to border have heavily relied on to make a living. The iconic K N C Cabin Creek Sandy 804 blazed a wide path of success during her tenure both at the end of a leather lead and in the production phase of her life. 2355 is without a doubt one of the most well-known and respected daughters of the late 804.
- Silveiras S Sis Sandy 2355 is the dam of Conley Sandy 7305, the \$105,000 top-selling heifer from the 2017 Conley Cattle Fall Production Sale that was selected by J6 Farms. Another maternal sister to 6312 is the impressive Conley Sandy 8522, the \$130,000 top-selling heifer from the 2018 Conley Cattle Fall Production Sale. She was a many times champion that has become a prolific producer, with several daughters and granddaughters carrying the torch!
- Her signature “Sandy” look is hard to deny! An extra stout-featured, chisel-fronted female that ties high in her neck attachment, is bold in the shape of her rib cage and square off all four corners. Don’t ever bet against a “Sandy” — they’ll always be in the mix!

- Some are just born with the “look,” and Conley Sandy 6418 has had that unmistakable presence since day one!
- A direct daughter of the legendary Silveiras S Sis Sandy 2355 matriarch that is sired by the \$150,000 Conley Bristow 2317, therefore aligning the influence of the iconic K N C Cabin Creek Sandy 804 not once, but twice within the first three generations on both sides of her pedigree!
- From the ground up she operates from an incredible foot shape and basic build that is square to all four corners, while maintaining exceptional base width and carrying that power throughout. She ties her neck high at the top side of her blade, is clean chested and offers optimum progression of depth back through her rear rib and flank. Her balance and symmetry from the side is breathtaking!
- She is a maternal sister to some of the most decorated females in the history of the Conley Cattle breeding program.
- Backed by a cow family that has remained relevant for well over a decade, this is the kind of proven genetic investment that doesn't cost—it pays!

- Conley Sandy 6211 is the first daughter of Silveiras S Sis Sandy 2355 sired by the \$50,000 Conley Claymore 4005 in this year's sale. We have gone back and forth on which of these ET flushmate sisters we prefer—it's truly a toss-up, and we encourage you to study them closely and pick your favorite!
- 6211 is incredibly stout at the surface, bold in the shape of her rib cage and beautifully balanced from the side. She is massive through her hip; square pinned and operates from a flawless hip and hind leg design.
- Another truly dynamic female from the iconic Silveiras S Sis Sandy 2355 matron that was a foundation breeding piece in the evolution of the Conley Cattle breeding program. 2355 has produced countless National Champions and high sellers that have commanded \$270,000, \$180,000, \$130,000, \$105,000, \$100,000, \$100,000, \$80,000, \$80,000 and countless others from \$25,000 to \$75,000! Not to mention the prominent AI sire, Conley No Limit.
- Conley Sandy 6211 comes from a long line of dominant females, and we firmly believe that she and her flushmate sister have all the credentials to hit it big!

- Rounding out the direct daughters of the immortal Silveiras S Sis Sandy 2355 is Conley Sandy 6210, a daughter of the up-and-coming AI sire, Conley Claymore 4005!
- Conley Claymore 4005 is the Conley Bristow 2317 sired son from the iconic Schelske MSF Maddie 8229 matron that sells as Lot A in the 2026 Conley Cattle Fall Production Sale.
- Here is an ultra-big footed, stout featured female that is loaded with genuine shape and natural dimension. She is so long and elevated about her front third while offering the signature “Sandy” look of quality and femininity throughout.
- Her futuristic body style and pattern from the side suggests that she should make an incredible yearling, just like her maternal sisters that have been dominant on the tan bark and more importantly in production!
- A unique female that merges two of the most important and relevant cow families in the entire Conley Cattle breeding program!

