Welcome

WELCOME TO WISCONSIN

We're excited to invite you to Wisconsin for the 2026 "Visions in Red" Sale!

Last year marked a special chapter for us as we brought the sale home to Wisconsin. The support, friendships, and enthusiasm surrounding the event made it one we won't soon forget, and we're looking forward to building on that tradition again this fall.

This year's offering represents the heart of our program and the direction we continue to work toward. From proven donor females with a track record of producing at the highest level to an exciting set of young prospects with bright futures ahead, we're proud of the depth and quality represented throughout this offering.

More than anything, we're grateful for the people who make this industry what it is. The friendships built around good cattle are something we never take for granted, and we appreciate every breeder, exhibitor, customer, and friend who continues to believe in our program.

We invite you to come spend some time with us in Wisconsin, walk through the cattle, enjoy some good food, and experience the fall colors in our part of the country.

We'll see you in Wisconsin!

Ty Bayer

Congratulations Rex Howard!

TC SUGAR M172
2025 NAILE Grand Champion
Open Red Angus Heifer
Congratulations Carley Kintzle & McGlothin Family!

One of the very best opportunities and privileges in life is to raise a family outside the city limits on a production agricultural entity! The advantages the experience offers to your family, is very difficult to replicate in any other business model that is out there that allows the total family involvement. Scott and Mia Bayer not only raised a very talented, genuine, and disciplined trio of kids, but they built a brand that is synonymous with integrity and quality.

The TC Reds program was built and established on the Golden Rule and grit with a plan fueled by ambition. For those who know both Scott and Mia, know that they are not prone to allowing grass to grow under their feet. Both worked tirelessly in the formative years to ensure the next generation the opportunity to carry on the family's legacy and approach to customer service. The foundation of this cow herd was established with proven mature Red and Black Angus females that represented some of the very best ranch programs and cow families known to the North American continent. That foundation was secured with bull power that represented generational ranching genetics dedicated to profitability through true, real world measured performance with excellence in phenotype. Not one red cent of the budget dedicated to genetic acquisition was spared and through their willingness to only be the best, the program drove itself to the very summit of the business.

With the next generation full on in the day-to-day management and decision process, one should expect nothing to change other than the level of quality to continue to rise. Investments in herd sires continue the path to ensure only excellence in a proven genetic package thus furthering the reputation of the maternal prowess and phenotypic design of the female base. The program continues the course of the "complete option" that encompasses suitable calving merit with enhanced calf vigor, hoof and skeletal quality that buys only longevity in production, as well as fertility and pounds of calf weaned with suitable dispositions adaptive to any ranch model, and that stellar, sharp build the TC outfit is known for.

For those who have been looking over the fence over the years, climb on over and join the rest of the TC customer base and experience what the others already know. Ty, Scott, and the balance of the tribe are here and ready to show and visit with you about their product 24 hours a day, 7 days a week. They are passionate about the profit drivers you can evaluate with your eye and the data that supports them. We can assure you that these females will hold their value with many appreciating their value over their productive life cycle especially for those who reach out to the ranch team for fresh genetic ideas and guidance. The Bayer's will be there every step of your investment journey, if you should call on them, their experience in the seedstock business will always be their customer's greatest asset.

Please make plans to join us Sunday, October 4th for the annual female sale at the farm. The hospitality and fellowship will be rich in conversation with outstanding food. If you should need assistance with selection or sight unseen purchasing, please feel free to reach out to the Bayer Family or Innovation AgMarketing for those needs. All of us look forward to fielding your calls and interest in the offering. Thank you so much for your interest and we hope that you enjoy the printed material and video information on this trademark annual offering of seedstock females from one of the traditionally outstanding family operations known to the beef business.

Enjoy the cattle,

GRAHAM BLAGG **JERED SHIPMAN** **TIM ANDERSON** **TUCKER WAGNER**

ONLINE BIDDING AND VIEWING

Watch and bid online with CCi.Live.

