

A close-up photograph of a cow's head, showing its eye, ear, and nose. The cow has a white face with some brown speckling. A dark, fuzzy ear tag is attached to its ear, featuring the 'Weis CATTLE' logo. The background consists of diagonal stripes in shades of gray and white.

the Female sale

October 18, 2026

LIVE AUCTION

6:00 PM CST | St. Ansgar, IA

welcome

It is with great pride that we welcome you to this year's female sale. The plan from the start was to someday have a live female sale here at the show barn. We wanted to bring back an atmosphere to the sale season and make it an event we can all look forward to every year. We are excited to finally bring that goal to life.

Nikki and I are firm believers in constantly challenging our comfort zone. Whether it's daring our daughters to try things that make them uncomfortable or pushing ourselves to be better each day, constant progression is always on our mind. We feel that it is not only vital to our cattle operation but anything we set our sights on in life. This sale and the cattle further follow that narrative. Switching to the live sale format was not only a big change but it has demanded another level of preparation and has pushed our operation to take the next step.

We are fortunate to have the best crew in the game. From Carson and Austin that are here every day, to the part-time squad that come when they don't have class or on the weekends, and the guys that join us on the road to help support our customers at shows, they are the absolute best of the best. Not only do they possess unbelievable talent, but they do things the right way and are the kind of influence you want your kids to be around.

We are confident in this set of cattle. They represent the herds of some of our industry friends, our partners, and our own breeding program that we are tirelessly building. Breed to breed they can compete at the highest levels, and I firmly believe we have something to accomplish everyone's goal. In your evaluation here, you will find cattle that continue to be built right in

their skeleton first, laying the groundwork for longevity that stretches past just the show ring. Past that we focus on attractive made females that are equipped with the added density to not only compete in today's show ring, but what is required to be the generators for their future operations.

It seems like every year there are more and more show heifers for sale in the country and there are endless firms that are fighting for your attention and business. We are forever grateful that you are taking the time to view what we have to offer, and if we are lucky enough that you chose to do business with us, we want you to know, we are here to support you every step of the way.

Sincerely,

Willie Weisz

INNOVATION

AgMarketing, LLC

In our sale management business, we have the privilege of working with some of the very best of the trade from multiple disciplines within the beef industry. Those disciplines host different perspectives, but the one thing we are confident in, is the consistency in quality that our customers host, with every one of them driving to be the best in the business. Working for Willie and Nikki Weis is quite the experience. For those who know them on a personal level they have no fear of hard work, long hours, or doing what's necessary to make that needed genetic investment. The young couple and the trio of daughters show zero weariness with zero signs of slowing down anytime soon. In fact, this outfit just reaches down and grabs another gear each breeding season. It's their quest to be the best and for their name to be considered among the upper echelon.

The eye for livestock is one of the very best. Their focus on the small details in evaluation and presentation is what sets them apart, good enough is never good enough, and the thirst for perfection is never satisfied. When one shows up to view any sale offering at Weis Cattle there's plenty of noted pride in the presentation of the stock and their display facility. They spare no time and effort at making sure the cattle and their place is immaculate.

You'll readily notice within the first lots of this sale book that the attention to the little things adds up when one studies the photos and pedigree information. They have been building a legit program as the cows become more and more like household names. Willie and Nikki would both be the first to admit that they have shared in many great partnerships throughout the years and having those partners was a significant assistance for where they are today and where they will continue to build from. Besides the donor arsenal, there will be cattle sired by bulls that were bred by the firm like one of the most popular and influential Maine-Anjou breeding bulls of the last decade, WEIS All Me 10F, and some of the SimGenetic cattle will be sired by the resident herd sire SS/WEIS Relapse 483M. One can rest assured as time moves forward more and more of the cattle will bear the firm's identity on both sides of the pedigree ledgers!

Other than the TRUE Live Auction format, nothing is different at Weis Cattle. The cattle are as good if not better than they have ever been. We are confident that as you browse the pages of this sale book and study the videos that you will agree. The outfit had quite the Junior National and State Fair run this year with several breed champions and division winners. Expect more of the same from this set of stock as they are supported by some of the most decorated dams in the business. Also expect the customer service to ramp up and expect nothing short of what you invest in. You're not just buying a show heifer for your kids; you're investing in the skill set and knowledge that Wille and his team are eager to share.