SHER THE WOOD 83F
UDE SANDY 24E

- The next female from the historic "Sandy" cow family is the very impressive 644P female, a direct daughter of the \$100,000 Conley A 1 stud that stands at ST Genetics. The dam of 644P is the impressive SHER Sandy 207K donor, a daughter SHER The Wood 83F that traces to the legendary K N C Cabin Creek Sandy 804 matron.
- 644P is a bold bodied, chisel fronted female that is the epitome of balance and symmetry from the profile. She is big topped, square hipped and moves effortlessly when put into motion.
- SHER Sandy 207K was the 2023 South Dakota State Fair 4th Overall 4-H Breeding Heifer for Oaklyn Plamp and has since evolved into an absolute force in production. Her first set of ET-born daughters has already produced a remarkable string of high sellers, including females at \$55,000, \$54,500, \$40,500 and \$19,000 in just the last 12 months!
- An absolute powerhouse when you step in behind her, 644P offers a very ladylike look of quality from the side without sacrificing the genuine shape, dimension and power it takes to compete at a very high level.
- A true sale feature that aligns the most proven and predictable cow families in the Angus breed!

DIECKMANN LADY 1117
 2022 American Royal Reserve Grand Champion Junior Angus Heifer
 Dam of Lots 11-23

- Another sharp featured 1117 daughter that is sired by the 2020 National Junior Angus Show Grand Champion Bred & Owned Bull, BRDG Mahogany Prime 904B. 6417 is huge footed, stout featured and bold in her rib cage with a very productive and cowy look from the profile.
- 1117 is a daughter of the late Chapman Lady 4128 donor dam, one of the great producing Angus matrons to have ever called home to Conley Cattle. 4128 is the dam of C-4 Lead Lady 2K, the 2024 OYE Supreme Champion Purebred Breeding Heifer for Ty Collum.
- This female reminds us so much of her dam at the same stage of the game. Study the sisters closely and decide which of these three ET flushmates best fits your preference!

CONLEY SHHR LADY 5138

\$20,000 Maternal Sister to Lots 11-23

- There is no doubt that this flush had a VERY high success rate! In our minds, Conley Lady 6415 is the combination female of the three ET flushmate sisters, blending elevation and quality through her front third with an abundance of body mass and true dimension.
- Picture perfect from the side, 6415 has been a favorite of many of the early visitors who have viewed this year's offering.
- The influence of Lady 1117 will continue to be a staple in the Conley Cattle donor pen for years to come. Invest with the utmost confidence!
- Conley Cattle will proudly donate the proceeds from the sale of Conley Lady 6415 to the Angus Foundation's Fund the Future campaign. We are honored to support the Next Generation of Angus!

W A LUCY 640

- Conley CMFM Lucy 6228 brings a little extra horsepower to this impressive trio of ET flushmate sisters. She is stout featured, bold bodied and square through her hip, yet still possesses the balance and eye appeal necessary to command attention from the side.
- The combination of Conley Claymore 4005 and SULL Lucy 2101K certainly clicked. 6228 has the genuine substance and maternal look that suggest her best days may come after the backdrop. A brood cow in the making, without a doubt!

- It's hard to put a price tag on presence, and Conley CMFM Lucy 6216 has it in spades! This January-born daughter of the \$1.4 million-valued LT Marquee 169L is striking in her silhouette, elevated through her front third and exceptionally smooth from end to end, yet still carries the body and substance needed to make her more than just a pretty picture.
- SULL Lucy 2101K has already proven she can produce the kind that rise to the top, and 6216 brings a fresh twist to that success story. She has the look to be dangerous on the tan bark, but more importantly, the genetic foundation and maternal presence to make her value extend far beyond the leather lead.
- There is a certain kind of female that makes you start planning matings before the gavel falls, and Conley CMFM Lucy 6216 is exactly that kind. Her combination of look, lineage and long-term upside makes the possibilities almost endless!

SULL LUCY 2101K
 Dam of Lots 26-29

LT MARQUEE 169L
 \$1.4 Million Valued Sire of Lot 29

- The "Lucy" family has been writing headlines for years, and Conley DT Miss Lucy 6517 has the pedigree to write another one! She is a direct daughter of the \$920,000-valued Conley Lead The Way 0738 and the celebrated Conley Miss Lucy 7011, the 2019-2020 ROV Show Heifer of the Year for Reese Toler.
- A full sister, Conley DT Miss Lucy 3701, commanded \$170,000 before going on to be selected as the 2024 NAILE Grand Champion Junior Angus Female and 5th Overall Junior Breeding Heifer for Cambria Cook. 3701 was also the 2024 American Royal Reserve Grand Champion Junior Angus Heifer.
- 6517 has that same unmistakable quality as her big sister! She is elegant and feminine up front, bold through her center body and built with the kind of balance that keeps getting better with age. When the blueprint has already produced a \$170,000 champion, there is no reason to overthink it!