TERMS & CONDITIONS

All cattle will sell under the suggested terms and conditions of the respective breed associations in which are represented throughout the sale offering. All sales are final. Seller reserves the right to two successful flushes on each heifer in the sale at the buyer's convenience and seller's expense unless otherwise noted. All females are sold as sound breeders. However, if we feel that a heifer has been fed to an extreme level of obesity, we will hold the feeder responsible for any reproductive problems. Seller reserves the right to take possession of any animal(s) that presents difficulty conceiving before a sale credit will be issued. Seller guarantees each female to produce a live calf or transferrable embryos.

RETAINED FLUSH/CELL LINE

TC Reds reserves the right to two successful flushes at the buyer's convenience and seller's expense, unless otherwise noted. TC Reds reserves the right to the DNA cell line and cloning rights on all animals sold.

ANNOUNCMENTS

A supplement sheet will be available sale day with updated information, corrections, and additional information. This sheet and any announcements made sale day from the auction block during the sale, will take precedence over printed material associated with the sale.

LIABILITY

Anyone attending this sale attends at their own risk. Sellers, facility owners, nor the sales team will not be held responsible for any personal injury from attending this sale.

- This year's offering is built upon the most dynamic and cow power saturated matings we have ever been able to conjure. We begin with the hottest pedigree that we have to offer, as the C038 female has begun to compile an incredible record of daughters that seek banners and impressive valuations.
- TC DUCH Peanutty 647 excels in all facets, not only does she come flawless in regards to all the basics of good fundamental beef, she comes with all the extras in regards to what it takes to be a dominate female on the tanbark. Her added bone and substance, deeply rich red toned hide, and whimsical presence evoke a feeling of elite quality.
- Cow power with proof behind it, the daughters of DAMAR Peanutty C038 bring the influence of one of the most proven Red Angus donors to work in the TC Reds program. C038 has demonstrated her ability to generate elite phenotype and marketability, highlighted by the $55,000 DUCH TC Miss Eagle 308L, who was selected Reserve Grand Champion Red Angus Female in both the Junior and Open Shows at the 2025 Cattlemen's Congress.
- TC DUCH Peanutty 647 has the genetic foundation to become a valuable breeding piece long after her time in the showring.
- **Retaining 50% Embryo Interest.**

- If you have hopes to be competitive early, often and at the end then these daughters of DAMAR Peanutty C038 need to be on your inspection list, as they are designed for long term dominance.
- These J2R Resource 144J daughters combine not only the maternal backing of the best we have to offer, but come with a high-end phenotype that sets them up to create quite the story themselves. There is a reason that this has become one of the most popular cow families in the program!
- These maternal sisters to the 2025 Cattlemen's Congress Reserve Grand Champion Red Angus Heifer back up the hype that was created by DUCH TC Miss Eagle 308L and prove that she was by no means a fluke!

- If you are looking to tie into a cow family with a proven track record for success on the biggest stages, then these daughters of DAMAR Peanutty C038 are a very logical place to start. This crop of C038 daughters for 2026 follows in the trend set by their maternal sister, DUCH TC Miss Eagle 308L that was a high seller, turned champion for the Sandridge Land & Cattle firm.
- TC DUCH Peanutty 640 would be the choice of those who opt for a more complete, long term, safer bet, as this one cannot set a foot wrong in our opinion, she has a flawless structural build and ties together her pieces in a very elite package.

- Here are the daughters of one of the most decorated females in the entire Red Angus Association of America herd book, WEBR Ms Ellie 1024, a female who has had over a decade of dominance of the winner's circle, and the phenotypic quality she transmits has proven to be timeless. She continues to generate the right kind, and her daughters are taking on the role of protecting the legacy she has built.
- The production résumé behind WEBR Ms Ellie 1024 is loaded with both banners and dollar figures. From being a major show champion to raising several herself, she has been a cornerstone of the program.
- Maternal sisters to 657 include TC Ellie 224, a National Western Stock Show Grand Champion Red Angus Female, TC Ellie 63H, the 2021 American Royal Grand Champion Red Angus Female, the $37,500 TC Miss Ellie 11L and the $15,500 TC Ellie 07K.