If you should have any questions or needs related to the sale offering, please do not hesitate to reach out to anyone on the Innovation AgMarketing team for those needs. Please consider this your invitation to the live auction to be held at the Weis Sale Facility or bid online in real time on CCI.Live. Thank you for your interest in this outstanding program, and we look forward to seeing you at the sale.

Enjoy the cattle,

Jered Shipman · Graham Blagg · Tim Anderson · Tucker Wagner

TERMS & CONDITIONS

The terms of the sale are cash or good check payable to Innovation AgMarketing, LLC at the conclusion of the auction. Please contact Graham Blagg at (530) 913-6418 for Wiring Instructions or ACH Payment Information. Any person not completing payment will be pursued legally. The auction and registration will be videotaped. All cattle sell under the suggested terms & conditions of their respective breed association. All sales are final once the auctioneer says "SOLD." All females are sold as sound breeders. Seller guarantees each female to produce a live calf or transferrable embryos.

SUPPLEMENTAL INFORMATION

A supplement sheet and sale order will be available with up-to-date information the day prior to the sale. All announcements made on the sale block as well as updates to the supplement sheet will take precedence over material listed in this catalog.

LIABILITY

All persons who attend the sale do so at their own risk, legal or otherwise, for their safety or for behavior of the animals. The owners, sale management firm, and the sale staff assume no liability for property loss or any accident that may occur.

LOAD OUT & TRUCKING

Load out will begin at the conclusion of the sale. We ask that you pick up your purchases within a reasonable time. We are happy to assist you with reliable and affordable trucking arrangements. However, we assume no responsibility for trucking rates.

CUSTOMER SERVICE

Customer service and the day-to-day preparation of showing is something that we are very passionate about. We want to work with our customers and are always willing to lend a helping hand. If you would like to have your heifer clipped throughout the year prior to ANY show, you are welcome to bring the cattle back to Weis Cattle at no additional cost to be clipped by one of our talented team members. Advice relating to breeding, feeding, daily care, and/or any question you may have is always welcome. We are here to make your project a successful and enjoyable venture for your family!

REGISTRATION PAPERS

Registration papers will be transferred upon completion of payment for purchases. Please let the clerk know at the time of settlement how you wish to have your purchase(s) transferred. If you need your registration paper transfers expedited, please make plans to make settlement the night of the sale.

HERD HEALTH

All of the cattle selling will be ready for immediate shipment and accompanied by proper health certificates. Weis Cattle has a full vaccination program.

RETAINED FLUSH/CELL LINE

Weis Cattle will be retaining 1/3 embryo interest on each female in the offering. Weis Cattle reserves the right to the DNA cell line and cloning rights on all animals sold. All reproductive costs will be at the seller's expense and the buyer's convenience.
Sullivan Farms will be retaining 50% embryo interest in Lots 27, 30 & 46.

Plum Creek Annie Lu 4472

- One of the very best sets of females will be offered from the elite and infamous Plum Creek Annie Lu 9271 at Weis Cattle.
- This 2026 set is lights out all the way through but we love the blend of genetics and confirmation found in one of the very first daughters of the resident Angus herd sire, KR Copperhead Road 4075 to sell anywhere in the land.
- We are certain that many will appreciate the complete, fault-free poise and presence found in this creature.
- She sets near perfection at the surface with plenty of skeletal quality and flexibility in motion. She is set high from her blade with utmost elegance, while blending smoothly from shoulder to forerib with an abundance of center body and genuine shape from end to end.
- There is no doubt this female offers a unique combination of phenotypic excellence and a fresh, exciting pedigree. This premium blend of look, quality, and genetic opportunity has created one of the most intriguing Angus females we have ever offered. Invest with the utmost confidence!