- If you like your show heifers with a little extra horsepower, Conley DT Miss Lucy 6713 deserves a long look. She combines added substance, shape and dimension with an attractive profile and the kind of structural quality needed to stay competitive as she matures.
- Her full sister, the \$170,000 Conley DT Miss Lucy 3701, proved just how high the ceiling can be for this mating. Even deeper, Womack Miss Lucy 011 was ranked as the No. 2 2019-2020 ROV Dam of the Year, giving 6713 generations of proven maternal power behind her. This cow family doesn't simply stay relevant; it keeps finding new ways to win!

Bred to calve 11/27/26 to LT Marquee 169L (AAA: 20879311).

- Safe in calf to the \$1.4 million-valued LT Marquee 169L for a November calf, Conley Princess 3254 presents a compelling opportunity to invest in a maternal lineage that has repeatedly produced cattle of significance. Look at Lot 32, Conley Princess 6510, if you need further validation of what she is capable of producing.
- With this level of pedigree strength behind her and her most productive years still ahead, 3254 has every credential to become a meaningful addition to a progressive donor program. Dig your heels in!
- **Averaged 6 transferrable embryos on 7 aspiration/flushes.**

- Few females in the offering are supported by a pedigree with this degree of proven consequence. Conley Princess 3254 is a powerful daughter of Gateway Follow Me F163 from the late EXAR Princess 1637, a female whose influence continues to resonate throughout the Conley Cattle program. 3254 is bold in her center body, substantial in her build and impressively dimensional, yet she retains the balance and refined maternal quality expected from a female of this genetic stature.
- Her immediate family offers remarkable validation. A full brother, Conley Lead The Way 0738, was valued at \$920,000, while a full sister, Conley C-4 Princess 2732, commanded \$75,000. Those accomplishments speak to the consistency of this mating and the rare combination of phenotype, genetic merit and market demand that surrounds it. Conley Lead The Way 0738 sold for a record-setting \$460,000 hammer price for 50% semen interest to Hawes Cattle Company in the 17th Annual Embryos on Snow.

EXAR PRINCESS 1637

- The depth of genetic value behind Conley Princess 6510 is difficult to overstate. This striking January daughter of the \$1.4 million-valued LT Marquee 169L is from Conley Princess 3254, the featured donor selling as Lot E in this very offering. Her dam is a full sister to the \$920,000-valued Conley Lead The Way 0738, placing 6510 directly at the heart of one of the most financially proven genetic combinations ever assembled at Conley Cattle.
- The maternal power runs even deeper. The now-deceased EXAR Princess 1637 anchors the bottom side of this pedigree and leaves behind a legacy that simply cannot be recreated. Her influence includes Conley Lead The Way 0738 and the \$140,000 Conley Princess 4781, a maternal sister to the dam of 6510. When genetics of this caliber become finite, opportunities like this become increasingly difficult to replace.
- Phenotypically, 6510 has the presence to match her pedigree. She is elegant and elevated through her front third, bold and dimensional through the center portion of her body and impeccably balanced from the side. Show her, build around her and ultimately put her into the donor pen. Conley Princess 6510 has the pedigree, phenotype and genetic exclusivity to become a cornerstone female in a progressive Angus program that is interested in generating elite Angus show cattle!

THE
Bred Cows
+ Cow-Calf Pairs

Lot 101 Dameron Queen Eva 050

- Leading off an impressive division of cows is a powerful, maternally designed daughter of Connealy Saddle Up that represents the featured Queen Eva family. She is backed by a pedigree that combines proven maternal strength, functional performance and generations of Angus cow power.
- On the bottom side, Dameron Queen Eva 050 is out of Banner Queen Eva 1706, a daughter of the Select Sires AI sire SAC Conversation, with Craft Queen Eva 905-104 and BAL Queen Eva 905 appearing in successive generations. This combination brings together several of the most proven and recognizable maternal influences within the Angus breed.
- Deep-sided, powerful and maternal in her kind, Dameron Queen Eva 050 offers the foundation and pedigree versatility cattlemen search for in a breeding female. Her combination of the Connealy Saddle Up influence with the proven Queen Eva lineage makes her the kind of female capable of producing cattle with added look, maternal value and long-term earning potential.
- With the combination of incredible phenotype and an outcross pedigree, we think she has the aptitude to be a program leading donor female that is capable of generating both bull and heifer progeny that you can build a cowherd around.