- When WEBR Ms Ellie 1024 appears on the bottom side of a pedigree, there is very little introduction needed. The legendary NBAR Hamley S913 daughter has spent more than a decade establishing herself as one of the most influential phenotype generators in the TC Reds program, consistently producing the kind of females that combine structural integrity, presence and genuine cow power.
- This direct daughter carries an opportunity to tie into that legacy at its source. The 1024 daughters have proven their value on the tanbark, across the auction block and, perhaps most importantly, as the next generation of females entrusted to carry the Ellie influence forward. Pedigree predictability, maternal potency and proven generating power are all built into this one.

- Here we begin the daughters that have resulted from the mating of J2R Resource 144J and ORAR Topeka RB25, a combination that brings together two of the most proven phenotype-driven genetic pieces in the TC Reds program. J2R Resource 144J has quickly established himself as a go-to sire for adding substance, skeletal quality and an elite look, while still keeping the fundamentals of good livestock intact.
- The maternal side only adds more confidence. ORAR Topeka RB25, the RED U6 Hesston 14Z daughter out of RED HOWE Topeka 263Z, has been a cornerstone in the TC Reds program for more than a decade and has consistently generated sons and daughters that rise to the top. A maternal brother, TC Rio Bravo 64M, commanded $15,500, and is the sire of several females in this sale.
- Study the genetic equation here. The added body, stoutness and structural integrity that have become trademarks of J2R Resource 144J are being layered onto one of the most time-tested maternal foundations in the TC Reds cowherd. This is the kind of female bred to have plenty of presence as a show prospect, but perhaps even more importantly, the pedigree and cow power to become a serious donor candidate when her days on the halter are complete.

- A genetic package with the kind of proven maternal power and cow family strength that deserves serious consideration. This daughter of J2R Resource 144J stems from a flush to ORAR Topeka RB25, combining the added substance, dimension and stoutness associated with the "Resource" influence with the maternal quality behind the Topeka lineage.
- She is built with extra rib and body, genuine shape through her center portion and the structural integrity to remain productive for the long haul.
- With this kind of pedigree behind her, she offers the flexibility to be mated several different directions while carrying the genetic foundation to develop into a valuable breeding piece.

- The youngest of the trio from the J2R Resource 144J and ORAR Topeka RB25 mating comes TC Topeka 6101. For those looking to compete in the younger division at Junior Nationals, and still be there all the way until the end at the Majors, this is the direction to be looking.
- The ORAR Topeka RB25 female has built a very profitable cow family for our program, regardless of the mating thrown her way she yields results. We foresee a similar occurrence with the generating potential of these daughters to sell in 2026, they are the kind that will make a successful show heifer project, yet have the potency of a power pedigree to be reliable producers into the future.

- The momentum that the J2R Resource 144J daughters have built is staggering. His first daughters commanded immediate attention, and four daughters averaged $18,575 in the 2024 "Visions in Red" Female Sale, while TC Leta 100L became the 2024 Red Angus Youth Expo Grand Champion Owned Heifer.
- The TC Primrose 62J daughters are bound to be incredible cows in production, as they come with the backing of the coveted "Primrose" cow family, and their dam is one of the prettiest, most textbook mature cows you will lay your eyes on to in Ringle.
- Here is a female with the pedigree to compete, but more importantly, the maternal foundation and genetic predictability to become a valuable breeding piece when the banners are put away.

- Here is a full sister to TC Fancy 16M, the $28,000 feature of the 2024 "Visions in Red" offering that was the selection of Nathan Skiba.
- Stemming from the incredible TC Fancy 09J, the pedigree here is loaded with some of the strongest phenotype providers on the ranch. 09J was certainly a fun one to campaign, being Tucker's 2023 Cattlemen's Congress Grand Champion Junior Red Angus Female and Reserve Grand Champion Open Red Angus Female, along with being the Reserve Grand Champion Red Angus Female at the 2023 NAILE Junior Show.
- Loaded with powerful, and proven pedigrees on either side of the equation, and a very futuristic, and thought-provoking phenotype, it's valid to have large expectations for this "fancy" lady to be a force as a big one at the majors come next fall.