Plum Creek Annie Lu 4472

- STAG Independence 110ET has done a tremendous job as the senior Angus herd sire for the Buck Creek Ranch firm of Indiana and Oklahoma. The cattle have been featured high sellers and well accepted as they continue to evolve in their early productive years.
- This female is very impressive in terms of mass, substance, and true performance, a combination that is rarely found on today's tan bark.
- The powerful presence begins at the ground as she plants with one of the biggest sets of feet attached to a loosely hinged skeletal design. This female is so dense in her body and muscle shape but strong spined and set level and square from hooks to pins.
- She has the generating look of production merit without reservation.
- The maternal power that she offers from both sides of her pedigree warrants serious interest on sale day!

Sire of Lot 3

- This March born daughter of Plum Creek Annie Lu 9271 will impress the masses that come by prior to or on the day of the live auction event. She is so captivating with an alert presence and a build that simplifies her ability to exhibit the goods she has to offer at a very high level.
- One that is more extended in both length and frame with added advantages of genuine skeletal width with a big upper rib shape and a square, wide set to her level pin placement.
- Her full sister was recently selected as the 2026 MO State Fair Champion Division II Angus Heifer for the Robinson family. There is no denying the consistency and generating power that 9271 possesses.
- This youthful female will prove to be more than the eyes can hold once everything comes together. We are certain she will be one of the impressive bred females of this potent Angus lineup!

With all that said, her future is as bright and full of potential as any in the offering.
- Younges Keymura Katy 674 is no stranger to the backdrop. Finding herself there many times for Nyla Wibholm with highlights including Reserve Division II Junior National Angus show in 2017, Reserve Senior Heifer Junior National Angus Show 2018, and Senior Heifer Champion at the National Western Stock Show.
- Past progeny of 674 have already shown the way with Mycah Weaver leading a Silveras Style 9303 sired daughter to Champion Open Angus Female at the 2022 Iowa State fair.
- Her presence is striking on the stand or in motion, as her angles and lines are very crisp and captivating. She is set high from her blade, smooth and tidy about her shoulder, with a very silk like transitional path like no other. Her skeletal quality is undeniable as she takes to the pen with utmost grace and confidence. With all that said, her future is as bright and full of potential as any in the offering.

**JWC CRUELLA 21J***Dam of Lot 13***WEIS CRUELLA 58N***\$29,000 Maternal Sister to Lot 13*

- JWC Cruella 21J is rapidly becoming one of the illustrious cornerstones for the Weis Family as she continues on her relentless trail of quality in production. Her ability to contribute a hard to make blend of power and look have made her a reliable source of both females and herd sires.
- Last year alone a JWC Cruella 21J son, WEIS Challenger 20N, was the high selling bull of the TC Weis Bull sale at \$69,000 to Griswold Cattle Company. Stephanie Krogh selected WEIS Cruella 58N out of the December "Two Is Better than One" sale held with Fitz Genetics for \$29,000 and the duo has been on a banner gathering warpath ever since!
- The youngest female of the Angus offering is glasslike in her silhouette, with razor sharp lines inclusive to an elegant flare. She is definitely one of the "show stopping" kind that can draw one in from close or afar.
- This one will only get better with time, and any daughter of JWC Cruella 21J is easy to bet on.

- This High Maine female is a direct daughter of one of Willie's "all-time" favorites! Penelope ET is owned jointly by the Seys and England Families of Illinois. In her show tenure, she was a dominant competitor at all levels. In the 2024 show year, she was awarded Reserve Champion of the Maine-Anjou Junior Nationals, Supreme Champion of the Illinois State Fair, Champion of the American Royal Livestock Show of Kansas City, and Reserve Champion Chi Composite Female of the NAILE in Louisville, KY. She, too, claimed multiple Grand and Reserve Grand Champion honors at some of the most competitive beef expos in the Midwest, such as Illinois, The Badger Brawl, and Down 4 The Cause. Quite the track record, and those winning ways have carried on to her ability to transmit in production!
- Lot 19 is sired by the popular BBR Memphis Mafia 3E ET, who only enhances the sheer quality of her illustrious donor dam. This one is very sharp and exquisite, with an awesome center body shape carried by an awesome set of running gear. Her balance is second to none, and her incredible build is a near replica of her dam.
- Invest with utmost confidence! Dallas is a huge fan, and Rory says that she will win them all.