- Conley Sandy 6323 is the fancy Conley Bristow 2317 daughter that stands beside the impressive 3230 female, and my goodness does she take the phenotypic quality to another level and prove how impressive this maternal line is. We think this female is going to be tough to get around in the Early Summer Division next summer in Grand Island.
- There are no questions to be asked of the "Sandy" family when it comes to outlier type and kind, and in turn their potential as high dollar generators.

CONLEY DS CLEAR CUT 0510

Lot 106 Conley DT Sandy 3551

- Conley DT Sandy 3551 is a striking daughter of the legendary SCC SCH 24 Karat 838 that comes with the backing of Diamond T Sandy 9004, creating a pedigree loaded with proven show-ring genetics and some of the most recognizable maternal influence within the Angus breed.
- The generating power in this mating has already been proven at the highest level, as Conley DT Sandy 3551 is a full sister to Conley DT Sandy 2900, the \$140,000 feature of the 2023 Conley Cattle Spring Production Sale selected by the Ferree family of Indiana.
- Her dam, Diamond T Sandy 9004, is a Colburn Primo 5153 daughter of BCII Sandy 1315, the 2015 Hoosier Beef Congress Supreme Champion Junior Breeding Heifer. Adding even more championship credibility, a full sister to BCII Sandy 1315, BCII Sandy 0215, was the 2017 National Western Stock Show ROV Reserve Grand Champion Angus Heifer.
- Phenotypically, Conley DT Sandy 3551 brings the extras to complement her elite pedigree. She is high-necked and attractive through her front third, yet remains bold-ribbed, big-topped, stout-hipped and wide-pinned.
- Conley DT Sandy 3551 offers the genetic and phenotypic credentials to be a powerful addition to an elite donor lineup.

- Dameron Northern Miss 229 carries the influence of one of the most proven and recognizable maternal lines ever developed at Dameron Angus. The "Northern Miss" family has been built around females that combine elite phenotype with the ability to consistently generate cattle capable of competing at the highest level.
- At the foundation of this family is the legendary Dameron Northern Miss 3114, the all-time high income-producing female in the history of the Dameron program. Her influence includes the legendary Dameron First Class, Triple Crown winner Dameron First Impression, and Dameron Northern Miss 0109, the 2011 National Junior Angus Show Grand Champion Female and 2012 National Western Stock Show ROV Grand Champion Female.
- The depth of this lineage extends well beyond a single generation. Dameron C-5 Northern Miss 1406 was the \$137,000 top-selling female of the 2014 Dameron sale before becoming the 2015 American Royal Junior Show Grand Champion Female and 2016 National Junior Angus Show Reserve Grand Champion Cow-Calf Pair.
- This is a cow family that has stood the test of time and continues to produce the kind with the look, structural quality and genetic value to remain relevant for generations.

SCC SCH 24 KARAT 838
CONLEY MISS LUCY 7011

- We teamed up Colburn Primo 5153 with Conley DT Lucy 2020, and it delivered the goods here with this May born heifer calf. Conley Primo 6202 comes with all the big and out there features that you would expect from the mating on the SCC SCH 24 Karat 838 female.