- With the backing of the J6 cornerstone, WR Ms Holly 3042, 623P is a sound structured, extra broody bodied, and high-density prospect that is a female that is easy to like regardless of whether you are looking for a show heifer or a more long term producer.
- We have high hopes that these daughters of TC Rio Bravo 64M are going to be very well received as they offer up a very versatile quality, and should appease a wide range of beef business strategies. With the maternal support of ORAR Topeka RB25 on board, they should create incredible females in production.

- The best of both worlds here, as TFOR/TC Mary Fay 605P comes in not only a phenotypic mold that is easy to find quality in, but you can turn to the science and find she has a lot to offer to stockmen that are looking to keep their performance indicators in check while improving maternal values. She ranks top quarter of the breed or better for WW, YW, ADG, Stay, CW and REA.
- The maternal side here traces to 4L Ms Mary Fay 002, the proven and prolific J6 donor whose influence has generated standout herd bulls across multiple matings and continues through daughters such as J6 Mary Fay 245F, the dam of J6 Bulletproof 542K the 2023 American Royal Grand Champion Red Angus Bull for Twin Willows and Bradley Cattle.

- The trend of immense cow power continues in this Hereford division, as P507 finds her maternal support from a rich purse of Hereford royalty. This UPS Entice 9365 ET daughter stems back to the BW 215Z Carmel 61D female who has become one of the important donor females associated with the Hoffman Ranch program, and in turn the productive "Sugar & Spice" lineage.
- The proof surrounding BW 61D Mocha 913G continues to stack up. Her daughters have repeatedly been featured from the front end of major Hoffman offerings, and a maternal sister to H BL Carmel 223 ET commanded $125,000 in 2022 to the Collins family and was the 2023 NWSS Reserve Champion Horned Female in both the Open and Junior Shows.
- The 913G cattle have been selected for body, structural quality, foot shape and an attractive, productive look, while continuing to generate cattle with both showring appeal and real breeding value. BW 913G Carmel P507 ET carries the genetic foundation to become another valuable chapter in a "Carmel" family that has already proven its ability to generate the high dollar kind.

- There aren't too many cows in the Charolais breed that can compete with the hype that is surrounding the maternal linage here! LJR Ms Kari 318K ET, or "Judy" as she has affectionately become known as has quickly walked the talk after her very illustrious show career. She was successfully campaigned by Mackenzie Neal and was named the 2023 NAILE 55th National Charolais Show Reserve Grand Champion Open Charolais Heifer and Third Overall Owned Female at the 2023 AIJCA Junior National Show. She was also a multiple-time supreme contender on the jackpot circuit.
- Full sisters to 617P have been sought after! RJ SA Ms Cool N1 ET became the 2025 AIJCA Junior National Division I Champion Heifer and later sold for $69,000, while another daughter from that mating, RJ GCC Miley Cyrus N07, commanded $53,000 and has been very successful this past show season for Briggston Bertsche being crowned the 5th Overall Female at the 2026 South Dakota Spotlight. Maternal sisters by RF Elevate K108 have commanded $60,500, $56,500, $51,500 and one of these was the 5th Overall Owned Female at the 2026 AIJCA Junior National Show.
- You can trust that this outlier is not just special phenotypically, but comes with immense support from a pedigree standpoint!

- The Angus division is loaded with upper echelon quality once again, and it begins here with OAKP RJ Sandy 6151P, one of the most incredible silhouetted Angus females to ever step foot in Ringle. She is sired by the rookie sire that is stirring up a storm with this first calf crop, OAKP Holyfield M517 is a bull you are going to be hearing a lot more from as the fall show heifer sales begin.
- She comes backed by the SHER Sandy 207K donor that is just a new edition to the immortalized "Sandy" cow family that has rewrote the realms of possibility within the Angus business. 207K was the 2023 South Dakota State Fair 4th Overall 4-H Breeding Heifer for Oaklyn Plamp. She is a daughter of UDE Sandy 24E who is backed by Silveiras Sandy 5344. Silveiras Sandy 5344 is a full sister to Silveiras S Sis Sandy 2355, placing her on one of the highest-profile Sandy branches in the Angus business and making her a great-granddaughter of K N C Cabin Creek Sandy 804.
- Maternal sisters to 6151P have been sought after, TLAC Hits Different 1409L ET daughters were traded at $55,000, $54,501 and $40,500 last fall, with one of them, POAK RJ Sandy 540N ET being the Grand Champion Maine Angus Female at the 2026 Indiana State Fair. A UDE New Heights 62/87 daughter, OAKP RJ Sandy 534N, also commanded $19,000.