- Introducing another big outlined, impressive breeding piece with the extras necessary for competitive exhibition quality!
- It's the first time a daughter of Ethan Wedeking's "Driving 80" donor has been offered in Saint Ansgar, but that doesn't mean her offspring are new to being sale highlights. Just in the last month a Great 1 sired market heifer geared for the big leagues sold in Halbach Cattle's Steer Sale for \$84,000 and just a couple falls before that a Here I Am steer led off the very same steer sale at \$62,500!
- The direct impact this veteran sire for phenotype improvement has had on the Maine-Anjou and Chianina breeds is no secret. NMR Maternal Made was bred by a legend who understood way more about breeding show cattle than any of us knew or may ever know. The amount of look, bone, and power that he lends to a cow's benefit is immeasurable, and when it's there, it can be as good as expected knowing what we all know now.
- This creature sets huge at the ground, stout in her bone, flexible in her joints, and true in her underline from heart to flank. She is set bold in her forerib, deep in her center rib, square hiped, and smooth and deep tying into the base of her quarter. She has a very productive look that will come alive once her competitive edge is utilized on the tanbark.
- Time is and always will be of the essence.

Dam of Lot 28

SIMN 213K - "NAT"

2023 NUHS 3rd Overall MaineTainer Heifer
Dam of Lot 28

- A futuristic showing look and all the genetic power to go the distance.
- Lot 28 is a remarkable breeding piece from the SIMN 213K donor owned by the Wilkins Family. 213K also known as "Nat" stems from the disciplined and focused breeding program of Faris Simon's in California and carries an impressive rap sheet from her days on the tanbark.
- Purchased from the 2022 female sale, "Nat" was Brenna Wilkin's sleeper pick. She may have been green at the start, but it wasn't long and it was off to the races. That following summer the pair was 3rd Overall MaineTainer and 4th Overall Chianina Composite female at the Junior Nationals, and Champion MaineTainer and 3rd Overall at the Iowa State fair. 213K finished her show career off by being selected as the Reserve Junior MaineTainer Heifer in Louisville and Grand Champion MaineTainer Heifer in both the Junior and Open shows at the 2024 Cattlemen's Congress!
- We dig this female and everything she represents from her futuristic build and body shape to her genuine base width and dimension. There is no doubt that she is a great fit for any family no matter how lofty the aspirations. She will prove to be a generator focused on the basics that move an operation forward.

Maternal Brother to Lot 31

- The Shorthorn Plus division is loaded with talent this year in St. Ansgar, and this direct daughter of FSF Near Perfect is from a repeat performer of familiar quality to this sale offering.
- Kanes 9116 ET is a daughter of the female making Doctor Who from the famed Diamond "Kanes Lexi." "Kanes Lexi" has never allowed the bar to be lowered, only raised, and this prospect is no different.
- She is the kind that would make you switch breed affiliations, as she makes cattle breeding look simplistic. She offers the build and power to provide mating flexibility after her show career and could be used for producing those hard to come by, high end, Shorthorn show steers that are in high demand for those Texas Majors.
- Invest with confidence that your ROI is closer than you think.

- Pay attention to another high-profile prospect, registered as a Shorthorn Plus. We are not stating lightly the depth of talent affiliated with this breed class. The Shorthorn Plus cattle in this offering will be highly competitive on the national or junior national scene and are the right kind to experience early success in the deep and competitive ORB Division of the Texas Majors.
- Her dam, MINN Cinderella 901G, is one of the most prolific and proven MaineTainer females of her time. Besides being a competitive and successful champion herself, she continues to shell out quality, as evidenced by this creature with a big-time future.
- The genetic ledger is saturated with hair and general quality. She is one of the most attractive and intriguing females of this elite offering. She is dense, square, structurally sound, and equipped with the presence found only in those that win consistently.
- Sure enough, a show heifer backed by one of the best in the business.