- A striking female that is more than a pretty picture, but comes with the pedigree to generate. Conley DT Lucy 2020 is a daughter of SCC SCH 24 Karat 838 and stems from the powerful Conley and Diamond T donor Conley Miss Lucy 7011.
- The maternal side is where this female becomes especially intriguing. Conley Miss Lucy 7011, a daughter of ST Power Chip 4790 and Womack Miss Lucy 011, was the 2019 NAILE ROV Senior Champion Female and was later recognized as the 2019 ROV Senior Champion Female of the Year.
- Conley DT Lucy 2020 added to the family's championship resume when she was selected as the 2024 Western National Angus Futurity ROV Reserve Intermediate Champion Heifer for Pheiffer Rosenberger. A maternal sister, Conley DT Miss Lucy 3701, has continued the winning tradition as the 2024 American Royal ROV Show Division III Champion and the 2024 NAILE Junior Angus Show Division V Champion.
- She is a maternal sister to Cambria Cook's, \$170,000, Conley DT Lucy 3701 that most impressively selected as the Grand Champion Junior Angus Female at the 2024 NAILE, and then went on to be selected as the 4th Overall Junior Breeding Heifer.
- Powerful in her body and dimension while maintaining the attractive, feminine presence demanded at the highest level, Conley DT Lucy 2020 combines an accomplished show-ring resume with one of the emerging maternal families in the Conley program.

- Few females have strengthened their position within the Conley Cattle donor battery as dramatically in recent years as G&J Erica 914. She has developed into a highly consistent source of the look, skeletal quality and generating ability year after year. Her daughters are creating measurable value through the sale ring and validating that investment on the biggest stages in the business!
- The 2025 Conley Cattle Fall Production Sale provided perhaps the strongest statement yet about the earning power of G&J Erica 914. The first three lots of the sale were all daughters of 914, led by Conley Erica 5195 at \$150,000, followed by her full sister Conley Erica 5849 at \$70,000 and Conley Erica 5089 at \$12,000. Those three females alone grossed \$232,000 and averaged \$77,333, an impressive display of the consistency and market acceptance surrounding this donor!
- Her success has extended across multiple sire combinations. Conley Erica 4013, a daughter of Conley DS Clear Cut 0510 and G&J Erica 914, commanded \$24,000, while her maternal sister Conley Erica 4982 went on to be selected as the 2025 NAILE ROV Show Reserve Senior Heifer Calf Champion Division I for Aubree McCurry.
- Conley Erica 5195 further elevated the reputation of her dam following her \$150,000 hammer price last fall. Shown by Cambria Cook of California, she was named Junior Heifer Calf Champion Division II at the 2026 Cattlemen's Congress Junior Angus Show and followed with the same division championship in the 2026 Cattlemen's Congress ROV Angus Show. 5195 was truly a crowd favorite!
- Her ability to generate across multiple sire combinations is what has us so fired up about the influence of G&J Erica 914. Lots 201-206 will result in FULL SIBS to the \$150,000 and \$70,000 high selling heifers from last year's sale. A truly monumental investment opportunity awaits!
- On the other hand, Lots 207-210 are heifer calf ET pregnancies from the great G&J Erica 914 that are sired by the \$400,000 Conley Power Play 4136, the sensational AI sire that topped the 2026 Conley Cattle Spring Production Sale and was selected by Price Irving of Indiana.
- A blue-chip investment opportunity awaits on September 19, 2026, in Sulphur!

- Conley Rosie H176 is a high percentage Simmental female that is a direct daughter of the legendary female maker, TL Ledger and stems from the maternal powers of Ms Rosie Driver 735Y, the 2012 American Royal Grand Champion Percentage Simmental Heifer.
- H176 is an eye appealing, smooth made, ultra-refined female that offers a strong look of maternal functionality. We love her fleshing ease, udder quality, and overall brood cow look.
- While the pregnancy she is carrying has the potential to ring the bell, this young recipient dam certainly can carry the load on her own, with a genetic backing, and phenotype that has high end producer embedded.
- She is supported by a cow family that you can hang your hat on.