- CLF Belle 671 is another fundamentally ideal daughter of the outcross, Styles Reset E016 sire, this time the maternal power comes from the iconic Top Line Lady 9111 donor that has made a very strong contribution to building the Angus program for Country Lane Farms.
- 9111 was the 2011 National Western Stock Show Reserve Grand Champion Open Angus Female and the 2011 All-American Angus Futurity Junior Show Supreme Champion Female. She was certainly one of the most dominant Angus females to ever carry the Top Line prefix.
- The dam of 671 is a full sister to Top Line Lady 3330, the 2014 NAILE Junior Angus Grand Champion Female and the 2015 National Western Junior Angus Show Grand Champion Female.

- DRIT Pineapple ET comes from a very potent source of high end Maine-Anjou genetics. Her dam, DRIT Éclair was a dominant champion for Taylor Dorsey, being crowned a Grand Champion Bred & Owned Female at the National Junior Maine-Anjou Show, and she has transitioned into the leading female in the Dunn-Rite Cattle Co program.
- She is a full sister to DRIT Kinlock 24K, he now works for Buck Cattle Company of Madill, Oklahoma and is a staple in their breed leading AI sire battery, with several daughters featuring in their annual sales.
- A maternal sister, DRIT Nashville ET that was sired by TJSC End Game 61G ET was the Reserve Division IV Champion Maine-Anjou female for Tessa Delmore this past summer at the National Junior Maine-Anjou Show behind the eventual Grand Champion, she too was the Champion Chianina Heifer at the 2026 Blackout 10 Jackpot. Another sister was the Reserve Composite Low Percentage Chianina Heifer at the 2025 Kansas Beef Expo.

- The DBTH Ms Ellin's Polly 64P ET comes with the backing of two industry legends on either side of her pedigree. Her dam is quickly becoming an "it girl" in the breed, BBR Ellin 796E ET, the GOET I-80 daughter of GEF Miss Dominatrix 236A who is a full sister to the legendary BBR Memphis Mafia 3E ET. That genetic combination has become one of the most recognizable sources of phenotype and marketability within the Maine-Anjou influenced show cattle business.
- Full sisters to 64P have commanded $60,000 and $25,000. She too is a maternal sister to one of the most popular sires to have ever come out of the Blind Badger program, BBR Made Man 15K.
- DBTH Ms Ellin's Polly 64P ET represents another opportunity to tie into a maternal line that has held its place at the forefront in a breed that is constantly evolving and quickly becoming a favored choice for showmen and women.

- The lone purebred Simmental female to sell comes with additions of bone, foot size, density, and muscle shape. She remains super attractive about her head and neck, while offering a superior look of quality from the side.
- Her dam is a HPF Quantum Leap Z952 daughter that Tucker campaigned through 2024, she was the Grand Champion Purebred Simmental Heifer and Third Overall Breeding Heifer at the 2024 Minnesota Beef Expo.
- She is a daughter of SO Remnant 418J, the SO Remedy 7F son that we campaigned to numerous banners across the country, his dynamic combination of muscle and structural prowess is shining through here with this purebred mating.

- There is serious maternal proof stacked behind TC Leta 26H. The Red Cockburn Heavy Duty 518C daughter stems from SR Leta 135A, a female that has established one of the most successful branches of the TC Reds cowherd. 26H is a maternal sister to TC Fancy 09J, the 2023 Cattlemen's Congress Grand Champion Junior Red Angus Female and Reserve Grand Champion Open Female.
- The family continued its winning ways through another maternal sister, TC Leta 100L, who was selected as the 2024 Red Angus Youth Expo Grand Champion Owned Heifer for Rex Howard. Few cow families offer a better combination of proven phenotype and repeatable showring quality than the descendants of FSR Leta 135A.
- TC Leta 26H has begun adding production proof of her own. Her J2R Resource 144J daughter, TC Leta 113L sold in this sale last year.
- With national level winners surrounding her maternally and a sale featured daughter, TC Leta 26H represents a proven genetic link to one of the most exciting Red Angus families developed at TC Reds.