RJ TRUST FUND 212K

\$135,000 Sire of Lots 33 & 34

- We initiate the Simmental offering with a tandem of RJ Trust Fund 212K daughters. The past Live Lot Feature of the Embryos on Snow sale series continues to leave his mark of true beef value on the industry, as evidenced within this lineup. As you browse this section, 212K will surface throughout the remainder of the stock in the sale book.
- One of the very best January born prospects to sell this fall without reservation! She is flat good! Her feet and toe spread are big and ideal. Her bone is big but flat and smooth about her joint transitions, her ability to move around the pen is effortless and collected, her center body is square and deep, and she leaves you with plenty of shape and power in a smooth and deep tying kind.
- When you set your eyes on her, we are confident that you will agree. If you want to gear up to win early, like the calf divisions at any of the winter majors with a chance at a piece of the show, you may just set that satchel down here. She will be very impressive and competitive next summer as well for that Junior National run and any Midwest State Fairs. She's a legit competitor not to be taken lightly.

XXX Bailey's Pridette 1D

- The first of a trio of sisters from the past Weis high selling highlight, R2C Bailey 314L. 314L is the daughter of WLE Copacetic E02 that was selected and campaigned by the Pryor Family of Woodbine, IA. She was crowned Champion Simmental and Supreme Overall Female at the 2024 Iowa Beef Expo, Reserve Champion Female at the 2024 AJSA National Classic, the 2025 Reserve Champion Simmental Female of the National Western Stock Show, as well as earning multiple division honors throughout her show career.
- This daughter of RJ Trust Fund 212K has a lot of her dam in her. For those who witnessed 314L the year she sold, you were impressed with her power and maturity. "Trust Fund" only added bone and shape to move the phenotypic equation closer to abundantly ideal.
- A breeding piece for sure with show ring quality and appeal for those evaluators who remember what this industry is truly for. Her shape can be overwhelming, but when she sets to go, she moves without issue and utmost flexibility. Her center rib is bold and round with tremendous upper body shape as well. We love how her neck is attached and the femininity about her skull. She has the gear to get it all done.

3rd Overall Purebred Simmental Heifer

\$60,000 Maternal Sister to Lot 37

WEIS RAYA 38N

\$65,500 Maternal Sister to Lot 37

- SS/WEIS Relapse 483M is the WLE Copacetic E02 son that was featured in the 2025 TC Reds and Weis Cattle Bull Sale. Willie thought enough of the bull to buy out the partnership and own the walking rights on one that is as high quality as most A.I. options in the business. In fact, in the 2026 edition of the TC Reds and Weis Cattle Bull and Bred Female Sale, a pair of VCL Foresight maternal sisters to 483M averaged \$21,500, adding more validity to his influence on this young female.
- The dam of this attractive show heifer prospect is, KC2 Miss Victoria 219K. In her first set of ET calves born in 2025, 219K or as Dallas and Rory call her, "Raya" knocked it out of the park. Three daughters by TJSC Coping With Destiny 9K averaged over \$46,000. Those heifers purchased by the Lashmett, Schick, and Sampson families have been finding success in the show ring. Some of the highlights of those wins are 3rd Overall Simmental 2026 Junior Nationals, Champion Simmental Female 2026 Missouri State Fair Open Show, and Reserve Simmental Female Illinois Winter Warm-up among others.
- A May born female that comes with a bright and futuristic look of stunning merit. One that sets high and neat from her blade with zero deviation in any of her transitional points of evaluation. We, too, love the rib shape with the bold outer turn as you evaluate her down her spine, with the distinct advantage for pin width and set as well.
- She's marked with a unique baldy flare as she blends all of the "greats" when it comes to sire power and donor merit. Bred to be a champion and produce those banner winners in production.

HPF Victoria B396E

- Boy, oh boy, do we have a treat for all on this pair of flush sisters! If you don't like these even the least bit, you had better check your pulse or just go right on ahead and check out of the livestock game!
- This pair of direct daughters of the great and proven 6H should get your blood flowing with an added adrenaline rush. In actuality, the only thing that sets them apart is color pattern, as they share the same kind and build from each angle of evaluation.
- Lot 39, the solid black February prospect, would turn any good stockman's attention. She is desirable in terms of her width of chest while keeping the top side of her blade hinged as it should be. She's a big barreled, big backed, stout hipped one with big, stout bones and huge, round feet. We like how her front third is constructed and are excited about her maturity stages, as she will evolve into a great necked beast when she's heavy with calf.
- Until that production cycle starts, this is one of two to run at those flat, rafter backed ones, as power is on its way back into the equation when they can move like this pair.