Dam of Lot 203 Recipient Dam

- **Lot 203A** | Conley Pure Pride 6250 | DOB: 2/19/26 | Sire: Conley Bristow 2317 | AAA: 21651265
- This young matron that comes backed by a pedigree that blends proven Angus power with one of the most recognized cow families ever developed in the Conley program. Note that she comes with a fancy Conley Bristow 2317 sired heifer calf at side, a true 3 in 1 package sells here!
- The Pure Pride cow family has earned its reputation through generations of high-quality females capable of competing at a high level and, more importantly, going on to generate cattle with genuine value. From a phenotype standpoint, Conley Pure Pride 3500 offers the kind of balance, femininity and maternal presence cattlemen expect from a female carrying this name.
- Her combination of structural quality, body shape and overall Angus character gives her the versatility to be a big contributor in production.
- With S A V Extension 6856 on the top side and Conley Pure Pride 7117 anchoring the maternal side of her pedigree, Conley Pure Pride 3500 represents a genetic opportunity centered around proven cow power. Females with this type of pedigree foundation are the kind that can become long-term fixtures in a donor battery and leave an influence well beyond their own generation.

- Conley Sandy 3305 represents one of the most proven and recognizable cow families in the Conley Cattle program. The Sandy lineage has established a tremendous reputation for generating high-end Angus females with the combination of phenotype, maternal power and marketability demanded at the highest level.
- Built with the kind of look that has made this family so successful, Conley Sandy 3305 combines an attractive, feminine front end with added body, dimension and structural quality. She offers the balance and presence to command attention while maintaining the fundamental pieces necessary to become a productive breeding female.
- The generating ability of the Sandy family is difficult to overlook. Conley Sandy 8934 a ¾ sister to the dam of Lot 204 has produced daughters commanding \$215,000, \$190,000, \$180,000 and \$135,000, illustrating the tremendous demand and earning potential associated with this maternal lineage.

- Conley 257R is the textbook kind of production female and has been a very trusted source of raising stock for our production sales. She is a well natured, big scaled and an easy keeping kind of female that in an ideal world, every recipient would look and act like.
- Being in the prime of her life, she is bound to do a stellar job with her Conley Bristow 2317 x G&J Erica 914 calf next spring, and then several more going forward!

Lot 207 Pilgrim Lucy 1919

- Pilgrim Lucy 1919 is a powerful and maternally designed daughter of Stevenson Turning Point that combines added dimension, substance and structural quality with the feminine look expected from an elite Angus female.
- From a breeding standpoint, her value lies in the combination of genuine cow power and phenotype and with the maternal support of a tremendous Connealy Earnan 076E daughter, she is stacked with real world beef cattle pedigree that will thrive in a ranch setting.
- Females with this kind of presence, maternal design and generating potential are the ones progressive cattlemen build programs around. Pilgrim Lucy 1919 represents an opportunity to invest in not just an exciting pregnancy, but is a female with the pieces to make an impact far beyond her first calf.

Lot 208 Conley Pride 2933

- Conley Pride 2933 is a striking Angus female backed by the proven maternal influence of Schelske MSF Maddie 8229. She combines an attractive, feminine look with added shape, balance and structural quality from the ground up.
- Long-fronted, bold-ribbed and square in her build, Conley Pride 2933 has the kind of presence that will command attention in the show ring while still offering the maternal foundation to become a valuable breeding piece.
- With Schelske MSF Maddie 8229 anchoring the bottom side of her pedigree, this female brings together phenotype, pedigree strength and long-term generating potential in one impressive package. 8229 is a daughter of the \$100,000 BCII MLA Next Up 015, and is out of MSF Lucy 201, a full sister to the influential Plainview Lutton E102. Her impact was immediate, as her first four daughters to sell averaged an impressive \$60,875, establishing Maddie 8229 as far more than simply another impressive donor on paper.
- Half embryo interest in Schelske MSF Maddie 8229 later commanded \$100,000 through the 18th Annual Embryos on Snow, further validating the industry-wide confidence in her generating ability.

SCHELKSKE MSF MADDIE 8229
Dam of Lots 208 & 209 Recipient Dams

- Here is the second direct daughter of the legendary Schelske MSF Maddie 8229, this one comes sired by Conley Ransom 1810 and is a 2023 model, so she is just approaching her prime years in production, and has a long and profitable career left ahead of her.
- We should probably have our sanity evaluated for putting an embryo in a female like this, let alone selling her, as this young matron has a long and rewarding production career ahead of her.
- The proven maternal influence of the "Maddie" line is what makes Conley Maddie 36841 especially intriguing. She combines an attractive, feminine look with the added shape, substance and structural quality that have become trademarks of the cow family. With high-dollar daughters, major-show success and demonstrated versatility already attached to this cow family, 36841 has the opportunity to be a legitimate source of elite Angus seedstock.