TC ADELLE F2
FULL SISTER TO DAM OF LOT 105

- Here is a second daughter of TC Dr Feelgood 1506, however this one stems from the powers of the "Adelle" cow family that has proven to generate the kind of phenotype, structural integrity and maternal function that has kept the TC cowherd moving forward.
- Bieber Adelle 311Y has played an integral role in directing the cowherd toward greater maternal and phenotypic value. Her daughters include TC Adelle F2 and TC Adelle F4, with F2 becoming the dam of TC/HOC Lone Star 22K, the $37,000 high-selling bull selected by Hidden Oaks Cattle of Texas and later named the 2023 World Beef Expo Reserve Supreme Champion Bull.
- TC Adelle 21H brings that dependable maternal foundation together with the proven female-producing influence of TC Dr Feelgood 1506, making her the kind of cow that deserves to be evaluated by what she can leave behind.

- TC Sugar H30 represents one of the most proven combinations ever assembled within the TC Reds maternal base. Sired by WEBR TC Card Shark 1015 and out of TC Sugarcup 02Y, H30 is a full sister in blood to the legendary MLK Big Foot.
- The influence of TC Sugarcup 02Y has become impossible to overlook, as she has produced one of the most recognizable cow families in the program, and has generated well over six figures in lifetime earnings. Among H30's maternal sisters are the $31,000 TC Sugar K7, $22,000 TC Sugar M34, $16,500 TC Sugar K78, and TC Sugar M172, the 2025 Iowa Beef Expo Champion Red Angus Heifer.
- H30 has carried that generating tradition into another generation. Her daughter TC Sugar 20L, sired by RED Northline Tucker 54E, sold in the 2024 "Visions in Red".

- FCF Blackbird 855 has made the transition from successful show heifer to proven generator with ease. She combines the stout, functional build expected from her loaded pedigree with the presence and balance needed to generate modern day, high dollar Angus show cattle.
- FCF Blackbird 855 is the dam of the very impressive CLF Blackbird 28K, the $43,000 daughter of SCH SCC 24 Karat 838 that was purchased by Sloane Curtin. 28K was the 2022 Down 4 The Cause 3rd Overall Breeding Heifer and the 2023 IA Beef Expo Reserve Supreme Champion Breeding Heifer.
- Her value has only increased in production. A direct daughter by SCC SCH 24 Karat 838, WLKZ Ghost M42, was selected as the 2025 NAILE Junior Show Reserve Division VI Champion Angus Heifer.
- The next generation continues to add substance to her résumé. Another SCC SCH 24 Karat 838 daughter, Huth FCF Blackbird 546, was successfully exhibited during the 2026 season, while her son CLF Amendment 13N, sired by Styles Amendment B024, was featured in the 2026 TC Reds & Weis bull offering.
- FCF Blackbird 855 has become the kind of Angus female that earns her reputation through consistency. With the proven maternal foundation of FCF Blackbird 108 behind her, showring credibility of her own and sons and daughters already carrying her influence forward, 855 offers the phenotype and generating ability to continue to be a leading donor!

- Here is a prime aged, high-performance daughter of our favored herd sire, and female maker, S&R Stability J824. This long spined, broody bodied, sound legged, and easy fleshing female is a prime example of why these females are held in such esteem around Ringle. She is the kind that fits the mold in a wide range of production scenarios.
- We eagerly await the rookie calf crop from the WEIS Challenger 20N stud, and the pregnancy here will put the breeder on the cutting edge of a new sire group that we have massive expectations for!