- Lot 40, the white footed baldy of the sisterly tandem, obviously has the slight maturity advantage and is one that we believe should not be taken lightly.
- She is set as wide and genuine at the corners as lil sis is but is blessed with a depth advantage to her center, rear rib, and flank. We appreciate the impeccable underline as she transitions level to her high and neatly tucked chest floor. This creature is a bit flatter and smoother in her neck design. However, she doesn't read with all the real power and shape her little sister can claim, but she's still abundant in what she brings to the table.

SO Remedy 7F

B&K Cream Soda 8D

KC2 Miss Victoria 6H

HPF Victoria B396E

- This female could very well be the best one of this mating to exist at this stage of the game! SO Remedy 7F was easily the go-to sire of choice to team up with the dominant 6H "Cope" sired female. It has proven itself to be marketable and does come with predictable generating potential, as exemplified through Lot 37.
- The "Remedy" sister may not be as burly as her "Trust Fund" sister, but the same quality in build and kind does absolutely exist. We believe her to be the higher attached, longer necked sister that is incredibly smooth as she transitions through her pattern. In motion, she carries her front third with a bit more pride and attentiveness as she tracks flawlessly off both ends.
- It's a proven mating and it has been the "go-to" for some time, so trust the process and the outfit that keeps bringing the quality.

WEIS Miss Lilly 35J

JPLF/RBS You're the One - "Rudy"

- WEIS Miss Lilly 35J was another past female sale highlight that is now supplying daughters for the sale. She was the Roeder families selection and went on the rack up honors as the 4th Overall Simmental Female at the 2022 Simmental Junior Nationals and later that show season Champion Simmental Female at the Oklahoma City Cattlemen's Congress
- Last year was a breakout year for 35J and set her anchor deeper in the heart of the donor lineup. WEIS/KCKR Lilly 2208N was purchased by Kaison Howard and went on to be the 8th Overall Simmental Female at the 2026 Simmental Junior National and then in August was Champion Simmental and 3rd Overall female at the Iowa State Fair. WEIS/KCKR Lilly 2280N was purchased by Kaden Kabela and the duo had a good run as well ending out the summer as the 4th Overall Simmental Female at the Iowa State Fair Open Show.
- This is the only chance to buy a daughter of 35J this year and Lot 45 has the same combination of power and structure that her maternal sisters did at this time last year. She is bold in her upper rib cage but still flexes her spine and ties her neck high out the topside of her shoulder and for a green April heifer she is square and secure from hock to ground.
- Don't miss out on the genetic opportunity and all the fun that can be had next summer!

MME Surrender's Pride 057G

- Plenty of storied genetics and sire power represented in this outstanding prospect!
- Besides being sired by the Featured Live Lot of the 2023 Embryos on Snow Denver Edition, RJ Trust Fund 212K, she hosts the great Profit and one of the timeless maternal contributors to the Weis Cattle program over the years, HMYH Surrender 05C.
- If you prefer them with a bit more power and shape or junk in the trunk, then this is your diva of choice. She blends one of the burliest packages, with big muscles on a set of flexible, correct running gear. Once you are done exhibiting this unique beast, keep an open mind and mate her to your bulls of choice regardless of breed.

MINN Katie 9B

- One of the many dual registered options we have to offer this year from one of the most dominant donor families in the industry. MINN Katie 09B, her maternal granddam, has written one of the biggest books of success in the show cattle business, and when blended with the timeless Colburn Primo 5153, there's no running away from even more success to be had.
- Besides being sired by the featured Live Lot of the 2023 Embryos on Snow Denver Edition, RJ Trust Fund 212K, she hosts the great Profit and one of the timeless maternal contributors to the Weis Cattle program over the years, HMYH Surrender 05C.
- A pedigree proven on both sides, with a winning tradition and millions of dollars of progeny sold, so invest with confidence.