- It is not too often you can walk into an all-encompassing deal like these pregnant recipients offer. This one is for the Simmental enthusiasts.
- DSLF Peps Deal 25K is backed by the kind of proven cow power that adds immediate value to any breeding program. She is a direct daughter of WLK/WW Ms Peps Deal 271D, who is a daughter of WLE Big Deal A617 and traces through BW/WW Pep Pays 27Z, bringing together the influence of SVF Steel Force S701, Shawnee Miss 770P, CNS Pays To Dream T759 and the time-tested Pep cow family.
- She delivers a pedigree built around females with added substance, body, structural quality and the ability to generate.
- With this kind of maternal lineage supporting her, DSLF Peps Deal 25K represents much more than an attractive individual—she offers the genetic foundation to become a productive breeding piece with long-term generating potential. This purebred daughter of Ruby's Currency 7134E is just hitting her prime years of production, and cattle of her pedigree are built for the long haul!

EXAR PRINCESS 1637

Maternal Granddam of Lots 211 & 212 ET Pregnancies

- The next set of ET heifer calf pregnancies are supported by the \$140,000 Conley Princess 4781. Conley Princess 4781 combines the proven influence of BRDG Mahogany Prime 904B with one of the most important females in the Conley Cattle breeding program, the late EXAR Princess 1637. Her pedigree is anchored by a cow family that has repeatedly generated cattle with elite phenotype, marketability and national relevance.
- The influence of EXAR Princess 1637 is undeniable. She is the dam of the \$920,000-valued Conley Lead The Way 0738, one of the most influential AI sires to emerge from the Conley program in recent years. Another maternal brother to Conley Princess 4781 is Conley Stallion 430M, the 2025 Cattlemen's Congress Reserve Champion Percentage Simmental Bull that was shown by JS Simmentals.
- ET pregnancies from the \$140,000 Conley Princess 4781 by the \$400,000 Conley Power Play 4136 combine elite maternal power, genetic relevance and tremendous upside. This may be one of the most exciting matings ever created at Conley Cattle – bid to own!

- We aren't sure you will ever find the mother of a NWSS Champion selling as a recipient female anywhere else in the business but here. JCL Cruel Girl LNLNLM 502C ET has established herself as a proven source of championship-caliber Lim-Flex genetics, with a production record that validates her ability to generate cattle capable of competing at the highest level.
- Her most decorated daughter, JCL Cruel Girl 725E, was a dominant force on the tanbark, earning Grand Champion Lim-Flex Female at the 2019 National Western Stock Show Level I MOE Show and Reserve Grand Champion Lim-Flex Female in the NWSS Junior Show.
- The success continued into the summer as JCL Cruel Girl 725E was named 4th Overall Lim-Flex Female at the 2019 National Junior Limousin Show and Third Overall Female at the Oklahoma Youth Expo. Few things add more credibility to a donor than progeny that repeatedly rise to the top in national-level competition, and JCL Cruel Girl LNLNLM 502C ET has proven she possesses that kind of generating power.

Purebred Breeding Heifer

- Conley Lady 4561 is the \$90,000 daughter of Conley Bristow 2317 and the highly proven Dieckmann Lady 1117, blending two of the most relevant genetic influences within the Conley Cattle program.
- The bottom side of her pedigree is anchored by Dieckmann Lady 1117, the accomplished Conley No Limit daughter that earned division honors at the National Junior Angus Show and was the 2022 American Royal Reserve Grand Champion Junior Angus Heifer for Finley Yocham.
- 4561 was a true sale feature as an open heifer calf, offering an abundance of power, body mass and genuine capacity. Her basic build was absolutely flawless, while she maintained a very maternal and ladylike look about her front third.
- The three ET heifer calf pregnancies selling are sired by the \$400,000 stud, Conley Power Play 4136, one of the greatest young breeding bulls ever promoted at Conley Cattle.
- This mating represents the hottest and freshest genetics in the vault at Conley Cattle!