S&R STABILITY J824
SIRE OF LOT 111

- TBSS Miss Karmen is a high-end daughter of the $400,000 Profit that was blessed with the intriguing look, oversized running gear and incredible flexibility that has made him one of the game changing Simmental sires of the past decade. He directly, and his daughters would be responsible for as many dollars and banners as about any sire group utilized in the last 15 years. There is no doubt that they are the right kind.
- With a TJSC Coping With Destiny 9K heifer calf on board, there are no limits to the opportunities that await here, both from a marketability and ROI standpoint, she presents a premixed recipe for success.

- Here is the impressive LKCC Bold Venture 194F daughter that comes in an extra powerful skeleton, she is certainly the kind that looks like she will inject impressive amounts of shape, boldness and capacity. Whether you're looking to make show heifers, or power bulls, she looks to have the right type of body shape. Beyond that we love the squareness of hip, and heavy duty bone structure she offers.
- TJSC Coping With Destiny 9K is consistently showing up on the top side of the pedigree of champions, and the mating here gets you one step closer to having your prefix associated with the trend.

TCB JESSY 40L
$7,500 DAUGHTER OF LOT 113

- No questions about it, WLE Copacetic E02 has certainly made an impact on the business, with both sons and daughters that are on the cutting edge of the next generation of genetic development, and are spearheading the next crop of Simmental stock. This daughter comes from the mold of highly attractive, incredibly balanced, and high end structured phenotype that has become synonymous with the influence.
- Stemming from the maternal influence of one of the leading cow families to come out of the Reck Brothers program you can trust that there is more than just a pretty face and show accolades in support of this genetic gem. She is supported by the same cow family that created the JPLF/RBS Your The One "Rudy" matriarch!

- Here is a successful show heifer, turned donor! This MR HOC Broker daughter out of CLRS Dairy Queen 606D was selected as the 2020 World Beef Expo Reserve Grand Champion Purebred Simmental Heifer for Tucker Bayer before transitioning into production as a SimGenetic source for the TC program.
- JS Dairy Queen 56G is a full sister to JS Dairy Queen 57G, the 2021 Iowa State Fair Grand Champion Purebred Simmental Heifer that has moved toward the front of the JS donor pen. The generating ability of 57G is already documented through daughters such as CCS/JS DQ 57G 96M, the $30,000 high-selling female from the 2025 JS Simmental Fall Born Sale.

- TC Rio Bravo 64M has quickly proven himself to be a reliable source of Red Angus cattle that come with incredible flexibility, eye appeal and overall balance. He is a standout son of the $37,000 past sale feature known as TC/HOC Lone Star 22K, the EGL GCC Red Eagle E7194 son that was selected by Hidden Oaks Cattle of Texas. TC/HOC Lone Star 22K was the 2023 World Beef Expo Reserve Supreme Champion Bull Overall Breeds and has turned into the sire of high-end quality himself.
- On the maternal side of 64M you will find the legendary ORAR Topeka RB25, one of the foundation matriarchs in the TC Reds breeding program. Countless high sellers, champions, and individuals of influence have been derived from this elite matriarch.
- 64M sets the standard for skeletal quality, eye appeal, and overall stoutness. He further compliments this with a dark cherry red hide color, and looks to pass along these traits in a surefire fashion as demonstrated throughout the 8 daughters that feature in the Open Heifer division.
- The fact that he is backed by an elite cow family on both sides of his pedigree combined with his phenotypic strengths position him to become one of the most reliable, and highly maternal Red Angus herd sires we have utilized in program history.
- **Semen will sell in 5 unit packages.**

- J2R Anexa 133J is a full sister to the program changing, J2R Resource 144J. We have employed J2R Resource 144J, since purchasing him in 2022, and he saw heavy use! He is without doubt one of the most consistent herd bulls that has ever been utilized at TC Reds! The shear mass, skeletal quality, stoutness, flexibility, and masculine look that he injected was simply second to none!
- We have huge expectations for the capabilities of J2R Anexa 133J in the donor program, and with her first opportunity, she has stood up to expectations with the stunning Lot 7 female in this sale.
- We love the phenotypic kind that 133J was designed with, coming with a beautiful udder, easy fleshing body type and ideally constructed skeleton, we believe that her daughters are going to be the kind that not only will be dominant in the ring, but will mature into beautiful cows that you would want a cowherd full of.
- The two matings offered on 2R Anexa 133J are geared for increasing phenotypic excellence, you can tell we are excited about this first crop of TC Rio Bravo 64M daughters to sell in this sale, and there is no questioning the influence that EGL GCC Red Eagle E7194 has had, we ourselves have notched a National Champion banner with a daughter of his.
- **Guaranteeing 1 60-day pregnancy per package of 3 embryos if transferred by a certified embryologist.**