Miss Penny 15B

Miss Proud 112X (Heat Wave)

- We are in a groove of Low Chianina/SimGenetic exhibition options from dominant cow families that were bred by some of the nation's finest.
- This daughter of the most popular sire of choice for the tanbark, TJSC Coping With Destiny 9K, is from a very unique daughter of the GOAT, MR HOC Broker, and then back to a timeless and productive daughter of Heat Wave bred in the Holtkamp program.
- Her design is loose but collected as she takes to the pen with arrogant confidence. She has the big feet and bones that only incentivize the purchase plan, while her balance of rib, shape, and poise place the ink on the lower right-hand side of the check.

SS/WEIS Relapse 483M

BMW Y Not 414L ET

VEF Ant 60G - "Winnie"

TR/TKM Y Not PCA

- A dual registered option once again, hosting papers as a Percentage Simmental or a High Chianina.
- Her donor dam BMW Y Not 414L ET is new to the donor pen but one that we are confident will be heard of again in the future. 414L was shown by Braden Smalley and racked up many wins within the Chiangus division like many before her, bearing the BMW Y Not prefix and name. A 3rd Overall finish at the 2024 Chi Junior Nationals and ended her run as the Reserve Chiangus Female at the 2025 National Western Stock Show.
- We do appreciate the body shape and design of this April born prospect that is sired by the rising star of the bull battery, SS/WEIS Relapse 483M.
- She is very sensible in her size for her age, with a huge rib cage and extra punch to her wide constructed skeletal design. Study this female closely on sale day, she has the futuristic build and style necessary to go the distance!

Miss TC WEIS Coco M100

J6C WEIS Miss Coco 16F

- An April born prospect from the proven J6C WEIS Miss Coco 16F cow family that comes with the usual bells and whistles in terms of presence and feature, but the sire injection of the TC owned SO Remnant 418J brought the extras for shape and dimension.
- The influence of J6C Coco 16F is affiliated with extreme refinement and femininity, with ideal ear set and skull design. Her cattle tend to be longer sided and bigger outlined, and her daughters in production have stellar udder structure, ideal teat spacing and size, and volumes of milk.
- Many should find this round bodied, big ended specimen and appreciate her for her foot quality and ability to move about the surface. She's a lady, but a lady with a little more plus, as she adds the third dimension with confidence.

TL Twinkie 160K

UDE Princess 905G

6259

- Another dominating breeding piece with the competitive look of quality.
- Lot 54 is the first daughter to be offered out of TL Twinkie 160K, a multiple time champion for Brenna Wilkins. 160K was a Division Champion and 6th Overall Percentage Simmental Female at both the 2023 and 2024 AJSA National Classic. She ended her show career by being named Champion Simmental and Supreme Overall at the 2024 World Beef Expo!
- Only One is a sire that consistently sires heavy structured, functional, and low maintenance females and the cross on the the Second Chance 601H sired "Twinkie" resulted in just that.
- This female is built from the surface with big, soft feet and legs, added body, and genuine skeletal width. She pours the very best cocktail for phenotype and genetic diversity that will allow her the flexibility to generate long after her show career.

\$50,000 Dam of Lot 55

R2C WHEELER REGAL 4769

Maternal Sister to Lot 55

- Cowboys, cowgirls, cattlemen, and cattlegirls alike should find and appreciate this prototype SimAngus female.
- Maternally, she comes from one of the very best direct daughters of Plum Creek Annie Lu 4472, sired by the Schaff Angus Valley bred S A V Resource 1441.
- Second Chance 601H adds to the style and balance points in this equation, with power and brood cow prowess contributed by the bottom side from the Angus bred donor dam.
- We are more than certain that good cattle enthusiasts will gravitate toward this female. She has so much to offer the business in terms of profit driving and basic functional traits like skeletal quality, milk production, fertility, and pounds of calf weaned.
- This one has plenty of the "big" pieces, and when mated correctly post show career, one should get saved up and prepared for the next tax bracket. She is as legit and true as any of them between the covers of this sale book.

Thank You
for your interest!