- Backed by the proven "Sheza Star" cow family, here is a direct daughter of Conley Sheza Star D3, a female that has helped establish this maternal line as one of the dependable foundations within the Conley program.
- The Sheza Star family is recognized for combining maternal value, structural quality and the kind of eye appeal that translates into both the show ring and the donor pen. Conley Sheza Star 758K carries that same genetic foundation forward, offering the pedigree depth and cow-family strength to be a valuable breeding piece with long-term generating potential.
- Conley Sheza Star D3 was the \$120,000 purchase of Aces Wild Ranch and Lindskov's LT Ranch.
- 758K is a full sister to the \$100,000 Conley High Rise F3, a calving ease specialist that works in the Hartman Cattle Company breeding program in Nebraska.

CHAMPION HILL GEORGINA 8547

Two-Time ROV Show Heifer of the Year
 Dam of Lot 216 Recipient Dam

- **Lot 216A | Conley Georgina 5330 | DOB: 12/10/25**
- Conley DT Georgina 3301 represents a powerful combination of two of the most recognizable maternal influences in the Angus business. Sired by SCC SCH 24 Karat 838 and backed by Champion Hill Georgina 8547, her pedigree brings together the influence of FCF Proven Queen 419 on the paternal side with the time-tested Champion Hill Georgina family on the maternal side.
- The foundation behind Conley DT Georgina 3301 is especially impressive. Champion Hill Georgina 8547 is a daughter of S A V Angus Valley 1867 and traces directly to Champion Hill Georgina 3080, the Leachman Saugahatchee 3000C daughter. Champion Hill Georgina 8547 compiled an impressive show career that included being named the 2016 NWSS Division VIII Champion Heifer, the 2016 WNAF ROV Grand Champion Angus Heifer, and the 2014 Tennessee State Fair Grand Champion Angus Heifer. Beyond the banners, she was recognized for the maternal design, udder quality and genuine cow power that made her a cornerstone female.
- There is tremendous depth to the "Georgina" name, and Conley DT Georgina 3301 is bred to carry that tradition forward. The same broader cow family produced Conley DT Georgina 1076, the 2023 NJAS Grand Champion Angus Heifer, further reinforcing the ability of this maternal line to consistently generate cattle capable of competing at the highest level.
- Combining that proven Georgina foundation with the added style, power and maternal influence of SCC SCH 24 Karat 838 makes Conley DT Georgina 3301 an intriguing female with the pedigree and genetic credentials to become a valuable breeding piece for years to come.

UDE LGFD QUEEN RUTH 5019
2026 Texas State Angus Show Supreme Champion
\$207,000 Full Sister to Lots 217-219 ET Pregnancies

- The next mating is the result of an Embryos on Snow purchase from Udeli Cattle Company that went three for three!
- The 2001 donor has become one of the premier donors in Sioux City, Iowa. UDE Queen Ruth 2001 is the \$135,000 daughter of KR Casino 6243 and KDJ Queen Ruth 502 backed up an impressive show career with a breakout first calf crop that generated more than \$400,000 on her first nine daughters sold!
- 2001 was the 2023 and 2024 FWSS Grand Champion Junior Angus Heifer for KayLee Langford and the 2023 WNAF ROV Grand Champion Angus Heifer and 2023 WNAF Grand Champion Junior Heifer.
- The mating of UDE Queen Ruth 2001 to the \$280,000 UDE New Heights 62/87 has already proven to be a home run. Four full sisters from this mating averaged \$66,625 in the 2025 Udeli Cattle Company "The Advantage" Production Sale, led by UDE LGFD Queen Ruth 5019 at \$207,000 and UDE LGFD Queen Ruth 5016 at \$35,000.
- The value did not stop in the sale ring. UDE LGFD Queen Ruth 5019 went on to be named Reserve Junior Heifer Calf Champion Division I at the 2026 National Western Stock Show ROV Angus Show this past January, further validating the championship potential built into this mating. Most recently 5019 was selected as the 2026 Texas State Angus Show Supreme Champion Heifer for Kaylan Kiser!
- With the proof already on the ground, another opportunity to create a UDE New Heights 62/87 x UDE Queen Ruth 2001 heifer calf demands serious attention to be focused on Lots 217-219!