- TC Primrose 62J represents the next genetic source of superiority for the TC reds program, she was Tucker's 2022 NAJRAE 4th Overall Owned Heifer, and has quickly cemented her residency in the donor pen with a first ET calf crop that is incredible.
- There is impressive maternal strength in support of 62J. Her dam, TC Primrose 33D is a full sister to TC Primrose 70B "Mia," the Walter Cattle Company donor that has become a major contributor to their Red Angus program. "Mia" produced WLTR Scarlet 4J ET, the 2022 NAILE Grand Champion Red Angus Female and 2022 North American Junior Red Angus Event Reserve Grand Champion Owned Female for Bret Pembrook.
- The trio of J2R Resource 144J daughters that sell as Lots 11-13 should be proof enough that these genetic opportunities have the potential to light a fire and generate some serious market spotlight for a Red Angus program on the rise.
- **Guaranteeing 1 60-day pregnancy per package of 3 embryos if transferred by a certified embryologist.**

- You would think the story curated by the legendary WEBR Ms Ellie 1024 is fiction, from being a major show champion to raising several herself, truly it's been a fairytale. Her progeny have performed on the largest stages, and her legacy has been built upon daughters both in the showring and in the breeding pasture.
- 1024 remains one of the most decorated females in the entire Red Angus registry, with over a decade worth of dominance in the winner's circle, and the phenotypic quality she transmits has proven to be timeless.
- Maternal sisters include the 2015 NWSS Grand Champion Red Angus Heifer and the 2021 NAILE Grand Champion Red Angus Heifer. The phenotypic quality that WEBR Ms Ellie 1024 injects has proven to be limitless on a regular occasion.
- These embryos will create full sisters to the Lots 4 & 5 females that will be favorites of many when they see the stock in person. Do not plan on these 1024 embryos being made available on a regular occasion, they are frozen treasures in our mind!
- **Guaranteeing 1 60-day pregnancy per package of 3 embryos if transferred by a certified embryologist.**

- Seldom Rest Pin Up Gal 8105 has changed the trajectory of the Angus program in Ringle. She has assembled a very impressive resume of progeny by multiple sires that have been dominant in the show and sale ring, at the highest of levels.
- Most recognizable is her SCC SCH 24 Karat 838 sired daughter, CLF Pin Up Gal 40M, that was the Grand Champion Bred & Owned and Supreme Champion Female at the Atlantic National Junior Angus Show, a top-five finisher in the Bred & Owned show at the National Junior Angus Show, Supreme Champion Female at the Wisconsin State Fair, Reserve Grand Champion Open Angus Heifer at the American Royal, Reserve Grand Champion Open Angus Heifer at the North American International Livestock Exposition, and Grand Champion Junior Angus Female at the 2026 Cattlemen's Congress.
- Others notable progeny of 8105 include her son CLF Northstar 80L, a SAV Stardom son that was the Grand Champion Bred & Owned Bull at the 2024 NJAS and CLF Pin Up Gal 83N, a KR Casino 6243 daughter that was the $66,000 high selling Angus female last year.
- 8105 is draped with maternal power, and full sisters include Seldom Rest Pin Up Gal 8134, the 2020 Fort Worth Stock Show Grand Champion Angus Female, and Seldom Rest Pin Up Gal 0103, the 2022 Cattlemen's Congress Supreme Champion Breeding Heifer. Needless to say, there is power in the blood, and with her own track record, and the family tradition of excellence that comes all inclusive, this opportunity comes with blue chip security.
- **Guaranteeing 1 60-day pregnancy per package of 3 embryos if transferred by a certified embryologist.**
